SPONSOR	INVESTMENT MANAGER	TRUSTEE
NATIONAL HIGHWAYS AUTHORITY OF INDIA	NATIONAL HIGHWAYS INFRA INVESTMENT MANAGERS PRIVATE LIMITED	IDBI TRUSTEESHIP SERVICES LIMITED

ISSUE OF 37,85,37,900^ (THE "UNITS") BY WAY OF AN INSTITUTIONAL PLACEMENT TO ELIGIBLE INVESTORS, REPRESENTING AN UNDIVIDED BENEFICIAL INTEREST IN THE NATIONAL HIGHWAYS INFRA TRUST (THE "TRUST") AT A PRICE OF ₹ 133.50 PER UNIT ("ISSUE PRICE"), AGGREGATING TO 50,53,48,09,650 BY THE TRUST (THE "ISSUE"). THE FLOOR PRICE IS ₹ 133 PER UNIT*. EACH BIDDER HAD TO MAKE A BID AT OR ABOVE THE FLOOR PRICE. BIDS BELOW THE SPECIFIED FLOOR PRICE, WERE LIABLE TO BE REJECTED.**

^ THE IM BOARD BY WAY OF ITS RESOLUTION DATED FEBRUARY 5, 2025 AND THE UNITHOLDERS OF THE TRUST BY WAY OF THEIR RESOLUTION DATED MARCH 10, 2025 HAVE APPROVED THE ISSUE AT OR ABOVE THE BASE PRICE OF ₹ 131.94 PER UNIT.

****AS APPROVED BY THE IM BOARD BY WAY OF ITS RESOLUTION DATED MARCH 17, 2025.***

*****AS APPROVED BY THE IM BOARD BY WAY OF ITS RESOLUTION DATED MARCH 19, 2025.***

THE ISSUE, AND THE DISTRIBUTION OF THE PRELIMINARY PLACEMENT DOCUMENT AND THIS PLACEMENT DOCUMENT, HAS BEEN MADE ONLY TO ELIGIBLE INVESTORS IN RELIANCE UPON CHAPTER 7 ON '*GUIDELINES FOR PREFERENTIAL ISSUE AND INSTITUTIONAL PLACEMENT OF UNITS BY LISTED INVITS*' OF SEBI MASTER CIRCULAR NO. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 DATED MAY 15, 2024, AS AMENDED FROM TIME TO TIME ("SEBI INSTITUTIONAL PLACEMENT GUIDELINES") AND THE SECURITIES AND EXCHANGE BOARD OF INDIA (INFRASTRUCTURE INVESTMENT TRUSTS) REGULATIONS, 2014, AS AMENDED FROM TIME TO TIME ("INVIT REGULATIONS"). NO OFFER WAS MADE TO THE PUBLIC OR ANY OTHER CLASS OF INVESTORS.

The Units of the Trust are proposed to be listed on National Stock Exchange of India Limited ("**NSE**") and BSE Limited ("**BSE**" and together with NSE, the "**Stock Exchanges**"). The Trust has received in-principle approval from NSE and BSE for listing of the Units pursuant to letters, each dated March 17, 2025. Applications shall be made to the Stock Exchanges for obtaining the final listing and trading approvals for the Units to be Allotted pursuant to the Issue. The Stock Exchanges assume no responsibility for the correctness of any statements made, opinions expressed or reports contained herein. Admission of the Units to be Allotted pursuant to the Issue for trading on the Stock Exchanges should not be taken as an indication of the merits of the Trust or of the Units. A copy of the Preliminary Placement Document, and this Placement Document has been delivered to NSE and BSE.

The Issue Price, should not be taken to be indicative of the market price of the Units after the Units are listed. No assurance can be given regarding an active or sustained market for trading in the Units or regarding the price at which the Units will be traded after listing. This Placement Document has not been, and will not be, registered as a prospectus, will not be circulated or distributed to the public at large in India or any other jurisdiction, and will not constitute a public offer in India or any other jurisdiction.

The Units have not been and will not be registered under the United States Securities Act of 1933, as amended ("**Securities Act**") and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable U.S. state securities laws. Accordingly, the Units are only being offered and sold outside the United States in "offshore transactions" as defined in, and in reliance on, Regulation S under the Securities Act ("**Regulation S**") and the applicable law of the jurisdictions where such offers and sales occur. The Units are transferable only in accordance with the restrictions described under the section entitled *"Selling and Transfer Restrictions"* on page 432 of this Placement Document.

THIS PLACEMENT DOCUMENT WILL BE PERSONAL TO EACH ELIGIBLE INVESTOR. THIS PLACEMENT DOCUMENT HAS BEEN PREPARED BY THE TRUST SOLELY FOR PROVIDING INFORMATION IN CONNECTION WITH THE ISSUE. YOU MAY NOT, AND ARE NOT AUTHORIZED TO, (1) DELIVER THIS PLACEMENT DOCUMENT TO ANY OTHER PERSON; OR (2) REPRODUCE THIS PLACEMENT DOCUMENT IN ANY MANNER WHATSOEVER. ANY DISTRIBUTION OR REPRODUCTION OF THIS PLACEMENT DOCUMENT, IN WHOLE OR IN PART, IS UNAUTHORIZED. FAILURE TO COMPLY WITH THIS INSTRUCTION MAY RESULT IN A VIOLATION OF THE SECURITIES AND EXCHANGE BOARD OF INDIA (INFRASTRUCTURE INVESTMENT TRUSTS) REGULATIONS, 2014, AS AMENDED OR OTHER APPLICABLE LAWS OF INDIA AND OF OTHER JURISDICTIONS.

INVESTMENTS IN UNITS INVOLVE RISKS AND INVESTORS SHOULD NOT INVEST ANY FUNDS IN THE ISSUE UNLESS THEY CAN AFFORD TO TAKE THE RISK OF LOSING THEIR ENTIRE INVESTMENT. IN MAKING AN INVESTMENT DECISION, INVESTORS MUST RELY ON THEIR OWN EXAMINATION OF THE TRUST, THE UNITS, THE ISSUE, AND THIS PLACEMENT DOCUMENT, INCLUDING THE RISKS INVOLVED. INVESTORS ARE ADVISED TO CAREFULLY READ THIS PLACEMENT DOCUMENT, INCLUDING THE SECTION ENTITLED "*RISK FACTORS*" ON PAGE 43 BEFORE MAKING AN INVESTMENT DECISION. EACH ELIGIBLE INVESTOR IS ADVISED TO CONSULT ITS OWN ADVISORS, ABOUT THE CONSEQUENCES OF AN INVESTMENT IN THE UNITS BEING ISSUED PURSUANT TO THE PRELIMINARY PLACEMENT DOCUMENT AND THIS PLACEMENT DOCUMENT.

Unless a serially numbered Preliminary Placement Document along with an Application Form was addressed to a particular Eligible Investor, no invitation to offer shall be deemed to have been made to such Eligible Investor to make an offer to subscribe to Units pursuant to the Issue. For further details, please see the section entitled "*Issue Procedure*" on page 443. The distribution of the Preliminary Placement Document and/or this Placement Document or the disclosure of its contents without the Trustee's or Investment Manager's prior consent, to any person, is unauthorized and prohibited.

Each addressee, by accepting delivery of the Preliminary Placement Document and this Placement Document, agrees to observe the foregoing restrictions and shall make no copies of the Preliminary Placement Document or any documents referred to in the Preliminary Placement Document this Placement Document.

NOTICE TO INVESTORS

The statements contained in this Placement Document relating to the Trust and the Units are, in all material respects, true and accurate and not misleading, and the opinions and intentions expressed in this Placement Document with regard to the Trust and the Units are honestly held, have been reached after considering all relevant circumstances and are based on reasonable assumptions and information presently available to the Investment Manager. There are no material facts in relation to the Trust and the Units, the omission of which would, in the context of the Issue, make any statement in this Placement Document misleading in any material respect. Further, the Investment Manager has made all reasonable enquiries to ascertain such facts and to verify the accuracy of all such information and statements.

Each Bidder must rely on his/her own examination of the Trust and the merits and risks involved in investing in the Units. Bidders should not construe the contents of this Placement Document as legal, business, tax, accounting or investment advice.

No person is authorized to give any information or to make any representation not contained in this Placement Document and any information or representation not so contained must not be relied upon as having been authorized by or on behalf of the Trust or by or on behalf of the Lead Managers. The delivery of this Placement Document, at any time, does not imply that the information contained in it is correct as of any time subsequent to its date.

Certain U.S. Matters

The Units to be issued pursuant to the Issue have not been approved, disapproved or recommended by any regulatory authority in any jurisdiction, including the United States Securities and Exchange Commission ("**SEC**"), any other federal or state authorities in the United States, the securities authorities of any non-United States jurisdiction or any other United States or non-United States regulatory authority. No authority has passed on or endorsed the merits of the Issue or the accuracy or adequacy of this Placement Document. Any representation to the contrary is a criminal offence in the United States and may be a criminal offence in other jurisdictions.

The Units have not been and will not be registered under the Securities Act and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws. Accordingly, the Units are only being offered and sold outside the United States in "offshore transactions" as defined in, and in reliance on, Regulation S and the applicable laws of the jurisdictions where those offer and sales occur. The Units are transferable only in accordance with the restrictions described under the section "*Selling and Transfer Restrictions*" on page 432 of this Placement Document.

Each purchaser of the Units offered by this Placement Document will be deemed to have made the representations, agreements and acknowledgments as described in this section titled "*Notice to Investors – Representations by Eligible Investors*" on page 1 and in the section entitled "*Selling and Transfer Restrictions*" on page 432.

Notice to Investors in certain other jurisdictions

The distribution of this Placement Document and the issue of the Units in certain jurisdictions may be restricted by law. As such, this Placement Document does not constitute, and may not be used for, or in connection with, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorized or to any person to whom it is unlawful to make such offer or solicitation. In particular, no action has been taken by the Sponsor Group, Investment Manager or the Lead Managers which would permit an Issue of the Units or distribution of this Placement Document in any jurisdiction, other than India. Accordingly, the Units may not be offered or sold, directly or indirectly, and neither this Placement Document nor any Issue materials in connection with the Units be distributed or published in or from any country or jurisdiction that would require registration of the Units in such country or jurisdiction. For details, please see the section entitled "*Selling and Transfer Restrictions*" on page 432 .

Representations by Eligible Investors

References herein to "you" or "your" is to each Eligible Investor in the Issue.

By purchasing, or subscribing to, Units pursuant to the Issue, you are deemed to have represented to the Trustee, the Investment Manager and the Lead Managers, and acknowledge and agree as follows:

(1) You are entitled to acquire the Units under the laws of all relevant jurisdictions and that you have all necessary capacity and have obtained all necessary consents, governmental or otherwise and authorisations to enable you to commit to this participation in the Issue and to perform your obligations in relation thereto (including, without limitation, in the case of any person on whose behalf you are acting, all necessary consents and authorisations to agree to the terms set out or referred to in this Placement Document) and will honour such obligations;

(2) You undertake to (i) hold, manage or dispose of any Units that are Allotted to you in accordance with the InvIT Regulations and all other applicable laws; and (ii) to comply with all requirements under applicable law in relation to reporting obligations, if any, in this relation;

(3) You will make all necessary filings, in relation to the Issue and your investment in Units, with appropriate governmental, statutory or regulatory authorities, including the RBI, as may be required, in accordance with applicable law, including in your respective jurisdiction;

(4) You agree to provide on request in a timely manner, and consent to the use and disclosure (including to any taxation or other regulatory authorities) of, any information or documentation in relation to yourself and, if and to the extent required, the direct or indirect beneficial ownership of your Units (if any), as may be necessary for the Trust (or the Trustee and its agents) and the Investment Manager to comply with any regulatory obligations and/or prevent the withholding of tax or other penalties under FATCA, the CRS or other similar exchange of tax information regimes. You acknowledge and agree that you shall have no claim against the Trust (or the Trustee and its agents) and the Investment Manager for any losses suffered by you (including in relation to the direct or indirect beneficial ownership of your Units (if any)) as a result of such use or disclosure of such information or documentation to, any relevant regulatory, governmental or statutory authority;

(5) You are aware that the Units have not been, and will not be, registered through a prospectus under the InvIT Regulations, or under any other law in force in India. The Preliminary Placement Document and this Placement Document has been submitted to the Stock Exchanges;

(6) You confirm that, either: (i) you have not participated in or attended any investor meetings or presentations by the Trust, or its agents ("**Presentations**") with regard to the Trust, the Units or the Issue; or (ii) if you have participated in or attended any Presentations, you understand and acknowledge that the Lead Managers or the Trustee may not have knowledge of the statements that the Trust, or its agents may have made at such Presentations and are therefore unable to determine whether the information provided to you at such Presentations may have included any material misstatements or omissions, and, accordingly you acknowledge that the Lead Managers, the Trustee (or its agents) or the Investment Manager have advised you not to rely in any way on any information that was provided to you at such Presentations;

(7) None of the Investment Manager, the Trustee or any of the Lead Managers or any of their respective shareholders, members, directors, officers, employees, counsel, representatives, agents or affiliates is making any recommendations to you or advising you regarding the suitability of any transactions it may enter into in connection with the Issue and that participation in the Issue is on the basis that you are not and will not, up to the Allotment, be a client of the Lead Managers;. None of the Investment Manager or any of their respective shareholders, members, employees, counsel, officers, directors, representatives, agents or affiliates have any duties or responsibilities to you for providing the protection afforded to their clients, or for providing advice in relation to the Issue and are in no way acting in a fiduciary capacity towards you;

(8) All statements, other than statements of historical fact included in this Placement Document, including, without limitation, those regarding the Trust's financial position, business strategy, plans and objectives for future operations, the Investment Objectives, are forward-looking statements. Such forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause actual results to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding the Trust's present and future business strategies and the environment in which the Trust will operate in the future. You should not place undue reliance on forward-looking statements, which speak only as of the date of this Placement Document. The Trust the Investment Manager or any of their respective shareholders, members, directors, officers, employees, counsel, representatives, agents, associates or affiliates assume no responsibility to update any of the forward-looking statements contained in this Placement Document;

(9) You have been provided a serially numbered copy of the Preliminary Placement Document and will be deemed to have read the Preliminary Placement Document in its entirety, including, in particular, the section entitled "*Risk Factors*" on page 43 ;

(10) You are aware and understand that the Units are being issued only to Eligible Investors and are not being offered to the general public and the Allotment shall be on a discretionary basis;

(11) You have made, or are deemed to have made, as applicable, the representations provided in the section entitled "*Selling and Transfer Restrictions*" on page 432;

(12) You (i) are not acquiring or subscribing for the Units as a result of any "directed selling efforts" (as defined in Regulation S) and (ii) are acquiring or subscribing for the Units in an "offshore transaction" as defined in, and in reliance on, Regulation S, and are not an affiliate of the Trust or the Lead Managers or a person acting on behalf of such an affiliate;

(13) You understand and agree that the Units are transferable only in accordance with the restrictions described in the section entitled "*Selling and Transfer Restrictions*" on page 432, and you warrant that you will comply with such restrictions;

(14) In making your investment decision, you have (i) relied on your own examination of the Trust, the Units and the terms of the Issue, including the merits and risks involved, (ii) made and will continue to make your own assessment of the Trust, the Units and the terms of the Issue based solely on the information contained in this Placement Document, (iii) consulted your own independent advisors or otherwise have satisfied yourself concerning, without limitation, the effects of local laws, (iv) relied solely on the information contained in this Placement Document and no other disclosure or representation by the Investment Manager or the Lead Managers or any other party; (v) received all information in this Placement Document that you believe is necessary or appropriate in order to make an investment decision in respect of the Trust and the Units, and (vi) relied upon your own investigation in deciding to invest in the Issue;

(15) You have such knowledge and experience in financial, business and investment matters as to be capable of evaluating the merits and risks of an investment in the Units. You and any accounts for which you are subscribing to the Units, (i) are each able to bear the economic risk of the investment in the Units; (ii) will not, subject to the terms of the Placement Document, look to any of the Investment Manager, the Trustee, or the Lead Managers or any of their respective shareholders, members, employees, counsel, officers, directors, representatives, agents or affiliates for all, or part, of any such loss or losses that may be suffered due to your investment in the Units; (iii) are able to sustain a complete loss on the investment in the Units; (iv) have no need for immediate liquidity with respect to the investment in the Units, and (v) have no reason to anticipate any change in your or their circumstances, financial or otherwise, which may cause or require any sale or distribution by you or them of all or any part of the Units. You acknowledge that an investment in the Units involves a high degree of risk and that the Units are, therefore, a speculative investment. You are seeking to subscribe to the Units in the Issue for your own investment and not with a view to resell or distribute in any manner that could characterise you as an underwriter or similar party in any jurisdiction;

(16) The Trustee, the Investment Manager, the Lead Managers or any of their respective shareholders, members, directors, officers, employees, counsel, representatives, agents or affiliates have not provided you with any legal, financial or tax advice or otherwise made any representations regarding the tax consequences of the Units (including but not limited to, the Issue and the use of the proceeds of the Issue). You will obtain your own independent legal, financial or tax advice and will not rely on the Investment Manager, the Trustee, the Lead Managers or any of their respective shareholders, members, employees, counsel, officers, directors, representatives, agents or affiliates or the Investment Manager when evaluating the tax consequences in relation to the Units (including but not limited to the Issue and the use of the proceeds of the Issue). You waive and agree not to assert any claim against the Lead Managers, the Trustee or the Investment Manager with respect to the tax aspects of the Units or the Issue or as a result of any tax audits by tax authorities, in relation to the Units and the Issue, wherever situated;

(17) You are not the Trustee, or the Valuer or an employee of the Valuer involved in the valuation of the Project SPVs;

(18) You are aware that (i) we have received the in-principle approval from NSE dated March 17, 2025, and the in-principle approval from BSE dated March 17, 2025, respectively, and (ii) the application for the final listing and trading approvals will be made only after Allotment. There can be no assurance that the final approvals for listing and trading of the Units will be obtained in a timely manner, or at all. The Trust, the Trustee and the Investment Manager shall not be responsible for any delay or non-receipt of such final approvals (except to the extent prescribed under the InvIT Regulations) or any loss arising from such delay or non-receipt;

(19) You shall not undertake any trade in the Units credited to your demat account until such time that the final listing and trading approvals for the Units have been issued by the Stock Exchanges, subject to compliance with applicable law;

(20) The only information you are entitled to rely on, and on which you have relied, in committing yourself to acquire the Units, shall be contained in the Preliminary Placement Document and this Placement Document, such information being all that you deem necessary to make an investment decision in respect of the Units and that you have neither received nor relied on any other information given or representations, warranties or statements made by the Investment Manager, and neither the Investment Manager will be liable for your decision to accept an invitation to participate in the Issue based on any other information, representation, warranty or statement that you have obtained or received;

(21) You understand that the Units to be Allotted in this Issue will, when issued, be credited as fully paid and will rank *pari passu* in all respects with all other Units, including in respect of the right to receive all distributions declared, made or paid in respect of the Units after the Allotment. For details, please see the section entitled "*Distribution*" on page 395;

(22) You are eligible to Bid for, and hold, Units, so Allotted. Your unitholding after the Allotment of the Units shall not exceed the investment level permissible as per any applicable law and regulation;

(23) You agree to indemnify and hold the Trustee, Investment Manager, and the Lead Managers harmless from any and all costs, claims, liabilities and expenses (including legal fees and expenses) arising out of or in connection with any breach of the representations and warranties in this section;

(24) The Trustee, the Investment Manager, the Lead Managers, their respective shareholders, members, employees, counsel, offices, directors, representatives, agents or affiliates, will rely on the truth and accuracy of the foregoing representations, warranties, acknowledgements and undertakings which are given to the Lead Managers on their own behalf and on behalf of the Trust, the Investment Manager, the Trustee, and the same are irrevocable;

(25) You are eligible to invest in India and in the Units under applicable law, including the FEMA Rules, and have not been prohibited by SEBI or any other statutory, regulatory or judicial authority from buying, selling or dealing in securities;

(26) You understand that, subject to the terms of the Preliminary Placement Document and this Placement Document, neither the Lead Managers, the Investment Manager nor the Trustee has any obligation to purchase or subscribe to all, or any part, of the Units purchased by you in the Issue, or to support any losses directly or indirectly sustained or incurred by you for any reason whatsoever in connection with the Issue;

(27) Any dispute arising in connection with the Issue will be governed by, and construed in accordance with, the laws of the Republic of India and the courts at New Delhi shall have exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Preliminary Placement Document or this Placement Document; and

(28) You have made, or are deemed to have made, as applicable, the representations provided in this section and each of the representations, warranties, acknowledgements and agreements set out above shall continue to be true and accurate at all times, up to, and including, the Allotment, listing and trading of the Units in the Issue.

Available Information

The Investment Manager agrees to comply with any undertakings given by it from time to time in connection with the Units to the Stock Exchanges and, without prejudice to the generality of foregoing, shall furnish to the Stock Exchanges all such information as the rules of the Stock Exchanges may require in connection with the listing of the Units on such Stock Exchanges.

IMPORTANT NOTICE

THE VALUE OF UNITS AND THE INCOME DERIVED FROM THEM MAY FALL AS WELL AS RISE. UNITS ARE NOT OBLIGATIONS OF, DEPOSITS IN, OR GUARANTEED BY, THE TRUST, THE TRUSTEE, THE INVESTMENT MANAGER, THE LEAD MANAGERS OR ANY OF THEIR RESPECTIVE SHAREHOLDERS, MEMBERS, EMPLOYEES, COUNSEL, OFFICERS, DIRECTORS, MEMBERS, REPRESENTATIVES, AGENTS, ASSOCIATES OR AFFILIATES. AN INVESTMENT IN UNITS IS SUBJECT TO INVESTMENT RISKS, INCLUDING THE POSSIBLE LOSS OF THE PRINCIPAL AMOUNT INVESTED. FURTHER, LISTING OF THE UNITS ON THE STOCK EXCHANGES DOES NOT GUARANTEE A LIQUID MARKET FOR THE UNITS. INVESTORS HAVE NO RIGHT TO REQUEST THE TRUST, THE TRUSTEE, THE SPONSOR OR THE INVESTMENT MANAGER OR ANY OF ITS SHAREHOLDERS, MEMBERS, EMPLOYEES, COUNSEL, OFFICERS, DIRECTORS, MEMBERS, REPRESENTATIVES, AGENTS, ASSOCIATES OR AFFILIATES TO REDEEM THEIR UNITS WHILE THE UNITS ARE LISTED, UNLESS OTHERWISE PERMITTED BY APPLICABLE LAW. THE PERFORMANCE OF ANY OF THE LISTED UNITS OF THE TRUST IS NOT NECESSARILY INDICATIVE OF THE FUTURE PERFORMANCE OF UNITS OF THE TRUST.

DEFINITIONS AND ABBREVIATIONS

This Placement Document uses the definitions and abbreviations set forth below which you should consider when reading the information contained herein.

References to any legislation, act, regulations, rules, guidelines, circulars, notifications, clarifications or policies shall be to such legislation, act, regulations, rules, guidelines, circulars, notifications, clarifications or policies as amended, supplemented, or re-enacted from time to time and any reference to a statutory provision shall include any subordinate legislation made under that provision.

The words and expressions used in this Placement Document, but not defined herein shall have the meaning ascribed to such terms under the InvIT Regulations, SEBI Institutional Placement Guidelines, the SEBI Act, the Depositories Act, and the rules and regulations made thereunder.

Notwithstanding the foregoing, the terms not defined but used in the Annexure A entitled "Audited Financial Information", and the section entitled "Taxation" and "Legal and other Information" on pages 451 and 410, respectively, shall have the meanings ascribed to such terms in those respective sections.

In this Placement Document, unless the context otherwise requires, a reference to "we", "us" and "our" refers to the Trust and the Project SPVs on a consolidated basis.

Trust Related Terms

Securities Act	U.S. Securities Act of 1933
Stock Exchanges	BSE Limited and the National Stock Exchange of India Limited
U.S./U.S.A./United States	United States of America
USD/US$	United States Dollars

PRESENTATION OF FINANCIAL DATA AND OTHER INFORMATION

Certain Conventions

All references in this Placement Document to "India" are to the Republic of India.

Unless stated otherwise, all references to page numbers in this Placement Document are to the page numbers of this Placement Document.

Financial Data

The Trust was settled on October 19, 2020, and has acquired ownership of NWPPL on November 3, 2021. Further, NEPPL was incorporated on April 19, 2023, at New Delhi, under the Companies Act, 2013, having obtained a certificate of incorporation, from the Registrar of Companies, Delhi and Haryana. Further, NSPPL was incorporated on March 8, 2025, at New Delhi, under the Companies Act, 2013, having obtained a certificate of incorporation, from the Registrar of Companies, Delhi and Haryana. The Trust (jointly with its nominee) holds 100% of the issued, subscribed and paid-up share capital of the Project SPVs as on the date of this Placement Document.

The Audited Financial Information of the Trust as of and for the year ended March 31, 2022, March 31, 2023, March 31, 2024 and the six months period ended September 30, 2024, prepared in accordance with Ind AS, is included in this Placement Document.

Further, the limited review consolidated financial information of the trust for the nine month period ended December 31, 2024, prepared in accordance with Ind AS, is included in this Placement Document.

In relation to the Toll Roads, the asset revenue information that was provided by the Sponsor by way of its letters dated August 24, 2021, September 21, 2022, March 7, 2024 and March 12, 2025 has been disclosed in the section entitled "*Asset Revenue Information*" on page 471. Further, no separate financial information, including audited financial information for the previous three financial years is available for the Target Toll Roads, are currently available, which could be used to clearly ascertain financial information including revenue and expenses in respect of each of the Target Toll Roads. Accordingly, in terms of the SEBI Exemption, the revenue data for the Target Toll Roads that NHAI has historically been collecting through toll collection and maintenance contracts, as communicated *vide* letter dated March 12, 2025, has been included in the section entitled "*Asset Revenue Information*" on page 471. The said amounts being collected are at times intermittent on account of gaps in tolling contract periods and would not be a true reflection of the revenue that these Target Toll Roads are actually generating. Please refer to "*Risk Factors - We have no operating history or financial information for the Target Toll Roads. Accordingly, the information disclosed in this Placement Document in relation to the Target Toll Roads is limited*" on page 43 in this regard.

Further, this Placement Document includes summary audited financial information of the Sponsor, as of and for the financial years ended March 31, 2023, March 31, 2022, and March 31, 2021 and unaudited financial results of the Sponsor for the financial year ended March 31, 2024 and for each of the period ended June 30, 2024 and September 30, 2024. For further details, please see the sections entitled "*Summary Financial Information of the Sponsor*" on page 33.

The summary audited financial information of the Investment Manager for Fiscals 2022, 2023 and 2024 has been included in this Placement Document in the section entitled "*Summary Financial Information of the Investment Manager" on* page 34.

The degree to which the financial information included in this Placement Document will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting policies and practices, the Companies Act, Ind AS, Indian GAAP and the InvIT Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Placement Document should accordingly be limited.

The financial year for the Trust and Parties to the Trust commences on April 1 and ends on March 31 of the next year; accordingly, all references to a particular financial year, unless stated otherwise, are to the 12-month period ended on March 31 of that year.

In this Placement Document, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures in decimals and all percentage figures have been rounded off to two decimal places.

Currency and Units of Presentation

All references to:

- "Rupees" or "₹" or "INR" or "Rs." are to Indian Rupee, the official currency of the Republic of India; and
- "USD" or "US$" are to United States Dollar, the official currency of the United States.

Except otherwise specified, certain numerical information in this Placement Document have been presented in "million" units. One million represents 1,000,000 and one billion represents 1,000,000,000. One lakh represents 1,00,000 and one crore represents 1,00,00,000.

Unless the context requires otherwise, any percentage amounts, as set forth in this Placement Document, have been calculated on the basis of the audited financial information, and the summary financial statements of the Sponsor.

Exchange Rates

This Placement Document contains conversion of certain other currency amounts into Indian Rupees. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate.

The following table sets forth, for the dates indicated, information with respect to the exchange rate between the Rupee and the US$ (in Rupees per US$):

Currency	December 31, 2024	March 31, 2024	March 31, 2023	March 31, 2022
1 US$	₹ 85.62	₹83.37	₹82.22	₹75.81

Source: www.rbi.org.in and www.fbil.org.in

Note: In the event that any of the respective years/ period is a public holiday, the previous calendar day, not being a public holiday, has been considered.

The above exchange rates are for the purpose of information only and may not represent the rates used by the Trust for purpose of preparation or presentation of its financial statements. The rates presented are not a guarantee that any person could have on the relevant date converted any amounts at such rates or at all.

Industry and Market Data

Unless stated otherwise, industry and market data used in this Placement Document has been obtained or derived from publicly available information, as well as from the Report titled "*Roads and Highways*" dated November 2024, prepared by CRISIL India ("**CRISIL Report**"). The CRISIL Report is subject to the following disclaimer:

"Crisil Intelligence, a division of Crisil Limited, provides independent research, consulting, risk solutions, and data & analytics to its clients. Crisil Intelligence operates independently of Crisil's other divisions and subsidiaries, including, Crisil Ratings Limited. Crisil Intelligence's informed insights and opinions on the economy, industry, capital markets and companies drive impactful decisions for clients across diverse sectors and geographies. Crisil Intelligence's strong benchmarking capabilities, granular grasp of sectors, proprietary analytical frameworks and risk management solutions backed by deep understanding of technology integration, makes it the partner of choice for public & private organisations, multi-lateral agencies, investors and governments for over three decades.

For the preparation of the Report, Crisil Intelligence has relied on third party data and information obtained from sources which in its opinion are considered reliable. Any forward-looking statements contained in the Report are based on certain assumptions, which in its opinion are true as on the date of the Report and could fluctuate due to changes in factors underlying such assumptions or events that cannot be reasonably foreseen. The Report does not consist of any investment advice and nothing contained in the Report should be construed as a recommendation to invest/disinvest in any entity. The Company will be responsible for ensuring compliances and consequences of non-compliances for use of the Report or part thereof outside India."

Although the Investment Manager believes that the industry and market data used in this Placement Document is reliable, it has not been independently verified by the Investment Manager or any of their affiliates or advisors and their accuracy and completeness are not guaranteed and their reliability cannot be assured. The data used in these sources may have been re-classified by us for the purposes of presentation. Data from these sources may also not be comparable. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those disclosed in the section entitled "*Risk Factors*" on page 43 . Accordingly, no investment decisions should be based on such information.

The extent to which the market and industry data used in this Placement Document is meaningful depends on the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which business of the Trust is conducted, and methodologies and assumptions may vary widely among different industry sources.

Traffic Consultants

The traffic reports in **Annexure C**, as well as the data used in this Placement Document from those reports, have been prepared by the Traffic Consultants.

Disclaimers from the Traffic Consultants

Disclaimer from IBI Group India Private Limited

"IBI Group India Private Limited while preparing the report relied on the data and information provided by the Vendor Traffic data. The information has not been independently verified by IBI Group and which IBI Group has assumed to be accurate and complete. The results of this study constitute the opinion of IBI Group. This opinion is based on normal professional effort with respect to future traffic and revenue for the tolled highway asset and subject to the time and budget constraints of the study's scope of work and based on the information available to IBI at the time of execution of this study. IBI cannot guarantee or assure future events in connection to this traffic and revenue forecast.

*IBI Group and its officers, employees shall not be liable for any direct, indirect, incidental, consequential, or special loss or damage or other liability of any nature arising from its use of the Report or reliance upon any of its content. To the maximum extent permitted by law, such release from and indemnification against liability shall apply in contract, tort (including negligence), strict liability, or any other theory of liability***."**

Disclaimer from Ramboll India Private Limited

"This Report is intended for the National Highways Infra Investment Managers Private Limited's sole and exclusive use and is not for the benefit of any third party and may not be distributed to, disclosed in any form to, used by, or relied upon by, any third party, except as agreed between the Parties, without prior written consent of Ramboll, which consent may be withheld in its sole discretion. Use of this Report or any information contained herein, if by any party other than the Client, shall be at the sole risk of such party and shall constitute a release and agreement by such party to defend and indemnify Ramboll and its officers, employees from and against any liability for direct, indirect, incidental, consequential or special loss or damage or other liability of any nature arising from its use of the Report or reliance upon any of its content. To the maximum extent permitted by law, such release from and indemnification against liability shall apply in contract, tort (including negligence), strict liability, or any other theory of liability.

In preparing this report, Ramboll India Private Limited relied, in whole or in part, on data and information provided by National Highways Infra Investment Managers Private Limited, which information has not been independently verified by Ramboll and which Ramboll has assumed to be accurate, complete, reliable, and current. Therefore, while Ramboll has utilized its best efforts in preparing this Report, Ramboll does not warrant or guarantee the conclusions set forth in this Report which are dependent or based upon data, information, or statements supplied by third parties or the client".

Disclaimers from the Credit Rating Agencies

Disclaimer from Care Ratings Limited

"The ratings issued by CARE Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. These ratings do not convey suitability or price for the investor and no part of the Material should be construed as an expert advice or investment advice within the meaning of any law or regulation. The rating agency does not constitute an audit on the rated entity. CARE Ratings has based its ratings/outlook based on information obtained from reliable and credible sources. CARE Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information".

Disclaimer from India Ratings and Research Private Limited

"Users of India Ratings and Research Pvt Ltd ("India Ratings") ratings should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information India Ratings relies on in connection with a rating will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to India Ratings and to the market in offering documents and other reports. In issuing its ratings India Ratings must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings can be affected by future events or conditions that were not anticipated at the time a rating was issued or affirmed. Ratings are not a recommendation or suggestion, directly or indirectly, to you or any other person, to buy, sell, make or hold any investment, loan or security or to undertake any investment strategy with respect to any investment, loan or security of any issuer. Ratings do not comment on the adequacy of market price, the suitability of any investment, loan or security for a particular investor (including without limitation, any accounting and/or regulatory treatment), or the tax-exempt nature or taxability of payments made in respect of any investment, loan or security. The Rating Agency shall neither construed to be nor acting under the capacity or nature of an 'expert' as defined under Section 2(38) of the Companies Act, 2013. India Ratings is not your advisor, nor is India Ratings providing to you or any other party any financial advice, or any legal, auditing, accounting, appraisal, valuation or actuarial services. A rating should not be viewed as a replacement for such advice or services. Investors may find our ratings to be important information, and India Ratings notes that you are responsible for communicating the contents of this letter, and any changes with respect to the rating, to investors.

MARKET PRICE INFORMATION

In this section, all market price information provided for Fiscal 2022 refers to such information for the period beginning November 10, 2021 (i.e. the date of listing of the Units on the BSE and NSE) until March 31, 2022. Further, for Fiscal 2025, market price information has been included for a period from April 1, 2024 to March 20, 2025.

As on the date of this Placement Document, 1,312,200,600 Units are issued, subscribed and are fully paid up. The units have been listed and are available for trading on BSE and NSE. The units have been listed and are available for trading on BSE and NSE.

The following tables set forth the reported high, low, average market prices and the trading volumes of the Units on the Stock Exchanges on the dates on which such high and low prices were recorded and the total trading volumes for Fiscals 2025 (up to March 20, 2025), 2024, 2023 and 2022;

BSE:

Fiscal Year	High (₹)	Date of high	Number of Units traded on date of high	Total turnover of Units traded on date of high (₹ million)	Low (₹)	Date of low	Number of Units traded on date of low	Total turnover of Units traded on date of low (₹ million)	Average price for the period (₹)	Units traded in the fiscal year

Notes:

1. *High, low are based on the daily High and Low prices respectively.*
2. *Average prices are based on the daily closing prices.*
3. *In case of two days with the same high or low prices, the date with the higher volume of units has been considered.*
4. *Since the units of the Trust have not been traded, no such data is available for the specific months.*
5. *The data disclosed above has not resulted in any change in the capital structure of the Trust.*

The market price on the Stock Exchanges on February 6, 2025, the first working day following the approval of the Board of the Investment Manager for the Issue, is ₹ 130.60.

FORWARD-LOOKING STATEMENTS

Certain statements contained in this Placement Document that are not statements of historical fact constitute "forward-looking statements". Bidders can generally identify forward-looking statements by terminology such as "aim", "anticipate", "believe", "continue", "can", "could", "estimate", "expect", "intend", "may", "objective", "plan", "potential", "project", "pursue", "seek to", "shall", "should", "will", "would", or other words or phrases of similar import. Similarly, statements that describe the strategies, objectives, plans or goals of the Trust are also forward-looking statements. However, these are not the exclusive means of identifying forward-looking statements.

All statements regarding the Trust's expected financial conditions, results of operations and cash flows, business plans and prospects are forward-looking statements. These forward-looking statements include statements as to the Trust's, planned projects, revenue and profitability (including, without limitation, any financial or operating projections or forecasts), new business and other matters discussed in this Placement Document that are not historical facts.

The Valuation Reports included in this Placement Document, is based on certain projections and accordingly, should be read together with assumptions and notes thereto. For further details, please see the "*Valuation Reports*" attached as **Annexure B**. The Traffic Reports and Technical Reports include projections and estimates in relation to traffic growth and operation and maintenance expenses respectively, and accordingly, should be read in conjunction with the relevant notes and assumptions thereto.

Actual results may differ materially from those suggested by the forward-looking statements due to certain known or unknown risks or uncertainties associated with the Investment Manager's expectations with respect to, but not limited to, the actual growth in the infrastructure sector, the Investment Manager's ability to successfully implement the, growth and expansion plans, cash flow projections, exposure to market risks, the outcome of any legal or regulatory proceedings, the future impact of new accounting standards, regulatory changes pertaining to the infrastructure sector in India and our ability to respond to them, general economic and political conditions in India which have an impact on our business activities or investments, changes in competition, and the Project Manager's ability to operate and maintain the Project SPVs and successfully implement any technological changes. By their nature, certain of the market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains, losses or impact on net interest income and net income could materially differ from those that have been estimated.

Factors that could cause actual results, performance or achievements of the Trust to differ materially include, but are not limited to, those discussed in the sections entitled "*Risk Factors*", "*Industry Overview*", "*Our Business*" and "*Management's Discussion and Analysis of Factors by the Directors of the Investment Manager affecting the Financial Condition, Results of Operations and Cash Flows*", on pages 43, 124, 134 and 380, respectively. Some of the factors that could cause the Trust's actual results, performance or achievements to differ materially from those in the forward-looking statements and financial information include, but are not limited to, the following:

- We have no operating history or financial information for the Target Toll Roads. Accordingly, the information disclosed in this Placement Document in relation to the Target Toll Roads is limited;
- We must maintain certain investment ratios, which may present additional risks to us;
- NSPPL may not be able to claim depreciation in relation to toll collection rights acquired from the Sponsor;
- We may not be able to make future distributions to Unitholders or the level of distributions may fall;
- Project SPVs may not be able to claim depreciation in relation to toll collection rights acquired from the Sponsor.

Forward-looking statements, Valuation Reports, Traffic Reports and Technical Reports reflect current views as of the date of the respective reports included in this Placement Document and are not a guarantee of future performance or returns to Bidders. These statements and projections are based on certain beliefs and assumptions, which in turn are based on currently available information. Although, the Investment Manager believes that the expectations and the assumptions upon which such forward-looking statements are based are reasonable at this time, the Investment Manager does not assure Bidders that such expectations will prove to be correct or accurate. Given these uncertainties, Bidders are cautioned not to place undue reliance on such forward-looking statements. In any event, these statements speak only as of the date of this Placement Document or the respective dates indicated in this Placement Document. The Trust and the Investment Manager or any of their affiliates or advisors, undertake no obligation to update or revise any of the statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, whether as a result of new information, future events or otherwise after the date of this Placement Document. If any of these risks and uncertainties materialize, or if any of the Investment Manager's underlying assumptions prove to be incorrect, the actual results of operations or financial condition or cash flow of the Trust could differ materially from that described herein as anticipated, believed, estimated or expected. All subsequent forward-looking statements attributable to the Trust are expressly qualified in their entirety by reference to these cautionary statements.

THE ISSUE

The following is a general summary of the terms of this Issue. This summary should be read in conjunction with, and is qualified in its entirety by, the detailed information appearing elsewhere in this Placement Document:

For further details in relation to this Issue, including the basis for the calculation of Issue Price and method of application, please see the section entitled "*Issue Procedure*" on page 443 and the Valuation Reports as set out in **Annexure B** to this Placement Document.

OVERVIEW OF THE TRUST

The following overview is qualified in its entirety by, and is subject to, the more detailed information contained in or referred to elsewhere in this Placement Document. Statements contained in this summary that are not historical facts may be forward-looking statements. Such statements are based on certain assumptions and are subject to certain risks, uncertainties and assumptions that could cause actual results of the Trust to differ materially from those forecasted or projected in this Placement Document. Investment in Units involves risks. Bidders are advised not to rely solely on this overview, and, should read this Placement Document in its entirety and, in particular, the sections entitled "Risk Factors" and "Forward-Looking Statements" on pages 43 *and 25, respectively.*

Structure and description of the Trust

The Sponsor settled the Trust on October 19, 2020, as a contributory irrevocable trust, pursuant to the Trust Deed, under the provisions of the Indian Trusts Act, 1882. The Trust was registered with SEBI on October 28, 2020, as an infrastructure investment trust under Regulation 3(1) of the InvIT Regulations having registration number IN/InvIT/20-21/0014. The Sponsor has settled the Trust for an initial sum of ₹ 10,000.

For details of the registered office and contact person of the Sponsor, please see the section entitled "*General Information*" on page 70. For the contact details of the Trust, please see the cover page.

Further, NHIIMPL is the investment manager, and NHIPMPL is the project manager to the Trust. For further details please see the section entitled "*Parties to the Trust*" on page 75.

Investment Objectives

The investment objectives of the Trust are to carry on the activity of and to make investments as an infrastructure investment trust as permissible in terms of the InvIT Regulations. The investment of the Trust shall only be in any manner permissible under, and in accordance with, the InvIT Regulations and applicable law, including in such holding companies and/or special purpose vehicles and/or infrastructure projects and/or securities in India as permitted under the InvIT Regulations. The investment by the Trust shall be in compliance with the provisions of the InvIT Regulations.

As on the date of this Placement Document, the Trust is not permitted to carry out any other principal activity unless specifically provided under applicable law.

FORMATION TRANSACTIONS IN RELATION TO THE TRUST

Details of arrangement pertaining to the Trust

The Trust's portfolio comprises our Project SPVs namely NHIT Western Projects Private Limited (*formerly known as National Highways Infra Projects Private Limited*), NHIT Eastern Projects Private Limited and NHIT Southern Projects Private Limited. The details of the Project SPVs are as provided below:

NHIT Western Projects Private Limited (formerly known as National Highways Infra Projects Private Limited) ("NWPPL")

NWPPL is a private limited company incorporated on July 23, 2020, at New Delhi, under the Companies Act, 2013, having obtained a certificate of incorporation from the Registrar of Companies, Delhi and Haryana. The CIN of NWPPL is U45201DL2020PTC366737.

Capital structure of NWPPL

Particulars	Number of equity shares of ₹ 10 each
Authorised capital	1,294,100,000
Issued, subscribed and paid-up capital	1,294,100,000

NHIT Eastern Projects Private Limited ("NEPPL")

NEPPL is a private limited company incorporated on April 19, 2023, at New Delhi, under the Companies Act, 2013, having obtained a certificate of incorporation from the Registrar of Companies, Delhi and Haryana. The CIN of NEPPL is U42101DL2023PTC412707.

Capital structure of NEPPL

Particulars	Number of equity shares of ₹ 10 each
Authorised capital	2,500,000,000
Issued, subscribed and paid-up capital	2,406,100,000

NHIT Southern Projects Private Limited ("NSPPL")

NSPPL is a private limited company incorporated on March 8, 2025, at New Delhi, under the Companies Act, 2013, having obtained a certificate of incorporation from the Registrar of Companies, Delhi and Haryana. The CIN of NSPPL is U42101DL2025PTC444254.

Capital structure of NSPPL

Particulars	Number of equity shares of ₹ 10 each*
Authorised capital	1,000,000
Issued, subscribed and paid-up capital	100,000

** In accordance with the SEBI exemptions, NSPPL was incorporated on March 8, 2025. After the allotment of the equity shares of NSPPL, the necessary application/documentation to reflect dematerialized nature of the equity shares of NSPPL was also submitted with the Depositories. While the ISIN of the said equity shares has also been received, the process for reflecting dematerialisation of NSPPL's equity shares is underway.*

The Trust (jointly with its nominee) holds 100% of the issued, subscribed and paid-up share capital of the Project SPVs as on the date of this Placement Document.

In light of the fact that the Project SPVs will constitute tolling rights and not underlying land, the requirement for conducting land diligence in respect of the Project SPVs does not arise.

The Investment Manager confirms that not less than 80% of the projects are 'eligible infrastructure projects' (as defined in the InvIT Regulations) in terms of Regulation 18(4) of the InvIT Regulations.

The Investment Manager confirms that not less than 80% of the value of the InvIT assets are invested in completed and revenue generating assets (as defined in the InvIT Regulations), in terms of the InvIT Regulations.

For further details in relation to the Project SPVs, please see the section entitled "*Our Business*" on page 134.

Borrowings of the Trust

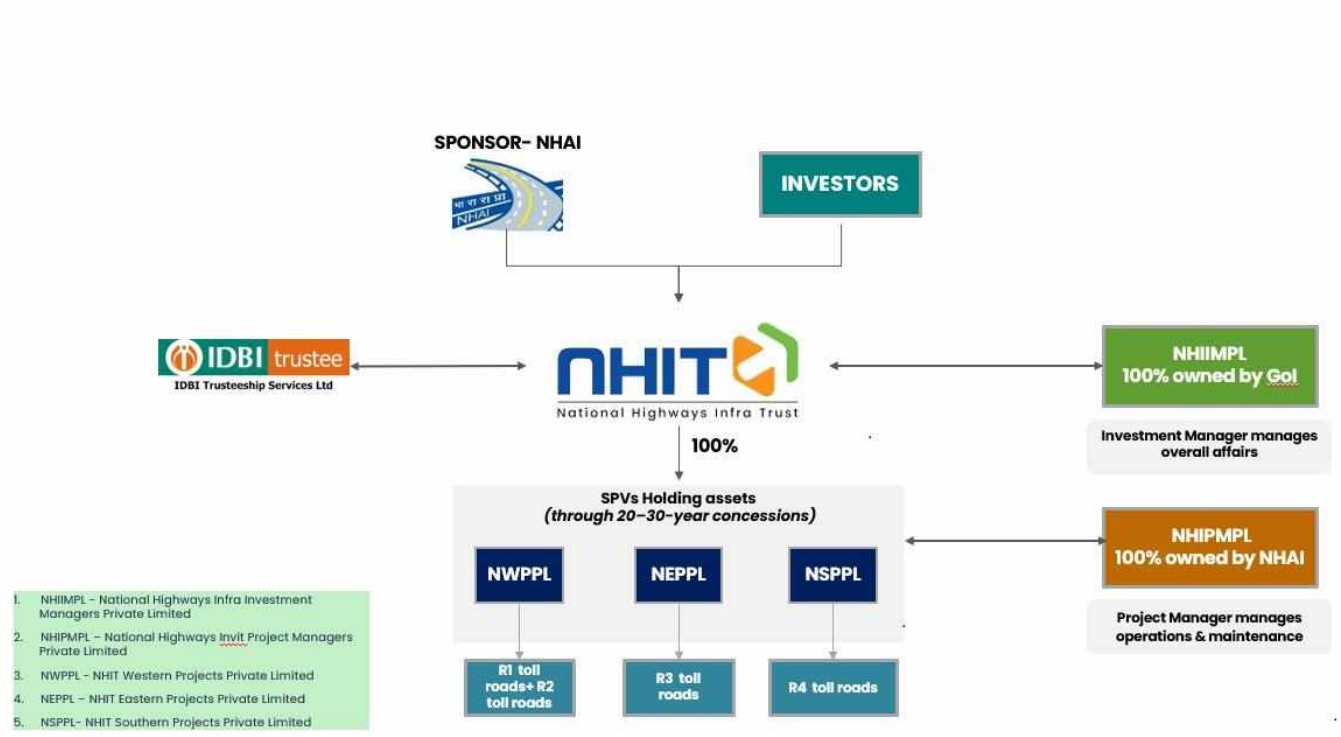
The Trust has entered into a loan agreement dated September 29, 2021, with certain lenders for availing loans amounting to ₹ 20,000.00 million ("**Trust Loan 1**"). With respect to Trust Loan 1, as on December 31, 2024, the Trust has drawn down an amount equivalent to ₹ 14,800.00 million for payment of concession fee for R1 Toll roads and an amount equivalent to ₹ 3,646.60 million for capex and non-fund-based facility equivalent to ₹ 62.60 million as bank guarantees.

In October 25, 2022, the Trust has issued secured, rated, listed, redeemable non-convertible debentures aggregating to an amount of upto Rs. 15,000.00 million ("**NCDs**") through public issuance for payment of concession fee for R2 Toll roads.

Additionally, the Trust has entered into a facility agreement dated October 18, 2023, with certain lenders for availing loans amounting to ₹ 8,770.00 million ("**Trust Loan 2**"). With respect to the Trust Loan 2, as of December 31, 2024, the Trust has drawn down an amount equivalent to ₹ 2,620.00 million and non-fund-based facility equivalent to ₹ 49.25 million.

Further the Trust has entered into a loan agreement dated March 22, 2024, with certain lenders for availing loans amounting to ₹ 90,000.00 million ("**Trust Loan 3**"). With respect to Trust Loan 3, as on December 31, 2024, the Trust has drawn down an amount equivalent to ₹ 86,580.00 million for payment of concession fee for R3 Toll roads and an amount equivalent to ₹ 150.00 million for capex and ₹ 139.26 million as bank guarantees.

In January 2025, the Trust has raised ₹ 9,999.93 million through zero coupon bonds and utilised the same for partial repayment of Trust Loan 1, IDBI Bank Limited has taken over the loan of Bank of Maharashtra through assignment and Novation agreement on February 26, 2025. For details of indebtedness in relation to the Trust Loans, please see the section entitled "*Financial Indebtedness and Deferred Payments*" on page 357.



Utilisation of Net Proceeds

Further, upon the listing of the Units, the Trust shall utilize the Net Proceeds aggregating to an amount of ₹ 49,924.81 million. For further details, please see the section entitled "*Use of Proceeds*" on page 356.

Proposed post- Issue structure

For details of the pre- Issue and post- Issue unitholding structure of the Trust, please see the section entitled "*Information concerning the Units*" on page 353.

The following structure illustrates the proposed relationship between the Trust, the Trustee, the Sponsor, the Investment Manager, the Project Manager and the Unitholders post- Issue:

SUMMARY FINANCIAL INFORMATION OF THE TRUST

For summary financial information of the Trust please refer to Annexure F

SUMMARY FINANCIAL INFORMATION OF THE SPONSOR

For summary financial information of the Sponsor please refer to Annexure G

SUMMARY FINANCIAL INFORMATION OF THE INVESTMENT MANAGER

For summary financial information of the Investment Manager please refer to Annexure H

SUMMARY OF BUSINESS

Overview

We are a registered infrastructure investment trust under the InvIT Regulations. We currently have a right to toll, operate and maintain a portfolio of fifteen (15) Existing Toll Roads (*defined below*) in the Indian states of Gujarat, Rajasthan, Telangana, Karnataka, Maharashtra, Uttar Pradesh, Madhya Pradesh, West Bengal, and Assam and intend to toll, operate and maintain a portfolio of eleven (11) Target Toll Roads (*defined below*) in the Indian states of, Andhra Pradesh, Uttar Pradesh, Gujarat, Uttarakhand, and Chhattisgarh under the Toll Operate Transfer ("**TOT**") model conceived by NHAI. These Toll Roads (*defined below*) are operated and maintained pursuant to concessions granted by the NHAI. The Existing Toll Roads comprise 15 stretches spanning a total length of approximately 1523.7 kms and the Target Toll Roads comprise eleven stretches spanning a total length of approximately 818.83 kms.

Our Sponsor is NHAI, an autonomous authority of the GoI under the MoRTH constituted on June 15, 1989 NHAI Act. NHAI was operationalised in February 1995 with the appointment of a full-time Chairman and other members of the board. The functioning of NHAI is governed by the NHAI Act and the rules, and regulations framed thereunder. NHAI from time to time, may divest a portion of its unitholding in the InvIT.

The Project SPVs have entered into 26 independent Concession Agreements with the NHAI for concessions of each of the Toll Roads. We have satisfied all conditions precedent and commenced our concessions on December 16, 2021, October 29, 2022 and 1 April, 2024 in accordance with the terms of the Initial Concession Agreements for the Existing Toll Roads and expect to satisfy all conditions precedent and commence our concessions for the Target Toll Roads in accordance with the terms of the R4 Concession Agreements for the Target Toll Roads. For further details, please see the section entitled "*Summary of the Concession Agreements*", "*Management's Discussion and Analysis of Financial Position and Results of Operations*" and "*Use of Proceeds*" on pages 294 , 382 and 356, respectively

The Concession Agreements provide the Project SPVs the right to collect tolls for a period of 20 years or 30 years (as applicable under the relevant Concession Agreement) from users of each Toll Road, with certain overlay activities and the construction work which may include any other improvement work, such as construction, renovation, refurbishing, augmentation, upgradation, etc., of any road, structure, etc., in respect of certain of the Toll Roads (the "**Initial Improvement Works**") to be completed by the Project SPVs within 12 to 18 months from the Appointed Date (as defined in the section entitled "*Summary of the Concession Agreements*"). Responsibility for the supervision of the operations and maintenance of the Toll Roads also vests with us. In return, the Project SPVs is required to pay the concession fee to the NHAI prior to the commencement of the concession, as set out in the respective Concession Agreements. For further information on the provisions of the Concession Agreements, see "*Summary of the Concession Agreements"* on page 294.

NWPPL and NEPPL has a right to toll, operate and maintain the following toll road assets: ("**Existing Toll Roads**")

- Palanpur/Khemana Abu Road Project ("**Asset 1**"): Abu Road section of NH 27 with a total length of 45.000 kms, connecting the states of Gujarat and Rajasthan;

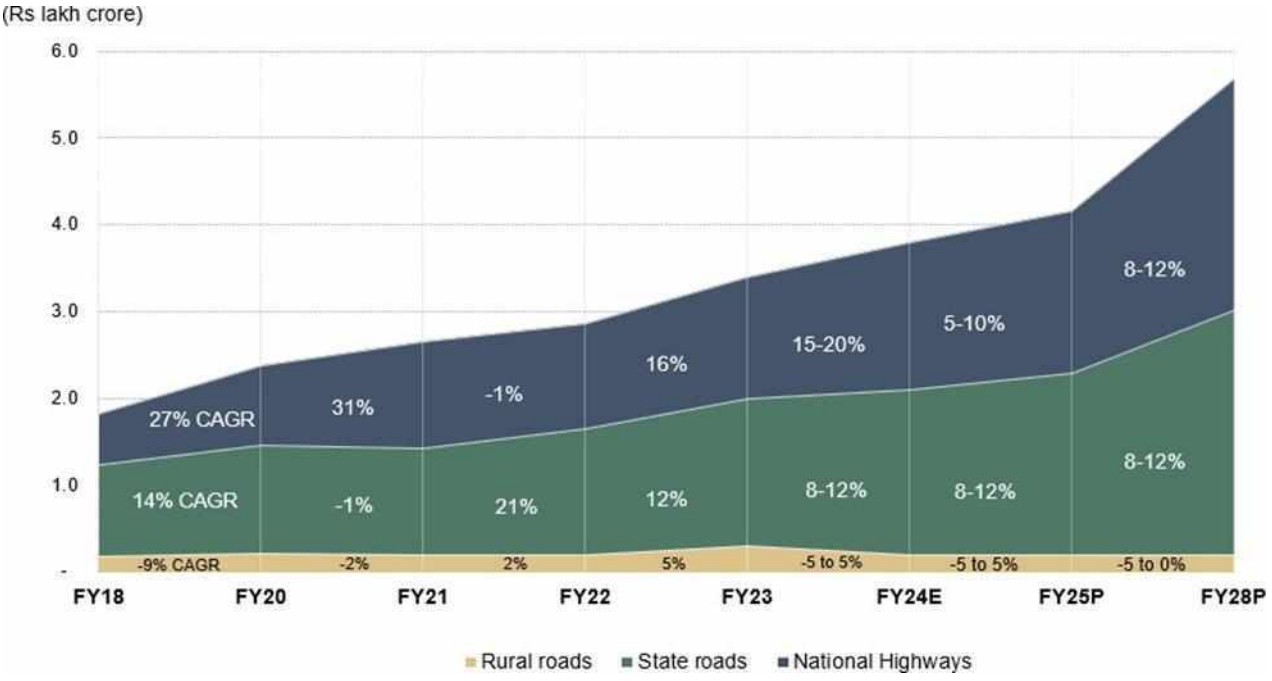
Strengths of the Trust

The strengths of the Trust are:

- Experienced Sponsor with consistent track record in operating and maintaining projects in the roads and highways sector in India;
- Sizeable portfolio of diversified long-term revenue generating Toll Road assets;
- Presence in strategic regions/ Strategic geographic location of portfolio assets;
- Experienced management team with industry experience;
- Growth opportunities and access to Sponsor's portfolio; and
- Favourable Concession Agreement terms with Low Counterparty Risk and Inflation Passthrough.

Neither we nor any other person connected with the Issue has independently verified this information. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed, and their reliability cannot be assured. Industry publications are also prepared based on information available as of specific dates and may no longer be current or reflect current trends. Accordingly, investment decisions should take these limitations into account. All references to years refer to calendar years except as otherwise stated. References to Indian financial years ("**FY**") are to the one-year period ending March 31 of the named year.*



Continued government focus and increased private interest likely to aid growth in Fiscal 2025

Our Sponsor is also involved in the Bharatmala Pariyojana ("**Bharatmala**") project. Between fiscals 2018 & 2023 overall road sector capex, comprising of National Highways, State Highways & rural roads is estimated to have grown at a CAGR of 14%. This growth, driven by *Bharatmala Pariyojana* and increased state spends on roads has been achieved despite brief hiccups such as the *Covid Pandemic* and hampered construction due to elongated monsoons. The outlook for the sector remains firm, supported by higher awarding of new projects from previous fiscals, steady-state capex, the NIP pipeline of DPR-ready projects, and Bharatmala project.

The NH segment contributes around 40-45% of the overall capex. While the execution remained flattish in fiscal 2023 vis--vis fiscal 2022, capex grew by 16% due to a rise in construction of high value projects and high commodity prices. In fiscal 2024, the national highway capex further grew by 18% driven primarily by much improved execution during the fiscal. High volume projects (4-8 lanes) still in the pipeline in the construction/pre-construction phase are going to be the key area of focus for governments capital expenditure.

On the low base of fiscal 2021, the state spends grew by 21% in fiscal 2022 and are estimated to have grown further by 10-13% in fiscal 2023 largely in line with the growth in budgetary outlay. In fiscal 2024, state spends are expected to go up further by 8-12% as their percentage achievement of budgetary allocations are expected to be largely in line with historical average.

Momentum to continue, supported by Bharatmala Pariyojana and NIP pipeline

Note: Capex excludes the land-acquisition costs

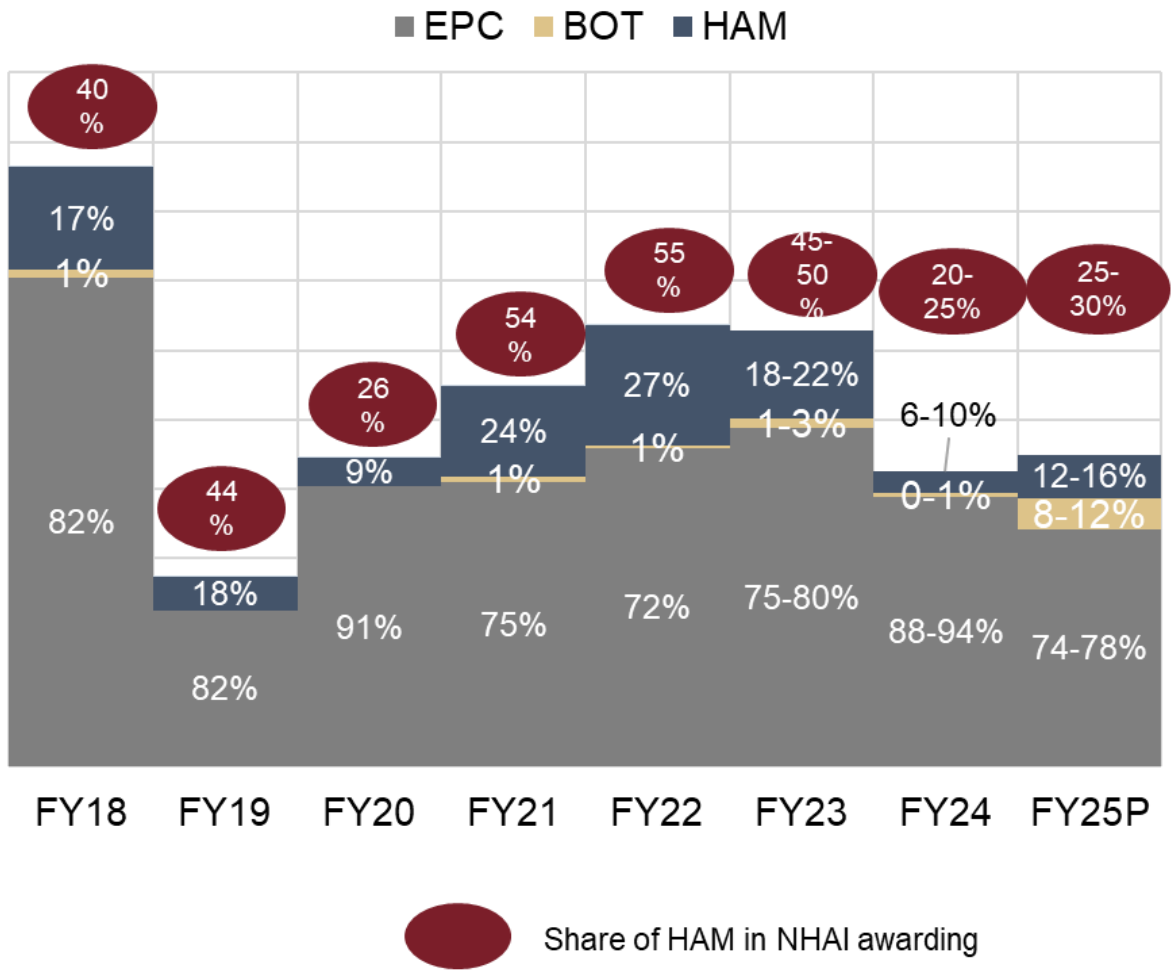
Investments: National highways

NHAI awarding to revive marginally in fiscal 2025 with the revamped BOT model likely to account for a improved share

NHAI has already offered more than 1500 kms of roads to NHIT in last 3 years. Our Sponsor's awarding had witnessed a rise from merely 2,222 km in fiscal 2019 to 6,003 km in fiscal 2023 . However, in fiscal 2024, awarding momentum was marred by various roadblocks. NHAI's flagship Bharatmala Pariyojana Programme (BMP) Phase-1 witnessed significant cost overrun on account of costlier land acquisition and high inflation. Currently, the estimated cost of the BMP phase-1 is

almost twice and the initial estimate and the ministry is awaiting cabinet approval for a revamped programme and additional funds in order to undertake rapid awarding of projects in the pipeline. As a result, NHAI awarding was ~3,339 kms in fiscal 2024.

Notably, the share of HAM dipped significantly due to the aforementioned issues regarding the BMP. Going forward, the share of HAM is expected to revive to around 25-30% in fiscal 2025. Further, on account of amendments in the BOT MCA, the awarding under the BOT model is also likely to increase. This is likely to be supported by the interest of developers in the revamped BOT model due to the following factors:



- HAM was favored by the road developers due to lower risk and higher profitability. However, the competition in HAM awarding has increased substantially leading to average bid premiums tumbling from a peak of 15-20% to around 4-6% in the last few fiscals. As a result, share of the larger developers have dropped substantially since many large developers have refrained from bidding aggressively for HAM projects in order to protect their margins. Given the amendment in BOT MCA and the scope of higher profitability due to lower bidding competitiveness in the BOT space many large developers are keen on taking up BOT projects.

- Furthermore, owing to the healthy balance sheets the developers are also in a comfortable position to undertake BOT projects with high funding requirements.

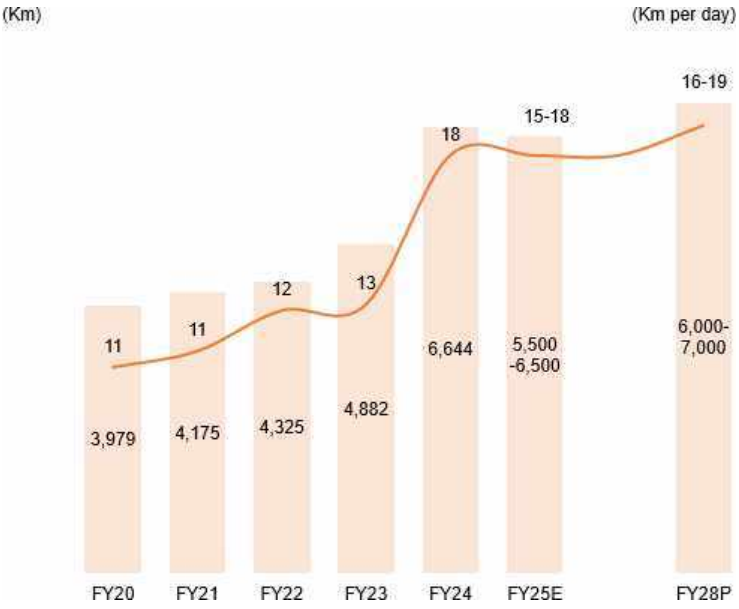
- The increased traffic visibility vis--vis earlier years also augurs well for the BOT projects.

The shift towards the BOT model comes against the backdrop of NHAI facing funding challenges and moderation in growth in the central government's budgetary outlay towards the roads & highways sector. Thus, the shift will have a two-pronged benefit by not only alleviating funding challenges to a great extent but also increasing the private investments in the sector.

Share of BOT in NHAI awarding to be around 8-12% in fiscal 2025 on the back of amendments in the BOT MCA

Source: NHAI, CRISIL MI&A Research

NHAI execution is also rising steadily with focus on swifter execution



Even though overall national highways construction at the MoRTH level had remained flattish in fiscals 2022 and 2023, NHAI execution witnessed strong momentum. NHAI execution sequentially rose from 4,175 km in fiscal 2021 to 4,882 km in fiscal 2023.

Acceleration in project awards, sharper focus on resolving land acquisition issues, and the Atmanirbhar Bharat initiatives to ease liquidity (monthly milestone payments, release of retention money, reduction in performance security & extension of 3-6 months in milestones & SCODs) for EPC road players augured well for the pace of execution of NHAI projects.

Higher awarding of the previous years (FY21-23) and many of those projects receiving appointed dates in a timely manner have further boosted NHAI execution in fiscal 2024. As a result, 6,644 kms of NHAI projects were executed during the year. In other words, the construction per day stood at around 18 km. Given the healthy orderbooks of the developers, the momentum in the pace of execution is likely to continue in fiscal 2025 as well. CRISIL MI&A Research expects NHAI execution to be between 5,000-6,000 kms in fiscal 2025.

Over the medium term, the pace of construction is expected to rise steadily to reach ~19 km per day by fiscal 2028. NHAIs pace of construction rising steadily with continued focus on swifter execution.

NHAIs pace of construction rising steadily with continued focus on swifter execution

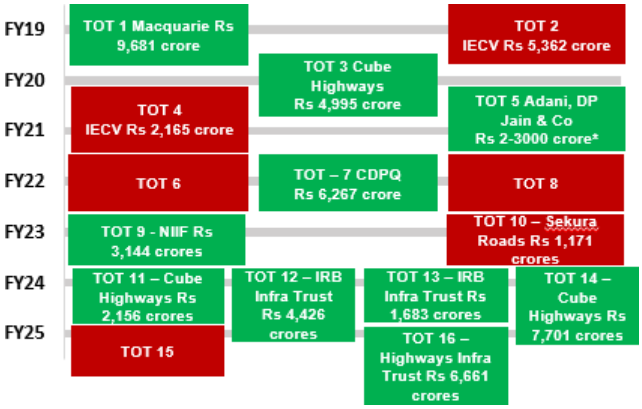
Policy push for HAM enabled higher share in awarding

NHAI awards roads & highway projects under:



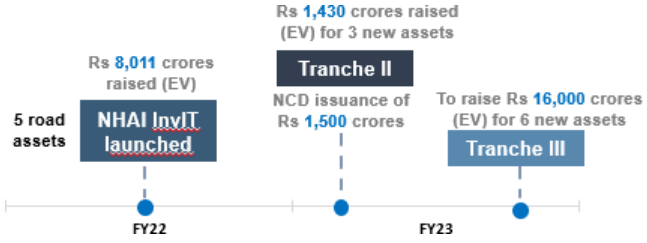
- EPC
- BOT
- HAM

The Ministry and NHAI, post multiple suggestions from various stakeholders have amended the HAM Model Concession Agreement across the below mentioned parameters in Oct 2020. These are largely aimed to protect developers' returns and ease their liquidity.

Recent changes in HAM MCA incorporate developers' concerns.

	Old Clause	Revised Clause	Impact
Annuity Payments	Interest on annuity payment linked to RBI determined Bank Rate + 3%	Interest on annuity payment linked to average of one year MCLR of top 5 Scheduled Commercial Banks + 1.25%	Differential between cost of borrowing and interest on annuity reduced thus preventing erosion of developers' returns due to RBI repo rate changes
Milestone Payments	5 instalments, each equal to 8% of the Bid Project Cost	10 instalments, each equal to 4% of the Bid Project Cost	Quicker payments helping developers' liquidity
Change in ownership	Original sponsor/ concessionaire shall hold at least 26% of equity during construction period and 2 years thereafter	Original sponsor/ concessionaire shall hold at least 26% of equity during construction period and 6 months thereafter	Quicker stake sell-off would ease up developers' balance sheets to bid for new projects
Financial Closure	No clarity on amount on FC	FC to be undertaken for an amount no lower than either: 1. Total Project Cost (60% of BPC); or 2. 10% less than (Estimated Project Cost minus 40% of Bid Project Cost)	Would likely prevent termination of projects due to inadequate financing
Dispute resolution board	In case of a dispute, either party may call upon the Independent Engineer to mediate.	Failing mediation by the IE, either party may require such dispute to be referred to the Dispute Resolution Board (DRB).	Quicker dispute resolution mechanism to prevent stuck projects.
Others	Interest mobilization advance linked to bank rate. Termination payments based on previous milestone payments.	Interest on mobilization advance linked to MCLR. Termination payments based on new milestone payments	NA

Financing: Public Funding



Success of TOT critical to meet ambitious Bharatmala targets

The authority has also tied up debt via SPV level funding for the Delhi-Mumbai expressway where it has already raised Rs 9,731 crores.

InVITs & SPV financing

Source: NHAI, CRISIL Research

Financing: Private Funding

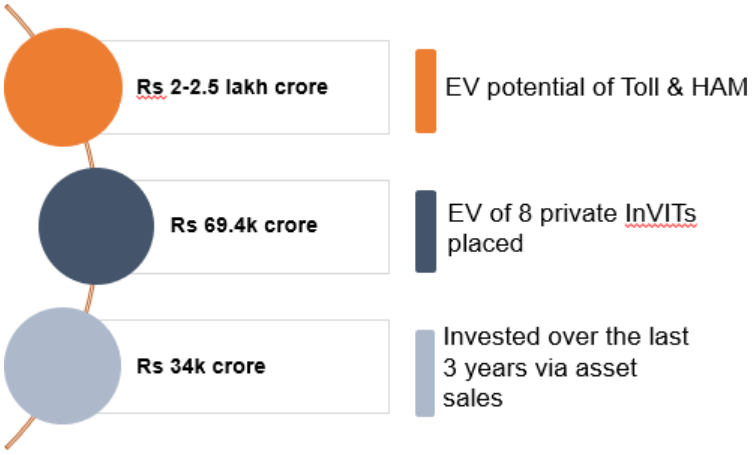
Investment by private sector to grow 3x times over the next 5 years

CRISIL MI&A expects private construction investments in national highways to increase 2x to Rs 2.7 trillion over fiscals 2024 to 2028 compared with the previous five years. This is expected to be mainly through the hybrid annuity model (HAM) mode, as the build-operate-transfer (BOT) toll mode may have only a few takers.

A policy push in the form of changes in Model Concession Agreements (MCA) for HAM and BOT projects and reduction in bid eligibility criteria across all national highway projects would bode well for private participation. However, the share of HAM in total awarding is constrained by the cautious approach employed by banks in lending to HAM projects.

Amidst the COVID-19 pandemic, NHAI and the ministry have taken various steps under the Atmanirbhar package to ease issues faced by developers. Releasing monthly payments, instead of milestone based payments; extension of timelines for completion of projects, etc have sustained private participation in the sector. While these have been extended till Oct 2020, they are likely to fade from next fiscal onwards.

Asset monetisation, equity infusion key to support private investment in the long run



Currently, there are two broad drivers of asset sales in the roads sector - rationalisation of financial position to improve balance sheet strength and asset churning to be able to participate in the upcoming projects. The erstwhile major BOT players are selling off assets to reduce their debt burden and free up equity, which can be infused in under-execution projects.

The players present in HAM are currently selling off HAM assets to participate further in upcoming HAM projects. Some players intend to sell off under-construction projects to financial investors with projects being executed by the same player. Thus, they are able to convert HAM projects to EPC without facing the cut-throat competition they deal with currently in the EPC mode.

This will help them retain margins.

About Rs 70,000 - 80,000 crore has already been invested through these modes. CRISIL's analysis of BOT and HAM projects indicates a potential of ~Rs 2-2.5 lakh crore in terms of Enterprise Value.

Asset monetisation has a lot of potential to free up developers' balance sheets

RISK FACTORS

An investment in the Units involves a high degree of risk. Before investing in the Units, prospective investors should pay particular attention to the fact that the Trust, the Parties to the Trust, the Project SPVs and each of their activities are governed by the legal, regulatory and business environment in India, which differs from that which prevails in other countries. Prospective investors should carefully consider the risks and uncertainties described below and the information contained elsewhere in this Placement Document before making an investment in the Units. In making an investment decision, each investor must rely on its own examination of us and the terms of the offering of the Units. The risks and uncertainties described in this section may not be the only risks and uncertainties the Trust currently faces. Additional risks and uncertainties not presently known to the Trustee or the Investment Manager, or that the Trustee or the Investment Manager currently deem immaterial, may arise or may adversely affect our business, financial condition, cash flows and results of operations. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business prospects, results of operations, cash flows and financial condition could suffer, the price of the Units could decline and prospective investors may lose all or part of their investments. Unless otherwise stated in the relevant risk factors set forth below, the Trustee and the Investment Manager are not in a position to specify or quantify the financial or other risks mentioned herein.

The financial and other related implications of the risk factors, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the financial impact is not quantifiable and, therefore, cannot be disclosed in such risk factors. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implication of any of the risks described in this section.

Investors should be aware that the price of the Units, and the income from them, may be subject to volatility. If any of the risks described below occurs, our business and prospects could be materially and adversely affected, the trading price of the Units could decrease, and investors could lose all or part of their original investment.

This Placement Document also contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in such forward-looking statements as a result of certain factors including the considerations described below and elsewhere in this Placement Document.

In making an investment decision, prospective investors must rely upon your own examination and the terms of the Issue, including the merits and the risks involved. You should consult your tax, financial and legal advisors about the particular consequences of investing in the Issue.

In this section, unless specified otherwise, a reference to "we", "us" and "our" refers to the Trust and the Project SPVs on a consolidated basis.

Risks Related to the Structure of the Trust

1. ***We have no operating history or financial information for the R4 Toll Roads. Accordingly, the information disclosed in this Placement Document in relation to the R4 Toll Roads is limited.***

NSPPL was incorporated on March 8, 2025, to acquire tolling rights from the Sponsor for undertaking tolling, operation, and maintenance of certain national highways in India. Currently, we do not operate the R4 Toll Roads and accordingly NSPPL does not have any operating history. Furthermore, in accordance with Paragraph 11 of Annexure 6 of the Master Circular, the Investment Manager, by way of its letters dated February13, 2025, communicated to SEBI a request for relaxation of strict application of financial disclosure rules per the InvIT Regulations for the R4 Toll Roads ("**SEBI Exemption Request**").

SEBI *vide* its letter dated March 7, 2025 read with the email dated March 12, 2025 acceded to our request in relation to (i) the financials disclosures of R4 Toll Roads and has accordingly mandated us to disclosure the Asset Revenue Information for R4 Toll Roads for the previous three financial years and for the period from April 1, 2024 till the completed month prior to the filing of the Preliminary Placement Document; and (ii) the financial disclosures of the Sponsors and has accordingly mandated us to disclosure of unaudited financial results of the sponsor for the quarters ending June 2024 and September 2024. Further, we have indicated to SEBI that the unaudited financial results for December 31, 2024 may be disclosed only if the same is disclosed by NHAI to the stock exchanges in accordance with Regulations 52(8) and 54(2) of the SEBI LODR Regulations, 2015 and SEBI further acknowledged this vide their email dated March 12, 2025. Accordingly, we have included the requisite revenue data for R4 Toll Roads basis the information provided by the Sponsor by way of its letter dated March 12, 2025. For further details, see "*Asset Revenue Information*" on page 471 of this Placement Document.

The absence of meaningful historical operating data in respect of R4 Toll Roads or financial statements may make it difficult for investors to evaluate our ability to operate, manage and maintain the R4 Toll Roads and assess our financial position or future prospects or results of operations. Our inability to successfully operate and manage the R4 Toll Roads or to operate and manage the R4 Toll Roads in an efficient and cost-effective manner could have an adverse effect on our results of operations and our ability to meet our payment obligations under the Units.

2. ***Reliance on Unaudited and Limited Review Financial Information.***

The financial information presented in this Placement Document is derived from the financial statements of the Trust for the period from April 1, 2024, to September 30, 2024, and includes unaudited financial information of the trust for the nine month period ended December 31, 2024, which have been subject to a limited review. Since these nine months financial statements have not been audited, they may be subject to adjustments, modifications, or revisions upon final audit.

Investors should be aware that reliance on unaudited and limited review financial information carries inherent risks, including the possibility of material changes that could impact the Trust's financial position, results of operations, or future projections. Any such adjustments could affect the Trust's valuation and may influence investor perception and decision-making.

3. ***We must maintain certain investment ratios, which may present additional risks to us.***

Pursuant to the InvIT Regulations, we are required to invest not less than 80% of the value of our assets in eligible infrastructure projects as defined under the InvIT Regulations, such as the Project SPVs. In addition, we must not invest more than 20% of the value of our assets in certain financial instruments prescribed under the InvIT Regulations. If these conditions are breached on account of market movements of the price of the underlying assets or securities, the Investment Manager must inform the Trustee and ensure that these conditions are satisfied within six months of such breach (or within one year with Unitholders' approval). Failure to comply with these conditions may present additional risks to us, including divestment of certain assets, delisting and other penalties, which could have a material, adverse effect on our business, financial condition and results of operations.

4. ***We may not be able to make future distributions to Unitholders or the level of distributions may fall.***

The Trust's distributions are based on the cash flows generated from the operations undertaken by the underlying Project SPVs held by the Trust and not on whether the Trust makes an accounting profit or loss. The InvIT Regulations provide that not less than 90% of net distributable cash flows of the Project SPVs are required to be distributed to the Trust in proportion of its holding in the Project SPVs subject to applicable provisions of the Companies Act. Not less than 90% of distributable cash flows of the Trust shall be distributed to the Unitholders. Such distributions are required to be declared and made not less than once in every year and shall be made not later than fifteen days from the date of such declaration. The Trust has made distributions of ₹ 19.39 per unit through 13 distributions for upto December 31, 2024. Additionally, on March 12, 2025, the Trust announced an additional distribution of ₹ 1.652 per unit for the period from January 1, 2025 to February 28, 2025. For more details, see the section entitled "*Distribution*" on page 395 of this Placement Document.

The Trust substantially relies on the receipt of interest, dividends, and principal repayments (net of applicable taxes and expenses) from the Project SPVs in order to make distributions to Unitholders. The distributions to Unitholders are in the form of dividends, interest and any other means permitted by law. There can be no assurance or guarantee that the Trust will have sufficient distributable or realised profits or surplus in any future period to make distributions every year in any amount or at all. The ability of the Project SPVs to pay dividends, make interest payments and repay shareholder loans may be affected by a number of other risks including but not limited to:

- business and financial position of the Project SPVs;
- insufficient cash flows received from the Project SPVs;
- loss of revenue due to traffic divergence;
- delays in handover takeover of toll plazas;
- applicable laws and regulations, which may restrict the payment of dividends by the Project SPVs;
- ability of the Project SPVs to borrow funds and access capital markets;
- operating losses incurred by the Project SPVs in any financial year;
- fluctuations in the working capital needs of the Project SPVs;
- changes in accounting standards, taxation laws and regulations, laws and regulations in respect of foreign exchange repatriation of funds, corporation laws and regulations relating thereto; and
- the terms of agreements, including the Concession Agreements or financing agreements, to which the Project SPVs are, or may become, a party.

Further, the method of calculation of the net distributable cash flows may change subsequently due to regulatory changes. Any change in applicable laws in India or elsewhere (including, for example, tax laws and foreign exchange controls) may limit our ability to pay or maintain distributions to our Unitholders. Furthermore, no assurance can be given that we will be able to pay or maintain the levels of distributions at all, or that the level of distributions will increase over time, or that future acquisitions will increase our distributable cash flow to our Unitholders. Any reduction in, or delay/ default in payments of distributions could materially and adversely affect the market price of our Units.

In addition, the financing agreements entered into by Project SPVs with banks, financial institutions and/or other lenders contains certain restrictive covenants, including, but not limited to, requirements that they obtain consent from the lenders prior to making any dividend payments to the Trust. Any failure to obtain such consents in a timely manner or at all would impede our ability to make distributions to Unitholders on a regular basis or at all, which could materially and adversely

affect the market price of the Units. Additionally, following a default under our financing agreements, lenders may take coercive actions as per the rights available to them under applicable law, which may restrict our ability to conduct business and operations.

5. **Project SPVs may not be able to claim depreciation in relation to toll collection rights acquired from the Sponsor.**

Considering the diverse judicial precedents and the surrounding controversy as to whether the expenditure incurred on development and construction of infrastructural facilities like roads/ highways on BOT basis with right to collect toll is entitled for depreciation under section 32(1)(ii) of the Act or the same can be amortized by treating it as an allowable expenditure under the relevant provisions of the Act, the CBDT issued the Circular to clarify its position for tax treatment under BOT arrangements (where ownership is not vested with the taxpayer).

The Circular clarifies that cost of construction on development of infrastructure facility of roads/highways under BOT projects may be amortized evenly over the concessionaire period (excluding time take for creation of such facility).

Further, the Circular explicitly clarifies that the applicability is restricted to BOT arrangements where ownership is not vested with the taxpayer.

Under TOT projects, the concessionaire does not undertake construction, but only collects toll and operates and maintains the highway/ road. We believe that upfront concessional payment made by the SPV which corresponds to acquisition of toll right may be considered akin to acquisition of business or commercial rights and SPV is likely to be eligible to claim depreciation under Section 32 under the head 'intangible asset'.

However, tax authorities may interpret and take a contrary view on the above which may adversely affect our business and profitability.

Risks Relating to Our Business and the Concession Agreements

6. ***Any payment by the Project SPVs, including in the event of the termination of the Concession Agreements, is subject to a mandatory escrow arrangement which restricts its flexibility to utilise the available funds.***

The escrow arrangement mandated under the Concession Agreements requires all monies that are received by the Project SPVs, including funds constituting the financial package, the fees and any other revenues collected from or in respect of the Project Highway (including the proceeds of any rentals, deposits, capital receipts or insurance claims) and all payments by the Sponsor (including, if any, in relation to the change of scope), to be deposited in an escrow account and utilised only in accordance with the order prescribed under the escrow agreement. The consent of NHAI, in its capacity as the concessioning authority (the "**Authority**"), and lenders, is required to amend the order of outflow of payments from such escrow account.

The escrow arrangements prioritise the payment of all taxes due, followed by payment of the concession fee to the Authority, expenses in connection with the construction of the project, operation and maintenance expenses, other costs and expenses incurred by the Sponsor, debt service payments, any payments and damages due and payable to the Sponsor, and balance, if any, in accordance with the instructions of the concessionaire. For details of the escrow arrangement, please see the section headed "*Summary of the Concession Agreements*" on page 294 of this Placement Document.

The debt financing provided by the Trust to the Project SPVs and any future debt financing proposed to be provided comprises of certain secured or unsecured interest-bearing loans (collectively, the "**Trust Financing**") which will be classified as senior debt under the Concession Agreements. In accordance with the escrow arrangement, the amounts payable to the Trust in respect of the Trust Financing, will be subordinated to the amounts payable in respect of taxes due, concession fees, construction expenses, operation, maintenance and other costs and expenses. Further, any reduction in the cash flows of the Project SPVs and/or an unanticipated increase in any of the abovementioned payments to be made by the Project SPVs from the escrow accounts may result in decreased and/or delayed payment to the Trust, materially and adversely impacting the ability of the Project SPVs to meet their payment obligations to the Trust. Any inability on the part of the Project SPVs to meet their payment obligations to the Trust may adversely impact the ability of the Trust to make distributions to the Unitholders in the manner described in this Placement Document or at all.

In case of withdrawals from the escrow account on termination, the escrow arrangement prioritises the payment of all taxes due and payable, followed by the payment due to senior lenders (which includes the Trust), any payments and damages due and payable to the Sponsor, retentions and payments arising out of liability for any defects and deficiencies, incurred or accrued operation and maintenance expenses and any other payments under the Concession Agreements, after which the balance may be withdrawn by the Project SPVs for its own purposes. Therefore, in case of termination, the amounts payable to the Trust in respect of the Trust Financing may be recovered only after payment of all taxes.

7. ***The Sponsor, whose interests may be different from the other Unitholders, will be able to exercise significant influence over certain activities of the Trust, and under the InvIT Regulations, it has the ability to divest its holdings in the Units three years following the initial offer of units.***

As of December 31, 2024, the Sponsor holds 15.48 % of the Units of the Trust. After the completion of the allotment (expected, on or about March 24, 2025) of the Preferential Issue, the Sponsor's unitholding shall change to 15.32%. However, there is no assurance that the Sponsor's unitholding will not increase or decrease in the future. The Sponsor will still be entitled to vote as a Unitholder on all matters other than matters where it is a related party and not permitted to vote under the InvIT Regulations. Thus, if the Sponsor's unitholding does not reduce significantly below the aforementioned percentage, it may be in a position to exercise significant influence in matters which require the approval of Unitholders by virtue of its ownership of Units in the Trust. The interests of the Sponsor may conflict with the interests of our other Unitholders and the Sponsor may, for business considerations or otherwise, seek to benefit itself instead of the Trust or the interests of the other Unitholders. The Sponsor will also exercise significant influence over the Project Manager, which is a wholly owned subsidiary of the Sponsor. Accordingly, the Project Manager may also be subject to conflicts of interest with respect to the Trust.

In addition, under the InvIT Regulations, the Sponsor was required to hold a minimum of 15% of our Units for a minimum period of three years from the date of listing pursuant to the initial offer Issue and the balance of its unitholding in the Trust was required to be locked in for a period of one year from the date of listing of the Units. Further, in accordance with the InvIT Regulations, the Sponsor and the Sponsor Group, collectively, are required to lock-in our Units as follows:

Period of unitholding	**Percentage (%)**
From the beginning of 4th year after the date of listing pursuant to the initial offer and till the end of 5th year from the date of listing pursuant to the initial offer	5% of total Units or ₹ 500 crores, whichever is lower
From the beginning of 6th year after the date of listing pursuant to the initial offer and till the end of 10th year from the date of listing pursuant to the initial offer	3% of total Units or ₹ 500 crores, whichever is lower
From the beginning of 11th year after the date of listing pursuant to the initial offer and till the end of 20th year from the date of listing pursuant to the initial offer	2% of total Units or ₹ 500 crores, whichever is lower
After completion of the 20th year from the date of listing pursuant to the initial offer	1% of total Units or ₹ 500 crores, whichever is lower

Moreover, the Sponsor and the Sponsor Group are also subject to additional lock in obligation pursuant to preferential issue or institutional placement of Units. However, Sponsor unitholding may reduce in the future or Sponsor may not subscribe, leading to dilution of its stake.

Given the influence that the Sponsor exerts on the Investment Manager and the Project Manager, and consequently the operations and credibility of the Trust, any material divestiture by the Sponsor in the Units, or any conflict of interest that it has compared to that of other Unitholders, could have a material adverse impact on our business, financial condition and results of operations.

8. ***The cost of implementing new technologies for collection of tolls and monitoring our projects could materially and adversely affect our business, financial condition and results of operations.***

Our future success will depend in part on our ability to respond to technological advances and emerging standards and practices on a cost-effective and timely basis. In addition, rapid and frequent technology and market-demand changes can often render existing technologies and equipment obsolete, requiring substantial new capital expenditures or write-downs of assets. Any failure by us to successfully adopt such technologies in a cost-effective and timely manner could increase our costs. Additionally, governmental authorities may require adherence with certain technologies in the execution of projects, tolling, operations and maintenance etc. and there can be no assurance that we would be able to implement the same in a timely manner, or at all. The FASTag is a device which is fitted on the front windscreen of vehicles to indicate online toll payment. The proper functioning of such technology infrastructure is essential to the conduct of our business. There can be no assurance that we would be able to replace or refurbish such equipment and further such replacement or refurbishment might not be undertaken in a cost-effective manner and any increased costs to us as a result of such replacement or refurbishment will adversely affect our profit margins and cash flows. Moreover, any digital security breach affecting our technology infrastructure, including toll payments systems, could result in financial loss, operational disruption and reputational damage.

Currently NHAI is in process of adopting new technologies in order to improve the toll operations, such as satellite-based tolling (GNSS) & Multi Lane Free Flow, which may have impact on the tolling length & consequently revenues from the projects across industry and concessionaires. It is pertinent to note that certain protection mechanisms are available in the concession agreement and attendant fee notifications. However, Project SPVs/ concessionaires may not be able to secure full implementations of such protections and may not be able to mitigate full losses arising from adoption of such newer technologies.

9. ***We may face limitations and risks associated with debt financing and refinancing.***

We are subject to regulatory restrictions in relation to our debt financing and refinancing. We may from time to time require debt financing and refinancing to carry out the Investment Manager's investment strategy and to cover maintenance costs. In the event that we undertake debt financing or refinancing, we may be limited by Indian law as to the form of financing or refinancing that we may undertake. As an InvIT, we may be unable to access certain debt capital available to companies.

In the event that we undertake debt financing or refinancing, we may also be subject to risks associated with debt financing and refinancing, including the risk that our cash flow may be insufficient to meet required payments of principal and interest under such financing and to make distributions to Unitholders. Our ability to generate sufficient cash to satisfy our debt obligations will depend on our future operating performance, which may be affected by prevailing economic conditions and financial, business and other factors beyond our control. There is no assurance that we will be able to generate sufficient cash flow to meet all of our debt obligations. If we are unable to make payments due under our debt facilities, the lenders may be able to declare an event of default and initiate enforcement proceedings relating to any security provided in respect of the loan facilities, and/or call upon any guarantees, and this may materially and adversely affect our ability to make distributions to Unitholders. Such default may also result in the termination of the Concession Agreements by the Sponsor.

10. ***Certain actions of the Project SPVs require the prior approval of NHAI, and no assurance can be given that NHAI will approve such actions in a timely manner or at all.***

Certain terms and conditions in the Project SPV's Concession Agreements, financing agreements, and our other approvals require the Authority's prior written approval to be obtained for one or more of the following actions, among others, such as:

- assignment of the Concession Agreements to any persons, the creation of any encumbrance over, or transfer or disposal of rights and benefits of the Project SPVs under the Concession Agreements or any project agreements;
- the selection or replacement of any operation and maintenance contractor and execution of the operation and maintenance agreements;
- securing refinancing; and
- any change in ownership of the Project SPVs.

Furthermore, the Concession Agreements with NHAI typically require the submission to NHAI, for its review and comments, all project agreements to which the Project SPVs is a party prior to entry, amendment or replacement of such agreements. In terms of the R4 Concession Agreements, in the event NHAI does not provide any comments within 15 days of such submission, the project agreement may be executed and submitted to NHAI within 7 days of such execution.

The restrictions described above may impose constraints on our flexibility to conduct our business. Furthermore, if as a result of these restrictions, we are unable to pursue a favourable course of action or to respond to an unfavourable event, condition or circumstance, then our business, financial condition and results of operations may be materially and adversely affected. For further details on the terms of the Concession Agreements, section headed "*Summary of the Concession Agreements*" on page 294 of this Placement Document.

11. ***Any delay in determination of appointed date (as defined in the R4 Concession Agreements) by the Authority may adversely impact our cashflows and revenue.***

The rights, privileges, liberties and obligations of NSPPL, shall commence from the date on which all conditions precedents, as stipulated in the R4 Concession Agreements, would have been satisfied. NSSPL shall enter into commercial service on the Appointed Date whereupon NSPPL shall be entitled to demand and collect fee and perform its O&M obligations, subject to and in accordance with the provisions of the R4 Concession Agreements. The determination of the Appointed Date by the Authority shall be final, conclusive and binding on NSPPL. Any delay in such determination of the Appointed Date may adversely affect our revenue generation, toll collection and cash flows and would have a material impact on our business and operations.

12. ***The regulatory framework governing infrastructure investment trusts in India is evolving and the interpretation and enforcement thereof involve uncertainties, which may have a material, adverse effect on the ability of certain categories of investors to invest in the Units, our business, financial condition and results of operations and our ability to make distributions to Unitholders.***

The SEBI issued the InvIT Regulations with effect from September 26, 2014. These regulations have been amended and supplemented with additional guidelines and circulars.

The regulatory framework governing infrastructure investment trusts in India comprises a separate set of regulations. The interpretation and enforcement of these regulations by regulators and courts can be uncertain. Additionally, various regulations and processes impact certain aspects of infrastructure investment trusts, including, but not limited to, follow-on public offers, bonus issues, the liabilities of the Unitholders, and the procedure for dissolution of infrastructure investment trusts, where detailed guidelines are yet been issued.

For example, infrastructure investment trusts are not classified as "companies" or "bodies corporate" within the meaning of the Companies Act, 2013, and various SEBI regulations., These include the Securities and Exchange Board of India (Buy-back of Securities) Regulations, 2018 and the Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011.

Moreover, letters to SEBI for grant of exemptions from the stringent application of certain regulations is made by the Investment Manager on behalf of the Trust from time to time. However, there is no assurance that such exemptions will be granted. If the Trust is unable to comply with stringent regulations or process, it may have a consequential impact on the business of the Trust and results of operations of the Trust. For example, please see the section entitled, "*Formation Transactions in Relation to the Trust - Details of arrangement pertaining to the Trust - NHIT Southern Projects Private Limited ("NSPPL")*" on page 30. While efforts will be made to comply with all regulatory changes, we cannot assure you, that this will always be possible. Non- compliance may result in reputational or material impact on our business and operations. We will strive to mitigate such risks by managing any adverse reports or other disclosures effectively, including clearly communicating the reasons for any non-compliance to relevant authorities.

In addition, new costs may arise from audit, certification and/or self-assessment standards required to maintain compliance with the InvIT Regulations. Such changes in regulation, interpretation and enforcement may have a material, adverse effect on our business, financial condition and results of operations.

As we will be operating in a new and relatively unclear regulatory environment, it is difficult to forecast how any new laws, regulations or standards or future amendments to the InvIT Regulations will affect infrastructure investment trusts and this could have any consequential impact on the infrastructure sector in India. For instance, pursuant to amendments to the InvIT Regulations on February 14, 2023 the Investment Manager was required to include an independent woman director on the board of the Investment Manager under Regulation 26(H) of the InvIT Regulations. SEBI by way of exemption letter dated February 21, 2024 exempted the Investment Manager from the requirement till March 31, 2024. While we are now complying with the aforementioned requirement, there is no assurance that the regulatory system will remain unchanged or that future changes will not impair our ability to comply with the regulations, conduct our business, compete effectively or make distributions effectively. Considering that the regulatory framework is ever evolving, if we are unable to comply with the regulatory changes or requirements, it could have an adverse reputational or business impact on us. For further information, please see section entitled *"Corporate Governance"* on page 101.

13. ***The Project SPV's toll-road concessions may be terminated prematurely under certain circumstances.***

The Toll Roads concessions of the Project SPVs are our principal assets. We will be unable to continue the operation of a particular road concession without a continuing concession right from the Sponsor, in its capacity as Authority. A concession may be terminated by the Authority for certain reasons set forth in the Concession Agreements, including, but not limited to, one or more of the following:

- any failure by the Project SPVs to comply with the change of ownership requirements;
- any failure by the Project SPVs to make any payments, to the Sponsor in a timely manner;
- any failure by the Project SPVs to comply with maintenance requirements;
- in the event the Project SPVs abandons or manifests intention to abandon the operation and maintenance of the Project Highway;
- any occurrence of an event of default under any financing document;
- any continuation of a force majeure event, such as an act of God, act of war, expropriation or compulsory acquisition of any project assets by the government, strikes, civil commotions, boycotts and political agitations, beyond a specified time; and
- any failure by the Project SPVs to comply with the Concession Agreements if such default causes a material adverse effect on the Sponsor.

If the Concession Agreements are terminated by the NHAI due to a default by the Project SPVs, or by the Project SPVs due to a default by the NHAI, the Project SPVs are entitled to termination payments or otherwise from the NHAI in accordance with the terms of the relevant Concession Agreements. If the Concession Agreements are terminated prematurely, our business, financial condition and results of operations may be materially and adversely affected. For further details on the termination of the relevant Concession Agreements, the termination payments, and the definition of "default" as contemplated under the Concession Agreements, see the section headed "*Summary of the Concession Agreements*" on page 297, of this Placement Document.

14. ***Toll collections and Toll Road traffic volumes may be affected by existing or new competing roads and bridges and other modes of transportation, and any improvements to, or construction of, such roads, bridges and other modes of transportation.***

Upon commencement of the concessions, our principal source of revenue will be derived from the collection of toll fees from users of the Toll Roads. However, the level of toll collections may be affected by various factors, including the presence of existing or newly developed competing routes and alternative modes of transportation. These alternatives may include adjacent free roads, newly constructed or existing toll roads, shifting of toll plazas or other transportation networks

such as national highways or state toll roads, railways or air transport. Although the Concession Agreements contain certain restrictions on the ability of the Sponsor to construct or cause to be constructed any competing roads within 15 km of the Toll Roads, the Authority is not prohibited from constructing such competing free or toll roads if the average traffic on the Toll Road exceeds 90 per cent of its stipulated designed capacity for three consecutive years. Furthermore, the Sponsor is not restricted under the Concession Agreements from constructing alternative modes of travel which service the same areas as are serviced by the Toll Roads.

In particular, the Sponsor has entrusted the Project SPVs with the role of development, operation, maintenance and management of the Toll Roads mentioned hereinbelow.

S. No.	Toll Road	Length of Toll Road (in kms)	Connecting States/ in the State of
R1 Toll Roads			
1.	Abu road – Swaroopganj	31.000	Rajasthan to Gujarat
2.	Chittorgarh – Kota & Chittorgarh Bypass	160.500	Madhya Pradesh -Rajasthan
3.	Kothakota Bypass – Kurnool Highway	74.620	Telangana – Andhra Pradesh
4.	Palanpur/Khemana – Abu Road	45.000	Gujarat – Rajasthan
5.	Maharashtra Border – Belgaum	77.700	Maharashtra -Karnataka
R2 Toll Roads			
1.	Agra Bypass	32.800	Uttar Pradesh
2.	Borkhedi Kelapur Project Highway	138.150	Maharashtra – Telanagna
3.	Shivpuri Jhansi Project Highway	75.300	Madhya Pradesh – Uttar Pradesh
R3 Toll Roads			
1.	Chichra – Kharagpur Project	56.120	–West Bengal
2.	Rewa– Lakhnadon Project	306.340	Madhya Pradesh
3.	Kachugaon – Kaljhar Project	114.170	Assam
4.	Kaljhar – Patacharkuchi Project	27.300	Assam
5.	Lakhnadon – Mahagaon (Mohgaon) – Khawasa Project	107.350	Madhya Pradesh
6.	Orai – Barah Project	62.900	Uttar Pradesh
7.	Chitradurga Bypass – Hubli Project/ Karnataka Project	214.470	Karnataka
R4 Toll Roads			
1.	Narasannapeta to Ranasthalam Project	53.799	Andhra Pradesh
2.	Ranasthalam to Hanumanthavaka Project	66.544	Andhra Pradesh
3.	Anandapuram – Pendurthi – Anakapalle Project	48.605	Andhra Pradesh
4.	Gundugolanu-Devarapalli-Kovvuru Project	69.884	Andhra Pradesh
5.	Chittoor to Mallavaram Project	61.128	Andhra Pradesh
6.	TN/AP – Border to Nalagampalli to AP/Karnataka Border Project	84.797	Andhra Pradesh
7.	Bareilly – Sitapur Project	157.590	Uttar Pradesh
8.	Muzaffarnagar – Haridwar Project	78.560	Uttar Pradesh & Uttarakhand
9.	Raipur to Simga Project	48.580	Chhattisgarh
10.	Simga to Bilaspur Project	77.940	Chhattisgarh
11.	Gandhidham (Kandla) to Mundra Port Project	71.399	Gujarat

Additionally, given the renewed focus of the GoI, at the national, state and local levels, on the development and strengthening of the highway network across India, subject to the aforementioned restriction, there can be no assurance that there will not be any construction, widening or improvement of any free or toll roads, or construction of other modes of transportation, in the proximity of the Toll Roads or which provide an alternative or more direct routing to locations served by the Toll Roads. Any such construction, widening or improvement may divert traffic away from the Toll Roads, which may adversely affect toll collections and, therefore, our ability to meet our payment obligations under the Units.

15. ***Our business will be subject to seasonal fluctuations and routine maintenance that may affect our cash flows.***

Our cash flows will be affected by seasonal factors and/or routine maintenance leading to traffic diversion, which may materially and adversely affect traffic volumes. Traffic volumes tend to decrease during the monsoon season and conversely tend to increase during holiday seasons. The monsoon season may also restrict our ability to carry on activities related to our operation and maintenance of the Toll Roads. Further, extreme weather conditions, such as floods, incessant or torrential rain, acts of God, or any other force majeure event, could impair the safe operation of and traffic movement on the Toll Roads by causing events such as overtopping of structures on the carriageway, amongst others. This may also result in stoppage or diversion of traffic on Toll Roads or delays in periodic maintenance and may also reduce productivity. Additionally, anticipated traffic diversions could be higher for certain projects due to disruptions caused by capacity augmentation construction, as seen in past projects, thereby materially and adversely affecting our business, financial condition and operational results.

16. ***Toll rates and collections and Toll Road traffic volumes are dependent on factors beyond our control and are subject to significant fluctuations.***

Revenue from toll receipts is affected by traffic volume and toll rates, both of which are beyond our control. The toll rate structure is laid down under National Highways Fee (Determination of Rates and Collection) Rules, 2008, as amended from time to time (the "**Fee Rules**"). The Fee Rules specify that the applicable toll rates specified thereunder shall be increased by three per cent. Each year along with an adjustment based on an increase in the wholesale price index (the "**WPI**"). We are not provided with any flexibility to adjust the toll rates as the rates are explicitly changed by the GOI in accordance with the Fee Rules. See "*—Toll collections are affected by applicable toll rates and revisions to such rates and the number of road users subject to such rates.*"

Traffic volumes on the Toll Roads and toll collections are directly and indirectly affected by a number of other factors beyond our control, including but not limited to:

- the growth of the Indian economy and the economic development of the states in which the Toll Roads are located as well as neighbouring states (the "**Project Influence Area**");
- restrictions on mining, or a decline in manufacturing or exports of commodities plying on the Toll Roads due to regulatory clampdowns or other reasons;
- the number and type of motor vehicles in operation and the cost of purchasing and operating motor vehicles, including financing costs, environmental law compliance costs, exchange rate fluctuations and fuel prices, in the Project Influence Areas;
- weather conditions, such as floods or torrential rain, acts of God, strikes or any other force majeure event, including epidemics, such as COVID-19, that could impair the safe operation of, restrict traffic access to, or prevent use of the Toll Roads;
- traffic on the roads providing access to and from the Toll Roads, or the physical condition of such roads, which hampers the ability of road users to gain access to and from the Toll Roads;
- the capacity and physical condition of the Toll Roads, or any structure forming part of the Toll Roads, such as bridges, bypasses or tunnels, and the need for maintenance and repair of parts or all of the Toll Roads, or any structure forming part of the Toll Roads, which may result in restricted or no access to the Toll Roads for material periods of time;
- overall security of the Toll Roads as managed by the relevant security contractors, including the possible threat of terrorist attacks on the Toll Roads or any of their free-standing structures;
- a change in the applicable toll policies or other applicable laws which affects any category of vehicle or fuel;
- changes to axle load norms in order to further increase the permissible axle load limits in India, which may adversely impact traffic growth along Indian national and state highways and cause accelerated deterioration of the condition of the pavement of the Toll Roads;
- the reactions of the public or other national or state government institutions to toll rate increases; and
- seasonal holidays.

In the event there is a significant decrease in traffic volume or change in toll rates on the Toll Roads, there may be a corresponding decrease in toll collections which could have a material adverse effect on our ability to meet our payment obligations under the Units.

17. ***We are subject to environmental, social and safety risks associated with the operation of the Toll Roads which could adversely affect our business, cashflows and our results of operations.***

We are subject to laws and government regulations, including those related to safety, health, environmental protection, and other environmental and social risks concerning our Toll Roads. Environmental laws and regulations in India are becoming more stringent, and their impact on our operations cannot be predicted with certainty. Any failure on our part to comply with existing laws may result in legal proceedings, third-party claims, or regulatory fines. Further, the operation and maintenance of Toll Roads may require certain permissions and regulatory approvals. For instance, approvals from the Ministry of Environment, Forest, and Climate Change of India may be necessary for activities such as cutting down trees. However, there is no assurance that these permissions and regulatory approvals will be granted in every case, which may adversely impact the concessionaire's ability to operate and maintain the Toll Roads. Additionally, safety and other operational and maintenance risks may arise from environmental and social factors. For instance, in relation to the TN/AP Nadian project, approximately 10 km of the highway runs along the outskirts of the Pattikonda and Palamaner Reserved Forests, predominantly consisting of eucalyptus plantations. Furthermore, the stretch passes partially along the Rayala Elephant Reserve near Palamaner. Consequently, certain areas near these stretches are known to have elephant crossings, leading to potential human-animal conflict risks. The Authority, in consultation with Forest Officials, has identified three locations with a higher probability of elephant movement for constructing elephant passes. Additionally, one of the R3 toll roads i.e. the Lakhnadon-Khawasa project faces potential operational challenges due to its location within a wildlife protection area, with risks of wildlife roadkill despite mitigation measures. Additionally, obtaining prior permissions from the Forest Department for routine maintenance has lead to restricted operational hours, impacting the discharge of O&M obligations and potentially resulting in penalties.

18. ***Leakage of the tolls collected on the Toll Roads may adversely affect toll collections.***

Toll collections are primarily dependent on the integrity of our toll collection system. Upon commencement of the concessions, the Toll Roads will be operated on an "open" toll collection system with different toll rates applicable to certain classes of vehicles; each motorist using a particular class of vehicle is charged a flat rate at the point of entry to the toll road regardless of the actual distance travelled.

Additionally, the Anandapuram- Pendurthi- Anakapalle Project is proposed for closed tolling in the next 4 years due to which collection may be impacted post transitioning from open tolling to closed tolling mechanism. The level of toll collections may be also reduced by leakage through toll evasion, fraudulent acts on the part of road users or our toll collection operators, theft, technical faults in our toll collection systems, or unlawful roadway entries or exits by road users to avoid paying the required toll.

To the extent we become aware of any routes available to road users to bypass the toll plazas, we may face delays in obtaining approval from the Sponsor to implement additional toll plazas to prevent such unauthorized entry or exit to the Toll Roads, which may adversely affect our revenue and our ability to meet our payment obligations under the Units. If toll collection is not adequately monitored, leakage may reduce toll collections. Although we expect to put in place systems and software, as well as deploy a number of toll plaza supervisors and security manpower, to minimize leakage through fraud and theft, if there is any significant failure in the efficiency or effectiveness of our collection practices or of the installed system software or any significant failure by us or our contractors to control leakage in toll collection, there could be a material adverse effect on our toll collections.

Furthermore, there may be situations where toll collection is disrupted or stopped, for example, due to public disturbances, or strikes or work stoppages as a result of disputes with local labour unions. Any such disruption or other stoppage of toll collection may interfere with our collection practices, resulting in increased leakage and reduced toll collections by us, which may adversely affect our revenue and our ability to meet our payment obligations under the Units.

19. ***The termination payment due to us upon termination of the Concession Agreements may not adequately compensate us for the actual costs and investments associated with the Toll Roads in a timely manner or at all and thus may not provide us with sufficient funds to repay the Units.***

The Concession Agreements may be terminated by us or the NHAI prior to their expiration for a number of reasons. For details, see "*—The Project SPVs Toll-Road Concession may be terminated prematurely under certain circumstances.*" On page 48. In the event that the early termination of the Concession Agreements is due to a breach by us, we are entitled to receive a termination payment equal to 70 per cent of the Unexpired Cash Flow (*as defined in the Concession Agreements*) in addition to remaining liable for costs and liabilities in relation to the Toll Roads. In the event that the early termination of the Concession Agreements is due to a breach by the NHAI, we are entitled to receive a contractually agreed termination amount equal to 105% of the the Unexpired Cash Flow (*as defined in the Concession Agreements*). As the termination payment payable to us in the event of a breach by us would be lower than what we would have otherwise been entitled to receive in the event that the Concession Agreements had not been terminated, we may not be adequately compensated for the actual costs and investments associated with the Toll Roads and, therefore, may not be able to meet our payment obligations in relation to the Units or proposed debt issuance.

There is no assurance that any termination payment due to us will be paid in a timely manner or at all. Further, there are no precedents of termination payments being triggered in respect any other TOT projects in India. In the event of a delay in the disbursement of a termination payment by the Sponsor, in particular, if any dispute arises in respect of such payment, or in the event the Sponsor fails to make the termination payment at all, there may be insufficient funds available for us to meet our payment obligations under the Units.

20. ***Toll collections are affected by applicable toll rates and revisions to such rates and the number of road users subject to such rates.***

Under the terms of the Concession Agreements, toll rates applicable to the Toll Roads are determined in accordance with the Fee Rules. Toll rates are increased annually by a fixed percentage and adjusted based on the Wholesale Price Index (WPI). The adjustment considers the change in WPI between the week ending on January 6, 2007, and the corresponding week of each adjustment year. However, the WPI Adjustment is capped at 40% of the WPI change. While a correlation exists between WPI and factors like wage and material costs, toll rate increases may not fully offset operational costs, especially in high WPI fluctuation periods.

Additionally, toll collections can be influenced by exemptions granted under Concession Agreements, such as for non-commercial road users or discounted fee users. Any increase in exemptions or inability to implement revised toll rates promptly can reduce toll collections. This impact can be compounded by factors like reduced traffic volume, changes in consumer preferences, or exchange rate fluctuations.

Further, the annual toll rate revisions, typically effective from April 1, are critical to ensuring revenue growth and aligning toll collections with operational costs. However, delays in implementing these revisions can lead to significant financial and operational risks. For instance, in the current financial year, toll rates were revised from June 3, 2024, due to procedural delays. Such delays can lead to revenue losses, affecting debt servicing capabilities and financial projections.

Additionally, delayed revisions can also impact investor sentiment and asset valuations, particularly when uncertainties arise around revenue forecasts. These uncertainties may influence the valuation of toll assets, potentially affecting ratings from financial institutions and agencies.

21. ***Our revenues under the Transitional Support Agreement are dependent on successful continuation of underlying tolling contracts.***

The Sponsor, Project Manager and NSPPL ("**Project SPV 3**") have entered into a transitional support agreement dated March 13, 2025 for the purpose of the Sponsor providing transitional support to (i) the Project SPV 3 in respect of its O&M obligations and tolling obligations in relation to the R4 Concession Agreements; and (ii) the Project Manager in respect of its obligations under the Project Implementation and Management Agreement. As a result, the Sponsor is obligated, during the term of the Transitional Support Agreement, to undertake the tolling obligations/ tolling related responsibilities under and in compliance with the R4 Concession Agreement(s) on behalf of the Concessionaire. In furtherance of this, the Sponsor has entered into tolling contracts with certain third-party contractors in respect of the project highways under which these contractors pay the Sponsor a fixed contracted fee on a regular basis irrespective of the actual quantum of fee collected in respect of the project highway.

The Sponsor shall continue to operate tolling contracts on "as is basis" during the transition period from appointed date. Further, the remittance (which would be due to the Sponsor) under such tolling contracts would be credited directly to NSPPL upon consummation of the transaction. These tolling contracts have a defined period and have set expiry dates. However, some contracts may expire during the transaction period or upon its completion, potentially delaying the handover over of the tolling operations. Additionally, tolling contracts contain provisions for pre-mature termination in cases of default by third-party contractors. In such scenarios, the Sponsor may need to enter into new contracts or extend existing ones, with the remittance from such renewed tolling contracts possibly being lower than the currently contracted amounts, posing a risk of lower revenue. Moreover, toll contracts are periodically awarded by NHAI to various tolling contractors with the understanding that they may be terminated for various reasons including, taking over of the operations of the relevant Toll Roads by Project SPV 3. However, such tolling contractors may contest termination of the tolling contracts, delay in handover of the toll plazas of the Toll Roads, fail to transfer the required amounts under the tolling contracts. Such uncertainties could materially impact the expected revenue, financial condition, and overall business prospects of Project SPV 3.

22. ***The operation of the Toll Roads and the revenues generated from them may be impacted as a result of any capacity augmentation or other works required to be carried out in accordance with the terms of the Concession Agreements or any RFPs floated by the Sponsor.***

The Sponsor has the right under the terms of the Concession Agreements to undertake, through a contractor, at its own cost, capacity augmentation of the Toll Roads. In connection with any capacity augmentation work in respect of the Toll Roads, the toll fees shall be reduced to 75% during the period of construction in terms of the applicable fee rules. While in the case of R2 Toll Roads, R3 Toll Roads and R4 Toll Roads, any financial loss incurred by the concessionaire, during the period of such capacity augmentation, will be compensated for by the Authority on a quarterly basis to place the concessionaire in the same financial position that it would have enjoyed had there been no reduction in toll rates due to capacity augmentation, the same compensation shall not be provided to R1 Toll Roads. Considering there can be no assurance that construction work in relation to such capacity augmentation work will be completed in the expected time frames, any delay in capacity augmentation works shall have an adverse impact on the R1 Toll Roads, in turn, adversely impacting the revenue of the Trust. The project's toll revenue is significantly dependent on the traffic volume. Any Capacity augmentation construction may incentivize toll roads users to shift to the alternate routes. Such diversion could lead to reduction in traffic on the project highway, thereby adversely impacting toll collections and overall revenue system.

In exercise of its rights relating to capacity augmentation under the Concession Agreements, the Sponsor may from time to time release Request for Proposals ("**RFPs**") for construction activities on the Toll Roads. For example, in August 2021, the Sponsor had released RFPs inviting bids for construction works on certain sections of the Belgaum Kagal Project. The RFPs contained the timeframe within which the construction would be completed and details of works to be completed during augmentation including the proposed structures like flyovers and bridges. There can be no assurance that the capacity augmentation or construction under future RFPs would be completed within the expected time frames. Further, the length of these structures would determine the permitted increase in Toll Fees that the concerned Project SPV would be entitled to charge upon successful completion of the construction. The actual increase in length of the structures and in turn, permitted increase in Toll Fees is dependent on several factors beyond our control, such as, the final length of the structures constructed under the RFPs.

Moreover, there can be no assurance that the criteria for capacity augmentation of any stretch shall be strictly in accordance with the Concession Agreements. In addition to the criteria stipulated in the Concession Agreements, capacity augmentation may also be carried out by the government of India based on economic and strategic requirements. As such, the capacity augmentation may be commenced prior to the stipulated time period as per the Concession Agreements. For instance, the capacity augmentation for a stretch of road that forms part of Kothakota Bypass – Kurnool Project is proposed prior to the stipulated time period as per the Kothakota Bypass – Kurnool Concession Agreement by the Government of India as part of its strategic initiative of Bharatmala Pariyojana. Accordingly, the Concessionaire will have to bear the

additional cost of operation and maintenance of the widened road and the same may or may not be reimbursed by the Authority. Further, in terms of Kotha Kurnool Concession Agreement, the Concessionaire is required to complete certain initial improvement works within a timeframe of 24 months from the Appointed Date. Considering the apparent advancement of the capacity augmentation, the Concessionaire is not required to undertake works envisaged in the Concession Agreement. Instead, the Concessionaire has remitted an amount equivalent to 80% of the estimated amount of initial improvement works to the Authority, in accordance with the negative change of scope provisions of the Concession Agreement.

Further, in terms of the R2, R3 and R4 Concession Agreements, the detailed project report for capacity augmentation may be commenced immediately once the average daily traffic has met the target traffic. Additionally, any increase in revenue due to increase in Equivalent Tollable Length (*as defined in the R2 R3 and R4 Concession Agreements*) of the project highways shall be paid to NHAI on a quarterly basis. For further details in relation to the differences in the terms of R1 Concession Agreements, R2 Concession Agreements, R3 Concession Agreements and R4 Concession Agreements, see "*Summary of Concession Agreements – Differences amongst the R1 Concession Agreements, R2 Concessions Agreements, R3 Concession Agreements and R4 Concession Agreements*" on page 269.

23. ***Changes in the policies adopted by governmental entities or in the relationships of any member of the Trust with the Government or State Governments could materially and adversely affect our business, financial performance and results of operations.***

The Project SPV would be deriving almost all of its revenue from the Concession Agreements with the NHAI and must maintain good relationships and strategic alliances with the Sponsor, the Government and State Governments. We expect that we will continue to depend on, and benefit from, policies relating to the terms of the concessions in respect of the Project SPV's existing projects and any future projects. In addition, we expect to benefit from, and depend on, the Sponsor and various Government and State Government entities in terms of policies, incentives, budgetary allocations and other resources provided by these entities for the road industry in general. Any adverse change in any existing governmental policies, incentives, allocations or resources, or any change in our relationships with governmental entities, could materially and adversely affect our business, financial condition and results of operations.

Additionally, the Toll Roads may be subject to delays, extensive internal processes, policy changes, changes due to local, national and internal political pressures and changes in governmental or external budgetary allocation and insufficiency of funds. Since governmental entities are responsible for awarding concessions and are a party to the development and operation of the awarded projects, our business will be directly and significantly dependent on their support. Any withdrawal of support or adverse changes in their policies, even if not quantifiable monetarily, may lead to the Project SPV's agreements being restructured or renegotiated or the concession period being decreased, which could materially and adversely affect the Project SPV's financing, capital expenditure, revenues, development or operations.

24. ***The Valuation Reports, and any underlying reports, are not opinions on the commercial merits of the Trust or the Project SPVs, nor are they opinions, expressed or implied, as to the future trading price of the Units or the financial condition of the Trust upon listing, and the valuation contained therein may not be indicative of the true value of the Project SPV's assets.***

Ernst & Young Merchant Banking Service LLP has been appointed as the independent valuer (the "**Valuer**") to undertake independent appraisals of the Toll Roads. The Valuer have issued the Valuation Report in relation to the Target Toll Roads as at February 28, 2025, included in **Annexure B** to this Placement Document, In order to issue their Valuation Reports, the Valuer based their assumptions regarding the traffic volume, toll rates, operation and maintenance costs, amortization, debt repayments and non-cash net working capital projections amongst other things, on information provided by and discussions with or on behalf of the Investment Manager, and which reflects current expectations and views regarding future events and, therefore, necessarily involves known and unknown risks and uncertainties. Please see the Valuation Report included in Annexure B to this Placement Document for a more detailed description of all assumptions relied upon in the preparation thereof. The Valuation Report contains forecasts, projections and other "forward-looking" statements that relate to future events, which are, by their nature, subject to significant risks and uncertainties. The future events referred to in these forward-looking statements involve risks, uncertainties and other factors which may cause the actual results or performance to be materially different from any future results or performance expressed or implied by the forward-looking statements.

The Valuation Reports are not an opinion on the commercial merits and structure of the Trust or the Project SPVs, nor is it an opinion, expressed or implied, as to the future trading price of the Units in or the financial condition of the Trust upon listing. The Valuation Reports does not purport to contain all the information that may be necessary or desirable to fully evaluate the Trust or the Project SPVs or an investment in the Trust or the Units. The Valuation Reports is not based on a comprehensive review of the business, operational or financial condition of the Project SPVs and, accordingly, makes no representation or warranty, expressed or implied, in this regard. The Valuation Reports does not confer rights or remedies upon investors or any other person, and does not constitute and should not be construed as any form of assurance as to the financial condition or future performance of the Trust or as to any other forward-looking statements included therein, including those relating to certain macro-economic factors, by or on behalf of the Investment Manager, the Project Manager, the Trust. Further, we cannot assure you that the valuation prepared by the Valuer reflects the true value of the net future

revenues of the Project SPVs or that other valuers would arrive at the same valuation. Accordingly, the valuation contained therein may not be indicative of the true value of the Project SPV's assets. The Valuation Reports have been issued as on February 28, 2025, but does not take into account any subsequent developments and should not be considered as a recommendation by the Investment Manager, the Project Manager, the Trust or the Lead Manager or any other party that any person should take any action based on the Valuation Reports. Accordingly, investors should not completely place on reliance on the Valuation Reports in making an investment decision to purchase Units in the Trust.

25. ***We have referred to the data derived from (i) Technical Consultant Report commissioned from the Technical Consultants, and (ii) Traffic Reports commissioned from the Traffic Consultants which are based on certain bases, estimates and assumptions that are subjective in nature and may not be accurate.***

We have appointed Samarth Infraengg Technocrats Private Limited, Ramboll India Private Limited and Egis India Consulting Engineers Private Limited, independent third-party research agencies for undertaking technical due diligence of the R4 Toll Roads, as our technical consultants (the "**Technical Consultants**"). The Technical Consultants have prepared technical reports on the R4 Toll Roads, which are set out in **Annexure D** to this Placement Document (the "**Technical Report**").

We have appointed IBI Group India Private Limited, Ramboll India Pvt Ltd, and CRISIL India Limited as our traffic consultants ("**Traffic Consultants**") to prepare the detailed Traffic Consultant Reports and provide their analysis and forecast of traffic volumes for the R4 Toll Roads. The traffic reports are set out in **Annexure C** to this Placement Document (the "**Traffic Reports**").

Furthermore, we have also commissioned valuation reports dated February 18, 2025 in relation to NWPPL, and NEPPL and the valuation report dated December 31, 2024 in relation to NSPPL issued by the Valuer, sets out their opinion as to the fair enterprise value of the Toll Roads as on February 28, 2025. All of the Technical Reports, the Traffic Reports and the Valuation Reports (together referred to as "**Industry Expert Reports**") are subject to various limitations and are based upon certain bases, estimates and assumptions that are subjective in nature and that are based, in part, on information provided by and discussions with or on behalf of the Investment Manager. In particular, certain of the information we have provided the Traffic Consultants for the purposes of the Traffic Reports has been aggregated from data collected by third-party service providers. Although we believe such data to be accurate, we have not verified the information and cannot assure you that it is free from error. The Industry Expert Reports reflect current expectations and views regarding future events, and therefore, necessarily involve known and unknown risks and uncertainties. The Industry Expert Reports contain forecasts, projections and other "forward-looking" statements that relate to future events, which are, by their nature, subject to significant risks and uncertainties, including population growth, gross domestic product growth, vehicle ownership rates, per capita income, agricultural output and fuel consumption. The future events referred to in the Industry Expert Reports involve risks, uncertainties and other factors which may cause the actual traffic volumes to be materially different from any future traffic volumes expressed or implied by the Industry Expert Reports. There can be no assurance that the bases, estimates and assumptions adopted by the Technical Consultants, Valuer or the Traffic Consultants for the purposes of preparing their respective reports will prove to be accurate. If any of these traffic assumptions are incorrect, future traffic volumes for the R4 Toll Roads could be materially different from those that are set forth in these reports and this Placement Document.

26. ***Certain provisions of the standard form of Concession Agreements may be untested, and the Concession Agreements may contain certain restrictive terms and conditions which may be subject to varying interpretations.***

The Concession Agreements that we have entered into is substantially based on a model concession agreement prescribed by the Sponsor. For example, the toll fees under the Concession Agreements is fixed, subject to annual adjustments to account for inflation as specified in the Concession Agreements. In addition, the operation and maintenance standards and specifications require the Project SPVs to incur operation and maintenance costs on a regular and periodic basis. The Concession Agreements also provide for a fixed term concession and, although our Concession Agreements provide for an extension or reduction of the concession period based on certain factors, including actual average toll collection on specified target dates, the Concession Agreements do not provide for renewal of the Concession Agreements after the expiry of the term.

The form of the Concession Agreements has evolved within the last decade and there is limited guidance available on the interpretation of a number of terms and conditions of the Concession Agreements. In addition, certain terms of the Concession Agreements, such as those related to an augmentation in the capacity of the toll roads, substitution of the Sponsor in any or all of the project agreements, termination payments by the Sponsor, construction of additional competing roads by the Sponsor, the Government or State Governments and payment of compensation by the Sponsor for changes in law are untested. Accordingly, the interpretation of certain terms and conditions in the Concession Agreements of the Project SPVs by the Sponsor, the courts or regulators may be different from our interpretation of such terms and conditions.

The terms and conditions of the Concession Agreements contain restrictive terms and conditions. For example, the Concession Agreements contain provisions that mandate substitution clauses in the project agreements. Such substitution clauses allow the Sponsor to step into project agreements in place of the Project SPVs in the event of suspension of the Project SPVs or termination of the Concession Agreements due to a breach or default by the Project SPVs. The Concession

Agreements also provides that the lenders to a Project SPV may substitute the Project SPV with new entities approved by the Sponsor in the event of a default by the Project SPV under the relevant Concession Agreements or financing agreements. The terms of the Project SPV's Concession Agreements requires the Project SPV to indemnify the Sponsor for losses arising out of breach of the obligations of the Project SPV under the Concession Agreements.

In the event the Sponsor or a lender invokes any restrictive term or condition in the Concession Agreements, or the Sponsor, a court, or regulator interprets any term or condition in an adverse manner, such invocation or interpretation may materially and adversely affect our business, financial condition and results of operations.

27. ***We may be subject to increases in costs, including operation and maintenance costs, which we cannot recover by increasing toll fees under the Concession Agreements.***

The terms and conditions of the Concession Agreements are fixed and are not negotiable during the concession period. The costs of operating and maintaining the InvIT Assets may increase due to factors beyond the Project SPV's control, including, among other things:

- increase in the cost of labour, materials and insurance;
- the Project SPV being required to install intelligent toll-collection systems at their own costs;
- the Project SPV being required to restore their project roads in the event of any landslides, floods, road subsidence, other natural disasters, accidents or other events causing structural damage or compromising safety;
- increase in electricity tariff rates or other fuel costs resulting in an increase in the cost of energy;
- adverse weather conditions;
- unforeseen legal, tax and accounting liabilities relating to acquired assets; and
- other unforeseen operational and maintenance costs.

In the event that our costs increase, we may be unable to offset such increases with higher revenues by increasing toll fees due to the restrictions of the Concession Agreements.

Any significant increase in operation and maintenance costs beyond the amounts budgeted for by us, or any failure to meet quality standards, may reduce our profits, could expose us to penalties imposed by the concessioning authorities and could have a material, adverse effect on our business, financial condition and results of operations. Such events may also impact the ability of the Project SPVs to service the debt obtained from the Trust and our ability to make distributions to Unitholders. As such, the inability to change the terms and conditions, including the toll fees of the concession during the concession period, may materially and adversely affect our operational and financial flexibility.

28. ***We will depend on certain directors, executive officers and key employees of the Investment Manager, the Project Manager and the Project SPVs, and such entities may be unable to appoint, retain such personnel or to replace them with similarly qualified personnel, which could have a material, adverse effect on the business, financial condition, results of operations and prospects of the Trust.***

Our performance will depend, in part, upon the continued service and performance of certain directors, executive officers and key personnel of the Investment Manager, the Project Manager and the Project SPVs. The continued operations and growth of our business will be dependent upon the Investment Manager, the Project Manager and the Project SPVs being able to attract and retain personnel who have the necessary and required experience and expertise. There is a probability that the target talent pool may misrepresent about their experience and expertise. We cannot assure you that the parties to the Trust shall be able to identify such misrepresentation, if it occurs in future, in a timely manner.

Further, competition for qualified personnel with relevant industry expertise in India is intense due to the scarcity of qualified individuals in the toll-road business, and the aforesaid entities may not be able to retain their executive officers and key employees or attract and retain fresh talent in the future. Any inability by the Investment Manager, the Project Manager and the Project SPVs to retain their directors, executive officers and key employees, or the inability to replace such individuals with similarly qualified personnel, could have a material, adverse effect on the business, financial condition, results of operations and prospects of the Trust.

Additionally, there is a risk associated with willful misconduct, malpractice, or fraudulent activities by directors, executive officers, or key employees. Such actions could lead to financial misrepresentation, operational inefficiencies, regulatory penalties, or reputational damage. Instances of fraud, embezzlement, or mismanagement may not always be detected promptly, potentially leading to financial losses or legal consequences. Any such misconduct, if not identified and addressed effectively, could have adversely impact the Trust's financial stability and long-term viability.

29. ***There can be no assurance that we will be able to successfully undertake future acquisitions of road assets or efficiently manage the infrastructure road assets we have acquired or may acquire in the future.***

We may in the future acquire toll roads and other road assets. We may not be able to identify or conclude appropriate or viable acquisitions in a timely manner. The success of our past acquisitions and any future acquisitions will depend upon several factors, including:

- our ability to identify, finance and acquire operational toll roads and other road assets on a cost-effective basis;
- our ability to integrate acquired personnel, operations, products and technologies into our organisation effectively;
- unanticipated problems or legal liabilities of the acquired businesses; and
- tax or accounting issues relating to the acquired businesses.

There can be no assurance that we will be able to achieve the strategic purpose of such acquisitions or operational integration or an acceptable return on such investments, which may materially and adversely affect our profits, financial condition and distributions.

Furthermore, Concession Agreements for future toll-road projects may also contain terms and conditions that are more restrictive than those under the current Project SPV's Concession Agreements for the Toll Roads. These restrictions may restrict our flexibility in managing our business or projects and could in turn materially and adversely affect our business prospects, financial condition and results of operations.

30. ***The Project SPVs may not be able to comply with their maintenance obligations under the Concession Agreements, which may result in the termination of the Concession Agreements, the suspension of the Project SPV's rights to collect tolls or the requirement that the Project SPV pay compensation or damages to the Sponsor.***

The Project SPVs are required to undertake operation and maintenance of the Toll Roads within periods and in the manner as specified in the Concession Agreements. There can be no assurance that the Project SPVs will not breach the maintenance obligations under the Concession Agreements on account of the Project Manager's failure to undertake the stipulated maintenance work in a timely manner, or at all.

If any Project SPV is in breach or default of its obligations, then the NHAI has the right to (a) suspend the right of the Project SPV, including the right to collect tolls and other fees, (b) claim compensation for all direct, additional costs suffered or incurred by the Sponsor arising out of such default, or (c) terminate the Concession Agreements. Further, the Gundugolanu-Devarapalli-Kovvuru project, Partial portion of TN/AP – Border to Nalagampalli - AP/Karnataka Border Project, Chittoor to Mallavaram Project, Narasannapeta to Ranasthalam Project, Ranasthalam to Hanumanthavaka Project and Anandapuram – Pendurthi – Anakapalle Project are those projects that are currently being operated and maintained by various concessionaires/ EPC contractors under their respective contractual agreements. These projects shall be handed over to the Trust as per the O&M handover schedule stipulated under the respective concession agreements. While the subsisting agencies/ EPC contractors are required to ensure compliance of the performance obligations relating to each of the projects mentioned above, above and the NHAI is obligated to handover the asset as per the stipulated specifications, at the time of O&M Handover, however there is no assurance that the subsisting agencies and concessionaires/EPC contractors will not default in discharging their obligations. In such an event, the Trust could incur additional costs to remedy such defects and deficiencies to meet its performance obligations under the respective concession agreement(s). Accordingly, there may be a potential claims against the non-fulfilment of divesture or defect liability period obligations by the existing engineering, procurement and construction contractors which may have an impact on the results of operations and business of the Trust.

If the Concession Agreements are terminated, the right to collect tolls is suspended or the Project SPV is required to pay compensation or damages, our business, financial condition and results of operations may be materially and adversely affected. For further details of the maintenance obligations, suspension and termination events under the Concession Agreements, see the section headed "*Summary of the Concession Agreements*" on page 294 of this Placement Document.

31. ***The insurance policies for the R4 Toll Roads are currently not in place for any protection against various risks and any future insurance coverage obtained may be inadequate.***

The Investment Manager, on behalf of the Trust, has obtained relevant insurance policies for the R1 Toll Roads, the R2 Toll Roads and the R3 Toll Roads. However, we cannot assure that the policies that have been obtained shall adequately cover attendant risks. We also cannot assure that we will be able to renew the policies from time to time.

In relation to the R4 Toll Roads, the insurance policies are currently not in place. Under the terms of the R4 Concession Agreements entered into for the tolling rights for the R4 Toll Roads, such tolling rights would be granted as on and with effect from the appointed date which shall occur upon the conditions specified in the R4 Concession Agreements which would be subsequent to the allotment of the Units pursuant to the Issue. As such, obtaining adequate insurance would only be undertaken on or after the appointed date under the R4 Concession Agreements and we have currently not obtained insurance for the R4 Toll Roads.

There can be no assurance that all risks in relation to R4 Toll Roads shall be adequately insured against or that we will be able to procure adequate insurance coverage at commercially reasonable rates in the future.

Further the Toll Roads/InvIT Assets are subject to various risks that we may not be insured against, adequately or at all, including:

- changes in governmental and regulatory policies;
- shortages of, or adverse price movement for, construction materials;
- design and engineering defects;
- breakdown, failure or substandard performance of the road assets and other equipment;
- improper installation or operation of the road assets and other equipment;
- labour disturbances;
- terrorism and acts of war;
- inclement weather and natural disasters;
- environmental hazards, including earthquakes, flooding, tsunamis and landslides; and
- adverse developments in the overall economic environment in India.

Further, we are subject to various risks in the operation of the Toll Roads, including on account of accidents on the Toll Roads. Any insurance obtained for R4 Toll Roads may not provide adequate coverage in certain circumstances and is subject to certain deductibles, exclusions and limits on coverage. To the extent we suffer damage or loss which is not covered by insurance, or exceed our insurance coverage, such damage or loss would have to be borne by us. We can make no assurance that material losses in excess of insurance proceeds (if any at all) will not occur in the future, which could materially and adversely affect our financial condition, business and results of operations.

32. ***The project SPVs, Sponsor and the Trustee are involved in certain legal and other proceedings, which may not be decided in their favour.***

The project SPVs, Sponsor, certain of its Associates and the Trustee are involved in legal proceedings or claims which are pending at different levels of adjudication before various courts, tribunals and regulatory authorities. For details of certain material outstanding legal proceedings, see the section headed "*Legal and Other Information"* on page 410 of this Placement Document. There is no assurance that these legal proceedings and regulatory matters will be decided in favour of the respective entities. Decisions in any of the aforesaid proceedings adverse to our interests may have a material adverse effect on our or their business, future financial performance and results of operations. If the courts or tribunals rule against the project SPVs, Sponsor or its Associates or the Trustee, we or the Sponsor may face monetary and/or reputational losses and may have to make provisions in our financial statements, which could increase expenses and liabilities.

33. ***We do not own the "NHAI" trademark and logo. Our license to use the "NHAI" trademark and logo may be terminated under certain circumstances and our ability to use the trademark and logo may be impaired.***

We do not own the "NHAI" trademark and "NHAI" logo, which is a trademark currently applied for by the Sponsor and which has been accepted and advertised by the Trademark Registry, Government of India. However, pursuant to a separate trademark license agreement dated March 12, 2025, the Sponsor has granted to the Trust, the non-transferable and non-assignable right to use the name of NHAI as part of the trade name of the Trust, as well as the Sponsor's trademarks ("**Trademarks**") in connection with the business of the Trust, on a non-exclusive basis, for the use in the Republic of India and globally. The license granted to the Trust in terms of the Trademark License Agreement shall be for a term of 1 (one) year from March 12, 2025. The Trust's right to use the Trademarks shall stand terminated with immediate effect if any of the terms of the license are breached. The Trust is permitted to use the Sponsor's logo pursuant to the terms of the aforesaid trademark license agreement, and does not separately hold any trademarks in its name. However, as on date the Trust has applied for registration of the logo being, and the application dated October 30, 2024 bearing application no. 6692243 is currently being processed by the Registrar of Trade Marks, Delhi. We cannot assure you the timeframe within which the registration certificate will be received. If the Sponsor terminates the licensing agreement, before the certificate is obtained, it may have a material, adverse effect on the operations of the Trust and require management's time and attention.

34. ***We could depend on NHAI and various third parties to undertake certain activities in relation to the operation and maintenance of the InvIT Assets. Any delay, default or unsatisfactory performance by these third parties could materially and adversely affect our ability to effectively operate or maintain the InvIT Assets.***

We could be dependent on the availability and skills of NHAI and third-party employees and contractors pertaining to the operation and maintenance of the InvIT Assets. Under the Transitional Support Agreement, NHAI will provide support pertaining to the operation and maintenance of the Target Toll Roads. When the Transitional Support Agreement expires, i.e. after a period of six months for all Target Toll Roads and 12 months for Gandhidham (Kandla) Mundra Port Project, commencing from the appointed date as per the respective Concession Agreements, we will need to appoint third-party entities to undertake operations and maintenance and tolling, and the terms of these future contracts may not be favourable to us. We can also make no assurance that the services of such third parties will continue to be available at reasonable rates in the areas in which we conduct our operations. We may also be exposed to risks relating to the ability of such third parties to obtain requisite approvals for the operation and maintenance activities, as well as the quality of their services, equipment and supplies. In particular, failure to ensure the reliability and sustainability of toll collectors who are required to man the

toll booths continuously may materially and adversely affect our overall level of net revenue. We may also be exposed to civil and criminal liability in relation to the actions of other third parties, including our employees and contractors.

Further, if we undertake limited development, while we may sub-contract our construction work, we may still be liable for accidents on our projects due to defects in design and quality of construction of our projects during their construction and operation. In addition, we can make no assurance that such contractors or their sub- contractors will continue to hold or renew valid registrations under the relevant labour laws in India or be able to obtain the requisite approvals for undertaking such construction and operation. Any delay, default or unsatisfactory performance by these third parties could materially and adversely affect our ability to manage the operation and maintenance of the InvIT Assets under the Concession Agreements in a timely manner or at all. Any of the foregoing factors could have a material, adverse effect on our business, financial condition, reputation and results of operations.

35. ***The completion certificate and provisional completion certificate in respect of one of the R1 Toll Roads and potentially R4 Toll Roads are not traceable. Accordingly, alternate documents have been relied upon in relation to certain disclosures made in this Placement Document.***

The Authority is unable to trace the completion certificate and provisional completion certificate in respect of one of the R1 Toll Roads. Under these circumstances, we have relied on alternative documents such as the defects liability certificate dated May 17, 2010, issued by M/s Stanley Consultants Inc. in joint venture with M/s RITES Limited, certifying completion of all works on April 27, 2010, and the Technical Reports in respect of Chittorgarh to Kota section in Rajasthan for upgrading of NH-76 of east west corridors undertaken by NHAI ("**Chittorgarh – Kota Project Highway**"). Further, in relation to R2 Toll Roads and R3 Toll Roads, we have relied on the certification from the Sponsor for the completion certificate and provisional completion certificate. Additionally, there is a possibility that there may be similar uncertainty for R4 Toll Roads. We cannot assure you that the information relating to completion of the works in connection with the aforementioned toll roads are true and accurate.

36. ***The Trust and the Project SPVs are subject to government regulation and if there is a failure to obtain, maintain or renew statutory and regulatory licenses, permits, and approvals required to operate the business, results of operations and cash flows may be adversely affected.***

The Trust and the Project SPVs may be required to obtain and maintain a number of statutory and regulatory licenses, permits and approvals for carrying out the business and acquiring new projects, including consents to establish and operate under environmental laws, which are granted for a limited duration and require renewal. We cannot assure you that such approvals will be issued or granted to us in a timely manner, or will be granted at all. The R4 Toll Roads to be acquired by the Trust are completed and revenue generating assets. The Sponsor, by way of its letter dated March 12, 2025 in relation to the R4 Toll Roads has confirmed that it had obtained all the necessary approvals and clearances required during the construction stage of the R4 Toll Roads.

Further, we shall obtain all other material permits, registrations, licenses, approvals, consents and other authorizations as may be required upon acquisition of the R3 Toll Roads. For details, see "*Regulatory Approvals*" on page 407. If we do not receive such approvals or are not able to renew the approvals in a timely manner, our business and operations may be materially adversely affected.

37. ***Significant differences exist between Indian GAAS used to prepare the Sponsor's audited financial information and other accounting principles, such as Ind-As and IFRS, with which investors may be more familiar.***

The Sponsor has prepared its audited financial information in accordance with Indian GAAS in accordance with the NHAI Act and the rules thereunder. The Sponsor has not attempted to quantify the impact of Ind-As or International Financial Reporting Standards ("**IFRS**") on the audited financial information, nor has it provided a reconciliation of its financial statements to those of IFRS or Ind-As.

If the Sponsor were to prepare its audited financial information in accordance with such other accounting principles, the Sponsor's results of operations, financial condition and cash flows may be substantially different. Accordingly, the degree to which the Sponsor's audited financial information will provide meaningful information is entirely dependent on your level of familiarity with Indian accounting practices under Indian GAAS. Any reliance by persons not familiar with such accounting practice on the Sponsor's financial disclosures presented in this Placement Document should accordingly be limited. Persons not familiar with Indian accounting practices should, accordingly, consult their own professional advisors before relying on the financial disclosures presented in this Placement Document.

38. ***The Trust had received the approval of its unitholders to undertake a preferential issue of up to 249,860,000 Units to the Sponsor and EPFO. An inability to complete the said preferential issue (in a timely manner or at all) could have consequences for existing unitholders, prospective investors in the issue or the Trust.***

The Trust had received the approval of its unitholders to undertake a preferential issue of up to 249,860,000 Units (the "**Preferential Issue**") to the Sponsor and EPFO. While the applications for subscriptions and the funds for the said Preferential Issue has been already received, the consequent allotment of the units pursuant thereto is expected to be

undertaken on or about March 24, 2025. If we are unable to, or restricted from, completing the allotment of units pursuant to the Preferential Issue, it could have consequences for existing unitholders, prospective investors in the Issue or the Trust.

Risks Related to the Trust's Relationships with the Sponsor and the Investment Manager

39. ***The Investment Manager may not be able to implement its investment or corporate strategies and the fees payable to the Project Manager are dependent on various factors.***

The Investment Manager's strategies focus on three main areas:

- managing the underlying assets of the Trust;
- managing the Trust's acquisitions and disposals; and
- managing the Trust's capital structure to maximize distributions.

There is no assurance that the Investment Manager will be able to implement these strategies successfully or that it will be able to expand our portfolio at any specified rate or to any specified size or to maintain distributions at projected levels. The Investment Manager may not be able to make acquisitions or investments on favourable terms or within a desired time frame, and it may not be able to manage the operations of its underlying assets in a profitable manner. Factors that may affect this risk may include, but are not limited to, changes in the regulatory framework in India, competition for assets, partial award of concessions or licenses favouring local or other competitors of the Trust, changes in the Indian regulatory or legal environment or macro-economic conditions. If the Investment Manager is unable to implement these strategies successfully or expand our portfolio, we will nonetheless be required to pay the Investment Manager an annual management fee, exclusive of taxes, in accordance with the terms of appointment of the Investment Manager.

Even if the Investment Manager is able to successfully grow the operating business of the underlying assets and to acquire toll roads and other eligible infrastructure projects in India as desired, there can be no assurance that the Investment Manager will achieve its intended return on such acquisitions or capital investments. Furthermore, the Investment Manager's investment mandate involves a higher level of risk as compared to a portfolio which has a more diverse range of investments. As the Trust or the size of the Trust grows, the fees payable to the Investment Manager may also increase. Additionally, any such payment of fees will require the approval of Unitholders. The Investment Manager may only be removed by a resolution of Unitholders (excluding the Sponsor) such that the votes cast in favour of the resolution are not less than one-and-a-half times the votes cast against the resolution.

Further, the fees payable to the Project Manager may vary periodically based upon the operating and maintenance work undertaken concerning the Project SPV. These fees cannot be fixed or decided upfront for all periods. The current fees payable to the Project Manager commensurate with the existing operating assets. However, with the addition of assets, it may attract increase in Project Manager fees subject to prior approvals of the parties to the PIMA. This could lead to potential disagreements between Trust and Project Manager or it may result in the increase in the fees. Additionally, as the Trust grows, the fees paid to the Project Manager also grows. For further information, please see "*Overview of the Trust*" on page 28 of this Placement Document.

40. ***While the Sponsor may intend to transfer certain road assets in the future, the Trust may be unable to bid effectively for them***

The Sponsor may, from time to time, consider offering additional road assets to the Trust as per the Sponsor's monetization targets. However, there can be no assurance that the Trust will be able to accurately or effectively assess such future assets within the available timeframe, and its bids may consequently be uncompetitive. Furthermore, the Sponsor retains the discretion to accept or reject any binding offer made by the Trust based on factors beyond the Trust's control.

Access to future toll road assets sourced by the Sponsor or its existing or future subsidiaries will be an important source of growth in the future for the Trust, and any inability to bid competitively for Future Assets or the inability to win contracts from the Sponsor for their operation for any reason could have a material adverse effect on the Trust's operations, financial condition or prospects. Further, there is no guarantee that Sponsor may offer additional road assets to Trust for monetization in future.

41. ***Parties to the Trust are required to maintain the eligibility conditions specified under Regulation 4 of the InvIT Regulations on an ongoing basis. The Trust may not be able to ensure such ongoing compliance by the Sponsor, the Sponsor Group, the Investment Manager, the Project Manager and the Trustee, which could result in the cancellation of the registration of the Trust.***

Each of the parties to the Trust are required to maintain the eligibility conditions specified under Regulation 4 of the InvIT Regulations on an ongoing basis. These eligibility conditions include, among other things, that (a) the Sponsor, Investment Manager and Trustee are separate entities, (b) the Sponsor has a net worth of not less than ₹ 1,000 million and has a sound track record in the development of infrastructure or fund management in the infrastructure sector, (c) the Investment Manager has a net worth of not less than Rs. 100 million and has not less than five years' experience in fund management or advisory services or development in the infrastructure sector or the combined experience of the directors, partners and

employees of the investment manager in fund management or advisory services or development in the infrastructure sector is not less than 30 years, (d) the Trustee is registered with the SEBI under Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993 and is not an associate of the Sponsor or Investment Manager and I each of the Sponsor, Sponsor Group, Investment Manager, Project Manager and Trustee are "fit and proper persons" as defined under Schedule II of the Intermediaries Regulations on an ongoing basis. The Trust may not be able to ensure such ongoing compliance by the Sponsor, the Investment Manager, the Project Manager and the Trustee, which could result in the cancellation of the registration of the Trust.

Further, in terms of Regulation 4(2)(e)(v) of the InvIT Regulations, the Investment Manager should, inter-alia, have not less than half of its directors as independent directors. As on the date of this Placement Document, the IM Board consists of ten directors out which five are independent directors. For details, please see "*Parties to the Trust – The IM Board*" on page 85.

42. ***The Investment Manager is required to comply with certain ongoing reporting and management obligations in relation to the Trust. There can be no assurance that the Investment Manager will be able to comply with such requirements.***

The Investment Manager is required to comply with certain ongoing reporting and management obligations in relation to the Trust in accordance with the InvIT Regulations. These requirements include, among other things, (a) making investment decisions with respect to the underlying assets or projects of the Trust, (b) overseeing the activities of the Project Manager, (c) investing and declaring distributions in accordance with the InvIT Regulations, (d) submitting reports to the Trustee, (e) ensuring the audit of the Trust's accounts. There can be no assurance that the Investment Manager will be able to comply with such requirements in a timely manner or at all, which could subject the Investment Manager, the other parties to the Trust, the Trust or any person involved in the activity of the Trust to applicable penalties under the InvIT Regulations, the Intermediaries Regulations and/or the SEBI Act. Any such failure to comply or the imposition of any penalty could have a material adverse effect on our business, financial condition and results of operations. Under the InvIT Regulations, the SEBI also has the right to inspect documents, accounts and records relating to the activity of the Trust, Project SPVs or parties to the InvIT and may issue directions in the nature of, *inter alia*, (i) requiring the Trust to delist its Units and surrender its certificate of registration; (ii) requiring the Trust to wind-up; (iii) requiring the Trust to sell its assets; (iv) requiring the Trust or parties to the Trust to take such action as may be in the interest of investors; or (v) prohibiting the Trust or parties to the Trust from operating in the capital market or from accessing the capital market for a specified period.

43. ***Our Investment Manager is wholly-owned and controlled by the GoI, which makes us susceptible to changes to its policies.***

The Investment Manager is currently wholly-owned and controlled by the President of India acting through the Ministry of Road Transport and Highways ("**MORTH**"). Accordingly, the GoI will be able to exercise significant influence over the Investment Manager, its policies and affairs. Although, by way of its letter dated July 12, 2022, MORTH has communicated that the Investment Manager can manage its affairs as per its corporate governance framework and may recruit, compensate and remove the human resources as per the policies approved by the Nomination and Remuneration Committee of the IM Board, we cannot assure that the GoI will not change its policies in the times to come. Further, the GoI may require the Investment Manager to take actions aimed at serving the public interest, which may not be aligned with the commercial objectives of the unitholders.

44. ***Impact of change in ownership of Investment Manager.***

Currently, the Investment Manager is wholly owned by the President of India. However, in the future, the government may decide to privatize the entity, leading to a change in ownership and control. Such a transition would require the Investment Manager to undergo a conversion process, which would be subject to regulatory approvals and compliance with applicable laws and stakeholder consent.

This potential privatization could introduce uncertainties regarding corporate governance, decision- making processes, and strategic direction. A change in ownership may also lead to modifications in management policies, operational strategies, and investment decisions, which could impact the overall stability and performance of the Investment Manager. Additionally, any delays or challenges in obtaining necessary approvals could disrupt ongoing operations and create regulatory risks.

Furthermore, the privatization process may attract scrutiny from regulatory bodies, investors, and other stakeholders, existing lender approvals, potentially leading to legal or procedural hurdles. Changes in ownership could also influence the Investment Manager's risk appetite, financial policies, and contractual obligations, thereby affecting the Investment Trust's performance and long-term financial stability.

Risks related to India

45. ***Changing laws, rules and regulations and legal uncertainties may materially and adversely affect our business, financial condition and results of operations.***

Our business, financial condition and results of operations could be materially and adversely affected by any change in laws or interpretations of existing, or the promulgation of new, laws, rules and regulations applicable to us and our business. There can be no assurance that the Government or State Governments will not implement new regulations and policies which will require the Trust Group to obtain additional approvals and licenses from governmental and other regulatory bodies or impose onerous requirements and conditions on our operations. The Investment Manager cannot predict the terms of any new policy, and there can be no assurance that such policy will not be onerous.

46. ***Significant increases in the price or shortages in the supply of crude oil and products derived there from, including petrol and diesel fuel, could materially and adversely affect the volume of traffic at the projects operated by the Project SPVs and the Indian economy in general, including the infrastructure sector.***

India imports a significant majority of its requirements of crude oil. Crude oil prices are volatile and are subject to a number of factors, including the level of global production and political factors, such as war and other conflicts, particularly in the Middle East, where a substantial proportion of the world's oil reserves are located. Any significant increase in the bitumen price or shortages in the supply of crude oil could materially and adversely affect the volume of traffic at the projects operated by the Project SPVs and materially and adversely affect the Indian economy in general, including the infrastructure sector, which could have a material, adverse effect on our business, financial condition and results of operations. Further, any increase in the prices of bitumen may lead to a potential increase in the cost of repairs, maintenance and major maintenance works carried out by the Project SPVs and adversely affect the financial conditions and results of operations of the Trust.

47. ***We may be affected by competition law in India and any adverse application or interpretation of the Competition Act could materially and adversely affect our business.***

The Competition Act, 2002, as amended (the "**Competition Act**"), regulates practices having an appreciable adverse effect on competition in the relevant market in India. Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an appreciable adverse effect on competition is considered void and results in the imposition of substantial monetary penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or provision of services, shares the market or source of production or provision of services by way of allocation of geographical area, type of goods or services or number of customers in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an appreciable adverse effect on competition. The Competition Act also prohibits abuse of a dominant position by any enterprise.

On March 4, 2011, the Government issued and brought into force the combination regulation (merger control) provisions under the Competition Act with effect from June 1, 2011. These provisions require acquisitions of shares, voting rights, assets or control or mergers or amalgamations that cross the prescribed asset-and turnover-based thresholds to be mandatorily notified to and pre-approved by the Competition Commission of India (the "**CCI**"). Additionally, on May 11, 2011, the CCI issued the Competition Commission of India (Procedure in regard to the transaction of business relating to combinations) Regulations, 2011, as amended, which set out the mechanism for implementation of the merger control regime in India. The Competition Act aims to, among other things, prohibit all agreements and transactions which may have an appreciable adverse effect on competition in India. Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an appreciable adverse effect on competition in India.

In the event, the Project SPVs or the Trust enters into any agreements or transactions that have an appreciable adverse effect on competition in the relevant market in India, the provisions of the Competition Act will be applicable. Further, in order to facilitate the transaction the Trust had sought the automatic system of approval for combinations through a 'Green Channel' route and the same has been acknowledged by CCI. Under this process, a combination is deemed to have been approved upon filing the notice in the prescribed format and acknowledgement thereof, subject to Commission's finding that the combination falls under the 'Green Channel' scheme. In the event such applications are not made, or such approvals are not granted, in a timely manner or at all, it may result in, amongst other things, penalties being imposed against the Trust. Any penalties levied under the Competition Act or adverse orders issued could materially and adversely affect our financial condition and results of operations. Any adverse impact on our financial condition or operations due to the Competition Act may have a material adverse impact on our business, financial condition, results of operations and prospects and our ability to make distributions to the Unitholders.

48. ***Any downgrading of India's debt rating by rating agencies could have a negative impact on our business.***

India's sovereign rating has been affirmed to Baa3 with a "stable" outlook by Moody's and BBB- with a "stable" outlook (Fitch); and BBB (low) "positive" by Dominion Bond Rating Service ("**DBRS**"). India's sovereign ratings from S&P is BBB-with a "positive" outlook. India's sovereign rating could be downgraded due to various factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, which are outside our control. Any adverse revisions to India's credit ratings by rating agencies may adversely affect our ability to raise additional financing, and the interest rates and other terms at which such additional financing is available. This could materially and adversely affect our ability to obtain financing for capital expenditure, which could in turn materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. India's sovereign debt rating could be downgraded due to various

factors, including changes in tax or fiscal policy or a decline in India's foreign exchange resources, which are outside our control.

49. ***We are subject to risks associated with outbreaks of diseases or similar pandemics or public health threats, which could have a material adverse impact on our business and our results of operations and financial condition.***

In the past, various contagious diseases have spread throughout the world, including India where the entire operations of Sponsor or the Toll Roads are located. In the past, beginning in late 2019 and continuing in 2020, 2021 and 2022, the global spread of COVID-19 had created significant economic and political volatility and uncertainty and business disruption. The spread of COVID-19 had led to governments around the world to take various measures such as the implementation of incoming and outgoing travel restrictions, voluntary and mandatory cessations of business operations, mandatory quarantines and work-from-home and other alternative working arrangements, curfews, limitations on social and public gatherings and partial lockdowns of cities or regions in order to limit the virus' spread. The spread of COVID-19 and governmental responses had resulted in worker absences, reduced business productivity, other business disruptions, reduced demand and stagnated economic activity in India and around the world. More generally, any epidemic, pandemic or other health crisis, whether similar to COVID-19, SARS, H1N1, MERS or other past global diseases, could materially and adversely affect our business, financial condition and results of our operations.

Risks Related to Ownership of the Units

50. ***The Trust may be dissolved, and the proceeds from the dissolution thereof may be less than the amount invested by the Unitholders.***

The Trust is an irrevocable trust registered under the Registration Act and it may only be extinguished (i) if it is impossible to continue with the Trust or if the Trustee, on the advice of the Investment Manager, deems it impracticable to continue with the Trust; (ii) on the written recommendation of the Investment Manager and upon obtaining the prior written consent of such number of the Unitholders as is required under the InvIT Regulations; (iii) if the Units of the Trust are delisted from the Stock Exchanges; (iv) if the SEBI passes a direction for the winding up of the Trust or the delisting of the Units; or (v) in the event the Trust becomes illegal. Under the Trust Deed, in the event of dissolution, the net assets of the Trust, remaining after settlement of all liabilities, and the retention of any reserves which the Trustee deems to be necessary to discharge contingent or unforeseen liabilities, shall be paid to the Unitholders. Should the Trust be dissolved, depending on the circumstances and the terms upon which assets of the Trust are disposed of, there is no assurance that a Unitholder will recover all or any part of his investment.

51. ***The reporting requirements and other obligations of infrastructure investment trusts post-listing are still evolving. Accordingly, the level of ongoing disclosures made to and the protection granted to Unitholders may be more limited than those made to or available to the shareholders of a company that has listed its equity shares upon a recognized stock exchange in India.***

The InvIT Regulations, along with the guidelines and circulars issued by the SEBI from time to time, govern the affairs of infrastructure investment trusts in India. However, as compared to the statutory and regulatory framework governing companies that have listed their equity shares upon a recognized stock exchanges in India, the regulatory framework applicable to infrastructure investment trusts is relatively nascent and thus, still evolving. Pursuant to a circular dated November 29, 2016, the SEBI has prescribed certain continuous disclosure requirements that will be applicable to an InvIT after listing of its units.

Accordingly, the ongoing disclosures made to Unitholders under the InvIT Regulations may differ from those made to the shareholders of a company that has listed its equity shares upon a recognized stock exchange in India in accordance with the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. Further, the rights of the Unitholders may not be as extensive as the rights of the shareholders of a company that has listed its equity shares upon a recognized stock exchange in India, and accordingly, the protection available to the Unitholders may be more limited than those available to such shareholders.

52. ***Any additional debt financing or issuance of additional Units may have a material, adverse effect on the Trust's distributions, and your ability to participate in future rights offerings may be limited.***

The Investment Manager may require additional debt financing or the issuance of additional Units in order to support the operating business or to make acquisitions and investments. If obtained, any such additional debt financing may decrease distributable income, and any issuance of additional Units may dilute existing Unitholders' entitlement to distributions. Additionally, if there is unavailability of debt financing or unable raise debt to due to regulations, the same may impact the Trust's ability to execute major maintenance work in future.

We are not required to offer pre-emptive rights to existing Unitholders when issuing new Units. Compliance with securities laws or other regulatory provisions in some jurisdictions may prevent certain investors from participating in any future rights issuances and thereby result in dilution of their existing holdings in Units.

53. ***The Trust may be unable to dispose of its non-performing assets in a timely manner.***

Due to the nature of its structure, the Trust may be unable to dispose of its non-performing assets in a timely manner, or at all. As a result, no assurance can be given that the Trust may be able to adapt to market developments, changes in asset quality, or adverse macroeconomic factors in a way comparable to, or competitive with, its competitors or more traditional corporate entities in general. Any ability to dispose of non-performing assets may in turn adversely affect the financial condition, business and prospects of the Trust, as well as distributions that the holders of the Units may receive from the Trust.

54. ***Fluctuations in the exchange rate of the Indian Rupee with respect to the U.S. Dollar or other currencies will affect the foreign currency equivalent of the value of the Units and any distributions.***

Fluctuations in the exchange rates between the Indian Rupee and other currencies will affect the foreign currency equivalent of the Indian Rupee price of the Units. Such fluctuations will also affect the amount that holders of the Units will receive in foreign currency upon conversion of any cash distributions or other distributions paid in Indian Rupees by us on the Units, and any proceeds paid in Indian Rupees from any sale of the Units in the secondary trading market.

55. ***Unitholders are unable to require the redemption of their Units.***

Unitholders will not have the right to redeem Units or request or require the redemption of Units by the Investment Manager while the Units are listed on the Stock Exchanges, although the Trust Deed provides that the Investment Manager may repurchase Units at its sole discretion if it has obtained the prior approval of Unitholders in a general meeting by passing an ordinary resolution in accordance with the Trust Deed but subject to other requirements of the relevant laws, regulations and guidelines imposed by authorities in India.

56. ***The units of the Trust have a limited history of being publicly traded and the listing of the Units, pursuant to this Issue, on the Stock Exchanges may not result in an active or liquid market for the Units.***

The Units of the Trust are currently not frequently traded. There is a limited public market for the Units prior to the Issue and an active public market for the Units may not develop or be sustained after the Listing Date. Listing and quotation does not guarantee that a trading market for the Units will develop or, if a market does develop, that there will be liquidity of that market for the Units. Accordingly, prospective Unitholders should view the Units as illiquid and must be prepared to hold their Units for an indefinite length of time. To enhance investor participation and improve liquidity in InvITs, SEBI has reduced the minimum trading lot size for privately placed InvITs from Rs. 2 crore to Rs 25 lakh and Stock Exchanges have set trading lot as 25,000 units. However, the impact of this change on trading volume or any potential adverse effects remains uncertain.

57. ***Any future issuance of Units by us or sales of Units by the Sponsor or any of other significant Unitholders may materially and adversely affect the trading price of the Units.***

The Trust is undertaking the issue of Units on a preferential basis ("**Preferential Issue**"), in accordance with the SEBI Institutional Placement Guidelines and the InvIT Regulations and in accordance with the resolution passed by the IM Board at its meeting held on February 5, 2025, the resolution passed by the Unitholders of the Trust dated March 10, 2025, the resolution passed by the IM Board at its meeting held on March 17, 2025 and March 19, 2025.

The Preferential Issue by us will dilute investors' holdings of Units. Any such future issuance of Units may also materially and adversely affect the trading price of the Units, and could impact our ability to raise capital through an offering of our securities. There can be no assurance that we will not issue further Units. In addition, any perception by investors that such issuances might occur could also affect the trading price of the Units.

Further, the Units are tradable on the Stock Exchanges. If the Sponsor (following the lapse of its lock-up arrangements or pursuant to any applicable waivers), directly or indirectly, sells or is perceived as intending to sell a substantial number of its Units, or if a secondary offering of the Units is undertaken, the market price for the Units could be materially and adversely affected. These sales may also make it more difficult for us to raise capital through the issue of new units at a time and at a price we deem appropriate.

58. ***Our rights and the rights of the Unitholders to recover claims against the Investment Manager or the Trustee are limited.***

Under the Investment Management Agreement, the Investment Manager is not liable for, among other things, any action or omission, if it has carried out its duties and exercised its powers with reasonable skill and care expected of an investment manager (except in the case of fraud, negligence or wilful misconduct). Pursuant to the Trust Deed, the Trustee is not liable for anything done or omitted to be done or suffered by the Trustee in good faith. Further, the Trustee is not liable for any action or omission that results in any depletion in the value of the trust fund and consequent losses of the Unitholder, except in situations where such depletion is a result of the gross negligence or wilful default on the part of the Trustee. The Investment Management Agreement provides that the Investment Manager is entitled to be indemnified out of the Trust Fund against all taxes and other liabilities, claims, costs, losses, damages and expenses (including reasonable attorney's

fees and costs) ("**Losses**") incurred in connection with the Trust, unless arising out of gross negligence, dishonest acts or commissions or omissions, wilful misfeasance, reckless disregard of duty or breach of duties under the Investment Management Agreement. As a result, the Trust's rights and the rights of the Unitholders to recover claims against the Investment Manager are limited. Furthermore, recourse to the Trustee may be limited under the Trust Deed. The Trust Deed provides for the indemnification of the Trustee and the Investment Manager for all Losses, except Losses incurred due to any gross negligence, default, breach of duty or trust, or a failure to show a requisite degree of diligence and care. Accordingly, the liability of the Investment Manager and the Trustee are limited under the terms of these agreements and the Unitholders may not be able to recover claims against the Trustee or the Investment Manager, including claims with respect to any offer documents relating to the Issue.

Further, pursuant to the Trust Deed, the Trustee is not under any obligation to institute, acknowledge the service of, appear in, prosecute or defend any action, suit, proceeding or claim, which in its opinion might involve it in expense or liability that exceeds the value of the fund. The Trust (acting through the Trustee) and the Investment Manager intend to apply the proceeds of the Issue towards the objects set out in this Placement Document. Accordingly, the Net Proceeds may not be sufficient to recover claims, including claims with respect to any offer documents in relation to the Issue.

59. ***Information and the other rights of Unitholders under Indian law may differ from such rights available to equity shareholders of an Indian company or under the laws of other jurisdictions.***

The Trust Deed and various provisions of Indian law govern our corporate affairs. Legal principles relating to these matters and the validity of corporate procedures, fiduciary duties and liabilities, and Unitholders' rights may differ from those that would apply to a company in India or a trust in another jurisdiction. Unitholders' rights and disclosure standards under Indian law may also differ from the laws of other countries or jurisdictions. See the section headed "*Rights of Unitholders*" on page 435 of this Placement Document.

60. ***Under Indian law, foreign investors are subject to restrictions that limit their ability to transfer or redeem Units, which may adversely impact the trading price of the Units.***

Under foreign exchange regulations currently in force in India, transfers of Units between non-residents and residents are permitted, subject to certain limited exceptions, if they comply with the pricing and reporting requirements specified by RBI. If a transfer of Units is not compliant with such pricing or reporting requirements and does not fall under any of the exceptions specified by RBI, then RBI's prior approval is required.

Additionally, Unitholders who seek to convert Indian rupee proceeds from a sale of Units in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities.

We cannot assure you that any required approval from RBI or any other Governmental agency can be obtained on any particular terms or in a timely manner, or at all.

Our Unitholders will not have the right to redeem or request the redemption of our Units while our Units are listed on the Stock Exchanges. In terms of the InvIT Regulations, an infrastructure investment trust may redeem Units only by way of a buyback or at the time of delisting of Units and may be subject to additional conditions and restrictions under Indian regulations.

61. ***There is no assurance that our Units will remain listed on the Stock Exchanges. There is a risk pertaining to low or no trading of Units on stock exchanges which directly affects any investor's ability to either sell their units entirely, or sell/exit in a timely manner.***

Although it is currently intended that the Units will remain listed on the NSE and the BSE, there is no guarantee of the units of the Trust not being compulsorily delisted due to among other factors, us not continuing to satisfy the listing requirements of the Stock Exchanges. Accordingly, Unitholders will not be able to sell their Units through trading on the Stock Exchanges if the Units are no longer listed on the Stock Exchanges. In accordance with the InvIT Regulations and Chapter 11 of the Master Circular for Infrastructure Investment Trusts dated May 15, 2024 issued by the SEBI in relation to the manner and mechanism of providing exit option to dissenting Unitholders pursuant to Regulation 22(5C) and Regulation 22(7) of the InvIT Regulations, we are required to provide investors with an exit prior to delisting. Further, under the InvIT Regulations, we are required to maintain a minimum of 20 Unitholders at all times after the listing of the Units and certain minimum public holding. Failure to maintain such minimum number of Unitholders or public holding may result in action being taken against us by SEBI and the Stock Exchanges, including the compulsory delisting of our Units. Further, Investors in this Issue are not permitted to sell the Units allotted to them for a period of one year from the date of Allotment, except on a recognized stock exchange. An active trading market for the Units may not sustain and there may be low or no active market for our Units on the Stock Exchanges, including due to factors beyond our control. In such an event, an investor may not be able to sell their Units, acquired through this Issue or otherwise, in a timely manner or at all.

62. ***The price of the Units may decline after the Listing Date.***

The Issue Price has been determined by the Investment Manager in consultation with the Lead Managers. The Issue Price may not be indicative of the market price of the Units upon completion of the Listing. The market price of the Units may also be highly volatile and could be subject to wide fluctuations. If the market price of the Units declines significantly, investors may be unable to resell their Units at or above their purchase price, if at all. There can be no assurance that the market price of the Units will not fluctuate or decline significantly in the future. The market price of the Units will depend on many factors, including, among others:

- the perceived prospects of our business and investments and the market for toll roads and other infrastructure projects;
- differences between our actual financial and operating results and those expected by investors and analysts;
- the perceived prospects of future toll roads and other infrastructure projects that may be added to our portfolio in accordance with our investment mandate;
- changes in research analysts' recommendations or projections;
- changes in general economic or market conditions;
- the market value of our assets;
- the perceived attractiveness of the Units against those of other business trusts, equity or debt securities;
- the balance of buyers and sellers of the Units;
- the size and liquidity of the Indian business trusts market;
- any changes to the regulatory system, including the tax system, both generally and specifically in relation to India business trusts;
- the ability of the Investment Manager to implement successfully its investment and growth strategies;
- foreign exchange rates;
- broad market fluctuations, including increases in interest rates and weakness of the equity and debt markets;
- variations in our quarterly operating results;
- difficulty in assessing our performance against either domestic or international benchmarks, as there are few listed comparables;
- publication of research reports about us, other road businesses, the road industry in general or other relevant sectors, or the failure of securities analysts to cover the Units after the Total Issue;
- additions or departures of key management personnel of the Trust and/or the Trust Group;
- changes in the amounts of our distributions, if any, and changes in the distribution payment policy or failure to execute the existing distribution policy;
- actions by Unitholders;
- changes in market valuations of similar business entities or companies;
- announcements by us or our competitors of significant contracts, acquisitions, disposals, strategic partnerships, joint ventures or capital commitments;
- speculation in the press or investment community; and
- changes or proposed changes in laws or regulations affecting the road industry and infrastructure development in India or enforcement of these laws and regulations, or announcements relating to these matters.

To the extent that we retain operating cash flow for investment purposes, working capital reserves or other purposes, these retained funds, while increasing the value of our underlying assets, may not correspondingly increase the market price of the Units. Our failure to meet market expectations with regard to future earnings and cash distributions may materially and adversely affect the market price of the Units.

Where new Units are issued at less than the market price of the Units, the value of an investment in the Units may be affected. In addition, Unitholders who do not, or are not able to, participate in the new issuance of Units may experience a dilution of their interest in the Trust. In addition, the Units are not capital-safe products and there is no guarantee that Unitholders can regain the amount invested, in full or in part. If the Trust is extinguished, it is possible that investors may lose a part or all of their investment in the Units.

Risks Related to Tax

63. ***Unitholders should consider the impact of U.S. Foreign Account Tax Compliance Act withholding.***

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "foreign financial institution" may be required to withhold on certain payments it makes ("foreign passthru payments") to persons that fail to meet certain certification, reporting, or related requirements. A number of jurisdictions, including India, have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Units, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Units, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Units, proposed regulations have been issued that provide that such withholding would not apply prior to the date that is two years after the date on which final regulations defining "foreign passthru payments" are published in the U.S. Federal

Register. In the preamble to the proposed regulations, the U.S. Treasury Department indicated that taxpayers may rely on these proposed regulations until the issuance of final regulations. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Units.

64. ***The Trust may be classified as a passive foreign investment company for U.S. federal income tax purposes, which could subject U.S. holders of Units to significant adverse tax consequences.***

The Trust may be classified as a passive foreign investment company ("**PFIC**") for a particular taxable year if, after the application of certain "look-through" rules, either (i) 75% or more of its gross income is "passive income" as that term is defined in the relevant Code provisions or (ii) 50% or more of the value (determined on the basis of a quarterly average) of its assets are considered "passive assets" (generally, assets that generate "passive income" or are held for the production of "passive income"). The determination of PFIC status is an annual determination, cannot be made until the close of a taxable year, involves extensive factual investigation, including ascertaining the fair market value of all assets on a quarterly basis and the character of each item of income earned, and is subject to uncertainty in several respects. The Trust has not made, and does not expect to make, any determination as to its potential classification as a PFIC during any taxable year. If the Trust were to be treated as a PFIC, material adverse tax consequences could result for U.S. Holders (as defined below under "Tax Considerations—United States"), including with respect to any gain realized on the sale, exchange or disposition of the Units and on the receipt of certain "excess distributions" received with respect to the Units, and certain additional reporting requirements may apply. U.S. Holders should consult their own tax advisers regarding the potential application of the PFIC rules.

65. ***Tax laws are subject to changes and differing interpretations, which may materially and adversely affect our operations.***

The current tax laws and regulations in India provide certain exemptions to interest income earned by business trusts from a special purpose vehicle as a result of which the InvIT and subsequently the Unitholders would be subject to relatively lower tax liabilities. These exemptions could be modified or removed at any time or clarified in a manner adverse to Unitholders, which could adversely affect our profitability and the amount available for distribution to Unitholders.

Tax laws and regulations are subject to differing interpretations by tax authorities. Differing interpretations of tax and other fiscal laws and regulations may exist within governmental ministries, including tax administrations and appellate authorities, thus creating uncertainty and potential unexpected results. The degree of uncertainty in tax laws and regulations, combined with significant penalties for default and a risk of aggressive action by the governmental or tax authorities, may result in tax risks in the jurisdictions in which we operate being significantly higher than expected. For instance, while the Investment Manager intends to take measures to ensure that it is in compliance with all relevant tax laws, there is no assurance that the tax authorities will not take a position that differs from the position taken by us with regard to our tax treatment of various items. Any of the above events may result in a material, adverse effect on our business, financial condition, results of operations and/or prospects and our ability to make distributions to the Unitholders. Tax authorities in India may also introduce additional or new regulations applicable to our business which could adversely affect our business and profitability.

Further, the tax authorities in India may not agree with the positions adopted by the Project SPVs or by the Trust, and may take a divergent view with respect to allowability of any expense (including interest payment) or in relation to taxability of any income during the assessment proceedings, if any. This may adversely affect the profitability of Project SPVs and Trust, and may affect the ability to make distributions to the Unitholders.

66. ***Changes in legislation or the rules relating to such tax regimes and surcharges could materially and adversely affect our business, prospects and results of operations.***

Tax and other levies imposed by the Government and state governments may include: (i) income tax (including withholding tax and tax collection at source); (ii) goods and service tax; (iii) stamp duty; and (iv) other special taxes and surcharges that are introduced on a temporary or permanent basis from time to time. In some cases, these taxes and other levies may be changed from year to year. Also, the Government, in certain situations, has the authority to change tax laws retrospectively.

Further, by way of the Finance Act, 2021 the GoI, amongst others, amended the Securities Contracts (Regulation) Act, 1956 (SCRA) to recognise pooled investment vehicles and recognise the units, debentures, other marketable securities and other instruments issued by InvITs as "securities". The Finance Act, 2021 exempted the payment of tax deducted at source on dividends paid to InvITs.

The Finance Act, 2020 amended the definition of 'business trusts', and also abolished the dividend distribution tax regime as applicable to companies and shifted the incidence of taxation of dividend on the shareholder or unitholders.

There had been two key reforms in Indian tax laws, namely the introduction of the Goods and Services Tax ("**GST**") and provisions relating to general anti-avoidance rules ("**GAAR**"). The GST regime came into effect on July 1, 2017, combining taxes and levies by the Government and State Governments into a unified rate structure.

Additionally, there is limited clarity on the availability of input tax credit, and any unfavourable orders in this regard may have a material adverse impact on our financial position and cash flows. Further, any application of existing law or future amendments may affect our overall tax efficiency, and may result in significant additional taxes becoming payable.

Tax laws and regulations are subject to differing interpretations by tax authorities. Differing interpretations of tax and other fiscal laws and regulations may exist within governmental ministries, including tax administrations and appellate authorities, thus creating uncertainty and potential unexpected results. The degree of uncertainty in tax laws and regulations, combined with significant penalties for default and a risk of aggressive action by the governmental or tax authorities, may result in tax risks being significantly higher than expected.

The GAAR regime came into effect on April 1, 2017. The GAAR regime is a broad set of provisions which grant powers to India tax authorities to invalidate any arrangement for tax purposes in the event, the main purpose of entering into the transaction by the taxpayer is to obtain a tax benefit. Besides the "tax benefit", the transaction should meet any one of the following specified additional tests: (i) creates rights, or obligations, which are not ordinarily created between persons dealing at arm's length; (ii) results, directly or indirectly, in the misuse, or abuse, of the provisions of the IT Act; (iii) lacks commercial substance or is deemed to lack commercial substance as prescribed under the IT Act in whole or in part; and (iv) is entered into, or carried out, by means which are, or in a manner which is, not ordinarily employed for bona fide purposes.

Such transactions are declared as impermissible avoidance arrangements and the consequence in relation to tax arising from such arrangements, including denial of a tax benefit or a benefit under a tax treaty, shall be determined according to the circumstances of the case. The rules notified with respect to GAAR prescribe that these shall not be applicable to FIIs who have made investments in accordance with the SEBI (Foreign Institutional Investors) Regulations, 1995 subject to the fulfilment of certain conditions. In the absence of any precedents on the subject, the application of these provisions is uncertain. GAAR may have a material adverse tax impact on the Trust, the Sponsor and the Unitholders.

In respect of non-residents, the tax rates and the consequent taxation mentioned under Statement of Tax Benefits shall be further subject to any benefits available under the applicable DTAA, if any, between India and the country in which the non-resident has fiscal domicile. Further, it is pertinent to meet the terms and condition viz. Principal purpose test, beneficial ownership test etc. as enacted in DTAAs entered into by India with various countries based on Multilateral Convention to implement tax treaty related measures to prevent Base Erosion and Profit Shifting ('MLI').

Further, pursuant to amendments introduced by Finance Act, 2022, the applicability of section 94(7) of the IT Act has been extended to the units of business trust (with effect from Financial Year 2022-23), which provides in certain situation, loss, if any, arising from the sale and purchase of securities and units, to the extent of dividend or income received or receivable on such securities or unit, shall be ignored for computing income chargeable to tax. The Finance Act, 2022 has also extended the applicability of section 94(8) of the IT Act (commonly known as bonus stripping) to the units of business trusts (with effect from Financial Year 2022-23), which provides certain other situations where loss, if any, arising from the sale and purchase of all or any of the units shall be ignored for computing income chargeable to tax and notwithstanding anything contained in any other provision of the IT Act, the amount of loss so ignored shall be deemed to be the cost of purchase or acquisition of such additional units referred to in clause (ii) above as are held on the date of such sale or transfer.

Further, the Government of India has announced the union budget 2025 and has introduced the Finance Bill, 2025.While the union budget has been announced, we continue to analyse the impact of proposals of the union budget 2025 on tax laws or other regulations, which may adversely affect our business, financial condition, or results of operations.

The Investment Manager has not determined the impact of such existing or proposed legislations on our business. We may incur increased costs relating to compliance with any new requirements, which may also require management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve, and may impact the viability of our current business or restrict our ability to grow our business in the future. We intend to take measures to ensure that it is in compliance with all relevant tax laws. However, the tax authorities might take a position that differs from the position taken by us with regard to our tax treatment of various items.

For further details on the litigation and implications related to the alleged deficit stamp duty under the Karnataka Stamp Act, 1957, see the section headed "*Legal and Other Information*" on page 410, of this Placement Document.

67. ***The Ministry of Finance, GoI, has introduced Income Tax Bill 2025 before Lok Sabha, the provisions of which may have an unfavourable implication for us.***

The Ministry of Finance, GoI has recently tabled the Income Tax Bill 2025 before the Lok Sabha, with the aim of overhauling the existing Income Tax Act 1961. The proposed bill seeks to simplify the tax laws, reduce litigation, and eliminate redundant provisions under existing Income Tax Act, 1961. While newly introduced Income Tax Bill aims to

maintain consistency with Income Tax Act, 1961 on key policy matters, the simplification and litigation reduction efforts may lead to certain changes that could significantly influence the Indian tax landscape.

The provisions of the Income Tax Bill 2025 could have unfavourable implications on us, as well as the investors. Presently, the Income Tax Bill 2025 is under review by the Parliamentary Select Committee, and its preliminary draft awaits endorsement by this committee, followed by ratification from both the houses of Parliament and its subsequent assent from the President. Consequently, the provisions of the nascently proposed bill are too preliminary for comprehensive analysis and consideration.

It is recommended that investors stay informed about the progress of the bill and consult with their tax advisors to understand the specific tax implications on their investments.

68. ***Investors may be subject to Indian taxes arising out of capital gains on the sale of Units and on any dividend or interest component of any returns from the Units.***

Under current Indian tax laws, units of a business trust held for more than 12 months are considered as long term capital assets. In case of sale of such units through a recognised stock exchange in India and payment of securities transaction tax ("**STT**"), any gain arising in excess of ₹ 0.125 million is subject to long term capital gains tax at a concessional rate of 12.5% (plus applicable surcharge and cess). However, if the said units are sold in any other manner, the entire gain shall be subject to long term capital gains tax at the rate of 12.5% with indexation benefit (plus applicable surcharge and cess).

In case the units are held for less than or up to 12 months, the same shall be regarded as short term capital asset. Any gain arising in case of sale of such units through a recognised stock exchange in India and subject to payment of STT, is subject to short term capital gains tax at concessional rate of 20% (plus applicable surcharge and cess). However, if the said units are sold in any other manner, the same shall be subject to short term capital gains tax at applicable tax rates of the holder (plus applicable surcharge and cess).

The aforesaid taxability in India is subject to tax treaty benefits in the case of a non-resident holder. Further, the applicable taxes on the sale of Ordinary Units, and on any dividend or interest component of any returns from the Unit will also be subject to the category of investor holding or selling the Ordinary Units.

The Finance Act, 2020 amended the Income Tax Act to abolish the dividend distribution tax regime and shift the incidence of taxation of dividend (declared or distributed on or after April 1, 2020) to shareholder. Under the Finance Act, 2020, a distribution made by a business trust, being in nature dividend income received from a special purpose vehicle, will not be subject to tax in the hands of a unitholder, so long as the special purpose vehicle has not opted to pay corporate tax under the beneficial regime introduced under Section 115BAA of the Income Tax Act. Similarly, a business trust (which includes an infrastructure investment trust) will not be required to withhold tax on any distributions which are in the nature of dividend income received from a special purpose vehicle, so long as such special purpose vehicle has not opted to pay corporate tax under the beneficial regime introduced under Section 115BAA of the Income Tax Act. However, where the special purpose vehicle opts to pay tax under Section 115BAA of the Income Tax Act, dividend income distributed by the business trust would be taxed in the hands of a non-resident unitholder at 20% (plus applicable surcharge and cess) or the applicable treaty rate and at the applicable rate for a resident unitholder. Further, the business trust would be required to withhold tax on such distributions made from dividend received from the special purpose vehicle. Thus, the taxability of dividends distributed by the Trust will depend on the taxation regime opted by the Project SPVs.

It may also be noted that in terms of Section 194LBA (1) of the IT Act, any distributable income in the nature of interest income and dividend income (where the Project SPV has opted to pay corporate tax under the beneficial regime introduced under Section 115BAA of the IT Act) in the hands of a resident investor is subject to deduction of tax at the rate of 10%. Similarly, in terms of Section 194LBA (2) of the IT Act, any distributable income in the nature of interest income and dividend income (where the SPV has opted to pay corporate tax under the beneficial regime introduced under Section 115BAA of the IT Act) in the hands of a non-resident is subject to deduction of tax at the rate of 5% (plus applicable surcharge and cess) and 10% (plus applicable surcharge and cess) respectively. The ultimate tax liability in the hands of the Unitholder may depend on various factors/ considerations.

The Finance Act 2023, provides for tax the unitholders for such portion of distribution received by them that is not covered under section 10(23FC) or 10(23FCA) of the IT Act and that which is not chargeable to tax under section 115UA(2) of the IT Act. Any distribution not covered under the aforementioned clauses will be taxed in the hands of the unitholders as 'income' under section 56(2)(xii) of the IT Act, provided the amount received (including similar distributions in earlier years to the same unitholder or any other unitholder who held such unit(s) previously) is in excess of the amount at which units were issued by the InvIT, as reduced by the amount which would have been charged to tax earlier under this provision. The aforementioned amounts received by a unitholder being a specified person covered under section 10(23FE) of the IT Act shall not be subject to taxes upon the fulfilment of certain conditions set out in the IT Act. Further, any such distribution received by a unitholder to the extent not chargeable to tax under section 56(2)(xii) and not covered under sections 10(23FC), 10(23FCA) or 115UA(2) shall be reduced from the cost of units. We cannot assure you that there will be no adverse impact on the tax incidence to the unitholders pursuant to the Finance Act 2023. For details, please see section entitled "Statement of Tax Benefits" on Page 453.

Further, the treatment of buy-back proceeds has undergone significant changes due to amendments to tax laws, specifically under Section 2(22)(f) of the Income Tax Act introduced vide Finance (No. 2) Act, 2024. These changes have reclassified certain buy-back proceeds as dividends, which may affect the tax implications for investors. The reclassification could result in a higher tax liability for investors who receive buy-back proceeds, as these are now potentially subject to dividend taxation. Investors should be aware that future legislative amendments or changes in tax interpretation could further affect the tax treatment of buy-back proceeds in the hands of InvIT and its investors. Such changes could impact the after-tax returns for InvIT and/ or its investors and may influence investment decisions. It is important for investors to consult with their tax advisors to understand the specific implications of these changes on their individual tax positions.

Furthermore, the Trust might not be able to pay or maintain the levels of distributions or ensure that the level of distributions will increase over time, or that future acquisitions will increase the Trust's distributable free cash flow to the Unitholders. Any reduction in, or elimination or taxation of, payments of distributions could materially and adversely affect the market price of the Units.

69. ***The income of the Trust in relation to which pass through status is not granted under the IT Act may be chargeable to Indian taxes.***

Under the provisions of the IT Act, the total income of the Trust other than capital gains, interest and dividend income from the Project SPVs would be taxable at the maximum marginal rate ("**MMR**"). MMR is defined under the provisions of the IT Act to mean the rate of income-tax (including surcharge on income-tax, if any) applicable in relation to the highest slab of income.

In accordance with Section 115UA of the IT Act, the MMR applicable to the Trust, a separately assessable resident entity, is 30.0% (plus applicable surcharge and cess). However, the tax authorities may view the Trust as a "pass through" entity and the applicable tax rate will be the MMR applicable to its beneficiaries. If any beneficiary is chargeable to MMR at a rate higher than the rate applicable to other beneficiaries, the income of the Trust attributable to the share of such beneficiary will be taxed at a higher applicable rate. For example, if any Unitholder is a non-resident, the MMR of 40.0% (plus applicable surcharge and cess) would apply. As there are divergent views, there is a possibility that the matter may be litigated if the tax authorities subscribe to the latter view.

GENERAL INFORMATION

National Highways Infra Trust

National Highways Infra Trust ("**Trust**") was settled on October 19, 2020, in New Delhi pursuant to the Trust Deed as a contributory irrevocable trust in accordance with the Indian Trusts Act, 1882. The Trust was registered with SEBI on October 28, 2020, under Regulation 3(1) of the InvIT Regulations and has obtained a certificate of registration from SEBI bearing number IN/InvIT/20-21/0014. The principal place of business of the Trust is situated at G - 5 & 6, Sector 10, Dwarka, New Delhi – 110 075.

The Trust is an infrastructure investment trust established for making investments in special purpose vehicles as defined under Regulation 2(1)(zy) of the InvIT Regulations, or infrastructure projects or securities of Indian companies engaged in the infrastructure sector, as may be permitted in terms of Regulation 18(5) of the InvIT Regulations. For information on the background of the Trust and the description of the InvIT Assets, please see the sections entitled "*Overview of the Trust*" and "*Our Business*" on pages 28 and 134, respectively.

Compliance Officer of the Trust

The Compliance Officer is Gunjan Singh. Her contact details are as follows:

Gunjan Singh
Address: Unit No. 324 3rd Floor
D-21 Corporate Park Sector – 21,

It is clarified that the details available on these websites do not form a part of this Placement Document.

PARTIES TO THE TRUST

A. The Sponsor and Sponsor Group – National Highways Authority of India

History and Certain Corporate Matters

NHAI is an autonomous body under MoRTH, and was established on June 15, 1989, by the NHAI Act, as a body corporate, having a perpetual succession and common seal. It was made operational in February, 1995, with the appointment of the Chairman and other Members. NHAI is responsible for the development, maintenance and management of the national highways in India entrusted to it by the Central Government.

NHAI has all India presence through its different offices (regional offices/project implementation units/corridor management units) in different cities. The functioning of NHAI is governed by NHAI Act, and the rules and regulations framed thereunder.

Background of the Sponsor

NHAI is an autonomous body under Ministry of Road, Transport and Highways. It is established and governed by the NHAI Act. NHAI is not a company in terms of the Companies Act, 2013 (or in terms of the Companies Act, 1956), and accordingly, does not have a share capital.

Pursuant to Section 17 of the NHAI Act, NHAI may receive additional capital and grants from the Central Government to discharge its functions. Additionally, NHAI has not issued any shares against such capital or grants invested by the Central Government.

As per Section 3(3) of the NHAI Act, NHAI shall consist of: (i) a chairman; (ii) not more than six full-time members; and (iii) not more than six part-time members, and each of the above shall be appointed by the Central Government by notification in the official gazette.

In accordance with the eligibility criteria specified under the InvIT Regulations, NHAI had a shareholders' fund of not less than ₹ 1,000 million as on March 31, 2024.

Further, none of the members of the Sponsor are fugitive economic offenders as declared under section 12 of the Fugitive Economic Offenders Act, 2018.

Sponsor Group

Since the Sponsor is a body corporate whose capital is funded by the Central Government and whose members are appointed, and executive decisions taken by the President of India (acting through the Department of Personnel and Training and MoRTH), certain persons or entities that may be classified as "sponsor group" in terms of Regulation 2(1)(zxc) and Regulation 4(2)(d)(i) of the InvIT Regulations, have not been identified as the 'sponsor group'.

B. The Trustee – IDBI Trusteeship Services Limited

History and Certain Corporate Matters

IDBI Trusteeship Services Limited is the Trustee of the Trust. The Trustee is a registered intermediary with SEBI under the Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993, as a debenture trustee. The Trustee has obtained a certificate of registration dated February 14, 2017 (having registration code IND000000460), which is valid until suspended or cancelled by SEBI. The Trustee was incorporated in India under the Companies Act, 1956 with corporate identity number U65991MH2001GOI131154. The Trustee was originally incorporated on March 8, 2001 at Mumbai, Maharashtra. The Trustee's registered office is situated at Ground Floor, Universal Insurance Building, Sir P. M. Road, Fort, Mumbai, Maharashtra, India, 400001. The Trustee is jointly promoted by IDBI Bank Limited, Life Insurance Corporation and General Insurance Corporation for providing corporate and other trusteeship services.

Background of the Trustee

The Trustee is permitted to engage in the following activities: (a) to act as (i) a debenture or bond trustee; (ii) a security trustee or facility agent; (iii) a securitization trustee; (iv) a share pledge trustee or share monitoring agent; (v) an escrow agent; (vi) a venture capital fund trustees, trustee of an infrastructure investment trust or a trustee to an AIF; and (b) providing services including (i) safe keeping or locker services; (ii) management of private trusts or execution of wills; and (iii) special corporate services.

The Trustee confirms that it has maintained, and undertakes to ensure that it will at all times maintain, adequate infrastructure personnel and resources to perform its functions, duties and responsibilities with respect to the Trust, in accordance with the Trust Deed, the InvIT Regulations and other applicable law.

The Trustee is not an Associate of the Sponsor or the Investment Manager. Further, neither the Trustee nor any of the promoters or directors of the Trustee (i) are debarred from accessing the securities market by SEBI; (ii) are promoters, directors or persons in control of any other company or a sponsor, investment manager or trustee of any other infrastructure investment trust or an infrastructure investment trust which is debarred from accessing the capital market under any order or direction made by SEBI; or (iii) are in the list of wilful defaulters published by the RBI.

Board of Directors of the Trustee

The board of directors of the Trustee is entrusted with the responsibility for the overall management of the Trustee. Please see below the details in relation of the board of directors of the Trustee:

Sr. No.	*Name*	*DIN*
1.	*Pradeep Kumar Malhotra*	*09817764*
2.	*Balkrishna Variar*	*10661169*
3.	*Arun Kumar Agarwal*	*00063359*
4.	*Baljinder Kaur Mandal*	*06652016*
5.	*Jayakumar S. Pillai*	*10041362*
6.	*Hare Krushna Dandapani Panda*	*00479786*
7.	*Soma Nandan Satpathy*	*10899299*

Key Terms of the Trust Deed

The Trustee has entered into the Trust Deed, in terms of the InvIT Regulations, the key terms of which, are provided below:

1. *Powers of the Trustee*

The Trustee has been provided with various powers under the Trust Deed in accordance with the Indian Trusts Act, 1882 and the InvIT Regulations, including but not limited to:

(i) The Trustee shall, in relation to the Trust, have every and all powers that a person competent to contract and acting as a legal and beneficial owner of such property has.

(ii) The Trustee shall have the power to determine, in accordance with the Investment Management Agreement and the investment objectives of the Trust, distributions to Unitholders and other rights attached to the Units in compliance with the InvIT Regulations and applicable law.

(iii) The Trustee shall oversee voting of the Unitholders in accordance with the InvIT Regulations.

(iv) The Trustee shall have the power to do the following, which may be delegated to the Investment Manager:

(a) cause offering of the Units through any placement documents;

(b) cause any placement documents to be provided to the Bidders;

(c) issue and allot Units;

(d) summon and conduct meetings of the Unitholders; and

(e) approve transfer of the Units.

(v) The Trustee shall be empowered to make investment decisions with respect to the underlying assets or projects of the Trust including any further investments or divestment, subject to InvIT Regulations. Further, the Trustee is also empowered to:

(a) acquire, hold, manage, trade and dispose of shares, stocks, convertibles, debentures, bonds and other equity or equity-related securities and other debt or mezzanine securities of all kinds issued by any SPVs, infrastructure projects in India, falling within the investment objectives, whether in physical or dematerialised form, including power to hypothecate, pledge or create encumbrances of any kind to be used as collateral security for any borrowings by the Trust;

(b) avail commercial loans, including the power to hypothecate, pledge or create encumbrances of any kind on the InvIT Assets as collateral security for any such loans availed by the InvIT;

(c) keep the capital and monies of the Trust on deposit with banks or other institutions whatsoever;

(d) accept contributions;

(e) collect and receive the profit, interest, repayment of principal of debt or debt like or equity or equity like, mezzanine securities, dividend, return of capital as and when the same may become due and receivable;

(f) invest in securities or in units of mutual funds in accordance with the InvIT Regulations and applicable law;

(g) invest in money market instruments including government securities, treasury bills, certificates of deposit and commercial paper in accordance with applicable law;

(h) to give, provide and agree to provide to any SPV financial assistance in the form of investment in the Trust's debt securities or share capital of any class including ordinary, preference, participating, non-participating, voting, non-voting or other class, and in the form of investment in securities convertible into share capital; and

(i) to invest, acquire, purchase, hold, divest, sale, hypothecate, pledge or otherwise transfer land and building and immovable property of any kind including any rights and interest therein.

(vi) The Trustee shall have the power to make such reserves out of the income or capital as the Trustee may deem proper and any decisions of the Trustee whether made in writing or implied from its acts, so far as the applicable law may permit, shall be conclusive and binding on the Unitholders. Any distribution made by the Trust from such reserves shall be in terms of the Trust Deed;

(vii) The Trustee shall have the power to employ and pay at the expense of the Trust, any agent in any jurisdiction whether attorneys, solicitors, brokers, banks, trust companies or other agents whether associated or connected in any way with the Trustee or not, without being responsible for the default of any agent if employed in good faith to transact any business, including without limitation, the power to appoint agents to raise funds, or do any act required to be transacted or done in the execution of the trusts hereof including the receipt and payment of moneys and the execution of documents.

(viii) The Trustee shall, on behalf of the Trust, appoint an Investment Manager to manage the Trust.

(ix) The Trustee shall oversee the activities of the Investment Manager in the interest of the Unitholders, ensure that the Investment Manager complies with the InvIT Regulations and applicable laws including in relation to the appointment of Unitholder Nominee Directors by Eligible Unitholders as per SEBI InvIT Amendment 2023 read with Nomination Circular, and shall obtain a Compliance Certificate or such other reports and information as may be prescribed under the InvIT Regulations from time to time from the Investment Manager on a quarterly basis or such other time period as prescribed by Applicable law, in the form prescribed by SEBI, if any.

(x) The Trustee shall, on behalf of the Trust, appoint a Project Manager for the operation and management of the InvIT Assets.

(xi) The Trustee shall oversee the activities of the Project Manager and shall obtain a compliance certificate from the project manager on a quarterly basis or such other time period as prescribed by applicable law.

(xii) The Trustee may appoint any custodian in order to provide custodian services.

(xiii) The Trustee shall have the power and duty to pay all such duties, fees or taxes (and any interest or penalty chargeable thereon) as well as to create any reserves for future potential tax liability out of the Trust or the income thereof, as may be permitted under applicable law.

(xiv) The Trustee shall, subject to the advice of the Investment Manager, have the power to pay Trust expenses out of the funds held by the Trust in accordance with the Trust documents.

(xv) The Trustee shall have the power to take the opinion of legal or tax counsel in any jurisdiction concerning any disputes or differences arising under the Trust Deed or any matter relating to the Trust and the fees of such counsel shall be paid out of the funds held in the Trust.

(xvi) The Trustee may sell, rent or buy any property, or borrow property from or carry out any other transaction with the trustees of any other trust or the executors or administrators of any estate provided that such power is delegated to, and exclusively exercised by the Investment Manager pursuant to the Investment Management Agreement.

(xvii) The Trustee, in consultation with the Investment Manager, shall have the power to accept any property before the time at which it is transferable or payable, pay or allow any claim on any evidence, accept any security payable or immovable in lieu of any amounts payable to it, alter the dates for payment of any amounts payable to it and compromise, compound, abandon or otherwise settle any claim or thing whatsoever relating to the Trust of the Trust Deed.

(xviii) The Trustee shall, subject to the advice of the Investment Manager, have the power to cause the Trust to borrow funds, including any subordinated equity, bonds or other fund from any person or authority on such terms and conditions and for such periods and for the purpose of the Trust and the InvIT Assets, subject to any approval of the Unitholders, and the power to provide such security for funds borrowed including by way of hypothecation, pledge or creation of encumbrances of any kind on the InvIT Assets as collateral security for any such borrowings.

(xix) The Trustee may, subject to any advice of the Investment Manager, retain the proceeds received by the Trust from any InvIT Assets.

(xx) The Trustee, in consultation with the Investment Manager, may make rules to give effect to and carry out the investment objectives. The Trustee may provide, not inconsistent with the provisions of the Trust Deed and the InvIT Regulations, for all or any of the following matters:

(a) manner of maintaining of the records and particulars of the Unitholders;

(b) norms of investment by the Trust in accordance with the investment objectives of the Trust and in accordance with the powers and authorities of the Trustee;

(c) matters relating to entrustment / deposit or handing over of any securities or SPVs of the Trust to any one or more custodians and the procedure relating to the holding thereof by the custodian;

(d) such other administrative, procedural or other matters relating to the administration or management of the affairs of the Trust and which matters are not by the very nature required to be included or provided for in the Trust Deed or by the management thereof;

(e) procedure for seeking the vote of the Unitholders either by calling a meeting or through postal ballot or otherwise; and

(f) procedure for summoning and conducting meetings of Unitholders.

(xxi) The Trustee, whether by itself or through the Investment Manager, shall cause the depository to maintain the depository register in accordance with applicable law.

(xxii) The Trustee shall advise the Investment Manager in relation to the appointment of valuer, auditors, registrar and transfer agent, merchant bankers, custodian, credit rating agency and any other intermediary or service provider or agent with respect to the activities pertaining to the Trust.

(xxiii) The Trustee shall review the reports required in terms of InvIT Regulations and applicable law, as submitted by the Investment Manager including, without limitation, in relation to Eligible Unitholder(s), as prescribed from time to time, in the event such reports are not submitted in timely manner, the trustee, after due follow up, shall intimate the same to SEBI as required in terms of the InvIT Regulations, any circular thereunder and Applicable Law.

(xxiv) The Trustee shall have the power to open one or more bank accounts for the purposes of the Trust, to deposit and withdraw money and fully operate the same.

(xxv) The Trustee shall have the power to take up with SEBI or with the stock exchange(s) as applicable, any matter which has been approved in any meeting of Unitholders, if the matter requires such action, including any reorganisation or restructuring or rearrangement of the assets of the InvIT.

(xxvi) The Trustee shall also have the following powers and authorities:

(a) to institute, conduct, compromise, compound, or abandon any legal proceedings for or on behalf of or in the name of the Trust or the Trustee, and to defend, compound or otherwise deal with any such proceedings against the Trustee or Trustee or its officers or concerning the affairs of the Trust, and also to compound and allow time for payment or satisfaction of any equity due and of any claims or demands by or against the Trust and observe and perform in relation to any decisions thereof;

(b) to make and give receipts, releases and other discharges for moneys payable to the Trust and for the claims and demands of the Trust;

(c) to enter into all such negotiations and contracts, and, execute and do all such acts, deeds and things for or on behalf of or in the name of the Trust as the Trustee may consider expedient;

(d) to sign, seal, execute, deliver and register according to law all deeds, documents, agreements, and assurances;

(e) to negotiate, sign, seal, execute and deliver the Trust documents, including but not limited to, any issue agreement, share purchase agreement, services agreement, deed of right of first offer, debenture subscription agreement, escrow agreement, underwriting agreement, loan documentation, placement documents or any other deed, agreement or document;

(f) take into their custody and/or control all the capital, assets, property of the Trust and hold the same in trust for the Unitholders in accordance with this Deed, the InvIT Regulations and applicable law; and

(g) generally to exercise all such powers as it may be required to exercise under the InvIT Regulations and applicable law for the time being in force and do all such matters and things as may promote the Trust or as may be incidental to or consequential upon the discharge of its functions and the exercise and enforcement of all or any of the powers and rights under the Trust Deed.

(xxvii) The Trustee may at any time, buy-back the Units from the Unitholders, subject to applicable law.

(xxviii) The Trustee may, delegate to any committee or any other person, any powers set out above and the duties set out below, provided, however, that the Trustee shall remain responsible and liable for any such persons' acts of commission or omission as determined by a court of competent jurisdiction whose decision is final, binding and non-appealable, except the roles and responsibilities delegated by the Trustee to Investment Manager, Project Manager or any third party expert, or any sub-delegation by the Investment Manager or the Project Manager.

2. *Duties of the Trustee*

The Trustee shall perform its duties as required under the Trust Deed in accordance with the Indian Trusts Act, 1882 and the InvIT Regulations, including but not limited to:

(i) The Trustee shall carry on and conduct its business in a proper and efficient manner in the best interest of the Unitholders.

(ii) The Trustee shall appoint an investment manager and project manager in accordance with the InvIT Regulations and applicable law.

(iii) The Trustee shall, on behalf of the Trust, enter into the Investment Management Agreement with the Investment Manager.

(iv) The Trustee shall ensure that the Investment Manager performs its obligations as specified below:

(a) The Trustee shall ensure that the Investment Manager complies with reporting and disclosure requirements in accordance with InvIT Regulations and in case of any delay or discrepancy, require the Investment Manager to rectify such delay or discrepancy on an urgent basis;

(b) The Trustee shall review the transactions carried out between the Investment Manager and its associates and where the Investment Manager has advised that there may be a conflict of interest, it shall obtain a certificate from a practising chartered accountant or valuer, as applicable, that such transaction is on arm's length basis;

(c) The Trustee shall review the valuation report submitted by the Investment Manager;

(d) The Trustee shall require the Investment Manager to set up such systems and procedures and submit such reports to the Trustee, as may be necessary for effective monitoring of the functioning of the Trust; and

(e) The Trustee shall ensure that the Investment Manager convenes meetings of the Unitholders in accordance with the InvIT Regulations and oversee the voting by Unitholders. The Trustee shall ensure that the Investment Manager convenes meetings of Unitholders not less than one every year and the period between such meetings shall not exceed 15 months.

(v) The Trustee shall provide SEBI and the stock exchange(s), where applicable, such information as may be sought by SEBI or by the stock exchange(s) pertaining to the activity of the Trust. The Trustee shall comply with intimation requirements under the InvIT Regulations and applicable law, including in relation to intimating SEBI in case of any discrepancy in the operation of the InvIT with the InvIT Regulations and any placement documents. The Trustee shall also immediately inform SEBI in case any act which is detrimental to the interest of the Unitholders is noted.

(vi) The Trustee shall at all times exercise due diligence in carrying out its duties and protecting the interests of the Unitholders.

(vii) The Trustee shall delegate all such powers to the Investment Manager and the Project Manager as may be required to carry out obligations under the Investment Management Agreement, Project Implementation and Management Agreement and applicable law.

(viii) The Trustee shall delegate all such powers to the Project Manager as may be required by the Project Manager to carry out its obligations under the Project Implementation and Management Agreement and under Applicable Law.

(ix) The Trustee shall appoint a new investment manager in accordance with the InvIT Regulations and Applicable Law, in case of change in Investment Manager due to removal or otherwise, within the time period prescribed under the InvIT Regulations. The Trustee shall ensure that the new investment manager shall stand substituted as a party in all the documents to which the earlier investment manager was a party. The Trustee shall also ensure that the earlier investment manager continues to be liable for all its acts of omissions and commissions for the period during which it served as investment manager, notwithstanding its termination.

(x) The Trustee shall appoint a new project manager in accordance with the InvIT Regulations and applicable law in case of change in Project Manager due to removal or otherwise. The Trustee shall appoint a new project manager within the time period prescribed under the InvIT Regulations. The Trustee may, either *suo moto* or based on the advice of the concessioning authority(ies) appoint an administrator in connection with an infrastructure project for such terms and on such conditions as it deems fit. The Trustee shall ensure that the new project manager shall stand substituted as a party in all the documents to which the earlier project manager was a party. The Trustee shall also ensure that the earlier project manager continues to be liable for all its acts of omissions and commissions for the period during which it served as project manager, notwithstanding its termination.

(xi) The Trustee shall obtain the prior approval from the Unitholders in accordance with the InvIT Regulations and from SEBI in case of change in control of the Investment Manager.

(xii) The Trustee shall ensure that in case of change in control of the Project Manager, written consent is obtained from the concessioning authority(ies) in terms of the concession agreement(s), prior to such change, if applicable.

(xiii) The Trustee shall ensure that subscription amount is kept in a separate bank account in name of the Trust and is only utilised for adjustment against allotment of Units or refund of money to the applicant till the time such Units are listed and the same will be utilised for objectives of the offering as will be mentioned in the relevant placement documents.

(xiv) The Trustee shall cause the books of accounts of the InvIT to be in accordance with the Trust Deed.

(xv) The Trustee shall ensure that all acts, deeds and things are done for the attainment of the investment objective of the Trust and in compliance with the InvIT Regulations and applicable law and to secure the best interests of the Unitholders.

(xvi) The Trustee shall file such reports as may be required by SEBI or any other regulatory authority or as required under the InvIT Regulations and applicable law with regard to the activities carried on by the Trust.

(xvii) The Trustee shall periodically review the status of the Unitholders' complaints and their redressal undertaken by the Investment Manager, in accordance with the InvIT Regulations.

(xviii) The Trustee and its directors, officers, employees and agents shall at all times maintain the greatest amount of confidentiality as regards the activities and assets of the Trust and such other matters connected with them and the Trust generally and shall not disclose any confidential information to any other person, other than the Investment Manager, or the Project Manager, unless such information is required to be disclosed to some regulatory authority, court or any other person under any order of court or any law in force in India.

(xix) The assets and liabilities of the Trust shall at all times be segregated from the assets and liabilities of the Trustee and the assets and liabilities of other trusts managed by the Trustee.

(xx) The Trustee shall ensure that the Investment Manager shall ensure that a detailed valuation is undertaken of the InvIT assets by a valuer at such intervals and in the manner as may be prescribed under the InvIT Regulations and applicable law. The Trustee shall ensure that the remuneration of the valuer is not linked to or based on the value of the asset being valued.

(xxi) The Trustee of the InvIT shall not invest in Units of the Trust.

(xxii) The Trustee shall fulfil its obligations in terms of the InvIT Regulations.

(xxiii) The Trustee shall ensure that the activity of the Trust is being operated in accordance with the provisions of the Trust Deed, the InvIT Regulations, applicable law and the Trust documents and in case of any discrepancy, it shall inform SEBI immediately in writing.

(xxiv) The Trustee shall immediately inform SEBI in case any act which is detrimental to the interest of the Unitholders is noted.

(xxv) The Trustee shall maintain records in accordance with the InvIT Regulations and applicable law.

(xxvi) The Trustee shall wind up the Trust in accordance with the InvIT Regulations and applicable law. Upon winding up of the Trust, the Trustee shall surrender the certificate of registration to SEBI.

3. *Rights of the Trustee*

The Trustee shall have the following rights:

(i). The Trustee may, in the discharge of its duties, act upon any advice obtained in writing from any bankers, accountants, brokers, lawyers, professionals, consultants, or other experts acting as advisers to the Trustee.

(ii). Subject to applicable law, no Unitholder shall be entitled to inspect or examine the Trust's premises or properties (including any holding company and SPVs) without the permission of the Trustee, who shall give such permission, if necessary, in consultation with the Investment Manager. Further, no Unitholder shall be entitled to require discovery of any information respecting any detail of the Trust's activities or any matter which may relate to the conduct of the business of the Trust and which information may, in the opinion of the Trustee and the Investment Manager adversely affect the interest of the Unitholder.

(iii). The Trustee shall be entitled to reimburse itself and shall be entitled to charge the Trust, and shall be entitled to be indemnified and be kept indemnified from the Trust and from any distributions made by the Trust to the Unitholders, with the expenses, outgoings, taxes, levies, and liabilities (including indemnity obligations of the Trust, if any).

(iv). The Trustee may accept as sufficient evidence for the value of any investment or for the cost price or sale price thereof or for any other fact within its competence, a certificate by a valuer or any other professional person appointed by the Investment Manager for the purpose.

4. *Liabilities of the Trustee*

The liabilities of the Trustee in terms of the Trust Deed are as follows:

(i). The Trustee shall only be chargeable for such monies, stocks, funds and securities as the Trustee shall have actually received and shall not be liable or responsible for any banker, broker, custodian or other person in whose hands the same may be deposited or placed, nor for the deficiency or insufficiency in the value of any investments of the Trust nor otherwise for any involuntary loss. Any receipt signed by the Trustee for any monies, stocks, funds, shares, securities, investment or property, paid, delivered or transferred to the Trustee under or by virtue of the Trust Deed or in exercise of the duties, functions and powers of the Trustee shall effectively discharge the Trustee or the person or persons paying, delivering or transferring the same therefrom or from being bound to see to the application thereof, or being answerable for the loss or misapplication thereof provided that the Trustee and such persons shall have acted in good faith, without negligence and shall have used their best efforts in connection with such dealings and matters.

(ii). The Trustee shall not be under any liability on account of anything done or omitted to be done or suffered by the Trustee in good faith if the Trustee is able to establish that it performed its rights and duties and exercised its powers, as a reasonable person in such a position would have, in compliance with the provisions of the Trust Deed and applicable law.

(iii). The Trustee shall not be under any obligation to institute, acknowledge the service of, appear in, prosecute or defend any action, suit, proceedings or claim in respect of the provisions hereof or in respect of the InvIT assets or any part thereof or any corporate action which in its opinion would or might involve it in expense or liability unless the Investment Manager shall so request in writing and the Trustee is satisfied that the value of the investment is sufficient to provide adequate indemnity against costs, claims, damages, expenses or demands to which it may be put as Trustee as a result thereof. The costs in relation to such action, suit, proceedings or claims (whether undertaken upon request of Investment Manager or otherwise) incurred by the Trustee in connection with or arising out of the Trust, shall be borne by the Trust.

(iv). The Trustee shall not be liable in respect of any action taken or damage suffered by it on reliance upon any notice, resolution, direction, consent, certificate, affidavit, statement, certificate of stock, plan of reorganization or (without being limited in any way by the foregoing) other paper or document believed to be genuine and to have been passed, sealed or signed by appropriate authorities or entities.

(v). The Trustee shall not be liable to the Unitholders for doing or failing to do any act or thing which by reason of any provision of any present or future law or regulation made pursuant thereto, or of any decree, order or judgment of any court, or by reason of any request announcement or similar action (whether of binding legal effect or not) which may be taken or made by any person or body acting with or purporting to exercise the authority of any government (which legally or otherwise) it shall be directed or requested to do or perform or to forbear from doing or performing. If for any reason it becomes impossible or impracticable to carry out any of the provisions of these presents the Trustee shall not be under any liability therefore or thereby.

(vi). The Trustee shall not be responsible to any Unitholder for the authenticity of any signature affixed to any document or be, in any way, liable for any forged or unauthorized signature on or for acting upon or giving effect to any such forged or unauthorized signature. The Trustee shall be entitled but not bound to require that the signature of any Unitholder to any document required to be signed by him under or in connection with these presents shall be verified to the Trustee's reasonable satisfaction.

(vii). If the Trustee is required by the InvIT Regulations or any applicable law to provide information regarding the Trust or the Sponsor or the Unitholders, the investments made by the Trust and income therefrom and provisions of these presents and complies with such request in good faith, whether or not it was in fact enforceable, the Trustee shall not be liable to the Unitholders or to any other party as a result of such compliance or in connection with such compliance.

(viii). The Trustee shall not incur any liability for any act or omission or (as the case may be) failing to do any act or thing which may result in a loss to a Unitholder (by reason of any depletion in the value of the InvIT assets or otherwise), except in the event that such loss is a direct result of fraud, gross negligence or wilful default on the part of the Trustee or results from a breach by the Trustee of this Deed, as determined by a court of competent jurisdiction.

(ix). If the Trustee engages any external advisors or experts to discharge its obligations or undertakes any work (in consultation with the Investment Manager, in the interest of the Unitholders) which is not covered within the scope of work of the Trustee and such additional work is beyond the obligations of the Trustee under applicable law, the Trustee shall be entitled to recover such

costs, charges and expenses which the Trustee may incur in this regard, from the funds of the Trust.

(x). The liability of the Trustee shall be limited to the extent of the fees received by it, in all circumstances whatsoever except (a) in case of any negligence or misconduct or fraud on the part of the Trustee as may be determined by a court of competent jurisdiction, or (b) any failure on the part of the Trustee to protect the interests of the Unitholders.

(xi). The exercise of all power and discretion by the Trustee shall be valid only if the same are carried out upon the approval of a majority of the directors on the board of the Trustee to any officer of the Trustee, if the exercise of such powers is within the parameters of such delegated authority.

5. *Provisions relating to Unitholders*

(i). The aggregate liability of each Unitholder shall be limited to making the capital contribution payable by it in respect of the Units subscribed by it.

(ii). Each Unit allotted to the Unitholders shall have one vote for any decisions requiring a vote of Unitholders and shall carry such rights as provided in the InvIT Regulations.

(iii). No Unitholder shall enjoy preferential voting or any other rights over another Unitholder except as permitted under applicable law.

(iv). In no event shall the Trustee or the Investment Manager be bound to make payment to any Unitholder, except out of the funds held by it for that purpose under the provisions of the Trust Deed.

(v). A Unitholder whose name and account details are entered in the depository register shall be the only person entitled to be recognised by the Trustee as having a right, title, interest in or to the Units registered in his name and the Trustee shall recognise such holder as an absolute owner and shall not be bound by any notice to the contrary and shall also not be bound to take notice of or to see to the execution of any trust, express or implied, save as expressly provided or as required by any court of competent jurisdiction to recognise any trust or equity or interest affecting the title of the Units.

(vi). The Unitholders shall not give any directions to the Trustee or the Investment Manager (whether in a meeting of Unitholders or otherwise) if it would require the Trustee or the Investment Manager to do or omit doing anything which may result in:

(a) the Trust or the Trustee, in its capacity as the trustee of the Trust or the Investment Manager, in its capacity as the investment manager of the Trust ceasing to comply with applicable law;

(b) interference with the exercise of any discretion expressly conferred on the Trustee by the Trust Deed or the Investment Manager by the Investment Management Agreement, or the determination of any matter which requires the agreement of the Trustee or the Investment Manager, provided that nothing shall limit the right of the Unitholder to require the due administration of the Trust in accordance with the Trust Deed.

(vii). The depository register shall (save in case of manifest error) be conclusive evidence of the number of Units held by each depositor and in the event of any discrepancy between the entries of the depository register and any statement issued by the depository, the entries in the depository register shall prevail unless the depositor proves to the satisfaction of the Trustee and the depository that the depository register is incorrect.

(viii). The Unitholders shall have the right to call for certain matters to be subject to their consent, in accordance with the InvIT Regulations and applicable law.

(ix). The Unitholders may, in accordance with the provisions of the Trust documents and applicable law, transfer any of the Units to an investor where such investor accepts all the rights and obligations of the transferor and the Trustee or the Investment Manager shall give effect to such transfer in accordance with applicable law.

(x). The Trustee shall and shall ensure that the Investment Manager obtains the consent of the Unitholders for the matters prescribed under the InvIT Regulations in accordance with the provisions of the InvIT Regulations, including Regulation 22 of the InvIT Regulations.

(xi). The Unitholders shall have the right to receive income or distributions in respect of the Units, as provided in the placement documents.

(xii). The Eligible Unitholders shall have the right to appoint Unitholder Nominee Directors on the board of directors of the Investment Manager from time to time, in the manner prescribed under the InvIT Regulations. The Trustee shall supervise and ensure that the Investment Manager takes all such actions and compliances, as may be prescribed under the InvIT Regulations from time to time, in relation to the right of Eligible Unitholders to appoint Unitholder Nominee Directors on the board of directors of the Investment Manager.

6. *Indemnity*

In addition to the fees, distributions and expense reimbursements herein described, the InvIT Assets shall be utilized to indemnify and hold harmless the Trustee, the Sponsor and any of their respective officers, directors, shareholders, sponsors, partners, members, employees, advisors and agents ("**Indemnified Parties**") from and against any claims, losses, costs, damages, liabilities and expenses, including legal fees ("**Losses**") suffered or incurred by them by reason of their activities on behalf of the Trust, unless such Losses resulted from fraud, gross negligence, wilful default or wilful misconduct or breach of any obligations or duties under applicable law by the relevant Indemnified Party, as determined by a court of competent jurisdiction.

7. *Termination*

The InvIT is subject to dissolution and termination in accordance with and subject to the InvIT Regulations and applicable law:

(i). if the Trust fails to make any offer of Units by way of private placement, within the time period stipulated in the InvIT Regulations or any other time period as specified by SEBI, the Trust shall surrender its certificate to SEBI and cease to operate as an investment infrastructure trust, unless the period is extended by SEBI;

(ii). upon the liquidation of InvIT Assets;

(iii). if there are no projects remaining under the Trust and the Trust does not invest in any project for six months thereafter;

(iv). delisting of the Units in accordance with the InvIT Regulations; or

(v). illegality of the InvIT under applicable law.

C. The Investment Manager – National Highways Infra Investment Managers Private Limited

History and Certain Corporate Matters

National Highways Infra Investment Managers Private Limited was incorporated as a private limited company on July 25, 2020, under the Companies Act, 2013. The Investment Manager was initially incorporated as a wholly owned subsidiary of NHAI. Subsequently, NHAI transferred its entire shareholding in the Investment Manager to the President of India, acting through the Ministry of Road Transport and Highways, Government of India. Accordingly, at present, the Investment Manager is a government company as defined under the Companies Act, 2013, as amended. The CIN of the Investment Manager is U65929DL2020GOI366835.

The principal business of the Investment Manager in terms of its memorandum of association is, *inter alia*:

(a) to carry on the business of acting as investment manager investment adviser, trustee, settler, sponsor, promoter, portfolio manager, manager, administrator, attorney, agent, consultant, representative or nominee of or for any collective investment schemes, trusts, special purpose vehicles, infrastructure investment trusts, real estate investment trusts, properties and/or assets of any kind, including any fund set up, formed or established in India or in any other country by the Company or by any other person including bodies corporate, limited liability partnerships, partnerships, trusts, societies, associations of persons or by government, state or local authority (whether incorporated or not) of any other agency or organisation with respect to any class of assets, and to thereby settle, administer, manage, deploy funds, acquire, take up, manage, invest, hold, sell, deal or dispose of all or any property, investments, securities or other assets of any kind whatsoever, acting in such capacity;

(b) to negotiate and obtain concessions from the appropriate Government/ s for the rights to build, operate and own or transfer highways, interchangers, viaducts and bridges and any other structures, buildings and services that are ancillary thereto in India and upon such terms for such benefits as may be set forth in the concessions or negotiated from time to time and generally to carry on the business of owners, operators or toll collectors or concessionaires of highways, bridges, tunnels, railways, ports, airports, public utilities, telecommunication facilities and any other rights, properties, utilities and services wherever situated; and

(c) to carry on the business of builders and contractors for the construction, upgradation, maintenance and repairs of roads, highways, bridges, viaducts, buildings, interchangers, tunnels, railways, ports, airports, public utilities, telecommunication and other related works and generally to carry on the business of engineers, contractors, consultants, advisors, managers and administrators in all its branches, mechanical, electrical and telecommunication, engineering and incidental thereto, to provide financing or act as guarantors for project financing to owner where to required.

Background of the Investment Manager

The Trustee, *vide* their letter dated July 31, 2020, appointed NHIIMPL as the investment manager of the proposed Trust, based on the recommendation of the Sponsor.

The Investment Manager confirms that it has, and undertakes to ensure that it will at all times maintain, adequate infrastructure, personnel and resources to perform its functions, duties and responsibilities with respect to the management of the Trust, in accordance with the InvIT Regulations, the Investment Management Agreement and applicable law.

In accordance with the eligibility criteria specified under the InvIT Regulations, the Investment Manager had a consolidated net worth of not less than ₹ 100 million as on February 28, 2025.

Neither the Investment Manager nor the promoter or directors of the Investment Manager (i) are debarred from accessing the securities market by SEBI; (ii) are promoters, directors or persons in control of any other company or a sponsor, investment manager or trustee of any other infrastructure investment trust or an infrastructure investment trust which is debarred from accessing the capital market under any order or direction made by SEBI; or (iii) are in the list of wilful defaulters published by the RBI.

The IM Board

The IM Board is entrusted with the responsibility for the overall management of the Investment Manager. The Sponsor, acting together with MoRTH, have the right to nominate up to two directors on the Board of the IM. Please see below the details in relation of the IM Board:

Key Terms of the Investment Management Agreement

The Investment Manager has entered into the Investment Management Agreement, in terms of the InvIT Regulations, the key terms of which, are provided below.

1. *Powers of the Investment Manager*

The Investment Manager has been provided with various powers under the Investment Management Agreement in accordance with the InvIT Regulations, including but not limited to:

(i). The Investment Manager shall take all decisions in relation to the day-to-day management and administration of InvIT Assets and the investments of the Trust as may be incidental or necessary for the advancement or fulfilment of the investment objectives of the Trust in accordance with the InvIT Regulations and other applicable law. The Investment Manager shall ensure that all investments shall be registered in the name of the Trustee (acting on behalf of the InvIT) or the Trust.

(ii). The Investment Manager shall, subject to such approval as may be required from the Unitholders, make the investment decisions with respect to the underlying assets or projects of the Trust, including any further investments or divestments, subject to InvIT Regulations and in accordance with the Preliminary Placement Document, and in this regard is also empowered to do the following acts including:

(a) acquire, hold, manage, trade and dispose of shares, stocks, convertibles, debentures, bonds and other equity or equity-related securities and other debt or mezzanine securities of all kinds issued by any SPVs, infrastructure projects in India, whether in physical or dematerialised form, including power to hypothecate, pledge or create encumbrances of any kind on such securities held by the Trust in such holding companies, and/or SPVs, or infrastructure projects to be used as collateral security for any borrowings by the Trust;

(b) keep the capital and monies of the Trust in deposit with banks or other institutions, whatsoever;

(c) accept contributions;

(d) collect and receive the profit, interest, repayment of principal of debt or debt like, or equity or equity like, mezzanine securities, dividend, return of capital of any type by the holding companies, or SPVs, or infrastructure projects and income of the Trust as and when the same may become due and receivable;

(e) invest in securities or in units of mutual funds in accordance with the InvIT Regulations and other applicable law;

(f) invest in money market instruments including government securities, treasury bills, certificates of deposit and commercial paper in accordance with applicable law;

(g) to give, provide and agree to provide to any holding companies, or SPVs financial assistance in the form of investment in the Trust's debt securities or share capital of any class including ordinary, preference, participating, non-participating, voting, non-voting or other class, and in the form of investment in securities convertible into share capital; and

(h) to invest, acquire, purchase, hold, divest, sale, hypothecate, pledge or otherwise transfer land and building and immovable property of any kind including any rights and interest therein.

(iii). The Investment Manager along with the Trustee shall, within a reasonable time from the date of execution of the Investment Management Agreement, appoint a Project Manager for the Trust, by execution of the Project Implementation and Management Agreement.

(iv). The Investment Manager shall oversee activities of the Project Manager with respect to compliance with the InvIT Regulations and the Project Implementation and Management Agreement and in terms of the InvIT Regulations and applicable law. The Investment Manager shall obtain a compliance certificate from the Project Manager in the form as may be specified by SEBI, on a quarterly basis or such other intervals as may be prescribed, under applicable law.

(v). The Trustee authorizes the Investment Manager to do all such other acts, deeds and things as may be incidental or necessary for the advancement or fulfilment of the investment objectives of the Trust, as set out in the Placement Document, in accordance with the InvIT Regulations and applicable law.

(vi). The Investment Manager shall have the power to issue and allot Units in accordance with the InvIT Regulations. The Investment Manager shall have the power to accept subscriptions to Units of the InvIT and issue and allot Units to Unitholders or such other persons and undertake all related activities under applicable law. Further, if the Investment Manager fails to allot or list the Units or refund subscription money within the time specified in the InvIT Regulations, it shall pay necessary interest to the Unitholders thereon, in accordance with applicable law. Further, the Investment Manager shall, subject to and only in accordance with the terms of the Trust documents and applicable law, have the power to transfer the Units.

(vii). The Investment Manager, acting on behalf of the Trustee, shall cause the depository to maintain a depository register.

(viii). The Investment Manager shall make such reserves out of the income or capital as it may deem proper, and any directions of the Trustee in this behalf whether made in writing or implied from their acts shall, so far as the applicable law may permit, be conclusive and binding.

(ix). The Investment Manager shall have the power to cause the Trust to borrow funds, including any subordinated equity, bonds or other fund from any person or authority (whether Government or otherwise, whether Indian or overseas) on such terms and conditions and for such periods and for the purpose of the Trust and the InvIT Assets, and shall have the power to hypothecate, pledge or create encumbrances, including any assignment of rights, of any kind on such securities held by the InvIT in such Holding Companies, and/or SPVs, or road infrastructure projects to be used as collateral security for any borrowings by the InvIT, subject to any approval of the Unitholders.

(x). The Investment Manager shall have the power to exercise all rights of the Trust in the InvIT Assets, including voting rights, rights to appoint directors, whether pursuant to securities held by it, or otherwise, in such manner as it deems to be in the best interest of the InvIT, and in accordance with the InvIT Regulations and applicable law. Additionally, if the InvIT has invested in infrastructure projects through the holding company or SPVs, then the Investment Manager, in consultation with the Trustee, shall appoint the majority of the directors of the Holding Company(ies) and/or the SPV(s), in accordance with the applicable law, as well as ensure that in every general meeting including the annual general meeting of any SPV or holding company, the voting of the InvIT is exercised, in accordance with the InvIT Regulations and applicable law.

(xi). The Investment Manager may use the services of external advisors and rely on the information provided in the due diligence process of assessing investment proposals as it deems necessary in its sole discretion.

(xii). The Investment Manager shall have the power to employ and pay at the expense of the Trust, any agent in any jurisdiction whether attorneys, solicitors, brokers, banks, trust, companies or other agents, without being responsible for the default of any agent if employed in good faith to transact any business.

(xiii). The Investment Manager may appoint any custodian in order to provide custodian services, and may permit any property comprised in the Trust to be and remain deposited with a custodian or with any person or persons in India or in any other jurisdiction subject to such deposit as authorised by the Trustee and permissible under the applicable law.

(xiv). The Investment Manager, in consultation with the Trustee, shall appoint and have the power to appoint, determine the remuneration and enter into, execute, deliver and terminate all documents and agreements, any contracts, agreements, including share purchase agreement, deed of right of first offer and refusal, escrow agreements, debt documentation, underwriting agreements and other Trust documents, any investment pooling agreement, agreement relating to strategic investments, co-investment agreements and other any and all documents and instruments containing customary terms including any amendments or supplements thereto as may be applicable with respect to the activities pertaining to the Trust in a timely manner and as per the provisions of the InvIT Regulations and applicable law.

(xv). The Investment Manager shall have the power and duty to pay all such duties, fees or taxes (and any interest or penalty chargeable thereon) as well as to create any reserves for future potential tax liability (and any such interest or penalty) out of the Trust's income, in accordance with

Applicable Law. The Investment Manager shall exercise due care and prudence in payment of duties and taxes of the Trust and shall endeavour to ensure that there are no material outstanding dues in that behalf, except for any claim or demand made by any tax department or authority subsequently, or any amounts disputed in good faith.

(xvi). The Investment Manager shall have the power to pay Trust expenses out of the funds of the Trust, or all or any of the InvIT Assets, in such proportion as may be determined from time to time, and the Investment Manager shall be entitled to reimbursement of any such expenditure duly incurred.

(xvii). The Investment Manager shall have the power to take the opinion of legal / tax counsel in any jurisdiction concerning any difference arising under the Investment Management Agreement or any matter in any way relating to the Investment Management Agreement or to its duties in connection with the Investment Management Agreement.

(xviii). Subject to applicable law, the Investment Manager shall have the power to:

(a) accept any property before the time at which it is transferable or payable;

(b) pay or allow any equity or claim on any evidence that it thinks sufficient;

(c) accept any composition or any security, movable or immovable, for any equity or other property;

(d) allow any time for payment of any equity; and

(e) subject to such approval as may be required from the Unitholders, compromise, compound, abandon, submit to arbitration or otherwise settle any equity account, claim or thing whatsoever relating to the Trust or the Investment Management Agreement.

(xix). Subject to the conditions laid down in any placement document and applicable law, the Investment Manager may retain or reinvest the invested capital portion of any proceeds received by the Trust from any holding company or SPV.

(xx). The Investment Manager may make rules to give effect to, and carry out the investment objectives, subject to applicable law. In particular, and without prejudice to the generality of such power, the Investment Manager may provide for all or any of the following matters, namely:

(a) manner of maintaining of the records and particulars of Unitholders;

(b) norms of investment by the Trust in accordance with the investment objectives of the Trust and in accordance with the powers and authorities of the Trustee as set out in the Trust Deed;

(c) matters relating to entrustment, deposit or handing over of any securities or SPVs of the Trust to any one or more custodians and the procedure relating to the holding thereof by the custodian;

(d) such other administrative, procedural or other matters relating to the administration or management of the affairs of the Trust and which matters are not, by their very nature, required to be included or provided for in the Trust Deed or by the management thereof and which matters are not inconsistent with the investment objectives;

(e) procedure for seeking the vote of the Unitholders either by calling a meeting or through postal ballot or otherwise; and

(f) procedure for summoning and conducting of meetings of Unitholders.

(xxi). Subject to applicable law, no Unitholder shall be entitled to inspect or examine the Trust's premises or properties without the prior permission of the Investment Manager. Further, no Unitholder shall be entitled to require discovery of any information with respect to any detail of the Trust's activities or any matter which may be related to the conduct of the business of the Trust and which information may, in the opinion of the Investment Manager, adversely affect the interest of other Unitholders.

(xxii). Investment Manager, on behalf of the InvIT, may buyback the Units from the Unitholders at the end of the term of the Trust or any other time or in any other manner in accordance with applicable law.

(xxiii). The Investment Manager shall provide the Trustee with advice and recommendations regarding the extension of loans from the Trust to the holding company and SPV and also subscription to debt securities or quasi-debt securities or any similar kind of securities issued by the holding company and SPV from the Trust or extension of loans from the Trust in compliance with applicable law.

(xxiv). The Investment Manager shall at all times comply with the SEBI circular dated September 11, 2023 in letter and spirit, as amended from time to time.

(xxv). The Investment Manager shall facilitate the appointment of Unitholder Nominee Directors by Eligible Unitholders in the manner prescribed under the InvIT regulations from time to time.

(xxvi). The Investment Manager shall also have the following powers and authorities:

(a) to institute, conduct, compromise, compound, or abandon any legal proceedings for or on behalf of or in the name of the Trust, and to defend, compound or otherwise deal with any such proceedings against the Trust or the Investment Manager or their officers or concerning the affairs of the Trust, and also to compound and allow time for payment or satisfaction of any equity due and of any claims or demands by or against the Trust and to refer any differences to arbitration and observe and perform any awards thereof;

(b) to make and give receipts, releases and other discharges for moneys payable to the Trust and for the claims and demands of the Trust;

(c) to enter into all such negotiations and contracts, and, execute or terminate and do all such acts, deeds and things for or on behalf of or in the name of the Trust as it may consider expedient for or in relation to any of the matters or otherwise for the purposes of the Trust;

(d) to ascertain, appropriate, declare and distribute or reinvest the surplus generally or under the Trust, to determine and allocate income, profits and gains in respect of the Trust to and amongst the Unitholders, to carry forward, reinvest or otherwise deal with any surplus and to transfer such sums, as it may deem fit, to one or more reserve funds which may be established by it;

(e) to open one or more bank accounts and demat accounts for the purposes of the Trust, to deposit and withdraw money, and fully operate and manage any such account fully;

(f) to sign, seal, execute, deliver and register according to applicable law all deeds, documents, and assurances in respect of the Trust;

(g) pay out of the income of the Trust, after deducting all expenses, the income and other distributions in accordance with the InvIT Regulations and applicable law;

(h) take into their custody or control all the capital, assets, property of the Trust and hold the same in trust for the Unitholders in accordance with the Trust Deed, applicable law and the InvIT Regulations;

(i) generally to exercise all such powers as it may be required to exercise under the InvIT Regulations and applicable law for the time being in force and do all such matters and things as may promote the investment objectives of the Trust or as may be incidental to or consequential upon the discharge of its functions and the exercise and enforcement of all or any of the powers and rights under the Investment Management Agreement, Applicable Law and the InvIT Regulations;

(j) in accordance with applicable law, individually or collectively, with the Trustee, initiate, prosecute or defend any action or other proceedings in any court of law or through arbitration or in any other manner for recovery of debts or sums of money, right, title or interest, property, claim, matter or thing whatsoever now or hereafter to become due or payable or in any way and belonging to the Trust by any means or on any account whatsoever in respect of and pertaining to the investments made by it and the same actions or proceedings or suits to discontinue or settle, as it shall in its best judgment or discretion deem fit;

(k) to issue statement of accounts or Unit certificates (if requested) to the Unitholders on behalf of the Trustee in accordance with Applicable Law, to submit Units for

dematerialisation and to make all applications and execute all documents with the depositories and depository participants as may be necessary in this regard;

(l) to set up such systems and procedures, and submit such reports, as may be required by the Trustee as necessary for effective monitoring of the functioning of the Trust.

2. *Duties of the Investment Manager*

The Investment Manager shall perform its duties as required under the Investment Management Agreement in accordance with the InvIT Regulations, including but not limited to:

(i). The Investment Manager shall use best endeavours to carry on and conduct its business in a proper and efficient manner in the best interest of the Unitholders. Further, it shall at all times exercise due diligence in carrying out its duties and protecting the interest of the Unitholders.

(ii). The Investment Manager shall coordinate with the Trustee, as may be necessary, with respect to the operations of the InvIT.

(iii). The Investment Manager shall ensure that the valuation of the InvIT Assets is done by the valuer(s) and the valuer(s) acts in accordance with the InvIT Regulations. The Investment Manager shall further ensure that the valuer is not an associate of the Investment Manager and shall be eligible to act as a valuer in accordance with the InvIT Regulations or any clarifications, guidelines, notifications or exemptions issued by SEBI. The Investment Manager shall submit to the stock exchanges valuation reports as required under the InvIT Regulations within fifteen days of the receipt of the valuation report from the valuer. Further, in case of any material development that may have an impact on the valuation of the assets of the InvIT, the Investment Manager shall require the valuer to undertake full valuation of the infrastructure project under consideration within not more than two months from the date of such event and disclose the same to the Trustee and the designated stock exchanges within fifteen days of such valuation.

(iv). The Investment Manager shall arrange for adequate insurance coverage for the InvIT Assets in accordance with the InvIT Regulations. The Investment Manager shall ensure that the InvIT Assets held by the holding companies or the SPVs are adequately insured.

(v). The Investment Manager shall maintain proper books of accounts, documents and records with respect to the Trust, to give a true, fair and accurate account of the investments, expenses, earnings, profits etc. of the Trust. The Investment Manager shall ensure that audit of the accounts of the Trust by the auditors is undertaken in accordance with the InvIT Regulations and such report is submitted to the stock exchange(s) within the time stipulated by the stock exchange(s), if any, and in accordance with the InvIT Regulations.

(vi). The Investment Manager shall declare distributions to Unitholders in accordance with the InvIT Regulations. Subject to applicable law, such percentage of the net distributable cash flows of the SPVs shall be distributed to the Trust in terms of the InvIT Regulations. Such declared distributions shall be made within the time period prescribed by the InvIT Regulations.

(vii). The Investment Manager shall convene meetings of the Unitholders and maintain records pertaining to the meetings in accordance with the InvIT Regulations and other applicable law.

(viii). The Investment Manager shall intimate the Trustee prior to any change in control of the Investment Manager to enable the Trustee to seek prior approval from the Unitholders and SEBI, if required under applicable law in this regard, and shall ensure that no such change is given effect to until the approval of the Unitholders and SEBI has been obtained, or the Investment Management Agreement is terminated and a new investment manager has been appointed.

(ix). The Investment Manager will monitor the Trust, including monitoring current and projected financial position of the Trust and the InvIT Assets, including the SPVs. The Investment Manager shall place before its board of directors, a report on the activity and performance of the Trust, in accordance with the InvIT Regulations. The Investment Manager shall designate an employee or a director as the compliance officer for monitoring of compliance with the InvIT Regulations and any circulars or guidelines issued thereunder and intimating SEBI in case of non-compliance.

(x). The Investment Manager shall maintain records pertaining to the activity of the Trust in terms of the InvIT Regulations.

(xi). The Investment Manager shall manage the Trust in accordance with the InvIT Regulations and the investment objectives of the Trust, and shall ensure that the investments made by the Trust are in accordance with the investment conditions enumerated in the InvIT Regulations, applicable Law and in accordance with the investment objectives and the investment strategy set out in the placement documents. The Investment Manager may review, revise, amend, vary or alter the investment objectives or the investment strategy set out in the placement documents.

(xii). The Investment Manager shall review the transactions carried out between the Project Manager and its associates and where the Project Manager has advised that there may be a conflict of interest, shall obtain confirmation from a practising chartered accountant or a valuer, as applicable, that such transaction is on an arm's length basis.

(xiii). The Investment Manager shall ensure adequate and timely redressal of all Unitholders' grievances pertaining to the activities of the InvIT in accordance with the InvIT Regulations.

(xiv). The Investment Manager shall submit to the Trustee:

(a) quarterly reports on the activities of the Trust including receipts for all funds received by it and for all payments made, status of compliance with the InvIT Regulations, performance report, status of development of under-construction projects, within the time period specified under the InvIT Regulations;

(b) valuation reports as required under the InvIT Regulations within the time period specified under the InvIT Regulations;

(c) proposal/decision to acquire, sell or develop, or bid for any asset or project or expand existing completed assets or projects along with rationale for the same;

(d) details of any action which requires approval from the Unitholders as may be stipulated under the InvIT Regulations;

(e) details of transactions it enters into with its associates;

(f) details of any other material fact including change in its directors, change in its shareholding, any legal proceedings that may have a significant bearing on the activity of the Trust, within such period as stipulated under applicable law;

(g) such information, document and records as pertaining to the activities of the Trust as may be reasonably necessary for, and sought by, the Trustee with respect to its responsibilities under the Trust Deed, the InvIT Regulations and Applicable Law; and

(h) such other information, document and records as pertaining to its activities, obligations, duties and responsibilities under the Investment Management Agreement, the InvIT Regulations and applicable law, as may be reasonably necessary for, and sought by, the Trustee.

(xv). The Investment Manager shall be responsible for all activities pertaining to any issue and listing of the Units of the InvIT in accordance with applicable law, including:

(a) filing the placement document with SEBI and/or the stock exchange(s) within the prescribed time period;

(b) dealing with all matters up to the allotment of Units to the Unitholders;

(c) obtaining in-principle approval and final listing and trading approvals from the designated stock exchange; and

(d) dealing with all matters relating to the issue and listing of the Units.

(xvi). The Investment Manager shall also ensure that all relevant provisions of the InvIT Regulations and applicable law have been complied with and all statements and disclosures made in any placement document are material, true, correct, not misleading and are adequate disclosures in order to enable the investors to make an informed decision and are in accordance with the InvIT Regulations and applicable law, and such placement document should not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements therein, in the light of the circumstances under which they were made, not misleading.

(xvii). In terms of the InvIT Regulations, the Investment Manager shall apply for delisting of units of the Trust to SEBI and the designated stock exchange in accordance with the InvIT Regulations and applicable law.

(xviii). The Investment Manager shall within the time period prescribed under the InvIT Regulations, submit an annual report to all the Unitholders electronically or provide physical copies and to the designated stock exchange.

(xix). The Investment Manager shall submit half-yearly reports within the time period prescribed under the InvIT Regulations to the stock exchange(s) and provide any information having bearing on the operation or performance of the Trust, as well as price sensitive information and other information that is required in terms of the InvIT Regulations and applicable law.

(xx). Subject to applicable law, the Investment Manager shall ensure that it shall discharge its obligations under the agreement and the InvIT Regulations in accordance with the corporate governance policies adopted by the Investment Manager in relation to the InvIT.

(xxi). The Investment Manager shall ensure that prior written consent of the trust lenders is obtained in accordance with the provisions of the trust financing documents.

(xxii). The Investment Manager will also have the following duties and obligations:

(a) ensure that computation and declaration of Net Asset Value of the Trust is based on the valuation done by the valuer in accordance with the InvIT Regulations and applicable law;

(b) maintain regular interaction with the Trustee regarding performance of the Trust and providing the Trustee with any information in relation to the operations of the Trust as maybe required under applicable law;

(c) conducting its affairs and the affairs of the Trust in such a manner that no Unitholder will have any personal liability (except to the extent of their Unitholding, where such Unit is partly paid) with respect to any liability or obligation of the Trust;

(d) keeping the Unitholders of the Trust informed and updated on investment activities of the Trust in accordance with the terms of the InvIT Documents;

(e) collecting all dividends, fees, property and other payments due and receivable by the Trust declaring distribution to the Unitholders in the manner set out in the Deed and in terms of the InvIT Regulations and applicable law;

(f) to ensure that no commission or rebate or any other remuneration, by whatever name called, arising out of transactions pertaining to the Trust is collected by it or its associates for the purpose of the issue of the Units;

(g) to ensure that the InvIT Assets including the holding companies and the SPVs, have proper legal titles, to the extent applicable, and that all the material contracts entered into on behalf of the Trust or the InvIT Assets are legal, valid, binding and enforceable by and on behalf of the Trust or the InvIT assets, as applicable;

(h) to ensure that all the activities of the intermediaries or agents or service providers appointed by it are in accordance with the InvIT Regulations or any guidelines or circulars issued thereunder;

(i) to ensure that any possible conflict of interest involving its role as Investment Manager is reported to the Trustee;

(j) to ensure that disclosures or reporting to Unitholders, SEBI, the Trustee and the designated stock exchange(s) are in accordance with the InvIT Regulations and applicable law;

(k) provide SEBI, the designated stock exchange(s) and Trustee, where applicable, such information as may be sought by SEBI or by the designated stock exchange(s) or Trustee pertaining to the activity of the Trust;

(l) submit a compliance certificate to the Trustee, in the form and at such intervals as may be specified under the InvIT Regulations and applicable law;

(m) to inform the Trustee in writing about any change in the representations and warranties provided under the Investment Management Agreement; and

(n) take any other actions reasonably incidental to any of the foregoing, or necessary or convenient in order to fully effect or evidence any action or transaction contemplated under the Investment Management Agreement.

(xxiii). Related Party Transactions: The Investment Manager shall provide such assistance to ensure that all related party transactions shall be on an arms-length basis in accordance with relevant accounting standards, in the best interest of the Unitholders, consistent with the strategy and investment objectives of the InvIT and in accordance with the InvIT Regulations.

(xxiv). The Investment Manager shall provide to the Trustee such assistance as may be required by the Trustee in fulfilling its obligation towards the Trust under applicable law or as may be required by any regulatory authority with respect to the Trust.

(xxv). The Investment Manager shall rectify any delay or discrepancy or non-compliance of reporting or disclosures requirements under the InvIT Regulations and applicable law on an urgent basis.

(xxvi). Disclose to the Trustee any pending business transactions, contracts under negotiation and other arrangements with the valuer and any other factors that may interfere with the valuer's ability to give an independent and professional valuation of the assets.

3. *Liabilities of the Investment Manager*

The liabilities of the Investment Manager in terms of the Investment Management Agreement are as follows:

(i). The Investment Manager shall not be liable in respect of any action taken or damage suffered by it on reliance upon any notice, resolution, direction, consent, certificate, affidavit, statement, certificate of stock, plan of reorganization or, without being limited in any way by the foregoing, other paper or document believed to be genuine and to have been passed, sealed or signed by appropriate authorities or entities.

(ii). The Investment Manager shall not be liable to the Unitholders for doing or failing to do any act or thing which by reason of any provision of any present or future law or regulation made pursuant thereto, or of any decree, order or judgment of any court, or by reason of any request, announcement or similar action, whether of binding legal effect or not, which may be taken or made by any person or body acting with or purporting to exercise the authority of any government (legally or otherwise) it shall be directed or requested to do or perform or to forbear from doing or performing. If for any reason it becomes impossible or impracticable to carry out any of the provisions of the Investment Management Agreement, the Investment Manager shall not be under any liability.

(iii). The Investment Manager shall not be liable to the Unitholder or any of them or to any other party as a result of such compliance or in connection with such compliance if the Investment Manager is required by the InvIT Regulations or applicable law to provide information regarding the Trust or the Unitholders, the Trust investments and income therefrom and provisions of these presents and complies with such request in good faith, whether or not it was in fact enforceable. If permitted under Applicable Law and if reasonably practicable, the Investment Manager shall provide prior written notice to the Trustee and the relevant Unitholders of such disclosure requirement.

(iv). The Investment Manager shall not incur any liability for any act or omission which may result in a loss to a Unitholder by reason of any depletion in the value of the InvIT Assets or otherwise, except in the event that such loss is a result of fraud or gross negligence or wilful default on the part of the Investment Manager.

(v). The Investment Manager shall be liable to pay interest to the Unitholders at the rate as may be prescribed in the InvIT Regulations until the distribution is made, and such interest shall not be recovered in the form of fees or any other form payable to the Investment Manager by the Trust.

(vi). The Investment Manager shall continue to be liable for all of its acts of omission and commission with respect to the activities of the InvIT, notwithstanding surrender of registration of the InvIT to SEBI.

(vii). The Investment Manager shall be liable to any Unitholder for the authenticity of any signature or of any seal affixed to any endorsement or other document affecting the title to or the

transmission of Units or interests in the Trust or of any investments of the Trusts or be in any way liable for any forged or unauthorized signature or seal affixed to such endorsement, transfer or other document, or for acting upon or giving effect to any such forged or unauthorized signature or seal. The Investment Manager shall be bound to require that the signature of any Unitholder to any document required to be signed by such Unitholder, under or in connection with these presents shall be verified to its reasonable satisfaction.

4. *Indemnity*

In addition to the fees, distributions and expense reimbursements herein described, the Trustee shall, from the Trust assets, indemnify and hold harmless the Investment Manager and its respective officers, directors, shareholders, partners, members, employees, advisors and agents ("**Indemnified Parties**") from and against any claims, losses, costs, damages, liabilities, suits, proceedings and expenses, including legal fees ("**Losses**") suffered or incurred by them by reason of their activities on behalf of the Trust, unless such Losses resulted from fraud, gross negligence, wilful default or wilful misconduct or breach of any obligations or duties under applicable law by the relevant Indemnified Party, as determined by a court of competent jurisdiction.

The Trustee, its directors, employees and officers ("**Trustee Party**") shall be indemnified by the Investment Manager against any and all direct and actual losses, actions, claims, suits, proceedings, damages, liabilities, costs and expenses including legal fees, incurred or suffered by the Trustee Party in connection with the breach of any of the terms of the Investment Management Agreement by the Investment Manager, or failure in furnishing information required by SEBI or any regulatory authority with respect to the Trust, or furnishing incorrect information by the Investment Manager under the InvIT Regulations or related to Trust including in any placement document, or arising out of gross negligence, wilful default or misconduct or fraud on part of the Investment Manager, in carrying out its obligations under the Investment Management Agreement, Trust Deed, the other Trust documents, any information memorandum, placement document and applicable law. The Trustee acknowledges and agrees that the aggregate maximum liability of the Investment Manager in each financial year, shall be limited to the aggregate fees paid to the Investment Manager for the immediately preceding one financial year, in accordance with the terms of the Investment Management Agreement, provided that such aggregate maximum liability shall not be applicable in the event such liability of the Investment Manager to indemnify the Trustee Party for losses or damages suffered arises out of any gross negligence, wilful default or misconduct or fraud of the Investment Manager, as determined by a court of competent jurisdiction.

5. *Termination*

The Investment Management Agreement shall be effective from the date of execution of the Investment Management Agreement and shall terminate in accordance with the terms of the Investment Management Agreement. The appointment of the Investment Manager may be terminated by the Trustee or the Unitholders in accordance with the procedure specified under the InvIT Regulations.

(i). The Unitholders, other than any party related to the transactions and its associates holding not less than such percentage by value as specified under the InvIT Regulations, may apply in writing to the Trustee for removal of the Investment Manager.

(ii). Subject to the approval of Unitholders (if required) and compliance with other requirements under Applicable Law, the Investment Management Agreement may be terminated:

(a) by the Investment Manager by delivery of a prior written notice of 30 (thirty) business days to the Trustee, subject to appointment of new Investment Manager in accordance with the Investment Management Agreement and the InvIT Regulations;

(b) by the Trustee by delivery of a written notice to the Investment Manager at any time, upon breach of any of the terms, covenants, conditions or provisions of the Investment Management Agreement by the Investment Manager and a failure of the Investment Manager to cure the said breach within a period that is earlier of: (a) the period stipulated under applicable law, or (b) 90 business days; or such other period as may be mutually agreed to cure such breach;

(c) by the InvIT (acting through the Trustee) pursuant to a resolution of Unitholders; or

(d) by any Party by delivery of a written notice to the other Party upon the bankruptcy of such other Party, or if winding up or liquidation proceedings are commenced against such other Party, and such proceedings persist for a period of more than three months.

(iii). After approval from the Unitholders in accordance with the InvIT Regulations, the Trustee shall appoint a new investment manager and execute a new investment management agreement within three months from the termination of the previous investment management agreement in accordance with applicable law. The Trustee shall also ensure that the new investment manager stands substituted as a party in all documents to which the Investment Manager was a party, in relation to the Trust in its capacity as the Investment Manager. The Investment Manager shall remain in office until the appointment of a new investment manager. The Investment Manager shall continue to be liable for all of its acts, omissions and commissions during its tenure as Investment Manager, notwithstanding the termination of the Investment Management Agreement.

(iv). Upon removal or replacement of the Investment Manager, the Investment Manager shall, within a period of 90 (ninety) business days, transfer custody of the Trust to the Trustee and give the Trustee all books of accounts, correspondence, documents and records relating to the InvIT which the Investment Manager has in its possession. In the event of removal or resignation of the Investment Manager, the Investment Manager shall be entitled to receive Management Fees only up to the date of such removal or resignation.

(v). Notwithstanding anything contained hereinabove, (i) in the event that the offer of Units does not occur within the time period stipulated in the InvIT Regulations or such other date as may be mutually agreed to between the Investment Manager and the Trustee, or (ii) in the event of cancellation of registration of the Trust by SEBI, or (iii) winding up of the Trust, then the Investment Management Agreement shall automatically terminate without any liability on any party.

D. The Project Manager – National Highways InvIT Project Managers Private Limited

History and Certain Corporate Matters

National Highways InvIT Project Managers Private Limited was incorporated as a private limited company on March 9, 2021, under the Companies Act, 2013. The CIN of the Project Manager is U45201DL2021GOI378178.

Background of the Project Manager

The Project Manager is a wholly-owned subsidiary of NHAI.

The Project Manager shall (directly through the appointment of appropriate agents) undertake operations and management of the Trust, including making arrangements for the maintenance of assets held under the Trust. The Project Manager has been appointed as per the terms of the Project Implementation and Management Agreement.

Neither the Project Manager nor any of the promoters or directors of the Project Manager (i) is debarred from accessing the securities market by SEBI; (ii) is a promoter, director or person in control of any other company or a sponsor, investment manager or trustee of any other infrastructure investment trust or an infrastructure investment trust which is debarred from accessing the capital market under any order or direction made by SEBI; or (iii) is in the list of wilful defaulters published by the RBI.

Key terms of the Amended and Restated Project Implementation and Management Agreement

The Project Manager has entered into the Amended and Restated Project Implementation and Management Agreement, in terms of the InvIT Regulations, the key terms of which, are provided below.

1. *Scope of Services*

The scope of services of the Project Manager are as follows:

i. Whilst the primary obligation under the Concession Agreements remains with the SPV in the manner contemplated therein, the Project Manager shall ensure that the InvIT Assets are operated, maintained and managed as per the terms and conditions of the Concession Agreements, respective O&M Agreements and the InvIT Regulations, either directly or through the appointment and supervision of appropriate agents or contractors or consultants by the SPV or by the Project Manager, and perform obligations as stipulated therein. The Project Manager shall provide and/cause to procure and ensure procurement of all such services as are required to enable the SPV to perform its operation and maintenance related obligations under and in compliance with the Concession Agreements. The responsibilities and the scope of services of the Project Manager include, but not limited to, those specifically provided which may be modified from time to time.

ii. Costs and expenses to be paid to any third party (engaged by the SPV or Project Manager, on behalf of the Project SPV, with the consent of the Investment Manager) shall be borne by the SPV in accordance with the terms and conditions of the contract entered into between the SPV and such third party.

2. *Duties of the Project Manager*

The duties of the Project Manager in terms of the Project Implementation and Management Agreement and the InvIT Regulations are as follows:

i. The Project Manager shall undertake implementation, development, maintenance, operation and management of the InvIT Assets including making arrangements for the appropriate maintenance, either directly or through the appointment and supervision of agents or consultants, if any, as may be necessary for discharge of its duties under the terms of the Project Implementation and Management Agreement, the O&M Agreements and under the InvIT Regulations.

ii. The Project Manager shall facilitate and ensure, either directly or through appropriate agents or consultants engaged either by them or through the SPV, the progress of development, approval status and other aspects of the InvIT Assets that may be under development or, of any new projects, until its completion in accordance with any agreement that may be entered into in this regard, including the supervision of agents or consultants appointed for such purpose.

iii. The Project Manager shall discharge all obligations in respect of achieving timely completion of the infrastructure projects, wherever applicable, implementation, development, operation, maintenance and management of the infrastructure projects in terms of the O&M Agreements, the Project Implementation and Management Agreement and the InvIT Regulations.

iv. The Project Manager acknowledges that the Trustee and the Investment Manager will be overseeing the activities of the Project Manager in accordance with the InvIT Regulations and accordingly, the Project Manager shall extend complete coordination to enable the Trustee and the Investment Manager to perform such obligations in accordance with the InvIT Regulations. Further, the Project Manager shall provide relevant documents in connection with the Projects, including reports and compliance certificate(s), as may be specified, to the Investment Manager and the Trustee in accordance with the InvIT Regulations, in the form prescribed by SEBI or the Investment Manager, if any.

v. The Project Manager shall provide the Investment Manager with details of transactions carried out between itself and its associates in relation to the Trust, and disclose any conflict of interest in such cases to the Investment Manager, in accordance with the InvIT Regulations.

vi. The Project Manager shall intimate the Trustee prior to any Change in Control of the Project Manager to enable the Trustee to seek approval from the relevant authority in accordance with the Concession Agreements or other project documents pertaining to the InvIT Assets, if applicable.

vii. The Project Manager shall provide to the Trustee and Investment Manager, or to such other person as the Trustee and/or the Investment Manager may authorise and direct, all information that may be necessary for each of them to maintain the records of the InvIT and as may be required for making submissions to SEBI or any other Governmental Authority, including with respect to relevant approvals, consents and other documents required in relation to the Projects and the reporting requirements under the InvIT Regulations, in a proper and timely manner, and in the format prescribed (if any), as required by the Trustee and /or Investment Manager.

viii. The Project Manager shall appoint one of its qualified employees acceptable to the Investment Manager and the SPV with adequate and appropriate experience as a principal contact for the board of directors of the SPV, the Trustee and the Investment Manager in relation to the Projects and the Services. The Project Manager shall receive directions and instructions from the Investment Manager, which directions or instructions shall have been issued by the Investment Manager on its own or on behalf of the Project SPV, and to take actions in relation to and ensure compliance with such directions and instructions and report back to the Trustee and the Investment Manager.

ix. The Project Manager shall at all times ensure that the transactions or arrangements entered into by the Project Manager with a related party are on an arm's length basis.

x. The Project Manager shall promptly inform the Parties in writing of any act, occurrence or event, which the Project Manager believes is reasonably likely to increase the cost of or the time

for implementation taken in relation to any InvIT Asset, or materially to change the financial viability, quality or function of any InvIT Asset.

xi. If any defects are found in the maintenance, materials and workmanship of the Services provided under the Project Implementation and Management Agreement by the Project Manager and/or by the PM Agents, the Project Manager shall promptly, in consultation and agreement with the other Parties, regarding appropriate remedying of the defects, and at its own cost, repair, replace or otherwise make good (as any SPV shall, at its discretion, determine) such defects as well as any damage caused by such defect.

xii. The Project Manager shall be liable to the other Parties for any direct loss or damage attributable to the non-performance or breach of the obligations of the Project Manager including those of the PM Agents, under the Project Implementation and Management Agreement The Trustee and the Investment Manager acknowledge and agree that the aggregate maximum liability of the Project Manager shall be limited to the fees payable to the Project Manager in accordance with the terms of the Project Implementation and Management Agreement.

xiii. The duties of Project Manager shall also include the following:

a. providing the necessary certification as may be required under applicable laws and the InvIT Regulations;

b. facilitate and ensure execution and completion of activities in relation to any InvIT Assets under development in accordance with and in the manner contemplated in any agreement entered into by any or all the InvIT Assets;

c. exercising diligence and vigilance in carrying out its duties directly or through its agents/ contractors of the SPV and protecting the InvIT Assets;

d. keeping the Investment Manager informed on all matters which have a material bearing on the operations of the InvIT Assets, and attending meetings with the Investment Manager and/or the SPV, as may be required;

e. liaising with Governmental Authorities in respect of its obligations under the Project Implementation and Management Agreement and the O&M Agreements;

f. taking appropriate measures to mitigate the risks which may be encountered by the InvIT in respect of the InvIT Assets, including creation of risk registers and periodic risk auditors either directly or through its agents;

g. keeping proper records for actions taken in respect of the InvIT Assets; and

h. complying with the instructions of the Investment Manager and the Trustee and the provisions of the InvIT Regulations.

xiv. The Parties may, from time to time, agree to the provision of certain additional services to be rendered by the Project Manager. If, in the assessment of the Project Manager, such additional services are required for the purposes of carrying out its duties and obligations under the Project Implementation and Management Agreement, the O&M Agreements, and Applicable Law, the Project Manager shall notify the Parties in writing of such requirement, including the fee payable and the terms and conditions for such additional services, and obtain prior written approval of the Parties in this regard.

xv. In case of any inconsistency or discrepancy between the Project Implementation and Management Agreement and the O&M Agreements, the Project Manager shall bring the same into the notice of the Investment Manager. The Investment Manager shall issue instructions (in writing) for resolving the inconsistency, to the Project Manager. The Project Manager shall be bound to comply with the instructions of the Investment Manager.

xvi. Notwithstanding anything to the contrary contained in the Project Implementation and Management Agreement, nothing contained in the Project Implementation and Management Agreement shall be construed to limit or restrict the performance of any duties or obligations of the Project Manager, Investment Manager or the Trustee contained in the InvIT Regulations and other Applicable Law.

xvii. During the term of the Project Implementation and Management Agreement, in the event the representations provided by the Project Manager under the Project Implementation and Management Agreement, become untrue or incorrect or incomplete in any respect, the Project

Manager shall, within a reasonable time, inform the Trustee and Investment Manager of such event.

xviii. The Project Manager shall promptly and periodically notify the Investment Manager regarding any deficiency in the services of the SPV Team or any third party contractor or service provider engaged either directly by the Project Manager or through the SPV, along with an assessment report covering, amongst others, the details of deficiency in service, remedial measures and financial impact on the Project SPV. Any such deficiency shall be remedied in the manner provided in the Project Implementation and Management Agreement.

xix. Other than on account of any non-compliance or deficiency, the Project Manager shall promptly notify the Investment Manager regarding any proposed change in the SPV Team along with an assessment report covering, amongst other things, rationale for the change and its assessment of the same and professional competence of the persons proposed to be appointed to the SPV Team. The Project Manager shall not grant consent for any change in the SPV Team without prior consultation with, and approval of, the Investment Manager, in accordance with the Project Implementation and Management Agreement.

3. *Indemnity*

The Trustee, the Investment Manager, the Project SPV and their respective directors, employees, officers and the InvIT ("**Indemnified Parties**") shall be indemnified by the Project Manager against any claims, suits, proceedings, losses, costs, damages, liabilities and expenses, including legal fee from and incurred or suffered by the Indemnified Parties in connection with the breach of any of the terms of the Project Implementation and Management Agreement by the Project Manager, or failure in furnishing information required by SEBI or any regulatory authority with respect to the InvIT, or furnishing wrong information by the Project Manager under the InvIT Regulations or related to InvIT including in any offer documents, or arising out of gross negligence, wilful default, wilful misconduct or fraud on part of the Project Manager, in carrying out its obligations under the Project Implementation and Management Agreement, the other InvIT Documents and Applicable Law. The Trustee and the Investment Manager acknowledge and agree that the aggregate maximum liability of the Project Manager in each financial year shall be limited to the fees payable to the Project Manager in such financial year in accordance with the terms of the Project Implementation and Management Agreement, provided that such maximum aggregate liability shall not be applicable in the event such liability of the Project Manager arises out of any gross negligence, wilful default, wilful misconduct or fraud on the part of the Project Manager, as determined by a court of competent jurisdiction.

4. *Termination*

(i). The Project Implementation and Management Agreement shall remain effective, unless terminated by the parties in accordance with the provisions hereto or extended by mutual consent expressed in writing by the parties, for the period that the concession agreement is in force or such other period as may be mutually agreed between the Parties ("**Validity Period**").

(ii). Prior to the expiry of its Validity Period, the Project Implementation and Management Agreement, may be terminated:

(a) by the Investment Manager after consultation with the Trustee by delivery of a written notice of 30 (thirty) business days, specifying the reasons for such termination, to the Project Manager at any time, subject to appointment of new project manager in accordance with the Project Implementation and Management Agreement and the InvIT Regulations; or

(b) by the Investment Manager after consultation with the Trustee by delivery of a written notice to the Project Manager at any time, upon breach of any of the terms, covenants, conditions or provisions of the Project Implementation and Management Agreement by the Project Manager and a failure of the Project Manager to remedy the said breach within a period of 60 Business Days or such other period as may be mutually agreed by the parties; or

(c) by any party by delivery of a written notice to the other party upon the bankruptcy of such other party or if insolvency resolution process, winding up or liquidation proceedings, whether voluntary or involuntary, are commenced against such other party (and such proceedings persist for a period of more than three months).

(iii). Notwithstanding anything contained hereinabove, the Trustee in consultation with the Investment Manager shall appoint a new project manager having satisfactory credentials and execute a new project implementation and management agreement within three months from

the termination of the earlier project implementation and management agreement in accordance with applicable law. The Trustee and Investment Manager shall also ensure that the new project manager stands substituted as a party in all documents (including the O&M Agreements) to which the Project Manager was a party. The Project Manager shall remain in office until the appointment of a new project manager. The Project Manager shall continue to be liable for all its acts and omissions and commissions notwithstanding its termination until the appointment of a new project manager.

(iv). The termination of the Project Implementation and Management Agreement shall not affect the rights and obligations of the parties accrued prior to such termination.

(v). In case of early termination prior to the expiry of the Validity Period, the Project Manager shall be entitled to and the Trust shall be liable to pay (from the funds of the InvIT or the SPV) to the Project Manager the reimbursement of all out of pocket expenses incurred by the Project Manager while performing services in terms of the Project Implementation and Management Agreement up to that date. The fees shall be paid to the Project Manager within a period of 60 business days from the date of receipt of demand in this regard from the Project Manager failing which the fees, or any part thereof, which remains outstanding shall attract interest at the rate of 10% per annum on the outstanding amount.

(vi). Notwithstanding anything contained hereinabove, the termination of any of the O&M Agreements, as the case may be, will not result in the termination of Project Implementation and Management Agreement, and the Project Implementation and Management Agreement shall continue to be in force in respect of the other O&M Agreements that are not terminated and the InvIT Assets.

(vii). Notwithstanding anything herein contained, in the event of:

(a) any amendment or supplement or restatement of any of the O&M agreements or execution of a new O&M agreement;

the same shall be deemed to have been incorporated in the Project Implementation and Management Agreement and the Agreement shall stand modified to such extent.

(viii). Notwithstanding anything contained hereinabove, the Project Implementation and Management Agreement shall automatically terminate: (i) in the event the offer of the Units does not occur within the time period stipulated in the InvIT Regulations, or such other date as may be mutually agreed to between the parties; (ii) in the event of cancellation of the registration of the Trust by SEBI; or (iii) upon winding up of the Trust, in accordance with the InvIT Regulations.

In case of any inconsistency between the Project Implementation and Management Agreement or any InvIT Documents, and the InvIT Regulations or any applicable law, the InvIT Regulations or applicable law shall prevail.

CORPORATE GOVERNANCE

The section below is a summary of the corporate governance framework in relation to the Trust, adopted by the Investment Manager.

1. Investment Manager

1.1. Board of Directors

Composition of the Board of Directors of the Investment Manager

In addition to applicable provisions of the Companies Act, 2013, the board of directors should adhere to the following:

(a) The Board of Directors shall comprise of not less than six directors and have not less than one woman independent director;

(b) Not less than 50% of the board of directors shall comprise of independent directors and not directors or members of the governing board of the Investment Manager of another infrastructure investment trust registered under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014, as amended;

(c) the chairman of the board of directors should be a non-executive independent director; and

(d) collective experience of directors should cover a broad range of commercial experience, particularly experience in infrastructure sector (including the applicable sub-sector), investment management or advisory and financial matters.

Quorum

The quorum shall be 1/3rd of total strength or three directors whichever is higher including atleast 1(one) independent director.

Frequency of meetings

(xviii). Giving recommendations to the board of directors regarding appointment, re-appointment and replacement, remuneration and terms of appointment of the valuer of the Trust; as well as reviewing and monitoring the independence and performance of the valuer of the Trust;

(xix). Providing recommendations to the board of directors regarding any proposed distributions, and evaluating any defaults or delay in payment of distributions to the unitholders or dividends by the Project SPV to the Trust and payments to any creditors or debenture holders of the Trust or the Project SPV, and recommending remedial measures; and

(xx). To review the functioning of the whistle blower mechanism;

(xxi). Approval of appointment of chief financial officer after assessing the qualifications, experience and background, etc. of the candidate;

(xxii). Consider and comment on rationale, cost-benefits and impact of schemes involving merger, demerger, amalgamation etc., on the Trust and its unitholders or Investment Manager and its shareholders.

(xxiii). Formulating any policy for the Investment Manager as necessary, in relation to its functions, as specified above.

(b). *Stakeholders' Relationship Committee*

Composition of the Stakeholders' Relationship Committee

The stakeholders' relationship committee should comprise at least three members. At least one member of the committee shall be an independent director. The chairperson of this committee shall be a non-executive director.

Quorum

The quorum shall be at least 50% of the members of the committee.

Frequency of meetings

The stakeholders' relationship committee should meet at least four times every year, or as frequently as determined by the board of directors or as directed by the trustee of the Trust, with a maximum gap of 120 days between any two successive meetings.

Scope of the Stakeholders' Relationship Committee

The terms of reference of the stakeholders' relationship committee should include the following:

(i) Consider and resolve grievances of the unitholders or debenture holders, including complaints related to the transfer/transmission of units, non-receipt of annual report, non-receipt of declared distributions and non-receipt of interest or principal repayment on debentures, general meetings;

(ii) Review of measures taken for effective exercise of voting rights by shareholders;

(iii) Review of any litigation related to unitholders' grievances;

(iv) Review of adherence to the service standards adopted by the listed entity in respect of various services being rendered by the Registrar & Share Transfer Agent;

(v) Review of the various measures and initiatives taken by the Trust or Investment Manager for reducing the quantum of unclaimed distributions and ensuring timely receipt of distribution warrants/annual reports/statutory notices by the unitholders of the Trust;

(vi) update unitholders on acquisition / sale of assets by the Trust and any change in the capital structure of the Project SPV;

(vii) Reporting specific material litigation related to unitholders' grievances to the board of directors;

(viii) Approve report on investor grievances to be submitted to the Trustee;

(ix) Undertaking all functions in relation to resolution of any conflicts of interest;

(x) Coordination with the unitholders on matters in connection with voting (including in respect of actions which require approval of the unitholders in accordance with applicable law); and

(xi) provide the unitholders with regular updates and information on the operation or performance of the Trust.

(c). *Nomination and Remuneration Committee*

Composition of the Nomination and Remuneration Committee[5]

The nomination and remuneration committee should comprise at least three members. All the members of the Committee shall be Independent directors. The chairperson of this committee shall be an independent director. Provided that the chairperson of the Board, may be appointed as a member of the Nomination and Remuneration Committee and shall not chair such Committee.

Quorum

The quorum shall be either 2(two) members or 1/3rd of the members of the Nomination and Remuneration Committee whichever is greater.

Frequency of meetings

The nomination and remuneration committee should meet atleast once or at a frequency as determined by the board of directors or as directed by the trustee of the Trust, with a maximum gap of 120 days between any two successive meetings.

Scope of the Nomination and Remuneration Committee

The terms of reference of the nomination and remuneration committee should include the following:

(i) ensuring compliance with the requirements of the Companies Act, 2013, Invit Regulations;

(ii) formulation of the criteria for determining qualifications, positive attributes and independence of a director, key managerial persons and other employees;

(iii) formulation of criteria for evaluation of performance of independent directors and the board of directors;

(iv) recommending to the board, all remuneration, in whatever form, payable to senior management;

(v) identifying persons who are qualified to become directors and who may be appointed in senior management in accordance with the criteria laid down, and recommend to the board of directors their appointment and removal;

(vi) making all recommendation in relation to appointment or re-appointment or replacement or removal of (a) independent directors; (b) any key managerial personnel; and (c) directors on the board of directors of the Project SPV;

(vii) formulating the following policies:

(a) the policy for appointment of independent directors (including the skills, knowledge, qualification and experience requirements, compensation model, performance parameters, process for appointment, evaluation and removal);

(b) the policy for nomination of directors on the board of directors of the Project SPV (including qualification and experience requirements, compensation model, performance parameters, process for appointment and removal);

(c) the human resources policy (in relation to employment terms including remuneration) for the key managerial personnel; and

(d) devising a policy on diversity of board of directors.

(viii) whether to extend or continue the term of appointment of the independent director, on the basis of the report of performance evaluation of independent directors.

(d). Risk Management Committee

The board of directors shall define the role and responsibility of the Risk Management Committee and may delegate monitoring and reviewing of the risk management plan to the committee and such other functions as it may deem fit such function shall specifically cover cyber security.

The Risk Management Committee shall have powers to seek information from any employee, obtain outside legal or other professional advice and secure attendance of outsiders with relevant expertise, if it considers necessary.

Composition of the Risk Management Committee

The Risk Management committee should comprise at least three members with majority of them being members of the board of directors, including at least one independent director. The chairperson of this committee shall be a member of the Board of Directors and senior executives may be member of committee

Quorum

The quorum shall be either 2 members or 1/3rd of the members of the committee, whichever is higher, including at least one member of the board of directors in attendance.

Frequency of meetings

The Risk Management committee should meet at least twice in a year or as frequently as determined by the board of directors or as directed by the trustee of the Trust, with a maximum gap of 180 days between any two successive meetings.

Scope of the Risk Management Committee

The terms of reference of the Risk Management committee should include the following:

(i) To formulate a detailed risk management policy which shall include:

(a) A framework for identification of internal and external risks specifically faced by the listed entity, in particular including financial, operational, sectoral, sustainability (particularly, ESG related risks), information, cyber security risks or any other risk as may be determined by the Committee.

(b) Measures for risk mitigation including systems and processes for internal control of identified risks.

(c) Business continuity plan.

(ii) To ensure that appropriate methodology, processes and systems are in place to monitor and evaluate risks associated with the business;

(iii) To monitor and oversee implementation of the risk management policy, including evaluating the adequacy of risk management systems;

(iv) To periodically review the risk management policy, at least once in two years, including by considering the changing industry dynamics and evolving complexity;

(v) to keep the board of directors informed about the nature and content of its discussions, recommendations and actions to be taken;

(vi) The appointment, removal and terms of remuneration of the Chief Risk Officer (if any) will be done as per the extant HR Policies of the Company by MD &CEO in consultation with the Risk Management Committee.

1.5. Operating Committee(s) of the Investment Manager

(a) *Sustainability and Safety Committee*

Composition of the Sustainability and Safety Committee

Chair: Independent Director appointed by the Board of the Company.

Member: The Committee will comprise the Chair, at least 2 (two) Nonexecutive/ Independent Directors of the Company. On recommendation of the Chair, Senior executive of the Company may also be appointed as member of the Committee.

Quorum

The quorum shall be at least 2 (two) members of the Sustainability and Safety Committee.

Frequency of meetings

The Sustainability and Safety committee should meet at least twice in a year or as may be determined by the Committee suiting to the requirement of the business

Scope of the Sustainability and Safety Committee

The role of the "Sustainability and Safety Committee" is to provide ongoing oversight of climate matters and the sustainability agenda, road user and occupational health and safety. References in these terms of reference to 'sustainability' shall mean sustainability matters where relevant to climate or other environmental matters and shall include Community, Diversity and Environment. References in these terms of reference to "Safety" shall mean promotion of positive health and safety culture, provide safe and healthy workplaces, appropriate training to inculcate environment, health, and safety consciousness, protection of environment, biodiversity and ecosystems in our operations

The terms of reference of the Sustainability and Safety Committee should include the following:

(i). Support and advise the Board in its oversight of sustainability and safety related matters relating to:

a. the services provided to the users of the assets of the National Highways Infra Trust ("NHIT") and entities of NHIT including Special Purpose Vehicles (SPVs);

b. particular sectors, and

c. its own corporate activities;

(ii). Support the Board in monitoring the implementation of the Company's sustainability and safety strategy and, if appropriate, make recommendations to the Board as to how to further develop these strategies;

(iii). Review and make recommendations to the Board on the suitability of NHIT's sustainability and safety strategy, position statements, frameworks, ambitions, metrics, and targets;

(iv). Report to the Board on the sustainability and safety matters for which it is responsible, escalating issues and making recommendations to the Board where appropriate.

Authority and Delegation

(i). The Committee may sub-delegate any or all of its powers and authority as it sees fit, including, without limitation, the establishment of sub-committees to analyze particular issues or themes and to report back to the Committee.

(ii). The Committee is established by the Board of the Company and its authority extends to all matters relating to its responsibilities below for the Company, NHIT and SPVs under NHIT, save to the extent that matters relate solely to the Company, NHIT and/or SPVs under NHIT and fall solely within the remit of the terms of reference of the Board Sustainability Committee of the Company, in which event such matters shall be dealt with by such committee within the parameters set by this Committee.

(iii). The Committee has authority to investigate any matter relating to the Company, NHIT and SPVs under NHIT within its Terms of Reference and to obtain such information as it may require from any Director, officer or employee of the Company and SPVs under NHIT.

Responsibilities:

(i). Review at regular intervals and at least once a year, the implementation of the NHIT's sustainability and safety strategy and regularly review progress against any measurable objectives that the Board has set in respect of this strategy.

(ii). Receive and review regular business updates and reports across the NHIT and entities of NHIT, on performance against its sustainability and safety strategy as well as its Sustainable Finance and ESG Reporting Frameworks.

(iii). Monitor and receive updates on developments, emerging best practice and regulatory changes in relation to sustainability and safety matters which impact the business of the Company, NHIT and entities of NHIT, and its sustainability and safety strategy, as well as the implementation of this strategy.

(iv). Be informed on the formulation of the NHIT's approach to engagement with stakeholders and external communications pertaining to sustainability and safety matters.

(v). Review the NHIT's public sustainability strategy materials prior to their release, to the extent these materials do not otherwise fall within the remit of the Audit Committee.

(vi). Escalate to the Board any sustainability and safety matters under its responsibility where it considers that material action or improvement additional to any proposed by management is required to help the Company, NHIT and SPVs under NHIT deliver its sustainability and safety ambitions; and

(vii). Work and liaise, as necessary, with other committees of the Board. In particular, the Committee shall:

a. notify the Board Audit Committee of any matters that may be relevant to ESG and Task Force on Climate-Related Financial Disclosures ("TCFD") disclosures and at the request of the Board Audit Committee, provide any support required in assessing the adequacy of the Company's Sustainable Finance and ESG Reporting Frameworks;

b. notify the Risk Committee of any matters within the Committee's remit that may require consideration in relation to Climate Risk, Conduct Risk and/or Legal Risk as defined in the Enterprise Risk Management Framework and/or in relation any matters within the Committee's remit that may be relevant in the context of the Reputation Risk Management Framework; and

Reporting and Disclosure:

The Chair of the Committee shall report to the Board on the proceedings of each meeting.

(i). The Committee shall compile a report of the work of the Committee in discharging its responsibilities for inclusion in the Annual Report, including a description its activities and the significant issues dealt with by the Committee.

(ii). The Chair of the Committee, or a deputy chosen from the Committee membership, shall attend and will be prepared to answer questions at the Annual General Meeting of the Company which relate to any matter within the remit of the Committee.

Governance and Resources:

(i). periodically review these Terms of Reference and recommend to the Board for approval any amendments the Committee considers necessary.

(ii). work and liaise as necessary with all other committees of the Board.

(iii). conduct an annual self-assessment and report any conclusions and recommendations to the Board and, as part of this assessment, shall consider whether it has performed in accordance with its responsibilities and whether or not it receives adequate and appropriate support in fulfilment of its role and whether or not its current workload is manageable.

(iv). in its decision making, give due regard to any relevant legal or regulatory requirements, and associated best practice guidance, as well as to the risk and risk management implications of its decisions.

(v). have access to sufficient resources in order to carry out its duties, including access to the Company Secretary, who shall have independent access to the Chair of the Committee and to the services of the Company, Corporate Secretariat on Committee matters; and have the power to engage independent counsel and other professional advisers at the expense of the Company or NHIT or SPVs under NHIT and to invite them to attend meetings.

1.6. Articles of Association of the Investment Manager

The articles of association should not include any affirmative rights for the Sponsor.

1.7. Policies to be adopted by the Board of Directors of the Investment Manager

The Investment Manager, through its Board or Committees, should adopt, among others, the following policies in relation to management of the Trust:

(i). Code of Conduct

(ii). Borrowing Policy

(iii). Policy in relation to related party transactions and conflict of interests - In relation to periodic reporting of associates of (i) Trustee and (ii) Sponsor, to Investment Manager, (i) the investment management agreement will include an obligation on the Trustee to report its list of associates to the Investment Manager; and (ii) the agreement in relation to transfer for assets to the Trust will include an obligation on the Sponsor to report its list of associates to the Investment Manager, respectively.

(iv). Distribution Policy

(v). Policy on appointment and removal of other Intermediaries

(vi). Policy on appointment of Auditor and Valuer of the Trust

(vii). Policy on Unpublished Price-Sensitive Information and Dealing in Units by the Parties to the Trust and Insider Trading

(viii). Policy on Materiality for periodic disclosures to the Stock Exchanges

(ix). Anti-bribery and Anti-corruption Policy

(x). Anti-money laundering policy

(xi). Environment, Health and Safety Policy

(xii). Hedging Policy

(xiii). Policy for Preservation of Documents

(xiv). Vigil Mechanism Policy including Whistle Blower policy

(xv). Familiarisation Programme for Independent Directors

(xvi). Nomination and Remuneration Policy

(xvii). Policy on Qualifications and Criteria for the Appointment of Unitholders Nominee Directors on the Board of National Highways Infra Investment Managers Private Limited ("IM" or "Company")

(xviii). Investor Protection and Education Fund policy for Units ("IPEF Policy for units")

2. Project SPV

2.1. Board of Directors of Project SPV

The Investment Manager, in consultation with the Trustee, shall appoint majority of the board of directors of the Project SPVs.

Summary of certain policies, amongst others, as adopted by the board in relation to the management of the Trust:

(i). Code of conduct

The Trust and the Investment Manager ("**IM**") shall comply with the Code at all time, in accordance with the InvIT Regulations, for all matters for which they are dealing / acting on behalf of the Trust, including that:

a. the Directors and Senior Management Personnel of the IM are expected to comply with the code in letter and spirit.

b. the Directors and Senior Management Personnel of the IM shall comply with all applicable laws, regulations, confidentiality obligations and other corporate policies.

c. the Directors and Senior Management Personnel of the IM shall not enter into any transaction or engage in any practice, directly or indirectly, that would tend to influence him/her to act in any manner other than in the best interests of the Trust or IM.

d. the Directors and Senior Management Personnel of the IM should make a full disclosure to the IM Board of any transaction that they reasonably expect, could give rise to actual conflict of interest with the Trust or the IM and seek authorization to pursue such transaction.

e. the Directors and Senior Management Personnel of the IM should endeavor to ensure that they use the assets, proprietary information and resources of the Trust or IM only for legitimate business purpose and not for personal gains.

f. any information concerning the IM's /Trust's business, performance, its customers, suppliers, etc., which is not in the public domain and to which the Directors/Senior Management personnel have access or possesses such information must be considered confidential and held in confidence, unless authorized to do so and when disclosure is required under any law.

g. the Directors and Senior Management Personnel shall neither receive nor offer or make, directly or indirectly, any illegal payments, remuneration, gifts, donations or comparable benefits which are intended to or perceived to obtain business or uncompetitive favours for the conduct of its business.

h. the Directors and Senior Management Personnel should endeavor to deal fairly and not seek to take unfair advantage through manipulation, concealment, abuse of privileged information, misrepresentation of material facts or other unfair dealing.

i. The Directors and Senior Management Personnel shall respect safety and health of all employees and provide working conditions, which are safe and healthy. They shall strive for maintaining a safe workplace by following safety and health rules and practices.

j. The Directors and Senior Management Personnel shall endeavor to provide equal opportunities to all employees and aspirants for employment in the IM or Trust irrespective of gender, caste, religion, race or colour, merit being the sole differentiating factor.

k. The Directors and Senior Management Personnel shall endeavor to make all efforts to establish cordial relationships with all stakeholders of the Company with whom they interface while carrying out their duties for the Company and would try to make positive contributions to the communities in which they perform such duties.

l. None of the Directors or the Senior Management Personnel shall derive any benefit nor assist to derive any benefit by giving investment advice from access to and possession of information about the IM or Trust, which is not in public domain or constitutes insider information.

m. Every Director of the IM shall endeavor to comply with the provisions of Section 166 of the Companies Act, relating to the duties of directors.

(ii). Anti-Bribery And Corruption Policy

a. The Trust maintains and promotes the highest ethical and legal standards in its business, especially in relation to bribery and corruption, and expect employees of the Trust and those with whom the Trust does business to do the same.

b. The policy on bribery and corruption applies to the Trust's dealings in both the public and the private sectors, and any violation of this policy is a matter of serious concern.

Management oversight and leadership:

a. The Trust's audit committee, together with its chief executive officer, chief financial officer and Compliance Officer, are responsible for providing leadership, resources and active support for the implementation of the policy.

b. The compliance officer appointed to ensure compliance of the policy ("**Compliance Officer**"), who may be a person other than the compliance officer of the Trust appointed as per the requirements of Companies Act, 2013, as amended, will communicate the policy to all levels of the Trust, project SPVs of the Trust ("**Project SPV**") and relevant external parties at least annually, and at such other times as he considers appropriate, such as when the policy is amended or updated.

Definitions of bribery and corruption:

a. "ABC" means anti-bribery and corruption.

b. "Anti-Bribery Laws" means the ABC laws and regulations , which shall include, the Prevention of Corruption Act, 1988, relevant portions of the Indian Penal Code, 1860, the Central Vigilance Commission Act, 2003, applicable to, the Trust and its employees.

c. "Bribe / Bribery" means the giving, acceptance, solicitation or facilitation of a financial advantage to or by any person which (i) does or might induce, influence or reward the improper performance or non performance of any activity or function in either the public or private sector, (ii) which in itself constitutes the improper performance of a relevant function or activity, or (iii) is intended to obtain or retain business or a business advantage.

d. A promise or offer to give, accept, solicit or facilitate a financial advantage will also constitute Bribery. Equally, a violation may occur if you do anything which is prohibited through another person, as much as if you did it yourself.

e. A financial advantage may be anything of value. It can be a payment, payoff, influence payment or a 'kickback'. Equally, it may also take the form of a gift, hospitality or entertainment, or be something intangible, like an offer of employment.

f. "Corruption" means dishonest or fraudulent conduct by those in power, typically involving Bribery.

g. The term "Official" includes any person who holds a legislative, judicial or administrative position of any kind; any official, employee or representative of, or any other person acting in an official capacity or performing a public function on behalf of: a government (including any entity it owns or controls) or any government authority or agency; the legislature; the judiciary; a political party or political candidate; or a public international organization.

Prohibition on bribery:

a. The Trust prohibits:

(i) Giving Bribes including:

- Bribing someone to get a contract or other business advantage such as a license, consent or permit (including from that person or by using that person's influence);
- Bribing any Official in order to influence any official decision, or to induce them to use their influence to affect any act or decision of a governmental authority; or
- Bribing any officer, employee or agent of a company or body corporate with which the Trust interacts in the conduct of Trust's activities and operations for the purpose of influencing any act or decision of that company or body corporate.

(ii) Receiving Bribes including:

- Asking, agreeing to or receiving a Bribe from anyone in exchange for giving or continuing to give a person any business, or any business advantage, or for otherwise improperly performing any activity or function.

b. Circumstances which may suggest an increased risk of Bribery or Corruption and which should therefore be discussed with the Compliance Officer include:

(i) Intermediaries (as defined below) engaged by the Trust which is accused of improper practices;

(ii) A party with whom the Trust does business requests payment in cash or to offshore accounts;

(iii) Requests for payment, entertainment or hospitality at a time when the recipient is making an important decision that affects or could be perceived to affect the operations of the Trust;

(iv) Refusal by any Intermediary to use written agreements;

(v) Requests or directions to record (or issue receipts) for payments or fees in a manner which does not reflect their true nature;

(vi) Previous relationships between Trust's employees or Intermediaries and a government office or Official;

(vii) Requests for special payments, such as a 'special acceleration fee' or any other payment to reduce delay or remove the need to comply with applicable procedures.

c. The above examples are not exhaustive and any matters which give you cause for concern should be promptly raised with the Compliance Officer.

d. Practices that may appear typical or customary may still be unlawful and in breach of the policy.

e. The Trust should always consider whether any conduct may give an appearance that it creates an obligation on, or may influence, the recipient (or a third party) to act in a way that may be improper, or which may be perceived as being capable of influencing an Official exercise of discretionary authority, even where this is not the intention. Such conduct should be discussed with the Compliance Officer.

Dealing with intermediaries:

a. The term intermediaries ("**Intermediaries**") refers to an associate's representatives, vendors, contractors, sub-contractors, consultants and any other persons engaged by an associate, or who are engaged to act for the associate in its business dealings with any government or official, or in obtaining governmental approvals.

b. The Trust engages Intermediaries only for ordinary and legitimate business purposes and only on arms-length, commercially reasonable terms.

c. Any contracts between associates and Intermediaries must be in writing and must be signed by the parties.

d. Different types of Intermediaries are subject to different ABC risk assessment and risk mitigation measures. It is clarified that such provisions and procedures would be prepared by the Trust in consultation with the Compliance Officer which are to be followed when engaging an Intermediary and for the Trust's standard anti-bribery related contractual provisions which are to be included in the Trust's contracts with Intermediaries.

In general:

a. The Trust expects that Intermediaries and vendors with which it does business to either formally acknowledge and abide by relevant aspects of the policy by way of an undertaking, or to have adequate anti-bribery and corruption policies and procedures of its own in place.

b. When engaging an Intermediary, an associate should:

(i) perform proportionate and risk-based due diligence checks on the Intermediary based on an understanding of the potential relationship (e.g. the sector in which the Intermediary operates, the type of services it will be providing and the level of interaction it will have with Officials or private sector parties); and

(ii) consider and respond appropriately to the findings of that due diligence, particularly where areas of high concern are identified.

Charitable donations:

a. The Trust supports the work of registered and reputable charities.

b. However, unless appropriate procedures are adopted, there is a risk that charitable donations given by the Trust or its employees may be perceived as seeking to improperly influence decisions which affect the Trust, or to induce those who have authority to make such decisions to give an improper business advantage to the Trust.

c. The key principles regarding donations are as follows:

(i) donations must not be made using Trust's funds, under the Trust's name, or in connection with the Trust, without first obtaining specific approval from the Compliance Officer;

(ii) where making a donation as a private citizen, Trust's employee should ensure it is made clear to the recipient and in any publicly available material that the donation is not being made for or on behalf of the Trust, or in connection with the activities of the Trust; and

(iii) A donation should not be made either privately or by the Trust if the intent or possible effect of the donation is or may be to influence the decisions of any Official or other person on matters affecting the Trust.

d. All donations must be properly recorded and accounted for in the central register of political and charitable donations maintained by the Compliance Officer.

Gifts, Hospitality and Entertainment ("GH&E"):

a. The Trust recognizes that constructive business relationships may include occasional, incidental provision of gifts, hospitality and entertainment.

b. However, gifts, hospitality and entertainment which are or may be seen as exceptional, lavish or disproportionate, or given to certain individuals who have the ability to make decisions affecting the Trust, may be regarded as improper or unlawful.

c. As a general rule, gifts, hospitality and entertainment must:

(i) be reasonable and proportionate in terms of frequency, value and the status/seniority of the recipient;

(ii) be provided in an open and transparent manner; and

(iii) always be provided for legitimate business purposes and in kind only.

d. The Trust and its employees must not:

(i) offer gifts, hospitality and entertainment, or anything else of value, which might influence the decisions of counterparties or Officials in connection with the business of the Trust; or

(ii) accept any gifts, hospitality and entertainment, or anything else of value, which might influence their own decisions.

e. The Trust shall comply with GH&E at all time, in accordance with the InvIT Regulations, including that:

- GH&E which is or may be regarded as, exceptional, lavish or disproportionate and/or intended to induce or reward improper conduct is prohibited.

- Trust and its employees must not offer, provide, accept or solicit gifts in the form of cash, cash equivalents, commissions, loans, securities or goods/services at below-market value.

- The Trust must pay all costs associated with GH&E (e.g. transport, accommodation and meals) directly to suppliers and not to the recipients of the GH&E.

- GH&E must not be offered or provided to family members or friends of the recipient.

- Approval of GH&E, including GH&E relating to Officials, is required in accordance with the policy and must be obtained in advance of any offer or acceptance of GH&E. If circumstances clearly prevent obtaining advance approval, the GH&E must be reported to the Compliance Officer at the earliest available opportunity.

- Failure to comply with the policy may result in disciplinary action, including possible termination of employment.

- All GH&E must be properly recorded and accounted for in the books and records and must be supported by original receipts.

- All GH&E approval forms (whether approved or declined) must be held on file by the Compliance Officer for a period of five years.

- GH&E with a value in excess of Rs. 5,000 must be approved by the Compliance Officer and in excess of Rs. 10,000 must be approved by the managing director of the Trust, and all such GH&E shall be recorded by the Compliance in the annual GH&E central register.

- The annual GH&E central register must be submitted to, and reviewed annually by, the Audit Committee.

f. Trust's employees should consider the above guidelines in respect of all gifts, hospitality and entertainment which they propose to offer or accept.

Facilitation Payments:

a. The Trust is committed to complying with the laws applicable to its business. The trust acknowledges that facilitation payments, which usually are small payments made to obtain or expedite routine actions for specific performance, are not permitted under the laws of many jurisdictions and that authorities in many parts of the world are seeking to eliminate such practices.

b. If an employee of the Trust becomes aware that a facilitation payment may be made, this must be referred to the Compliance Officer, who will consider, consult as necessary and recommend action.

c. The Compliance Officer will report to the Audit Committee on any matters relating to facilitation payments.

Conflict of Interest:

a. Employees of the Trust must seek to avoid any real or perceived conflict between their private interests and the performance of their duties to the Trust.

b. A conflict of interest arises when an individual's private interests influence, or may appear to influence, the objective exercise of his or her duties to the Trust. Conflicts of interest can arise where, for example, an employee and/or the Trust is considering business arrangements involving the Trust which may provide the employee with a private benefit, or where an employee position within the Trust gives them an opportunity to provide special advantages or benefits to a partner, child or friend.

c. If a situation arises which may give rise to a conflict of interest involving an employee, another employee or an external party in connection with matters affecting the Trust, the employee must promptly raise this with the Compliance Officer.

Books and Records:

a. The books and records of the Trust must reflect, accurately and fairly, the transactions of the Trust and dispositions of its assets, including ensuring that a transaction is accurately described in its books and records and the amount of each transaction is accurately recorded.

b. No payment on behalf of the Trust is to be approved or made with the express or implied agreement or the intention that any part of it is to be used for a purpose other than that described by the documents supporting the payment.

c. Employees should never agree to requests for false invoices or for payments of expenses that are unusual, excessive, inadequately or improperly described, or otherwise raise questions under the policy.

d. No undisclosed or unrecorded funds or assets are to be established or used for any purpose.

Training:

a. Employees of the Trust will receive regular (at least annual) training relevant to their role to ensure that they:

   (i) understand the Anti-Bribery Laws applicable to them;

   (ii) are aware of and understand the policy;

   (iii) are equipped to respond to the specific risks which relate to their particular role; and

   (iv) know what the Trust expects of them.

b. Where appropriate Intermediaries will also receive training appropriate to their role. The nature of such training and those Intermediaries who are to be subject to it will be determined by the Compliance Officer.

c. Employees of the Trust should check with the Compliance Officer in connection with engaging Intermediaries and any training obligations which apply.

Whistle-blowing, investigations and non-retaliation:

a. Employees and Intermediaries (anonymously or by name) who are aware of possible or suspected corrupt acts by colleagues, demands for Bribes or other violations of Anti-Bribery Laws or the policy must report these to the Compliance Officer or head of department. Any such reports will be promptly investigated by the Trust.

b. An employee of the Trust or Intermediary will not suffer demotion or any other adverse consequences for refusing to pay Bribes or for reporting in good faith possible corrupt acts by colleagues, demands for Bribes or other suspected violations of Anti-Bribery Laws applicable where the Trust operates or the policy, even if it may result in the Trust losing business.

c. Any Trust employee who retaliates, or attempts to retaliate, against a person who has made a report relating to a violation of Anti-Bribery Laws or the policy will be subject to disciplinary action, which may include termination of their employment with the Trust.

Compliance:

a. Any employee of the Trust who violates any Anti-Bribery Law or any aspect of the policy will be subject to disciplinary action, which may include termination of their employment with the Trust.

b. Employees of the Trust should understand that additionally, they could be subject to civil and criminal liability for violations of applicable law.

c. Violations of any Anti-Bribery Laws or the policy should be reported.

Continuous monitoring and improvement:

a. The Audit Committee and Compliance Officer are responsible for monitoring the implementation of, compliance with and periodic review and updating of the policy, including to comply with changes in Anti-Bribery Laws.

b. In line with this, the Compliance Officer will report:

- on a regular basis, on general compliance by the Trust with the policy and its effectiveness; and
- to the Audit Committee annually on the above matters in connection with the annual ABC risk assessment and audit.
- The Compliance Officer will also notify the Audit Committee should he/she become aware of any particular instance of non-compliance (or suspicion of non-compliance) with Anti-Bribery Laws or the policy.
- The Trust carries out an annual ABC risk assessment and audit to assess the effectiveness of the policy. The terms of reference of such audits are set annually by the Audit Committee, which will also oversee the annual audit. Where issues are identified, the Audit Committee will prescribe appropriate remedial measures to be implemented by the Trust in order to address these.
- Any material deficiencies in the policy which are identified by employees of the Trust during the year should be reported to the Compliance Officer for an appropriate action to be taken.

The Compliance Officer:

The Trust employs a Compliance Officer who is responsible for day to day implementation and oversight of the policy. Their responsibilities also include:

a. receiving and investigating reports of ABC-related incidents;

b. escalating known ABC issues to the Audit Committee, as appropriate;

c. reporting to the Audit Committee as set out above;

d. ensuring employees of the Trust complete ABC questionnaires and certifications (as relevant) in a timely manner;

e. maintenance of the central donations register and annual gifts, hospitality and entertainment register; conducting regular spot checks of compliance with the policy and the Trust's books and records;

f. providing guidance to Trust's employees on the policy; and

g. Record keeping in connection with the policy and associated training.

Advice and Assistance:

Employees should contact the Compliance Officer for advice and assistance on any matters relating to the policy.

Minimum Due Diligence Requirements:

In the event that the InvIT considers any new investment opportunity, independent and reputable consultants shall be engaged to conduct the respective due diligence for all key workstreams. The key workstreams include: (i) traffic, (ii) technical, (iii) financial and tax, (iv) legal and (v) anti-corruption and anti-bribery aspects, environmental health safety aspects and compliance as well as (vi) reputational risk assessment of a remaining existing minority unitholder in an asset, if any.

KYC Compliances:

Any person who is a unitholder in the Trust or any Project SPV holding the Trust assets would be required to comply with the stringent KYC norms that is in line with international market standards and customary policies of global financial institutions of repute, including sanctions enacted by OFAC or the European Union or other similar bodies. Any person who does not meet these requirements is not eligible to become a unitholder/shareholder of these entities or be appointed as Investment Manager or Project Manager.

Reporting of Litigation:

Relevant information (e.g. parties, forum, nature of dispute/claim, monetary amount involved and status) pertaining to all litigations/disputes (matters above a monetary threshold of ₹ 80 million) of all Project SPVs shall be prepared on a quarterly basis, and be made available to all the unitholders, if requested for by any unitholder.

Compliance with InvIT Documents and InvIT Regulations:

All current and future Project SPVs shall amend their respective Articles of Association to include a requirement that the Project SPVs shall, at all times, conduct their affairs in compliance with the provisions of the Trust documents and the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended.

(iii). Borrowing Policy

The Investment Manager is required to ensure that all funds borrowed in relation to the Trust are in compliance with the InvIT Regulations. Accordingly, the Investment Manager, has adopted the Borrowing Policy pursuant to the resolution of the IM Board dated February 3, 2021. The Borrowing Policy was subsequently amended pursuant to resolution of the IM Board dated September 27, 2021.

(iv). Distribution policy

The Investment Manager has adopted the Distribution Policy pursuant to a resolution of its board of directors dated February 3, 2021, in relation to Trust. The Distribution Policy was subsequently amended pursuant to the resolution of the IM Board dated September 27, 2021 and thereafter on March 4, 2024. For details of the Distribution Policy, please see the section entitled "*Distribution*" on page 395.

(v). Policy on appointment of auditor and valuer of the Trust

For details on the Policy on appointment of the auditor and the valuer of the Trust, adopted by the IM Board pursuant to its resolution dated February 3, 2021, see "*Other Parties Involved in the Trust – Policy on Appointment of Auditor and Valuer*" on page 116.

(vi). Policy on unpublished price-sensitive information and dealing in units by the parties to the Trust

The Investment Manager has adopted the UPSI Policy pursuant to a resolution of the IM Board on February 3, 2021. The UPSI Policy was subsequently amended pursuant to resolutions of the IM Board dated September 27, 2021, March 30, 2022, January 4, 2023 and October 24, 2024. The purpose of the policy is, inter alia, to ensure that the Trust complies with applicable law, including the InvIT Regulations or such other Indian laws, regulations, rules or guidelines prohibiting insider trading and governing disclosure of material, unpublished price sensitive information ("**UPSI**").

The key principles of the UPSI Policy are set out below:

a) The Investment Manager shall promptly disclose to the relevant stock exchanges all UPSI that would impact price discovery no sooner than credible and concrete information comes into being in order to make such information generally available;

b) The Investment Manager shall follow uniform and universal dissemination of UPSI to avoid selective disclosure;

c) The Company Secretary and Compliance officer shall be designated as a Chief Investor Relations Officer who shall be responsible for dissemination of information and disclosure of UPSI. The Chief Investor Relations Officer shall oversee and co-ordinate disclosure and dissemination of UPSI in a timely, adequate, uniform and universal manner to avoid selective disclosure, and shall educate employees on disclosure policies and procedures.

d) The Investment Manager shall promptly disseminate UPSI that gets disclosed out of accidental omission, selectively, inadvertently or otherwise to make such information generally available.

e) The Compliance Officer shall be responsible for deciding whether a public announcement is necessary for verifying or denying rumours and then making the disclosure, in accordance with the procedure specified in the Policy for Determining Materiality of Information for Periodic Disclosures and applicable law;

f) The Compliance Officer shall also make an appropriate and fair response to the queries, rumours or requests by the regulatory authorities, in accordance with the procedure specified in the Policy for Determining Materiality of Information for Periodic Disclosures. The Chief Investor Relations Officer should not comment on market rumours except when requested by regulatory authorities to verify such rumours;

g) The Compliance Officer shall make transcripts or records of proceedings of meetings with analysts and other investor relations conferences on the official website to ensure official confirmation and documentation of disclosures made; and

h) The Investment Manager shall handle all UPSI on a "need to know basis", provided that UPSI may be disclosed to persons who need such information for furtherance of legitimate purposes, performance of duties or discharge of legal obligations in relation to the Trust.

Further, the UPSI Policy also provides the process and procedures for closure of the trading window for dealing in Securities, pre-clearance of dealing in securities and approval requirements, disclosure by insiders, inquiry into leak of any UPSI and handling and investigation into complaints by whistleblowers.

(vii). Policy on Vigil Mechanism and Whistleblower

The Board has adopted the Vigil Mechanism and Whistle Blower Policy pursuant to a resolution of its board of directors dated December 15, 2022 and subsequently amended on February 12, 2025, in relation to the Trust. Trust and the parties to the Trust shall comply with the Vigil Mechanism and Whistle Blower Policy at all times, in accordance with the InvIT Regulations. The key principles of the Vigil Mechanism and Whistle Blower Policy are set out below:

a) formulate a vigil mechanism for directors and employees to report genuine concerns;

b) provide adequate safeguards against victimization of directors or employees or any other person

c) who avail such mechanism;

d) provide for direct access to the chairperson of the audit committee in appropriate or exceptional cases;

e) An independent service provider may be engaged by the Investment Manager for providing or operating the vigil mechanism who shall report to the Audit Committee; and

f) The Audit Committee shall review the functioning of the vigil mechanism.

(viii). Employment, Safety, Environment and Governance ("ESG") Policy

The key principles of the ESG Policy are set out below:

Employment, Health and Safety ("EHS"):

In connection with EHS, the Investment Manager shall:

- Promote a positive EHS culture.
- Comply with all statutory and other applicable legal and regulatory requirements with respect to EHS and seeks to ensure its Intermediaries do the same.
- Incorporate EHS considerations in business processes, including by ensuring appropriate health and safety measures are adopted, ensuring employees are provided with, and use, protective equipment when dealing with potential hazards, and by the provision of regular occupational health and safety training for employees.
- Identify, monitor and control EHS risks which arise in connection with its projects and operations, including in subcontracted works.
- Record and review all accidents, occupational health and safety related incidents and lost time days and investigate all serious occupational health and safety incidents, including in subcontracted works.
- Ensure that all of its workplaces which are exposed to high-risk hazards have appropriate emergency plans in place.
- Screen, evaluate and engage Intermediaries based on its EHS management systems and practice.
- Encourage communication, consultation and collaboration with all employees and stakeholders.

Workers' Rights:

To achieve the Trust's objective in connection with workers' rights, the Investment Manager shall:

- Respect the rights of its employees, including by providing fair and timely wages, supporting their work-life balance, providing safe working conditions, fostering worker engagement,

including by the provision to employees of information on workers' rights and of mechanisms to raise employment related grievances, and permitting freedom of association.

- Prohibit the use of any child or young workers and the use of any form of forced or compulsory labour in connection with its business.
- Prohibit all forms of discrimination and abuse in its work place.
- Complies with all statutory and other applicable legal and regulatory requirements with respect to workers' rights.
- Have in place policies governing the provision to its employees of overtime, vacation and public holidays and maternity, sickness and disability benefits.
- Protect the rights of migrant workers in accordance with applicable statutory and other legal requirements.
- Screen, evaluate and engage Intermediaries based on their respect for workers' rights.
- Monitor compliance with and risks to workers' rights in connection with Projects, including in subcontracted works.
- Encourage communication, consultation and collaboration with all employees and stakeholders.

The Environment:

To achieve the Trust's objective in connection with the environment, the Investment Manager shall:

- Seek to adopt sustainable and resource-efficient processes and to conserve natural resources, reduce adverse environmental impacts (such as waste and environmental emissions) and enhance energy efficiency.
- Comply with all statutory and other applicable legal and regulatory requirements with respect to the environment (including by seeking all required environmental clearances, permits, and licenses, and maintaining a register of these) and seek to ensure Intermediaries do the same.
- Seek to identify, monitor and control environmental risks which arise in connection with its projects and operations, including in subcontracted works.

Dealing with Intermediaries:

The term intermediaries ("**Intermediaries**") refers to an associate's representatives, vendors, contractors, sub-contractors, consultants and any other persons engaged by an associate, or who are engaged to act for the associate in its business dealings with any government or official, or in obtaining governmental approvals.

In general:

- The Trust expects that Intermediaries and vendors with which it does business either formally acknowledge and abide by relevant aspects of this policy by way of an undertaking, as suitably incorporated in their appointment terms, or to have adequate ESG policies and procedures of their own in place.
- When engaging an Intermediary, the associate should:
  - perform proportionate and risk-based due diligence checks on the Intermediary; and
  - consider and respond appropriately to the findings of that due diligence, particularly where areas of high concern are identified.

Training:

The Trust's employees will receive training to ensure they understand applicable ESG law, are aware of and understand this policy, are equipped to respond to specific risks which relate to their particular role and know what the Trust expects of them. Where appropriate, Intermediaries will also receive training appropriate to their role.

Process for reporting possible violations of applicable law or this policy:

The Trust will promptly investigate reports of possible or suspected violations of applicable ESG law or this policy in accordance with this policy. Employees or Intermediaries will not be demoted or suffer any other unfavourable treatment as a result of making a good faith report of a possible violation of applicable law or this policy, even if it may result in the Trust losing business. If any employee of the Trust violates this policy or retaliates against another employee who has reported a possible violation of applicable law or this policy then they will be subject to disciplinary action, which may include termination of employment.

Management leadership, oversight, implementation and review:

The Audit Committee, together with its chief executive officer, chief financial officer and compliance officer are responsible for providing leadership, resources and active support for the implementation of this policy. The compliance officer appointed to ensure compliance of the ESG Policy ("**Compliance Officer**"), who may be a person other than the compliance officer of the Trust appointed as per the requirements of Companies Act, 2013, as amended, will communicate this policy to the Trust and relevant external parties at least annually, and at other appropriate times, such as when this policy is amended or updated. The Audit Committee will oversee compliance with this policy. The Compliance Officer is responsible for its day to day implementation. The Trust shall have an annual ESG risk assessment and audit to assess the effectiveness of this policy. The terms of reference of such audits are set annually by the Audit Committee, which will also oversee the annual audit. Where issues are identified, the Audit Committee will prescribe solutions to be implemented by the Trust. The Compliance Officer will report on general compliance with this policy and its effectiveness on a regular basis to the Audit Committee annually in connection with the annual ESG risk assessment and audit. The Compliance Officer will also notify the Audit Committee should they become aware of any non-compliance (or potential non-compliance) with applicable law or this policy. If an employee identifies a deficiency in this policy they should report it to the Compliance Officer who will initiate appropriate action.

Advice and assistance:

Employees should contact the Compliance Officer for advice and assistance on any matters relating to this policy.

OTHER PARTIES INVOLVED IN THE TRUST

The Auditor

Background and terms of appointment

The Investment Manager, in consultation with the Trustee, has appointed A.R. & Co., Chartered Accountants (Firm Registration No. 002744C), as the statutory auditors of the Trust for a period of three years commencing from Fiscal financial year 2022-23 till financial year 2024-25. The Auditors have audited the Audited Financial Information, and their reports in relation to such Audited Financial Information dated May 23, 2022, May 22, 2023, May 27, 2024, and December 19, 2024 have been included in this Placement Document.

Functions, Duties and Responsibilities of the Auditor

The functions, duties and responsibilities of the Auditor will be in accordance with the InvIT Regulations. Presently, in terms of the InvIT Regulations, the Auditor is required to comply with the following conditions at all times:

1. the Auditor shall conduct audit of the accounts of the Trust and draft the audit report based on the accounts examined and after taking into account the relevant accounting and auditing standards, as may be specified by SEBI;

2. the Auditor shall, to the best of his information and knowledge, ensure that the accounts and financial statements give a true and fair view of the state of the affairs of the Trust, including profit or loss and cash flow for the period and such other matters as may be specified;

3. the Auditor shall have a right of access at all times to the books of accounts and vouchers pertaining to activities of the Trust; and

4. the Auditor shall have a right to require such information and explanation pertaining to activities of the Trust as he may consider necessary for the performance of his duties as auditor from the employees of the Trust or holding company or Parties to the Trust or holding company or the special purpose vehicles or any other person in possession of such information.

The Valuer

Background and terms of appointment

The Investment Manager, in consultation with the Trustee, has appointed Ernst & Young Merchant Banking Service LLP with effect from December 1, 2024, as the valuers of the Trust for a period of two years. In accordance with the InvIT Regulations, the Valuers have undertaken a full valuation of the Target Toll Roads as at December 31, 2024 which is proposed to be acquired by the Trust, and their report in relation to such valuation dated February 28, 2025, has been included in this Placement Document.

Functions of the Valuer

The functions, duties and responsibilities of the Valuer will be in accordance with the InvIT Regulations. Presently, in terms of the InvIT Regulations, the Valuer is required to comply with the following conditions at all times:

1. the Valuer shall ensure that the valuation of the Trust assets is impartial, true and fair and is in accordance with Regulation 21 of the InvIT Regulations;

2. the Valuer shall ensure that adequate and robust internal controls to ensure the integrity of its valuation reports;

3. the Valuer shall ensure that it has sufficient key personnel with adequate experience and qualification to perform valuations;

4. the Valuer shall ensure that it has sufficient financial resources to enable it to conduct its business effectively and meet its liabilities;

5. the Valuer and any of its employees involved in valuing of the assets of the Trust, shall not, (i) invest in units of the Trust or in the assets being valued; and (ii) sell the assets or units of the Trust held prior to being appointed as the Valuer, until the time such person is designated as valuer of the Trust and not less than six months after ceasing to be valuer of the Trust;

6. the valuer shall conduct valuation of the Trust's assets with transparency and fairness and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise independent professional judgment;

7. the valuer shall act with independence, objectivity and impartiality in performing the valuation;

8. the valuer shall discharge its duties towards the Trust in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete given assignment;

9. the valuer shall not accept remuneration, in any form, for performing a valuation of the Trust's assets from any person other than the Trust or its authorized representative;

10. the valuer shall before accepting any assignment, from any related party of the InvIT, disclose to the Trust any direct or indirect consideration which the valuer may have in respect of such assignment;

11. the valuer shall disclose to the Trust any pending business transactions, contracts under negotiation and other arrangements with the investment manager or any other party whom the Trust is contracting with and any other factors that may interfere with the valuer's ability to give an independent and professional valuation of the assets;

12. the valuer shall not make false, misleading or exaggerated claims in order to secure assignments;

13. the valuer shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information;

14. the valuer shall not accept an assignment which interferes with its ability to do fair valuation; and

15. the valuer shall, prior to performing a valuation, acquaint itself with all laws or regulations relevant to such valuation.

Further, in accordance with the InvIT Regulations, a full valuation shall be conducted by the valuer not less than once every financial year. However, the Investment Manager shall conduct a valuation through a SEBI registered valuer for any quarter, based on the specific request of any unitholder.

Policy on Appointment of Auditor and Valuer

The Investment Manager has adopted a policy on the appointment of auditor and valuer of the Trust, which will stand amended, to the extent of any amendment to the InvIT Regulations or applicable law, details of which are provided below:

Appointment and Role of Auditor of the Trust

(i). The Investment Manager, in consultation with the trustee to the Trust (the "**Trustee**"), shall appoint the auditor of the Trust (the "**Auditor**"), in a timely manner and in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended or supplemented, including any guidelines, circulars, notifications and clarifications framed or issued thereunder (the "**InvIT Regulations**").

(ii). The Investment Manager shall ensure that the appointment of the Auditor and the fees payable to the Auditor is approved by the unitholders of the Trust ("**Unitholders**") in accordance with the InvIT Regulations.

(iii). The Investment Manager shall appoint an Auditor for a period of not more than five consecutive years; provided that the Auditor, not being an individual, may be reappointed for a period of another five consecutive years, subject to approval of Unitholders in the annual meeting in accordance with the InvIT Regulations.

(iv). The Auditor shall conduct the audit of the accounts of the Trust and draft the audit report based on the accounts examined by it after taking into account the relevant accounting and auditing standards under applicable law, including the InvIT Regulations and any guidelines, circulars, notifications and clarifications framed or issued by the Securities and Exchange Board of India ("**SEBI**"), as may be specified from time to time.

The Auditor shall comply with the conditions prescribed under the InvIT Regulations at all times, including the following:

(a). The accounts of the Trust shall be subjected to audit by the Auditors and shall be accompanied by a report of the Auditors in such manner and at such intervals as may be prescribed under applicable law, including InvIT Regulations;

(b). the Auditor shall, to the best of his information and knowledge, ensure that the accounts and financial statements give a true and fair view of the state of the affairs of the Trust, including profit or loss and cash flow for the period and such other matters as may be specified by SEBI;

(c). the Auditor shall have a right of access at all times to the books of accounts and vouchers pertaining to activities of the Trust;

(d). the Auditor shall have a right to obtain such information and explanation pertaining to activities of the Trust as he may consider necessary for the performance of his duties as auditor from the employees of Trust or any holding company or parties to the Trust or any holding company or the special purpose vehicle(s) or any other person in possession of such information; and

(e). The auditor should have subjected itself to the Peer review process of ICAI and holds such a valid certificate.

(v). The Investment Manager, in consultation with the Trustee, shall have the right to take all necessary steps to remove the Auditor who ceases to comply with the eligibility criteria required under the InvIT Regulations and applicable law. In case of removal of the auditor and appointment of another auditor to the Trust, approval from the Unitholders shall be required in accordance with Regulation 22(5)(f) of the InvIT Regulations. Additionally, any change in the auditor of the Project SPVs shall be made in accordance with the Companies Act, 2013, as amended.

Appointment and Role of Valuer of the Trust

(i). The Investment Manager, in consultation with Trustee, shall appoint the valuer of the Trust ("**Valuer**"), in a timely manner and shall determine the remuneration of such Valuer, in accordance with the InvIT Regulations. A 'Valuer' shall have the meaning provided under the InvIT Regulations.

(ii). The remuneration of the Valuer shall not be linked to or based on the value of the assets being valued.

(iii). The Valuer shall not be an associate of any of the Sponsor or the Investment Manager or Trustee.

(iv). The Valuer shall be eligible to act as a valuer in accordance with the InvIT Regulations or any clarifications, guidelines, notifications or exemptions issued by SEBI.

(v). A Valuer shall not undertake valuation of the same project for more than four years consecutively, provided that the Valuer may be reappointed after a period of not less than two years from the date it ceases to be the Valuer of the Trust.

(vi). The Valuer shall not undertake valuation of any assets in which it has either been involved with the acquisition or disposal within the last twelve months other than such cases where the Valuer was engaged by the Trust for such acquisition or disposal.

(vii). The Valuer shall comply with the following conditions at all times:

(a) the Valuer shall ensure that the valuation of the Trust assets is impartial, true and fair and is in accordance with the InvIT Regulations;

(b) the Valuer shall ensure adequate and robust internal controls to ensure the integrity of its valuation reports;

(c) the Valuer shall ensure that it has sufficient key personnel with adequate experience and qualification to perform valuations;

(d) the Valuer shall ensure that it has sufficient financial resources to enable it to conduct its business effectively and meet its liabilities;

(e) the Valuer and any of its employees involved in valuing of the assets of the Trust, shall not:

- invest in units of the Trust or in the assets being valued; and
- sell the assets or units of the Trust held prior to being appointed as the Valuer,

until the time such person is designated as Valuer of the Trust and not less than six months after ceasing to be Valuer of the Trust;

(f) the Valuer shall conduct valuation of the Trust assets with transparency and fairness and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise independent professional judgment;

(g) the Valuer shall act with independence, objectivity and impartiality in performing the valuation;

(h) the Valuer shall discharge its duties towards the Trust in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete given assignment;

(i) the Valuer shall not accept remuneration, in any form, for performing a valuation of the Trust assets from any person other than the Trust or its authorized representative;

(j) the Valuer shall before accepting any assignment, from any related party of the Trust, disclose to the Trust, by disclosing to the Investment Manager or the Trustee, any direct or indirect consideration which the Valuer may have in respect of such assignment;

(k) the Valuer shall disclose to the Trust, through the Investment Manager, any pending business transactions, contracts under negotiation and other arrangements with the Investment Manager or any other party whom the Trust is contracting with and any other factors that may interfere with the Valuer's ability to give an independent and professional valuation of the assets, and other necessary disclosures required under the InvIT Regulations;

(l) the Valuer shall not make false, misleading or exaggerated claims in order to secure assignments;

(m) the Valuer shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information;

(n) the Valuer shall not accept an assignment which interferes with its ability to do fair valuation; and

(o) the Valuer shall, prior to performing a valuation, acquaint itself with all laws or regulations relevant to such valuation.

(viii). The Investment Manager in consultation with the Trustee shall have the right to take all necessary steps to remove the Valuer who ceases to comply with the eligibility criteria required under the InvIT Regulations and applicable law. If the removal of the Valuer and appointment of another valuer to the Trust is taken up at a meeting of the Unitholders at the request of the Unitholders, such removal of the Valuer shall be approved by the Unitholders in accordance with the InvIT Regulations.

Continued government focus and increased private interest likely to aid growth in Fiscal 2025

Our Sponsor is also involved in the Bharatmala Pariyojana ("Bharatmala") project. Between fiscals 2018 & 2023 overall road sector capex, comprising of National Highways, State Highways & rural roads is estimated to have grown at a CAGR of 14%. This growth, driven by Bharatmala and increased state spends on roads has been achieved despite brief hiccups such as the pandemic and hampered construction due to elongated monsoons. The outlook for the sector remains firm, supported by higher awarding of new projects from previous fiscals, steady-state capex, the NIP pipeline of DPR-ready projects, and Bharatmala project.

The NH segment contributes around 40-45% of the overall capex. While the execution remained flattish in fiscal 2023 vis--vis fiscal 2022, capex grew by 16% due to a rise in construction of high value projects and high commodity prices. In fiscal 2024, the national highway capex further grew by 18% driven primarily by much improved execution during the fiscal. High volume projects (4-8 lanes) still in the pipeline in the construction/pre-construction phase are going to be the key area of focus for governments capital expenditure.

On the low base of fiscal 2021, the state spends grew by 21% in fiscal 2022 and are estimated to have grown further by 10-13% in fiscal 2023 largely in line with the growth in budgetary outlay. In fiscal 2024, state spends are expected to go up further by 8-12% as their percentage achievement of budgetary allocations are expected to be largely in line with historical average.

Momentum to continue, supported by Bharatmala and NIP pipeline

Note: Capex excludes the land-acquisition costs

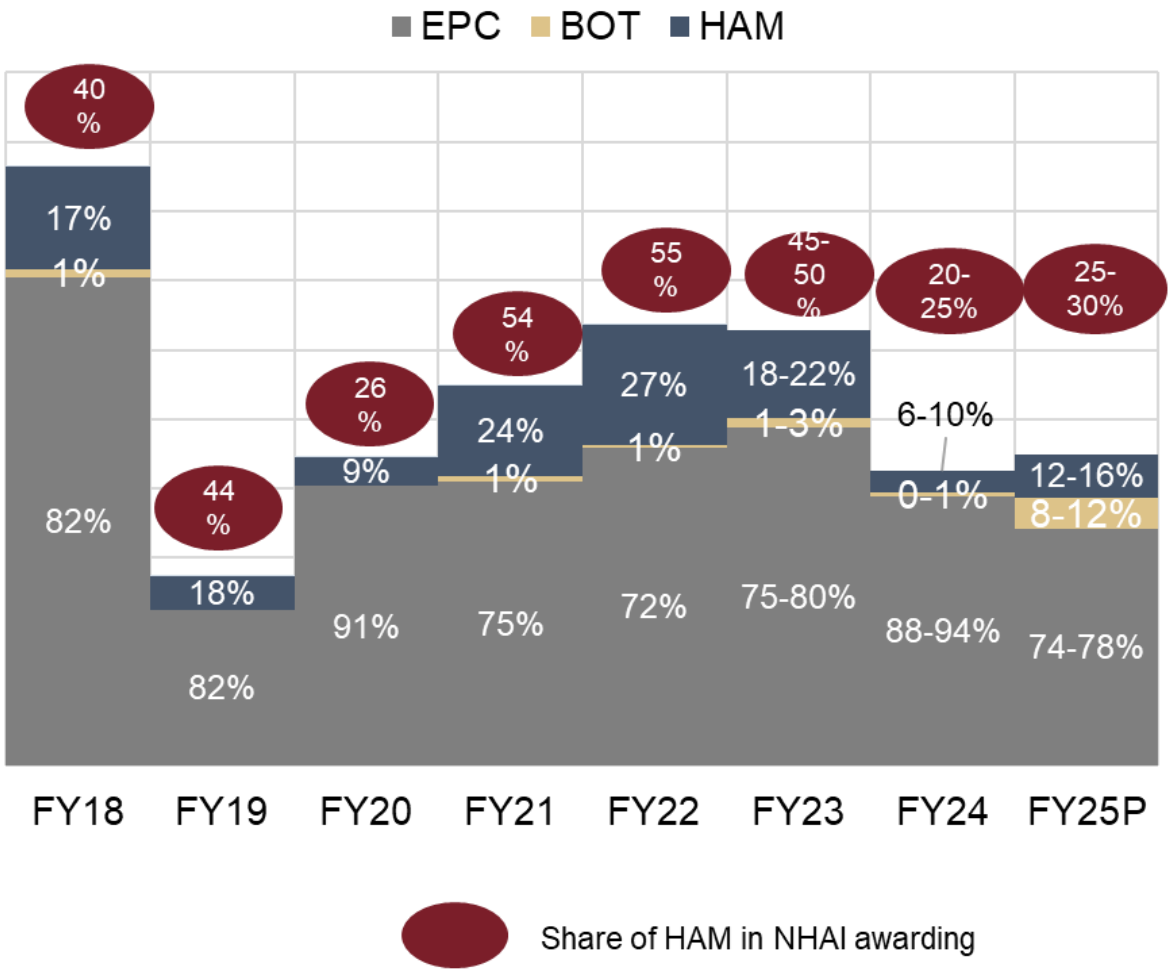
Investments: National highways

NHAI awarding to revive marginally in fiscal 2025 with the revamped BOT model likely to account for an improved share

NHAI has already offered more than 1500 kms of roads to NHIT in last 3 years. Our Sponsor's awarding had witnessed a rise from merely 2,222 km in fiscal 2019 to 6,003 km in fiscal 2023. NHAI's flagship Bharatmala Pariyojana Programme (BMP) Phase-1 witnessed significant cost overrun on account of costlier land acquisition and high inflation. Currently, the estimated cost of the BMP phase-1 is almost twice and the initial estimate and the ministry is awaiting cabinet approval for a revamped programme and additional funds in order to undertake rapid awarding of projects in the pipeline. As a result, NHAI awarding was ~3,339 kms in fiscal 2024.

Notably, the share of HAM dipped significantly due to the aforementioned issues regarding the BMP. Going forward, the share of HAM is expected to revive to around 25-30% in fiscal 2025. Further, on account of amendments in the BOT MCA, the awarding under the BOT model is also likely to increase. This is likely to be supported by the interest of developers in the revamped BOT model due to the following factors:



- HAM was favored by the road developers due to lower risk and higher profitability. However, the competition in HAM awarding has increased substantially leading to average bid premiums tumbling from a peak of 15-20% to around 4-6% in the last few fiscals. As a result, share of the larger developers have dropped substantially since many large developers have refrained from bidding aggressively for HAM projects in order to protect their margins. Given the amendment in BOT MCA and the scope of higher profitability due to lower bidding competitiveness in the BOT space many large developers are keen on taking up BOT projects.

- Furthermore, owing to the healthy balance sheets the developers are also in a comfortable position to undertake BOT projects with high funding requirements.

- The increased traffic visibility vis--vis earlier years also augurs well for the BOT projects.

The shift towards the BOT model comes against the backdrop of NHAI facing funding challenges and moderation in growth in the central government's budgetary outlay towards the roads & highways sector. Thus, the shift will have a two-pronged benefit by not only alleviating funding challenges to a great extent but also increasing the private investments in the sector.

Share of BOT in NHAI awarding is likely to be around 8-12% in fiscal 2025 on the back of amendments in the BOT MCA

Source: NHAI, CRISIL MI&A Research

NHAI execution is also rising steadily with focus on swifter execution

Even though overall national highways construction at the MoRTH level had remained flattish in fiscals 2022 and 2023, NHAI execution witnessed strong momentum. NHAI execution sequentially rose from 4,175 km in fiscal 2021 to 4,882 km in fiscal 2023.

Acceleration in project awards, sharper focus on resolving land acquisition issues, and the Atmanirbhar Bharat initiatives to ease liquidity (monthly milestone payments, release of retention money, reduction in performance security & extension of 3-6 months in milestones & SCODs) for EPC road players augured well for the pace of execution of NHAI projects.

Higher awarding of the previous years (FY21-23) and many of those projects receiving appointed dates in a timely manner have further boosted NHAI execution in fiscal 2024. As a result, 6,644 km of NHAI projects were executed during the year. In other words, the construction per day stood at around 18 km. Given the healthy orderbooks of the developers, the momentum in the pace of execution is likely to continue in fiscal 2025 as well. CRISIL MI&A Research expects NHAI execution to be between 5,000-6,000 km in fiscal 2025.

Over the medium term, the pace of construction is expected to rise steadily to reach ~19 km per day by fiscal 2028. NHAIs pace of construction rising steadily with continued focus on swifter execution.

NHAIs pace of construction rising steadily with continued focus on swifter execution

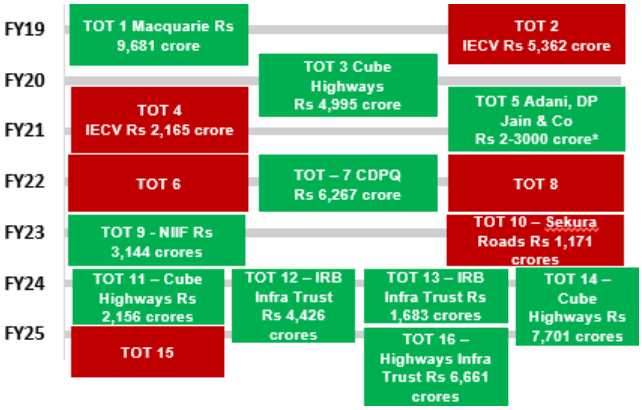
Policy push for HAM enabled higher share in awarding

NHAI awards roads & highway projects under:

- EPC
- BOT
- HAM

The Ministry and NHAI, post multiple suggestions from various stakeholders have amended the HAM Model Concession Agreement across the below mentioned parameters in Oct 2020. These are largely aimed to protect developers' returns and ease their liquidity.

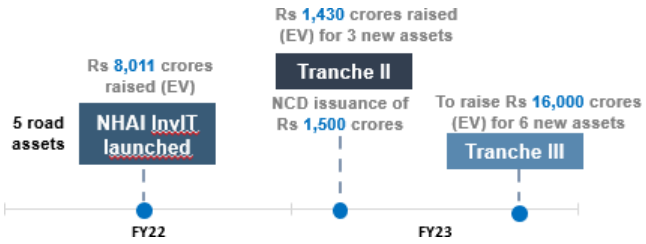


Recent changes in HAM MCA incorporate developers' concerns.

	Old Clause	Revised Clause	Impact
Annuity Payments	Interest on annuity payment linked to **RBI determined Bank Rate + 3%**	Interest on annuity payment linked to **average of one year MCLR of top 5 Scheduled Commercial Banks + 1.25%**	Differential between cost of borrowing and interest on annuity reduced thus preventing erosion of developers' returns due to RBI repo rate changes
Milestone Payments	**5** instalments, each equal to **8%** of the Bid Project Cost	**10** instalments, each equal to **4%** of the Bid Project Cost	Quicker payments helping developers' liquidity
Change in ownership	Original sponsor/ concessionaire shall hold at least 26% of equity during construction period and **2 years thereafter**	Original sponsor/ concessionaire shall hold at least 26% of equity during construction period and **6 months thereafter**	Quicker stake sell-off would ease up developers' balance sheets to bid for new projects
Financial Closure	No clarity on amount on FC	FC to be undertaken for an amount no lower than either: 1. Total Project Cost (60% of BPC); or 2. 10% less than (Estimated Project Cost minus 40% of Bid Project Cost)	Would likely prevent termination of projects due to inadequate financing

Dispute resolution board	In case of a dispute, either party may call upon the Independent Engineer to mediate.	Failing mediation by the IE, either party may require such dispute to be referred to the Dispute Resolution Board (DRB).	Quicker dispute resolution mechanism to prevent stuck projects.
Others	Interest mobilization advance linked to bank rate. Termination payments based on previous milestone payments.	Interest on mobilization advance linked to MCLR. Termination payments based on new milestone payments.	NA

Financing: Public Funding



Success of TOT critical to meet ambitious Bharatmala targets

The authority has also tied up debt via SPV level funding for the Delhi-Mumbai expressway where it has already raised Rs 9,731 crores.

InVITs & SPV level financing

Source: NHAI, CRISIL Research

Financing: Private Funding

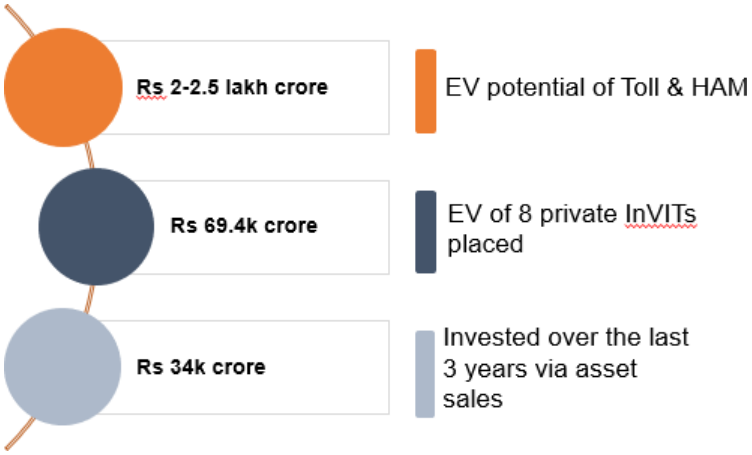
Investments by private sector to grow 3x times over the next 5 years

CRISIL MI&A expects private construction investments in national highways to increase 2x to Rs 2.7 trillion over fiscals 2024 to 2028 compared with the previous five years. This is expected to be mainly through the hybrid annuity model (HAM) mode, as the build-operate-transfer (BOT) toll mode may have only a few takers.

A policy push in the form of changes in Model Concession Agreements (MCA) for HAM and BOT projects and reduction in bid eligibility criteria across all national highway projects would bode well for private participation. However, the share of HAM in total awarding is constrained by the cautious approach employed by banks in lending to HAM projects.

Amidst the COVID-19 pandemic, NHAI and the ministry have taken various steps under the Atmanirbhar package to ease issues faced by developers. Releasing monthly payments, instead of milestone based payments; extension of timelines for completion of projects, etc have sustained private participation in the sector. While these have been extended till Oct 2020, they are likely to fade from next fiscal onwards.

Asset monetisation, equity infusion key to support private investment in the long run



Currently, there are two broad drivers of asset sales in the roads sector - rationalisation of financial position to improve balance sheet strength and asset churning to be able to participate in the upcoming projects. The erstwhile major BOT players are selling off assets to reduce their debt burden and free up equity, which can be infused in under-execution projects.

The players present in HAM are currently selling off HAM assets to participate further in upcoming HAM projects. Some players intend to sell off under-construction projects to financial investors with projects being executed by the same player. Thus, they are able to convert HAM projects to EPC without facing the cut-throat competition they deal with currently in the EPC mode.

This will help them retain margins.

About Rs 70,000 - 80,000 crore has already been invested through these modes. CRISIL's analysis of BOT and HAM projects indicates a potential of ~Rs 2-2.5 lakh crore in terms of Enterprise Value.

Asset monetisation has a lot of potential to free up developers' balance sheets

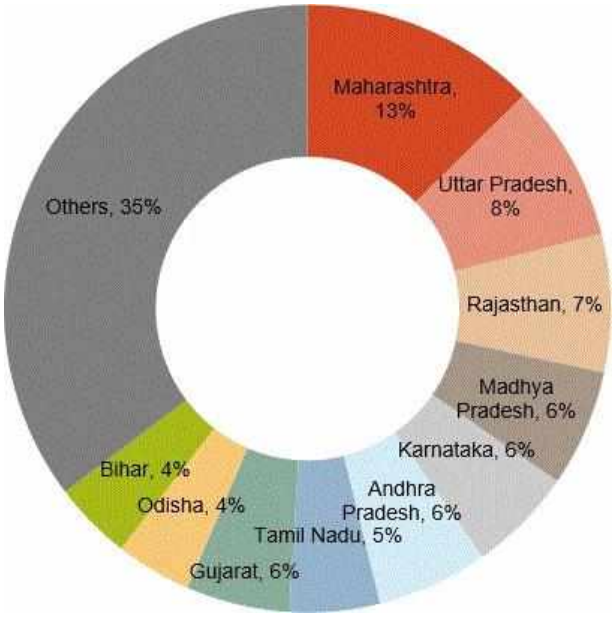
Overview: Road Network in India

Extensive Road Network

India has the second-largest road network in the world, spanning a total of ~6.7 million kilometres (kms). This road network transports 64.5% of all goods in the country and 90% of Indias total passenger traffic uses road network to commute. Road transportation has gradually increased over the years with improvement in connectivity between cities, towns and villages in the country.



- National Highway (NH) network increased by 60% from 91,287 km in 2014 to 1,46,114 km in year 2024.

Road Network in India can be divided into the following categories: Road Network in India as in fiscal 2024.

Road Network	Length (Km)	Percentage of Total		Connectivity to
		Length	Traffic	
National Highway	146,114	2%	40	Union capital, State capitals, major ports, Foreign highways
State Highway	179,535	3%	60	Major centres within the states, national highways
Other roads	6,019,723	95%		Main roads, rural roads, production centres, markets
Total	6,345,372	100	100

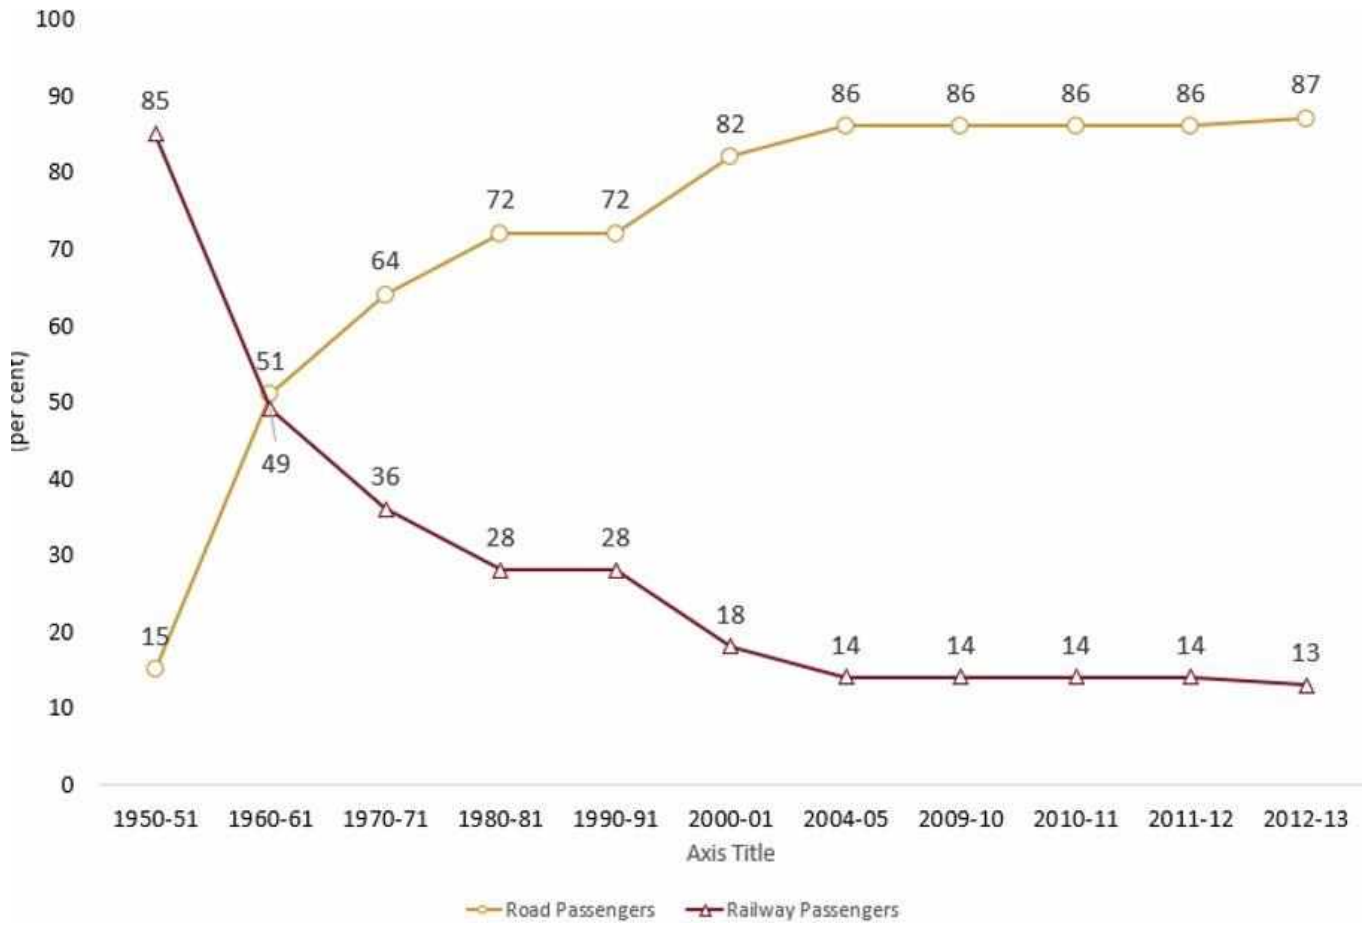
Roads account for 67% of total freight traffic

Road transport is the most frequently used mode of transport for both freight and passengers. For fiscal 2021, it is estimated that ~67% of total freight (in terms of BTKM) will be carried by roads when compared with railways. In 2009-10, roads accounted for approximately 58% of the total freight traffic.



Proportion of freight traffic across modes of transport - Fiscal 2022.

Overview: National Highways

National Highways Development Project

The NHDP encompasses building, upgradation, rehabilitation and broadening of existing NHs. The project is executed by the NHAI, in coordination with the public works departments of various states. The NHAI also collaborates with the Border Roads Organisation for the development of certain stretches. The NHDP is being implemented in seven phases.

NHDP projects are awarded to private players either on EPC (cash) or build-operate-transfer (BOT) basis, and now on the newly introduced hybrid annuity model (HAM). NHDP cash contracts are mainly financed through budgetary allocations from the Central Road Fund, negative grants/premium received, and toll revenue. Loans and grants are also received from the World Bank and the Asian Development Bank.

Projects under existing the NHDP phases of 5,000-5,500 km to be awarded completely by fiscal 2021. These residual projects would dominate 50% of investments over the next five years. According to CRISIL estimates, Bharatmala awarding was

~5,500-6,000 km over fiscals 2018 and 2019. Investments under Bharatmala would be slow to pick up and contribute ~30% of total investments. As projects awarded under Bharatmala are 60% EPC and 40% HAM, NHAIs ability to raise funds to execute these projects would be a key monitorable.

Bharatmala Pariyojana

Bharatmala Pariyojana is an umbrella project of the central government since 2015, that aims to improve efficiency in the roads sector. It is expected to supersede the National Highways Development Project (NHDP) and envisages the construction of 65,000 km of highways under the following categories: national corridor (north-south, east-west, and golden quadrilateral), economic corridor, inter-corridor roads, and feeder roads. As per the ministry, Bharatmala, along with the schemes currently undertaken, could require a total outlay of Rs 6.9 trillion.

The Government of India had approved Bharatmala Pariyojana Phase-I in October, 2017 with an aggregate length of about 34,800 km (including 10,000 km residual NHDP stretches) at an estimated outlay of Rs. 5,35,000 crore for development of about 9,000 km length of Economic corridors, about 6,000 km length of Inter-corridor and feeder roads, about 5,000 km length of National Corridors Efficiency improvements, about 2,000 km length of Border and International connectivity roads, about 2,000 km length of Coastal and port connectivity roads, and about 800 km length of Expressways. Total of 255 road projects with an aggregate length of about 10,699 km have been approved till October, 2019 under Bharatmala Pariyojana with total Cost of Rs. 2,64,916 crore approximately. Bharatmala Pariyojana Phase-I is targeted for completion by 2021-22.

Components of Bharatmala Pariyojana (Phase-1)

Sr. No.	Scheme	Length (km)	Cost (Rs. crore)
1	Economic Corridors	9,000	120,000
2	Inter-Corridors & feeder roads	6,000	80,000
3	National Corridor Efficiency improvement	5,000	1,00,000
4	Border & International connectivity roads	2,000	25,000
5	Coastal & port connectivity roads	2,000	20,000
6	Expressways	800	40,000
	Sub Total	24,800	3,85,000
7	Ongoing Projects, including NHDP*	10,000	1,50,000
	Total	34,800	5,35,000

State-wise projects constructed under Bharatmala

Bharatmala Pariyojana received approval from the Government of India in 2017, encompassing a total length of 34,800 km aimed at enhancing connectivity and lowering logistics costs across the nation. As of October 31, 2024, projects covering 26,425 km have been awarded, with 18,714 km already constructed. Detailed progress reports for Phase-I of Bharatmala, categorized by State and Union Territory, are attached. It is important to note that no specific fund allocation is being made to the National Highways Authority of India (NHAI) for the Bharatmala Pariyojana. Additionally, the total expenditure incurred by NHAI under this initiative amounts to Rs. 4.72 lakh crore as of November 30, 2024. To date, 18 projects totalling 424 km have been awarded, with 189 km constructed under the Port and Coastal Connectivity Roads Category. The various projects under the Bharatmala Scheme are designed to enhance connectivity to both major and minor ports in several coastal states, including Gujarat, Maharashtra, Karnataka, Kerala, Tamil Nadu, Andhra Pradesh, Odisha, and West Bengal.

State	Total Length (km)	Length Awarded (km)	Length Constructed till 31st Oct'24 (km)
Andhra Pradesh	2,525	1,936	994
Assam	433	431	378

OUR BUSINESS

Overview

We are a registered infrastructure investment trust under the InvIT Regulations. We currently have a right to toll, operate and maintain a portfolio of fifteen (15) Existing Toll Roads (*defined below*) in the Indian states of Gujarat, Rajasthan, Telangana, Karnataka, Maharashtra, Uttar Pradesh, Madhya Pradesh, West Bengal, and Assam and intend to toll, operate and maintain a portfolio of eleven (11) Target Toll Roads (*defined below*) in the Indian states of Andhra Pradesh, Uttar Pradesh, Gujarat, Uttarakhand, and Chhattisgarh under the Toll Operate Transfer ("**TOT**") model conceived by NHAI. These Toll Roads (*defined below*) are operated and maintained pursuant to concessions granted by the NHAI. The Existing Toll Roads comprise 15 stretches spanning a total length of approximately 1523.70 kms and the Target Toll Roads comprise eleven stretches spanning a total length of approximately 818.83 kms.

Our Sponsor is NHAI, an autonomous authority of the GoI under the MoRTH constituted on June 15, 1989 by NHAI Act. NHAI was operationalised in February 1995 with the appointment of a full-time Chairman and other members of the board. The functioning of NHAI is governed by the NHAI Act and the rules, and regulations framed thereunder. NHAI from time to time, may divest a portion of its unitholding in the InvIT.

The Project SPVs have entered into 26 independent Concession Agreements with the NHAI for concessions of each of the Toll Roads. We have satisfied all conditions precedent and commenced our concessions on December 16, 2021, October 29, 2022 and 1 April, 2024 in accordance with the terms of the Initial Concession Agreements for the Existing Toll Roads and expect to satisfy all conditions precedent and commence our concessions for the Target Toll Roads in accordance with the terms of the R4 Concession Agreements for the Target Toll Roads. For further details, please see the section entitled "*Summary of the Concession Agreements*", "*Management's Discussion and Analysis of Financial Position and Results of Operations*" and "*Use of Proceeds*" on pages 293, 380 and 356, respectively.

The Concession Agreements provide the Project SPVs the right to collect tolls for a period of 20 years or 30 years (as applicable under the relevant Concession Agreement) from users of each Toll Road, with certain overlay activities and the construction work which may include any other improvement work, such as construction, renovation, refurbishing, augmentation, upgradation, etc., of any road, structure, etc., in respect of certain of the Toll Roads (the "**Initial Improvement Works**") to be completed by the Project SPVs within 12 to 18 months from the Appointed Date (as defined in the section entitled "*Summary of the Concession Agreements*"). Responsibility for the supervision of the operations and maintenance of the Toll Roads also vests with us. In return, the Project SPVs is required to pay the concession fee to the NHAI prior to the commencement of the concession, as set out in the respective Concession Agreements. For further information on the provisions of the Concession Agreements, see "*Summary of the Concession Agreements".*

NWPPL and NEPPL has a right to toll, operate and maintain the following toll road assets (the "**Existing Toll Roads**")

- Palanpur/Khemana Abu Road Project ("**Asset 1**"): Abu Road section of NH 27 with a total length of 45.000 kms, connecting the states of Gujarat and Rajasthan;
- Abu Road – Swaroopganj Project ("**Asset 2**"): Swaroopganj section of NH 27 with a total length of 31.000 kms, in the state of Rajasthan;
- Maharashtra/ Karnataka Border (Kagal) – Belgaum Project ("**Asset 3**"): Belgaum – Kagal section of NH 48 with a total length of 77.700 kms, connecting the states of Karnataka and Maharashtra;
- Chittorgarh – Kota & Chittorgarh Bypass Project ("**Asset 4**"): Chittorgarh – Kota section of NH 27 with a total length of 160.500 kms, in the state of Rajasthan;
- Kothakota Bypass – Kurnool Project ("**Asset 5**"): Kothakota bypass – Kurnool section of NH 44 with a total length of 74.600 kms, connecting the states of Telangana to Andhra Pradesh;
- Agra Bypass Project ("**Asset 6**"): Agra Bypass section with a total length of 32.800 kms, connecting NH19 (old NH2) to NH44 (old NH7) in Uttar Pradesh;
- Borkhedi - Kelapur Project ("**Asset 7**"): Borkhedi-Kelapur-Maharashtra/Telangana border section of NH44 (old NH7) with a total length of 138.150 kms, in the state of Maharashtra;

- Shivpuri – Jhansi Project ("**Asset 8**"): Jhansi-Shivpuri section of NH 27 with a total length of 75.300 kms, connecting the districts of Jhansi in the state of Uttar Pradesh and Shivpuri in the state of Madhya Pradesh.
- Chichra - Kharagpur Project ("**Asset 9**"): Chichra - Kharagpur section of NH 49 with a total length of 56.120 kms, in the state of West Bengal;
- Rewa –Lakhnadon Project ("**Asset 10**"): Rewa – Katni – Jabalpur – Lakhnadon section of NH 30 and NH 34 with a total length of 306.340 kms, in the state of Madhya Pradesh;
- Kachugaon - Kaljhar Project ("**Asset 11**"): Kachugaon - Rakhaldubi Bus Junction – Kaljhar section of NH 27 with a total length of 114.170 kms, in the state of Assam;
- Kaljhar – Patacharkuchi Project ("**Asset 12**"): Kaljhar – Patacharkuchi section of NH 27 with a total length of 27.300 kms, in the state of Assam;
- Lakhnadon – Mahagaon (Mohgaon) – Khawasa ("**Asset 13**"): Lakhnadon – Mahagaon (Mohgaon) – Khawasa section of NH 44 with a total length of 107.350 kms, in the state of Madhya Pradesh;
- Orai – Barah Project ("**Asset 14**"): Orai – Barah section of NH 27 with a total length of 62.900 kms, in the state of Uttar Pradesh; and
- Chitradurga Bypass – Hubli Project/ Karnataka Project ("**Asset 15**"): Chitradurga Bypass - Chitradurga - Davanagere - Haveri – Hubli section of NH 48 with a total length of 214.470 kms, in the state of Karnataka.

From the Appointed Date, NSPPL will have the right to toll, operate and maintain the following toll road assets (the "**Target Toll Roads**"):

- Narasannapeta to Ranasthalam Project ("**Asset 16"**): Narasannapeta to Ranasthalam section of NH-16 with a total length of 53.799 kms in the state of Andhra Pradesh;
- Ranasthalam to Hanumanthavaka Project ("**Asset 17**"): from Ranasthalam to Anandapuram section of NH 16 with a total length of 66.544 kms in the State of Andhra Pradesh;
- Anandapuram – Pendurthi – Anakapalle Project ("**Asset 18**"): from Anandapuram-Pendurthi-Anakapalle of NH-16 with a total length of 48.605 kms in the state of Andhra Pradesh;
- Gundugolanu-Devarapalli-Kovvuru Project ("**Asset 19**"): Gundugolanu-Devarapalli-Kovvuru section of NH-16 with a total length of 69.884 kms in the state of Andhra Pradesh;
- Chittoor to Mallavaram Project ("**Asset 20**"): Chittoor to Mallavaram section of NH-140 with a total length of 61.128 kms in the state of Andhra Pradesh;
- TN/AP – Border to Nalagampalli to AP/Karnataka Border Project ("**Asset 21**"): TN/AP – Border to Nalagampalli to AP/Karnataka Border Section of NH 4 with a total length of 84.797 kms in the State of Andhra Pradesh;
- Bareilly – Sitapur Project ("**Asset 22**"): Bareilly - Sitapur Section of NH-30 (Old NH-24) with a total length of 157.590 kms in the State of Uttar Pradesh;
- Muzaffarnagar – Haridwar Project ("**Asset 23**"): Muzaffarnagar to Haridwar section of Old NH 58 (New NH-334) with a total length of 78.560 kms in the State of Uttar Pradesh & Uttarakhand;
- Raipur to Simga Project ("**Asset 24**"): Raipur to Simga Section of NH-30 (Old NH 200) with a total length of 48.580 in the State of Chhattisgarh;
- Simga to Bilaspur Project ("**Asset 25**"): Simga to Bilaspur Section of NH-130 (Old NH-200) & NH-49 with a total length of 77.945 kms in the State of Chhattisgarh; and
- Gandhidham (Kandla) to Mundra Port Project ("**Asset 26**"): Gandhidham (Kandla) to Mundra Port section of NH-41 with a total length of 71.400 kms in the State of Gujarat.

The following map depicts locations of the Toll Roads:

Note: This map is for illustrative purposes only, is not to scale and is subject to change at any time.

Strengths of the Trust

Experienced Sponsor with consistent track record in operating and maintaining projects in the roads and highways sector in India

Our Sponsor, NHAI is India's national agency responsible for the development, maintenance and management of India's national highways network. Our Sponsor has a consistent track record of growth and operational performance. Our Sponsor has been entrusted with National Highways Development Project ("**NHDP**"), which along with other minor projects, has vested in national highways for development, maintenance and management. As part of the NHDP, our Sponsor infuses funds into immediate areas of development and enables private sector participation bringing about a healthy participatory economy.

Our Sponsor is also involved in the *Bharatmala Pariyojana* project ("Bharatmala"). Between fiscals 2018 & 2023 the overall road sector capex, comprising of National Highways, State Highways & rural roads is estimated to have grown at a CAGR of 14%. This growth, driven by Bharatmala and increased state spends on roads has been achieved despite brief hiccups such as the Covid pandemic and hampered construction due to elongated monsoons. The outlook for the sector remains firm, supported by higher awarding of new projects from previous fiscals, steady-state capex, the NIP pipeline of DPR-ready projects, and Bharatmala. *(Source: NHAI, MoRTH, State budget documents). (More information available in the Industry Overview section)*

NHAI has already offered more than 1500 kms of roads to NHIT in last 4 years. Our Sponsor's awarding had witnessed a rise from merely 2,222 km in fiscal 2019 to 6,003 kms in fiscal 2023. However, in fiscal 2024, awarding momentum was marred by various roadblocks. NHAI's flagship Bharatmala Pariyojana Programme (BMP) Phase-1 witnessed significant cost overrun on account of costlier land acquisition and high inflation. Currently, the estimated cost of the BMP phase-1 is almost twice and the initial estimate and the ministry is awaiting cabinet approval for a revamped programme and additional funds in order to undertake rapid awarding of projects in the pipeline. As a result, NHAI awarding was ~3,339 kms in fiscal 2024.

Even though overall national highways construction at the MoRTH level had remained flattish in fiscals 2022 and 2023, our Sponsor's execution witnessed strong momentum. NHAI execution sequentially rose from 4,175 km in fiscal 2021 to 4,882 km in fiscal 2023. Acceleration in project awards, sharper focus on resolving land acquisition issues, and the Atmanirbhar Bharat initiatives to ease liquidity (monthly milestone payments, release of retention money, reduction in performance security & extension of 3-6 months in milestones & SCODs) for EPC road players augured well for the pace of execution of NHAI projects.

Having NHAI as our Sponsor, we believe we are well positioned to drive new initiatives in the road sector in India. For more details about our Sponsor and the projects, please see *"Industry Overview"* on page 124 of this Placement Document.

Sizeable portfolio of diversified long-term revenue generating Toll Road assets

We own 100% of the Project SPVs. The Project SPVs toll, operates and maintains the Existing Toll Roads and will toll, operate and maintain the Target Toll Roads. The Concession Agreements provide the Project SPVs the right to collect toll for the respective concession periods. The R1 Toll Roads have concession periods of 30 years. The R2, R3 Toll Roads and the Target Toll Roads have concession periods of 20 years. We believe the Toll Roads currently have a healthy mix of passenger and commercial traffic. For details of the project traffic for each of the Toll Roads, please see Annexure C. We also believe that the Toll Roads possess a good mix of captive short distance traffic and long-distance traffic. In addition, the range of commodities transported by commercial traffic across the Toll Roads varies from agricultural products and other perishable goods to steel, cement, coal, containers and multiple industrial products, representing a broad cross-section of the Indian economy. Each Toll Road has a distinct set of users based on its local economy, which results in significant independence of traffic across the Toll Roads. As a result, we expect the geographical diversification of the Toll Roads to reduce our reliance on the local economy of any single state or district. The diversified composition of traffic along the Toll Roads is expected to provide us with stable cash flows.

We believe that the Toll Roads have revenue growth potential due to expected growth in traffic volumes as a result of regional and national growth and expected increases in toll fees as a result of inflation adjustments.

Presence in strategic regions/ Strategic geographic location of portfolio assets

The Toll Roads comprise 26 toll roads stretches of toll roads located in the Indian states of Gujarat, Rajasthan, Telangana, Karnataka, Uttar Pradesh, Maharashtra, Uttarakhand, Andhra Pradesh, Chhattisgarh, West Bengal, Assam and Madhya Pradesh. Nine (9) Toll Roads are located in southern India, four (4) are located in central – western India, two (2) in western India, four (4) in central India, three (3) in eastern India and four (4) in northern India. According to the Traffic Consultants, these corridors are among the primary corridors for long distance commercial traffic movement and have witnessed high traffic growth rates in the past few years.

- ***Asset 1 – Palanpur/Khemana Abu Road Project***: This project stretch starts at Palanpur in the State of Gujarat and ends at Abu Road in the state of Rajasthan.

- ***Asset 2 – Abu Road – Swaroopganj Project***: This project stretch starts at the end of Asset 1 and mainly falls in the state of Rajasthan, India. As per the Traffic Consultant, this project is one of the main highway corridors connecting Gujarat with an important tourist destination of Mount Abu. Palanpur, Ahmedabad, Mount Abu and Udaipur are some of the important cities in the vicinity of this stretch.

- ***Asset 3 – Maharashtra/ Karnataka Border (Kagal) – Belgaum Project***: This project stretch starts at Belgaum in the State of Karnataka and ends at the Maharashtra/ Karnataka Border and is a part of the corridor between Mumbai-Pune and Bengaluru.

- ***Asset 4 – Chittorgarh – Kota & Chittorgarh Bypass Project***: This project stretch starts from Chittorgarh and ends at Kota Bypass about 10 km short of Chambal River Hanging Bridge. This project is divided into three sections based on toll plaza junctions. The project road is short in length and reduces travel time between Kota and Chittorgarh, providing congestion free services.

- ***Asset 5 – Kothakota Bypass – Kurnool Project***: This project stretch connects the state of Telangana with Andhra Pradesh. The project road offers the shortest itinerary, in length and travel time between Kothakota and Kurnool, and is a part of the corridor between Hyderabad and Bengaluru.

- ***Asset 6 – Agra Bypass Project*****:** This project stretch is a 32.80 km four-lane road, forming part of the section connecting NH19 (old NH2) to NH44 (old NH7) in Uttar Pradesh, branches out to NH52 (old NH3) and NH44 (old NH7) at Gwalior.

- ***Asset 7 - Borkhedi – Kelapur Project*****:** This project is located on NH44 and is about 138.15 kms long section between Borkhedi and Maharashtra/ Telangana Border (at Penganga River bridge) traversing through the districts of Nagpur, Wardha and Yavatmal in the state of Maharashtra. This stretch is a part of the corridor between Nagpur and Hyderabad.

- ***Asset 8 - Shivpuri - Jhansi Project***: This project is a 4-lane, 75.3 kms long stretch, on national highways NH - 27 which connects the districts of Jhansi and Shivpuri in the state of Uttar Pradesh and Madhya Pradesh, respectively.

- ***Asset 9 – Chichra – Kharagpur Project***: This project is a 4-lane, 56.12 kms long stretch, on NH 49 which connects Chichra and Kharagpur in West Bengal.

- ***Asset 10 - Rewa –Lakhnadon Project***: This project is a 4-lane, 306.34 km long stretch, on NH 30 and NH 34 which connects Rewa, Katni, Jabalpur and Lakhnadon districts of Madhya Pradesh.

- ***Asset 11 – Kachugaon - Kaljhar Project***: This project is a 4-lane, 114.17 kms long stretch on NH 27, in the state of Assam.

- ***Asset 12 - Kaljhar – Patacharkuchi Project***: This project is a 4-lane, 27.30 kms long stretch on NH 27, in the state of Assam.

- ***Asset 13 - Lakhnadon – Mahagaon (Mohgaon) – Khawasa Project***: This project is a 4-laned, 107.35 kms divided section between Lakhnadon and Khawasa traversing through the districts of Mandai, Chhapara and Seoni in the state of Madhya Pradesh.

- ***Asset 14 - Orai – Barah Project***: The project road section Orai-Barah, with approximate length of 62.90 km, starts near Orai in Jalaun district and ends near Barah in Kanpur Dehat district.

- ***Asset 15 - Chitradurga Bypass – Hubli Project/ Karnataka Project*** : This project is a 214.47 km long stretch on NH 48 in the state of Karnataka.

- ***Asset 16 - Narasannapeta to Ranasthalam:*** This project is 53.799 Km on NH-16 six lane with paved shoulder from Narasannapeta to Ranasthalam in the state of Andhra Pradesh;

- ***Asset 17 - Ranasthalam to Hanumanthavaka Project:*** This project is a six lane with paved shoulder from Ranasthalam to Anandapuram section of NH 16 and four lane with paved shoulders from Anandapuram to Hanumanthavaka (Visakhapatnam) with total length of 66.544 km on NH 16 in the State of Andhra Pradesh;

- ***Asset 18*** – ***Anandapuram – Pendurthi – Anakapalle Project:*** This project is six lane with paved shoulder from Anandapuram-Pendurthi-Anakapalle with a total length of 48.605Km on NH-16 in the state of Andhra Pradesh;

- ***Asset 19 – Gundugolanu-Devarapalli-Kovvuru Project***: This project is a 69.884 km long stretch on NH-16 in the state of Andhra *Pradesh;*

- ***Asset 20 – Chittoor to Mallavaram Project:*** This project is 61.128 km long stretch on NH-140 in the state of Andhra Pradesh;

- ***Asset 21 – TN/AP – Border to Nalagampalli to AP/Karnataka Border Project***: This project is 84.797 km long stretch on NH 4 in the State of Andhra Pradesh;

- ***Asset 22 - Bareilly – Sitapur Project*:** This project is a 157.590 km long stretch in the State of Uttar Pradesh (From Km 262.000 to Km 419.590 of NH-24);

- ***Asset 23*** – ***Muzaffarnagar - Haridwar Project****:* This project is a section from of Old NH 58 (New NH-334) with a total length of 78.56 km in the State of Uttar Pradesh & Uttarakhand;

- ***Asset 24 - Raipur to Simga Project****:* This project is a 48.580 km stretch on NH-30 (Old NH 200) in the State of Chhattisgarh;

- ***Asset 25 - Simga to Bilaspur Project****:* This is a 77.945 km long stretch on NH-130 (Old NH-200) & NH-49 in the State of Chhattisgarhh.

- ***Asset 26- Gandhidham (Kandla) to Mundra Port Project:*** This project is a 71.400 km section of NH-41 in the State of Gujarat;

We believe that future development of highways along the Toll Roads as highlighted by the Traffic Consultant in their Traffic Reports and the increased government initiatives such as *Bharatmala Pariyojana* to improve efficiency across roads in India, will provide an impetus to the growth in traffic on the Toll Roads. Furthermore, each of the Toll Roads lie upon significant inter-city connection routes within the populous states of Maharashtra, Madhya Pradesh, Uttar Pradesh, Karnataka, Rajasthan, Telangana and Andhra Pradesh, with captive passenger and commercial traffic.

Experienced management team with industry experience

We are managed by qualified personnel of the Investment Manager who have management and operational experience in the roads and highways sector. In addition, qualified personnel of the Project Manager manage our projects. For further details, see the section entitled "*Parties to the Trust*" on page 75 of this Placement Document. We believe that the experience and leadership of these teams will contribute to our growth and success and will position the Toll Road assets to be operated and managed in an efficient manner.

Growth opportunities and access to Sponsor's portfolio

The process of identification of Future Assets, offer of Future Assets to Trust and completion of transfer of Future Assets to the Trust including valuation mechanism may be refined and/or modified in line with the internal policies of NHAI. NHAI has already offered >1,500 km of roads to NHIT in last 3 years. Beyond this there is no commitment available from NHAI, however it has been a practice that NHAI at start of each financial year, identifies and publishes list of stretches to be monetized through InvIT and TOT route in the respective financial year.

We believe that this access to future toll road assets of the Sponsor or its existing or future subsidiaries will be an important source of growth in the future.

Favourable Concession Agreements terms with Low Counterparty Risk and Inflation Passthrough

We believe that we have balanced Concession Agreements terms with low counterparty risk due to the creditworthiness of our Sponsor. We believe this, along with the following factors, provide for promising prospects for our business:

- *Long Concession Life with the possibility for an extension.* Our Concession Agreements are for a period of 20 years and/or 30 years (as applicable) from the relevant Appointed Date. We believe this is a sufficiently long period that provides us with ample opportunity to refinance the assets on a fully amortized basis. For details, see "*Summary of the Concession Agreements*".

- *Termination Payments.* Furthermore, our Concession Agreements provide for termination payments under various default scenarios such as NHAI events of default or *force majeure* events. Under the Concession Agreements, NHAI is obligated to make termination payments in the case of a concessionaire event of default. NHAI's strong track record of meeting its obligations when they become due gives us confidence that any termination payments will be made in a timely manner. Such termination payments may be used to compensate our creditors. For details, see "*Summary of the Concession Agreements*".

- *Minimal Price Risk.* The toll rates for all Toll Roads are determined with reference to published base toll rates and are adjusted annually at the beginning of each fiscal year equal to 40% of the movement in the wholesale price index measured in December of the preceding year plus a fixed 3% as per NHAI Fee Rules. Given India's long track record of relatively higher inflation rates as well as the 3% fixed portion of the increase, we anticipate a continuing increase in toll rates over the life of the concession. We expect that this formula will minimize any risk of increasing operating costs over time.

- *Prohibition Against Additional Tollways.* Subject to certain exemptions, NHAI is prohibited from constructing, or permitting the construction of, any competing expressway or other toll road ("**Additional Tollway**") between specified stretches of each Toll Road at any time during the relevant Concession Period. We will be compensated in line with the terms of the Concession Agreement if our toll collection activities are impacted by the Additional Tollway. NHAI is also obligated to use its best efforts to ensure that the tolls to be levied on vehicles using the Additional Tollway are at least 25% higher than the toll rates of the impacted Toll Road.

- *Prohibition Against Competing Roads.* Subject to certain exemptions, NHAI is prohibited from constructing a Competing Road (as such term is defined in the Concession Agreements) of each of the Toll Roads during the respective Concession Periods.

- *Compensation for reduced toll rates.* In terms of the Concession Agreements for the Target Toll Roads, if the Project SPVs suffer a loss in revenue owing to reduction in the Equitable Tollable Length (*as defined in the relevant Concession Agreement*) pursuant to Capacity Augmentation (*as defined in the relevant Concession Agreement*), NHAI shall compensate the Project SPVs for such loss incurred by the Project SPVs, on a quarterly basis.

- *Installation of Additional Check Plazas.* Under the Concession Agreements, subject to certain restrictions we are permitted to install temporary or permanent fee collection booths to prevent fee evasion by users of the Toll Roads. We believe the installation of these check plazas will significantly decrease leakage in the Toll Roads, increasing cash collections and performance.

Investment Objectives

For details in relation to the investment objectives of the Trust, please see the section entitled "*Overview of the Trust- Investment Objectives*" on page 28.

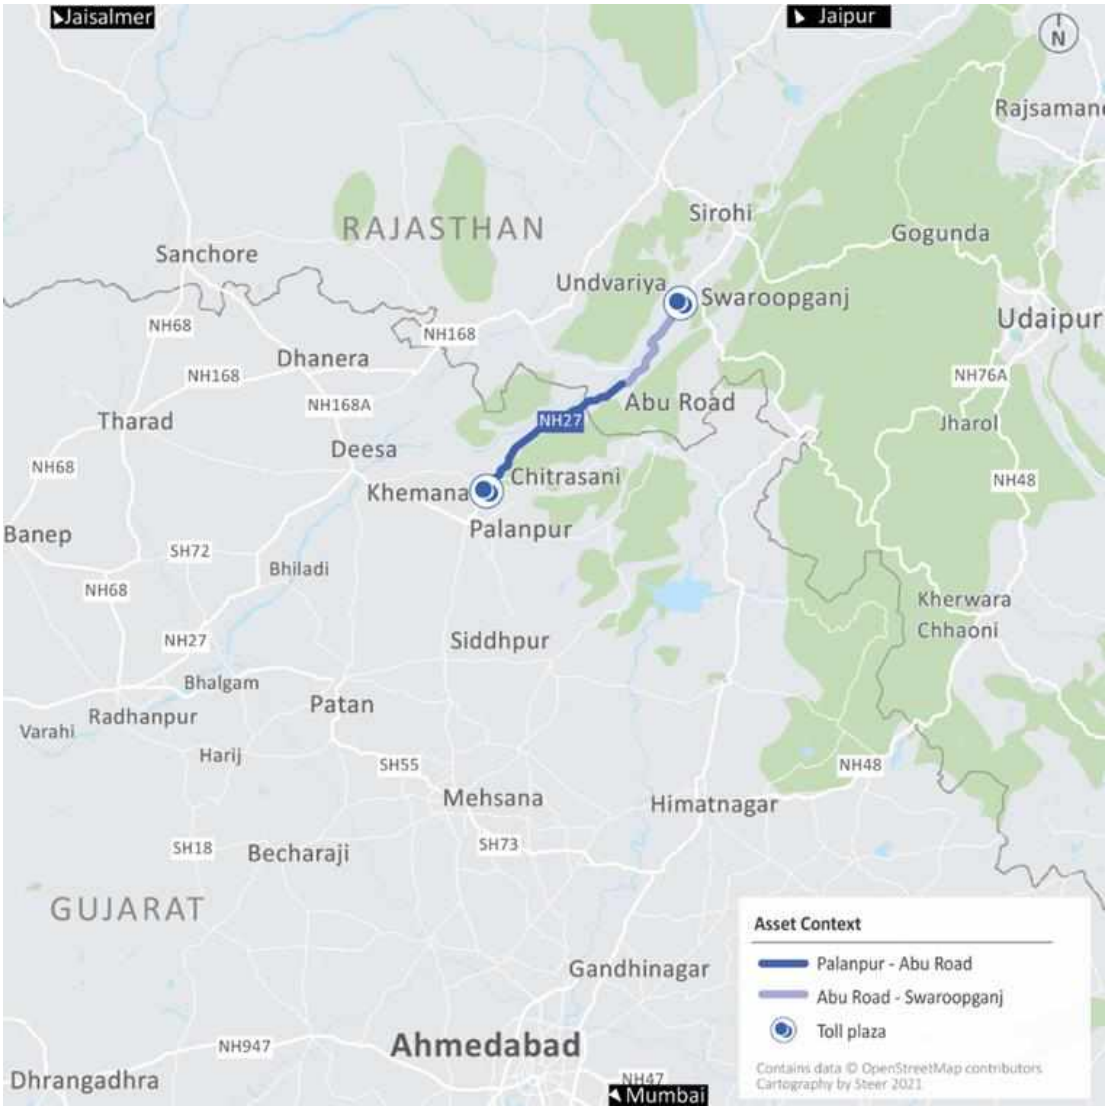
DESCRIPTION OF OUR TOLL ROADS

Palanpur/Khemana – Abu Road Project ("Asset 1") and Abu Road –Swaroopganj Project ("Asset 2")



Project overview

According to the Traffic Consultant the assets are located on NH 27 in the states of Rajasthan and Gujarat and has one toll plaza each in the respective states namely Undavariya and Khemana. Both the toll plazas lie on the continuous section of NH 27 as shown in the map below and are located at:

Undavariya (KM 670.750): Four-laned Asset starts near Swaroopganj on the NH 27 and ends near Abu Road.

Khemana (KM 602.750): Four-laned Asset starts south of Abu Road and ends just south of Chitrasani village.

Figure: Asset context

Source: Steer cartography using OpenStreetMap data

Salient growth features and traffic generators

Undavariya (Rajasthan), Khemana (Gujarat) Toll Plazas lie on NH 27 which is the second longest highway in India. This section is one of the key connectors between Gujarat, Rajasthan and Eastern India and catering to East-West movement.

The Assets cater to the demands generated by the states connected through the National Highway. NH 27 runs over 3,507 kms completing the East-West movement and connects some of the major states and industrial centres of Western states of Gujarat, Rajasthan with Eastern states of West Bengal, Assam, UP etc. The traffic profile is largely goods vehicles undertaking long distance movements and CJV traffic between Rajasthan & Gujarat.

The key industries in this region include dairy, textile, diamond polishing, and marble processing. Palanpur is a major hub for dairy production, having one of the largest dairies in the State – Banas Dairy. Mehsana is a town located south of Palanpur and is also known for its dairy production and related processing services.

Udaipur in the east and Jodhpur in the north of the asset, are popular tourist destinations in the state of Rajasthan. Tourism constitutes most of the state's tertiary sector and Rajasthan is one of the key tourist destinations in India which has attracted over 17.9 crore domestic tourists in 2023[1].

CJV movements on these Assets are predominantly local and of a short distance between Palanpur, Swaroopganj, Deesa and other small towns. MAV traffic on the other hand is long-distance in nature, connecting Rajasthan, Punjab, Delhi, and Haryana in the north to industrial cities in Gujarat. The toll plazas also cater port-bound traffic including Gandhidham industrial cluster while connecting the regional centres, i.e., Bhilwara, Jodhpur, etc., with the port towns Kandla and Mudra in the Kutch region. There is also an amount of traffic carrying powder and other inputs to ceramic-based industry located in the Morbi area in Gujarat.

Traffic volume and composite of vehicles

Historical traffic data

Based on detailed review of historic trends of trip segmentation, Consultant has recommended that, the toll plaza data is available from 1st Apr 2021 till 29th Feb 2024 for Undavariya TP and Khemana TP.

The Assets trend at 37,000 PCU levels in FY24YTD. In FY24YTD, the Asset observed ~14,858 and ~14,548 vehicles at Undavariya and Khemana respectively, dominated by CJV/ MAVs. The Asset has shown growth at Undavariya but degrowth at Khemana compared to FY23 mostly due to local construction activities like RTO Circle near Palanpur which has caused congestion and resultant diversion to a state highway local road. On an average, the daily revenue collection at Undavariya and Khemana are ~INR 18.7 lakhs and ~INR 26.5 lakhs respectively in FY24YTD. **Table: Historical MADT and PCU - AS: Undavariya**

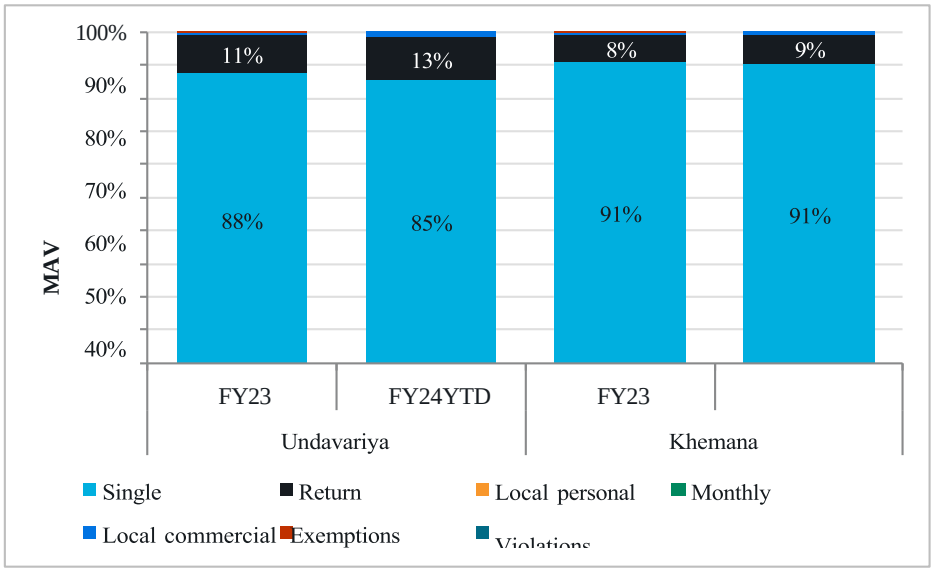
Toll segmentation



Based on detailed review of historic trends of trip segmentation, Consultant has recommended that the 85%-90% of the commercial vehicles (3A/ MAV) plying on the Asset are observed to buy single tickets as the Asset caters to long-distance movements. Return trips are primarily attributed to the short distance trips in the vicinity of the Asset.

Figure: Segmentation CJV

Source: Steer analysis of client data; FY24YTD includes data till Feb'24

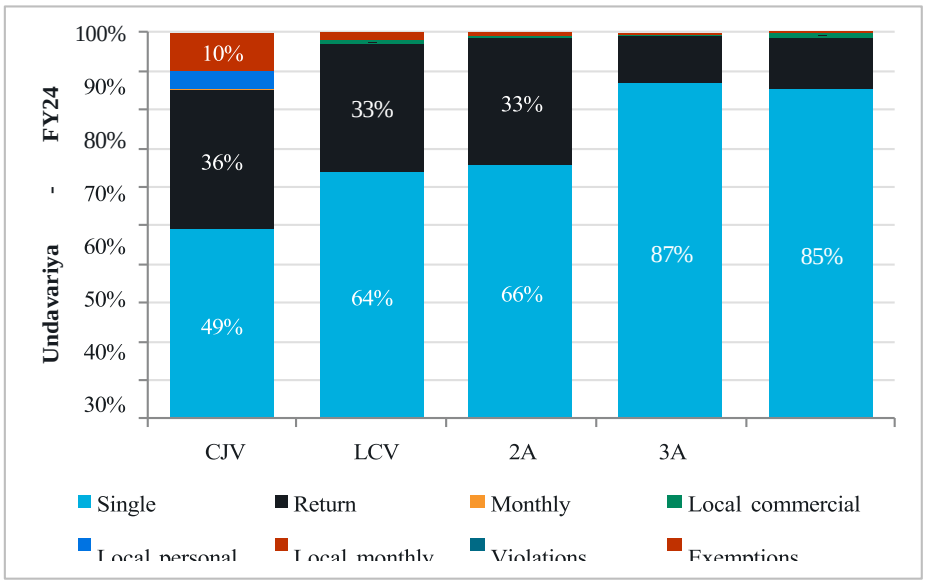


Figure: Segmentation MAV

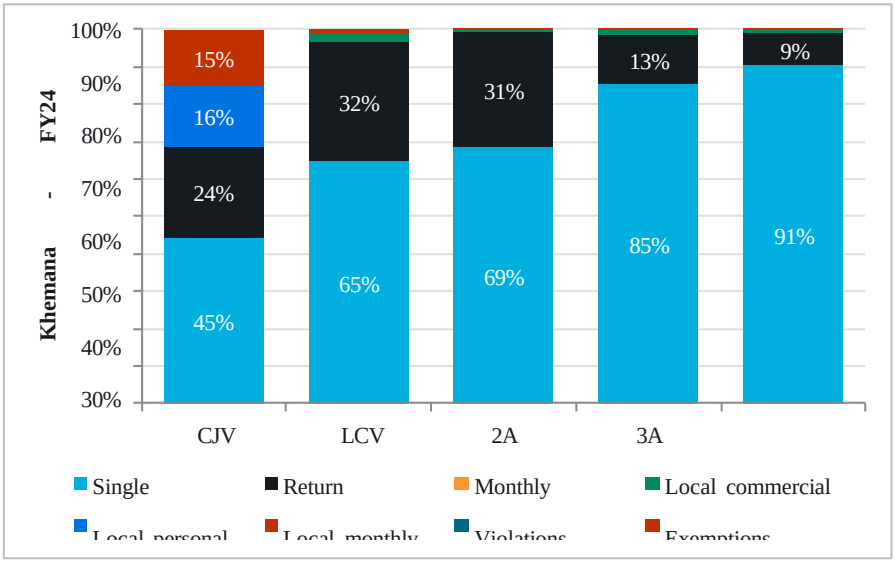
Source: Steer analysis of client data; FY24YTD includes data till Feb'24



The final forecast segmentation is shown in the charts below. We believe the that average of the segmentation in actual traffic data for FY24 is representative of the travel patterns on the Assets.

Source: Steer analysis

Figure: Toll segmentation (%) at PA: Khemana

Source: Steer analysis

Traffic forecast

According to the traffic consultant the increase of traffic on any existing road alignment depends on how fast the background travel demand (background growth) will grow; and on how successfully the project road is in attracting that traffic (traffic capture). Background travel demand is driven by the prevalent socio-economic conditions in the region, which include:

- Changes in factors such as population, employment, and income distribution
- Economic growth (GSDP, and GDP).
- Growth of local industries near the Asset.

The model uses India GDP and GSDP of Rajasthan & Gujarat as the two macro-economic inputs which operate as growth drivers on our base year forecasts.

The network developments near the Assets' alignment which Steer believes would affect traffic on the Asset during the concession period are Amritsar Jamnagar Expressway, completion of Wester Dedicated Freight Corridor (WDFC), Two laning of Udaipur-Sirohi-Tharad road sections; Six Laning & LoS Improvement and Construction dampener & recovery post construction.

Steer has developed traffic and revenue forecasts for the Assets by taking into consideration all inputs discussed above – base year estimates, macro-economic assumptions, growth drivers, elasticities, and forecast ticket segmentation. The table below provides the final (background plus impacts) traffic growth on the Assets.

Table: Final (background plus impacts) AADT forecast – AS: Undavariya

Tollable Length and Toll Rates

Based on detailed review of historic trends of trip segmentation, Consultant has recommended that in terms of tollable length, Undavariya currently (FY24) comprises 32.59 km whereas at Khemana the tolling length is 50.92 km. In India, toll rates are as per notification by the Ministry of Road Transport and Highways in the National Gazette. The present toll rates are determined with reference to the published base toll rates and are adjusted annually at the beginning of each fiscal year equal to 40% of the movement in the wholesale price index in December of the preceding year plus a fixed 3%.

According to the NHAI's toll notification for FY24, i.e., April 1, 2023, onwards, the toll rates at the Undavariya and Khemana toll plazas for Assets are as follows:

Table: FY24 toll rates – AS: Undavariya

Vehicle Type	Single	Return	Monthly
CJV	45	70	1555
LCV	75	115	2510
Bus/Truck	160	235	5260
3A	170	260	5735

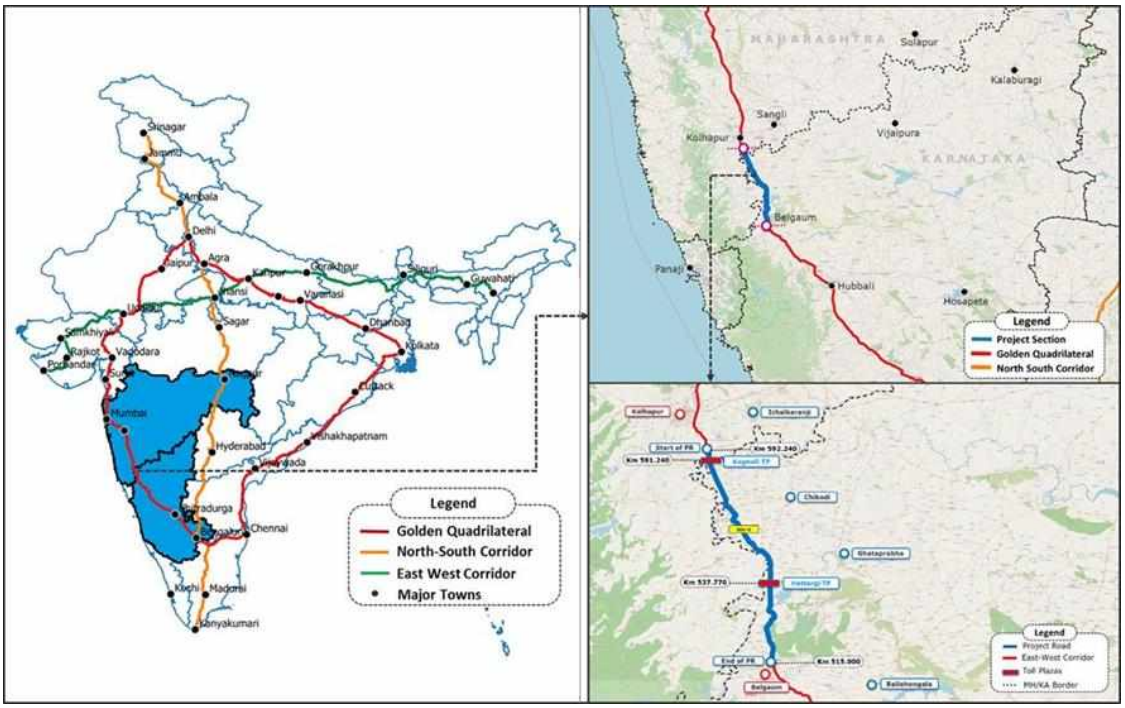
Maharashtra Border – Belgaum Project ("Asset 3")



Project overview

According to the Traffic Consultant the project highway, NH-4, is part of the Golden Quadrilateral connecting many of the major industrial, agricultural, and cultural centres of India. The total length of NH-4 is roughly 1,235 km starting from Chennai in the state of Tamil Nadu and ending at Mumbai in the state of Maharashtra. NH-4 acts as a primary conduit for transportation of freight as well as passenger traffic in these states as well as various other important states in India. NH–4 connects important cities and towns like Pune, Satara, Karad, Sangli, Kolhapur, Belgaum, Dharwad, Hubli, Bangalore etc.

The project road section, Kagal-Belgaum, a part of the NH-4 in the state of Maharashtra/Karnataka, starts at km 592.240 of NH-4 near Kagal and ends at km

515.000 of NH-4 near Belgaum with a length of about 77.24 km. There are two operational toll plazas on the project road, one near Kognoli (km 591.240) and other near Hattargi (km 537.770). Both Kognoli and Hattargi toll plaza have 12 tolling lanes (6 in each direction).

Below figure shows the context and alignment of project road with major places along the highway.

Source: Traffic Report

Salient growth features and traffic generators

According to the Traffic Consultant, the project road, in wider context, serves the long-distance traffic for the freight vehicles, which is majorly plying between Mumbai/ Pune/ Delhi and Goa/ Bangalore/ Chennai/ Vellore. Apart from long distance traffic, it also serves the short distance traffic for both passenger and freight which is mainly generated between Kolhapur/Sangli/ Goa/Belgaum/ Khanapur/Hubbali/Dharwad and nearby places.

The project road section is located in the districts of Kolhapur and Belagavi (Belgaum).

Kolhapur district is situated in the southern side of the Maharashtra state with an area of 7,692 sq.km. It is one of the industrialised districts in Maharashtra. Due to the presence of abundant water and fertile soil, the district is prominent in cultivation of sugarcane, paddy, banana, soyabean and several vegetables. It is the major producer of jaggery and sugar. The district also houses many dairy and poultry farms. It is one of the prime centres of the textile industry, cotton mills and arts and handicrafts industry. The district also has the highest number of sugar refineries in the country and is also known as the sugar bowl of India. The district has emerged to be one of the highest per capita income districts in India.

Belagavi district is situated in northwest of Karnataka State with an area of 13,433 sq. km, sharing borders with Goa and Maharashtra states. The district with different agro climatic conditions and soil types has vast agricultural potential. Major crops grown in the district are paddy, maize, jowar, oil seeds, cotton, onion, tomato and sugarcane. Belgaum has 16 industrial estates, 6 industrial areas and 1 SEZ. District is important centre for manufacturing of valves, pumps, and its accessories, heavy machine tools and high-pressure oil hydraulics. It has 58 export-oriented units and 22 sugar industries in different parts of district. Rich deposits of natural resources like bauxite, uranium, silica sand, aluminium, laterite, limestone, dolomite, quartzite, and china clay are also found in the district.

Traffic volume and Vehicle Composition – AADT for FY24

The toll data for both the toll plazas was made available by the client from Jan 2021- February 2024. The month-on-month mode wise traffic for this period April 2023 to February 2024 for both the toll plazas is presented in

Figure 2**:**

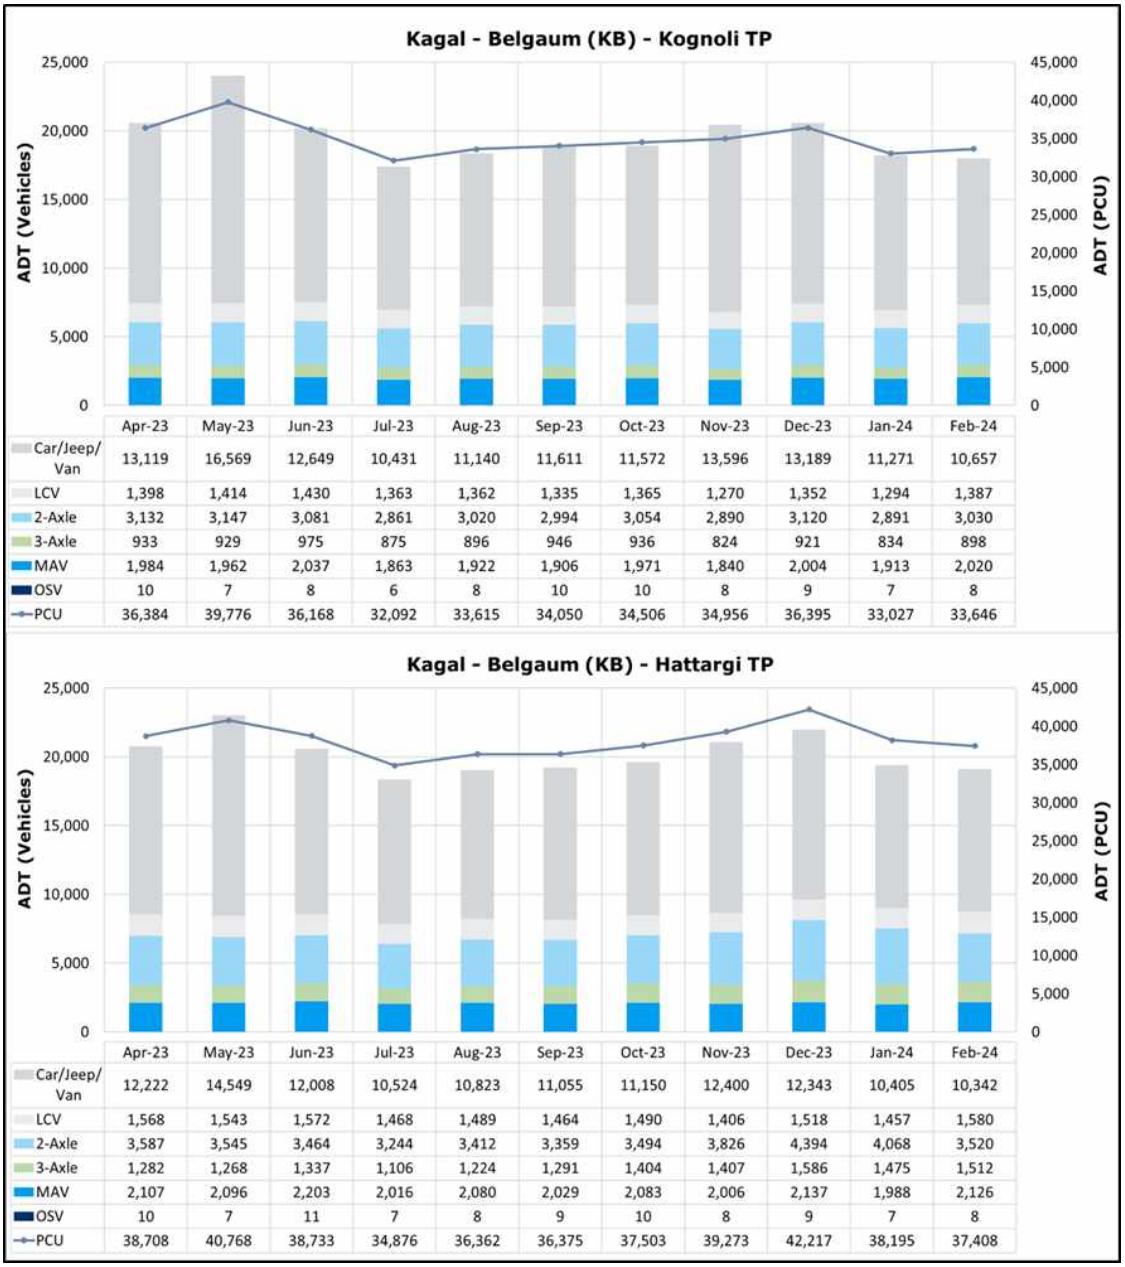


Figure 2: Source: Traffic Report

According to the Traffic Consultant the estimation for FY24 AADT is done after annualising the behaviour of April 2023-February 2024 traffic. For this purpose, a ratio/factor of average of eleven months (April to February) to twelve-month average derived from FY23 was adopted. FY24 AADT derived from the toll traffic data along with 11 months to yearly factors is presented in table below:

AADT/ Mode	Car/Jeep/ Van/Taxi	LCV	2A	3A	MAV	OSV	PCUs
Kognoli TP01							
ADT (Average Apr 2023 – Feb 2024)	12,346	1,361	3,020	885	1,940	8	34,870
Eleven-to-twelve-month factor (FY23)	0.99	1.00	1.00	1.00	1.01	1.06	
AADT FY24	12,264	1,365	3,031	888	1,954	9	34,902
Hattargi TP02							
ADT (Average April 2023 – Feb 2024)	11,620	1,505	3,605	1,048	2,066	9	37,174
Eleven-to-twelve-month factor (FY23)	0.99	1.00	0.99	1.00	1.00	1.04	
AADT (without construction vehicles)	11,550	1,517	3,601	1,052	2,081	10	37,194

Source: Traffic Report

Travel pattern

- The car traffic originating from Kagal/Kolhapur/Sangli & surroundings to Belgaum & surroundings is about 14-16 percent at TP01 & TP02
- About 23-24 percent of Bus traffic at TP01 & TP02 were found to be travelling from/to Kagal/Kolhapur/Sangli & surroundings to/from Belgaum & surroundings
- The local car and bus traffic at TP01 is about 48-60 percent travelling between Kagal/Kolhapur/Sangli & beyond to zones between TP01 & TP02
- The local car and bus traffic at TP02 is about 54-60 percent travelling between Zones between TP01 & TP02 to Belgaum & beyond.
- In case of MAV, around 22-23 percent at both the toll plazas were found to be plying from/to Mumbai/Pune& surroundings-Bangalore & surroundings

Network Impact - Pune – Bangalore Expressway

Pune – Bangalore Expressway is a proposed 8 lane access-controlled highway connecting Pune, Maharashtra and Bengaluru, Karnataka via Satara, Sangli, Belgavi (Belgaum), Dharwad, Hubli, Devanagere and Tumakuru.

In context of the project road, two road network developments which may impact the traffic on the project road are:

Impact of Pune - Bangalore Expressway

The assessment for the route between Pune and Bangalore/Chennai has been done for the four traffic streams:

- Traffic plying between Mumbai/Pune/Nashik & surroundings and Bangalore & beyond
- Traffic from/to Mumbai/Pune/Nashik & surroundings to/from Chennai & beyond

The total diverted traffic after the operation of Pune Bangalore Expressway at the two toll plazas is presented in **Table 0-2**.

Toll Plaza	Car	2A	3A	MAV
TP01	1.2%	12.3%	30.2%	26.6%
TP02	1.3%	10.3%	25.4%	25.0%

Table 0-2: Potential Divertible Traffic to the Expressway

The proposed expressway will be a greenfield alignment and considering the usual timelines for a long greenfield expressway project, the diversion impact is considered from FY31 onwards under Base Case. Owing to the gradual shift of traffic away from the project road, the traffic impacts have been assumed to take place in phases with about 50 percent in FY31, 75 percent in FY32 and 100 percent from FY33 onwards.

Impact of Completion of 6 laning construction activities on National Highway 48 (Old NH-4 – Route via PR)

The long-distance traffic stream commuting between Pune & beyond and Bengaluru & beyond has two routes to follow one via NH-48 (Project Road) and other one via Solapur (NH-65/NH-52/NH-50).

The traffic travelling on NH-65 (Pune-Solapur section) is able to bypass the toll plazas between Tembhurni-Solapur-Bijapur if it travels via Tembhurni-Pandharpur- Mangalwedha-Umadi-Arakeri and meet directly at Bijapur.

The traffic from/to Pune/Nashik/Mumbai and surroundings to/from Bengaluru/Chitradurga and beyond is the potential traffic which is likely plying on this route via NH65/NH52/NH50 due to the 6 laning construction activities ongoing on NH-

48. The gain to the PR after completion of six laning has been estimated using the ODs conducted on Nagarhalla TP.

The cost-ratio based analysis indicates gain of 57 2A trucks, 24 3A trucks and 196 MAV trucks resulting in a total PCU gain of 1,125. As the 6 laning is expected to be completed by March 2025, the impact has been considered in phases with 50 percent in FY26 and 100 percent in FY27.

Traffic Growth Rates

The estimated traffic growth rates for the project road based on the elasticity approach have been presented in **Table 0-3**.

FY/Modes	Car/MLCV	M Bus/ LCV	Bus/2A	3A	MAV/OSV

Chittorgarh – Kota & Chittorgarh Bypass Project ("Asset 4")

Project Overview

According to the Traffic Consultant the project highway, NH-27, is part of the East – West corridor envisaged under National Highway Development Program (Phase – II). The total length of NH-27 is roughly 3,530 km starting from Porbandar in the state of Gujarat and ending at Silchar in the state of Assam while passing through the states of Rajasthan, Madhya Pradesh, Uttar Pradesh, Bihar and West Bengal. NH–27 connects important tourist and industrial cities and towns like Porbandar (port city), Rajkot, Palanpur, Udaipur, Chittorgarh, Jhansi, Kanpur, Lucknow, Muzaffarpur, Purnea, Siliguri, Jalpaiguri etc.

The project road section Chittorgarh-Kota, with approximate length of 160.5 km, starts near Chittorgarh in Chittorgarh district and ends near Kota in Kota district. There are three operational toll plazas on the project road, one near Bassi (TP01), one near Aroli Bassi (TP02), and another near Dhaneshwar Bassi (TP03). **Figure 0-1** shows the network context and alignment of project road with major places along the highway.

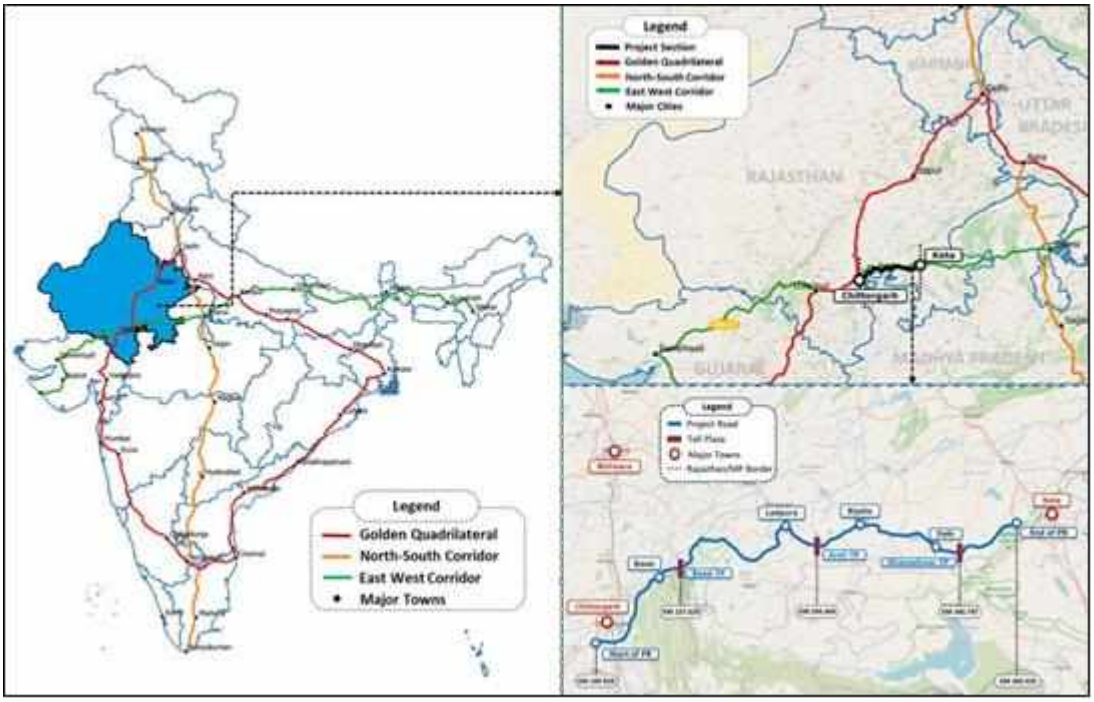

Figure 0-1: Chittorgarh-Kota Section and Location of Toll Plazas

Salient Growth Feature and Traffic Generators

The project road serves as a major route for east-west long-distance traffic which is majorly plying between Lucknow/Gorakhpur/eastern region and Palanpur/Rajkot/ western region, while also catering to short-distance traffic between Bundi/ Kota/ Baran and Udaipur/ Chittorgarh areas. The project road section is located in the districts of Chittorgarh, Bhilwara, Bundi and Kota districts in the state of Rajasthan.

The economy of Chittorgarh district is predominated by agriculture with major crops grown in the district are maize, soyabean, groundnut, sorghum, cotton and black gram in kharif season and wheat, mustard, gram, barley and opium in rabi season. The district is rich in mineral resources like barytes, china clay, limestone, sandstone and ochre.

Bhilwara district is located in south-eastern part of Rajasthan and its economy driven by agriculture with major crops grown in the district being maize, oil seeds, wheat, pulses, jowar, bajra and some fruits and vegetables. The district is also well established in textile industry along with several agro based industries. The district is also rich in mineral resources like lead, zinc, soap stone, china clay, feldspar, quartz, mica, marble, granite, asbestos and garnet.

Bundi district is also mainly dependent on agriculture for its economic growth with major agricultural crops include pulses, wheat, gram, barley, cotton, tobacco and oil seeds. Important fruit trees in Bundi include orange, pomegranate, lemon, guava and mango. Textile, tourism, handicrafts and small-scale industries play a pivotal role in the economic prosperity of Bundi in Rajasthan.

Kota district is trade centre for cotton, millet, wheat, coriander and oilseeds. Major cultivated crops include soybean, paddy and maize in kharif season while rapeseed & mustard, wheat, coriander and gram in rabi season. The industries prevalent in the district include cotton and oilseed milling, textile weaving, distilling, dairying, and the manufacture of metal handcrafts. Kota city is known as the “Education hub of India” with the presence of several coaching institutes for engineering and medical entrance exams. Kota is one of the industrial hubs in northern India, with chemical, cement, engineering, and power plants. Kota is rich in Kota stone, limestone, red clay, glass sand, dolomite and kankar along with reported occurrence of iron ore, fire clay, red and yellow ochre.

Traffic Volume and Vehicle Composition - AADT for FY24

The past toll traffic data for all the toll plazas was made available by the client from January 2021 to February 2024. The month-on-month mode wise traffic for the period from April 2023 to February 2024 for all three toll plazas is presented in **Figure 0-1**

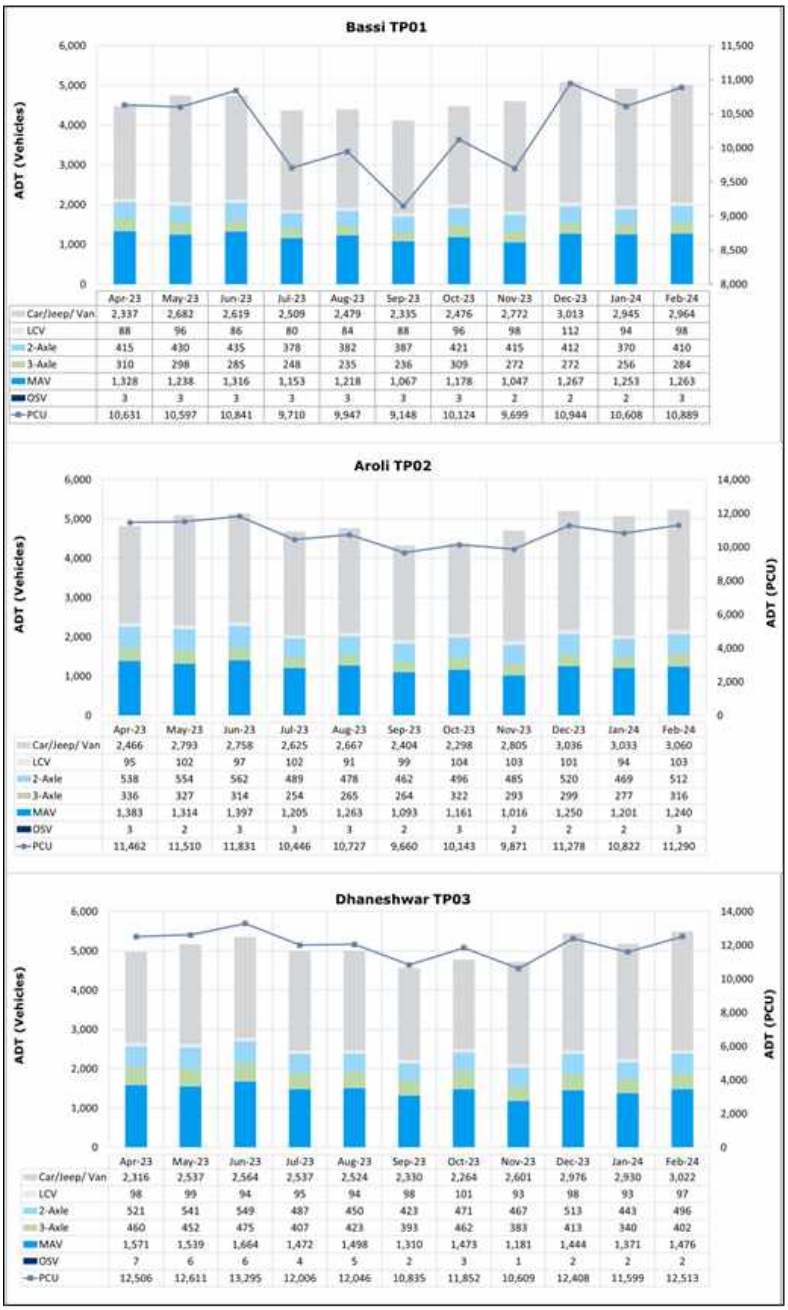

Figure 0-2: Month on Month Traffic Data for TP01, TP02 and TP03

The estimation for FY24 AADT is done after annualising the behaviour of April 2023- February 2024 traffic. For this purpose, a ratio/factor of average of April-February to twelve-month average derived from FY23 was adopted. FY24 AADT derived from the toll traffic data along with 11 months to yearly factors is presented in **Table 0-1**.

AADT/ Mode	Car/Jeep/ Van/Taxi	LCV	2A	3A	MAV	OSV	PCUs
Bassi (TP01)							
ADT (Average Apr 2023 – Feb 2024)	2,648	93	405	273	1,212	3	10,285
Eleven-to-twelve-month factor (FY23)	1.005	0.976	1.000	1.009	1.008	1.010	
AADT FY24	2,662	90	405	276	1,221	3	10,348
Aroli (TP02)							
ADT (Average Apr 2023 – Feb 2024)	2,722	99	506	297	1,229	2	10,822
Eleven-to-twelve-month factor (FY23)	0.999	0.971	0.998	1.007	1.007	1.009	
AADT FY24	2,718	96	505	299	1,238	2	10,854
Dhaneshwar (TP03)							
ADT (Average Apr 2023 – Feb 2024)	2,600	97	487	419	1,454	4	12,026

AADT/ Mode	Car/Jeep/ Van/Taxi	LCV	2A	3A	MAV	OSV	PCUs
Eleven-to-twelve-month factor (FY23)	0.997	0.973	0.992	0.993	1.003	1.018	
AADT FY24	2,593	94	483	416	1,459	4	12,015

Table 0-1: AADT for FY24

Travel pattern

- The car traffic originating from/to Chittorgarh & surroundings to/from Kota & surroundings is about 12-13 percent at all the toll plazas.
- In case of car traffic, about 13.6-16.8 percent at TP02 and TP03 were found to be traveling between Bhilwara & surroundings and Kota & beyond. It may be noted that the traffic originating/destined from/to Bhilwara takes an entry/exit from Ladpura town (located between Bassi TP and Aroli TP).
- In case of Bus, about 11.1-21.6 percent at TP01, TP02 and TP03 were found to be travelling between Udaipur & surroundings and Kota & surroundings.
- In case of MAV, 12.4-15.2 percent of MAV at TP02 and TP03 were found to be travelling between Bhilwara & surroundings and Kota & beyond.
- The MAV traffic originating from/to Chittorgarh & surroundings to/from Kota & surroundings is about 20-25.9 percent at all the toll plazas.

Network Impact

According to the traffic consultant the Delhi–Mumbai Expressway is an under-construction greenfield (8 lane facility) 1,380 km long controlled-access highway connecting the national capital Delhi with India's commercial capital Mumbai and will cut down the travel time between the two cities from 25 hours to 12 hours.

The estimation of traffic diversion away or to the project road has been done for three different streams of traffic which are listed below:

- Diversion away from PR for the traffic plying between Gandhidham/ Ahmedabad/ rest of Gujarat to Kota & beyond (towards Jhansi/ Lucknow/ Kanpur) - Stream A
- Diversion away from PR for the traffic plying between Vadodara & surroundings to Kota & beyond (towards Jhansi/ Lucknow/ Kanpur) - Stream B
- Diversion to PR for the traffic plying between Haryana/ Delhi & beyond to Chittorgarh/ Udaipur & surroundings currently using the route via Delhi – Jaipur – Kishangarh – Chittorgarh (via NH8/NH76/NH79A)

The impacts for both the cases have been derived separately and their net impact has been presented in **Table 0-2**

Modes	3A	MAV
A. Loss from PR- Stream A		
Potential Traffic	63	144
% Diversion from PR	61.1	68.0
Diversion from PR	-39	-97
B. Loss from PR- Stream B		
Potential Traffic	40	150
% Diversion from PR	96.5	97.0
Diversion from PR	-39	-145
C. **Total Loss from PR (A+B)**		
Expected loss from PR (Stream A+ Stream B)	-77	-243
D. Gain to PR		
Potential Traffic	312	842
% Gain in PR Traffic	31.8	34.3
Expected Gain to PR	99	289
E. Net gain to the PR (C+D)		
Net Gain to PR	22	47
F. As Percentage of AADT		
TP01	7.95%	3.75%
TP02	7.33%	3.70%
TP03	5.27%	3.14%

Modes	3A	MAV
G. Adopted – 50% gain		
TP01	4.0%	1.9%
TP02	3.7%	1.8%
TP03	2.6%	1.6%

Table 0-2: Impacts due to Delhi - Mumbai Expressway (DME)

The DME is likely to be fully operational by FY25. The adopted total divertible traffic corresponds to about 4 percent of 3A Trucks and about 2 percent of MAVs across all the toll plazas. The traffic shift is likely to happen gradually and hence the traffic gain has been considered in phases with 50 percent in FY25, 75 percent in FY26 and 100 percent from FY27 onwards.

Traffic Growth Rates

The estimated traffic growth rates for the project road have been presented in **Table 0-3**.

FY/Modes	Cars/MLCV	LCV/M Bus	2A	3A	MAV/OSV
2025	6.3	3.1	3.6	4.4	6.1
2026	6.7	3.3	3.9	4.7	6.5
2027	6.5	3.2	3.7	4.5	6.3
2028	6.4	3.1	3.7	4.5	6.2
2029	6.1	3.0	3.5	4.3	5.9
2030	5.8	2.8	3.3	4.0	5.6
2031	5.3	2.8	3.3	4.0	5.1
2032	5.3	2.8	3.3	4.0	5.1
2033	5.3	2.8	3.3	4.0	5.1
2034	5.2	2.8	3.3	4.0	5.0
2035	5.1	2.7	3.2	3.9	4.9
2036	5.0	2.7	3.2	3.9	4.8
2037	4.9	2.7	3.1	3.8	4.8
2038	4.9	2.6	3.1	3.7	4.7
2039	4.8	2.6	3.0	3.7	4.6
2040	4.7	2.5	3.0	3.6	4.6
2041	4.6	2.5	2.9	3.6	4.5
2042	4.6	2.5	2.9	3.5	4.4
2043	4.5	2.4	2.8	3.5	4.3
2044	4.4	2.4	2.8	3.4	4.3
2045	4.3	2.3	2.8	3.3	4.2
2046	4.3	2.3	2.7	3.3	4.1
2047	4.2	2.2	2.7	3.2	4.0
2048	4.1	2.2	2.6	3.2	4.0
2049	4.0	2.2	2.6	3.1	3.9
2050	4.0	2.1	2.5	3.0	3.8
2051	3.7	2.0	2.3	2.8	3.6
2052	3.7	2.0	2.3	2.8	3.6

Table 0-3: Projected Traffic Growth Rates for Project Road (%)

There has been a ban on sand mining in Rajasthan from November 2023 due to which the truck traffic on the PR is impacted in the H2 of FY24. Once the ban on mining is removed, the project road may witness an increase in freight vehicles. For estimation of the gain in traffic post lifting the ban, pre mining ban AADT for FY24 is estimated annualising behaviour of April 2023-October 2023 traffic using the factor of 6 to 12 month derived from FY23.

Comparing the pre mining ban AADT with FY24 AADT suggests a likely increase in traffic if the ban is lifted. **Table 3-14** presents the potential implications of removal of sand mining ban in the state of Rajasthan.

Description/Mode	3A	MAV
TP01 - Bassi TP		
A. ADT FY24 (April-October)	274	1,214
B. 7-to-12-month Factor (FY23)	1.06	1.06
C. AADT (Pre mining Ban) = (A*B)	291	1,284
D. AADT FY24 (April-February annualized)	276	1,221
E. Likely gain in traffic, if ban is lifted = (C-D)	16	63
TP02 - Aroli TP		
A. ADT FY24 (April-October)	297	1,259
B. 7-to-12-month Factor (FY23)	1.06	1.07
C. AADT (Pre mining Ban) = (A*B)	316	1,342
D. AADT FY24 (April-February annualized)	299	1,238
E. Likely gain in traffic, if ban is lifted = (C-D)	17	104

Description/Mode	3A	MAV
TP03 - Dhaneshwar TP		
A. ADT FY24 (April-October)	439	1,504
B. 7-to-12-month Factor (FY23)	1.07	1.07
C. AADT (Pre mining Ban) = (A*B)	469	1,604
D. AADT FY24 (April-February annualized)	416	1,459
E. Likely gain in traffic, if ban is lifted = (C-D)	53	145

Table 0-4: Gain in Traffic After Removal of Sand Mining Ban

There could be a potential traffic gain of around 16 to 18 3A trucks and 63 to 104 MAVs at TP01 & TP02 and an additional 53 3A trucks and 145 MAVs at TP03. 50 percent of this gain has been considered in FY25 and 100 percent in FY26.

The implied traffic growth rates for freight vehicles of 2A/3A and MAV after considering the impact of diversion from DME in FY25 to FY27 and gain of freight vehicles after removal of mining ban under the base case have been presented in **Table 0-5**.

FY/Modes	TP01		TP02		TP03	
	3A	MAV	3A	MAV	3A	MAV
2025	9.4	9.7	9.0	11.4	7.7	12.0
2026	8.4	9.4	8.1	10.8	7.2	11.4
2027	5.6	6.8	5.5	6.8	5.2	6.7

Table 0-5: Implied Traffic Growth Rates for Project Road After Diversion to DME (%)

Projected Mode-wise Traffic

Mode-wise projected traffic for the three toll plazas of the project road under the base case after considering diversion impacts till FY52 is presented in **Table 0-6**, **Table 0-7**, and **Table 0-8**.

Table 0-12: Toll Rates at Toll Plazas (in Rs)

For further details in relation to Asset 4, please refer to **Annexure C** of this Placement Document.

Kothakota Bypass – Kurnool Highway Project ("Asset 5")

Project Overview

According to the Traffic Consultant, the project highway, NH-44, is the longest highway in India connecting Srinagar with Kanyakumari and is part of North-South corridor envisaged under National Highway Development Program (Phase – II). The NH 44 highway covers a huge distance of 4,112 kilometres and passes through the states of Jammu and Kashmir, Punjab, Haryana, Delhi, Uttar Pradesh, Madhya Pradesh, Maharashtra, Telangana, Andhra Pradesh, Karnataka, and Tamil Nadu.

The project road section, Kothakota-Kurnool starts at km 135.469 near Kothakota and ends at km 211.061 at Kurnool with a length of about 74.6 km. There is one operational toll plaza on the PR near Pullur (km 200.95).

Figure 0-1 shows the context and alignment of project road with major places along the highway.

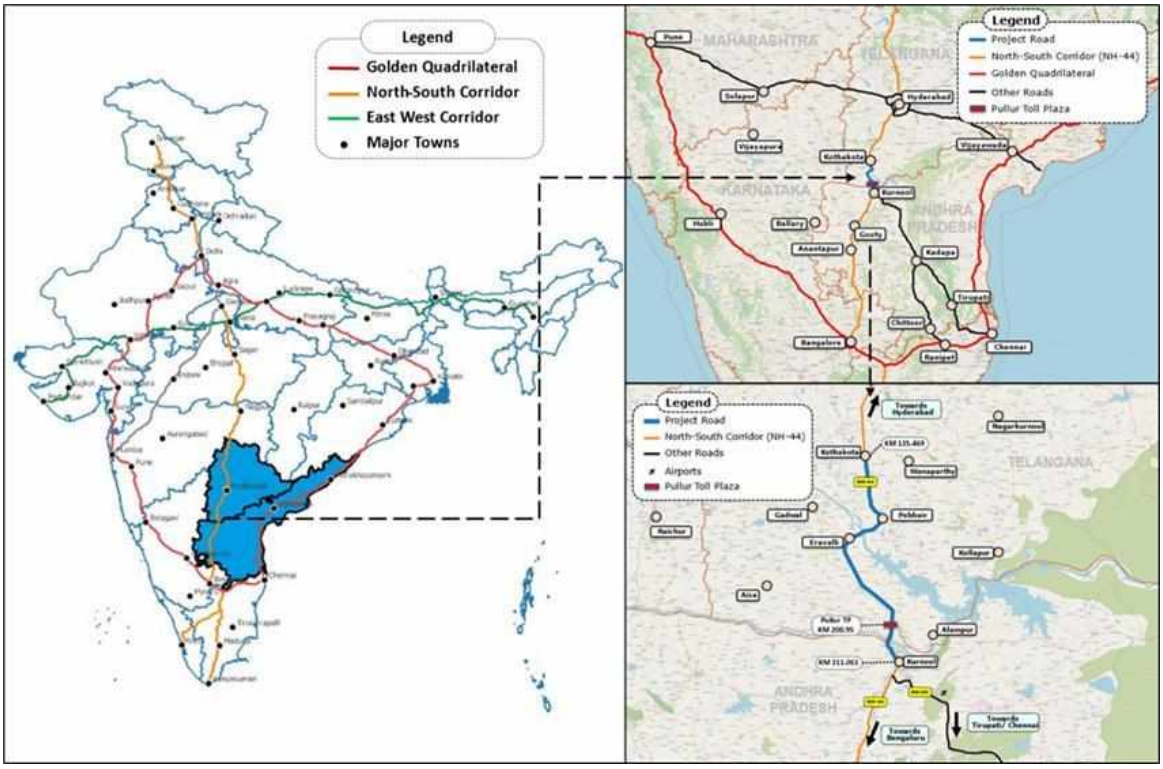

Figure 0-1: Kothakota-Kurnool Section and Location of Toll Plaza

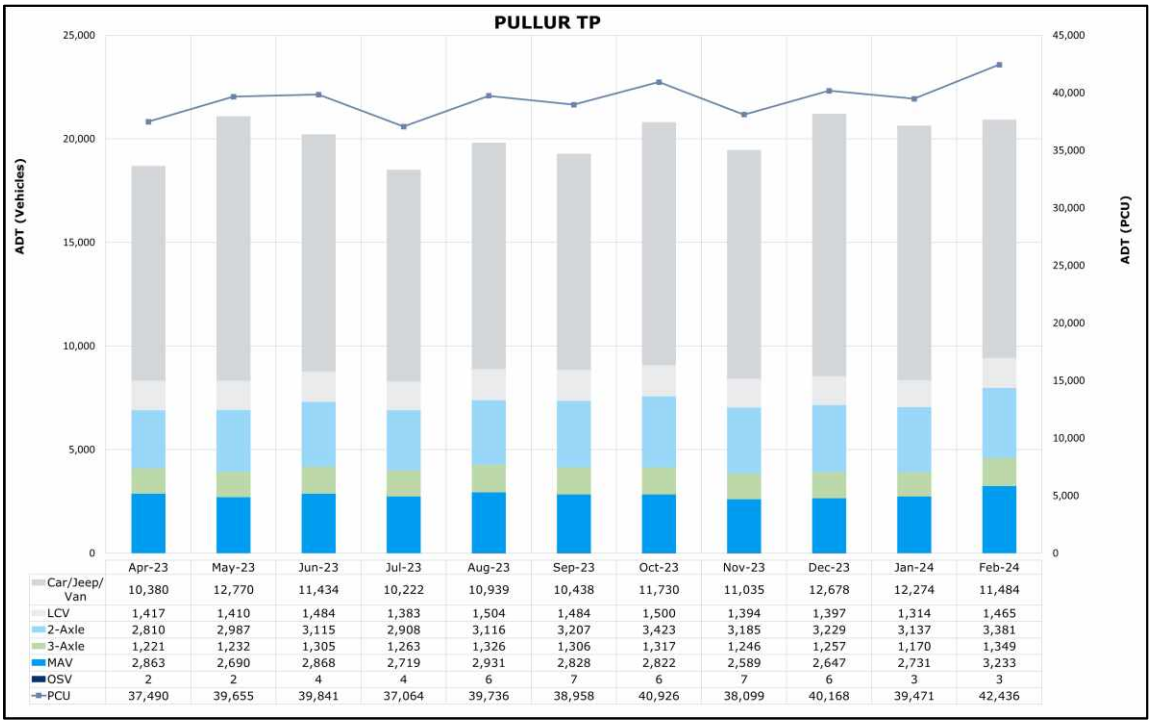
Project Road Characteristics and Profile of Influencing Districts

The project road serves for long distance traffic, which is majorly plying between Hyderabad/ Nagpur/ northern region and Bengaluru/ Chennai/ southern region. Apart from long distance traffic, it also serves the short distance traffic which is mainly generated between Mahbubnagar/ Kothakota/ Wanaparthy/ Pebbair/ Gadwal located on the north of toll plaza and Kurnool/ Anantapur/ Nandyal areas located on the south of toll plaza. The project road section is located in the districts of Wanaparthy and Jogulamba Gadwal in the state of Telangana and Kurnool in the state of Andhra Pradesh.



Jogulamba Gadwal district is situated in south-western part of Telangana state. Agriculture is the main livelihood of the people in Wanaparthy district with 75% total workers engaged in agro-based labour. Red sandy soil and sandy loam soil covers 89% of the area. Paddy, groundnut, jowar, maize, red gram, castor, cotton, and chili are the major crops cultivated within the district.

Jogulamba Gadwal district is renowned all over the world for its exclusive handloom Zari sarees and other useful fabrics and materials.

Kurnool district is situated in Western part of Andhra Pradesh. Almost half of the geographical area is under agriculture use. Paddy, cotton, tomato, and onion are the major crops grown in the district. Mining/quarrying is the prevailing industry in the district.

Traffic Volume and Vehicle Composition - AADT for FY24

The past toll traffic data for the toll plaza was made available by the client from April 2023 to February 2024 is presented in **Figure 0-2**.

	Apr-23	May-23	Jun-23	Jul-23	Aug-23	Sep-23	Oct-23	Nov-23	Dec-23	Jan-24	Feb-24

Figure 0-2: Month on Month Traffic Data for Pullur TP

AADT for FY24

The old tolling system/ETC reading issues at Pullur Toll Plaza have been resolved. The estimation for FY24 AADT is done after annualising the behaviour of April 2023-February 2024 traffic. For this purpose, a ratio/factor of average of 11 months (April to February) to twelve-month average derived from FY23 was adopted. FY24 AADT derived from the toll traffic data along with 11 months to yearly factors is presented in **Table 0-1**.

Particulars	Car/ Jeep/ Van	LCV	2-Axle	3-Axle	MAV	OSV	PCUs
Pullur TP							
ADT FY24 (April-February)	11,399	1,432	3,136	1,272	2,811	5	39,441
Eleven - to - twelve- month factor (FY23)	0.99	1.004	1.002	1.002	1.01	1.02	
AADT FY24	11,339	1,437	3,144	1,275	2,837	5	39,541

Table 0-1: AADT for FY24 for the Project Road

Travel Pattern

Passenger Traffic:

- Majority of the passenger traffic travels from/to Hyderabad/ Nizamabad/ Adilabad to/from Kurnool/ Anantapur/ Bangalore/ Tamil Nadu. About 51.5 percent cars (5,037 vehicles) and buses (932 vehicles) ply along this route.
- Similarly, high share of passenger traffic was observed to flow between areas of Mahabubnagar/ Gadwal/ Rest of Telangana and Kurnool/ Anantapur/ Bangalore/ Tamil Nadu areas. About 25 percent cars (2,437 vehicles) and about 24 percent buses (424 vehicles) ply along this route.
- Highest share of freight traffic travels from/to Hyderabad/ Nizamabad/ Adilabad to/from Kurnool/ Anantapur/ Bangalore/ Tamil Nadu. About 56-57 percent of MLCVs and LCVs and about 36-49 percent of larger freight like 2A, 3A and MAVs ply along this route accounting for about 790-870 MLCV and LCVs, 510-665 2A and 3A trucks and about 1030 MAVs.
- Long distance movement is preferred over larger vehicles which is evident from the traffic movement between Nanded/ MP/ Delhi/ UP/ Northern India and Kurnool/ Anantapur/ Bangalore/ Tamil Nadu. About 21 percent (279 vehicles) of 2A trucks and about 27-28 percent of 3A trucks and MAVs accounting for about 356 and 758 vehicles of respectively categories ply along this route.

- The traffic movement between Solapur/ Pune/ Mumbai/ Gujarat/ Rajasthan and Kurnool/ Nandyal/ Southern Andhra Pradesh/ Chennai is the potential traffic for Surat – Chennai Expressway between Akkalkot and Kurnool.

- Primarily larger freight vehicles ply along this route which include about 2-3 percent of 2A and 3A trucks (accounting for 39 2A trucks and 25 3A trucks) and about 3 percent of MAVs (accounting for 77 MAVs).

Network Impacts

In the context of the project road of Kothakota – Kurnool section, there are two proposed alternative routes i.e., Surat-Chennai Economic Corridor and Hyderabad – Tirupati Highway which can impact the traffic plying on the project road. The potential divertible traffic and diverted traffic for each of the network developments is presented in **Table 0-2**.

Alternate Routes / Modes	Car	LCV	2A	3A	MAV
Surat – Chennai Economic Corridor					
Potential Traffic as % of AADT	0.3	1.6	1.2	1.9	2.7
Divertible traffic as % of AADT	0.3	1.6	1.2	1.8	2.6
Hyderabad – Tirupati Highway					
Potential Traffic as % of AADT	12.9	14.0	6.4	16.4	18.8
Divertible traffic as % of AADT	10.1	11.0	5.0	13.8	12.7
Combined Impact (%)					
Total Potential Traffic	13.2	15.6	7.7	18.3	21.5
Total Divertible Traffic	10.4	12.5	6.2	15.6	15.3

Table 0-2: Impact due to Alternate Routes for Project Road

According to the Traffic Consultant the two proposed alternate routes are likely to result in net traffic diversion of about 10.4 percent in cars and 12.5 percent in LCVs and about 15 percent in 3A and MAV traffic. Presently, the two routes are in the initial stages of implementation and are likely to be completed by FY26. To account for the gradual build-up of traffic on the alternate routes, the traffic shift is assumed to take place in phases with about 50 percent in FY27, 75 percent in FY28 and 100 percent from FY29 onwards.

Traffic Growth Rates

The estimated traffic growth rates for the project road using elasticity approach have been estimated for each year till FY52 and is presented in Table 0-3.

FY/Modes	Car/MLCV	LCV/M Bus	Truck	3A	MAV
2025	7.2	3.5	2.1	2.1	6.1
2026	7.7	3.7	2.3	2.2	6.5
2027	7.4	3.6	2.2	2.1	6.3
2028	7.3	3.6	2.2	2.1	6.2

For further details in relation to Asset 5, please refer to **Annexure C** of this Placement Document.

Agra Bypass Project ("Asset 6")

Project overview

According to the Traffic Consultant, the Asset is a 32.8 km four-lane road, forming part of the section connecting NH19 (old NH2) to NH44 (old NH7) in Uttar Pradesh, branches out to NH52 (old NH3) and NH44 (old NH7) at Gwalior. The Asset lies on the outskirts of Agra, bypassing the city and acting as a key connection between Delhi to the regions of Gwalior and south. It further connects the traffic originating from west from areas such as Gujarat and Jaipur to the cities in the East (Kanpur, Lucknow and beyond), thereby supporting the east-west movement.

There is one toll plaza on the asset and is located at and is shown in the map below:

- TP1 Raibha (KM 10.800)

Figure: Asset context - AB: Raibha

Source: Steer cartography using OpenStreetMap data

Salient growth features and traffic generators

According to The Consultant, the Asset is present in the agrarian state of Uttar Pradesh, the most populous state in India with a population of nearly 200 million people. AB forms part of the section connecting NH19 to NH44, later branching out to NH52 and NH44 at Gwalior.

The Asset caters to the demands generated by the states connected through the above- mentioned highways. NH19 runs over 1,465 kms completing the east – west movement and connects some of the major states and industrial centres of Delhi, Haryana, Uttar Pradesh with the eastern states of Bihar, Jharkhand, and West Bengal. On the contrary, NH44 completes the north-south movement of the country as it connects the northern states/UTs of Jammu and Kashmir, Punjab, Haryana, Delhi, Uttar Pradesh, Rajasthan, Madhya Pradesh, Maharashtra with the southern states of Telangana, Andhra Pradesh, Karnataka, and Tamil Nadu. Following a parallel route with NH44, NH52 starts in Punjab and ends in Karnataka.

The Asset lies on the outskirts of Agra which has several small and medium-scale industries and is one of the prime centres of the handloom, plastic pallets, and automotive spares, in addition to being a key tourist destination because of the Taj Mahal. Numerous major tourist attractions also exist in the vicinity of the Asset. Agra, Mathura, Fatehpur Sikri and other towns in the region are home to several historical monuments, places of worship and heritage sites.

Mathura, in north of the Asset, is a popular tourist place because of its religious importance. There are several industries in Mathura in the sectors of chemicals, manufacturing, production. It also has a refinery which is owned and operated by the state-run Indian Oil Corporation (IOCL) in Uttar Pradesh since 1982. IOCL has recently announced a future strategic plan to use the wind power generated electricity from Rajasthan to produce green hydrogen units in Mathura refinery. The refinery is a vital source of petroleum and related commodities carrying traffic on the Asset.

The Asset acts as a key connection between Delhi NCR and cities in Madhya Pradesh such as Gwalior and Indore, a city in south of the Asset in the state of Madhya Pradesh. Gwalior has an existing industrial area where the economy is driven by textile mills, artificial silk manufacturing plants, handicraft, and hand loom industries, tanning industries, and chemical industries. The city is also home to Gwalior Chemical Industries Limited. The group is primarily into the business of manufacturing and marketing of specialty chemicals, catering to both the domestic and exports customers in the agrochemical, paints and coatings, dyes, and flavour & fragrance industries. Indore has large industrial cluster for automobile and other ancillary industries. Pithampur industrial area is one of the biggest industrial clusters in the country and support large industrial activity.

Several major tourist attractions exist in and around the Asset, with both Delhi and Agra being two of the three nodes part of the Golden Triangle (Delhi, Agra, Jaipur) – one of India's most popular tourist packages for international tourists. Delhi, Agra, Fatehpur Sikri and other towns in the region are home to several historical monuments and heritage sites, including the famed Taj Mahal (Agra).

Religious tourism and pilgrimage sites include Surajkund, Badkhal Lake, ISKON temple (all in and around Central NCR), and Banke Bihari, and other major temples of Mathura and Vrindavan.

Traffic volume and composite of vehicles

Historical traffic data

The toll plaza data was available from 1st Apr 2021 till 29th Feb 2024. The corresponding revenue for the stated period was also provided by the Client. Therefore, to build the base estimates for FY24, we have considered:

- The Electronic Toll Collection (ETC) and cash data provided by NHAI.
- This data set has been considered for historical analysis and revenue reconciliation.

The Asset trends at 31,000 PCU levels in FY24YTD with robust truck performance continuing in FY24YTD.

On an average, the daily revenue collection on the Asset is ~INR 28 lakhs.

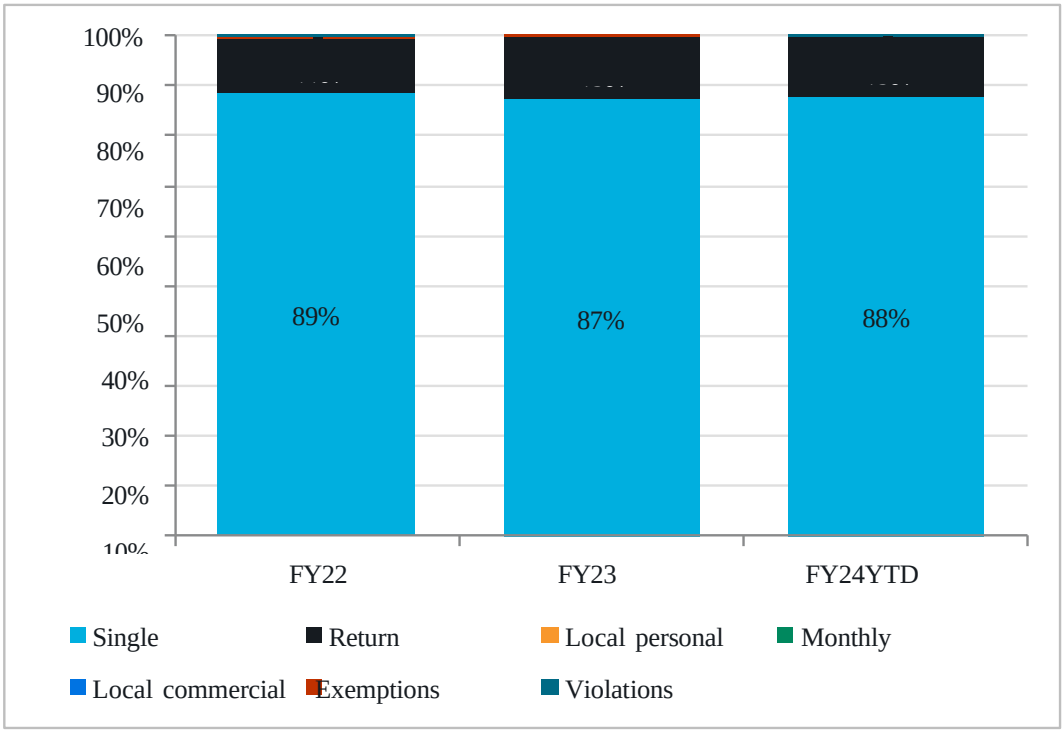
Toll segmentation

Based on detailed review of historic trends of trip segmentation, Consultant has recommended that on the Asset, CJVs have a considerable share of Return tickets as they primarily cater to short to medium distance movements which might lead to a user crossing the plaza several times in a day.



2A, 3A and MAV's report high proportion of single trips, this is further validated by the long trip length of the vehicles as observed in our OD data. More than 85% of the commercial vehicles plying on the Asset are observed to buy single tickets as the Asset caters to strategic long-distance movements. Return trips are primarily attributed to the short distance trips in the vicinity of the Asset.

Traffic forecast

The increase of traffic on any existing road alignment depends on how fast the background travel demand (background growth) will grow; and on how successfully the project road is in attracting that traffic (traffic capture). Background travel demand is driven by the prevalent socio-economic conditions in the region, which include:

– Changes in factors such as population, employment, and income distribution

– Economic growth (GSDP, and GDP).

– Growth of local industries near the Asset.

The model uses India GDP and Uttar Pradesh GSDP as the two macro-economic inputs which operate as growth drivers on our base year forecasts.

The network developments near the Asset's alignment which Steer believes would affect

traffic on the Asset during the concession period are DME, WDFC and Agra Bypass completion.

Steer has developed traffic and revenue forecasts for the Asset by taking into consideration all inputs discussed above – base year estimates, macro-economic assumptions, growth drivers, elasticities, and forecast ticket segmentation. The table below provides the final (background plus impacts) traffic growth on the Asset.

Table: Final (background plus impacts) AADT forecast – AB: Raibha

Vehicle Type	FY24	FY25	FY30	FY35	FY40	FY43

Tollable Length and Toll Rates

Tolling length of the Asset currently (FY24) comprises of 7.055 km + 32.094 km bypass length. In India, toll rates are as per notification by the Ministry of Road Transport and Highways in the National Gazette. The present toll rates are determined with reference to the published base toll rates and are adjusted annually at the beginning of each fiscal year equal to 40% of the movement in the wholesale price index in December of the preceding year plus a fixed 3%.

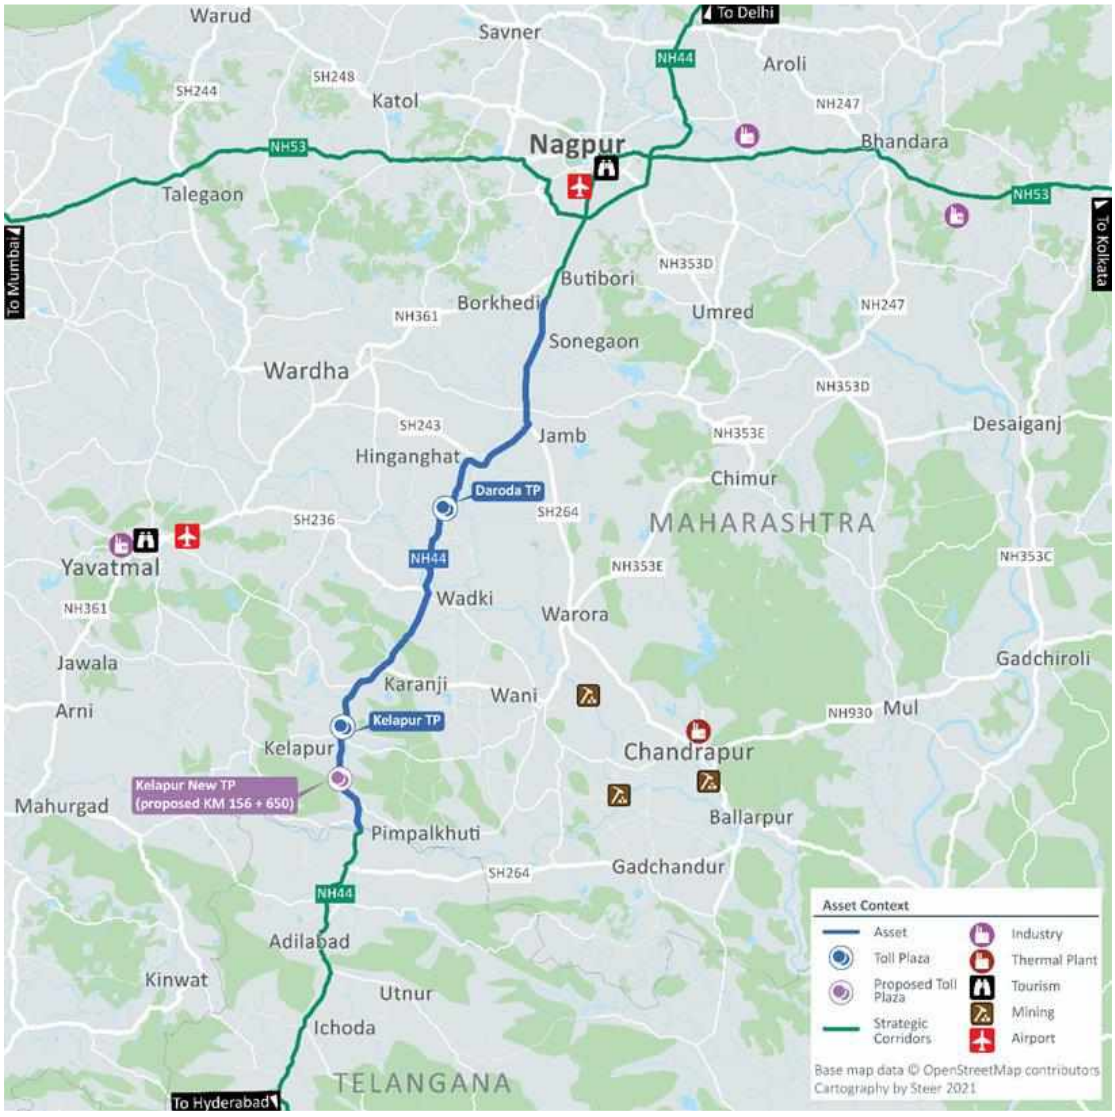
According to the NHAI's toll notification for FY24, i.e., April 1, 2023, onwards, the toll rates at the Raibha toll plaza for Asset are as follows:

Table: FY24 toll rates – AB: Raibha

Vehicle Type	Single	Return	Monthly
CJV	80	120	2,630
LCV	130	190	4,250
Bus/Truck	265	400	8,905
3A	290	435	9,715
MAV/ HCM/EME	420	630	13,965
OSV	510	765	17,000

For further details in relation to Asset 6, please refer to **Annexure C** of this Placement Document.

Borkhedi – Kelapur Project ("Asset 7")



Project overview

According to the Traffic Consultant, Asset 7 is located on NH 44 and is about 139 km four-laned section between Borkhedi and Maharashtra/Telangana Border stretching across Nagpur, Wardha, and Yavatmal districts in the state of Maharashtra.

There are two toll plazas on the asset and are located at and is shown in the map below:

- Daroda (KM 92.500)
- Kelapur (KM 150.000)

Kelapur toll plaza is proposed to be relocated to a new location, approximately 6 km south of the existing location in absence of adequate land to construct proper toll plaza at the present location. This is named as Kelapur New TP (KM 156.650) in the map below. .

Source: Traffic Report

Salient growth features and traffic generators

The Asset is present in the state of Maharashtra, the second-most populous state in India with a population of nearly 124 million people. The Asset forms part of the strategic NH44 corridor catering to the north-south movement.

The Asset caters to the demands generated by the states connected through the above- mentioned highway. NH44 runs over 4,112 kms completing the north-south movement and connects some of the major states and industrial centres of

northern states/UTs of Jammu and Kashmir, Punjab, Haryana, Delhi, Uttar Pradesh, Rajasthan, Madhya Pradesh, Maharashtra with the southern states of Telangana, Andhra Pradesh, Karnataka, and Tamil Nadu. The traffic profile is predominantly goods vehicles undertaking long distance movements between the locations mentioned.

The Asset lies on the outskirts of Nagpur which is the third largest city in Maharashtra. It is known for medium to large scale industries alongside agriculture. The key industries are manufacturing and food processing as described below.

- Manufacturing segment includes products ranging from agriculture equipment, aluminium products, castings, cement, chemicals, paper and packaging, electrical equipment and fittings, textile engineering goods, tools manufacturing, fabrication and machining, ferro alloys, paints, furniture, plastic and moulding products, etc.

- Food processing giants having presence at Nagpur includes Haldiram, Dinshaw, Patanjali and other medium scales orange and spices processing units, etc.

Apart from the above-mentioned industrial segments present in Nagpur, the following are some additional developments announced by the government for the region:

- Government of Maharashtra has set-up Multi-Modal International Passenger and Cargo Hub Airport at Nagpur (MIHAN). That will upgrade existing domestic airport along with a Special Economic Zone which is abutting to the boundary of the airport. MIHAN houses plant of Tata Aeronautics which manufactures parts for Boeing and Air India and Dassault's assembly plants.

- Container Corporations of India Limited (CONCOR) constructed Multi Modal Logistic Park along with a rail terminal connecting MIHAN with different ports in country.

Butibori industrial area established by Maharashtra Industrial Development Corporation (MIDC), north of the Asset, is one of the country's largest industrial hubs. It houses textile, machine and metal fabrication and manufacturing units and is home to industrial giants like KEC, Hyundai, and Unitech. Koradi Thermal Power Station and Khaparkheda Thermal Power Station are the two major thermal power stations located in vicinity of the hub. Yavatmal industrial area, in west of the Asset, has textile and cotton processing industries including Raymond India's garment plant. The industrial hub is also home to export units of machineries, cement, medicines, limestones, and clothes.

Chandrapur is key coal mining centre in close vicinity of the Asset and has thermal plant, cement, paper and ferro alloy manufacturing industries.

The agricultural stretches present along the Asset as well as in Nagpur generate a considerable share of traffic on the Asset. Nagpur, also known as Orange City, is famous for the production of oranges in addition to being home to large number of paddy, jowar, cotton, tur and soyabean fields.

Long-distance goods traffic has seen an increase in proportion in recent years due to the shift of traffic from other corridors to NH44 as this is the shortest route between Hyderabad/Bengaluru and Delhi.

Traffic volume and composite of vehicles

Historical traffic data

The toll plaza data, segmented with ticket categories, is available from 01st Apr-21 to 29th Feb- 24 , which has been used for FY24 base year estimation. Therefore, to build the base estimate for FY24, we have considered:

- The Electronic Toll Collection (ETC) and cash data provided by NHAI.

- This data set has been considered for historical analysis and revenue reconciliation.

The Asset trends at 21,049 PCU levels in FY24YTD. Daroda plaza observed an average of ~7,633 AADT in FY24YTD as compared to ~6,868 AADT on Kelapur. The traffic is dominated by 3A/MAVs.

The average monthly collection at Daroda and Kelapur plazas is ~ INR 83.00 million and ~ INR 77.00 Cr respectively in FY24YTD. The daily collection in the same period was ~INR 2.7 milllon ~INR 2.5 million respectively. Revenue collection is lower at Kelapur due to lower traffic volumes as well as lower tollable length than Daroda.

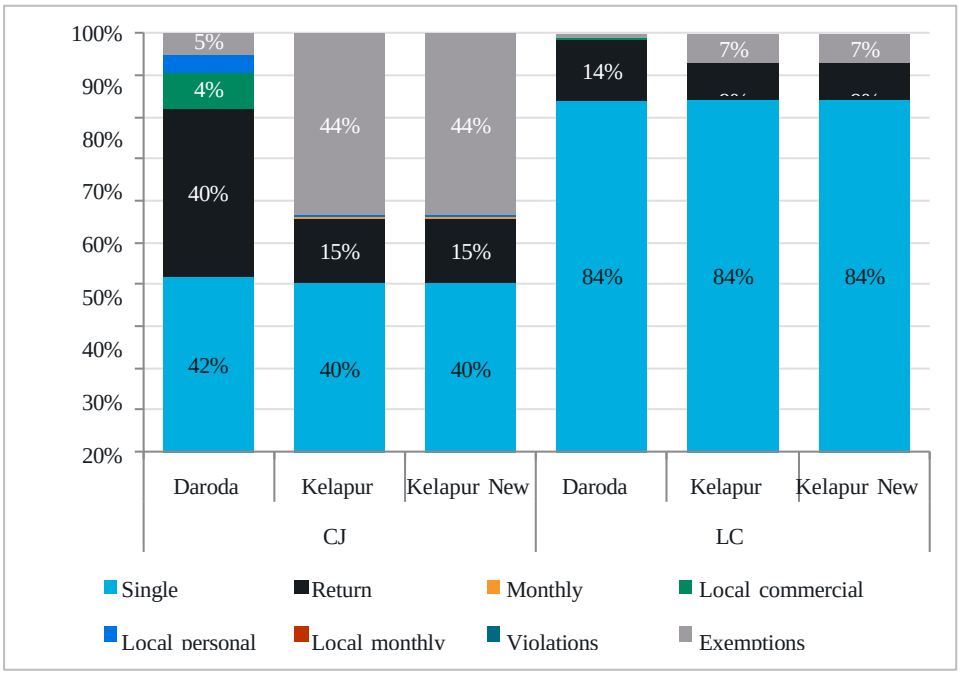
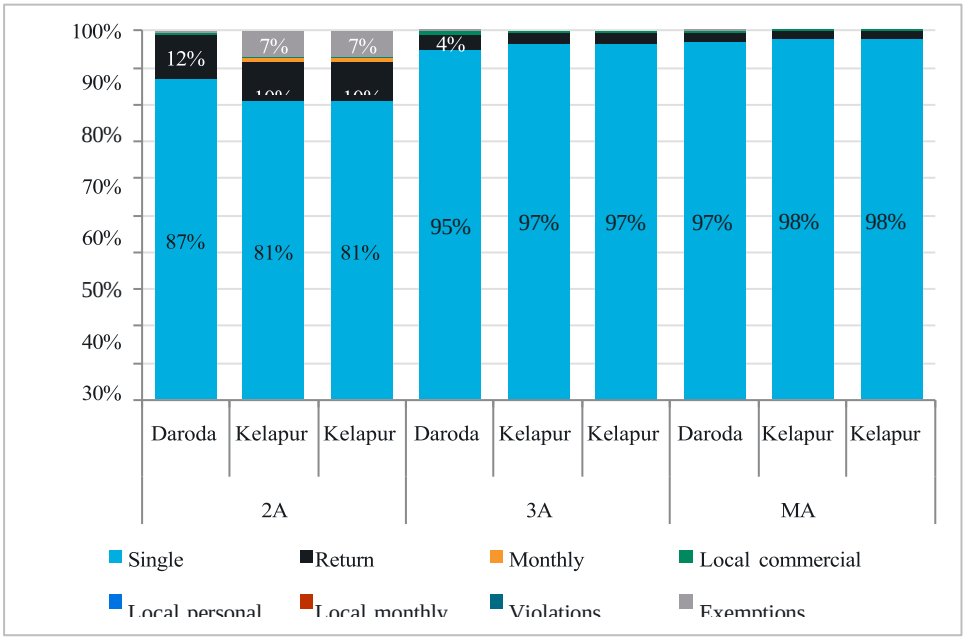
Toll Segmentation

Based on detailed review of historic trends of trip segmentation, according to the Consultant on the Asset, CJVs observe approximately equal split between single and return tickets on Daroda as the plaza caters to inter-urban movement influenced by Nagpur and sizeable split between single and return tickets at Kelapur given its proximity to Telangana.

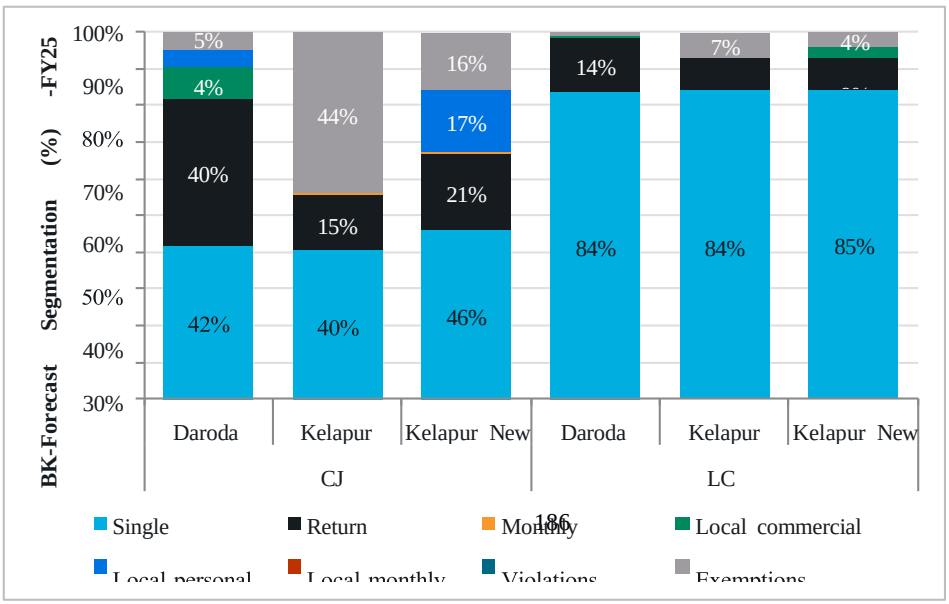


Source: Steer analysis

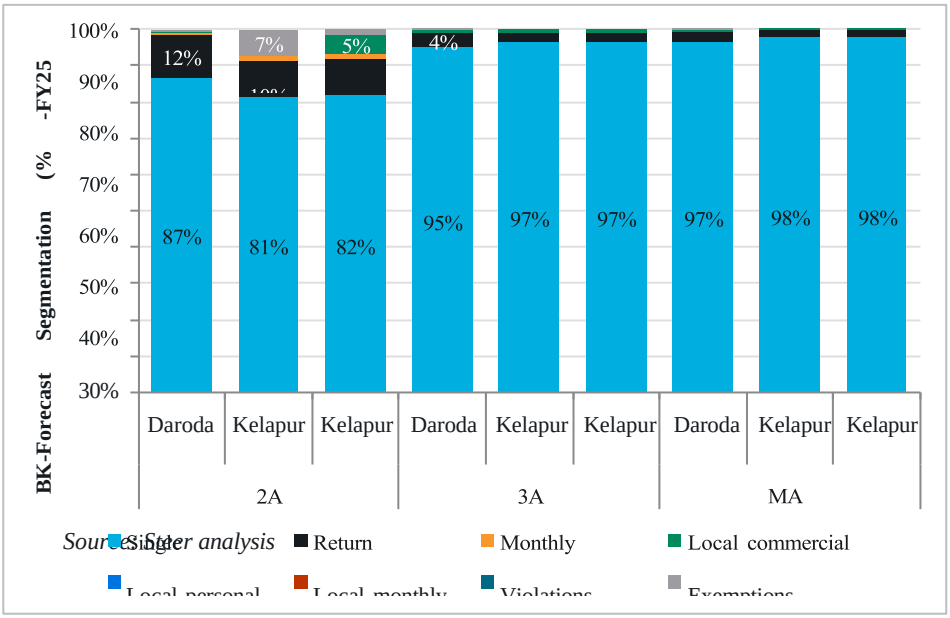


More than 85% of the commercial vehicles (2A/3A/MAVs) plying on the Asset are observed to buy single tickets suggesting through-movement on the Asset. The observation is in line with the fact that the Asset is key connector for Delhi/NCR and Maharashtra/neighbouring zones and hence caters to long-distance traffic.

However, as the above-mentioned segmentation doesn't correctly reflect the share of non-toll paying traffic, i.e., violations and exemptions at Kelapur, the same has been assessed based on the difference between TMS and TVC dataset in the final adopted segmentation.



The final forecast segmentation is shown in the charts below.



Source: Steer analysis

Figure: Toll segmentation (%) FY25 Onwards

Source: Steer analysis

Kelapur the change in segmentation will be aided by the relocation of the toll plaza. Currently, the toll plaza is located within the city, once it shifts to its new location, the urban characteristic of the plaza will shrink resulting in lesser traffic exemptions.

Traffic forecast

The increase of traffic on any existing road alignment depends on how fast the background travel demand (background growth) will grow; and on how successfully the project road is in attracting that traffic (traffic capture). Background travel demand is driven by the prevalent socio-economic conditions in the region, which include:

- Changes in factors such as population, employment, and income distribution
- Economic growth (GSDP, and GDP).
- Growth of local industries near the Asset.

The model uses India GDP and GSDP of Maharashtra & Telangana as the two macro-economic inputs which operate as growth drivers on our base year forecasts.

The network developments near the Asset's alignment which Steer believes would affect traffic on the Asset during the concession period are Nagpur Vijayawada Expressway, Raipur- Hyderabad Economic Corridor, four-laning of existing Indore-Hyderabad Alignment and DME & SCE put together.

The consultant has developed traffic and revenue forecasts for the Asset by taking into consideration all inputs discussed above – base year estimates, macro-economic assumptions, growth drivers, elasticities, and forecast ticket segmentation. The table below provides the final (background plus impacts) traffic growth on the Asset.

Table: Final (background plus impacts) AADT forecast – BK: Daroda

Vehicle Type	FY24	FY25	FY30	FY35	FY40	FY43

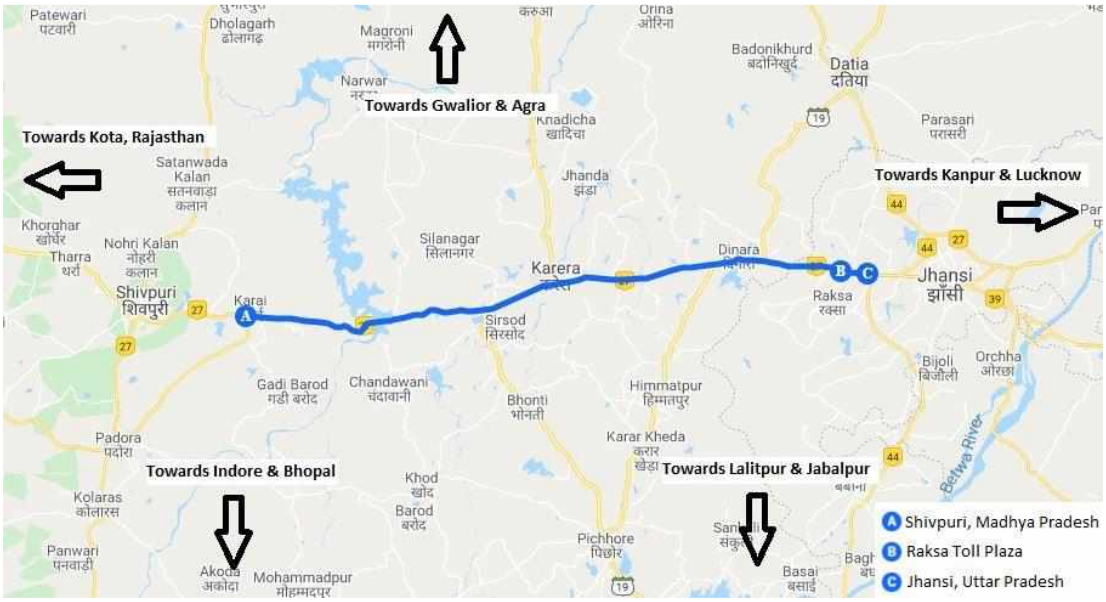
Tollable Length and Toll Rates

According to the traffic Consultant The current tolling length at Daroda and Kelapur (in FY24) is 80.08 km and 75.16 km respectively. FY25 onwards, tolling length at Daroda will be revised to 80.18 km whereas tolling length at Kelapur will remain same as in FY24. In India, toll rates are as per notification by the Ministry of Road Transport and Highways in the National Gazette. The present toll rates are determined with reference to the published base toll rates and are adjusted annually at the beginning of each fiscal year equal to 40% of the movement in the wholesale price index in December of the preceding year plus a fixed 3%.

According to the NHAI's toll notification for FY24, i.e., April 1, 2023, onwards, the toll rates at the toll plazas for Asset are as follows:In line with the NHAI's toll notification dated March 25, 2022, the toll rates at the Darodha toll plaza for Asset 7 for FY2024 are as follows:

Vehicle Type	Single Journey	Multiple Journey	Monthly Pass
Car/Jeep/Van	115	170	3835
LCV	185	275	6165
Bus/Truck	390	580	13000
Vehicles with up to 3 axles	425	635	14165
HCM/EME (Vehicles with 4 to 6 axles)	610	910	20335
Vehicles with 7 or more axles	740	1110	24665
Source: NHAI			

In line with the NHAI's toll notification dated March 25, 2022, the toll rates at the Kelapur toll plaza for Asset 7 for FY2024 are as follows:



Vehicle Type	Single Journey	Multiple Journey	Monthly Pass
Car/Jeep/Van	105	160	3585
LCV	175	260	5785
Bus/Truck	365	545	12125
Vehicles with up to 3 axles	395	595	13230
HCM/EME (Vehicles with 4 to 6 axles)	570	855	19015
Vehicles with 7 or more axles	695	1040	23150
Source: NHAI			

For further details in relation to Asset 7, please refer to **Annexure C** of this Placement Document.

Jhansi – Shivpuri Project ("Asset 8")

Project overview

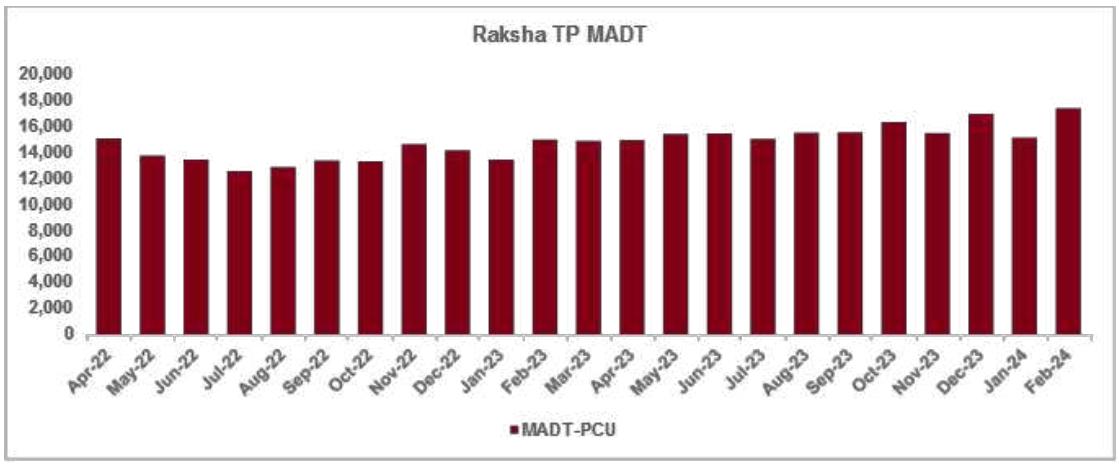
According to the Traffic Consultant, Asset 8 is a 4-lane, 75.3 kms long stretch, on national highways (NH) 27 which connects the districts of Jhansi and Shivpuri in the state of Uttar Pradesh and Madhya Pradesh, respectively. The two states Uttar Pradesh and Madhya Pradesh form the two key project stretch influence states. The project stretch has one toll plaza by the name of Raksha toll plaza which lies at the chainage of km 1374+650 near Jhansi. In the larger road network, the project stretch is a part of East-West corridor (NH-27) which connects Porbandar in Gujarat to Silchar in Assam. Hence, the project stretch witnesses higher proportion of long route traffic between the eastern and western regions.

Source: CRISIL Research

Salient growth features and traffic generators

According to the Traffic Consultant, the project stretch is used by the traffic originating and destined in regions such as Kanpur-Lucknow cluster, Indore cluster, Maharashtra and Gujarat. Lucknow and Indore are the key regions where the east-west traffic converges. Currently, the traffic between Indore-Lucknow uses the project stretch which takes them 13-14 hours and travels ~793 km. There exists an alternate route between Lucknow and Indore which passes through Chhatarpur and Sagar. This route takes 16-17 hours and the distance is 801 km. The key reason for this longer travel time is that the alternate route is a mix of 2 lane and 4 lanes. Kanpur to Bhopal section of the alternate route which is nearly 527 km is 2 lanes. Under the Bharatmala program, the section from Lucknow to Sagar and Sagar to Kandla are proposed for augmentation. Hence, the Traffic Consultant has assumed FY33 to be start year for the alternate road stretch.

Further, there is a greenfield expressway coming up in the region. The 4-lane access controlled Atal progress-way (Chambal expressway) will connect Etawah (UP) to Kota (Rajasthan). The connection point is likely to be the Agra-Lucknow expressway on one end and the Delhi-Mumbai expressway on the Kota side. Thus, the traffic from eastern region converging at Lucknow will have an alternative to the project stretch. The traffic can travel on the Agra-Lucknow expressway and Atal progress-way to reach Rajasthan. They also have Delhi-Mumbai expressway connectivity to Gujarat and Maharashtra. The Delhi-Mumbai expressway is expected to begin operations in mid-2024 and for the Atal progress-way, the Traffic Consultant has assumed FY29 to be start year for the road stretch.



Agri produce forms the key commodity travelling on the project stretch, followed by courier & parcels, construction material, consumer items, and iron and steel. Kanpur, Lucknow, Jhansi, Indore, Mumbai and Rajkot are the major contributors to the goods traffic on the project stretch. Project stretch and its vicinity regions such as Kanpur, Lucknow, Indore etc. are the key origin-destination for the passenger traffic.

The Shivpuri-Jhansi Project is a part of the East-West Corridor, which includes industrialised districts such as Kanpur and Lucknow. These districts form the origination and destination points of the traffic. Other key consumption/industrial centres include Indore, Jhansi, Ahmedabad, Mumbai, and Pune. These are also catered by the stretch. Shivpuri and Jhansi districts, immediately adjacent to the stretch, have witnessed an economic growth greater than the national average (8.4% vs 7.1%).

Traffic volume and composite of vehicles

Historical traffic data

The chart below shows the historical traffic for the project stretch:

Source: Toll Plaza data, CRISIL MI&A

Toll Segmentation

Based on detailed review of historic trends of trip segmentation, Consultant has recommended that the trip segmentation has been derived based on the average share of a single journey, return journey and categories over April 2023 to Feb 2024. For revenue calculation, the trip factor used for a return journey is two, and for a monthly pass it is 50. The trip segmentation has been assumed to remain constant throughout the projection period i.e., over fiscals 2025 to 2043:

Vehicle	Single	Return	Monthly Pass	Local Non-commercial	Local commercial	Exemption	Total
Car, Jeep, Van or Light Motor Vehicle	42.9%	36.6%	0.6%	0.2%	9.5%	10.1%	100.0%
Light Commercial Vehicle, Light Goods Vehicle or Mini Bus	56.5%	33.5%	0.2%	8.3%	0.0%	1.5%	100.0%
Bus or Truck (Two Axles)	80.1%	17.6%	0.1%	1.2%	0.0%	1.0%	100.0%
Three- axle commercial vehicles	90.5%	6.7%	0.5%	1.2%	0.0%	1.1%	100.0%
Heavy Construction Machinery (HCM) or Earth Moving Equipment (EME) or Multi Axle Vehicle (MAV) (four to six axles)	92.9%	5.1%	0.3%	1.4%	0.0%	0.3%	100.0%
Over Sized Vehicles	96.3%	3.5%	0.0%	0.0%	0.0%	0.2%	100.0%

Note: The trip segmentation provided in the table is as per the values recorded in toll plaza data. Local non-commercial is local monthly pass. Toll rate for cars is Rs 315 in fiscal 2023.
Source: Toll plaza data, CRISIL MI&A

Growth Rates

The table below provides the traffic growth rates considering diversions to expressway and other alternative routes, as provided by the Traffic Consultant:

Post-Diversion Growth Rates-Feb 2024					
CAGR	**FY24-25**	**FY25-30**	**FY30-35**	**FY35-42**	**FY24-43**
Car	8.0%	7.2%	5.6%	4.1%	5.5%
Bus	3.8%	3.6%	3.2%	2.0%	2.8%

Post-Diversion Growth Rates-Feb 2024					
CAGR	**FY24-25**	**FY25-30**	**FY30-35**	**FY35-42**	**FY24-43**
Minibus	3.8%	3.6%	3.2%	2.0%	2.8%
LCV	4.8%	-3.7%	4.4%	4.2%	2.1%
2-axle	5.2%	2.2%	4.7%	4.4%	3.9%
3-axle	4.8%	0.1%	4.2%	3.9%	3.0%
MAV	5.5%	1.9%	5.1%	4.8%	4.1%
Total PCU	5.7%	2.6%	5.0%	4.5%	4.2%

Source: CRISIL MI&A

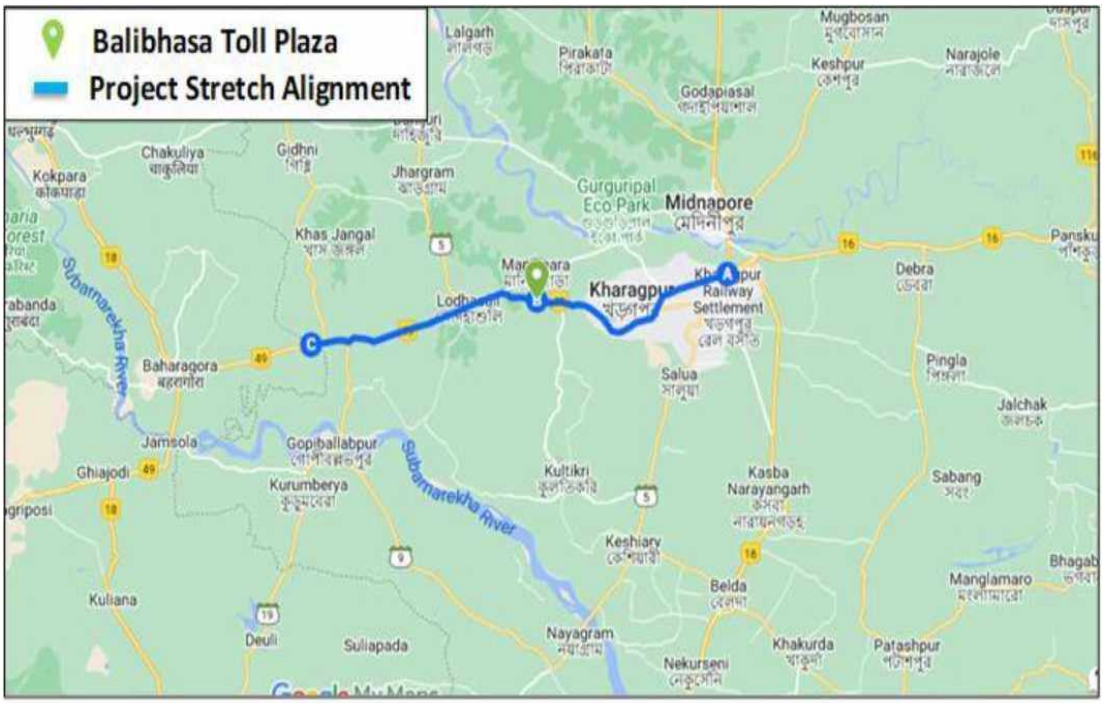
Tollable Length and Toll Rates

In terms of tollable length, the Jhansi – Shivpuri Project comprises 89.5794 kms of roads. In India, toll rates are as per notification by the Ministry of Road Transport and Highways in the National Gazette. The present toll rates are determined with reference to the published base toll rates and are adjusted annually at the beginning of each fiscal year equal to 40% of the movement in the wholesale price index in December of the preceding year plus a fixed 3%. Single toll rates in INR at the Raksha toll plaza, applicable from April 2023 until March 2024 are as provided below:

Year	Car/Jeep/Van	Minibus	2 Axle Bus	3 Axle Bus	LCV	Truck	3 Axle Truck	MAV	OSV
2024	130	205	435	475	205	435	475	680	830



Source: NHAI-TIS, Standard categorisation of vehicles is adopted for toll rates representation

For further details in relation to Asset 8, please refer to **Annexure C** of this Placement Document.

Chichra – Kharagpur Project ("Asset 9")

Project overview

According to the Traffic Consultant, Chichra-Kharagpur is a 4-lane, 56.120 kms long stretch, on national highways (NH) 49 which connects Chichra and Kharagpur to Jharkhand and Odisha states in the vicinity. The two states Jharkhand and Odisha form the two key project stretch influence states. The project stretch has one toll plaza by the name of Balibhasa Toll Plaza which lies at the chainage of km 157+915 near Guptamoni. In the larger road network, the project stretch is a part of East-West connectivity which connects Mumbai and Kolkata. Due to presence of sand mining blocks near Gopiballapur, which is in the vicinity of project stretch, the traffic is mostly West Bengal state bound, with construction materials like sand being the top commodity plying on the project stretch.

Source: CRISIL MI&A

Salient growth features and traffic generators

According to the Traffic Consultant, the project stretch is used by the traffic originating and destined in regions such as Gopiballapur (sand mining), Kolkata, Jhargram in West Bengal. For the traffic travelling in Chichra to Kharagpur direction, though West Bengal dominates as the origin state (~59% share), Jharkhand and Odisha are amongst the other states responsible for the originating traffic with almost combined share of ~29%. Sand mining is prevalent in the vicinity of stretch, due to which, sand is the topmost commodity plying on the project stretch which originates majorly from Gopiballapur belt and destined at Kolkata and nearby areas.

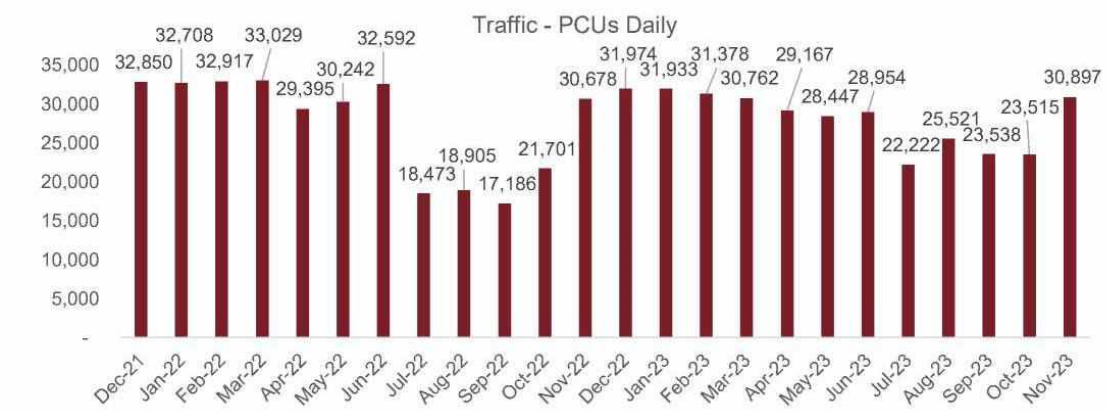
There exists an alternate route between Lodhasuli and Kharagpur which could have been a potential route to bypass the Toll Plaza, however the route is majorly under construction in patches, also it passes through multiple small villages, and moreover it is a 2L road which increases the travel time by almost 2x, in comparison to the equivalent road stretch that passes through the Project Stretch. Thus, for commercial vehicles, this route is unfavourable over the project stretch route, which shall continue to be the preferred route owing to better condition of roads, which will result in saving time too.

Further, there is a greenfield expressway coming up in vicinity of project stretch. Varanasi-Kolkata Expressway connects West Bengal and Uttar Pradesh states which is anticipated to improve the connectivity between these two states. The expressway passes through Jharkhand, which is one of the neighbouring states of West Bengal. Tatanagar, Chaibasa, Ranchi are amongst the originating points for the traffic on the project stretch. Commodities like Iron and Steel products is plying on the vehicles originating from these cities and destinated at West Bengal. However, the overall impact shall be marginal as the Traffic plying on the project stretch is mostly West Bengal bound. The impact of Varanasi-Kolkata Expressway is assumed partially from FY27 and fully from FY28 onwards.

Construction Materials forms the key commodity travelling on the project stretch, followed by Agri Produce, Iron and Steel, and courier and parcel. Gopiballapur, Mahapal, Jhargram are the major contributors to the goods traffic on the project stretch. Project stretch and its vicinity regions such as Jhargram, Midnapore, Kolkata etc. are the key origin-destination places for the passenger traffic. Sand is the topmost commodity plying on the project stretch. There are sand blocks located near Subarnarekha River, which is in the vicinity of Chichra-Kharagpur stretch. Gopiballapur, Sankrail and Mahapal are amongst the key areas where sand mining blocks are located. However, Gopiballapur belt dominates amongst the three regions with more than ~70% mining leases in the region. West Bengal government have been taking vital decisions to regulate the sand mining processes and put a cap on illegal sand mining, the impact of which could be seen in the years to come.

Rashmi Metallics plant is situated near Kharagpur district, which is one of the important industries on the project stretch responsible for the traffic movement on the project stretch. Odisha and Kolkata are amongst the key OD pairs for the traffic due to Rashmi Metallics plant.

Traffic volume and composite of vehicles



Historical traffic data

The following table shows the TVC seven-day traffic count of Chichra-Kharagpur stretch according to the Traffic Consultant:

Date	Days	Car	LCV + 2 Axle	3- axle	MAV	Total	Total (PCUs)
11/23/2022	Wednesday	2,381	3,298	1,094	3529	10,302	30,268
11/24/2022	Thursday	2,367	3,000	1,161	3865	10,393	31,197
11/25/2022	Friday	2,783	2,938	1,208	3725	10,654	30,937
11/26/2022	Saturday	2,828	2,810	1,181	3961	10,780	31,607
11/27/2022	Sunday	2,887	2,921	1,206	3767	10,781	31,237
11/28/2022	Monday	2,675	2,810	949	2968	9,402	26,453

Source: CRISIL MI&A

The chart below shows the average daily traffic on Chichra-Kharagpur stretch over December 2021 to November 2023.

Source: CRISIL MI&A

Overloading scenario on the project stretch

To ascertain the quantum of overloading, a seven day axle load survey was done by the technical consultants of the client. The results of axle load survey provided by the client, reveal that overloaded vehicles form a sizeable share of vehicles across categories. As per the survey, 49% of the MAVs, 33% of 3 axle and 11% of the 2 Axle vehicles are overloaded (considering more than 5% overload than permissible limits).

Sand, iron, steel, and coal are key commodities which are overloaded. Overloading is also prevalent in Chichra to Kharagpur direction primarily.

As per discussions with the client, it is proposed that overloading will be levied on 25% of MAV and 3 Axle vehicles which are overloaded for more than 20% of the threshold. The quantum of vehicles for charging overloading penalty is decided after considering the practical numbers which can be charged per lane per hour. The revenue potential is arrived at, by considering an overloading levy equivalent to 1x of single journey toll rates.

Following table shows the overloading scenario for commercial vehicles on the stretch.

Direction	Vehicle Category	Sample	>5% overload	>20% overload	>5% overload	>20% overload
Overall	MAV	571	281	171	49%	30%
Overall	2A	403	46	5	11%	1%
Overall	3A	286	95	44	33%	15%
Chichra-Kharagpur	MAV	286	216	147	76%	52%
Chichra-Kharagpur	2A	212	42	4	20%	2%
Chichra-Kharagpur	3A	136	79	42	58%	31%
Kharagpur-Chichra	MAV	285	65	24	23%	8%

Direction	Vehicle Category	Sample	>5% overload	>20% overload	>5% overload	>20% overload
Kharagpur-Chichra	2A	191	4	0	2%	0%
Kharagpur-Chichra	3A	150	16	3	10%	2%

Source: CRISIL MI&A

Toll Segmentation

Based on detailed review of historic trends of trip segmentation, according to the Consultant the table below presents a segmentation of total traffic assessed from the toll data from January 2023 to November 2023 (based on available data) for the Balibhasa toll plaza of Chichra-Kharagpur stretch. The trip segmentation has been assumed to remain constant throughout the projection period i.e., over fiscals 2024 to 2044 as follows:

Vehicle category	Single journey	Return Journey	Local monthly pass	Local commercial vehicles	Exemption
Car, jeep, van or LMV	34.59%	62.72%	1.63% (local non-commercial)	-	1.07%
LCV, light goods vehicle, or minibus	37.05%	61.55%	-	-	1.40%
Bus or truck (2-axle)	34.34%	65.14%	-	0.15%	0.37%
3-axle CV	64.99	34.85	-	-	0.16%
HCM, EME or MAV (4-6 axle)	53.60%	46.18%	-	-	0.22%

Source: CRISIL MI&A

The table below provides the traffic growth rates considering diversions to expressway and other alternative routes and other impact factors, as provided by the Traffic Consultant:

CAGR	FY24-25	FY25-30	FY30-40	FY24-44
Car	4.9%	4.1%	4.0%	3.9%
Bus	2.5%	2.4%	2.0%	2.1%
Minibus	2.0%	1.8%	1.6%	1.6%
LCV	4.2%	3.2%	3.0%	3.1%
2-axle	6.8%	5.0%	3.9%	4.2%
3-axle	6.5%	4.8%	4.0%	4.2%

Tollable Length and Toll Rates

In terms of tollable length, the Chichra - Kharagpur Project comprises 56.667 kms of 4-Lane equivalent length and 6.094 kms of 2-Lane equivalent length, which sums up to 62.761 kms of total tollable length. In India, toll rates are as per notification by the Ministry of Road Transport and Highways in the National Gazette. The present toll rates are determined with reference to the published base toll rates and are adjusted annually at the beginning of each fiscal year equal to 40% of the movement in the wholesale price index in December of the preceding year plus a fixed 3%.

Single toll rates in INR at the Balibhasa toll plaza, calculated as per schedule-M data, applicable until March 2024 are as provided below:

Type of Vehicle	SJ: Balibhasa
CJV	90
LCV	145
Bus/Truck	305

Type of Vehicle	SJ: Balibhasa
3A	330
MAV/ HCM/EME	475
OSV	580

For further details in relation to Asset 9, please refer to **Annexure C** of this Placement Document.

Rewa -Lakhnadon Project ("Asset 10")

Project overview

According to the Traffic Consultant, Rewa- Lakhnadon project is a 4-lane, 265 km long stretch, on national highways (NH) 30 & (NH) 34 which connects Rewa, Katni, Jabalpur and Lakhnadon districts of Madhya Pradesh. The project stretch has four toll plazas - Odhaki Paipkhar, Kherwasani, Mohtara, and Boharipar. In the larger road network, the project stretch connects East-West Corridor (NH-19), which connects Kolkata in West Bengal to Delhi and North-South corridor (NH44) towards south. The project stretch largely caters to the vehicle traffic within state only. Other prominent states with residual traffic are Uttar Pradesh, Gujarat, and Maharashtra.

Figure 1: Project and adjoining NH network map

Source: CRISIL MI&A CONSULTING

Salient growth features and traffic generators

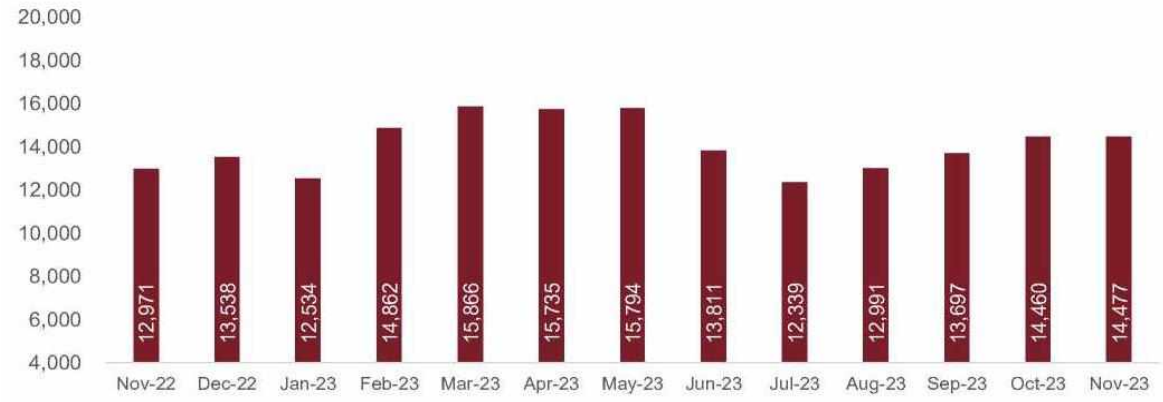
According to the Traffic Consultant, the project stretch is used by the traffic originating and destined in regions such as the Prayagraj-Varanasi cluster, & Pune-Nashik cluster. Prayagraj-Varanasi & Pune-Nashik are the key regions where the north-south traffic converges. The traffic travelling between these two clusters uses the project stretch which takes them 23-24 hours and travels ~1321 km. There exists an alternative route between Pune and Varanasi that passes through Indore and uses Jhansi Shivpuri stretch and Bundelkhand expressway. This route takes 28 hours, and the distance is ~1506 km. However, due to both longer distance and time, the route is not a threat to a long haul through traffic.

There exists an alternative route between Lucknow and Indore which passes through Chhatarpur and Sagar. This route takes 16-17 hours, and the distance is 955 km. The key reason for this higher time is that the alternative route is a mix of two and four lanes. Banda to Bhopal section of the alternative route, of nearly 430 km, is 2-lane. The Maharashtra and Gujarat traffic can also use this road, as they converge at Indore, where they will have the option to go towards

the project stretch or towards Sagar and use the alternative road. Under the Bharatmala programme, the sections from Kandla to Sagar and Sagar to Lucknow are proposed for augmentation. Hence, in the future, when the augmentation gets completed, the alternative route will be a feasible route in competition to the project stretch. We have assumed the impact of this augmented road to begin in fiscal 2028. To assess the at-risk traffic for Kandla-Sagar corridor and Sagar-Lucknow corridor, traffic between Indore (Traffic originating from Gujarat and Northern Maharashtra could choose to come via Indore) and Eastern UP have been considered.

Agri produce is the largest category on the stretch, comprising mostly wheat, rice and vegetables (including onions) from MP and UP. MP state's Rabi crop production is growing at 4%+ over the last decade, while Kharif has grown at sub 1%, and horticulture has grown at 8.2% (Food grains & Horticulture have 50-50% share in total Agri production). Hence overall agriculture growth is expected to be in the range of ~3.0%. For Mohtara, the growth rate is 5% in the short term and 2.0-3.0% in the long term on account of higher horticulture share in the OD mix.

Cement (~40%) & Stone/limestones (~35-40%) form majority of construction materials, largely originated from MP with clusters of cement manufacturing in Maihar (Satna) aka Cement capital of India, Katni, Jabalpur, and Rewa districts and the availability of limestones in the districts across the stretch. MP cement growth to be higher than national average owing to election next year and large-scale irrigation projects underway. Cement to grow at 5-6% (Central region), historical limestones production is at 3-4%



The key destination states are MP & UP owing to strong growth in housing development across schemes such as PMAY Urban and Rural. In the last five years, the central (MP and UP) and eastern (Odisha, Bihar, and West Bengal) regions exhibited strong demand led by a surge in infrastructure. construction and rural housing.

MP and UP are the key origination and destination states for the courier and parcel traffic of the project stretch. The stretch connects warehouse centres like Nagpur, Jabalpur at one end and Prayagraj & Patna at the other end. Proximity of these clusters and connectivity of consumption centres such as Jabalpur, Rewa, Satna, Prayagraj, and Varanasi is expected to lead strong growth for this category. The origination regions are key warehousing clusters such as Jabalpur, Indore, and Prayagraj. Smaller warehousing regions which have fair amount of origination on the stretch include Rewa, Katni and Varanasi.

Toll Segmentation

Based on detailed review of historic trends of trip segmentation, Consultant has recommended that the trip segmentation has been derived from the average share of a single journey, return journey and other categories, based on ETC, cash and exemption data. April 2023 - Nov 2023 period is considered for trip segmentation.

For revenue calculation, the trip factor used for a return journey is two, and for a monthly pass it is 45. Exemptions have been estimated based on the TMS dataset of the toll plazas data from Apr-22 to July-23. The trip segmentation has been assumed to remain constant throughout the projection period i.e., over fiscals 2024 to 2053.

Odhaki - Details of trip segmentation across vehicle categories

Vehicle Category	Single Journey	Return Journey	Local Monthly Pass	Local Commercial Vehicles	Exemption
Car, jeep, van or LMV	43.76%	45.60%	2.21%	0.00%	8.43%
LCV, light goods vehicle, or minibus	40.86%	44.69%	0.00%	3.80%	10.65%
Bus or truck (2-axle)	73.61%	24.95%	0.00%	0.00%	1.44%
3-axle CV	80.61%	18.24%	0.00%	0.00%	1.15%
HCM, EME or MAV (4-6 axle)	76.42%	23.40%	0.00%	0.00%	0.18%

For further details in relation to Asset 10, please refer to **Annexure C** of this Placement Document.

Kachugaon - Kaljhar Project ("Asset 11") and Kaljhar – Patacharkuchi Project ("Asset 12") (for the purposes of the summary provided below, collectively referred to as "Asset")

Project overview

According to the Traffic Consultant ,the Asset is located on the National Highway (NH) 27, the east-west corridor of India. The highway starts in Porbandar in Gujarat and ends in Silchar in Assam and passes though the states of Gujarat, Rajasthan, Madhya Pradesh, Uttar Pradesh, Bihar, West Bengal, and Assam.

The Asset consists of three toll plazas namely Patgaon (at KM 49+600, located 215km west of Guwahati), Dahalapara (at KM 971+200, located 160km west of Guwahati) and Galia (at KM 1017+350, located 120km west of Guwahati), as shown in the map below.

Source: Steer cartography using OpenStreetMap data

Salient growth features and traffic generators

The Asset is located in the state of Assam, which is the most industrialized state within northeast (NE) India. The growth observed in NE region is largely driven by the state of Assam which contributes ~ 65% to the region's economy. Some of the key industries in Assam include oil and gas, limestone and cement, and coal.

The Asset located on NH27, the east-west corridor of India, is connected via the Siliguri corridor, also called the Chicken Neck. The Siliguri Corridor and the Asset connects the seven states of northeast India to the rest of India. The Asset acts as a feeder for the NE India and caters to the long-distance traffic entering the region via Assam.

No major urban settlements are present near the Asset. Guwahati, one of the largest settlements in the northeast region, is located ~185 km from the Asset. It is a key manufacturing and industrial centre of the region and is home to numerous warehouse and storage depots. The traffic from rest of the country uses the Asset to reach Guwahati from where it is distributed to rest of northeast India, with Guwahati acting as a sink and as a source.

The north-eastern states of India, being consumption based in nature, depend heavily on the rest of India for their consumption needs. The commodities from West Bengal, central India, and north India are transported to the warehouses of Guwahati via the Asset, from where these goods are redistributed to the rest of northeast region. Key commodities observed are groceries, manufactured goods, industrial equipment, parcels and couriers, petroleum products etc. From Guwahati and rest of northeast region, trucks carry cement (from Jagiroad, Morigaon), petroleum products (from refineries in Bongaigaon, Guwahati), bamboo, tea, rubber, and groceries to the rest of country.

The state is famous for its tea cultivation and accounts for approximately half of India's tea production. Apart from tea cultivation, the state is also a major producer of rice, horticulture crops (mango, banana), spices (cardamom, ginger, and turmeric).

Assam is a major producer of crude oil and natural gas in India. Most of the oilfields in state are located in the upper Assan region with the refineries being located in Guwahati, Digboi, Numaligarh and Bongaigaon. Indian Oil Corporation Limited (IOCL) refinery at Bongaigaon is located on the Asset between Patgaon and Dahalapara plazas.

High-grade fossil limestone (Sylhet limestone) is found in Garo and Khasi hills of Assam and is majorly used for production of cement. The availability of raw material has facilitated the setting up of large cement industries in Assam. Guwahati/Kamrup district is home to the largescale industries of Purbanchal Cement, Topcem Cement, Star Cement, Dalmia Cement etc.

Traffic volume and composite of vehicles

Historical traffic data

ETC daily-level data, segmented with ticket categories, was available from December 2021 - November 2023 for Patgaon, from November 2021 - November 2023 for Dahalapara and from November 2021 - November 2023 for Galia. For Patgaon and Dahalapara, FY23 PCU is trending at 15,361 and 18,884 which grows to 15,932 and 18,937 in 8 months of FY24YTD. FY23 PCU at Galia is 19, 617 while 8 months FY24YTD is 19,102.

The revenue collection for FY23 is INR 61 million and INR 63 million for Patgaon and Dahalapara respectively. For FY24 YTD (Apr-Nov'23) it is INR 440 million and INR 435 million for Patgaon and Dahalapara respectively. For FY23, ETC collection including cash collection reported by Schedule V is INR 35Cr which for first 8 months of FY24 (Apr-Nov'23) is INR 237 million at Galia.

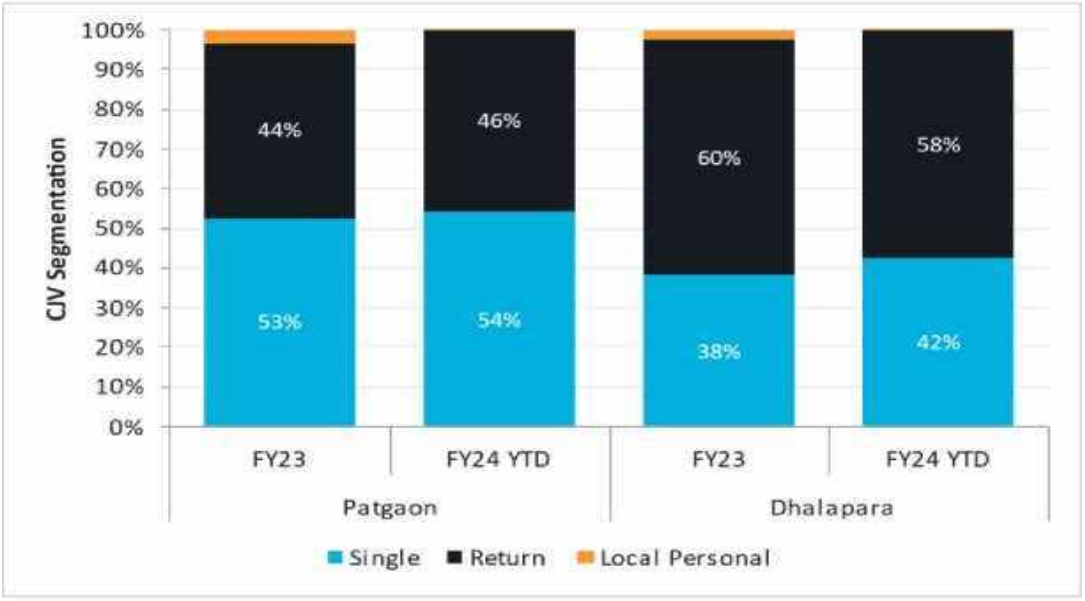
Figure: MADT, PCU Galia



Source: Steer analysis

Toll segmentation

Based on detailed review of historic trends of trip segmentation, according to the Consultant on the Asset, CJV ticket segmentation observes a healthy share of 'return' trips due to the local nature of movement. This is observed across all three toll plazas on the Asset.

The majority of MAV traffic at Patgaon, Dahalapara and Galia is long-distance traffic which has one end in Guwahati/northeast and the other in the rest of the country (west of Patgaon). Patgaon has higher influence of long-distance traffic originating from West Bengal/Bihar and North India. Whereas moving east towards the Asset the influence of local traffic from Bongaigaon, Barpeta, Pathshala, Howly increases which is visible on Dahalapara and Galia. Overall, the travel patterns remain similar on all these plazas.

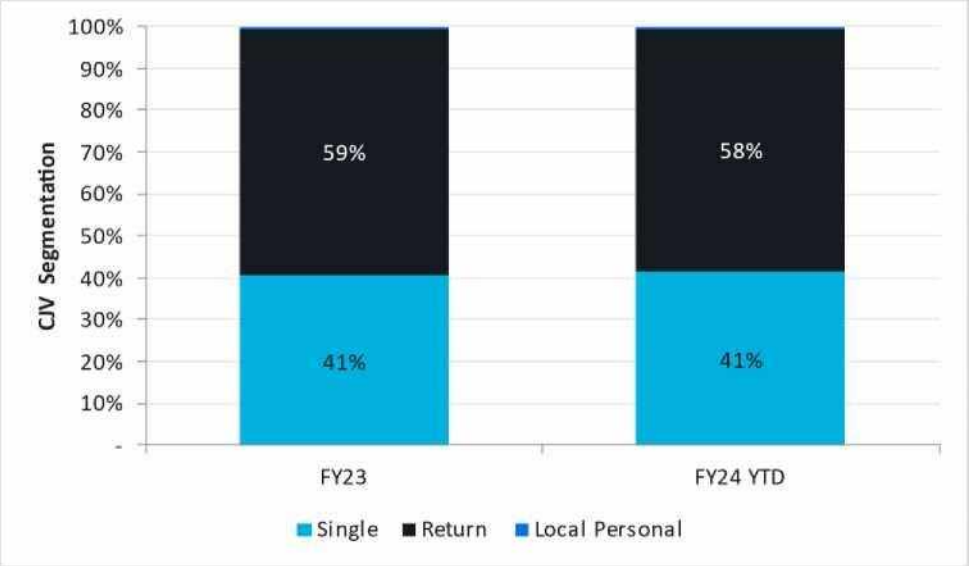


Figure: Segmentation CJV- Patgaon, Dahalapara

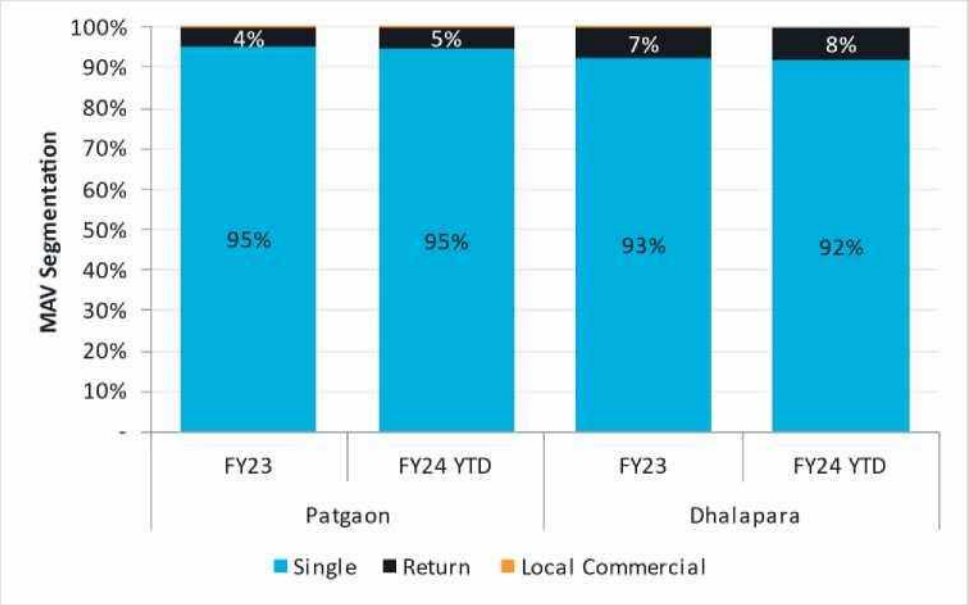
Source: Steer analysis



Source: Steer analysis

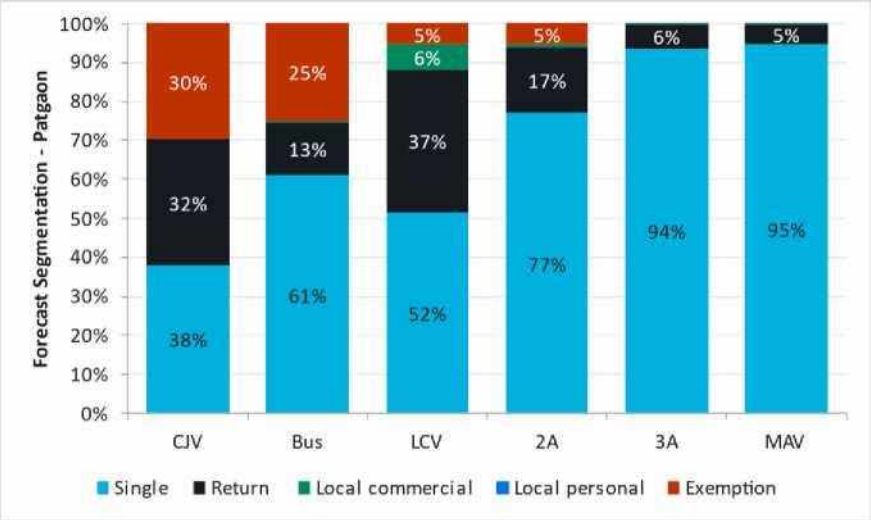
Figure: Segmentation CJV- Galia

Source: Steer analysis

Figure: Segmentation MAV- Patgaon, Dahalapara

Source: Steer analysis

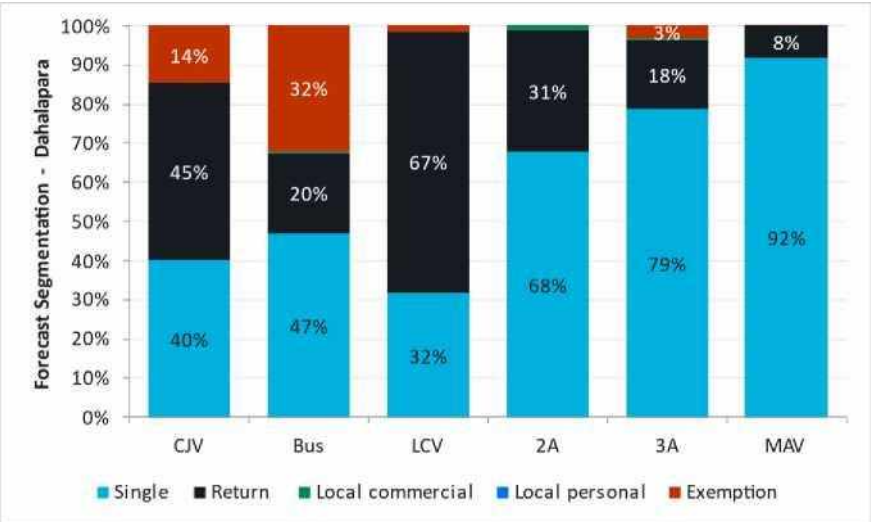
Figure: Segmentation MAV- Galia



Source: Steer analysis

However, as the above-mentioned segmentation is sourced from the ETC (segmented) dataset Patgaon and Dahalapara the segmentation doesn't include information regarding cash/monthly pass-based trips and exemptions. Therefore, the difference between ETC (segmented) and TMS dataset is added (as a % of ETC traffic) as cash (single) and monthly pass-based trips. It should be noted that the TMS data had information regarding the number cash-based and the number of monthly passes sold per day.

While for Galia cash transactions at monthly were already provided. Additionally, for exemptions the difference between TVC and ETC dataset is added (as a % of ETC traffic) in the final adopted segmentation as non-paying traffic.



The adopted segmentation of FY24YTD is shown in the charts below. We have assumed the forecast segmentation to remain same across the concession life.

Traffic forecast

The increase of traffic on any existing road alignment depends on how fast the background travel demand (background growth) will grow; and on how successfully the project road is in attracting that traffic (traffic capture). Background travel demand is driven by the prevalent socio-economic conditions in the region, which include:

- Changes in factors such as population, employment, and income distribution
- Economic growth (GSDP, and GDP).
- Growth of local industries near the Asset.

The model uses India GDP and Assam GSDP as the two macro-economic inputs which operate as growth drivers on our base year forecasts.

The network developments near the Asset's alignment which Steer believes would affect traffic on the Asset during the concession period are 4 Laning of NH17 (Hapachara to VIP Chowk) +New Goalpara bridge, Guwahati Ring Road, Flyover construction (Passenger), 4 laning of NH127B + Phulbari bridge and 4-laning of West Bengal Section (Cooch Bihar to Bilasparia to Guwahati).

Steer has developed traffic and revenue forecasts for the Asset by taking into consideration all inputs discussed above - base year estimates, macro-economic assumptions, growth drivers, elasticities, and forecast ticket segmentation. The table below provides the final (background plus impacts) traffic growth on the Asset.

Toll Rates

In India, toll rates are as per notification by the Ministry of Road Transport and Highways in the National Gazette. The present toll rates are determined with reference to the published base toll rates and are adjusted annually at the beginning of each fiscal year equal to 40% of the movement in the wholesale price index in December of the preceding year plus a fixed 3%.

According to the NHAI's toll notification for FY24, i.e., April 1, 2023, onwards, the toll rates at the toll plazas for Asset are as follows:

FY24 single toll rates Patgaon, Dahalapara and Galia

Type of Vehicle	Patgaon	Dahalapara	Galia
CJV	100	90	45
LCV	165	145	75
Bus/Truck	340	300	155
3A	370	325	170
MAV/ HCM/EME	535	470	245

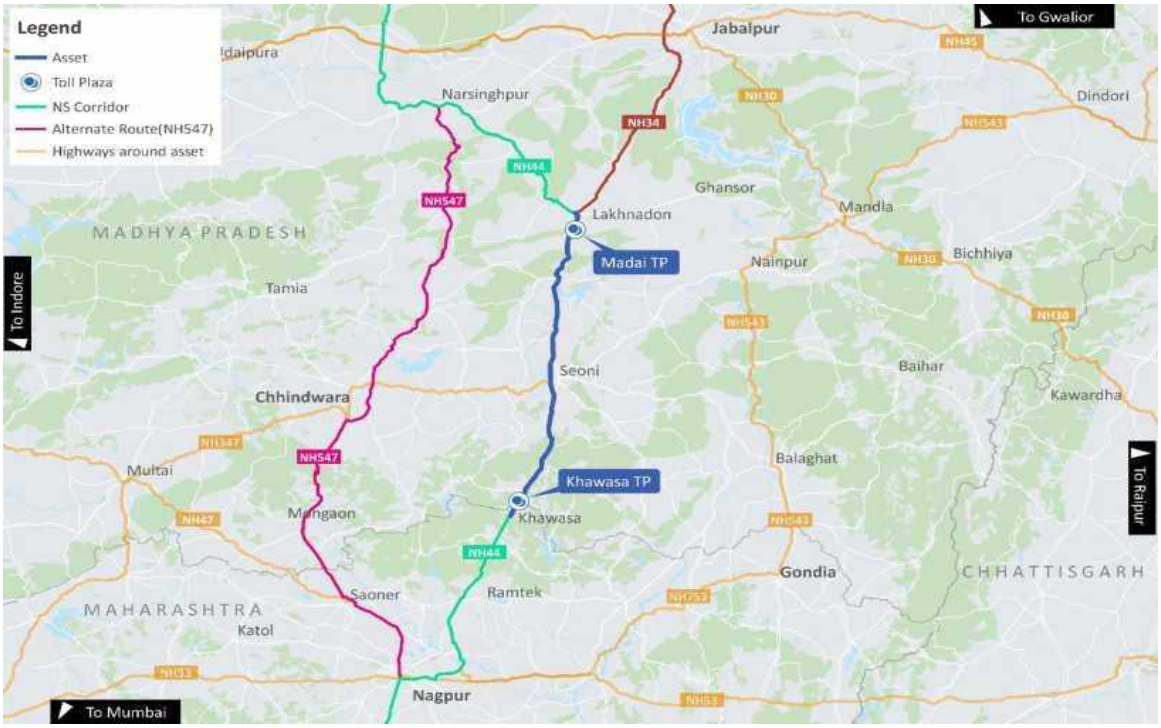
For further details in relation to Asset 11 and 12, please refer to **Annexure C** of this Placement Document.



Lakhnadon – Mahagaon (Mohgaon) – Khawasa ("Asset 13")

Project overview

According to the Traffic Consultant, the Asset forms part of NH44 north-south long-distance strategic corridor. The Asset is a 4- laned divided section between Lakhnadon and Khawasa traversing through the districts of Mandai, Chhapara and Seoni in the state of Madhya Pradesh. There are two toll plazas on the asset and are located at and is shown in the map below:

- Khawasa (KM 651+718)
- Madai (KM 549+200)

Asset context – LK

Source: Steer cartography using OpenStreetMap data

Salient growth features and traffic generators

The Asset is present in the state of Madhya Pradesh close to Madhya Pradesh and Maharashtra border. The Asset forms part of the strategic NH44 corridor catering to the north-south movement.

The Asset caters to the demand generated by the states connected through the abovementioned highway. NH44 runs over 4,112 kms completing the north-south movement and connects some of the major states and industrial centres of northern states/UTs of Jammu and Kashmir, Punjab, Haryana, Delhi, Uttar Pradesh, Rajasthan, Madhya Pradesh, Maharashtra with the southern states of Telangana, Andhra Pradesh, Karnataka, and Tamil Nadu. The traffic profile is predominantly goods vehicles undertaking both medium and long-distance movements between Nagpur, Jabalpur, Chhindwara, Delhi, Bangalore, Hyderabad and more.

The Asset lies between the urban centres of Jabalpur and Nagpur. Jabalpur has medium to large scale industries alongside agriculture-based economy. Whereas Nagpur being the manufacturing and food processing hub has industries like Butibori, Umred generating goods demand. The key economic activities are detailed below:

- **Manufacturing** segment includes products ranging from agriculture equipment, aluminium products, castings, cement, chemicals, paper and packaging, electrical equipment and fittings, textile engineering goods, tools manufacturing, fabrication and machining, ferro alloys, paints, furniture, plastic and moulding products, etc.

- **Food processing** giants having presence at Nagpur includes Haldiram, Dinshaw, Patanjali and other medium scales orange and spices processing units, etc.

- **Agriculture production** In Jabalpur, some of the important commercial crops cultivated are cotton, pulses, sugarcane, oilseeds and medicinal crops. The fertile alluvial soil of Narmada basin also provides other crops like wheat, sorghum, millet and rice. Jabalpur is the largest producer of soyabeans in Madhya Pradesh.

Apart from the above-mentioned industrial segments present in Nagpur, the following are some additional developments announced by the government for the region:

- Government of Maharashtra has set-up Multi-Modal International Passenger and Cargo Hub Airport at Nagpur (MIHAN). That will upgrade existing domestic airport along with a Special Economic Zone which is abutting to the boundary of the airport. MIHAN houses plant of Tata Aeronautics which manufactures parts for Boeing and Air India and Dassault's assembly plants.

- Container Corporations of India Limited (CONCOR) constructed Multi Modal Logistic Park along with a rail terminal connecting MIHAN with different ports in country.

Butibori industrial area established by Maharashtra Industrial Development Corporation (MIDC), north of the Asset, is one of the country's largest industrial hubs. It houses textile, machine and metal fabrication and manufacturing units and is home to industrial giants like KEC, Hyundai, and Unitech. Koradi Thermal Power Station and Khaparkheda Thermal Power Station are the two major thermal power stations located in vicinity of the hub.

Yavatmal industrial area, in west of the Asset, has textile and cotton processing industries including Raymond India's garment plant. The industrial hub is also home to export units of machineries, cement, medicines, limestones, and clothes.

Chandrapur is key coal mining centre in close vicinity of the Asset and has thermal plant, cement, paper and ferro alloy manufacturing industries.

Chhindwara is home to brands like Raymond's & Hindustan Unilever. The city has rich market areas such as Mansarover Complex, Fawwara Chowk, Nagpur Road, Gole Gunj & Gandhi Gunj. The city is home to old industries of pottery, leather moots and ornaments of zinc, brass and bell metal. On the outskirts, vegetables, especially potatoes, are raised in large quantities for export to nearby districts. Western Coalfields Limited is the major company of Chhindwara approximate ten thousand people work together here.

Seoni railway station and its goods yard work as an important agricultural export hub. It is one of the 24 districts in Madhya Pradesh currently receiving funds from the Backward Regions Grant Fund Programme (BRGF). Railway connectivity to Seoni has increased the agricultural import export business from Seoni.

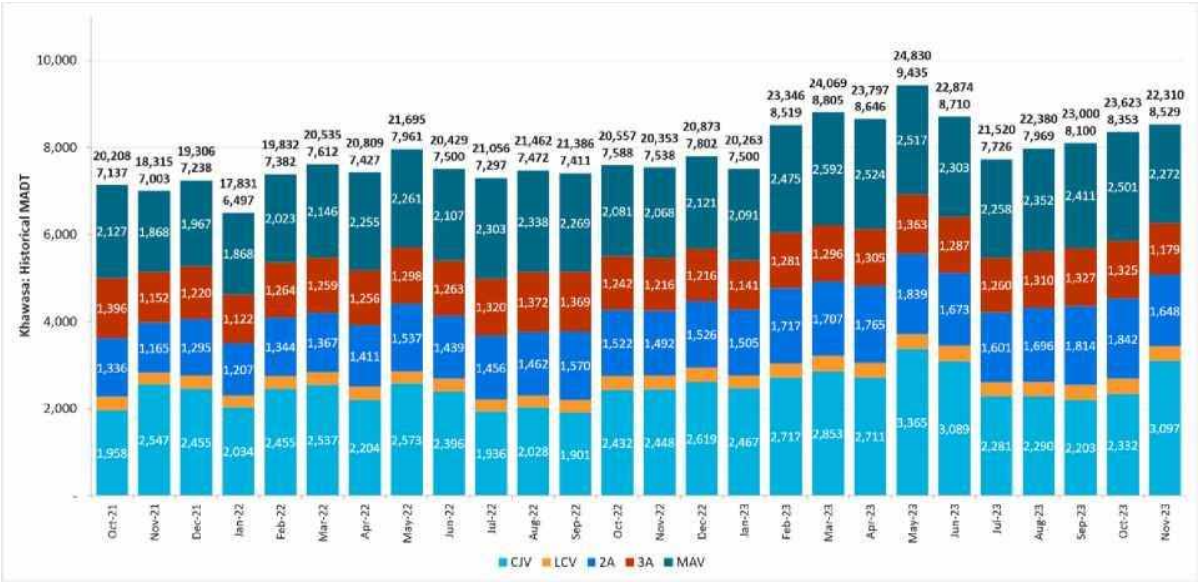
The agricultural stretches present along the Asset as well as in Nagpur generate a considerable share of traffic on the Asset. Nagpur, also known as Orange City, is famous for the production of oranges in addition to being home to large number of paddy, jowar, cotton, tur and soyabean fields. Also, Jabalpur is the largest producer of soyabeans in Madhya Pradesh. The city serves as a major wholesale market for food grains and other commodities. It is also a market center for its agricultural production of wheat, rice, green peas, maize, oil seeds and pulses.

Long-distance goods traffic has seen an increase in proportion in recent years due to the shift of traffic from other corridors to NH44 as this is the shortest route between Hyderabad/Bengaluru and Delhi.

Traffic volume and composite of vehicles

Historical traffic data

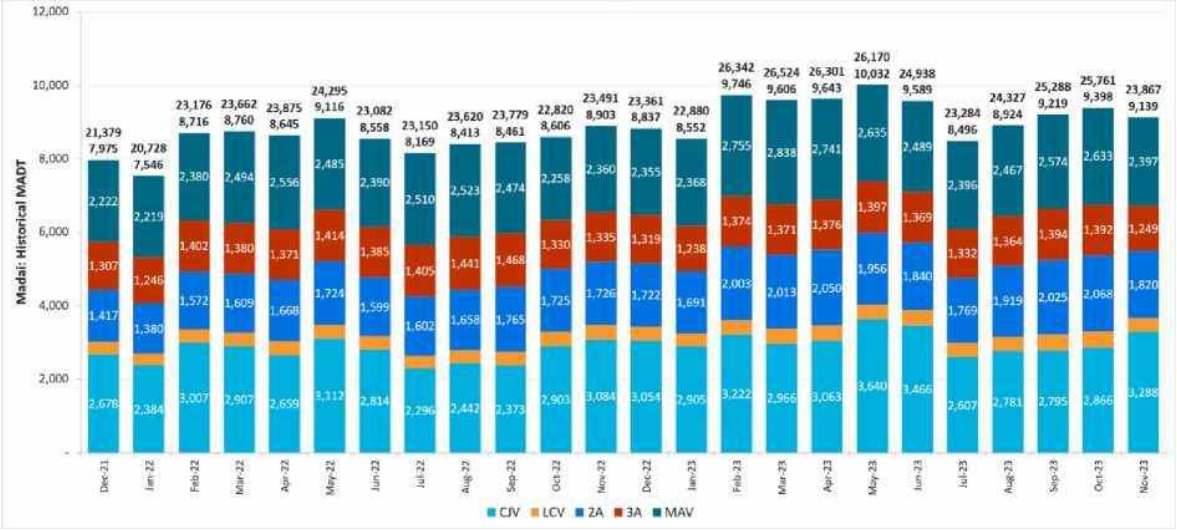
Toll plaza data from Oct-21 to Nov-23 and Dec'21 to Nov'23 for Khawasa and Madai, respectively, was shared by the Client. Therefore, to build the base estimate for FY24, we have considered:



There are three data sources as mentioned in the table above, the Electronic Toll Collection (ETC) data provided by NHAI, IHMCL data and Schedule V data. For the purpose of base estimation and analysis of traffic trends ETC and cash data has been used. For the purpose for cash transactions Schedule V has been relied upon.

All these data sets together have been considered for historical analysis and revenue reconciliation.

The Asset is trending at ~23,000 PCU for 8 months of FY24. On both the plazas, traffic composition is majorly dominated by trucks (2A/3A/MAV) with over 2/3rd of total traffic on Khawasa and Madai each, as they primarily serve long-distance north-south traffic movement. Khawasa toll plaza observed an average of ~8,433 AADT and Madai ~9,303 AADT in FY24YTD.

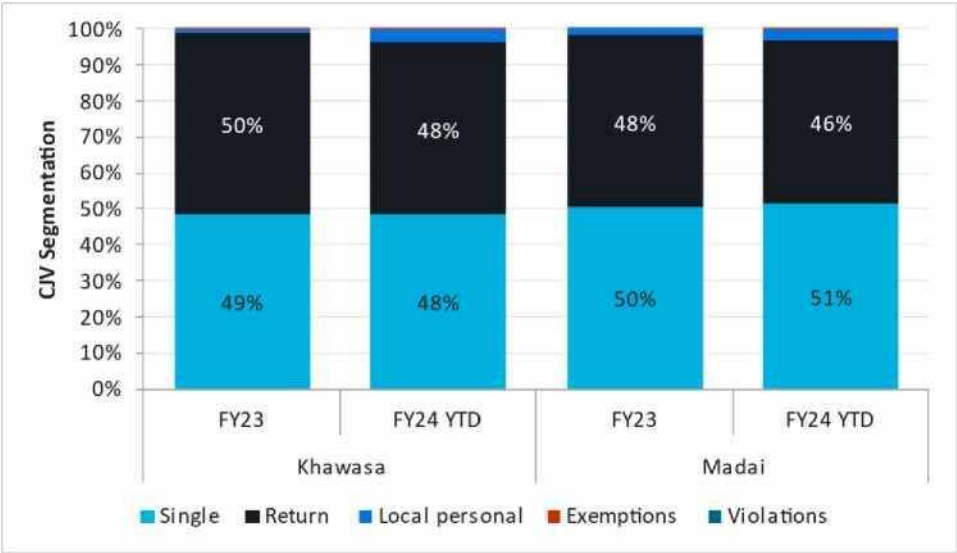


Per day Collection increased ~11% in FY24 compared to FY23 on the Asset. Total annual collection of 1,860 million in FY23 is increasing to 1,380 million in 8months for FY24YTD. On an average, the daily revenue collection on the Asset is ~INR 5.7 million.

Khawasa Historical Traffic (ETC + Cash MADT, PCU)

Source: Steer analysis of client toll plaza data

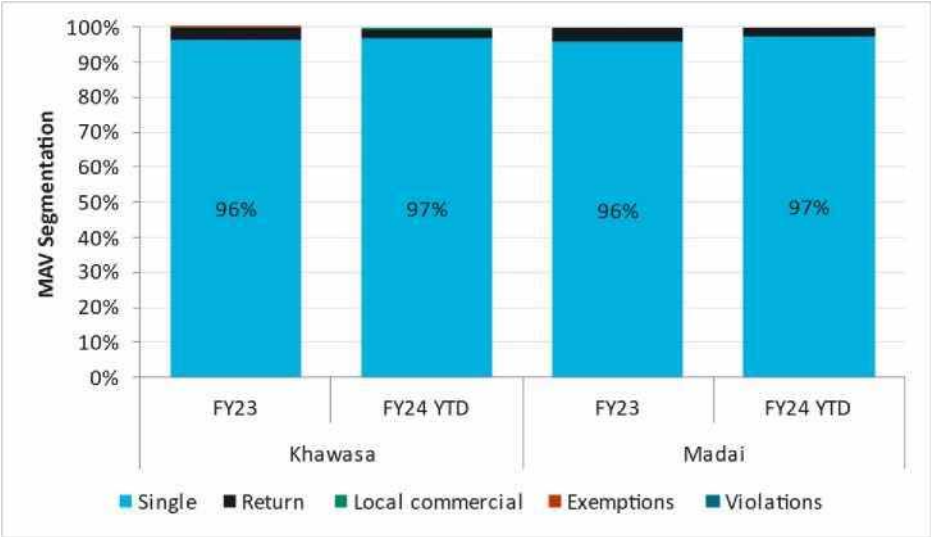
Madai Historical Traffic (ETC + Cash MADT, PCU)



Source: Steer analysis of client toll plaza data

Toll segmentation

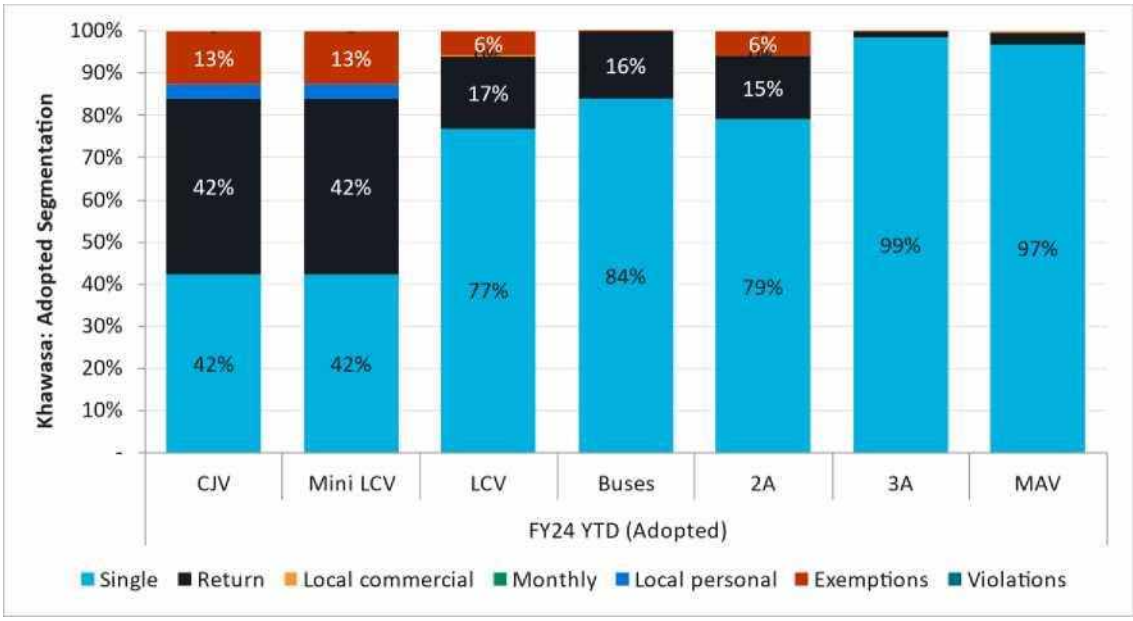
Based on detailed review of historic trends of trip segmentation, according to the Consultant on the Asset, CJVs observe approximately equal split between single and return tickets on both Khawasa and Madai as the plazas cater to inter-urban movement influenced by the presence of major consumption centres, Nagpur and Jabalpur on either ends of the asset.



Segmentation CJV

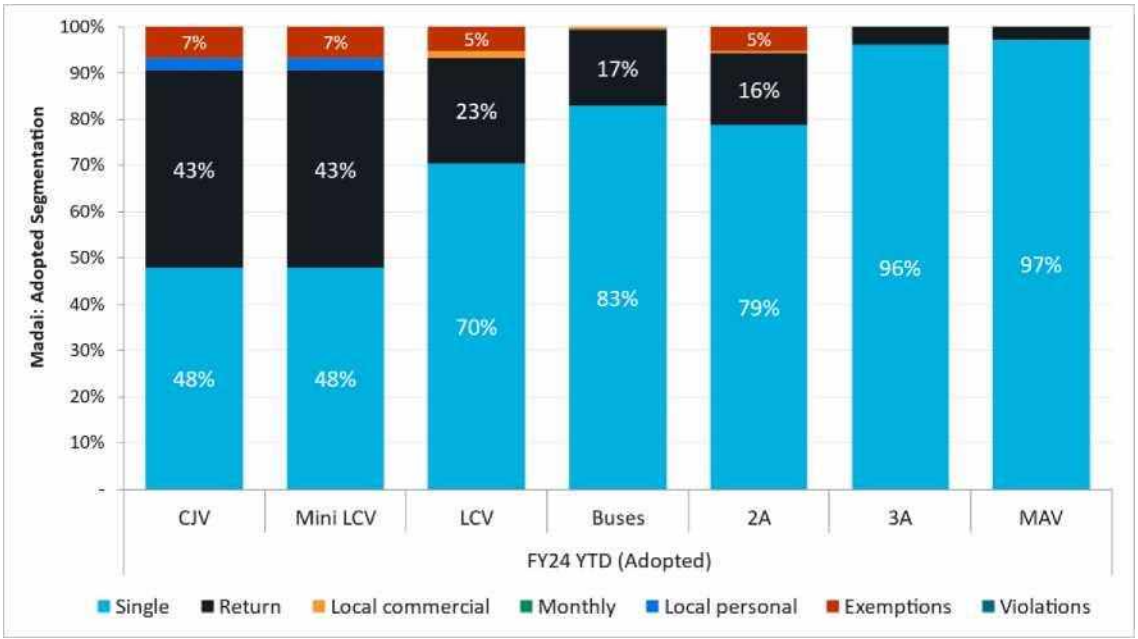
Source: Steer analysis

Over ~95% of the commercial vehicles (2A/3A/MAVs) plying on the Asset are observed to buy single tickets suggesting through-movement on the Asset. The observation is in line with the fact that the Asset is key connector for Delhi/NCR and Maharashtra/neighbouring zones and hence caters to long-distance traffic. The Asset observed negligible level of exemptions and violations for trucks.



Segmentation MAV

Source: Steer analysis



However, as the above-mentioned segmentation doesn't correctly reflect the share of non-toll paying traffic, i.e., violations and exemptions. The same has been assessed based on the difference between TMS and TVC dataset in the final adopted segmentation.

Adopted Toll segmentation (%) for Khawasa - FY24YTD

Source: Steer analysis

Adopted Toll segmentation (%) for Madai- FY24YTD

Source: Steer analysis

For Madai, Schedule V reported cash transactions at monthly were already provided for overlapping period from Nov'21 onwards. Additionally, for exemptions the difference between TVC and ETC+ Cash dataset is added (as a % of ETC traffic) in the final adopted segmentation as non-paying traffic. In data availability, same proportion of cash traffic is assumed on Khawasa as well considering their similar profile and travel pattern.

Traffic forecast

The increase of traffic on any existing road alignment depends on how fast the background travel demand (background growth) will grow; and on how successfully the project road is in attracting that traffic (traffic capture). Background travel demand is driven by the prevalent socio-economic conditions in the region, which include:

- Changes in factors such as population, employment, and income distribution
- Economic growth (GSDP, and GDP).
- Growth of local industries near the Asset.

The model uses India GDP and GSDP of Madhya Pradesh & Maharashtra as the two macroeconomic inputs which operate as growth drivers on our base year forecasts.

The network developments near the Asset's alignment which Steer believes would affect traffic on the Asset during the concession period are DME & SCE put together and 2 lane improvement of NH547+ Nagpur Ring Road.

Steer has developed traffic and revenue forecasts for the Asset by taking into consideration all inputs discussed above - base year estimates, macro-economic assumptions, growth drivers, elasticities, and forecast ticket segmentation. The table below provides the final (background plus impacts) traffic growth on the Asset.

Tollable Length and Toll Rates

In terms of tollable length, Khawasa currently (FY24) comprises 72.305 km whereas at Madai the tolling length is 74.086 km. In India, toll rates are as per notification by the Ministry of Road Transport and Highways in the National Gazette. The present toll rates are determined with reference to the published base toll rates and are adjusted annually at the beginning of each fiscal year equal to 40% of the movement in the wholesale price index in December of the preceding year plus a fixed 3%.

According to the NHAI's toll notification for FY24, i.e., April 1, 2023, onwards, the toll rates at the toll plazas for Asset are as follows:

Single toll rates on the Asset (INR), applicable for FY24

Type of Vehicle	Khawasa	Madai
CJV	105	105
LCV	165	170
Bus/Truck	350	360
3A	380	390

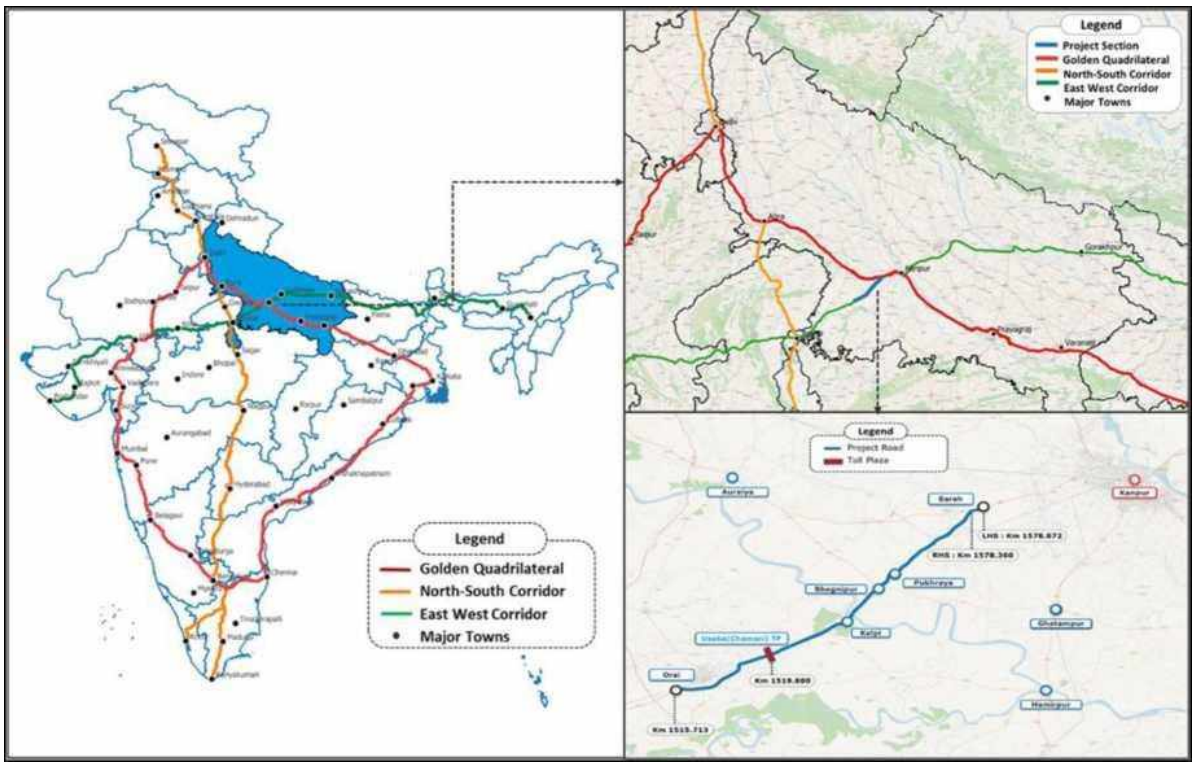
For further details in relation to Asset 13, please refer to **Annexure C** of this Placement Document.

Orai – Barah Project ("Asset 14")



Project Overview

According to the Traffic Consultant the project highway, NH-27, is a crucial part of the East-West corridor, as envisioned in the National Highway Development Program (Phase-II). This project spans approximately 3,530 km, starting from Porbandar in Gujarat and ending in Silchar, Assam, passing through Rajasthan, Madhya Pradesh, Uttar Pradesh, Bihar, and West Bengal. The highway connects several prominent tourist and industrial cities, such as Porbandar (a port city), Rajkot, Palanpur, Udaipur, Chittorgarh, Jhansi, Kanpur, Lucknow, Muzaffarpur, Purnea, Siliguri, and Jalpaiguri etc.

The project road section Orai-Barah, with approximate length of 62.8 km, starts near Orai in Jalaun district and ends near Barah in Kanpur Dehat district. The project road has one operational toll plaza (Usaka TP) near Chamari.

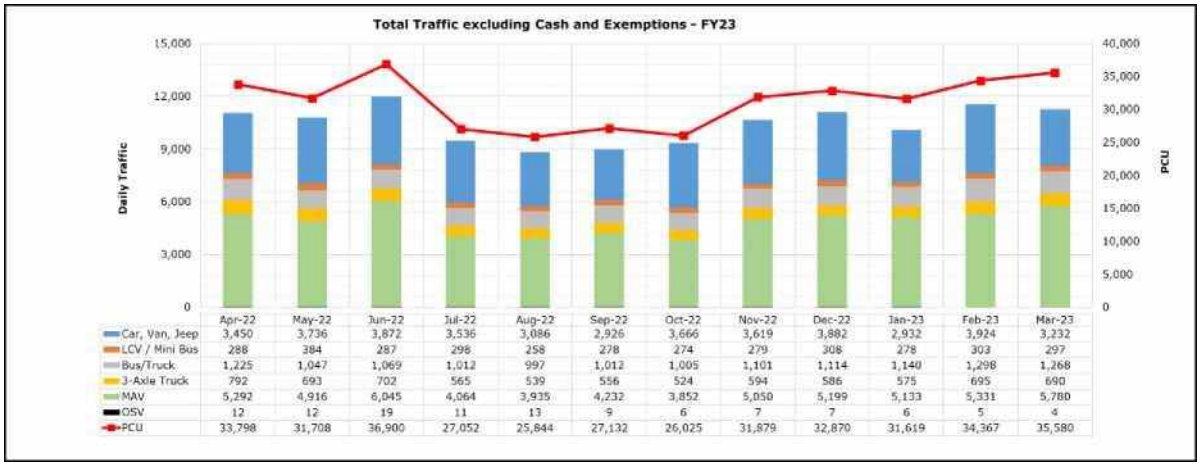
Figure below shows the context and alignment of project road with major places along the highway.

Orai-Barah Section and Location of Toll Plaza

Project Road Characteristics and Profile of Influencing Districts

The project road serves as a major route for east-west long-distance traffic between the Lucknow/Gorakhpur/eastern region and Palanpur/Rajkot/western region, while also catering to short-distance traffic between Orai/Jhansi and Kanpur/Lucknow/Unnao areas. The project road section is located in the districts of Jalaun and Kanpur Dehat.

The economy of Jalaun district broadly relies on agriculture with wheat, pea, lentil, gram, different types of pulses, mango, mushrooms and other crops being major agricultural products. Despite being moderately industrialized, the district has a few industries of handloom, dairy, and agro food processing. Pea has been listed under the ODOP Programme by MOFPI, while handmade paper art has been listed by GoUP under its ODOP Programme.



Kanpur Dehat district is located in the central plain zone, with fertile agricultural hinterland being its advantage. The staple agricultural produce includes wheat, paddy, rice, pulses, sugarcane, oil seeds, maize, and potato. Fisheries and animal husbandry also contribute to its economy. The district is moderately industrialized, with leather, iron, food grains, yarn, wood, cloth, and fertilizer being some of the important commodities exported. Milk products have been listed under the ODOP Programme by MOFPI, while aluminium utensils have been listed by GoUP under its ODOP Programme.

Annual Average Daily Traffic (AADT)

<u>Estimation of FY23 AADT</u>

The month-on-month mode wise ETC data (excluding cash and exemptions) for the period April 2022 to March 2023 for the toll plaza is presented below.

Month on Month Traffic Data for Usaka TP - FY23

The AADT for FY23 has been derived using ETC data for the period of 12 months from the complete financial year data series of FY23 viz., April 2022 to March 2023. The daily cash and exemption data was available from the traffic count summary report of M/s PATH Ltd for the period of April 2022-December 2022. The FY23 AADT has been derived by adding these exemption and cash traffic to the estimated FY23 ETC AADT. The steps of derivation of FY23 AADT are presented below:

Estimation of FY23 AADT

Sr. No.	Particulars	Car/Jeep/Van	LCV	2 Axle	3 Axle	MAV	OSV	PCU
Daily Total Traffic without Cash and Exemptions								
A = April 2022-March 2023 Monthly Traffic/365	Total Traffic without Cash and exemption	3,485	294	1,106	625	4,896	9	31,192
Daily Cash and Exemptions from the Traffic Count Summary Report of PATH								
B	Daily Cash (Apr- Dec 2022 Avg)	72	4	2	1	1	0	-
C	Daily Exemptions (Apr-Dec 2022 Avg)	430	7	5	2	4	0	-
D = A+B+C	**Total Traffic with Cash and Exemption - AADT FY23**	3,987	304	1,112	628	4,901	9	31,760

Estimation of FY24 AADT

The month-on-month mode wise ETC data (excluding cash and exemptions) for the period April 2023 to November 2023 for the toll plaza is presented below:

Month on Month Traffic Data for Usaka TP - FY24

	Apr-23	May-23	Jun-23	Jul-23	Aug-23	Sep-23	Oct-23	Nov-23
Car, Van, Jeep	3,111	3,843	3,663	2,983	2,944	2,926	3,189	3,908
LCV / Mini Bus	293	312	317	290	278	286	314	301
Bus/Truck	1,201	1,171	1,154	1,066	1,114	1,104	1,150	1,186
3-Axle Truck	686	640	611	565	567	582	596	543
MAV	5,762	5,408	5,355	4,274	3,954	4,578	4,640	3,915
OSV	5	5	5	4	4	3	4	5
PCU	35,162	34,102	33,553	27,559	26,211	29,027	29,795	27,185

The ETC data has been made available for the period of 9 months from April 2023 to November 2023. Based on the analysis of the traffic, FY24 AADT for cars and LCVs have been estimated by applying 8-12 months factor on April-November 2023 average ETC traffic. For other modes of 2A/3A and MAV, it is found appropriate that the base traffic from Aug to November is utilised for estimating the AADT for FY24 as these months present the actual trend of traffic after opening of Bundelkhand Eway. In view of this, 412 months factor has been applied on August-November 2023 average traffic of these modes. The correction factors were derived from average ETC traffic for FY23 of the adjacent toll plazas of Ait, Semri and project road TP of Usaka.

The steps of derivation of FY24 AADT are presented below:

Estimation of FY24 AADT

Sr. No.	Particulars	Car/Jeep/Van	LCV	2 Axle	3 Axle	MAV	OSV	PCU
Daily Total Traffic without Cash and Exemptions								
A. April-Nov 2023 Average	Total Traffic without Cash and exemption	3,823	309					
B. Aug-Nov 2023 Average				1,145	575	4,276	4	
C. 8-12 months (April-Nov)	SCF	1.02	1.01					
D. 4-12 months (Aug-Nov)				1.05	1.09	1.10	1.09	
E. ETC AADT		3,888	312	1,205	625	4,702	4	31,021
Daily Cash and Exemptions from the Traffic Count Summary Report of PATH								
F	Daily Cash (Apr-Dec 2022 Avg)	72	4	2	1	1	0	
G	Daily Exemptions (Apr-Dec 2022 Avg)	430	7	5	2	4	0	
AADT FY24 Including cash and Exemptions								
I = E+F+G	**AADT**	4,389	322	1,211	628	4,706	4	31,589

Travel Pattern as per November 2022 OD Survey

- Provides direct connectivity to Kanpur/Lucknow & beyond in the east and Jhansi/Gwalior/Indore & beyond in the west.
- Project road is majorly influenced by the stone mining units located near Jhansi. About 50 percent of freight and around 90 percent of passenger traffic on the project road has interactions between Jhansi/Orai and Kanpur/Lucknow. About 15 percent of freight traffic is to/from Indore/Bhopal from/to Kanpur/Lucknow.

- The majority of car traffic (around 37.9 percent) has trip lead between 100 to 200 km at toll plaza location. These trips are observed mainly from/to Orai/Jhansi to/from Kanpur/Unnao/Lucknow/Kalpi/Daulatpur. In addition, short distance trips (>25 & < = 50 km) of about 15.8 percent are found to be between Orai to Kalpi/ Daulatpur/Bhognipur/Pukhrayan.

Network Impacts

In context of the project road, two road network developments which may impact the traffic on the project road are:

- Improvement of Sagar-Kanpur-Lucknow corridor under Bharatmala Pariyojana - applicable traffic stream is from/to Indore/Bhopal & surroundings to/from Kanpur & beyond.
- Completion of Chambal Expressway (CE) and Delhi-Mumbai Expressway (DME) - Analysis done for two traffic streams:
- Ahmedabad & surroundings - Kanpur & beyond
- Mumbai & surroundings - Kanpur & beyond

The potential traffic and diverted traffic related to these two developments are presented below:

Diversion Analysis for Indore-Kanpur via Sagar Route

Modes	2A	3A	MAV
Potential Traffic as % of AADT			
Indore-Kanpur via Sagar Route			
Indore-Kanpur via Sagar traffic as % of AADT	4.6	5.8	8.1
Ahmedabad/Mumbai via DME & CE Route			
Ahmedabad-Kanpur Traffic via DME & CE	6.7	7.7	7.5
Mumbai-Kanpur Traffic via DME & CE	5.7	8.1	9.9
Loss as % of AADT			
Indore-Kanpur via Sagar Route	-0.9	-1.1	-1.7
Ahmedabad/Mumbai via DME & CE Route (A)	-8.7	-11.5	-11.6
Adopted Loss as % of AADT			
Indore-Kanpur via Sagar Route	-0.9	-1.1	-1.7
Ahmedabad/Mumbai via DME & CE Route			
B. Captive Traffic for PR (%)	33.3	33.3	33.3
C. Diverted to Expressway (%) = A*(1-B)	-5.8	-7.7	-7.7

The Kandla - Lucknow economic corridor is expected to be completed in FY28. Therefore, the impact of Indore - Kanpur via Sagar diversion has been considered under the base case from FY28 onwards and phased over three years with 50% diversion in FY28, 75 percent in FY29 and 100% in FY30 onwards.

Similarly, the impact of Ahmedabad/ Mumbai via DME & CE route has been considered under the base case from FY29 onwards and phased over three years with 50 percent diversion in FY29, 75 percent in FY30 and 100 percent in FY31 onwards.

Traffic Growth rates

The estimated traffic growth rates for the project road based on the elasticity approach along with the implied growth rates after considering the impact of diversions have been presented below:

Projected Traffic Growth Rates for Project Road (%)

Cars FY/Modes	LCV	Bus/ 2A Truck	3A	MAV	Cars	LCV	Bus/ 2A Truck	3A	MAV	
	Normal Growth Rates	Implied Growth Rates								
2025	8.1	3.1	3.1	3.8	6.2	8.1	3.1	3.1	3.8	6.2

2043	15,453	540	1,948	1,066	11,182	10	75,670
2044	16,268	550	1,985	1,092	11,614	11	78,634
CAGR (%) (FY24 to FY44)	6.8	2.7	2.5	2.8	4.6	5.1	4.7

Tolling Segmentation

The tolling stream distribution has been estimated from the ETC data of FY24 (August 2023 to November 2023) to which annualised Cash & Exemptions data available from April 2022 to December 2022 has been added. The resultant ticket distribution is presented below:

Tolling Distribution

Type	Car	LCV	Bus/ 2A Trucks	3A Trucks	MAV	OSV
Single	36.4	72.9	62.3	83.7	47.0	100.0
Return	44.5	24.9	36.5	15.0	51.9	
Monthly						
Local personal	2.7					
Local commercial	0.4	0.0	0.7	0.9	1.0	
Exemptions and Violations	16.0	2.3	0.4	0.4	0.1	
Total	**100.0**	**100.0**	**100.0**	**100.0**	**100.0**	**100.0**

Tollable Length and Toll Rates

The details of normal tolling lengths, bypass length (at 1.5 times) and equivalent structure lengths being charged at toll plaza as per the information in Schedule M for the project road are presented below:

Tolling Length (in km) for the Project Road

Usaka (TP01) at km 1519.880	FY24 onwards
A. Normal	61.729
B. Bypass	0.000
C. Eq. structure	11.74
Total Road Length	62.903
Tolling Length = A+(B*1.5) + (C*10)	73.469

The stream of toll rates to be charged at the toll plaza of the project road in cardinal years till FY44 is presented below:

Table 8: Toll Rates at Toll Plaza (in Rs)

FY	Car	LCV	Bus/ 2- axle Truck	3-axle Truck	MAV	O/size/ HME	Car Local
2024	105	170	355	390	560	680	330
2025	110	175	365	400	570	695	340
2030	135	215	455	495	710	865	420
2035	165	265	555	605	870	1,060	515
2040	200	325	675	740	1,060	1,290	630
2044	235	380	795	865	1,245	1,515	735

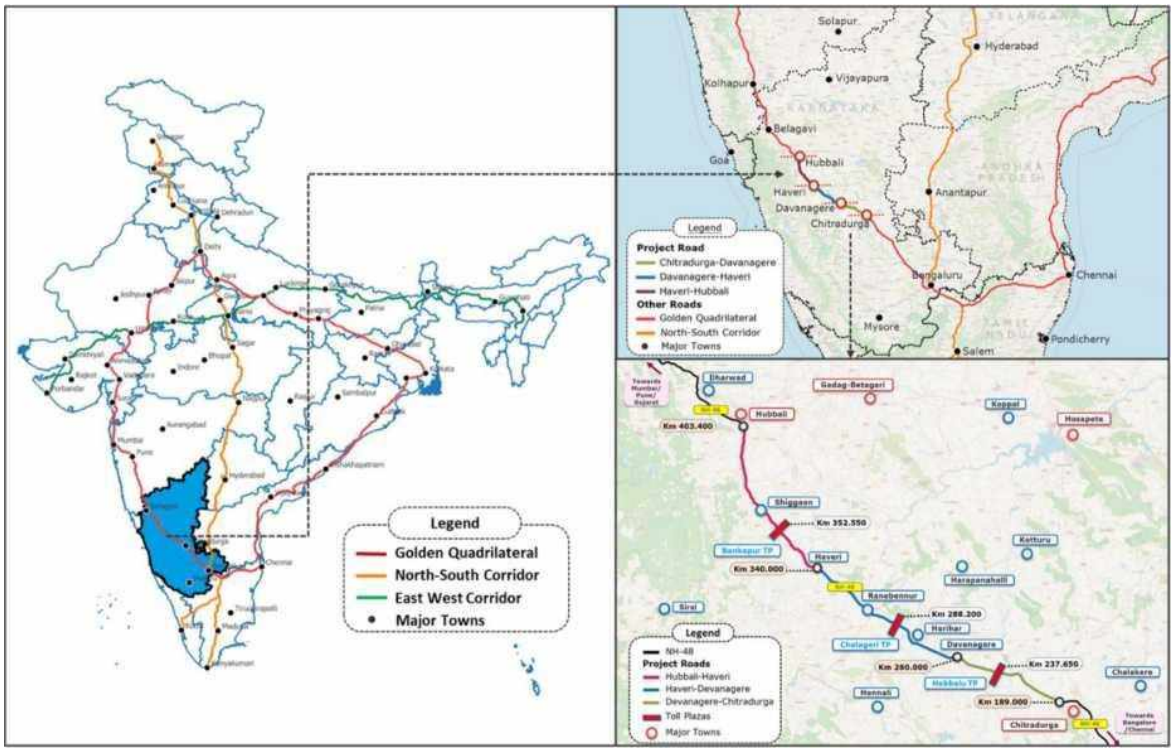
Note: The toll fee has been rounded to nearest 5 Rupees as per toll fee rules.

For further details in relation to Asset 14, please refer to **Annexure C** of this Placement Document.

Chitradurga Bypass – Hubli Project/ Karnataka Project ("Asset 15")

Project Overview

According to the Traffic Consultant the project highway, NH-48 (Old NH-4), is part of the Golden Quadrilateral connecting many of the major industrial, agricultural and cultural centres of India. The total length of NH-48 (Old NH-4) is roughly 1,235 km starting from Chennai in the state of Tamil Nadu and ending at Mumbai in the state of Maharashtra. The highway acts as a primary conduit for transportation of freight as well as passenger traffic in these states as well as various other important states in India. NH-48 (Old NH-4) connects important cities and towns like Pune, Satara, Karad, Sangli, Kolhapur, Belgaum, Dharwad, Hubli, Bangalore etc.



The project road section consists of three continuous toll roads and the details of the three project road sections, lengths, chainage, toll plazas and tolling lanes at the toll plaza locations are presented in the table below:

Details of Project Section

S No.	Project Section	Length (km)	Start km	End km	Toll Plaza	Tolling Lanes
1	Hubli-Haveri	71.0	Km 340.00	Km 403.40	Bankapur (km 352.550)	7+7
2	Haveri-Davangere	72.0	Km 260.00	Km 340.00	Chalageri (km 288.200)	7+7
3	Davanagere-Chitradurga	62.0	Km 189.00	Km 260.00	Hebbalu (km 237.650)	7+7

Figure 1 shows the context and alignment of project road with major places along the highway.

Figure 1: Alignment of Project Road and Location of Toll Plazas

Project Road Characteristics and Profile of Influencing Districts

The project road, in wider context, serves the long-distance traffic for the freight vehicles, which is majorly plying between Mumbai/ Pune/ Delhi Chitradurga/Bangalore/ Chennai/ Vellore. Apart from long distance traffic, it also serves the short distance traffic for both passenger and freight which is mainly generated between Hubli/Dharwad/Haveri/Davanagere/Ranebennur/Chitradurga and nearby places.

The project road falls under the jurisdiction of four districts in the state of Karnataka.

Dharwad is one of the emerging districts in North Karnataka region and its economy relies broadly on agriculture with jowar, wheat, Bengal gram, tur dal, ground nut, onion, maize, sunflower and cotton as the major produce. Dharwad district is fast developing as the commercial and industrial hub in the state. These industrial areas have several small, medium and scale industries present some of which include agro equipment and agro food processing industries, polymers, engineering works, steel and wire works, engineering and automobiles manufacturing, chemical and fertilizers industries, textiles, paper products, printing, and other consumer products-based industries.

Haveri district is majorly dependent on agriculture for its economy with major produce being maize, paddy, jowar, hybrid cotton, groundnut, chilly, pulses etc. It is rich in spice cultivation and the major spice industry in the district has chilly powder mills and processing facilities. The district also has an industrial base having several large and medium industries having Agriculture and allied industries, sericulture, animal husbandry, textile and handloom industries as potential industrial sectors in the district.

Davanagere district economically is dependent on agriculture primarily with major agricultural crops including paddy, maize, red gram, green gram, black gram, groundnut, sunflower, sugarcane, cotton etc. Davanagere is known as the Manchester of Karnataka and has a dominant textile sector that is set to grow along with the food processing sector which provides the highest employment in the district. The district has large industrial units, small and medium scale industries. Other notable sectors include agro and allied activities, wood and wood-based furniture manufacturing industries, horticulture units of marigold dye processing and arecanut processing.

Chitradurga district has agriculture as the backbone of the district economy having major agricultural produce of paddy, ragi, jowar, maize, red gram, horse gram, green gram, black gram, bengal gram, tur, groundnut, sunflower, cotton, tobacco and betul nut. The district also has several small-scale industrial units in the district are engaged in agro and food processing activities and textile constitutes second highest number of large & medium scale industries in the district. The district is rich in mineral reserves of iron ore, manganese, limestone, dolomite, gray granite and building stone. Chitradurga is the 4th largest producer of wind energy in the country.

Annual Average Daily Traffic (AADT)

The AADT for FY24 has been derived from the average of ETC toll data of FY24 from April 2023 to November 2023. The cash (April - November 2023) and exemption traffic (average of October and November 2023) has been added to the ETC traffic. This 8month traffic has been annualised by applying an 8-12 month factor from IHMCL for cars and for rest of the modes, factor has been adopted from the adjacent section of Belgaum Dharwad. The AADT for FY24 derived for all three toll plazas with 8 months to yearly factors is presented in the table below:

AADT for FY24

Mode	Car	LCV	Bus/Truck	3A	MAV	OSV	PCUs
Bankapur(TP01)							
A. Apr 23 - Nov 23 (ETC Traffic +Cash)	6,472	1,430	2,710	940	1,619	6	26,879
B. Oct 23 - Nov 23 Average Exempt	639	11	8	1	0	0	
C. ADT (A+B)	7,111	1,441	2,718	940	1,620	6	27,563

C. ADT (A+B)	7,792	1,444	2,492	924	1,595	6	27,406
D. SCF (8-12-month factor)	1.01	1.05	1.06	1.03	1.03	1.03	
E. AADT FY24 (C*D)	**7,900**	**1,512**	**2,634**	**948**	**1,638**	**6**	**28,311**

Travel Pattern

- Serves the long-distance traffic majorly plying between Mumbai/ Pune/ Delhi Chitradurga/Bangalore/ Chennai/ Vellore.
- The project road also serves the short distance traffic for both passenger and freight which is mainly generated between Hubli/Dharwad/Haveri/Davanagere/Ranebennur/Chitradurga and nearby places.
- The passenger traffic on the road were found to be for the purpose of work and business at the toll plaza locations.
- The MAV traffic is observed to be having Bangalore-Mumbai as top OD pair at all three toll plazas.

Network Impacts

In context of the project road, two road network developments which may impact the traffic on the project road are:

Impact of Pune - Bangalore Expressway

The assessment for the route between Pune and Bangalore/Chennai has been done for the four traffic streams:

- Traffic plying between Mumbai/Pune/Nashik & surroundings and Bangalore & beyond
- Traffic from/to Mumbai/Pune/Nashik & surroundings to/from Chennai & beyond
- Traffic plying between Hubli and surroundings and Bangalore & beyond
- Traffic from/to Hubli and surroundings to/from Chennai & beyond

The total diverted traffic after the operation of Pune Bangalore Expressway at the three toll plazas is presented in the table below

Total Impact Due to Pune-Bangalore Expressway

Modes	Car	2A	3A	MAV
Bankapur(TP01)	5.4%	15.0%	34.2%	33.1%
Chalageri (TP02)	5.7%	15.7%	35.3%	33.4%
Hebbalu (TP03)	5.0%	16.3%	34.8%	33.6%

The proposed expressway will be a greenfield alignment and considering the usual timelines for a long greenfield expressway project, the diversion impact is considered from FY31 onwards under Base Case. Owing to the gradual shift of traffic away from the project road, the traffic impacts have been assumed to take place in phases with about 50 percent in FY31, 75 percent in FY32 and 100 percent from FY33 onwards.

Impact of completion of 6 laning construction activities on National Highway 48 (Old NH-4- Route via PR)

The potential and divertible traffic (gain) due to completion of 6 laning construction activities on National Highway 48 (Old NH-4) is presented in the table below:

Potential and Divertible Traffic Due To Completion Of 6 Laning Construction Activities On NH-48 (Route via PR)

Potential Traffic (Nagarhalla TP)	2A	3A	MAV	2A/3A/MAV	PCU
A. Earlier study of Solapur-Bijapur (July-22) - FY23	156	80	197	434	1,598
B. Traffic on Solapur-Bijapur -FY24 (5% growth on earlier study) - A*(1+5%)	164	84	207	456	1,678
C. AR potential at Nagarhalla TP (FY24)	284	124	539	947	3,650
D. SCF Jan	0.90	0.99	0.93	-	-
E. AADT (C*D)	257	123	504	883	3,406
F. Absolute Increase (E-B)	93	39	297	428	1,728
G. % Shift to PR	61.4%	61.9%	66.2%	-	-
H. Traffic Shift to PR (F*G)	57	24	196	277	1,126

NH-48 may have a gain of about 57 2A trucks, 24 3A trucks and 196 MAV trucks resulting in a total PCU gain of 1,126. As the 6 laning is expected to be completed in FY25, the impact has been considered in phases with 50 percent in FY26 and 100 percent in FY27.

Traffic Growth rates

The estimated traffic growth rates for the project road based on the elasticity approach applicable across all the three toll plazas have been presented in the table below:

Projected Traffic Growth Rates for Project Road (%)

FY/Modes	Car	LCV	Bus/2A	3A	MAV/OSV
Normal Growth Rates					
2025	7.3	2.7	3.5	2.0	6.6
2026	7.8	2.9	3.7	2.1	7.0
2027	7.5	2.8	3.6	2.0	6.8
2028	7.4	2.8	3.5	2.0	6.7
2029	7.1	2.6	3.4	1.9	6.4
2030	6.7	2.5	3.2	1.8	6.0
2031	6.7	2.5	3.2	1.8	5.4
2032	6.7	2.5	3.2	1.8	5.4
2033	6.7	2.5	3.2	1.8	5.4
2034	6.6	2.5	3.1	1.8	5.3
2035	6.5	2.4	3.1	1.8	5.3
2036	5.8	2.4	3.0	1.7	4.6
2037	5.7	2.4	3.0	1.7	4.5
2038	5.6	2.3	3.0	1.7	4.5
2039	5.5	2.3	2.9	1.7	4.4
2040	5.4	2.2	2.9	1.6	4.3
2041	5.3	2.2	2.8	1.6	4.3
2042	5.2	2.2	2.8	1.6	4.2
2043	5.2	2.1	2.7	1.6	4.1
2044	5.1	2.1	2.7	1.5	4.1

Implied Traffic Growth rates

The implied traffic growth rates for the project road after considering the impact of diversions at all the three toll plazas have been presented in the table below:

Implied Traffic Growth Rates for Project Road After Diversion (%)

FY/ Mode	TP01-Bankapur		TP02-Chalageri			TP03-Hebbalu									
	Car	LCV	Bus/ 2A	3A	MAV /OSV	Car	LCV	Bus/ 2A	3A	MAV/ OSV	Car	LCV	Bus/ 2A	3A	MAV/ OSV

Traffic Projections

Mode-wise projected traffic for the three toll plazas of the project road under the base case after considering diversion impacts till FY44 is presented in the tables below:

Projected Mode-wise Traffic at TP01

FY/Modes	Car	LCV	Bus/2A	3A	MAV	OSV	PCU
2024	7,304	1,509	2,873	966	1,663	6	28,595
2025	7,837	1,550	2,973	985	1,772	6	30,040
2026	8,445	1,595	3,113	1,018	2,008	7	32,300
2027	9,081	1,640	3,257	1,052	2,264	7	34,686
2028	9,754	1,685	3,372	1,073	2,415	8	36,517
2029	10,442	1,730	3,485	1,094	2,568	8	38,368
2030	11,143	1,773	3,597	1,113	2,723	9	40,227
2031	11,569	1,817	3,434	940	2,396	9	38,239
2032	12,174	1,863	3,400	858	2,275	10	38,027
2033	12,808	1,909	3,361	774	2,135	10	37,728

2044	59,324	56,702	59,611	72,265	69,655	72,571
CAGR (FY24 to FY44)	3.7%	3.7%	3.8%	4.7%	4.8%	4.8%

Tolling Segmentation

The tolling stream distribution for the project road has been derived from the average of ETC toll data of FY24 from April 2023 to November 2023. The cash (April - November 2023) and exemption traffic (average of October and November 2023) has been added to the ETC traffic distribution and the resultant tolling segmentation is presented in the table below:

Tolling Distribution

Ticket Type/Modes	Car	LCV	Bus/ 2A Truck	3A Truck	MAV	OSV
TP01-Bankapur						
Single	51.9	80.7	58.9	85.8	93.5	100.0
Return	35.4	16.6	31.0	12.6	6.2	
Local personal	0.9					
Local commercial	2.7	2.0	9.8	1.6	0.3	
Exempt	9.0	0.8	0.3	0.1	0.0	
Total	100.0	100.0	100.0	100.0	100.0	100.0
TP02-Chalageri						
Single	58.4	81.8	60.6	87.4	93.2	100.0
Return	32.0	16.0	33.5	11.6	6.3	
Local personal	3.1

Total	100.0	100.0	100.0	100.0	100.0	100.0

Tollable Length and Toll Rates

The details of normal tolling lengths, bypass length (at 1.5 times) and equivalent structure lengths being charged at Bankapur, Chalageri and Hebbalu are presented in the table below:

Existing Tolling Lengths at PR

	TP01 - Bankapur	TP02 - Chalageri			
Toll Plazas	**TP1 at 75%**	**TP1 at 100%**	**TP2 at Chalageri- 6 Lane**	**TP2 at Chalageri- 4 Lane**	**TP03- Hebbalu**
A. Normal length	62.339	62.339	42.799	4.943	44.714
B. Bypass length			28.227	2.242	27.698
C. Equivalent Structure length	5.380	5.38	7.120		2.680
D. Total tolling length=(A+1.5*B+C)	67.719	67.719	92.260	8.306	88.941

The Schedule M lengths have been considered from FY24 onwards for TP01 and TP03. However, for TP02, Schedule M lengths have been considered from January 2025 onwards. The details of tolling length as per Schedule M are presented in the table below:

Tolling Distribution from Toll Data for present study (in %)

Toll Plazas	Schedule M		
	TP01-Bankapur	**TP02-Chalageri**	**TP03-Hebbalu**
A. Normal length	62.339	47.732	44.714
B. Bypass length		30.469	27.698
C. Equivalent Structure length	5.38	7.12	2.68
D. Total tolling length=(A+1.5*B+C)	67.719	100.556	88.941

The stream of toll rates to be charged at the toll plaza of the project road in cardinal years till FY44 is presented in the table below:

Toll Rates at Toll Plaza (in Rs)

FY End	Car	LCV/ M Bus	Bus/2A Truck	3A	MAV	OSV	Car Local
TP01-Bankapur							
2024	95	155	330	360	515	625	330

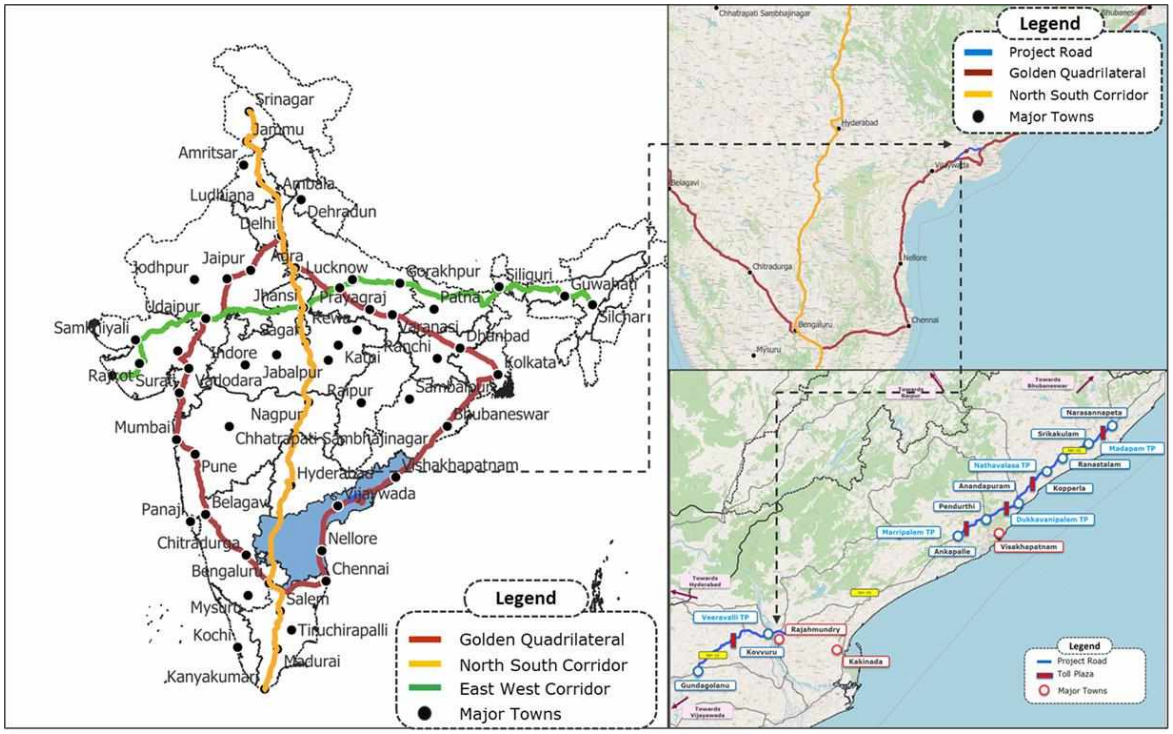
2044	285	460	960	1,050	1,510	1,835	735

Note: The toll fee has been rounded to nearest 5 Rupees as per toll fee rules.

For further details in relation to Asset 16, please refer to **Annexure C** of this Placement Document.



Narasannapeta to Ranasthalam section of NH-16 ("Asset 16"); Ranasthalam to Anandapuram section of NH 16 and Anandapuram to Hanumanthavaka (Visakhapatnam) section of NH-16 ("Asset 17"); and Anandapuram-Pendurthi-Anakapalle of NH-16 ("Asset 18")

Project Overview

According to the Traffic Consultant, the project highway, NH-16, runs parallel to the eastern coast of India envisaged under National Highway Development Program. The total length of NH-16 is roughly 1,764 km starting from Kolkata in West Bengal and ending at Chennai in Tamil Nadu while passing through the states of West Bengal, Odisha, Andhra Pradesh, and Tamil Nadu. NH–16 connects important tourist and industrial cities and towns like Kolkata, Bhubaneswar, Srikakulam, Vizianagaram, Visakhapatnam, Rajahmundry, Vijayawada, Bengaluru, and Chennai etc.

The Narsannapeta to Anakapalli road sections with an aggregate length of 170 kilometers of NH-16 (Old NH-5) in the state of Andhra Pradesh referred to as Project Road (PR), has been offered by NHAI to National Highways Infra Investment Managers Private Limited (NHIIMPL) for transfer to InvIT in the fourth round for a concession period of 20 years with maximum extension till 30 years.

Figure 0-1: Alignment of Project Road and Location of Toll Plazas

Project Road Characteristics and Profile of Influencing Districts

The project road in wider context serves the long-distance traffic, which is majorly plying from/to Anakapalli and beyond (towards Bengaluru/Tirupati/Chennai/rest of Tamil Nadu) to/from Bhubaneshwar/Cuttack and beyond (towards Kolkata/Kharagpur). Apart from long distance traffic, it also serves the short-distance traffic between Nandigama/ Srikakulam/ Kopperia and Anadapuram/ Visakhapatnam/ Anakapalli areas.

The project road traverses a diverse industrial landscape, marked by strategically positioned clusters that drive regional economic activity. A significant hub of industrial operations is located in Visakhapatnam, particularly near the Gangavaram Port area, where a mixed cluster of coal plants and metal industries thrives. Prominent companies in this region include Venkatadri Metal Industries, Jindal Stainless Steel Ltd, and various other metal processing units.

Additionally, Gajuwaka is a center for glass and metal manufacturing, with industries like Matrix Glass Industries and Om Glass & Ply Industries. Stone quarrying is concentrated in Kothavalasa above TP03 and Mamidipalem near Anakapalli, supporting firms such as Sri Siva Stones Exports and Sairam Kadapa & Granite Slabs, which contribute to the region's construction sector.

The project road falls under the jurisdiction of three districts in the state of Andhra Pradesh *viz.* Srikakulam, Vizianagaram and Vishakhapatnam district.

- Srikakulam's economy is primarily agricultural, with rice, maize, and pulses as major crops, and cashew designated as its One District One Product (ODOP). The district also has a presence of small-scale industries and fishing activities.

- Vizianagaram, known for its rice production and mango-based ODOP products, has growing industrial and handloom sectors.

- Visakhapatnam serves as a key economic hub with Visakhapatnam Port, shipbuilding, steel, petrochemicals, and a strong tourism industry.

Annual Average Daily Traffic (AADT)

The estimation for FY25 AADT is done after annualising the behaviour of April 2024 - November 2024 traffic. For Madapam and Nathavalasa, SCF is derived from the months of April to Nov of FY23 and FY24 of respective toll plazas and the average of both years has been adopted. However, for MAVs at Nathavalasa, the SCF of Madapam TP has been considered due to the MAVs being abnormally high in few months of FY24.

The MOM traffic pattern at TP03 and TP04 show initial ramp up of traffic after opening of Vizag bypass in April 2022. Therefore, for Dukkavanipalem and Marripalem, the SCF is derived from the traffic data of adjacent toll plazas

(Madapam and Vempadu). For this purpose, Average of FY23 and FY24 of Madapam TP and FY23 Vempadu TP is considered.

For TP02, TP03, and TP04, cash and exempt traffic from FY25 (Apr to Nov) have been added to the estimated ETC traffic of respective toll plaza. However, for TP01 cash and exempt traffic from Jan-2023 to Dec-2023 is used, considering the disruption in traffic since Jan 2024.

FY25 AADT derived from the ETC traffic data along with SCF, cash traffic, exempt traffic and ADT of April to November of FY25 is presented in Table 0 1.

Table 0-1: AADT for FY 25

	Traffic / Mode	CJV	LCV	2-Axle	3-Axle	MAV	OSV	PCU
TP01 – Madapam

F.	AADT FY25 (Estimated)= C+D+E	4,552	467	1,327	1,071	3,016	5	26,041

Travel Pattern

- Car traffic shows a strong local component across all toll plazas
- Freight traffic primarily exhibits the long-distance movement patterns with predominant movement between Kolkata/Jharkhand/East& North India and Bangalore/Chennai & beyond across all four toll plaza locations along the PR.
- The passenger traffic on the road were found to be for the purpose of work and business at the toll plaza locations.

Network Impacts

In context of the project road, three road network developments which may impact the traffic on the project road are:

1. *Impact of Raipur-Visakhapatnam (Vizag) Expressway & Sabbavaram to Sheela Nagar Port Connectivity Road*

The assessment for the traffic plying between Raipur/Salur & beyond and Vizag City/Port has been done to understand the impact of the completion of Raipur-Vizag Expressway coupled with Elevated Sabbavaram to Sheela Nagar port connectivity road.

The total diverted traffic estimated for FY25 after the operation of Raipur-Vizag Expressway and Elevated Sabbavaram to Sheela Nagar port connectivity under close tolling is presented below:

Table 0-2: Total Impact due to Raipur-Vizag Expressway and Sabbavaram-Sheela Nagar Port Connectivity Road – FY 25

Modes	Car	LCV	2A	3A	MAV	PCU
Adduru to Pinagadi Ticket type	2,219	150	59	132	779	6,523

This traffic has been grown and considered appropriately in the respective years of impact. In context of the timelines, the 100 percent of the considered diverted traffic is assumed to shift by FY30, following the implementation of close tolling and the completion of construction on the RVE and port connectivity road.

2. *Impact of Sabbavaram-Sheela Nagar Port connectivity road on Route Choice between Anandapuram/Anakapalli & beyond to Vizag port*

The impact of completion of port connectivity road has been studied for two streams of traffic:

- Traffic from/to Anandapuram & beyond to/from Vizag City/Port - Northern Approach
- Traffic from/to Anakapalli & beyond to/from Vizag City/Port – Southern Approach

Net divertible traffic (Resultant gain) estimated for FY25 due to completion of Sabbavaram-Sheela Nagar port connectivity road is presented below:.

Table 0-3: Diversion analysis for Anandapuram/ Anakapalli & Beyond to Vizag Port Traffic – FY 25

Resultant Upside	2A	3A	MAV	PCU
North Traffic			199	896
South Traffic	39	83	1,257	6,023

The Sabbavaram-Sheela Nagar Road is expected to add 199 MAVs (896 PCUs) for Dukkavanipalem to Pinagdi ticket type and 6,023 PCUs for Marripalem to Pinagadi ticket type for Vizag Port bound traffic from Northern and Sothern Approaches respectively. This traffic has been grown and considered appropriately in the respective years of impact.

In context of the timelines, the 100 percent of the considered diverted traffic is assumed to shift by FY30, following the implementation of close tolling and the completion of construction on port connectivity road.

3. *Impact of Kharagpur – Vizag Expressway*

The assessment for the route between Kharagpur and Vizag city/Port has been done for the two traffic streams:

- Traffic from/to Bhubaneswar & beyond to/from Vizag City/Port
- Traffic from/to Bhubaneswar & beyond to/from Anakapalli & beyond

The total diverted traffic estimated for FY25 after the operation of Kharagpur-Vizag Expressway at the two toll plazas is presented below:.

Table 0-1: Total Impact Due to Kharagpur-Vizag Expressway – FY25

Diverted Traffic As % AADT	Car	LCV	2A	3A	MAV	PCUs
Diverted Traffic % Based on Diversion Analysis						
Madapam (TP01)	4.3	23.3	36.0	38.7	41.1	31.4
Nathavalasa (TP02)	3.5	18.1	32.2	34.9	32.6	25.9
Adopted @ 50%						
Madapam (TP01)	2.1	11.6	18.0	19.4	20.6	15.7

Diverted Traffic As % AADT	Car	LCV	2A	3A	MAV	PCUs
Nathavalasa (TP02)	1.8	9.1	16.1	17.4	16.3	12.9

This traffic has been grown and considered appropriately in the respective years of impact.

The project is a part of phase 2 of vision 2047, it is anticipated the whole process may take 10-15 years for completion. In view of this and pre-bid responses from NHAI, impact of this development has been considered from FY40 onwards. In addition, there would be some captive traffic of the PR due to distribution points along the route, familiarity of the existing route and roadside facilities. In view of this, 50 percent of this traffic is considered to shift to greenfield expressway. In terms of phasing for traffic shift, it is assumed that 50% of the diverted traffic will shift to the alternate route by FY40, 75% by FY41, and 100% by FY42.

Traffic Growth rates

The estimated traffic growth rates for the project road based on the elasticity approach applicable across all the three toll plazas have been presented till FY55 in line with the maximum extendable concession period of 30 years in below:
Table 0-2: Projected Traffic Growth Rates for Project Road (%)

FY/Modes	TP01 & TP02					TP03 & TP04				
	Car	LCV	2A	3A	MAV/ OSV	Car	LCV	2A	3A	MAV/ OSV

Toll Segmentation

Based on detailed review of historic trends of trip segmentation, according to the Consultant on the Asset, the tolling stream distribution for each toll plaza location has been derived using the respective electronic toll collection (ETC) data of FY25 from April to November. The cash and exemption traffic data for FY25 (April–November) has been added into the ETC traffic distribution for Nathavalasa TP, Dukkavanipalem TP, and Marripalem TP. However, for Madapam TP, cash and exemption traffic data from January 2023 to December 2023 has been considered due to data disruptions since January 2024. The resultant tolling segmentation is presented below: *Table 0-8: Tolling Distribution*

Ticket Type/Modes	Car	LCV	2A Truck	3A Truck	MAV	OSV
TP01 -Madapam						
Single	22.2	55.6	54.4	85.2	91.0	100.0

In order to arrive at the traffic at different points, the relevant streams have been worked out from OD survey conducted at the TP03 and TP04. The adopted closed tolling segmentation is presented below:

Table 0-9: Tolling Distribution for Closed Tolling

Ticket Type/Modes	Car	LCV	2A Truck	3A Truck	MAV	OSV
TP03 - Dukkavanipalem						
Single	51.0	64.7	80.0	88.6	89.7	100.0
Return	38.9	34.9	19.9	11.2	10.3	
Exempt	10.1	0.4	0.1	0.2	0.1	
Total	100.0	100.0	100.0	100.0	100.0	100.0
TP04 - Marripalem						
Single	48.8	67.6	81.6	89.5	89.8	100.0
Return	36.7	31.9	18.3	10.1	10.1	
Exempt	14.5	0.5	0.1	0.4	0.0	
Total	100.0	100.0	100.0	100.0	100.0	100.0

Additionally, after completion of Raipur Vizag Expressway additional ticket will be introduced for Aduru to Pinagadi. The segmentation adopted for Aduru to Pinagadi is presented below: *Table 0-10: Tolling Distribution for Aduru to Pinagadi*

Ticket Type/Modes	Car	LCV	2A Truck	3A Truck	MAV	OSV
Single	95.0	95.0	95.0	95.0	95.0	95.0
Return	5.0	5.0	5.0	5.0	5.0	5.0
Total	100.0	100.0	100.0	100.0	100.0	100.0

Tollable Length and Toll Rates

The details of existing normal tolling lengths, bypass length (at 1.5 times) and equivalent structure lengths being charged at toll plaza locations are presented below:.

Table 0-11: Existing Tolling Lengths at PR

TP	TP01	TP02	TP03	TP04
Base Length				
Normal	48.105	65.707	16.776	19.169
Bypass	4.470	0.000	6.311	5.499
Eq structure	1.195	0.837	0.433	0.417
Total Length	53.770	66.544	23.520	25.085
Tolling Length				
Tolling Length	66.76	74.077	30.0325	31.5875

The Schedule M lengths have been considered from FY25 onwards. The details of normal tolling lengths, bypass length (at 1.5 times) and equivalent structure lengths being/ to be charged at the toll plazas from FY25 onwards as per the Schedule - M notification are presented below:.

Table 0-12: Schedule – M Tolling Lengths (Km)

SCH M Tolling Lengths (FY25 onwards)					
TP	TP01		TP02	TP03	TP04
	Before Construction (FY25 – till 30th Sept in FY28)	After Construction (from 1st October FY28)			
Base Length					
Normal	48.105	47.339	65.691	16.776	19.169
Bypass	4.47	4.470	0.000	6.311	5.499
Eq structure	1.195	1.990	0.853	0.433	0.417
Total Length	53.77	53.799	66.544	23.520	25.085
Tolling Length					
Tolling Length	66.76	73.944	74.2174	30.5725	31.5875

The net effective length for which fee shall be due and payable in closed tolling section from FY30 onwards is as presented in **below:**

Table 0-13: Distance Matrix for Total Tollable Road Length (Including equivalent length of structures >60 m length)

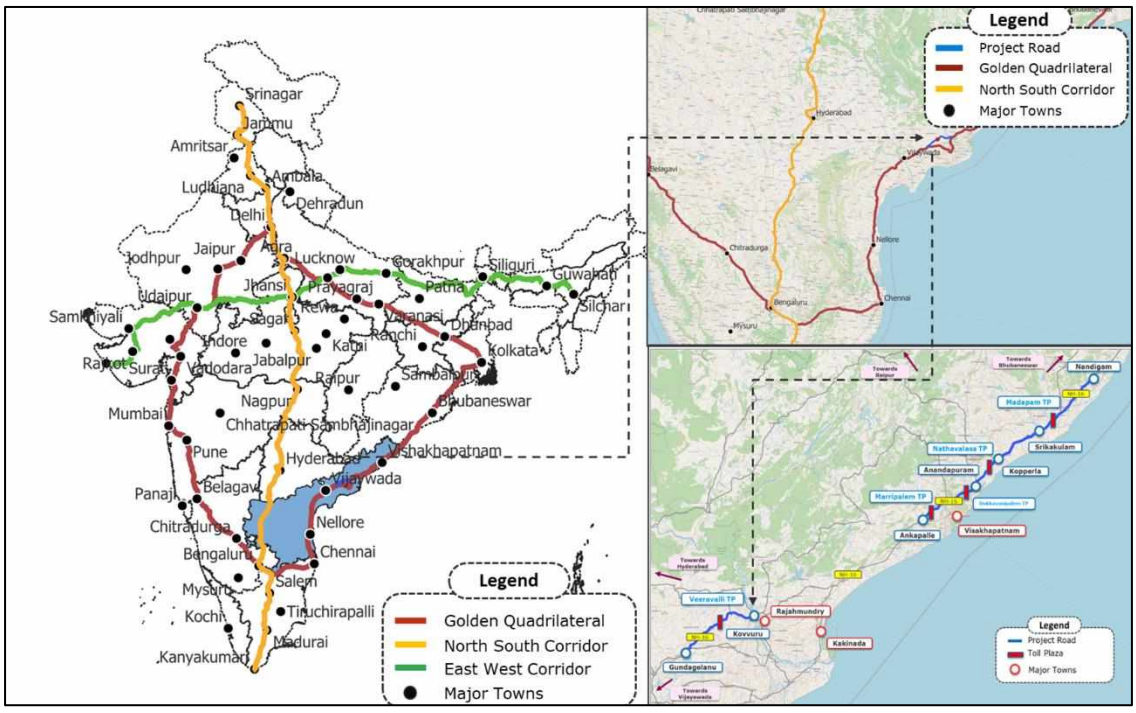
For further details in relation to Asset 18, please refer to **Annexure C** of this Placement Document.



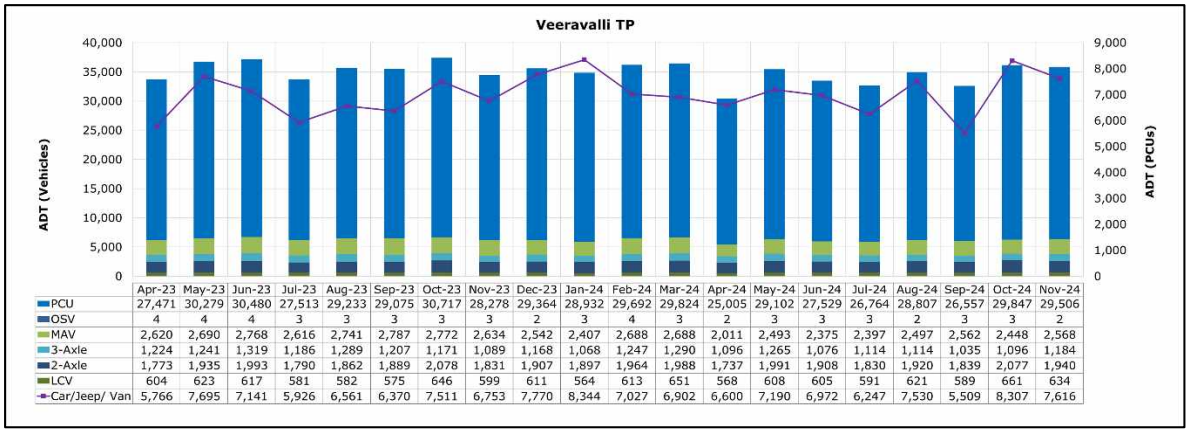
Gundugolanu-Devarapalli-Kovvuru ("Asset 19")

Project overview

According to the Traffic Consultant, the project highway, NH-16, is the major highway in India that runs along the eastern coast, connecting Dankuni, West Bengal with Chennai, Tamil Nadu and is a crucial part of the Golden Quadrilateral project aimed at enhancing connectivity between major cities in India. The NH 16 highway covers 1,764 kilometres and passes through the states of West Bengal, Odisha, Andhra Pradesh and Tamil Nadu.

The project road section, Gundugolanu-Devarapalli-Kovvuru starts at km 15.320 near Gundugolanu and ends at km 85.204 at Kovvuru with a length of about 70 km. The project road falls under the jurisdiction of Eluru and East Godavari districts passing through settlements of Kovvuru, Pangidi, Devarapalli, Veerampalem, Pullalapadu, Avapadu, Hanumanlagudem, and Gundugolanu. There is one operational toll plaza on the project road near Veeravalli (km 53.700) as part of the concession. This project has been offered by NHAI to National Highways Infra Investment Managers Private Limited (NHIIMPL) for transfer to InvIT in the fourth round for a concession period of 20 years with maximum extension till 30 years.

Figure 0 1 shows the context and alignment of project road with major places along the highway.



Source: Ramboll Traffic Report

Project Road Characteristics and Profile of Influencing Districts

The project road serves for long-distance traffic, which is primarily plying between Kolkata/Bhubaneswar/Visakhapatnam/northern region and Vijayawada/Bengaluru/Chennai/southern region. Apart from long-distance traffic, it also serves the short-distance traffic, which is mainly generated between Kovvuru/Rajahmundry/Tuni/Ankapalle/Visakhapatnam located on the north of the toll plaza and Gundugolanu/Eluru/Vijayawada located on the south of the toll plaza. The project road section falls under the jurisdiction of Eluru and East Godavari districts in the state of Andhra Pradesh.

Traffic Volume and Vehicle Composition - AADT for FY25

The past toll traffic data for the toll plaza was made available by the client from April 2023 to November 2024 is presented in Figure 0 2

AADT for FY25

Due to the maintenance work on the Kovvur bridge, heavy trucks were not allowed to use the bridge from 30th March 2024 to 8th May 2024. Therefore, data from May 9, 2024, to November 2024 has been considered for freight modes. For cars, complete data from April to November (including data for the months of April and May) has been considered.

The AADT for FY25 is estimated by annualizing the ETC data from April/May 2024 to November 2024. A seasonal correction factor (SCF), based on an average of 7/8–12-month factors derived for FY23 from the toll data of the adjacent toll plazas of Krishnavaram and Vempadu under Safeway Concessions, has been adopted. Additionally, cash and exempt traffic for FY25 (Apr to Nov) have been added to the estimated ETC ADT of Veeravalli toll plaza.

FY25 AADT along with ADT, 7/8–12-month SCF, cash and exempt traffic is presented in in **Table 0-1**.

Particulars	CJV	LCV	2A	3A	MAV	OSV	PCUs
Veeravalli TP							
ETC (Apr-Nov)	6,996	615	1,929	1,126	2,477	3	28,244

Travel Pattern

<u>Passenger Traffic:</u>

- About 58.2 percent of cars and 46.9 percent of buses are found to be travelling from/to Eluru/Vijayawada and surroundings to/from Devarapalli/Rajamahendravaram and surroundings. The traffic in this region reflects the heavy commuter movement within these prominent towns, likely driven by daily business and social interactions.

- In addition, around 11.7 percent of cars and 15.3 percent of buses are found to be travelling from/to Eluru/Vijayawada and surroundings to/from Vishakapatnam and surroundings.

- Also, about 10.8 percent of cars and 27.0 percent of buses are found to be travelling from/to Suryapet/Hyderabad and beyond to/from Devarapalli and beyond.

Freight Traffic:

- About 59.3 percent of MLCVs and 28.1 percent of LCVs are found to be travelling from/to Eluru/Vijayawada and surroundings to/from Devarapalli/Rajamahendravaram and surroundings.

- In case of heavy freight vehicles, about 23-27 percent of 2A & 3A trucks and around 13.4 percent of MAVs are found to be travelling from/to Eluru/Vijayawada and surroundings to/from Devarapalli/Rajamahendravaram and surroundings.

- Additionally, around 16 percent of 2A & 3A trucks and around 12 percent of MAVs are found to be travelling from/to Eluru/Vijayawada and surroundings to/from Vishakapatnam and surroundings.

Network Impacts

Impact of Khammam - Devarapalli Expressway

The total diverted traffic estimated for FY25 after the operation of Khammam - Devarapalli Expressway at Veeravalli TP is presented below:

Modes	Car	LCV	2A	3A	MAV
Veeravalli TP	0.0	0.7	2.2	3.8	4.1

Source: Ramboll Traffic Report

This traffic has been grown and considered appropriately in the respective years of impact. The proposed expressway will be a greenfield alignment and considering gradual build-up of traffic on the alternate routes, the diversion impact is considered from FY27 onwards under Base Case. Owing to the gradual shift of traffic away from the project road, the traffic impacts have been assumed to take place in phases with about 50 percent in FY27, 75 percent in FY28 and 100 percent from FY29 onwards.

Traffic Growth Rates

The estimated traffic growth rates for the project road based on the elasticity approach along with the implied growth rates after considering the impact of diversions have been presented till FY55 in line with the maximum extendable concession period of 30 years in Table 0 3.

FY/Modes	Cars	LCV	Bus/ 2A	3A	MAV/ OSV	Cars	LCV	Bus/ 2A	3A	MAV/ OSV

2055	95,995	93,871
CAGR (%) (FY25 to FY45)	4.4	4.3

Source: Ramboll Traffic Report

As per the traffic projections estimated above, the six-laning of the PR section is anticipated to take place in FY35 and FY36.

It is to be noted, the majority of the distinct structures on the PR section are already six-laned, and the required land for the expansion to a six-lane carriageway is available. Thus, disruptions during the construction process are expected to be minimal. Cost ratio analysis suggests a minimal change in share of PR when compared in existing 4 lane configuration (during construction with a lower speed) with 6 lane configurations. Hence, no significant impact on traffic is expected during expansion of PR.

Tolling Segmentation

The tolling stream distribution for the project road has been derived from the average of ETC toll data of FY25 from April 2024 to November 2024. The cash and exemption traffic (April – November 2024) have been added to the ETC traffic distribution and the resultant tolling segmentation is presented in **Table 0 6**.

Type	Car	LCV	Bus/2A Trucks	3A Trucks	MAV	OSV

Tollable Length and Toll Rates

In case of the project road, the details of normal tolling lengths, bypass length (at 1.5 times) and equivalent structure lengths being charged at Veeravalli toll plaza are presented in **Table 0 7.**

Veeravalli TP at km 53.700	FY25 onwards
A. Normal	24.3590
B. Bypass	43.6930
C. Eq. structure	1.8320
Base Length	69.8840
Tolling Length = A+(B*1.5) + (C*10)	108.2185

Source: Ramboll Traffic Report

The stream of toll rates likely to be charged basis schedule -M lengths and adopted WPI assumptions at the toll plaza of the project road in cardinal years till FY55 is presented below:

FY	Car	LCV	Bus/ 2-axle Truck	3-axle Truck	MAV	O/size/ HME	Car Local
Veeravalli TP							
2025	160	255	535	585	840	1,025	340
2030	195	315	660	720	1,035	1,260	415
2035	240	385	805	880	1,265	1,540	510
2040	290	470	985	1,075	1,545	1,880	620
2045	355	575	1,205	1,310	1,885	2,295	760
2050	435	700	1,470	1,605	2,305	2,805	925
2055	530	855	1,795	1,960	2,815	3,430	1,130

For further details in relation to Asset 19 please refer to **Annexure C** of this Placement Document.

Chittoor to Mallavaram section of NH-140 ("Asset 20") and TN/AP – Border to Nalagampalli to AP/Karnataka Border section of NH 4 ("Asset 21")

Project Overview

According to the Traffic Consultant, the project road is part of the major National Highway 69/140 in which section1 is starting from AP/TN Border to Nalagampalli Village Section from Existing km 133.360 to km 171.590 (Design Chainage from km 134.890 to km 172.000) (Package-I) & from Nalagampalli Village to AP/Karnataka Border Section from km 172.000 (existing chainage km 171.590) to km 219.687(existing chainage km 216.912) (Package-II) & section 2 is starting from Chittoor (Design Chainage Km 0.00/Existing Chainage Km 158.00) to Mallavaram (Design Chainage Km 61.128/Existing Chainage Km 41.800), Providing connectivity between states like Andhra Pradesh, Karnataka, Tamil Nadu etc. The project road has two toll plazas (TPs), Gadanki Toll Plaza and Mahasamudram Toll Plaza.

Figure 1-1: Corridor with existing toll plaza location

Source: IBI Group India Private Limited

Salient growth features and traffic generators

The Chittoor-Mallavaram section is a vital economic corridor wherein Passenger traffic is mainly driven by tourism & Various temples and commercial traffic is influenced by multiple industries, playing a crucial role in regional and national logistics.

Tirumala is one of the most visited religious destinations in the world, attracting 60,000 to 80,000 pilgrims daily. In September 2023, the temple recorded an all-time high of 87,000 visitors in a single day, contributing to an annual footfall of approximately 30 to 40 million pilgrims. This massive influx of visitors plays a crucial role in driving regional economic activity, impacting tourism, transport, and local businesses.

Amara Raja Industries, a major player in the battery and power solutions sector, significantly contributes to regional industrial activity. Its large-scale manufacturing facility near Tirupati relies on an extensive logistics network for raw material procurement and finished product distribution. This industrial presence increases traffic at the Mahasamudram Toll Plaza, reinforcing its importance as a key growth driver in the region.

The Srikalahasti-Yerpedu node, located approximately 32 km from the project road, is part of the East Coast Industrial Corridor (ECIC), with Vizag-Chennai Industrial Corridor (VCIC) as its Phase 1. Key nodes along this corridor include

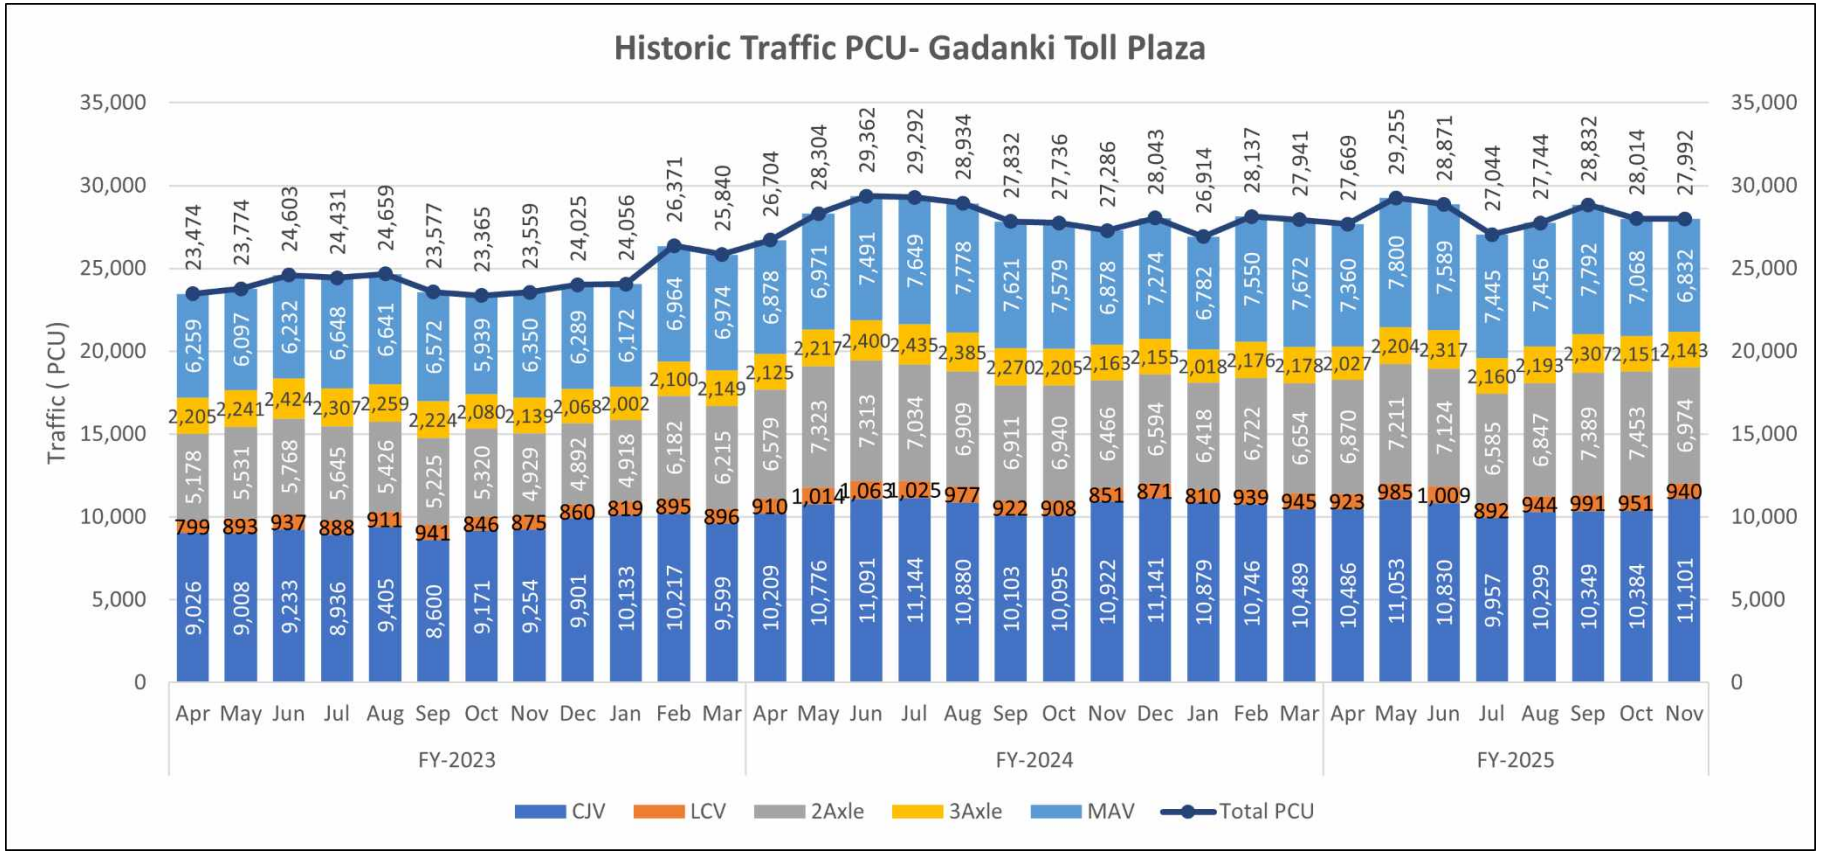
Kopparthy Node, Visakhapatnam (Nakkapalli Cluster), and Chittoor Node in Andhra Pradesh. This corridor is expected to drive future industrial growth, enhancing economic connectivity across the state.

The Chennai-Bengaluru Industrial Corridor (CBIC) is designed to accelerate regional industrial development across Tamil Nadu, Karnataka, and Andhra Pradesh. A key component of this corridor is the Krishnapatnam Industrial Area in Andhra Pradesh, which is poised to become a major future growth driver by fostering industrial agglomeration and economic expansion.

This combination of religious tourism, industrial growth, and strategic corridor development makes Andhra Pradesh a crucial economic hub, contributing significantly to regional and national economic progress.

Traffic volume and composite of vehicles

Past data pertaining to the project corridor was sourced from the client. This includes historic toll traffic and revenue data for the Gadanki, Mahasamudram toll plazas on the project road to study the past traffic and revenue trends, seasonal variations in traffic and other observations related to variations in the data. Past traffic trends in terms of year-on-year growth, month on month growth etc. were derived which will also help in understanding the travel pattern for both passenger and goods vehicles. The given traffic data includes the toll categories like single journey, local pass, and exempted traffic. Exempt category traffic falls under the list of vehicles where these types of vehicles are exempted from paying the user fee.



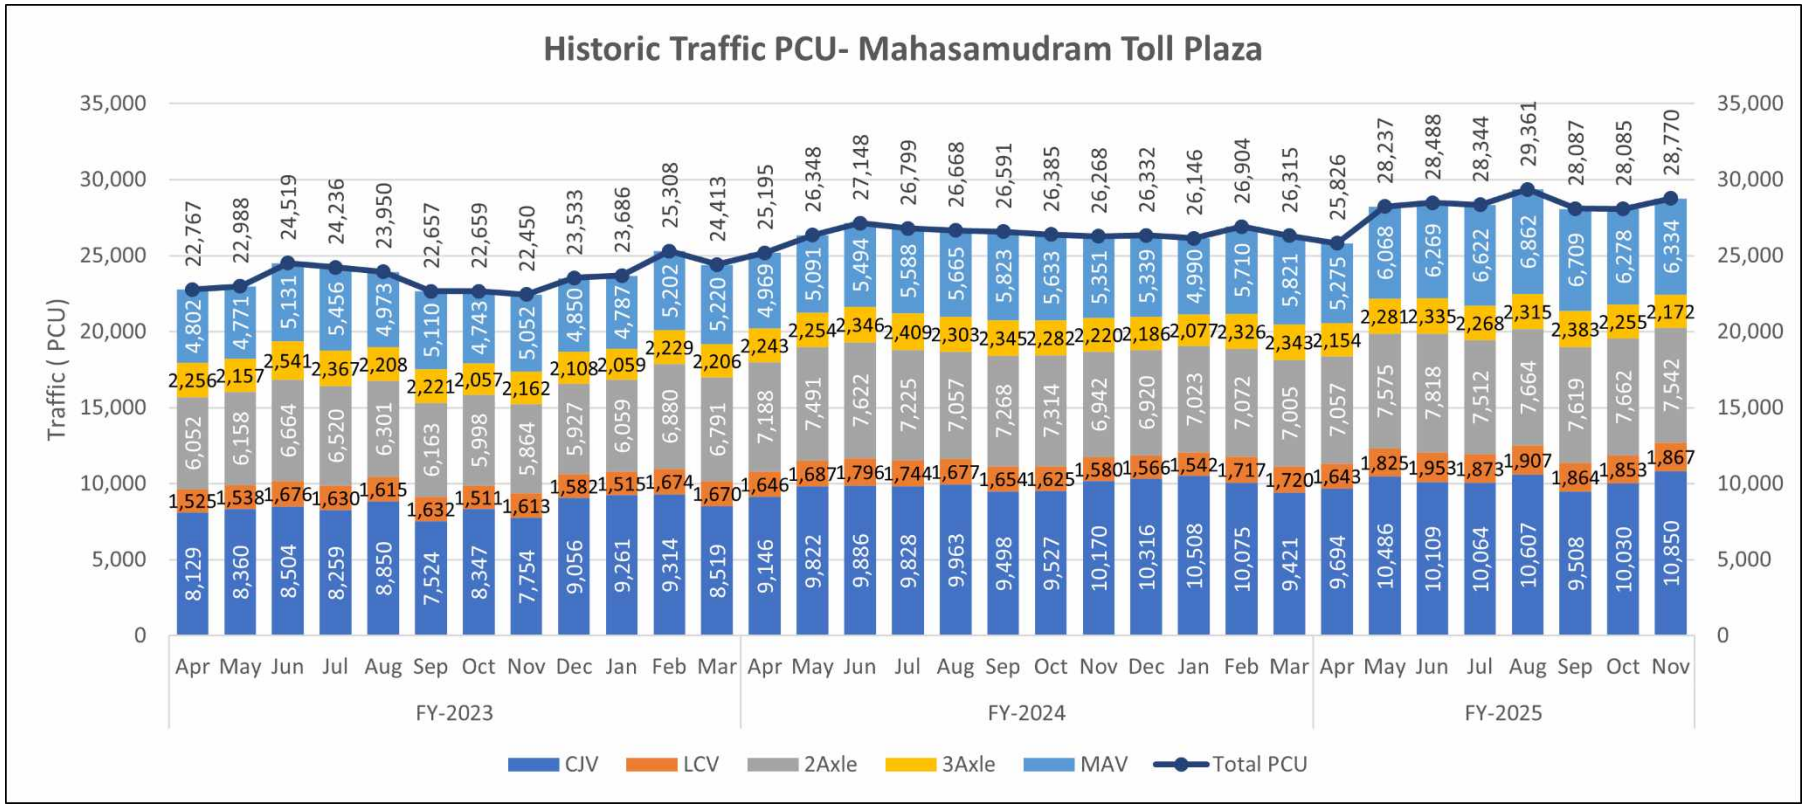
Historical traffic data

ETC daily-level data, segmented by ticket categories, was available for the following periods:

- Gadanki: Apr-2022 – Nov-2024
- Mahasamudram: Apr-2022 – Nov-2024

Gadanki Toll Plaza:

Figure 1-2: Historical Traffic PCU at Gadnaki TP



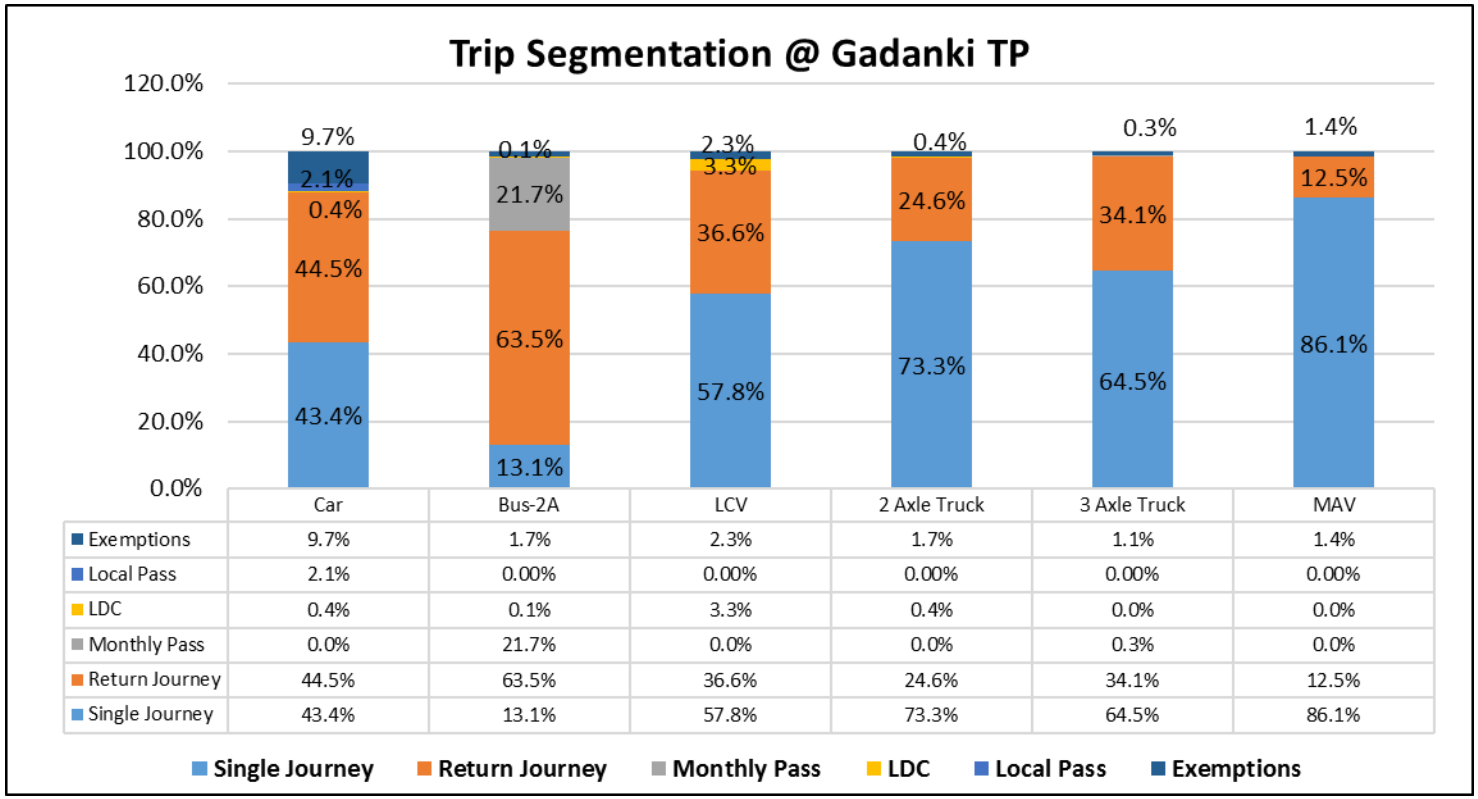
Source: IBI Group India Private Limited

The daily traffic volume remains fairly consistent throughout the year, with a range between 26,000 to 28,000 PCUs per day in FY24 and similarly 26,000 to 29000 PCUs in FY25, indicating steady traffic at the toll plaza.

Mahasamudram Toll Plaza:

Figure 1-3: Historical Traffic PCU at Mahasamudram TP

Source: IBI Group India Private Limited



The daily traffic volume remains fairly consistent throughout the year, with a range between 23,000 to 26,000 PCUs per day, indicating steady traffic at the toll plaza in FY24 similarly 25,000 PCUs to 29,000 PCUs in FY25.

Toll Segmentation

FY 25 (Apr-Nov 24) Trip Segmentation for the base year and future traffic and revenue projections is considered.

Gadanki Toll Plaza:

Figure 1-4: Trip Segmentation at Gadanki TP

	Car	Bus-2A	LCV	2 Axle Truck	3 Axle Truck	MAV
Exemptions	9.7%	1.7%	2.3%	1.7%	1.1%	1.4%
Local Pass	2.1%	0.00%	0.00%	0.00%	0.00%	0.00%

Base Year Traffic

- The consultant recommends FY 25 ETC Toll plaza data for Base Year AADT, as it is based on the most recent data.
- ETC data of FY23 & FY24 are considered for SCF calculation. As it is presumed to be more suitable for SCF calculation for both the Toll Plaza's.
- Final AADT has arrived by adding adjusted ADT (with selected SCF) arrived from ETC data (April to Nov 2024, which excludes cash & exemption/violation traffic), cash & exempt traffic from non-ETC data (April to Nov 2024) and forced exemption/violation data obtained from traffic survey conducted on 26th July (for 24 hrs).
- Adopted AADT for both the toll plazas has been mentioned below.

Table 1-1: Base year (FY 25) traffic at both the Toll Plazas

Mode	Gadanki Toll Plaza						Mahasamudram Toll Plaza					
	ADT(a)	SCF	AADT	Cash	Exempt	Final AADT	ADT(a)	SCF	AADT	Cash	Exempt	Final AADT

Traffic Forecast

Traffic forecasting for project road traffic was done considering past trend in growth and analysing prospects of project influence area. Elasticity approach of growth rate estimation was used for long term traffic forecasting.

The network developments near the Asset's alignment, which are expected to impact traffic during the concession period, include the 4/8-lane access-controlled Bangalore–Chennai Expressway, the 4–6 lane partially access-controlled Bangalore–Vijayawada Expressway, and the 6-lane access-controlled Chittoor–Thatchur Expressway.

The Bangalore–Chennai Expressway is expected to have a negative impact on Mahasamudram TP, with a 50% impact in FY-27 and full impact by FY-28.

The Bangalore–Vijayawada Expressway is projected to negatively impact both TPs, with a 50% impact in FY-28 and full impact by FY-29.

The Chittoor–Thatchur Expressway is also expected to negatively affect Mahasamudram TP, with a 50% impact in FY-27 and full impact by FY-28.

All these network impacts are considered in the Traffic Projections.

The methodology used for the study included following steps:

- The influencing factors obtained from OD surveys are utilized in deriving the key socio-economic parameters of the Project Influence Area (PIA) for the historic trend.
- Through regression analysis for various combinations of dependent and independent parameters is conducted to evaluate the significance of the relation.
- Potential growth of various vehicle categories was separately assessed based on its probable market share in expected multi-modal development.
- The elasticity values for the selected relation are taken & used for the traffic growth rates estimation. However, there are several steps performed before obtaining the traffic growth rates which are explained in the chapter 6.

Traffic and Revenue Assumptions

Traffic Assumptions: -

- Future traffic forecasting was done using elasticity approach which considers the elasticity of transport demand and probable pattern of future growth of the economy.
- Elasticity values for each mode is estimated using the past vehicle registration data, past traffic trend and AADT-tonnage with the growth of PCI, GSDP and Moderated elasticity values chosen for the analysis based on previous trends in socioeconomic variables.
- For Car, Bus and truck traffic, the adopted elasticity values are as follows –
    - Gadanki TP – 1.05, 0.60, 0.85
    - Mahasamudram TP – 1.05, 0.60, 0.80
- Based on the projected elasticity values for TP 1, TP2 the growth of PIA, the future average annual compound traffic growth rates by vehicle type have been estimated by using the following relationship:
    - For freight vehicle, the tonnages on the corridors are projected. The existing market share of different category of goods vehicles are then adjusted for the future years based on the past tonnage trend observed.
    - Normal traffic projections have arrived by applying the traffic growth on the base year traffic.
- The future traffic projections are presented for Effective case traffic projections & the Effective case has arrived by considering the future adjustments in the form of diversions and developments detailed in the chapter 5.

Bareilly - Sitapur Section of NH-30 (Old NH-24) ("Asset 22")

Project Overview

According to the Traffic Consultant, the project road is part of the major NH-30 where the section starts at design kilometer 262.000 and ends at kilometer 419.590 (existing km 262.000 to km 413.200 of NH-24 in the State of Uttar Pradesh). Two toll plazas are existing on this section where Faridpur toll plaza is located at Km 266.900 and Maigalganj toll plaza at Km 372.168

Salient growth features and traffic generators

Table 1: Growth Features and Traffic Generators

Sl. No	Developments	Description	Impact Type
1	Tourism – Agra, Vrindhavan, Ayodhya, Varanasi	The number of tourists visiting Uttar Pradesh has surged, growing from 16 crore in 2016 to over 48 crores currently, with more than 32 crore tourists recorded between January and June 2024 alone[2]. The state experiences an annual footfall of 540 million across its four major religious cities—Varanasi, Ayodhya, Prayagraj, and Mathura-Vrindavan. The upcoming inauguration of the Ram Mandir in Ayodhya is expected to draw an additional 50 to 100 million tourists each year. Moreover, Prayagraj experiences a significant surge in visitors during the Kumbh Mela, which occurs once every six years. In 2017, the city saw a staggering 250 million visitors in less than two months. The Maha-Kumbh in Prayagraj, set to begin on January 13, 2025, is expected to attract an even greater crowd, with projections of 500 million visitors.	Current Growth Driver
2	Industries	The Bareilly-Sitapur stretch serves as a key industrial corridor, with sugar factories being the dominant industry, accounting for 62% of the region's industrial activity. Other notable sectors include food products (10%), flour mills (8%), chemicals, fertilizers, plywood, and agro products, among others. Major companies like Bajaj Hindustan Ltd., WIMCO, IFFCO, Reliance, Bharat Petroleum, Dalmia Bharat Limited and Ramaa Shyama play a significant role in driving economic growth in the area. This corridor	Current Growth Driver

Sl. No	Developments	Description	Impact Type
		stands out as a critical hub for agro-processing, logistics, and diverse industries, supporting regional development.	
3	State upcoming developments	The UP Global Investor Summit 2023 marked a significant milestone with 18,643 MoU's signed, amounting to a total investment of Rs 33.50 lakh crore. Key sectors driving these investments include renewable energy (12.41%), higher education (9%), industrial parks (11.35%), manufacturing, logistics, and warehousing. The real estate industry and IT-enabled services also contributed significantly to this growth.	Future Growth Driver
4	Mega Food Park in Baheri	A major project, the Mega Food Park in Baheri, is under development, featuring a Dairy Craft Cheesemaking plant across 12 acres with an investment of Rs 250 crore, expected to create 600 direct jobs and benefit local farmers.	Future Growth Driver
5	Industrial township	• A new industrial township near **Jhumka** intersection is underway, further bolstering economic and employment opportunities in the region. • The **Moradabad Special Economic Zone** (SEZ) spans 464.28 acres, offering robust infrastructure and sector-specific facilities for handicraft trade, textile, IT/ITES, and hardware manufacturing, making it a multi-product hub. Out of 137 allotted plots, 45 industrial units are already operational, with 377 plots still available for new investments. • The **Greater Bareilly Township**, which focuses on planned urban growth and housing solutions. Additionally, 35 villages have been integrated into the Bareilly Development Authority (BDA) jurisdiction, facilitating easier land acquisition and MSME township development. These initiatives mark significant progress in infrastructure, industrial growth, and urban expansion in Bareilly, Moradabad, and surrounding regions, paving the way for economic advancement and employment opportunities. • The development of "**Medi city**", a designated area focusing on health businesses and activities. This project aims to create a hub for healthcare-related infrastructure and services, with the proposed Medi City land included in the Master Plan 2021.	Future Growth Driver

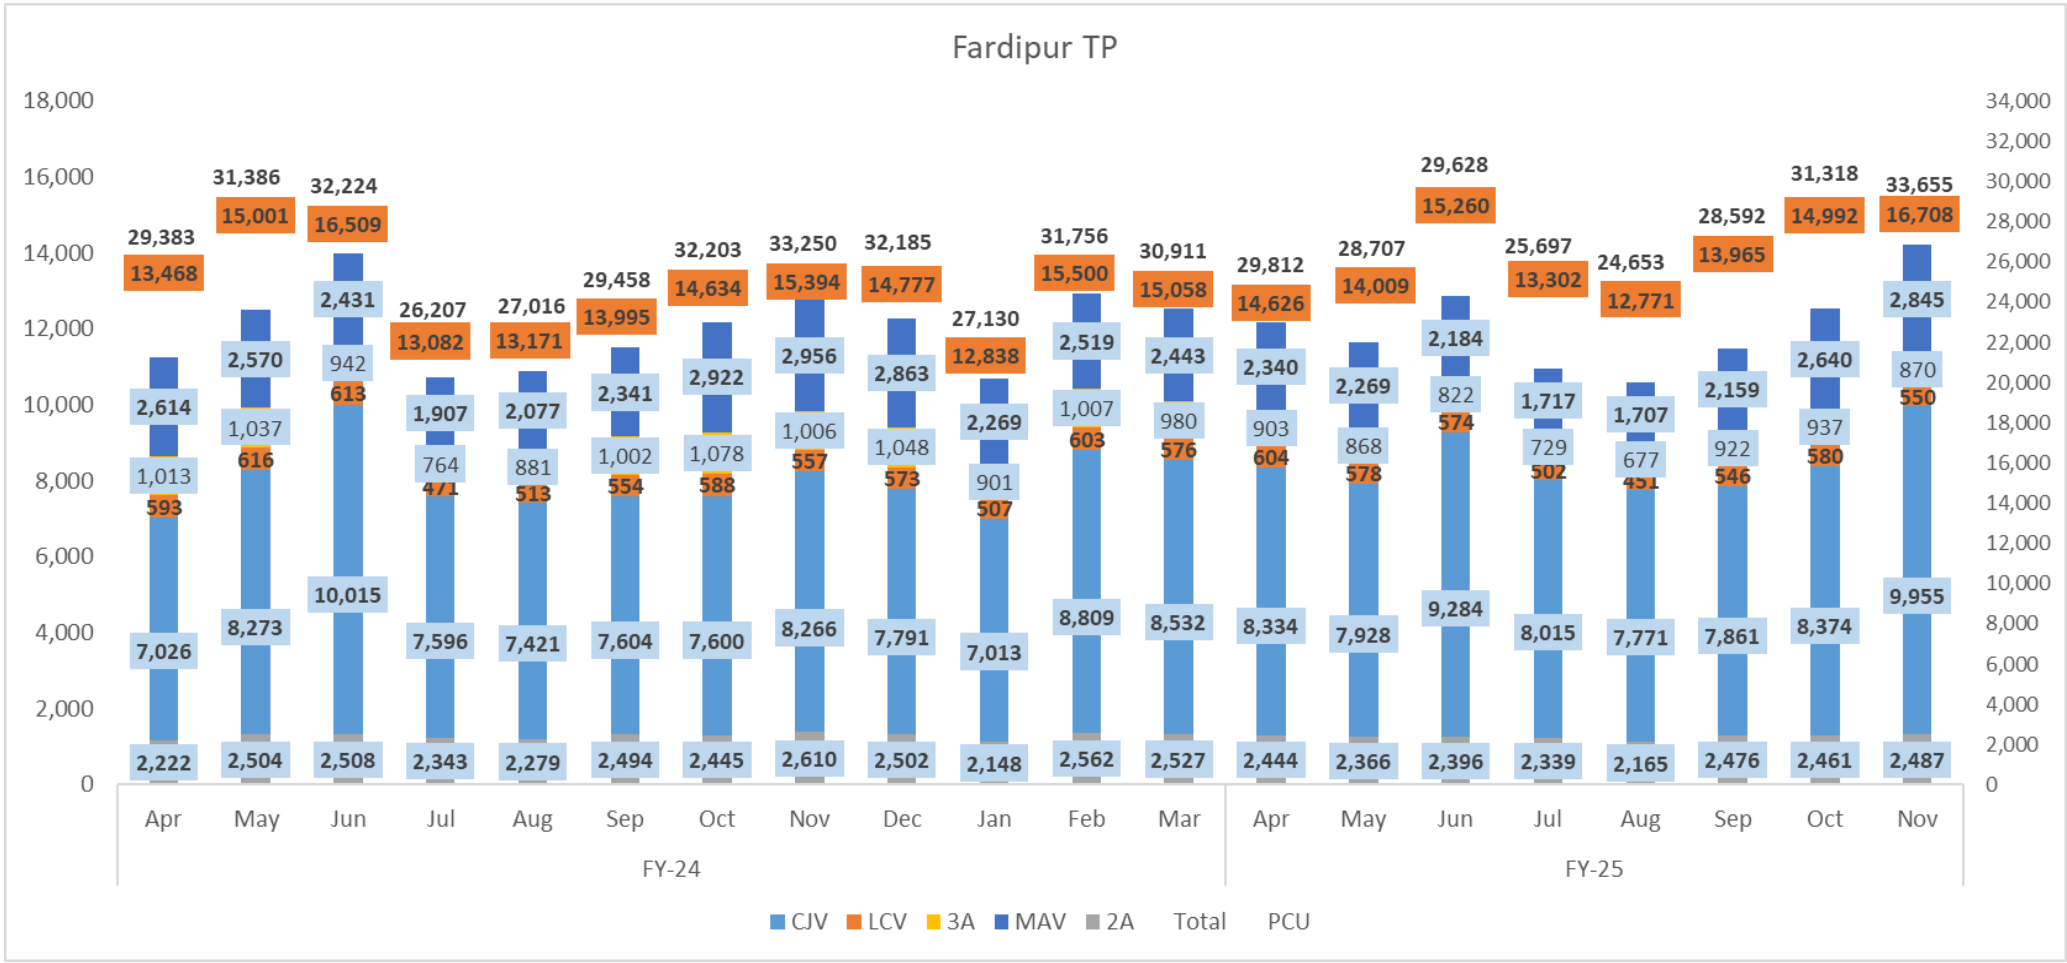
Traffic Volume and Composite of Vehicles



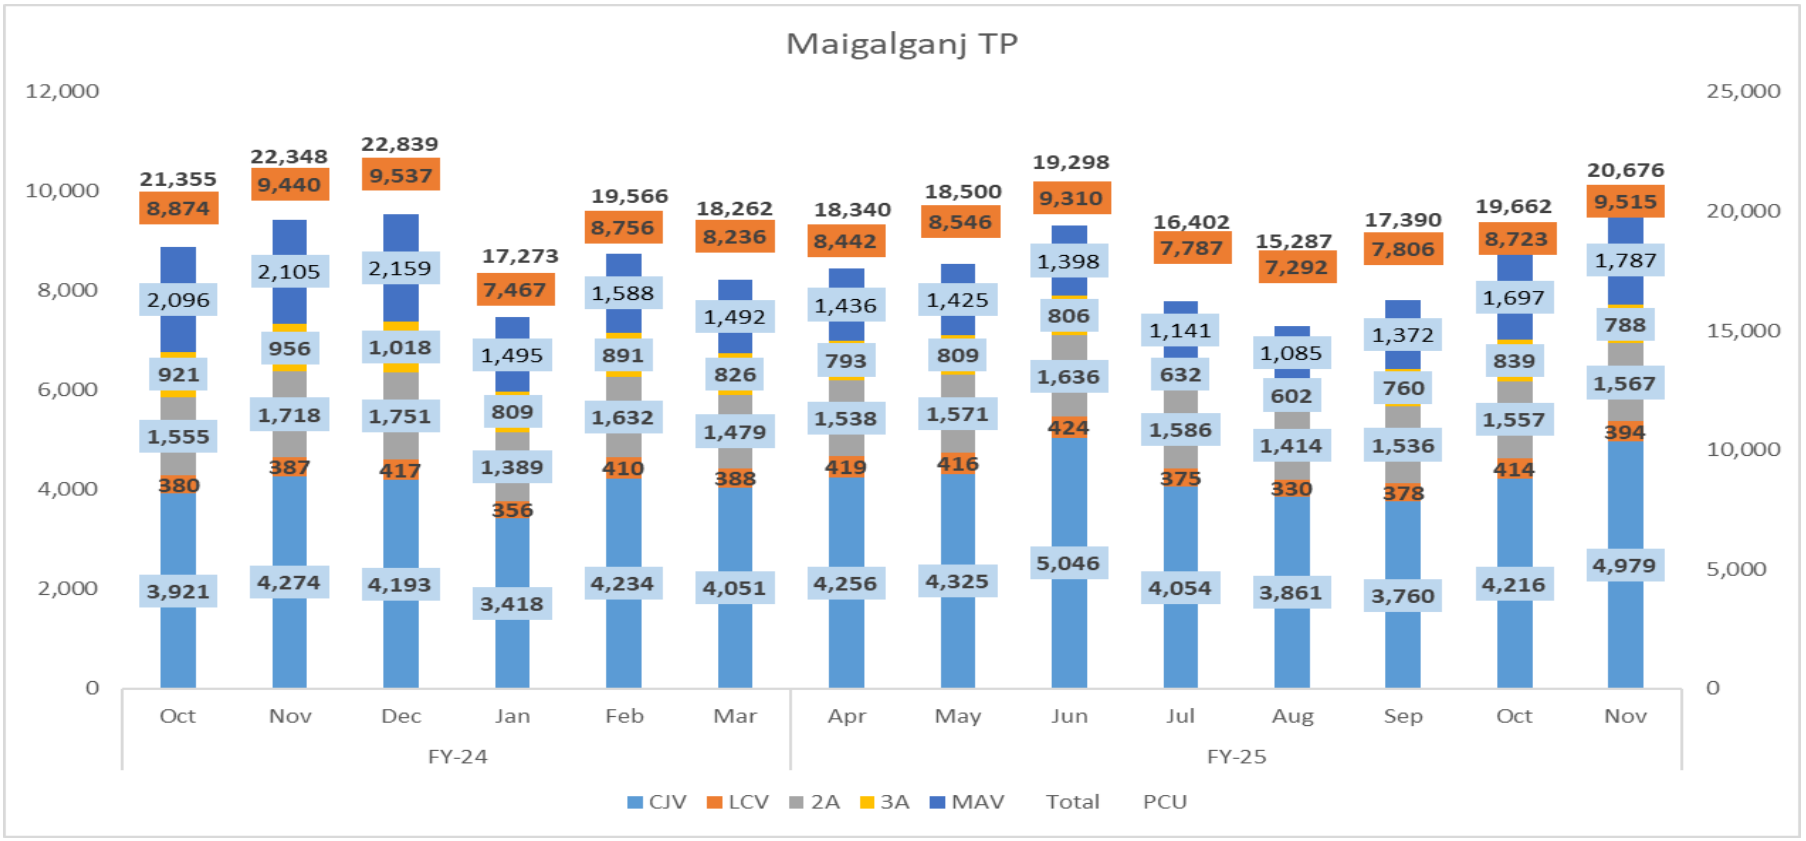
Historical traffic data

ETC daily-level data, segmented by ticket categories, was available for the following periods:

- Faridpur: Apr 2023– Nov-2024
- Maigalganj: Oct-2023 – Nov-2024

Faridpur Toll Plaza

Figure 2: Historical Traffic Trend Mode Wise



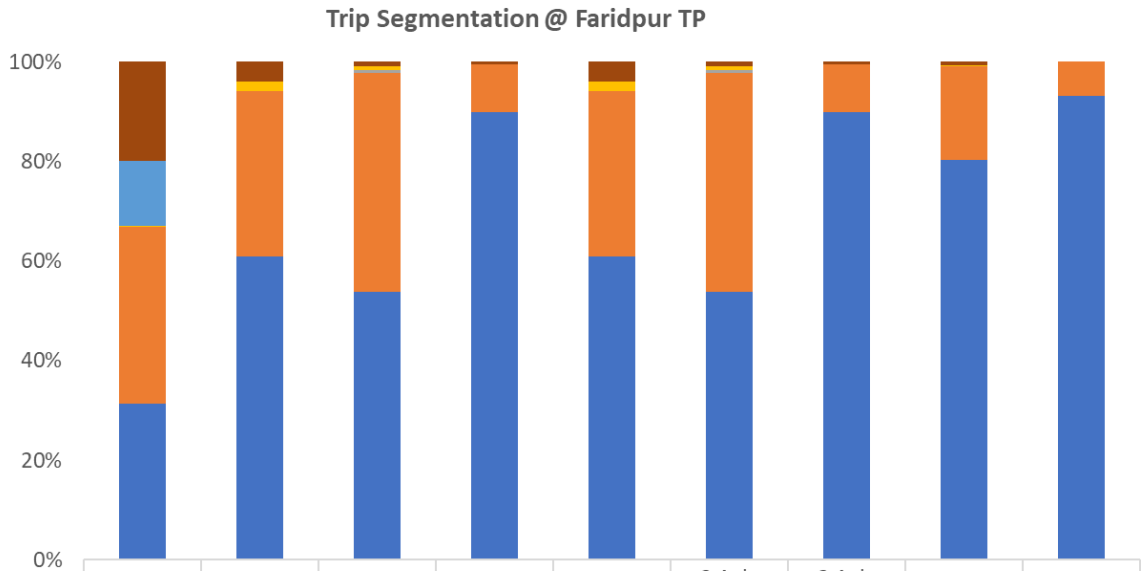
Source: IBI Group India Private Limited

It was observed from historic data that FY24 (Apr-Nov) vs FY25 (Apr-Nov) shows an 4.1% growth in CJV, but a 9.4% decline in MAV. Overall traffic experienced a 3.8% drop in terms of PCUs.

Lower traffic was observed in July and August due to the monsoon season and restrictions during the Kanwar Yatra

Maigalganj Toll Plaza

Figure 3: Historical Traffic Trend Mode Wise (Maigalganj TP)



Lower traffic was observed in July and August due to the monsoon season and restrictions during the Kanwar Yatra. The overall traffic decline in traffic from Jan to Sep and slight growth observed in Nov and Oct months.

AADT Based on FY 25 (Apr-Nov) Toll Operational data. Arrived AADT by adopting this formula (ETC X SCF + Cash + Exempt + Missing Trips).

Traffic Forecast

Traffic forecasting for project road traffic was done considering past trend in growth and analysing prospects of project influence area. Elasticity approach of growth rate estimation was used for long term traffic forecasting.

Table 16: Alternative Roads /Development Impacts on Project Road

S.NO	Alternative Road/ Network/ Land /Improvements	Impact Type	Year Of Impact
1	6 lane greenfield access-controlled highway with a route alignment connecting NH-334 Ganga Expressway	Negative impact on Both Faridpur & Maigalganj TP	FY27: 50% FY28:100%
2	Widening of Shahjahanpur-Hardoi-Lucknow to 4L	Negative Impact on Maigalganj TP	FY27: 50% FY28:100%
3	Ganga E-Way Phase-II (From Haridwar)	Negative Impact on Maigalganj TP	FY36: 50% FY37: 100%
4	4L E-Way from Ghaziabad-Hapur to Kanpur-Unnao Greenfield alignment via Farrukhabad (tentative length 380 Km)	The OD pairs impacted by this expressway are part of the Ganga Expressway diversion	

Source: IBI Group India Private Limited

All these network impacts are considered in the Traffic Projections.

The methodology used for the study included following steps:

- The influencing factors obtained from OD surveys are utilized in deriving the key socio-economic parameters of the Project Influence Area (PIA) for the historic trend.
- Through regression analysis for various combinations of dependent and independent parameters is conducted to evaluate the significance of the relation.
- Potential growth of various vehicle categories was separately assessed based on its probable market share in expected multi-modal development.
- The elasticity values for the selected relation are taken & used for the traffic growth rates estimation. However, there are several steps performed before obtaining the traffic growth rates which are explained in the chapter 6.

Traffic and Revenue Forecast

Traffic forecasting for project road traffic was done considering past trend in growth and analyzing prospects of project influence area. Elasticity approach of growth rate estimation was used for long term traffic forecasting.

The methodology used for the study included following steps:

- The influencing factors obtained from OD surveys are utilized in deriving the key socio-economic parameters of the Project Influence Area (PIA) for the historic trend.
- Through regression analysis for various combinations of dependent and independent parameters is conducted to evaluate the significance of the relation.
- Potential growth of various vehicle categories was separately assessed based on its probable market share in expected multi-modal development.
- The elasticity values for the selected relation are taken & used for the traffic growth rates estimation. However, there are several steps performed before obtaining the traffic growth rates which are explained in the chapter 6.

Traffic Assumptions

Traffic Assumptions: -

- Future traffic forecasting was done using elasticity approach which considers the elasticity of transport demand and probable pattern of future growth of the economy.
- Elasticity values for each mode is estimated using the past vehicle registration data, past traffic trend and AADT-tonnage with the growth of PCI, GSDP and Moderated elasticity values chosen for the analysis based on previous trends in socioeconomic variables.

- For Car, Bus and truck traffic, the adopted elasticity values are as follows –
    - Faridpur TP – 1.35, 0.50, 0.80
    - Maigalganj TP – 1.30, 0.50, 0.80
- Based on the projected elasticity values for TP 1 and TP2 the growth of PIA, the future average annual compound traffic growth rates by vehicle type have been estimated by using the following relationship:
    - For freight vehicle, the tonnages on the corridors are projected. The existing market share of different category of goods vehicles are then adjusted for the future years based on the past tonnage trend observed.
    - Normal traffic projections have arrived by applying the traffic growth on the base year traffic.
- The future traffic projections are presented for Effective case traffic projections & the Effective case has arrived by considering the future adjustments in the form of diversions and developments detailed in the chapter 5.

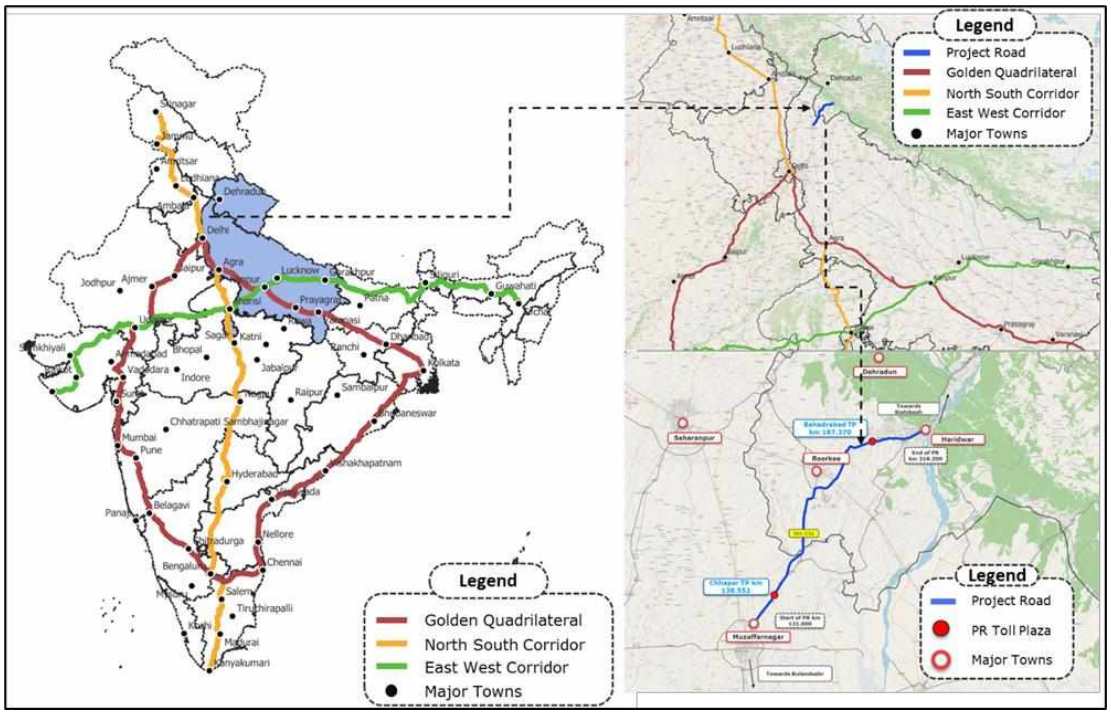
For further details in relation to Asset 22, please refer to **Annexure C** of this Placement Document.



Project Muzaffarnagar – Haridwar ("**Asset 23**")

Project Overview

According to the Traffic Consultant, the Project Road, NH-334 (old NH-58), connects major industrial, agricultural, and cultural centres in India, serving as a primary conduit for freight and passenger traffic in the states of Uttarakhand and Uttar Pradesh and connects important cities and towns like Meerut, Muzaffarnagar, Roorkee and Haridwar etc.

The project road section, Muzaffarnagar-Haridwar, a part of NH-334 (old NH-58) in the state of Uttar Pradesh and Uttarakhand, starts at 131.00 km near Muzaffarnagar and ends at 218.00 near Haridwar with a length of 79 km. There are two operational toll plazas on the project road, Chhapar TP (km 138.552) and Bahadrabad TP (km 187.370). Both toll plazas have 14 tolling lanes (staggered 7 lanes in each direction). This project has been offered by NHAI to National Highways Infra Investment Managers Private Limited (NHIIMPL) for transfer to InvIT in the fourth round for a concession period of 20 years with maximum extension till 30 years.

Figure 0 1 shows the context and alignment of project road with major places along the highway.

Source: Ramboll Traffic Report

Salient Growth Feature and Traffic Generators

The project road serves the short distance traffic for both passenger and freight which is mainly generated from/to Delhi NCR to/from Roorkee/Haridwar/Dehradun/Rishikesh.

In wider context, PR also serves the traffic for the freight vehicles, which is plying from/to Haridwar/Roorkee and surroundings to/from Ahmedabad/Surat/Vadodara and surroundings.

The project road section is located in the districts of Muzaffarnagar and Haridwar.

Muzaffarnagar district in Uttar Pradesh, is strategically located to connect economic hubs due to its extensive road network. The district's diverse agronomic activities, including sugarcane, wheat, mangoes, and rice, contribute to the country's sugar industry. The district has seen significant industrial growth, particularly in sugar and jaggery production units, steel, paper, and chemical industries.

Haridwar district located in western part of Uttarakhand and is renowned for its extensive Ayurvedic practice and production of herbal medicines. Sugarcane, rice, wheat, legumes, and oil seeds are among its principal crops. With the founding of two PSUs, Hindustan Antibiotics Ltd. and Bharat Heavy Electricals Ltd., industrialization began since 1960s. A new "Industrial Development Zone" is to be established close to Haridwar by the Uttarakhand State Industrial Development Corporation (SIDCUL). Haridwar also hosts the Ardh Kumbh every six years and the Kumbh Mela every twelve years adding a boom to its tourism.

Traffic Volume and Vehicle Composition - AADT for FY25

The toll data for both the toll plazas was made available by the client from August 2022 to November 2024. The month-on-month mode wise traffic for this period April 2023 to November 2024 for both the toll plazas is presented in Figure 0 2.

Source: Rambol traffic report; Figure 0 2: Month on Month Traffic Data for TP01 and TP02

The AADT for FY25 is estimated by annualizing the ETC data from April 2024 to November 2024. For

TP01-Chhapar, a SCF based on 8–12-month factor derived from the average of FY23 and FY24 ETC traffic data of Siwaya TP, has been adopted.

In case of TP02-Bahadrabad, an 8–12-month SCF has been derived based on the average of FY23 and FY24 ETC traffic data. Additionally, cash and exempted traffic for FY25 (Apr to Oct) have been added to the estimated ETC traffic of Chhapar and Bahadrabad toll plazas.

The AADT of FY25 along with the Seasonal Correction Factor (SCF), Average Daily Traffic (ADT), cash traffic and exempt traffic for respective months of FY25 is presented below:.

Particulars	CJV	LCV	2-Axle	3-Axle	MAV	OSV	PCUs	
TP01 – Chhapar								
A.	ADT FY25 (April - Nov)-ETC	17,861	954	2,703	414	1,387	2	34,894
B.	SCF (8-12 Month Factor)-Siwaya TP - Avg. of FY23 & FY24	0.97	0.98	1.00	1.05	1.05	1.05	
C.	ETC*SCF = A*B	17,333	931	2,706	433	1,452	2	34,690
D.	Cash (April 24 - Oct 24)	19	2	2	1	1	1	40
E.	Exempt (April 24 - Oct 24)	5,273	90	175	3	7	1	5,978
F.	AADT FY25 (Estimated) = C+D+E	22,624	1,023	2,883	437	1,460	5	40,711
TP02 - Bahadrabad								
A.	ADT FY25 (April - Nov)-ETC	15,985	767	2,583	348	654	2	28,881
B.	SCF (8-12 Month Factor)-Bahadrabad TP - Avg. of FY23 & FY24	0.94	0.96	1.00	1.03	1.05	1.05

D.	Cash (April 24 - Oct 24)	173	8	3	1	1	1	206
E.	Exempt (April 24 - Oct 24)	6,980	81	68	10	10	1	7,385
F.	AADT FY25 (Estimated) = C+D+E	22,173	823	2,651	368	697	4	35,619

Source: Rambol traffic report; Table 0 1: AADT for FY25

Travel Pattern

- The car traffic from/to Delhi/Ghaziabad/Noida and Surroundings to/from SIDCUL/Haridwar/Rishikesh and Surroundings is about 19-22 percent at TP01 & TP02.

- About 28-33 percent of Bus traffic at TP01 & TP02 was found to be travelling from/to Delhi/Ghaziabad/Noida and Surroundings to/from SIDCUL/Haridwar/Rishikesh and Surroundings.

- 3A trucks from/to Rajasthan/Central/South India to/from SIDCUL/Haridwar/Rishikesh and Surroundings is about 10-17 percent at TP01 & TP02.

- In case of MAVs, around 8 and 20 percent at TP01 & TP02 respectively, were found to be plying between Delhi/Ghaziabad/Noida and Surroundings to/from SIDCUL/Haridwar/Rishikesh and Surroundings.

- The MAV traffic is observed to be having Roorkee-Delhi and Roorkee-Haridwar as top OD pair at both toll plazas.

Network Impacts

In context of the project road, three road network developments which may impact the traffic on the project road are:

1. *Impact of Delhi-Dehradun Expressway (with spur to Haridwar)*

The assessment for the route between Delhi NCR & beyond and Dehradun/Haridwar & beyond has been done for the two traffic streams:

- Traffic plying between Delhi NCR & beyond and Dehradun & beyond
- Traffic from/to Delhi NCR & beyond to/from Haridwar/Rishikesh & beyond

The proposed expressway will be a mix of brownfield upgradation/greenfield alignment. The negative impact of traffic at the toll plazas has been considered as 40 percent in FY26 and 100 percent from FY27 onwards.

During the six laning of the project road section DDE may take away higher traffic due to construction activities on PR. For estimating this impact, six laning toll rates at 75 percent and reduced speeds on PR due to construction activity have been considered. It is to be noted that higher diversion percentages have been considered for diversion to DDE during construction period for six laning in FY35 and FY36 and lower percentage of diversion is applicable once the six laning is complete from FY37 onwards.

The total diverted traffic estimated for FY25 after the operation of Delhi-Dehradun Expressway at the two toll plazas is presented in **Table 0 2** before and after six laning of the project road section.

Potential Streams	Modes				
	Car	LCV	2A	3A	MAV
Diverted Traffic Before Six Laning of PR					
Chhapar TP	22.9	9.2	21.8	27.1	21.2
Bahadrabad TP	19.2	11.4	22.3	34.9	34.6
Diverted Traffic During Construction Period for Six Laning of PR					
Chhapar TP	28.8	10.2	24.5	30.7	24.4
Bahadrabad TP	24.3	12.6	25.8	39.7	39.8

Source: Rambol traffic report; Table 0 2: Diverted Traffic to Delhi-Dehradun Expressway - FY25

2. *Impact of Ganga Expressway Phase II*

The assessment for the route between East UP/Meerut & beyond and Haridwar & beyond has been done for the two traffic streams:

- Traffic plying between East UP & beyond and Haridwar & beyond
- Traffic from/to Meerut & beyond to/from Haridwar & beyond

The total diverted traffic after the operation of Ganga Expressway Phase II at the two toll plazas estimated for FY25 is presented below:.

Potential Streams	Modes				
	Car	LCV	2A	3A	MAV
Diverted Traffic (East UP & beyond)					
Chhapar TP	1.3	0.7	1.4	1.4	1.7
Bahadrabad TP	1.3	0.8	1.6	1.7	3.6
Diverted Traffic (Meerut & beyond)					
Chhapar TP	0.4	0.2	0.2	0.3	0.2
Bahadrabad TP	0.4	0.2	0.2	0.3	0.4

Source: Rambol traffic report; Table 0 3: Diverted Traffic to Ganga Expressway Phase II – FY25

In total Ganga Expressway Phase II may take away around 692 PCUs from both the toll plazas. The negative impact of traffic at all the toll plazas has been considered as 50 percent in FY35 and 100 percent from FY36 onwards.

3. *Impact of Upper Ganga Canal Road*

The assessment is done for the stream to/from Purquazi & beyond for Chhapar toll plaza. The total diverted traffic estimated for FY25after the operation Upper Ganga Canal Road at the Chhapar toll plazas is presented below:

Potential Streams	Modes		
	Car	**LCV**	**PCU**
Diverted Traffic			
Chhapar TP	15.4	11.6	9.0

Source: Rambol traffic report;

The proposed expressway may take away around 15 percent in cars and 12 percent in LCVs. Because of the two-way movement on this two-lane road abutting farmlands, presence of height restriction barriers and difficulty in manoeuvring higher axle vehicles, only car & LCV traffic have been considered for further analysis and freight traffic is not considered. The negative impact of traffic at all the toll plazas has been considered as 50 percent in FY28 and 100 percent from FY29 onwards.

Traffic Growth Rates

The estimated traffic growth rates for the project road based on the elasticity approach have been presented till FY55 in line with the maximum extendable concession period of 30 years in Table 0 5.

For further details in relation to Asset 23, please refer to **Annexure C** of this Placement Document.

Raipur to Simga Section of NH-30 (Old NH-200) ("Asset 24") and Sigma to Bilaspur Section of NH-130 (Old NH-200) & NH-49 ("Asset 25")

Project Overview

According to the Traffic Consultant, the project road, a combination of NH-30 and NH-130, connects Raipur in the south to Bilaspur in the north, passing through Simga and Nandghat. After Simga, NH-30 bifurcates, linking Raipur to Jabalpur in the north while also passing through Jagdalpur, Sukma, Bhadrachalam, and Kothagudem before terminating in Vijayawada in the south. NH-130 extends further, connecting Raipur with Bilaspur, Katghora, and Ambikapur with Korba, a coal mining hub to the north, and Durg and Bhilai, major steel production centers to the south, the project road plays a vital role in transporting iron ore, coal, steel, and other goods. The project road has three toll plazas (TPs), Tarapongi Toll Plaza, Bhojpuree Toll Plaza and Mudhipar Toll Plaza.

Figure 1-1: Corridor with existing toll plaza location

Source: IBI Group India Private Limited

Salient growth features and traffic generators

The Raipur-Bilaspur section is a vital economic corridor influenced by multiple industries, playing a crucial role in regional and national logistics.

The coal mining industry significantly impacts this corridor, with major coalfields such as Gevra, Dipka, Kusmunda, and Mand-Raigarh collectively producing over 150 million tonnes of coal annually. These mines support power plants and industries across the country, generating substantial freight traffic through hundreds of daily truck and rail shipments. This industrial activity positions the road as a critical backbone for regional economic growth.

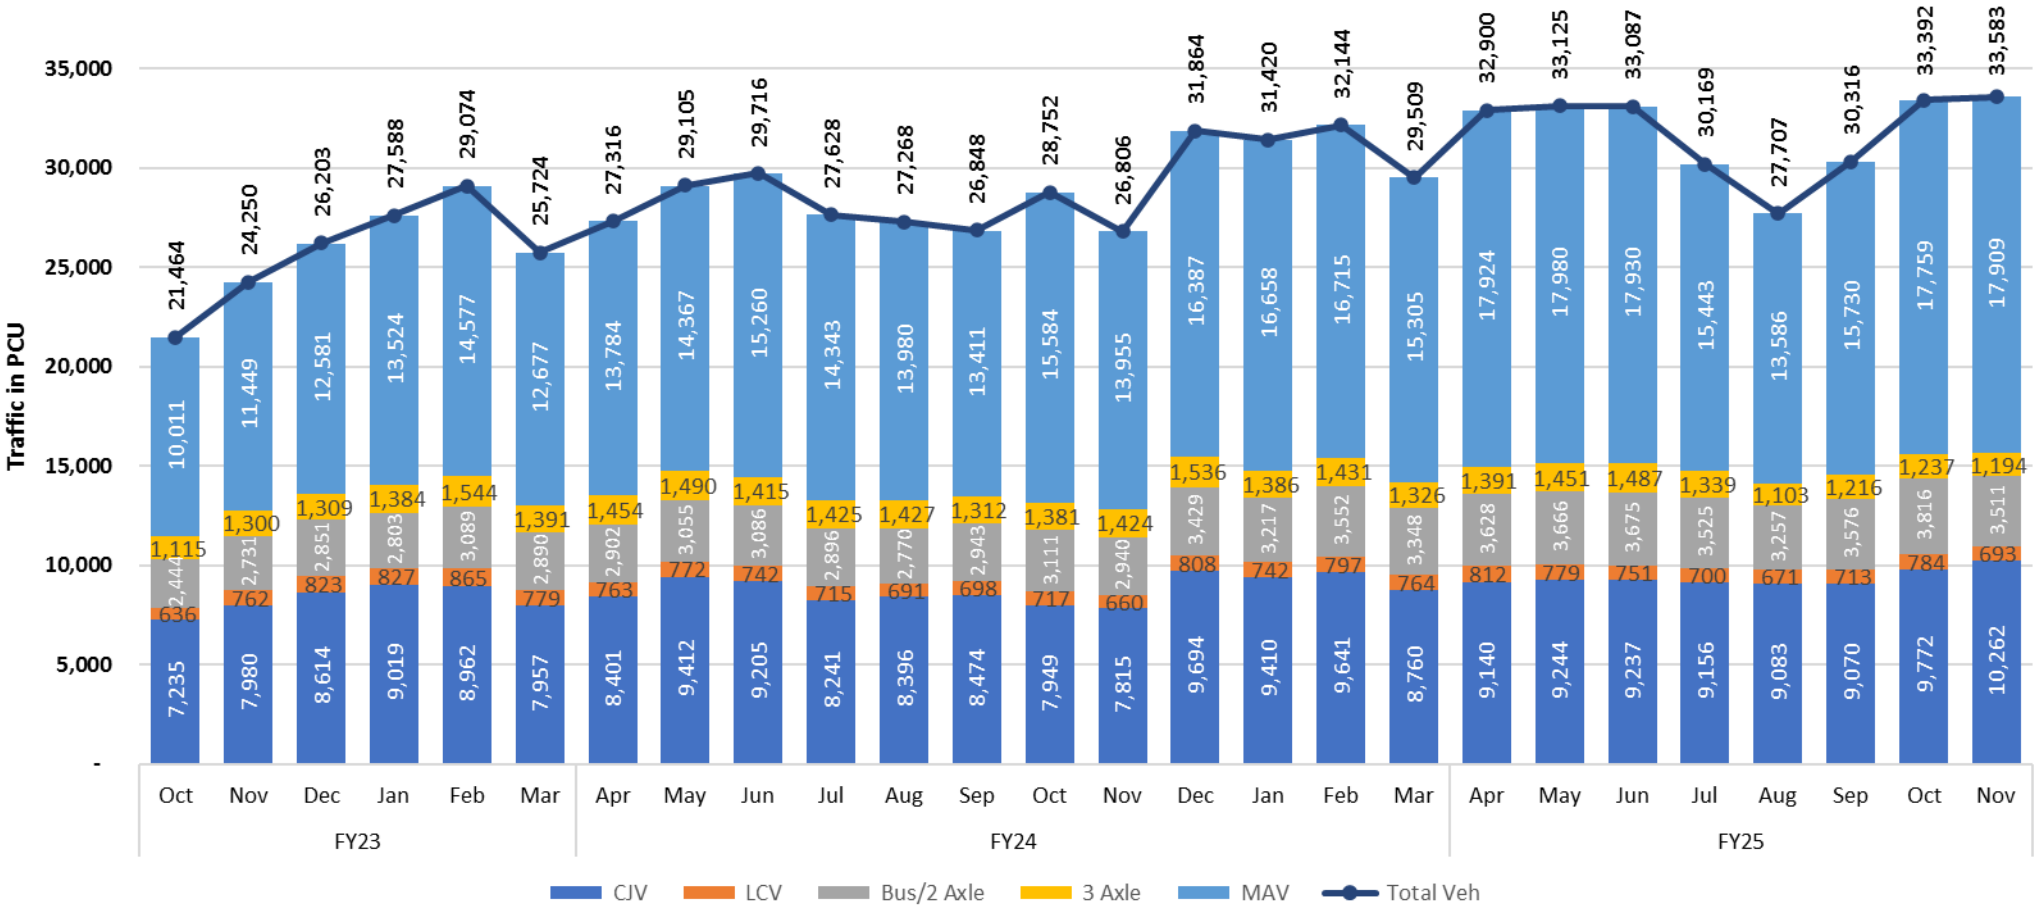
The cement industry also thrives along this corridor, with major plants operated by Ultratech Cement, Ambuja Cement, ACC Cement, and Shree Cement. These facilities contribute over 15 million tonnes of cement production annually, serving infrastructure and construction needs across central and eastern India. The high freight movement of raw materials and finished products further reinforces the road's importance in economic development.

Similarly, the steel industry plays a crucial role, with major steel plants such as Jindal Steel and Power (Raigarh), SAIL's Bhilai Steel Plant, and multiple sponge iron units in Raipur. These plants produce over 20 million tonnes of steel annually, catering to the construction, automotive, and industrial sectors. The constant movement of raw materials like iron ore and finished steel products highlights the corridor's significance in industrial transportation.

Additionally, the corridor facilitates the transportation of fly ash, a byproduct of several thermal power plants in the region, including Korba, Sipat, and Tamnar. These plants generate over 30 million tonnes of fly ash annually, which is extensively used in cement manufacturing, brick production, and infrastructure projects. The steady demand for fly ash ensures continuous freight movement, making the road an essential link for efficient resource utilization.

Looking ahead, the cement sector is witnessing significant investments, further reinforcing the region's industrial growth. Ambuja Cement is investing Rs. 1,600 crore in Nawada for a 6 MTPA unit, expected to create 250 direct and 1,000 indirect jobs by December 2025. Shree Cement has allocated Rs. 2,000 crore for capacity expansion, while Ramco Cements plans to invest Rs. 1,403 crore to double its Andhra Pradesh capacity and install a 10 MW waste heat recovery system by FY26. UltraTech Cement is committing Rs. 32,400 crore to expand its capacity to 200 MTPA. Additionally, ACC and the Adani Group have introduced "Bagcrete" and launched a Concrete R&D facility, while Dalmia Cement has launched Dalmia Supreme Cement in Eastern India. These investments position the corridor as a future growth driver in the cement industry.

With coal, steel, cement, and power industries fuelling freight traffic, the Raipur-Bilaspur corridor remains a key driver of industrial and economic growth in the region.



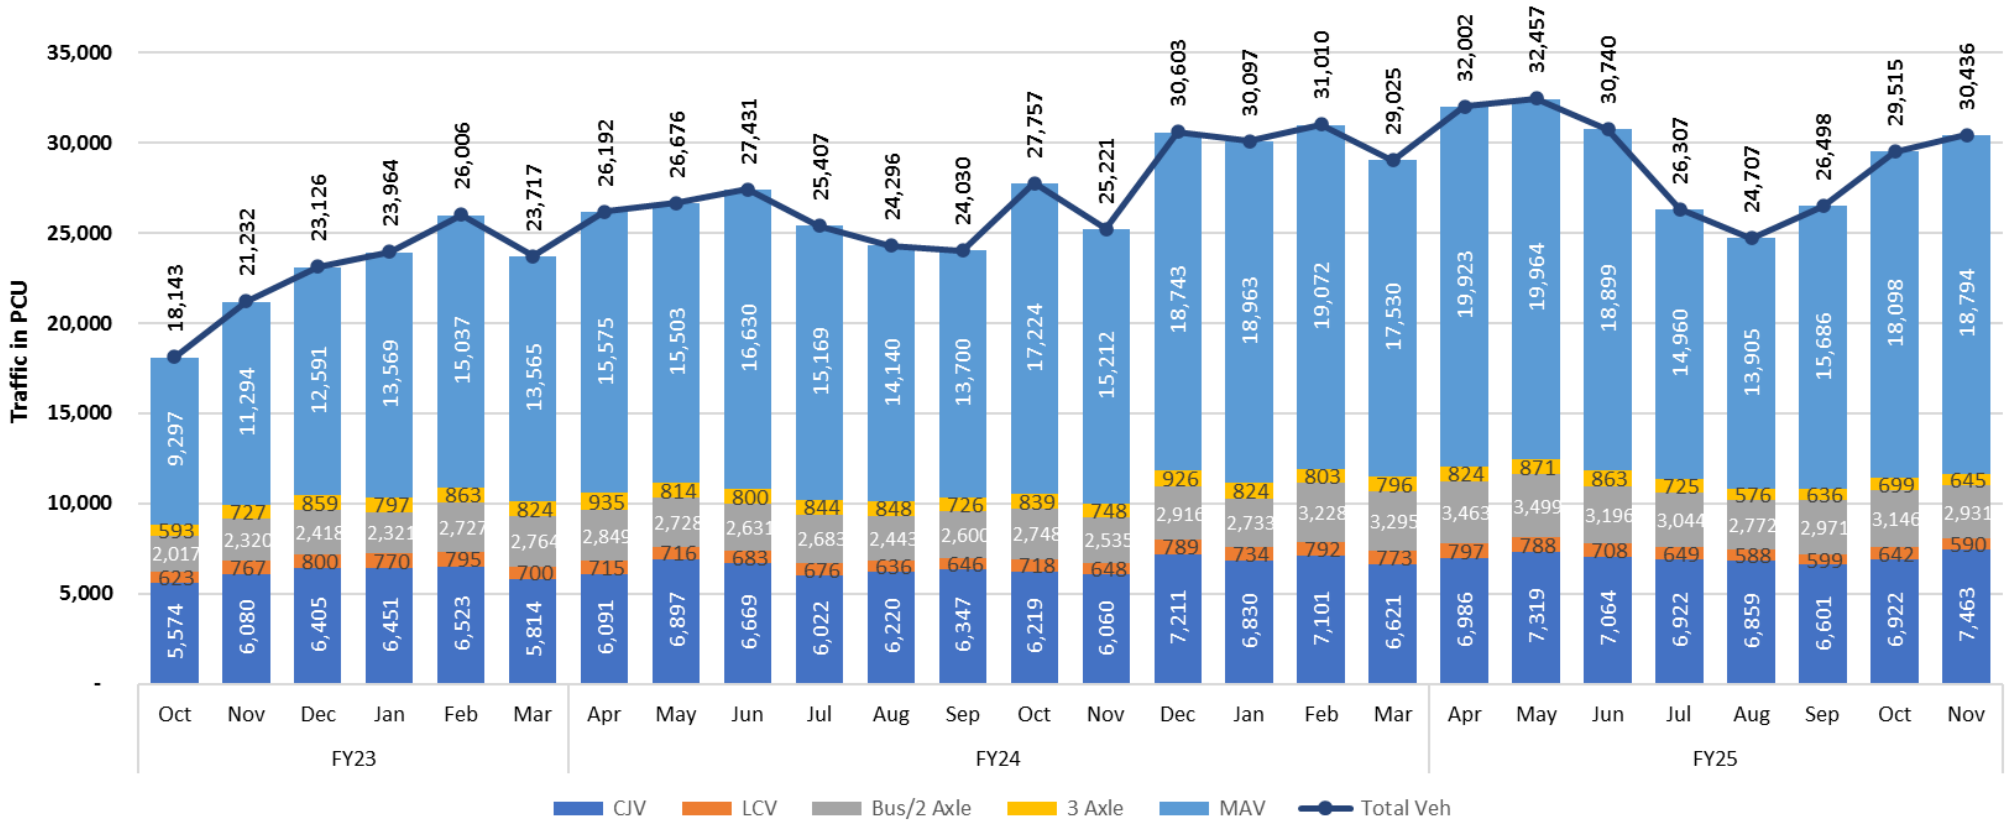
Traffic volume and composite of vehicles

Historical traffic data

Traffic and revenue data for Tarapongi, Bhojpuree (Oct 2022 – Nov 2024), and Mudhipar (Nov 2022 – Oct 2024) toll plazas were sourced from the Concessionaire. The data, includes toll categories like single journey, local pass, and exempted traffic, was analyzed for trends, & seasonal variations.

Monthly ADT in PCU for Tarapongi Toll Plaza:

Figure 1-2: Historic Traffic Trend of Tarapongi Toll Plaza

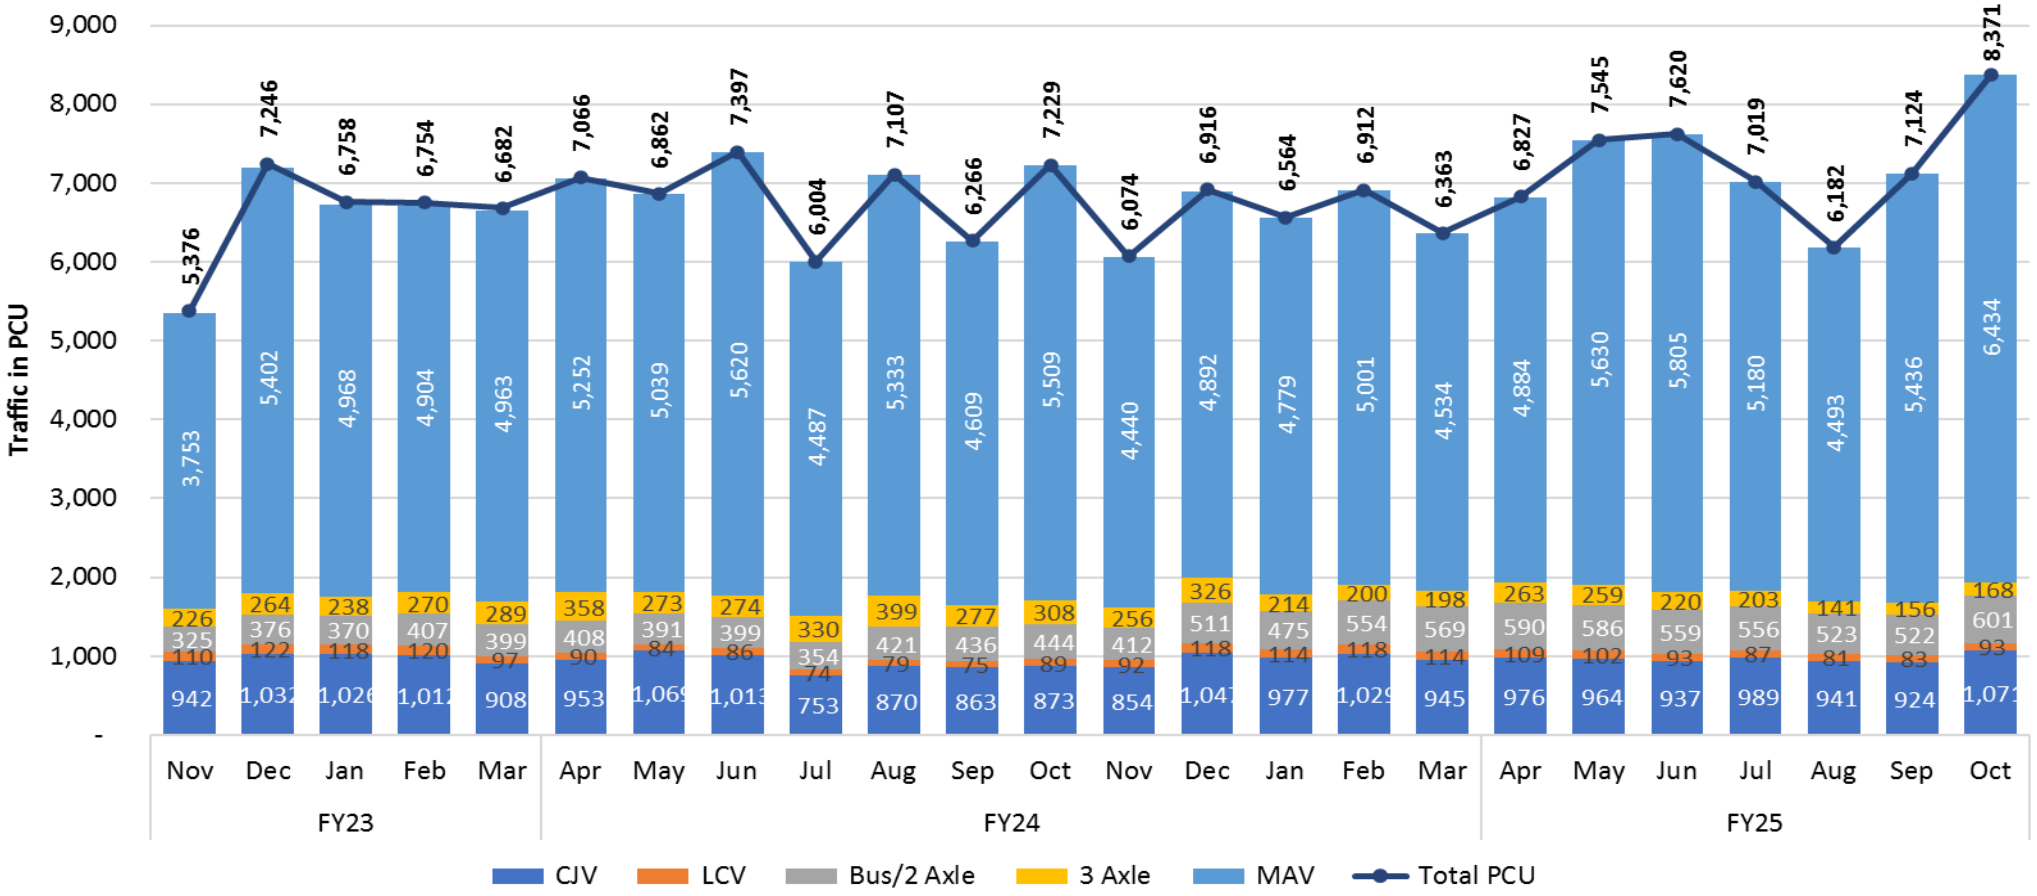


Source: IBI Group India Private Limited

The daily traffic, measured in Passenger Car Units (PCUs), has generally been in the range of 20,000 to 30,000 PCUs over the period from December FY23 to October FY25.The traffic has shown an upward trend, with a Compound Annual Growth Rate (CAGR) of 12.5% from FY23 to FY25.The daily revenue has also grown consistently, reaching ₹28.94 lakhs in October FY25.The revenue has shown a CAGR of 14.5% from FY23 to FY25.

Monthly ADT in PCU for Bhojpuri Toll Plaza:

Figure 1-3: Historic Traffic Trend of Bhojpuri Toll Plaza



Source: IBI Group India Private Limited

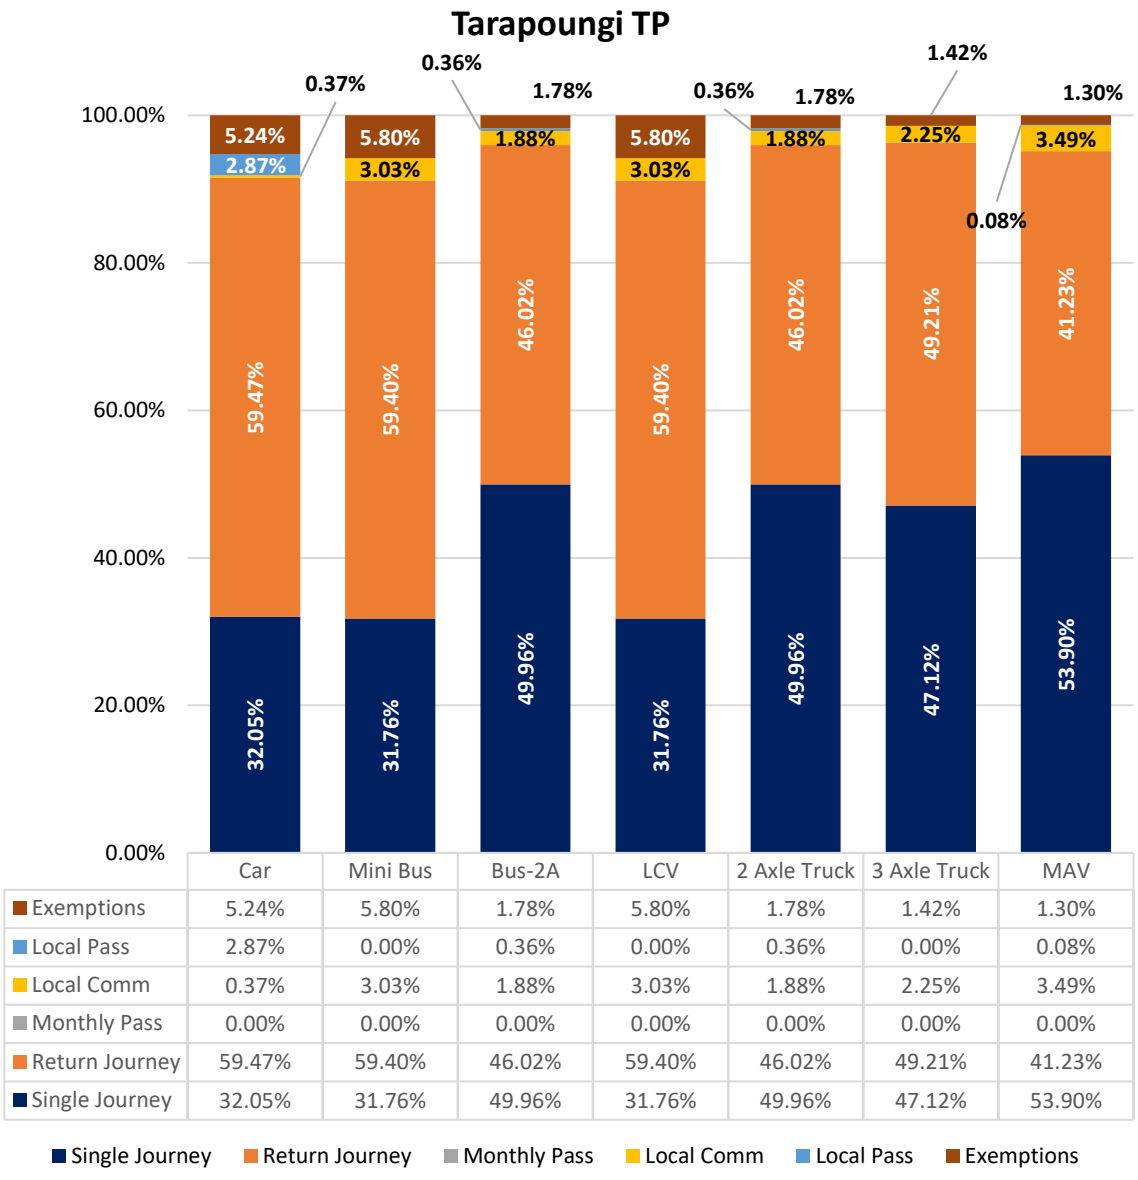
The daily traffic, measured in Passenger Car Units (PCUs), has generally been in the range of 6,000 to 8,500 PCUs over the period from December FY24 to October FY25. The traffic has shown an upward trend, with a Compound Annual Growth Rate (CAGR) of 16.9% from FY23 to FY25.The daily revenue has grown consistently, reaching ₹28.26 lakhs in October FY25.The revenue has shown a CAGR of 15.6% from FY23 to FY25.

Monthly ADT in PCU for Bhojpuri Toll Plaza:

Figure 1-4: Monthly ADT in PCU for Mudhipar Toll Plaza

Source: IBI Group India Private Limited

Based on the available data from Dec-FY24 to Oct-FY25 it can be observed that the traffic has been varying around 6000 to 8500 PCUs daily and having revenue of around 3 lack to 4 lacks daily. Daily revenue grew consistently, reaching ₹4.04 lakh in October FY25, with a CAGR of 22.7% from FY23 to FY25.Daily traffic ranged from 6,378 to 8,499 PCU, showing an upward trend with a CAGR of 18.8% over the same period.



Toll Segmentation

Based on detailed review of historic trends of trip segmentation, Consultant has recommended that the combined data from Tarapongi, Bhojpuri, and Mudhipar Toll Plazas shows varied travel patterns across vehicle types. Tarapongi and Bhojpuri see more return journeys for cars and LCVs, while Mudhipar has a higher share of single journeys. Trucks and MAVs at Tarapongi and Bhojpuri have a balanced mix of single and return trips, whereas Mudhipar is dominated by single journeys. Local commercial traffic and exemptions are present at all three plazas in different proportions.

Local pass usage varies across locations and vehicle types. A potential increase in Local District Commercial (LDC) share, especially at Tarpongi, with a phased rise from FY-26 to FY-30 is considered. Each toll plaza reflects distinct travel characteristics in trip types, local pass reliance, and exemptions.

Tarapongi Toll Plaza:

Figure 0-2 Base Year (FY25) Trip Segmentation for Tarapongi Toll Plaza

	Car	Mini Bus	Bus-2A	LCV	2 Axle Truck	3 Axle Truck	MAV
Exemptions	5.24%	5.80%	1.78%	5.80%	1.78%	1.42%	1.30%
Local Pass	2.87%	0.00%	0.36%	0.00%	0.36%	0.00%	0.08%

Source: IBI Group India Private Limited

Future trip Segmentation for Tarapongi Toll Plaza:

LDC shall increase and shall cap at 75% (25% of the users will not obtain the LDC due to insufficient LDC compliance) of the Actual Share estimated from Survey. For future projections, an expected increase in Local District Commercial (LDC) share at Tarapongi in a phased manner from FY-26 to FY-30 for LCV, 2A,3A and MAV is considered. Additionally, exemptions are factored in using available data, ensuring alignment with observed trends. The final adopted segmentation reflects these adjustments, and it is assumed that the forecast segmentation will remain consistent throughout the concession period.

Future trip Segmentation for Bhojpuri Toll Plaza

DC shall increase and shall cap at 75% (25% of the users will not obtain the LDC due to insufficient LDC compliance) of the Actual Share estimated from Survey. For future projections, the consultant has noted an expected increase in Local Daily Commuter (LDC) share at Bhojpuri in a phased manner from FY-26 to FY-30 for LCV, 2A,3A and MAV. Additionally, exemptions are factored in using available data, ensuring alignment with observed trends. The final adopted segmentation reflects these adjustments, and it is assumed that the forecast segmentation will remain consistent throughout the concession period.

Base Year Traffic (AADT)

- FY 25 (Apr to Nov 2024) ETC Toll plaza data for Base Year AADT for Tarapongi & Bhojpuri and FY25(Apr-Oct) for Mudhipar Toll Plaza is considered.
- IHMCL data for FY23 and ETC data FY24 is considered most suitable for SCF calculation for all three toll plazas.
- Final AADT has arrived by adding adjusted ADT (with selected SCF) arrived from ETC data (April to Nov 2024/Oct 2024, which excludes cash & exemption/violation traffic), cash & exempt traffic from non-ETC data (April to Nov/Oct 2024) and forced exemption/violation data obtained from traffic survey.

Adopted AADT for all three toll plazas has been mentioned below.

Table 0-20 AADT FOR TARAPONGI TOLL PLAZA FY25

TARAPONGI TOLL PLAZA FY25 (Apr-Nov)						
Mode	**ADT(a)**	**SCF**	**AADT (ETC)**	**Cash**	**Exempt**	**Final AADT**

Traffic Forecast

Traffic forecasting for project road traffic was done considering past trend in growth and analysing prospects of project influence area. Elasticity approach of growth rate estimation was used for long term traffic forecasting.

The network developments near the Asset's alignment, which are expected to impact traffic on the Asset during the concession period, include the 4-laning of NH-130B (Raipur – Baloda Bazar – Sarangarh), the Raipur–Dhanbad Economic Corridor (EC-07), and associated upgrades in the region.

The 4-laning of NH-130B, covering approximately 169 km out of the total 216 km, is currently in the planning stage, with an estimated completion in FY-31. This development is expected to have a negative impact on the Asset's traffic from FY-32 onward.

The Raipur–Dhanbad Economic Corridor (EC-07), a 707 km-long access-controlled expressway, is under construction to enhance connectivity between Chhattisgarhh and Jharkhand. The corridor comprises both greenfield and brownfield sections, including the upgrade of the Raipur–Bilaspur Expressway to a six-lane highway. The ongoing construction between Bilaspur and Urga is expected to be completed by FY-27, positively impacting the Asset from the same year. A subsequent phase of the corridor is anticipated to be completed by FY-31, further influencing traffic patterns from FY-32.

All these network impacts are considered in the Traffic Projections.

The methodology used for the study included following steps:

- The influencing factors obtained from OD surveys are utilized in deriving the key socio-economic parameters of the Project Influence Area (PIA) for the historic trend.
- Through regression analysis for various combinations of dependent and independent parameters is conducted to evaluate the significance of the relation.
- Potential growth of various vehicle categories was separately assessed based on its probable market share in expected multi-modal development.
- The elasticity values for the selected relation are taken & used for the traffic growth rates estimation. However, there are several steps performed before obtaining the traffic growth rates which are explained in the chapter 6.

Traffic Assumptions

Traffic Assumptions: -

- Future traffic forecasting was done using elasticity approach which considers the elasticity of transport demand and probable pattern of future growth of the economy.
- Elasticity values for each mode is estimated using the past vehicle registration data, past traffic trend and AADT-tonnage with the growth of PCI, GSDP and Moderated elasticity values chosen for the analysis based on previous trends in socioeconomic variables.
- For Car, Bus and truck traffic, the adopted elasticity values are as follows –
    - Tarapongi TP – 1.20, 0.50, 0.90
    - Bhojpuree TP – 1.20, 0.50, 0.90
    - Mudhipar TP - 1.20, 0.50, 0.90
- Based on the projected elasticity values for TP 1, TP2 and TP 3 the growth of PIA, the future average annual compound traffic growth rates by vehicle type have been estimated by using the following relationship:
    - For freight vehicle, the tonnages on the corridors are projected. The existing market share of different category of goods vehicles are then adjusted for the future years based on the past tonnage trend observed.
    - Normal traffic projections have arrived by applying the traffic growth on the base year traffic.
- The future traffic projections are presented for Effective case traffic projections & the Effective case has arrived by considering the future adjustments in the form of diversions and developments detailed in the chapter 5.

For further details in relation to Asset 24 and Asset 25, please refer to **Annexure C** of this Placement Document.

Gandhidham (Kandla) to Mundra Port section of NH-41 ("Asset 26")

Project Overview

According to Traffic Consultant project road Gandhidham-Mundra is a 4-lane, 71.400 kms long stretch with 8.730 kms Anjar bypass, on national highways (NH) 8A/41 which connects Gandhidham and Mundra. Project road gives connectivity to Mundra port & Kandla Ports in the west region. The project stretch has one toll plaza by the name of Mokha which lies at the chainage of km 44+500 near Mokha Village. Most of the traffic is originating/destined to Mundra port. Around 61% of the truck is container trucks.

Figure 1-1: Project Road

Source: Open Street Map, CRISIL India

Salient growth features and traffic generators

Container traffic holds major share around 61% in the overall traffic. Project road gives connectivity to two important seaports in the region which are Mundra Port and Kandla Port. Mundra Port, located in Gujarat, India, is the largest commercial port in the country and a critical hub for container traffic. It handles a significant volume of cargo, including containers, dry bulk, liquid bulk, and automobiles. The port's strategic location on the western coast of India allows it to serve the vast hinterland regions, including the National Capital Region, Gujarat, Punjab, Rajasthan, and Madhya Pradesh. Mundra Port operates five container terminals across 12 berths, with a combined capacity of 9.5 million TEUs (twenty-foot equivalent units). India's container traffic decadal growth (FY14-FY24) is around 7.7% and Mundra port's container traffic decadal growth (FY14-FY24) is around 12.0%.

Second most carried commodity is tiles and ceramics, which is around 5.3%. The Morbi Ceramic Cluster, located in Gujarat, India, is one of the largest and most significant ceramic industry clusters in the world. It is situated about 250 km from Ahmedabad and is renowned for its extensive production of ceramic products. The cluster comprises over 600 units, producing a wide range of items including wall tiles, floor tiles, vitrified tiles, polished glazed vitrified tiles, and sanitary ware.

Traffic volume and composite of vehicles

Traffic Survey Data

The following table shows the TVC seven-day traffic count of Gandhidham (Kandla)-Mundra Port section of NH-8A/41:

Historical Traffic Data

The chart below shows the average daily traffic on Gandhidham-Mundra stretch from April 2022 to November 2024.

Figure 1-2: Historic Monthly Average Daily Traffic (MADT) in PCU

Source: Crisil India

Overloading scenario on the project stretch

To ascertain the quantum of overloading, a seven-day axle load survey was done by the technical consultants of the client. The results of axle load survey provided by the client, reveal that overloaded vehicles form a sizeable share of vehicles across categories. As per the survey, 41% of the MAVs, 40% of 3 axle and 3% of the 2 Axle vehicles are overloaded (considering more than 5% overload than permissible limits).

Tiles, Wood, Rice and Coal are key commodities which are overloaded.

As per discussions with the client, it is proposed that overloading will be levied on 25% of MAV and 3 Axle vehicles which are overloaded for more than 20% of the threshold and applied to the traffic which is travelling with trip length of less than 350kms and excluding commodities like fruits & vegetables, petroleum products and machinery. The quantum of vehicles for charging overloading penalty is decided after considering the practical numbers which can be charged per lane per hour. The revenue potential is arrived at, by considering an overloading levy equivalent to 1x of single journey toll rates.

Following table shows the overloading scenario for commercial vehicles on the stretch.

Table 1-2: Overloading survey Analysis

Direction	Vehicle Category	Sample	>5% overload	>20% overload	>5% overload	>20% overload
Overall	MAV	723	296	78	41%	11%
Overall	2A	107	3	0	3%	0%

Revalidation of Traffic and Revenue Estimates Based on Recent Data

IBI India, Ramboll India Private Ltd, and CRISIL Market Intelligence & Analytics were engaged to carry out a review of the earlier traffic and revenue forecasts pertaining to the Traffic Report submitted by the Traffic Consultants in relation to the Existing Toll Roads, based on the actual traffic/ revenue data up to the month of November 2024 ("Revalidation Note"). In the Revalidation Note, IBI India Private Limited, Ramboll India Private Ltd, and CRISIL Market Intelligence & Analytics has confirmed that the previous estimates of traffic and revenue for the Existing Toll Roads provided in the Traffic Reports for Fiscal Year 2024 and beyond has been updated with the revised GDP and WPI forecasts, as used in Target Toll Roads. Provided below is the asset wise summary of the traffic forecast as presented in the detailed Revalidation Note, is annexed as Annexure C.

Operations

Toll collection system

Toll is collected for each journey through each of the toll plazas. Signs setting out the toll rates for the Toll Road assets are displayed at the toll booths and tolls can be paid or tendered by the driver of any vehicle in the following manners:

Cash

Tolls paid by means of cash are collected by toll collectors at the manual toll booths.

Electronic toll collection

To ensure seamless traffic movement through toll plazas and increase transparency in collection of user fees using FASTag, the National Electronic Toll Collection (NETC) programme has been implemented on a pan-India basis. FASTags are simple to use reloadable tags to enable automatic deduction of toll charges from a pre-paid account without having to stop at toll plazas for cash transactions.

FASTag was started as a pilot project in 2014 on the stretch of Golden Quadrilateral between Mumbai and Ahmedabad. It was later extended to other toll plazas, with the FASTag use made mandatory across the country in February 2021. To ease the process of getting a FASTag for citizens, the Ministry also mandated that all vehicles manufactured after December 2017 should be pre-fitted with a FASTag. This reform has been immensely beneficial for citizens and toll plaza operators.

Transition to 100% FASTag was implemented w.e.f 15th February, 2021 and thereafter, significant increase in toll collection through FASTag has been observed**.** (*Source: CRISIL Report*)

Monitoring

Toll collection

Payments at the toll plazas, both electronic as well as cash payments, are processed through a semi-automated or a fully automated toll collection system, depending on complexity of the project. Both these systems collect and store traffic and payment data, thereby reducing the need for manual operation. A semi-automated system consists of a revenue collection software desktop, a barrier gate, smart cards and monitoring cameras and a fully automated system includes equipment such as vehicle counting classifier, vehicle audit system, communication channels and traffic control equipment in addition to all the components of a semi-automated system.

For the purpose of identifying categories of vehicles and to charge an appropriate toll rate, the automatic vehicle identification based in-road/infrared sensors are also used. The Project SPVs would use weigh-in-motion technology for projects where weight-based toll collection is mandated. The weight based tolling systems are integrated with the fully automatic toll collection system for enhanced revenue controls.

There are cameras installed particularly for capturing and recording any toll evasion incidents by vehicles. There is also a back-up power supply system to ensure that there is no interruption to power supply at the toll plazas in order to maintain a stable power supply for the sub-systems and equipment. Servers used in the toll collection systems at the toll plazas are capable of real time uploading of transaction data from toll lane equipment and performing an automatic daily backup to prevent any toll data loss and to enable quick system recovery, which would allow the Project SPVs to collect variable amounts of tolls depending on the class of motor vehicles and serves as a traffic information system.

Only certain authorised persons have access to the toll collection systems and the activities are recorded for security purposes. The Project SPVs are responsible for operating the toll collection system at its toll plaza and taking regular preventive and corrective measures to maintain such systems at the highest levels of security and reliability.

Traffic control

There are helpline numbers displayed along the national highways for communication between the road users and the control room in case of any emergency. This provides a reliable communication channel for the road users in cases of an exigency where they need to communicate with staff at the Control Room. The Project SPVs would take regular preventive and corrective measures to maintain the emergency telephone system at the highest levels of reliability and safety. The Project SPVs are required to carry out regular patrolling and regulate and maintain traffic order within the projects. Emergency telephone systems and emergency helpline numbers are provided at all projects where such systems and numbers are required by the Concession Agreement. There are also patrol vehicles that continuously move on the section of the project that it is assigned to, which will intervene to regulate traffic and carry out surveillance activities.

Traffic and motorway assistance services

Traffic assistance

The Project SPVs would provide emergency assistance to motorists using the toll roads. They station patrol/light recovery vehicles on each toll road, which are deployed to patrol the toll roads on a continuous basis.

In the case of a vehicle breakdown or traffic accident, the Control Room will announce the occurrence via mobile phones or handsets to instruct a mobile supervisor and a recovery supervisor to proceed to the scene immediately, and file relevant reports with the police if personal injury is involved. At the scene of a traffic accident or vehicle breakdown, the mobile supervisor will report to the Control Room on the situation of the incident, ensure safety of the scene and apply first aid to injured persons, if any. The recovery supervisor will determine whether the vehicle can be recovered on site or deploy recovery vehicles for towing. The traffic officer will stop the traffic, close the affected lane where necessary and direct trapped vehicles away to other unaffected lanes.

Safety Measures

Under the Concession Agreement, the concessionaire is obligated to abide by certain safety requirements, which include measures such as road signs, pavement marking, traffic control devices, roadside furniture, highway design elements, enforcement and emergency response. The concessionaire must abide by among others, applicable laws and applicable permits, the Manual for Safety in Road Design as issued by the Ministry of Shipping, Road Transport and Highways, relevant standards and guidelines of the Indian Roads Congress and good industry practice. NHAI also carries out safety audits of the projects by appointing a safety consultant employing a team comprising of, among others, one road safety expert and one traffic planner. These safety requirements apply to all phases of construction, operations and maintenance with emphasis on identification of factors associated with accidents and implementation of appropriate remedial measures.

Management

We are managed by qualified personnel of the Investment Manager and Investment Committee, with members who have management and operational experience in the roads and highways sector. For further details about the Investment Manager, please see the sections headed "*Parties to the Trust*" on page 75 of this Placement Document.

The Investment Manager, in consultation with the Trustee, has appointed a majority of the directors on the board of the Project SPVs in accordance with the InvIT Regulations, and such directors form part of the quorum. The Project SPVs' board of directors have also formed committees, as applicable and required, under the Companies Act, 2013 and rules made thereunder.

Seasonality

Traffic volume tends to decrease during the monsoon season and conversely tends to increase during holiday seasons. While the northern parts of India experience monsoon rains during the period from June or July until September or October every year, the southern parts of India, especially coastal parts of Andhra Pradesh, experience monsoon rains even during the months of October to December. The monsoon season may also restrict the Trust's ability to carry on activities related to its operations and maintenance of toll roads. For further details on risk associated with seasonality, please see the section headed "*Risk Factors*" on page 43 of this Placement Document. Conversely, traffic volume tends to increase during holiday seasons.

Property

The Investment Manager's corporate office is located in G - 5 & 6, Sector 10, Dwarka, New Delhi – 110075 from which all its administrative and reporting activities are conducted.

Insurance

The Trust's operations are subject to hazards inherent in providing operations and maintenance services, such as risk of equipment failure, work accidents, fire, earthquake, flood and other force majeure events. This includes hazards that may cause injury and loss of life, damage and destruction of property, equipment and environmental damage. NWPPL, in relation to itself and the Existing Toll Roads, has obtained insurance coverages, including, but not limited to, fire and special perils, loss of profit, fidelity guarantee and burglary. NSPPL shall obtain insurance with respect to the Target Toll Roads, in accordance with the relevant Concession Agreements.

Legal Proceedings

The Project SPVs, the Sponsor, the Investment Manager, the Project Manager and the Trustee may be involved in legal proceedings or claims from time to time. As on date of the Preliminary Placement Document, certain proceedings or claims involving the Sponsor and certain of its Associates and the Trustee, are currently pending at different levels of adjudication before various courts, tribunals and regulatory authorities. For a description of the material legal proceedings that are outstanding, please see the section entitled "*Legal and other Information*" on page 410 of this Placement Document.

SUMMARY OF THE CONCESSION AGREEMENTS

Except as disclosed herein, for an overview of the summary of R1 and R2 Concession Agreements, please see the section entitled "Summary of the Concession Agreements" on page 152 of the R2 Placement Document available at https://www.bseindia.com/downloads1/NHIT_PD.pdf and for overview of the summary of R3 Concession Assets, please see the section entitled "Summary of the Concession Agreements" on page 232 of the R3 Placement Document available at https://nhit.co.in/pdf/communication-to-stock-exchange/NCDs/Project-Leap-Placement-Document_15.03.2024.pdf.

The following are summaries of the concession agreements entered into by the NHIT Southern Projects Private Limited in relation to Target Toll Roads. The descriptions and summaries of the agreements below are not, nor do they purport to be complete descriptions or summaries of all terms of such agreements. Certain terms used in this section have the meaning assigned to them in the respective concession agreements. Copies of these concession agreements are also available for inspection at the registered office of the Trust.

1. ***Concession Agreement between NSPPL ("Concessionaire") and NHAI in respect of the Narasannapeta to Ranasthalam Project dated March 12, 2025***

The Concessionaire has entered into a concession agreement for tolling, operation, maintenance and transfer of Narasannapeta to Ranasthalam Project (as defined below) on toll, operate and transfer (TOT) basis (the "**Narasannapeta to Ranasthalam Concession Agreement**"), for a period of 20 years from the the Appointed Date (i.e., the date on which all Conditions Precedent have been satisfied) or such date on which the Narasannapeta to Ranasthalam Concession Agreement is terminated by a termination notice ("**Narasannapeta to Ranasthalam Concession Period**").

Certain Definitions

"**Narasannapeta to Ranasthalam Project**" means the operation and maintenance of the Narasannapeta to Ranasthalam Project Highway in accordance with the provisions of the Narasannapeta to Ranasthalam Concession Agreement and includes all works, services and equipment relating to or in respect of the scope of the Narasannapeta to Ranasthalam Project as set forth in the Narasannapeta to Ranasthalam Concession Agreement;

"**Narasannapeta to Ranasthalam Project Assets**" means all physical and other assets relating to and forming part of the Site including (a) rights over the Site in the form of licence, Right of Way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre- stones, toll plazas, electrical systems, communication systems, rest areas, relief centers, maintenance depots and administrative offices; (d) all rights of the Concessionaire under the project agreements; security deposits; insurance proceeds; and (e) Applicable Permits and authorisations relating to or in respect of the Narasannapeta to Ranasthalam Project Highway, but does not include Additional Facilities; and

"**Narasannapeta to Ranasthalam Project Highway**" means the Site comprising the existing road comprising:

Stretch	State	Start (Km)	End (Km)	Length
Narasannapeta to Ranasthalam	Andhra Pradesh	580+671	634+470	53.799

and all Narasannapeta to Ranasthalam Project Assets."

Grant of Concession

Subject to and in accordance with the terms and conditions set forth in the Narasannapeta to Ranasthalam Concession Agreement, NHAI has granted to the Concessionaire, and the Concessionaire has accepted the concession for a period of 20 years, including the exclusive right, license and authority during the subsistence of the Narasannapeta to Ranasthalam Agreement to demand, collect and appropriate Fee, operate, manage and maintain the Narasannapeta to Ranasthalam Project Highway. Notwithstanding anything to the contrary in the Narasannapeta to Ranasthalam Concession Agreement, the parties have expressly agreed that the Concession Period shall not be reduced by more than 5 (five) years, or shall not be increased by more than 10 (ten) years on any account or for any reason whatsoever.

Subject to and in accordance with the terms and conditions set forth in the Narasannapeta to Ranasthalam Concession Agreement, the Concessionaire is entitled to undertake the following in accordance with the terms of the Narasannapeta to Ranasthalam Concession Agreement, applicable laws and applicable permits:

i. Right of Way, access and license to the Site for the purpose of and to the extent conferred by the provisions of the Narasannapeta to Ranasthalam Concession Agreement;

ii. manage, operate and maintain the Narasannapeta to Ranasthalam Project Highway and regulate the use thereof by third parties in accordance with the terms of Narasannapeta to Ranasthalam Concession Agreement;

iii. demand, collect and appropriate the fees from vehicles and persons liable for payment of fees for using the Narasannapeta to Ranasthalam Project Highway or any part thereof and refuse entry of any vehicle to the Narasannapeta to Ranasthalam Project Highway if the fee due is not paid;

iv. perform and fulfill all of the Concessionaire's obligations under and in accordance with the Narasannapeta to Ranasthalam Concession Agreement;

v. bear and pay all costs, expenses and charges in connection with or incidental to the performance of the obligations of the Concessionaire under the Narasannapeta to Ranasthalam Concession Agreement; and

vi. neither assign, transfer or sublet or create any lien or encumbrance on the Narasannapeta to Ranasthalam Concession Agreement, or the concession granted thereby, or on the whole or any part of the Narasannapeta to Ranasthalam Project Highway nor transfer, lease or part possession thereof, save and except as expressly permitted by the Narasannapeta to Ranasthalam Concession Agreement.

Fees

The Concessionaire is entitled to, during the Narasannapeta to Ranasthalam Concession Period, levy, collect and appropriate fees from users ("**User Fee**") of the Narasannapeta to Ranasthalam Project Highway pursuant to and in accordance with the provisions in the Narasannapeta to Ranasthalam Concession Agreement and the Fee Rules and to appropriate the same. In accordance with the terms of the Narasannapeta to Ranasthalam Concession Agreement, the Concessionaire shall not collect any fees in relation to exempted vehicles. The fees collected by Concessionaire shall be deposited in the escrow account and appropriated in accordance with the relevant provisions of the Narasannapeta to Ranasthalam Concession Agreement.

Sub Rule 6(6) of the above-mentioned Fee Rules states,

"(a) The fee shall be collected by the Central Government or the executing Authority as the case may be and for a specified period in accordance with the terms of agreement entered by the Concessionaire.
(b) The fee as notified as per Narasannapeta to Ranasthalam Concession Agreement shall be leviable till the end of the concession period and after the Concession Agreement is over, the fee shall be collected by the Central Government executing authority at a reduced rate of 40% of the fee on the date of transfer of such section of National Highways, bridge, tunnel or bypass, as the case may be, to be revised annually in accordance with these rules:

Provided that after the recovery of capital cost through user fee realised, in respect of a public funded project, the fee leviable would be reduced to 40% of the user fee for such section of National Highways, bridge, tunnel or bypass as the case may be, to be revised annually in accordance with these rules." In respect of the above, NHAI has clarified that Rule 6 of the Fee Rules provides that the user fee to be notified by Government as per the format of Schedule M of Concession Agreement shall be leviable till the end of the concession period. Hence, the rate of User Fee rate shall only be reduced after the concession period is over."

Concession Fees

As consideration for the grant of the Concession, the Concessionaire is required to pay a concession fee to NHAI equivalent to ₹ 13,883.00 million, within 120 days of the date of execution of the concession agreement or any extended date as agreed by NHAI prior to the Appointed Date as a Condition Precedent. The Concessionaire agrees that payment of the concession fee constitutes essential condition of the Concession Agreement. Further as communicated by the authority by way of a letter dated 13.02.25, any amount raised from the proceeds of the Issue in excess of the Base Concession Fee (being the aggregate of Concession Fees payable to NHAI in terms of the Additional Concession Agreements) shall be paid to the Authority. For further details, see the section titled "Use of Proceeds – Details of Utilisation of Issue Proceeds - Infusion of debt and/or equity into NSPPL" on page 355. For the purposes of stamp duty payment, concession agreements are generally considered to be agreements which are not lease deeds and stamp duty of ₹ 100.00 is typically paid for such concession agreements. However, stamp duty authorities of certain states in India have issued notices to some concessionaires alleging inadequate stamp duty on the concession agreements executed between the concessionaires and the NHAI. The stamp authorities allege that since concession agreements relate to the letting of tolls to the concessionaires in the form of leases, or as development agreements, such agreements were required to be stamped as lease agreements or development agreements, as applicable. The stamp duty for a lease agreement or a development agreement ranges between 1.0% and 11.0% of the annual rent or premium payable or the market value of the property. Furthermore, stamp duty authorities may impose penalties for payment of inadequate stamp duty, which could extend up to ten (10) times the amount of the stamp duty payable. Accordingly, concession agreements that have not been stamped as such could be considered to be inadequately stamped. The High Courts of Allahabad and Maharashtra have also held that a concession agreement ought to be stamped as a lease agreement and have upheld the imposition of a higher stamp duty on such agreements.

While we have paid stamp duty of ₹ 100.00 on each of our Concession Agreements in accordance with usual practice, if any demand for payment of a higher stamp duty or penalty is imposed, it would increase the costs of the Toll Roads.

In respect of above, NHAI has clarified that:

(i) As on the date of the Narasannapeta to Ranasthalam Concession Agreement, GST is not applicable on Concession Fee. However, if it becomes applicable at a later stage, this shall be considered as change in law.

(ii) There is no requirement of stamp duty in case of Concession Agreements since Fee Rules provided for levy and collection of user fee and not toll tax. In case, in future any such demand arises, it shall be treated as change in law.

Escrow Account

The provisions in relation to the escrow account in the Narasannapeta to Ranasthalam Concession Agreement are only applicable if the obligations of the Concessionaire under Narasannapeta to Ranasthalam Concession Agreement are financed by the Lenders.

The Concessionaire shall, prior to the Appointed Date, open and establish the escrow account with the escrow bank and all funds constituting the financing package related to the Narasannapeta to Ranasthalam Project shall be credited to such escrow account. During the Narasannapeta to Ranasthalam Concession Period all fees and any other revenues including the proceeds of any rentals, deposits, capital receipts or insurance claims from or in respect of the Narasannapeta to Ranasthalam Project Highway shall be deposited therein. In addition, all payments by NHAI pursuant to the Narasannapeta to Ranasthalam Concession Agreement, including, if any, in relation to the change of scope in the Narasannapeta to Ranasthalam Project shall be deposited by NHAI in the escrow account.

Withdrawals from Escrow Account

The Concessionaire shall, at the time of the opening of the escrow account, give irrevocable instructions by way of an escrow agreement substantially in form set forth in the Narasannapeta to Ranasthalam Concession Agreement to the escrow bank instructing, *inter alia*, that the deposits into the escrow account shall subject to the provisions of the Narasannapeta to Ranasthalam Concession Agreement, be appropriated in the following order every month and if not due in a month then appropriated proportionately in such month and retained in the escrow account and paid out therefrom in the month when due unless otherwise expressly provided in the instruction letter:

i. all taxes due and payable by the Concessionaire for and in respect of the Narasannapeta to Ranasthalam Project Highway;

ii. concession fee;

iii. all payments relating to construction of the Narasannapeta to Ranasthalam Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

iv. operation and maintenance expenses;

v. operation and maintenance expenses and other costs and expenses incurred by NHAI in accordance with the provisions of the Narasannapeta to Ranasthalam Concession Agreement, and certified by NHAI as due and payable to it;

vi. monthly proportionate provision of debt service payment due in an accounting year;

vii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the escrow agreement and subject to the provisions of the Narasannapeta to Ranasthalam Concession Agreement, in the case of termination, the amounts standing to the credit of the escrow account shall be appropriated in the following order:

i. all taxes due and payable by the Concessionaire for and in respect of the Narasannapeta to Ranasthalam Project Highway;

ii. payment due to the lenders;

iii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire;

iv. retention and payments relating to the liability for defects and deficiencies;

v. incurred or accrued operation and maintenance expenses;

vi. any other payments required to be made under the Narasannapeta to Ranasthalam Concession Agreement; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Change of Scope

NHAI may, notwithstanding anything to the contrary contained in the Narasannapeta to Ranasthalam Concession Agreement, require the Concessionaire to make alterations/ modifications in the scope of the Narasannapeta to Ranasthalam Project as contemplated by the Narasannapeta to Ranasthalam Concession Agreement. If the cumulative costs relating to all the change of scope orders exceed 5% of the concession fee in any continuous period of 3 years immediately preceding the date of such change of scope order or if such cumulative costs exceed 25% of the concession fee at any time during the Narasannapeta to Ranasthalam Concession Period, NHAI may award any works or services, to any person on the basis of open competitive bidding and the Concessionaire shall be entitled to take part in such competitive bidding with a right to match the first-ranked bid in terms of the selection criteria, either by itself where such work requires tolling, operation and maintenance, or through another company where such work requires construction on any part of the Project Highway, subject to payment of 2% (two per cent) of the bid amount to the Authority, and thereupon securing the award of such works or services. For the avoidance of doubt, it is agreed that the Concessionaire shall be entitled to exercise such option only if the Concessionaire has participated in the bidding process either individually or as a consortium or JV with another company and fulfils the eligibility criteria to undertake such work without compromising with its overall liability. All such changes shall be made by NHAI by an order issued in accordance with the procedure set forth in the Narasannapeta to Ranasthalam Concession Agreement.

Termination of the Narasannapeta to Ranasthalam Concession Agreement

Termination by either party

Either Party may in its discretion terminate the Narasannapeta to Ranasthalam Concession Agreement by giving a termination notice to the other party if a force majeure event subsists for a period of 120 days or more within a continuous period of 365 days. Before issuing such termination notice, the party intending to issue the termination notice shall inform the other party of such intention and grant 15 days' time to make a representation and may after the expiry of such 15 days period, whether or not it is in receipt of such representation, in its sole discretion issue the termination notice.

Termination by the NHAI

In the event of any of the defaults specified below have occurred, and if the Concessionaire has failed to cure default within the period provided for the same in the Narasannapeta to Ranasthalam Concession Agreement, then NHAI shall be entitled to issue a notice of its intention to terminate the Narasannapeta to Ranasthalam Concession Agreement, with a copy to the lenders. The following events shall constitute an event of default by the Concessionaire (a "**Concessionaire Default**") unless they have occurred as a result of any breach of the Narasannapeta to Ranasthalam Concession Agreement by NHAI or due to force majeure:

i. the performance security has been encashed and appropriated in accordance with the Narasannapeta to Ranasthalam Concession Agreement and the Concessionaire has failed to replenish or provide fresh performance security within a cure period of 15 days;

ii. subsequent to the replenishment or furnishing of fresh performance security in accordance with the Narasannapeta to Ranasthalam Concession Agreement, the Concessionaire fails to cure, within a cure period of 60 days, the Concessionaire Default for which whole or part of the performance security was appropriated;

iii. the Concessionaire abandons or manifests intention to abandon the operation and maintenance of the Narasannapeta to Ranasthalam Project Highway without the prior written consent of NHAI;

iv. the Concessionaire fails to roll over, renew and furnish new bank guarantee performance security subject to and in accordance with terms of the Narasannapeta to Ranasthalam Concession Agreement, at least three months prior to expiry of subsisting bank guarantee;

v. the Concessionaire is in breach of the Maintenance Requirements or the Safety Requirements, as the case may be;

vi the Concessionaire has failed to make any payment to NHAI within the period specified in the Narasannapeta to Ranasthalam Concession Agreement;

vii. upon occurrence of a financial default, the lenders' representative has by notice required NHAI to undertake suspension or termination, as the case may be, in accordance with the substitution agreement and the Concessionaire

fails to cure the default within the specified cure period;

viii. a breach of any of the project agreements by the Concessionaire causes a material adverse effect;

ix. the Concessionaire creates any encumbrance in breach of the Narasannapeta to Ranasthalam Concession Agreement;

x. the Concessionaire repudiates the Narasannapeta to Ranasthalam Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the Narasannapeta to Ranasthalam Concession Agreement;

xi. a change in ownership occurs in breach of the provisions of the Narasannapeta to Ranasthalam Concession Agreement;

xii. there is a transfer, pursuant to law either of (i) the rights and/or obligations of the Concessionaire under any of the project agreements, or of (ii) all or part of the assets or undertaking of the Concessionaire, and such transfer causes a material adverse effect;

xiii. an execution levied on any of the assets of the Concessionaire has caused a material adverse effect;

xiv. the Concessionaire is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for the Concessionaire or for the whole or material part of its assets that has a material bearing on the Narasannapeta to Ranasthalam Project;

xv. the Concessionaire has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of NHAI, a material adverse effect;

xvi. a resolution for winding up of the Concessionaire is passed or any petition for winding up of the Concessionaire is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof or the Concessionaire is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of the Concessionaire are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of the Concessionaire under the Narasannapeta to Ranasthalam Concession Agreement and the project agreements; and provided that:

    a. the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the Narasannapeta to Ranasthalam Concession Agreement and the project agreements;

    b. the amalgamated or reconstructed entity has the financial standing to perform its obligations under the Narasannapeta to Ranasthalam Concession Agreement and the project agreements and has a credit worthiness at least as good as that of the Concessionaire as at Appointed Date; and

    c. each of the project agreements remains in full force and effect;

xvii. any representation or warranty of the Concessionaire herein contained which is, as of the date of Narasannapeta to Ranasthalam Concession Agreement, found to be materially false, incorrect or misleading;

xviii. the Concessionaire submits to NHAI any statement, notice or other document, in written or electronic form, which has a material effect on NHAI's rights, obligations or interests and which is false in material particulars;

xix. the Concessionaire has failed to fulfil any obligation, for which failure termination has been specified in the Narasannapeta to Ranasthalam Concession Agreement;

xx. the Concessionaire commits a default in complying with any other provision of the Narasannapeta to Ranasthalam Concession Agreement if such default causes a material adverse effect on NHAI;

xxi. an escrow default occurs and the Concessionaire fails to cure the default within a cure period of 15 days;

Termination by Concessionaire

If any of the defaults specified below shall have occurred, and NHAI fails to cure such default within a cure period of 90 days or such longer period as has been expressly provided in the Narasannapeta to Ranasthalam Concession Agreement, NHAI shall be deemed to be in default of the Narasannapeta to Ranasthalam Concession Agreement, unless the default has occurred as a result of any breach of the Narasannapeta to Ranasthalam Concession Agreement by the Concessionaire or

due to force majeure:

i. NHAI commits a material default in complying with any of the provisions of the Narasannapeta to Ranasthalam Concession Agreement and such default has a material adverse effect on the Concessionaire; or

ii. NHAI repudiates the Narasannapeta to Ranasthalam Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the Narasannapeta to Ranasthalam Concession Agreement; or

iii. the State commits a material default in complying with the provisions of the State Support Agreement if such default has a Material Adverse Effect on the Concessionaire and the breach continues for a period of 90 (ninety) days from the date of notice given in this behalf by the Concessionaire to the Authority.

Termination Payments

The termination payment pursuant to the Narasannapeta to Ranasthalam Concession Agreement becomes due and payable to the Concessionaire by NHAI within 15 days of the Concessionaire furnishing to NHAI an NOC issued by the lenders/ lenders' representative recording/ effecting release/ vacation/ discharge of the charge on Narasannapeta to Ranasthalam Project receivables (if any) created by Concessionaire for securing repayment of the debt. If NHAI fails to disburse the full termination payment within 15 days, NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid.

Upon termination of the Narasannapeta to Ranasthalam Concession Agreement by the NHAI on account of occurrence of a Concessionaire Default, the NHAI shall pay the Concessionaire by way of termination payment 70% of the Unexpired Cash Flow.

Upon termination of the Narasannapeta to Ranasthalam Concession Agreement by the Concessionaire on account of occurrence of an NHAI Default, the Concessionaire shall be entitled to receive from NHAI by way of termination payment a sum equal to 105% of the Unexpired Cash Flow.

For details in relation to the technical clarifications received from NHAI in relation to the Concession Agreements, please refer to Annexure 1 of the Narasannapeta to Ranasthalam Concession Agreement.

2. ***Concession Agreement between NSPPL ("Concessionaire") and NHAI in respect of the Ranasthalam to Hanumanthavaka Project dated March 12, 2025***

The Concessionaire has entered into a concession agreement for tolling, operation, maintenance and transfer of Ranasthalam to Hanumanthavaka Project (as defined below) on toll, operate and transfer (TOT) basis (the "**Ranasthalam to Hanumanthavaka Concession Agreement**"), for a period of 20 years from the the Appointed Date (i.e., the date on which all Conditions Precedent have been satisfied) or such date on which the Ranasthalam to Hanumanthavaka Concession Agreement is terminated by a termination notice ("**Ranasthalam to Hanumanthavaka Concession Period**").

Certain Definitions

"**Ranasthalam to Hanumanthavaka Project**" means the operation and maintenance of the Ranasthalam to Hanumanthavaka Project Highway in accordance with the provisions of the Ranasthalam to Hanumanthavaka Concession Agreement and includes all works, services and equipment relating to or in respect of the scope of the Ranasthalam to Hanumanthavaka Project as set forth in the Ranasthalam to Hanumanthavaka Concession Agreement;

"**Ranasthalam to Hanumanthavaka Project Assets**" means all physical and other assets relating to and forming part of the Site including (a) rights over the Site in the form of licence, Right of Way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre- stones, toll plazas, electrical systems, communication systems, rest areas, relief centers, maintenance depots and administrative offices; (d) all rights of the Concessionaire under the project agreements; security deposits; insurance proceeds; and (e) Applicable Permits and authorisations relating to or in respect of the Ranasthalam to Hanumanthavaka Project Highway, but does not include Additional Facilities; and

"**Ranasthalam to Hanumanthavaka Project Highway**" means the Site comprising the existing road comprising:

Stretch	State	Start (Km)	End (Km)	Length
Ranasthalam to Hanumanthavaka	Andhra Pradesh	634+000	700+544	66.544

and all Ranasthalam to Hanumanthavaka Project Assets."

Grant of Concession

Subject to and in accordance with the terms and conditions set forth in the Ranasthalam to Hanumanthavaka Concession Agreement, NHAI has granted to the Concessionaire, and the Concessionaire has accepted the concession for a period of 20 years, including the exclusive right, license and authority during the subsistence of the Ranasthalam to Hanumanthavaka Agreement to demand, collect and appropriate Fee, operate, manage and maintain the Ranasthalam to Hanumanthavaka Project Highway. Notwithstanding anything to the contrary in the Ranasthalam to Hanumanthavaka Concession Agreement, the parties have expressly agreed that the Concession Period shall not be reduced by more than 5 (five) years, or shall not be increased by more than 10 (ten) years on any account or for any reason whatsoever.

Subject to and in accordance with the terms and conditions set forth in the Ranasthalam to Hanumanthavaka Concession Agreement, the Concessionaire is entitled to undertake the following in accordance with the terms of the Ranasthalam to Hanumanthavaka Concession Agreement, applicable laws and applicable permits:

i. Right of Way, access and license to the Site for the purpose of and to the extent conferred by the provisions of the Ranasthalam to Hanumanthavaka Concession Agreement;

ii. manage, operate and maintain the Ranasthalam to Hanumanthavaka Project Highway and regulate the use thereof by third parties in accordance with the terms of Ranasthalam to Hanumanthavaka Concession Agreement;

iii. demand, collect and appropriate the fees from vehicles and persons liable for payment of fees for using the Ranasthalam to Hanumanthavaka Project Highway or any part thereof and refuse entry of any vehicle to the Ranasthalam to Hanumanthavaka Project Highway if the fee due is not paid;

iv. perform and fulfill all of the Concessionaire's obligations under and in accordance with the Ranasthalam to Hanumanthavaka Concession Agreement;

v. bear and pay all costs, expenses and charges in connection with or incidental to the performance of the obligations of the Concessionaire under the Ranasthalam to Hanumanthavaka Concession Agreement; and

vi. neither assign, transfer or sublet or create any lien or encumbrance on the Ranasthalam to Hanumanthavaka Concession Agreement, or the concession granted thereby, or on the whole or any part of the Ranasthalam to Hanumanthavaka Project Highway nor transfer, lease or part possession thereof, save and except as expressly permitted by the Ranasthalam to Hanumanthavaka Concession Agreement.

Fees

The Concessionaire is entitled to, during the Ranasthalam to Hanumanthavaka Concession Period, levy, collect and appropriate fees from users ("**User Fee**") of the Ranasthalam to Hanumanthavaka Project Highway pursuant to and in accordance with the provisions in the Ranasthalam to Hanumanthavaka Concession Agreement and the Fee Rules and to appropriate the same. In accordance with the terms of the Ranasthalam to Hanumanthavaka Concession Agreement, the Concessionaire shall not collect any fees in relation to exempted vehicles. The fees collected by Concessionaire shall be deposited in the escrow account and appropriated in accordance with the relevant provisions of the Ranasthalam to Hanumanthavaka Concession Agreement.

Sub Rule 6(6) of the above-mentioned Fee Rules states,

"(a) The fee shall be collected by the Central Government or the executing Authority as the case may be and for a specified period in accordance with the terms of agreement entered by the Concessionaire.
(b) The fee as notified as per Narasannapeta to Ranasthalam Concession Agreement shall be leviable till the end of the concession period and after the Concession Agreement is over, the fee shall be collected by the Central Government executing authority at a reduced rate of 40% of the fee on the date of transfer of such section of National Highways, bridge, tunnel or bypass, as the case may be, to be revised annually in accordance with these rules:

Provided that after the recovery of capital cost through user fee realised, in respect of a public funded project, the fee leviable would be reduced to 40% of the user fee for such section of National Highways, bridge, tunnel or bypass as the case may be, to be revised annually in accordance with these rules." In respect of the above, NHAI has clarified that Rule 6 of the Fee Rules provides that the user fee to be notified by Government as per the format of Schedule M of Concession Agreement shall be leviable till the end of the concession period. Hence, the rate of User Fee rate shall only be reduced after the concession period is over."

Concession Fees

As consideration for the grant of the Concession, the Concessionaire is required to pay a concession fee to NHAI equivalent to ₹ 17,953.00 million, within 120 days of the date of execution of the concession agreement or any extended date as agreed

by NHAI prior to the Appointed Date as a Condition Precedent. The Concessionaire agrees that payment of the concession fee constitutes essential condition of the Concession Agreement. Further as communicated by the authority by way of a letter dated 13.02.25, any amount raised from the proceeds of the Issue in excess of the Base Concession Fee (being the aggregate of Concession Fees payable to NHAI in terms of the Additional Concession Agreements) shall be paid to the Authority. For further details, see the section titled "Use of Proceeds – Details of Utilisation of Issue Proceeds - Infusion of debt and/or equity into NSPPL" on page 355. For the purposes of stamp duty payment, concession agreements are generally considered to be agreements which are not lease deeds and stamp duty of ₹ 100.00 is typically paid for such concession agreements. However, stamp duty authorities of certain states in India have issued notices to some concessionaires alleging inadequate stamp duty on the concession agreements executed between the concessionaires and the NHAI. The stamp authorities allege that since concession agreements relate to the letting of tolls to the concessionaires in the form of leases, or as development agreements, such agreements were required to be stamped as lease agreements or development agreements, as applicable. The stamp duty for a lease agreement or a development agreement ranges between 1.0% and 11.0% of the annual rent or premium payable or the market value of the property. Furthermore, stamp duty authorities may impose penalties for payment of inadequate stamp duty, which could extend up to ten (10) times the amount of the stamp duty payable. Accordingly, concession agreements that have not been stamped as such could be considered to be inadequately stamped. The High Courts of Allahabad and Maharashtra have also held that a concession agreement ought to be stamped as a lease agreement and have upheld the imposition of a higher stamp duty on such agreements.

While we have paid stamp duty of ₹ 100.00 on each of our Concession Agreements in accordance with usual practice, if any demand for payment of a higher stamp duty or penalty is imposed, it would increase the costs of the Toll Roads.

In respect of above, NHAI has clarified that:

(i) As on the date of the Ranasthalam to Hanumanthavaka Concession Agreement, GST is not applicable on Concession Fee. However, if it becomes applicable at a later stage, this shall be considered as change in law.

(ii) There is no requirement of stamp duty in case of Concession Agreements since Fee Rules provided for levy and collection of user fee and not toll tax. In case, in future any such demand arises, it
shall be treated as change in law.

Escrow Account

The provisions in relation to the escrow account in the Ranasthalam to Hanumanthavaka Concession Agreement are only applicable if the obligations of the Concessionaire under Ranasthalam to Hanumanthavaka Concession Agreement are financed by the Lenders.

The Concessionaire shall, prior to the Appointed Date, open and establish the escrow account with the escrow bank and all funds constituting the financing package related to the Ranasthalam to Hanumanthavaka Project shall be credited to such escrow account. During the Ranasthalam to Hanumanthavaka Concession Period all fees and any other revenues including the proceeds of any rentals, deposits, capital receipts or insurance claims from or in respect of the Ranasthalam to Hanumanthavaka Project Highway shall be deposited therein. In addition, all payments by NHAI pursuant to the Ranasthalam to Hanumanthavaka Concession Agreement, including, if any, in relation to the change of scope in the Ranasthalam to Hanumanthavaka Project shall be deposited by NHAI in the escrow account.

Withdrawals from Escrow Account

The Concessionaire shall, at the time of the opening of the escrow account, give irrevocable instructions by way of an escrow agreement substantially in form set forth in the Ranasthalam to Hanumanthavaka Concession Agreement to the escrow bank instructing, *inter alia,* that the deposits into the escrow account shall subject to the provisions of the Ranasthalam to Hanumanthavaka Concession Agreement, be appropriated in the following order every month and if not due in a month then appropriated proportionately in such month and retained in the escrow account and paid out therefrom in the month when due unless otherwise expressly provided in the instruction letter:

i. all taxes due and payable by the Concessionaire for and in respect of the Ranasthalam to Hanumanthavaka Project Highway;

ii. concession fee;

iii. all payments relating to construction of the Ranasthalam to Hanumanthavaka Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

iv. operation and maintenance expenses;

v. operation and maintenance expenses and other costs and expenses incurred by NHAI in accordance with the provisions of the Ranasthalam to Hanumanthavaka Concession Agreement, and certified by NHAI as due and payable to it;

vi. monthly proportionate provision of debt service payment due in an accounting year;

vii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the escrow agreement and subject to the provisions of the Ranasthalam to Hanumanthavaka Concession Agreement, in the case of termination, the amounts standing to the credit of the escrow account shall be appropriated in the following order:

i. all taxes due and payable by the Concessionaire for and in respect of the Ranasthalam to Hanumanthavaka Project Highway;

ii. payment due to the lenders;

iii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire;

iv. retention and payments relating to the liability for defects and deficiencies;

v. incurred or accrued operation and maintenance expenses;

vi. any other payments required to be made under the Ranasthalam to Hanumanthavaka Concession Agreement; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Change of Scope

NHAI may, notwithstanding anything to the contrary contained in the Ranasthalam to Hanumanthavaka Concession Agreement, require the Concessionaire to make alterations/ modifications in the scope of the Ranasthalam to Hanumanthavaka Project as contemplated by the Ranasthalam to Hanumanthavaka Concession Agreement. If the cumulative costs relating to all the change of scope orders exceed 5% of the concession fee in any continuous period of 3 years immediately preceding the date of such change of scope order or if such cumulative costs exceed 25% of the concession fee at any time during the Ranasthalam to Hanumanthavaka Concession Period, NHAI may award any works or services, to any person on the basis of open competitive bidding and the Concessionaire shall be entitled to take part in such competitive bidding with a right to match the first-ranked bid in terms of the selection criteria, either by itself where such work requires tolling, operation and maintenance, or through another company where such work requires construction on any part of the Project Highway, subject to payment of 2% (two per cent) of the bid amount to the Authority, and thereupon securing the award of such works or services. For the avoidance of doubt, it is agreed that the Concessionaire shall be entitled to exercise such option only if the Concessionaire has participated in the bidding process either individually or as a consortium or JV with another company and fulfils the eligibility criteria to undertake such work without compromising with its overall liability. All such changes shall be made by NHAI by an order issued in accordance with the procedure set forth in the Ranasthalam to Hanumanthavaka Concession Agreement.

Termination of the Ranasthalam to Hanumanthavaka Concession Agreement

Termination by either party

Either Party may in its discretion terminate the Ranasthalam to Hanumanthavaka Concession Agreement by giving a termination notice to the other party if a force majeure event subsists for a period of 120 days or more within a continuous period of 365 days. Before issuing such termination notice, the party intending to issue the termination notice shall inform the other party of such intention and grant 15 days' time to make a representation and may after the expiry of such 15 days period, whether or not it is in receipt of such representation, in its sole discretion issue the termination notice.

Termination by the NHAI

In the event of any of the defaults specified below have occurred, and if the Concessionaire has failed to cure default within the period provided for the same in the Ranasthalam to Hanumanthavaka Concession Agreement, then NHAI shall be entitled to issue a notice of its intention to terminate the Ranasthalam to Hanumanthavaka Concession Agreement, with a copy to the lenders. The following events shall constitute an event of default by the Concessionaire (a "**Concessionaire Default**") unless they have occurred as a result of any breach of the Ranasthalam to Hanumanthavaka Concession Agreement by NHAI or due to force majeure:

i. the performance security has been encashed and appropriated in accordance with the Ranasthalam to

Hanumanthavaka Concession Agreement and the Concessionaire has failed to replenish or provide fresh performance security within a cure period of 15 days;

ii. subsequent to the replenishment or furnishing of fresh performance security in accordance with the Ranasthalam to Hanumanthavaka Concession Agreement, the Concessionaire fails to cure, within a cure period of 60 days, the Concessionaire Default for which whole or part of the performance security was appropriated;

iii. the Concessionaire abandons or manifests intention to abandon the operation and maintenance of the Ranasthalam to Hanumanthavaka Project Highway without the prior written consent of NHAI;

iv. the Concessionaire fails to roll over, renew and furnish new bank guarantee performance security subject to and in accordance with terms of the Ranasthalam to Hanumanthavaka Concession Agreement, at least three months prior to expiry of subsisting bank guarantee;

v. the Concessionaire is in breach of the Maintenance Requirements or the Safety Requirements, as the case may be;

vi the Concessionaire has failed to make any payment to NHAI within the period specified in the Ranasthalam to Hanumanthavaka Concession Agreement;

vii. upon occurrence of a financial default, the lenders' representative has by notice required NHAI to undertake suspension or termination, as the case may be, in accordance with the substitution agreement and the Concessionaire fails to cure the default within the specified cure period;

viii. a breach of any of the project agreements by the Concessionaire causes a material adverse effect;

ix. the Concessionaire creates any encumbrance in breach of the Ranasthalam to Hanumanthavaka Concession Agreement;

x. the Concessionaire repudiates the Ranasthalam to Hanumanthavaka Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the Ranasthalam to Hanumanthavaka Concession Agreement;

xi. a change in ownership occurs in breach of the provisions of the Ranasthalam to Hanumanthavaka Concession Agreement;

xii. there is a transfer, pursuant to law either of (i) the rights and/or obligations of the Concessionaire under any of the project agreements, or of (ii) all or part of the assets or undertaking of the Concessionaire, and such transfer causes a material adverse effect;

xiii. an execution levied on any of the assets of the Concessionaire has caused a material adverse effect;

xiv. the Concessionaire is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for the Concessionaire or for the whole or material part of its assets that has a material bearing on the Ranasthalam to Hanumanthavaka Project;

xv. the Concessionaire has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of NHAI, a material adverse effect;

xvi. a resolution for winding up of the Concessionaire is passed or any petition for winding up of the Concessionaire is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof or the Concessionaire is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of the Concessionaire are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of the Concessionaire under the Ranasthalam to Hanumanthavaka Concession Agreement and the project agreements; and provided that:

a. the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the Ranasthalam to Hanumanthavaka Concession Agreement and the project agreements;

b. the amalgamated or reconstructed entity has the financial standing to perform its obligations under the Ranasthalam to Hanumanthavaka Concession Agreement and the project agreements and has a credit worthiness at least as good as that of the Concessionaire as at Appointed Date; and

c. each of the project agreements remains in full force and effect;

xvii. any representation or warranty of the Concessionaire herein contained which is, as of the date of Ranasthalam to Hanumanthavaka Concession Agreement, found to be materially false, incorrect or misleading;

xviii. the Concessionaire submits to NHAI any statement, notice or other document, in written or electronic form, which has a material effect on NHAI's rights, obligations or interests and which is false in material particulars;

xix. the Concessionaire has failed to fulfil any obligation, for which failure termination has been specified in the Ranasthalam to Hanumanthavaka Concession Agreement;

xx. the Concessionaire commits a default in complying with any other provision of the Ranasthalam to Hanumanthavaka Concession Agreement if such default causes a material adverse effect on NHAI;

xxi. an escrow default occurs and the Concessionaire fails to cure the default within a cure period of 15 days;

Termination by Concessionaire

If any of the defaults specified below shall have occurred, and NHAI fails to cure such default within a cure period of 90 days or such longer period as has been expressly provided in the Ranasthalam to Hanumanthavaka Concession Agreement, NHAI shall be deemed to be in default of the Ranasthalam to Hanumanthavaka Concession Agreement, unless the default has occurred as a result of any breach of the Ranasthalam to Hanumanthavaka Concession Agreement by the Concessionaire or due to force majeure:

i. NHAI commits a material default in complying with any of the provisions of the Ranasthalam to Hanumanthavaka Concession Agreement and such default has a material adverse effect on the Concessionaire; or

ii. NHAI repudiates the Ranasthalam to Hanumanthavaka Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the Ranasthalam to Hanumanthavaka Concession Agreement; or

iii. the State commits a material default in complying with the provisions of the State Support Agreement if such default has a Material Adverse Effect on the Concessionaire and the breach continues for a period of 90 (ninety) days from the date of notice given in this behalf by the Concessionaire to the Authority.

Termination Payments

The termination payment pursuant to the Ranasthalam to Hanumanthavaka Concession Agreement becomes due and payable to the Concessionaire by NHAI within 15 days of the Concessionaire furnishing to NHAI an NOC issued by the lenders/ lenders' representative recording/ effecting release/ vacation/ discharge of the charge on Ranasthalam to Hanumanthavaka Project receivables (if any) created by Concessionaire for securing repayment of the debt. If NHAI fails to disburse the full termination payment within 15 days, NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid.

Upon termination of the Ranasthalam to Hanumanthavaka Concession Agreement by the NHAI on account of occurrence of a Concessionaire Default, the NHAI shall pay the Concessionaire by way of termination payment 70% of the Unexpired Cash Flow.

Upon termination of the Ranasthalam to Hanumanthavaka Concession Agreement by the Concessionaire on account of occurrence of an NHAI Default, the Concessionaire shall be entitled to receive from NHAI by way of termination payment a sum equal to 105% of the Unexpired Cash Flow.

For details in relation to the technical clarifications received from NHAI in relation to the Concession Agreements, please refer to Annexure 1 of the Ranasthalam to Hanumanthavaka Concession Agreement.

3. ***Concession Agreement between NSPPL ("Concessionaire") and NHAI in respect of the Anandapuram – Pendurthi – Anakapalle Project dated March 12, 2025***

The Concessionaire has entered into a concession agreement for tolling, operation, maintenance and transfer of Anandapuram – Pendurthi – Anakapalle Project (as defined below) on toll, operate and transfer (TOT) basis (the "**Anandapuram – Pendurthi – Anakapalle Concession Agreement**"), for a period of 20 years from the the Appointed Date (i.e., the date on which all Conditions Precedent have been satisfied) or such date on which the Anandapuram – Pendurthi – Anakapalle Concession Agreement is terminated by a termination notice ("**Anandapuram – Pendurthi – Anakapalle Concession Period**").

Certain Definitions

"**Anandapuram – Pendurthi – Anakapalle Project**" means the operation and maintenance of the Anandapuram – Pendurthi – Anakapalle Project Highway in accordance with the provisions of the Anandapuram – Pendurthi – Anakapalle Concession Agreement and includes all works, services and equipment relating to or in respect of the scope of the Anandapuram – Pendurthi – Anakapalle Project as set forth in the Anandapuram – Pendurthi – Anakapalle Concession Agreement;

"**Anandapuram – Pendurthi – Anakapalle Project Assets**" means all physical and other assets relating to and forming part of the Site including (a) rights over the Site in the form of licence, Right of Way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre- stones, toll plazas, electrical systems, communication systems, rest areas, relief centers, maintenance depots and administrative offices; (d) all rights of the Concessionaire under the project agreements; security deposits; insurance proceeds; and (e) Applicable Permits and authorisations relating to or in respect to or in respect of the Anandapuram – Pendurthi – Anakapalle Project Highway, but does not include Additional Facilities; and

"**Anandapuram – Pendurthi – Anakapalle Project Highway**" means the Site comprising the existing road comprising:

Stretch	State	Start (Km)	End (Km)	Length
Anandapuram – Pendurthi – Anakapalle	Andhra Pradesh	682+980	731+585	48.605

and all Anandapuram – Pendurthi – Anakapalle Project Assets."

Grant of Concession

Subject to and in accordance with the terms and conditions set forth in the Anandapuram – Pendurthi – Anakapalle Concession Agreement, NHAI has granted to the Concessionaire, and the Concessionaire has accepted the concession for a period of 20 years, including the exclusive right, license and authority during the subsistence of the Anandapuram – Pendurthi – Anakapalle Agreement to demand, collect and appropriate Fee, operate, manage and maintain the Anandapuram – Pendurthi – Anakapalle Project Highway. Notwithstanding anything to the contrary in the Anandapuram – Pendurthi – Anakapalle Concession Agreement, the parties have expressly agreed that the Concession Period shall not be reduced by more than 5 (five) years, or shall not be increased by more than 10 (ten) years on any account or for any reason whatsoever.

Subject to and in accordance with the terms and conditions set forth in the Anandapuram – Pendurthi – Anakapalle Concession Agreement, the Concessionaire is entitled to undertake the following in accordance with the terms of the Anandapuram – Pendurthi – Anakapalle Concession Agreement, applicable laws and applicable permits:

i. Right of Way, access and license to the Site for the purpose of and to the extent conferred by the provisions of the Anandapuram – Pendurthi – Anakapalle Concession Agreement;

ii. manage, operate and maintain the Anandapuram – Pendurthi – Anakapalle Project Highway and regulate the use thereof by third parties in accordance with the terms of Anandapuram – Pendurthi – Anakapalle Concession Agreement;

iii. demand, collect and appropriate the fees from vehicles and persons liable for payment of fees for using the Anandapuram – Pendurthi – Anakapalle Project Highway or any part thereof and refuse entry of any vehicle to the Anandapuram – Pendurthi – Anakapalle Project Highway if the fee due is not paid;

iv. perform and fulfill all of the Concessionaire's obligations under and in accordance with the Anandapuram – Pendurthi – Anakapalle Concession Agreement;

v. bear and pay all costs, expenses and charges in connection with or incidental to the performance of the obligations of the Concessionaire under the Anandapuram – Pendurthi – Anakapalle Concession Agreement; and

vi. neither assign, transfer or sublet or create any lien or encumbrance on the Anandapuram – Pendurthi – Anakapalle Concession Agreement, or the concession granted thereby, or on the whole or any part of the Anandapuram – Pendurthi – Anakapalle Project Highway nor transfer, lease or part possession thereof, save and except as expressly permitted by the Anandapuram – Pendurthi – Anakapalle Concession Agreement.

Fees

The Concessionaire is entitled to, during the Anandapuram – Pendurthi – Anakapalle Concession Period, levy, collect and appropriate fees from users ("**User Fee**") of the Anandapuram – Pendurthi – Anakapalle Project Highway pursuant to and in accordance with the provisions in the Anandapuram – Pendurthi – Anakapalle Concession Agreement and the Fee Rules and to appropriate the same. In accordance with the terms of the Anandapuram – Pendurthi – Anakapalle Concession

Agreement, the Concessionaire shall not collect any fees in relation to exempted vehicles. The fees collected by Concessionaire shall be deposited in the escrow account and appropriated in accordance with the relevant provisions of the Anandapuram – Pendurthi – Anakapalle Concession Agreement.

Sub Rule 6(6) of the above-mentioned Fee Rules states,

"(a) The fee shall be collected by the Central Government or the executing Authority as the case may be and for a specified period in accordance with the terms of agreement entered by the Concessionaire.
(b) The fee as notified as per Narasannapeta to Ranasthalam Concession Agreement shall be leviable till the end of the concession period and after the Concession Agreement is over, the fee shall be collected by the Central Government executing authority at a reduced rate of 40% of the fee on the date of transfer of such section of National Highways, bridge, tunnel or bypass, as the case may be, to be revised annually in accordance with these rules:

Provided that after the recovery of capital cost through user fee realised, in respect of a public funded project, the fee leviable would be reduced to 40% of the user fee for such section of National Highways, bridge, tunnel or bypass as the case may be, to be revised annually in accordance with these rules." In respect of the above, NHAI has clarified that Rule 6 of the Fee Rules provides that the user fee to be notified by Government as per the format of Schedule M of Concession Agreement shall be leviable till the end of the concession period. Hence, the rate of User Fee rate shall only be reduced after the concession period is over."

Concession Fees

As consideration for the grant of the Concession, the Concessionaire is required to pay a concession fee to NHAI equivalent to ₹ 10,421.00 million, within 120 days of the date of execution of the concession agreement or any extended date as agreed by NHAI prior to the Appointed Date as a Condition Precedent. The Concessionaire agrees that payment of the concession fee constitutes essential condition of the Concession Agreement. Further as communicated by the authority by way of a letter dated 13.02.25, any amount raised from the proceeds of the Issue in excess of the Base Concession Fee (being the aggregate of Concession Fees payable to NHAI in terms of the Additional Concession Agreements) shall be paid to the Authority. For further details, see the section titled "Use of Proceeds – Details of Utilisation of Issue Proceeds - Infusion of debt and/or equity into NSPPL" on page 355. For the purposes of stamp duty payment, concession agreements are generally considered to be agreements which are not lease deeds and stamp duty of ₹ 100.00 is typically paid for such concession agreements. However, stamp duty authorities of certain states in India have issued notices to some concessionaires alleging inadequate stamp duty on the concession agreements executed between the concessionaires and the NHAI. The stamp authorities allege that since concession agreements relate to the letting of tolls to the concessionaires in the form of leases, or as development agreements, such agreements were required to be stamped as lease agreements or development agreements, as applicable. The stamp duty for a lease agreement or a development agreement ranges between 1.0% and 11.0% of the annual rent or premium payable or the market value of the property. Furthermore, stamp duty authorities may impose penalties for payment of inadequate stamp duty, which could extend up to ten (10) times the amount of the stamp duty payable. Accordingly, concession agreements that have not been stamped as such could be considered to be inadequately stamped. The High Courts of Allahabad and Maharashtra have also held that a concession agreement ought to be stamped as a lease agreement and have upheld the imposition of a higher stamp duty on such agreements.

While we have paid stamp duty of ₹ 100.00 on each of our Concession Agreements in accordance with usual practice, if any demand for payment of a higher stamp duty or penalty is imposed, it would increase the costs of the Toll Roads.

In respect of above, NHAI has clarified that:

(i) As on the date of the Anandapuram – Pendurthi – Anakapalle Concession Agreement, GST is not applicable on Concession Fee. However, if it becomes applicable at a later stage, this shall be considered as change in law.

(ii) There is no requirement of stamp duty in case of Concession Agreements since Fee Rules provided for levy and collection of user fee and not toll tax. In case, in future any such demand arises, it shall be treated as change in law.

Escrow Account

The provisions in relation to the escrow account in the Anandapuram – Pendurthi – Anakapalle Concession Agreement are only applicable if the obligations of the Concessionaire under Anandapuram – Pendurthi – Anakapalle Concession Agreement are financed by the Lenders.

The Concessionaire shall, prior to the Appointed Date, open and establish the escrow account with the escrow bank and all funds constituting the financing package related to the Anandapuram – Pendurthi – Anakapalle Project shall be credited to such escrow account. During the Anandapuram – Pendurthi – Anakapalle Concession Period all fees and any other revenues including the proceeds of any rentals, deposits, capital receipts or insurance claims from or in respect of the Anandapuram – Pendurthi – Anakapalle Project Highway shall be deposited therein. In addition, all payments by NHAI pursuant to the Anandapuram – Pendurthi – Anakapalle Concession Agreement, including, if any, in relation to the change of scope in the Anandapuram – Pendurthi – Anakapalle Project shall be deposited by NHAI in the escrow account.

Withdrawals from Escrow Account

The Concessionaire shall, at the time of the opening of the escrow account, give irrevocable instructions by way of an escrow agreement substantially in form set forth in the Anandapuram – Pendurthi – Anakapalle Concession Agreement to the escrow bank instructing, *inter alia*, that the deposits into the escrow account shall subject to the provisions of the Anandapuram – Pendurthi – Anakapalle Concession Agreement, be appropriated in the following order every month and if not due in a month then appropriated proportionately in such month and retained in the escrow account and paid out therefrom in the month when due unless otherwise expressly provided in the instruction letter:

i. all taxes due and payable by the Concessionaire for and in respect of the Anandapuram – Pendurthi – Anakapalle Project Highway;

ii. concession fee;

iii. all payments relating to construction of the Anandapuram – Pendurthi – Anakapalle Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

iv. operation and maintenance expenses;

v. operation and maintenance expenses and other costs and expenses incurred by NHAI in accordance with the provisions of the Anandapuram – Pendurthi – Anakapalle Concession Agreement, and certified by NHAI as due and payable to it;

vi. monthly proportionate provision of debt service payment due in an accounting year;

vii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the escrow agreement and subject to the provisions of the Anandapuram – Pendurthi – Anakapalle Concession Agreement, in the case of termination, the amounts standing to the credit of the escrow account shall be appropriated in the following order:

i. all taxes due and payable by the Concessionaire for and in respect of the Anandapuram – Pendurthi – Anakapalle Project Highway;

ii. payment due to the lenders;

iii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire;

iv. retention and payments relating to the liability for defects and deficiencies;

v. incurred or accrued operation and maintenance expenses;

vi. any other payments required to be made under the Anandapuram – Pendurthi – Anakapalle Concession Agreement; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Change of Scope

NHAI may, notwithstanding anything to the contrary contained in the Anandapuram – Pendurthi – Anakapalle Concession Agreement, require the Concessionaire to make alterations/ modifications in the scope of the Anandapuram – Pendurthi – Anakapalle Project as contemplated by the Anandapuram – Pendurthi – Anakapalle Concession Agreement. If the cumulative costs relating to all the change of scope orders exceed 5% of the concession fee in any continuous period of 3 years immediately preceding the date of such change of scope order or if such cumulative costs exceed 25% of the concession fee at any time during the Anandapuram – Pendurthi – Anakapalle Concession Period, NHAI may award any works or services, to any person on the basis of open competitive bidding and the Concessionaire shall be entitled to take part in such competitive bidding with a right to match the first-ranked bid in terms of the selection criteria, either by itself where such work requires tolling, operation and maintenance, or through another company where such work requires construction on any part of the Project Highway, subject to payment of 2% (two per cent) of the bid amount to the Authority, and thereupon securing the award of such works or services. For the avoidance of doubt, it is agreed that the Concessionaire shall be entitled to exercise such option only if the Concessionaire has participated in the bidding process either individually

or as a consortium or JV with another company and fulfils the eligibility criteria to undertake such work without compromising with its overall liability. All such changes shall be made by NHAI by an order issued in accordance with the procedure set forth in the Anandapuram – Pendurthi – Anakapalle Concession Agreement.

Termination of the Anandapuram – Pendurthi – Anakapalle Concession Agreement

Termination by either party

Either Party may in its discretion terminate the Anandapuram – Pendurthi – Anakapalle Concession Agreement by giving a termination notice to the other party if a force majeure event subsists for a period of 120 days or more within a continuous period of 365 days. Before issuing such termination notice, the party intending to issue the termination notice shall inform the other party of such intention and grant 15 days' time to make a representation and may after the expiry of such 15 days period, whether or not it is in receipt of such representation, in its sole discretion issue the termination notice.

Termination by the NHAI

In the event of any of the defaults specified below have occurred, and if the Concessionaire has failed to cure default within the period provided for the same in the Anandapuram – Pendurthi – Anakapalle Concession Agreement, then NHAI shall be entitled to issue a notice of its intention to terminate the Anandapuram – Pendurthi – Anakapalle Concession Agreement, with a copy to the lenders. The following events shall constitute an event of default by the Concessionaire (a "**Concessionaire Default**") unless they have occurred as a result of any breach of the Anandapuram – Pendurthi – Anakapalle Concession Agreement by NHAI or due to force majeure:

i. the performance security has been encashed and appropriated in accordance with the Anandapuram – Pendurthi – Anakapalle Concession Agreement and the Concessionaire has failed to replenish or provide fresh performance security within a cure period of 15 days;

ii. subsequent to the replenishment or furnishing of fresh performance security in accordance with the Anandapuram – Pendurthi – Anakapalle Concession Agreement, the Concessionaire fails to cure, within a cure period of 60 days, the Concessionaire Default for which whole or part of the performance security was appropriated;

iii. the Concessionaire abandons or manifests intention to abandon the operation and maintenance of the Anandapuram – Pendurthi – Anakapalle Project Highway without the prior written consent of NHAI;

iv. the Concessionaire fails to roll over, renew and furnish new bank guarantee performance security subject to and in accordance with terms of the Anandapuram – Pendurthi – Anakapalle Concession Agreement, at least three months prior to expiry of subsisting bank guarantee;

v. the Concessionaire is in breach of the Maintenance Requirements or the Safety Requirements, as the case may be;

vi the Concessionaire has failed to make any payment to NHAI within the period specified in the Anandapuram – Pendurthi – Anakapalle Concession Agreement;

vii. upon occurrence of a financial default, the lenders' representative has by notice required NHAI to undertake suspension or termination, as the case may be, in accordance with the substitution agreement and the Concessionaire fails to cure the default within the specified cure period;

viii. a breach of any of the project agreements by the Concessionaire causes a material adverse effect;

ix. the Concessionaire creates any encumbrance in breach of the Anandapuram – Pendurthi – Anakapalle Concession Agreement;

x. the Concessionaire repudiates the Anandapuram – Pendurthi – Anakapalle Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the Anandapuram – Pendurthi – Anakapalle Concession Agreement;

xi. a change in ownership occurs in breach of the provisions of the Anandapuram – Pendurthi – Anakapalle Concession Agreement;

xii. there is a transfer, pursuant to law either of (i) the rights and/or obligations of the Concessionaire under any of the project agreements, or of (ii) all or part of the assets or undertaking of the Concessionaire, and such transfer causes a material adverse effect;

xiii. an execution levied on any of the assets of the Concessionaire has caused a material adverse effect;

xiv. the Concessionaire is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for the Concessionaire

or for the whole or material part of its assets that has a material bearing on the Anandapuram – Pendurthi – Anakapalle Project;

xv. the Concessionaire has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of NHAI, a material adverse effect;

xvi. a resolution for winding up of the Concessionaire is passed or any petition for winding up of the Concessionaire is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof or the Concessionaire is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of the Concessionaire are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of the Concessionaire under the Anandapuram – Pendurthi – Anakapalle Concession Agreement and the project agreements; and provided that:

a. the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the Anandapuram – Pendurthi – Anakapalle Concession Agreement and the project agreements;

b. the amalgamated or reconstructed entity has the financial standing to perform its obligations under the Anandapuram – Pendurthi – Anakapalle Concession Agreement and the project agreements and has a credit worthiness at least as good as that of the Concessionaire as at Appointed Date; and

c. each of the project agreements remains in full force and effect;

xvii. any representation or warranty of the Concessionaire herein contained which is, as of the date of Anandapuram – Pendurthi – Anakapalle Concession Agreement, found to be materially false, incorrect or misleading;

xviii. the Concessionaire submits to NHAI any statement, notice or other document, in written or electronic form, which has a material effect on NHAI's rights, obligations or interests and which is false in material particulars;

xix. the Concessionaire has failed to fulfil any obligation, for which failure termination has been specified in the Anandapuram – Pendurthi – Anakapalle Concession Agreement;

xx. the Concessionaire commits a default in complying with any other provision of the Anandapuram – Pendurthi – Anakapalle Concession Agreement if such default causes a material adverse effect on NHAI;

xxi. an escrow default occurs and the Concessionaire fails to cure the default within a cure period of 15 days;

Termination by Concessionaire

If any of the defaults specified below shall have occurred, and NHAI fails to cure such default within a cure period of 90 days or such longer period as has been expressly provided in the Anandapuram – Pendurthi – Anakapalle Concession Agreement, NHAI shall be deemed to be in default of the Anandapuram – Pendurthi – Anakapalle Concession Agreement, unless the default has occurred as a result of any breach of the Anandapuram – Pendurthi – Anakapalle Concession Agreement by the Concessionaire or due to force majeure:

i. NHAI commits a material default in complying with any of the provisions of the Anandapuram – Pendurthi – Anakapalle Concession Agreement and such default has a material adverse effect on the Concessionaire; or

ii. NHAI repudiates the Anandapuram – Pendurthi – Anakapalle Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the Anandapuram – Pendurthi – Anakapalle Concession Agreement; or

iii. the State commits a material default in complying with the provisions of the State Support Agreement if such default has a Material Adverse Effect on the Concessionaire and the breach continues for a period of 90 (ninety) days from the date of notice given in this behalf by the Concessionaire to the Authority.

Termination Payments

The termination payment pursuant to the Anandapuram – Pendurthi – Anakapalle Concession Agreement becomes due and payable to the Concessionaire by NHAI within 15 days of the Concessionaire furnishing to NHAI an NOC issued by the lenders/ lenders' representative recording/ effecting release/ vacation/ discharge of the charge on Anandapuram – Pendurthi – Anakapalle Project receivables (if any) created by Concessionaire for securing repayment of the debt. If NHAI fails to disburse the full termination payment within 15 days, NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid.

Upon termination of the Anandapuram – Pendurthi – Anakapalle Concession Agreement by the NHAI on account of occurrence of a Concessionaire Default, the NHAI shall pay the Concessionaire by way of termination payment 70% of the Unexpired Cash Flow.

Upon termination of the Anandapuram – Pendurthi – Anakapalle Concession Agreement by the Concessionaire on account of occurrence of an NHAI Default, the Concessionaire shall be entitled to receive from NHAI by way of termination payment a sum equal to 105% of the Unexpired Cash Flow.

For details in relation to the technical clarifications received from NHAI in relation to the Concession Agreements, please refer to Annexure 1 of the Anandapuram – Pendurthi – Anakapalle Concession Agreement.

4. ***Concession Agreement between NSPPL ("Concessionaire") and NHAI in respect of the Gundugolanu - Devarapalli - Kovvuru Project dated March 12, 2025***

The Concessionaire has entered into a concession agreement for tolling, operation, maintenance and transfer of Gundugolanu - Devarapalli - Kovvuru Project (as defined below) on toll, operate and transfer (TOT) basis (the "**Gundugolanu - Devarapalli - Kovvuru Concession Agreement**"), for a period of 20 years from the the Appointed Date (i.e., the date on which all Conditions Precedent have been satisfied) or such date on which the Gundugolanu - Devarapalli - Kovvuru Concession Agreement is terminated by a termination notice ("**Gundugolanu - Devarapalli - Kovvuru Concession Period**").

Certain Definitions

"**Gundugolanu - Devarapalli - Kovvuru Project**" means the operation and maintenance of the Gundugolanu - Devarapalli - Kovvuru Project Highway in accordance with the provisions of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement and includes all works, services and equipment relating to or in respect of the scope of the Gundugolanu - Devarapalli - Kovvuru Project as set forth in the Gundugolanu - Devarapalli - Kovvuru Concession Agreement;

"**Gundugolanu - Devarapalli - Kovvuru Project Assets**" means all physical and other assets relating to and forming part of the Site including (a) rights over the Site in the form of licence, Right of Way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre- stones, toll plazas, electrical systems, communication systems, rest areas, relief centers, maintenance depots and administrative offices; (d) all rights of the Concessionaire under the project agreements; security deposits; insurance proceeds; and (e) Applicable Permits and authorisations relating to or in respect of the Gundugolanu - Devarapalli - Kovvuru Project Highway, but does not include Additional Facilities; and

"**Gundugolanu - Devarapalli - Kovvuru Project Highway**" means the Site comprising the existing road comprising:

Stretch	State	Start (Km)	End (Km)	Length
Gundugolanu - Devarapalli - Kovvuru	Andhra Pradesh	15+320	85+204	69.884

and all Gundugolanu - Devarapalli – Kovvuru Project Assets."

Grant of Concession

Subject to and in accordance with the terms and conditions set forth in the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, NHAI has granted to the Concessionaire, and the Concessionaire has accepted the concession for a period of 20 years, including the exclusive right, license and authority during the subsistence of the Gundugolanu - Devarapalli - Kovvuru Agreement to demand, collect and appropriate Fee, operate, manage and maintain the Gundugolanu - Devarapalli - Kovvuru Project Highway. Notwithstanding anything to the contrary in the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, the parties have expressly agreed that the Concession Period shall not be reduced by more than 5 (five) years, or shall not be increased by more than 10 (ten) years on any account or for any reason whatsoever.

Subject to and in accordance with the terms and conditions set forth in the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, the Concessionaire is entitled to undertake the following in accordance with the terms of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, applicable laws and applicable permits:

i. Right of Way, access and license to the Site for the purpose of and to the extent conferred by the provisions of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement;

ii. manage, operate and maintain the Gundugolanu - Devarapalli - Kovvuru Project Highway and regulate the use thereof by third parties in accordance with the terms of Gundugolanu - Devarapalli - Kovvuru Concession

Agreement;

iii. demand, collect and appropriate the fees from vehicles and persons liable for payment of fees for using the Gundugolanu - Devarapalli - Kovvuru Project Highway or any part thereof and refuse entry of any vehicle to the Gundugolanu - Devarapalli - Kovvuru Project Highway if the fee due is not paid;

iv. perform and fulfill all of the Concessionaire's obligations under and in accordance with the Gundugolanu - Devarapalli - Kovvuru Concession Agreement;

v. bear and pay all costs, expenses and charges in connection with or incidental to the performance of the obligations of the Concessionaire under the Gundugolanu - Devarapalli - Kovvuru Concession Agreement; and

vi. neither assign, transfer or sublet or create any lien or encumbrance on the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, or the concession granted thereby, or on the whole or any part of the Gundugolanu - Devarapalli - Kovvuru Project Highway nor transfer, lease or part possession thereof, save and except as expressly permitted by the Gundugolanu - Devarapalli - Kovvuru Concession Agreement.

Fees

The Concessionaire is entitled to, during the Gundugolanu - Devarapalli - Kovvuru Concession Period, levy, collect and appropriate fees from users ("**User Fee**") of the Gundugolanu - Devarapalli - Kovvuru Project Highway pursuant to and in accordance with the provisions in the Gundugolanu - Devarapalli - Kovvuru Concession Agreement and the Fee Rules and to appropriate the same. In accordance with the terms of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, the Concessionaire shall not collect any fees in relation to exempted vehicles. The fees collected by Concessionaire shall be deposited in the escrow account and appropriated in accordance with the relevant provisions of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement.

Sub Rule 6(6) of the above-mentioned Fee Rules states,

"(a) The fee shall be collected by the Central Government or the executing Authority as the case may be and for a specified period in accordance with the terms of agreement entered by the Concessionaire.
(b) The fee as notified as per Narasannapeta to Ranasthalam Concession Agreement shall be leviable till the end of the concession period and after the Concession Agreement is over, the fee shall be collected by the Central Government executing authority at a reduced rate of 40% of the fee on the date of transfer of such section of National Highways, bridge, tunnel or bypass, as the case may be, to be revised annually in accordance with these rules:

Provided that after the recovery of capital cost through user fee realised, in respect of a public funded project, the fee leviable would be reduced to 40% of the user fee for such section of National Highways, bridge, tunnel or bypass as the case may be, to be revised annually in accordance with these rules." In respect of the above, NHAI has clarified that Rule 6 of the Fee Rules provides that the user fee to be notified by Government as per the format of Schedule M of Concession Agreement shall be leviable till the end of the concession period. Hence, the rate of User Fee rate shall only be reduced after the concession period is over."

Concession Fees

As consideration for the grant of the Concession, the Concessionaire is required to pay a concession fee to NHAI equivalent to ₹ 21,829.00 million, within 120 days of the date of execution of the concession agreement or any extended date as agreed by NHAI prior to the Appointed Date as a Condition Precedent. The Concessionaire agrees that payment of the concession fee constitutes essential condition of the Concession Agreement. Further as communicated by the authority by way of a letter dated 13.02.25, any amount raised from the proceeds of the Issue in excess of the Base Concession Fee (being the aggregate of Concession Fees payable to NHAI in terms of the Additional Concession Agreements) shall be paid to the Authority. For further details, see the section titled "Use of Proceeds – Details of Utilisation of Issue Proceeds - Infusion of debt and/or equity into NSPPL" on page 355. For the purposes of stamp duty payment, concession agreements are generally considered to be agreements which are not lease deeds and stamp duty of ₹ 100.00 is typically paid for such concession agreements. However, stamp duty authorities of certain states in India have issued notices to some concessionaires alleging inadequate stamp duty on the concession agreements executed between the concessionaires and the NHAI. The stamp authorities allege that since concession agreements relate to the letting of tolls to the concessionaires in the form of leases, or as development agreements, such agreements were required to be stamped as lease agreements or development agreements, as applicable. The stamp duty for a lease agreement or a development agreement ranges between 1.0% and 11.0% of the annual rent or premium payable or the market value of the property. Furthermore, stamp duty authorities may impose penalties for payment of inadequate stamp duty, which could extend up to ten (10) times the amount of the stamp duty payable. Accordingly, concession agreements that have not been stamped as such could be considered to be inadequately stamped. The High Courts of Allahabad and Maharashtra have also held that a concession agreement ought to be stamped as a lease agreement and have upheld the imposition of a higher stamp duty on such agreements.

While we have paid stamp duty of ₹ 100.00 on each of our Concession Agreements in accordance with usual practice, if

any demand for payment of a higher stamp duty or penalty is imposed, it would increase the costs of the Toll Roads.

In respect of above, NHAI has clarified that:

(i) As on the date of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, GST is not applicable on Concession Fee. However, if it becomes applicable at a later stage, this shall be considered as change in law.

(ii) There is no requirement of stamp duty in case of Concession Agreements since Fee Rules provided for levy and collection of user fee and not toll tax. In case, in future any such demand arises, it
shall be treated as change in law.

Escrow Account

The provisions in relation to the escrow account in the Gundugolanu - Devarapalli - Kovvuru Concession Agreement are only applicable if the obligations of the Concessionaire under Gundugolanu - Devarapalli - Kovvuru Concession Agreement are financed by the Lenders.

The Concessionaire shall, prior to the Appointed Date, open and establish the escrow account with the escrow bank and all funds constituting the financing package related to the Gundugolanu - Devarapalli - Kovvuru Project shall be credited to such escrow account. During the Gundugolanu - Devarapalli - Kovvuru Concession Period all fees and any other revenues including the proceeds of any rentals, deposits, capital receipts or insurance claims from or in respect of the Gundugolanu - Devarapalli - Kovvuru Project Highway shall be deposited therein. In addition, all payments by NHAI pursuant to the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, including, if any, in relation to the change of scope in the Gundugolanu - Devarapalli - Kovvuru Project shall be deposited by NHAI in the escrow account.

Withdrawals from Escrow Account

The Concessionaire shall, at the time of the opening of the escrow account, give irrevocable instructions by way of an escrow agreement substantially in form set forth in the Gundugolanu - Devarapalli - Kovvuru Concession Agreement to the escrow bank instructing, *inter alia*, that the deposits into the escrow account shall subject to the provisions of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, be appropriated in the following order every month and if not due in a month then appropriated proportionately in such month and retained in the escrow account and paid out therefrom in the month when due unless otherwise expressly provided in the instruction letter:

i. all taxes due and payable by the Concessionaire for and in respect of the Gundugolanu - Devarapalli - Kovvuru Project Highway;

ii. concession fee;

iii. all payments relating to construction of the Gundugolanu - Devarapalli - Kovvuru Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

iv. operation and maintenance expenses;

v. operation and maintenance expenses and other costs and expenses incurred by NHAI in accordance with the provisions of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, and certified by NHAI as due and payable to it;

vi. monthly proportionate provision of debt service payment due in an accounting year;

vii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the escrow agreement and subject to the provisions of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, in the case of termination, the amounts standing to the credit of the escrow account shall be appropriated in the following order:

i. all taxes due and payable by the Concessionaire for and in respect of the Gundugolanu - Devarapalli - Kovvuru Project Highway;

ii. payment due to the lenders;

iii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire;

iv. retention and payments relating to the liability for defects and deficiencies;

v. incurred or accrued operation and maintenance expenses;

vi. any other payments required to be made under the Gundugolanu - Devarapalli - Kovvuru Concession Agreement; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Change of Scope

NHAI may, notwithstanding anything to the contrary contained in the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, require the Concessionaire to make alterations/ modifications in the scope of the Gundugolanu - Devarapalli - Kovvuru Project as contemplated by the Gundugolanu - Devarapalli - Kovvuru Concession Agreement. If the cumulative costs relating to all the change of scope orders exceed 5% of the concession fee in any continuous period of 3 years immediately preceding the date of such change of scope order or if such cumulative costs exceed 25% of the concession fee at any time during the Gundugolanu - Devarapalli - Kovvuru Concession Period, NHAI may award any works or services, to any person on the basis of open competitive bidding and the Concessionaire shall be entitled to take part in such competitive bidding with a right to match the first-ranked bid in terms of the selection criteria, either by itself where such work requires tolling, operation and maintenance, or through another company where such work requires construction on any part of the Project Highway, subject to payment of 2% (two per cent) of the bid amount to the Authority, and thereupon securing the award of such works or services. For the avoidance of doubt, it is agreed that the Concessionaire shall be entitled to exercise such option only if the Concessionaire has participated in the bidding process either individually or as a consortium or JV with another company and fulfils the eligibility criteria to undertake such work without compromising with its overall liability. All such changes shall be made by NHAI by an order issued in accordance with the procedure set forth in the Gundugolanu - Devarapalli - Kovvuru Concession Agreement.

Termination of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement

Termination by either party

Either Party may in its discretion terminate the Gundugolanu - Devarapalli - Kovvuru Concession Agreement by giving a termination notice to the other party if a force majeure event subsists for a period of 120 days or more within a continuous period of 365 days. Before issuing such termination notice, the party intending to issue the termination notice shall inform the other party of such intention and grant 15 days' time to make a representation and may after the expiry of such 15 days period, whether or not it is in receipt of such representation, in its sole discretion issue the termination notice.

Termination by the NHAI

In the event of any of the defaults specified below have occurred, and if the Concessionaire has failed to cure default within the period provided for the same in the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, then NHAI shall be entitled to issue a notice of its intention to terminate the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, with a copy to the lenders. The following events shall constitute an event of default by the Concessionaire (a "**Concessionaire Default**") unless they have occurred as a result of any breach of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement by NHAI or due to force majeure:

i. the performance security has been encashed and appropriated in accordance with the Gundugolanu - Devarapalli - Kovvuru Concession Agreement and the Concessionaire has failed to replenish or provide fresh performance security within a cure period of 15 days;

ii. subsequent to the replenishment or furnishing of fresh performance security in accordance with the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, the Concessionaire fails to cure, within a cure period of 60 days, the Concessionaire Default for which whole or part of the performance security was appropriated;

iii. the Concessionaire abandons or manifests intention to abandon the operation and maintenance of the Gundugolanu - Devarapalli - Kovvuru Project Highway without the prior written consent of NHAI;

iv. the Concessionaire fails to roll over, renew and furnish new bank guarantee performance security subject to and in accordance with terms of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, at least three months prior to expiry of subsisting bank guarantee;

v. the Concessionaire is in breach of the Maintenance Requirements or the Safety Requirements, as the case may be;

vi the Concessionaire has failed to make any payment to NHAI within the period specified in the Gundugolanu - Devarapalli - Kovvuru Concession Agreement;

vii. upon occurrence of a financial default, the lenders' representative has by notice required NHAI to undertake suspension or termination, as the case may be, in accordance with the substitution agreement and the Concessionaire fails to cure the default within the specified cure period;

viii. a breach of any of the project agreements by the Concessionaire causes a material adverse effect;

ix. the Concessionaire creates any encumbrance in breach of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement;

x. the Concessionaire repudiates the Gundugolanu - Devarapalli - Kovvuru Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the Gundugolanu - Devarapalli - Kovvuru Concession Agreement;

xi. a change in ownership occurs in breach of the provisions of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement;

xii. there is a transfer, pursuant to law either of (i) the rights and/or obligations of the Concessionaire under any of the project agreements, or of (ii) all or part of the assets or undertaking of the Concessionaire, and such transfer causes a material adverse effect;

xiii. an execution levied on any of the assets of the Concessionaire has caused a material adverse effect;

xiv. the Concessionaire is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for the Concessionaire or for the whole or material part of its assets that has a material bearing on the Gundugolanu - Devarapalli - Kovvuru Project;

xv. the Concessionaire has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of NHAI, a material adverse effect;

xvi. a resolution for winding up of the Concessionaire is passed or any petition for winding up of the Concessionaire is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof or the Concessionaire is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of the Concessionaire are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of the Concessionaire under the Gundugolanu - Devarapalli - Kovvuru Concession Agreement and the project agreements; and provided that:

    a. the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the Gundugolanu - Devarapalli - Kovvuru Concession Agreement and the project agreements;

    b. the amalgamated or reconstructed entity has the financial standing to perform its obligations under the Gundugolanu - Devarapalli - Kovvuru Concession Agreement and the project agreements and has a credit worthiness at least as good as that of the Concessionaire as at Appointed Date; and

    c. each of the project agreements remains in full force and effect;

xvii. any representation or warranty of the Concessionaire herein contained which is, as of the date of Gundugolanu - Devarapalli - Kovvuru Concession Agreement, found to be materially false, incorrect or misleading;

xviii. the Concessionaire submits to NHAI any statement, notice or other document, in written or electronic form, which has a material effect on NHAI's rights, obligations or interests and which is false in material particulars;

xix. the Concessionaire has failed to fulfil any obligation, for which failure termination has been specified in the Gundugolanu - Devarapalli - Kovvuru Concession Agreement;

xx. the Concessionaire commits a default in complying with any other provision of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement if such default causes a material adverse effect on NHAI;

xxi. an escrow default occurs and the Concessionaire fails to cure the default within a cure period of 15 days;

Termination by Concessionaire

If any of the defaults specified below shall have occurred, and NHAI fails to cure such default within a cure period of 90

days or such longer period as has been expressly provided in the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, NHAI shall be deemed to be in default of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement, unless the default has occurred as a result of any breach of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement by the Concessionaire or due to force majeure:

i. NHAI commits a material default in complying with any of the provisions of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement and such default has a material adverse effect on the Concessionaire; or

ii. NHAI repudiates the Gundugolanu - Devarapalli - Kovvuru Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the Gundugolanu - Devarapalli - Kovvuru Concession Agreement; or

iii. the State commits a material default in complying with the provisions of the State Support Agreement if such default has a Material Adverse Effect on the Concessionaire and the breach continues for a period of 90 (ninety) days from the date of notice given in this behalf by the Concessionaire to the Authority.

Termination Payments

The termination payment pursuant to the Gundugolanu - Devarapalli - Kovvuru Concession Agreement becomes due and payable to the Concessionaire by NHAI within 15 days of the Concessionaire furnishing to NHAI an NOC issued by the lenders/ lenders' representative recording/ effecting release/ vacation/ discharge of the charge on Gundugolanu - Devarapalli - Kovvuru Project receivables (if any) created by Concessionaire for securing repayment of the debt. If NHAI fails to disburse the full termination payment within 15 days, NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid.

Upon termination of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement by the NHAI on account of occurrence of a Concessionaire Default, the NHAI shall pay the Concessionaire by way of termination payment 70% of the Unexpired Cash Flow.

Upon termination of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement by the Concessionaire on account of occurrence of an NHAI Default, the Concessionaire shall be entitled to receive from NHAI by way of termination payment a sum equal to 105% of the Unexpired Cash Flow.

For details in relation to the technical clarifications received from NHAI in relation to the Concession Agreements, please refer to Annexure 1 of the Gundugolanu - Devarapalli - Kovvuru Concession Agreement.

5. ***Concession Agreement between NSPPL ("Concessionaire") and NHAI in respect of the Chittoor to Mallavaram Project dated March 12, 2025***

The Concessionaire has entered into a concession agreement for tolling, operation, maintenance and transfer of Chittoor to Mallavaram Project (as defined below) on toll, operate and transfer (TOT) basis (the "**Chittoor to Mallavaram Concession Agreement**"), for a period of 20 years from the the Appointed Date (i.e., the date on which all Conditions Precedent have been satisfied) or such date on which the Chittoor to Mallavaram Concession Agreement is terminated by a termination notice ("**Chittoor to Mallavaram Concession Period**").

Certain Definitions

"**Chittoor to Mallavaram Project**" means the operation and maintenance of the Chittoor to Mallavaram Project Highway in accordance with the provisions of the Chittoor to Mallavaram Concession Agreement and includes all works, services and equipment relating to or in respect of the scope of the Chittoor to Mallavaram Project as set forth in the Chittoor to Mallavaram Concession Agreement;

"**Chittoor to Mallavaram Project Assets**" means all physical and other assets relating to and forming part of the Site including (a) rights over the Site in the form of licence, Right of Way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre- stones, toll plazas, electrical systems, communication systems, rest areas, relief centers, maintenance depots and administrative offices; (d) all rights of the Concessionaire under the project agreements; security deposits; insurance proceeds; and (e) Applicable Permits and authorisations relating to or in respect of the Chittoor to Mallavaram Project Highway, but does not include Additional Facilities; and

"**Chittoor to Mallavaram Project Highway**" means the Site comprising the existing road comprising:

Stretch	State	Start (Km)	End (Km)	Length
Chittoor to Mallavaram	Andhra Pradesh	0+000	61+128	61.128

and all Chittoor to Mallavaram Project Assets."

Grant of Concession

Subject to and in accordance with the terms and conditions set forth in the Chittoor to Mallavaram Concession Agreement, NHAI has granted to the Concessionaire, and the Concessionaire has accepted the concession for a period of 20 years, including the exclusive right, license and authority during the subsistence of the Chittoor to Mallavaram Agreement to demand, collect and appropriate Fee, operate, manage and maintain the Chittoor to Mallavaram Project Highway. Notwithstanding anything to the contrary in the Chittoor to Mallavaram Concession Agreement, the parties have expressly agreed that the Concession Period shall not be reduced by more than 5 (five) years, or shall not be increased by more than 10 (ten) years on any account or for any reason whatsoever.

Subject to and in accordance with the terms and conditions set forth in the Chittoor to Mallavaram Concession Agreement, the Concessionaire is entitled to undertake the following in accordance with the terms of the Chittoor to Mallavaram Concession Agreement, applicable laws and applicable permits:

i. Right of Way, access and license to the Site for the purpose of and to the extent conferred by the provisions of the Chittoor to Mallavaram Concession Agreement;

ii. manage, operate and maintain the Chittoor to Mallavaram Project Highway and regulate the use thereof by third parties in accordance with the terms of Chittoor to Mallavaram Concession Agreement;

iii. demand, collect and appropriate the fees from vehicles and persons liable for payment of fees for using the Chittoor to Mallavaram Project Highway or any part thereof and refuse entry of any vehicle to the Chittoor to Mallavaram Project Highway if the fee due is not paid;

iv. perform and fulfill all of the Concessionaire's obligations under and in accordance with the Chittoor to Mallavaram Concession Agreement;

v. bear and pay all costs, expenses and charges in connection with or incidental to the performance of the obligations of the Concessionaire under the Chittoor to Mallavaram Concession Agreement; and

vi. neither assign, transfer or sublet or create any lien or encumbrance on the Chittoor to Mallavaram Concession Agreement, or the concession granted thereby, or on the whole or any part of the Chittoor to Mallavaram Project Highway nor transfer, lease or part possession thereof, save and except as expressly permitted by the Chittoor to Mallavaram Concession Agreement.

Fees

The Concessionaire is entitled to, during the Chittoor to Mallavaram Concession Period, levy, collect and appropriate fees from users ("**User Fee**") of the Chittoor to Mallavaram Project Highway pursuant to and in accordance with the provisions in the Chittoor to Mallavaram Concession Agreement and the Fee Rules and to appropriate the same. In accordance with the terms of the Chittoor to Mallavaram Concession Agreement, the Concessionaire shall not collect any fees in relation to exempted vehicles. The fees collected by Concessionaire shall be deposited in the escrow account and appropriated in accordance with the relevant provisions of the Chittoor to Mallavaram Concession Agreement.

Sub Rule 6(6) of the above-mentioned Fee Rules states,

"(a) The fee shall be collected by the Central Government or the executing Authority as the case may be and for a specified period in accordance with the terms of agreement entered by the Concessionaire.
(b) The fee as notified as per Narasannapeta to Ranasthalam Concession Agreement shall be leviable till the end of the concession period and after the Concession Agreement is over, the fee shall be collected by the Central Government executing authority at a reduced rate of 40% of the fee on the date of transfer of such section of National Highways, bridge, tunnel or bypass, as the case may be, to be revised annually in accordance with these rules:

Provided that after the recovery of capital cost through user fee realised, in respect of a public funded project, the fee leviable would be reduced to 40% of the user fee for such section of National Highways, bridge, tunnel or bypass as the case may be, to be revised annually in accordance with these rules." In respect of the above, NHAI has clarified that Rule 6 of the Fee Rules provides that the user fee to be notified by Government as per the format of Schedule M of Concession Agreement shall be leviable till the end of the concession period. Hence, the rate of User Fee rate shall only be reduced after the concession period is over."

Concession Fees

As consideration for the grant of the Concession, the Concessionaire is required to pay a concession fee to NHAI equivalent to ₹ 15,302.00 million, within 120 days of the date of execution of the concession agreement or any extended date as agreed by NHAI prior to the Appointed Date as a Condition Precedent. The Concessionaire agrees that payment of the concession

fee constitutes essential condition of the Concession Agreement. Further as communicated by the authority by way of a letter dated 13.02.25, any amount raised from the proceeds of the Issue in excess of the Base Concession Fee (being the aggregate of Concession Fees payable to NHAI in terms of the Additional Concession Agreements) shall be paid to the Authority. For further details, see the section titled "Use of Proceeds – Details of Utilisation of Issue Proceeds - Infusion of debt and/or equity into NSPPL" on page 355. For the purposes of stamp duty payment, concession agreements are generally considered to be agreements which are not lease deeds and stamp duty of ₹ 100.00 is typically paid for such concession agreements. However, stamp duty authorities of certain states in India have issued notices to some concessionaires alleging inadequate stamp duty on the concession agreements executed between the concessionaires and the NHAI. The stamp authorities allege that since concession agreements relate to the letting of tolls to the concessionaires in the form of leases, or as development agreements, such agreements were required to be stamped as lease agreements or development agreements, as applicable. The stamp duty for a lease agreement or a development agreement ranges between 1.0% and 11.0% of the annual rent or premium payable or the market value of the property. Furthermore, stamp duty authorities may impose penalties for payment of inadequate stamp duty, which could extend up to ten (10) times the amount of the stamp duty payable. Accordingly, concession agreements that have not been stamped as such could be considered to be inadequately stamped. The High Courts of Allahabad and Maharashtra have also held that a concession agreement ought to be stamped as a lease agreement and have upheld the imposition of a higher stamp duty on such agreements.

While we have paid stamp duty of ₹ 100.00 on each of our Concession Agreements in accordance with usual practice, if any demand for payment of a higher stamp duty or penalty is imposed, it would increase the costs of the Toll Roads.

In respect of above, NHAI has clarified that:

(i) As on the date of the Chittoor to Mallavaram Concession Agreement, GST is not applicable on Concession Fee. However, if it becomes applicable at a later stage, this shall be considered as change in law.

(ii) There is no requirement of stamp duty in case of Concession Agreements since Fee Rules provided for levy and collection of user fee and not toll tax. In case, in future any such demand arises, it shall be treated as change in law.

Escrow Account

The provisions in relation to the escrow account in the Chittoor to Mallavaram Concession Agreement are only applicable if the obligations of the Concessionaire under Chittoor to Mallavaram Concession Agreement are financed by the Lenders.

The Concessionaire shall, prior to the Appointed Date, open and establish the escrow account with the escrow bank and all funds constituting the financing package related to the Chittoor to Mallavaram Project shall be credited to such escrow account. During the Chittoor to Mallavaram Concession Period all fees and any other revenues including the proceeds of any rentals, deposits, capital receipts or insurance claims from or in respect of the Chittoor to Mallavaram Project Highway shall be deposited therein. In addition, all payments by NHAI pursuant to the Chittoor to Mallavaram Concession Agreement, including, if any, in relation to the change of scope in the Chittoor to Mallavaram Project shall be deposited by NHAI in the escrow account.

Withdrawals from Escrow Account

The Concessionaire shall, at the time of the opening of the escrow account, give irrevocable instructions by way of an escrow agreement substantially in form set forth in the Chittoor to Mallavaram Concession Agreement to the escrow bank instructing, *inter alia*, that the deposits into the escrow account shall subject to the provisions of the Chittoor to Mallavaram Concession Agreement, be appropriated in the following order every month and if not due in a month then appropriated proportionately in such month and retained in the escrow account and paid out therefrom in the month when due unless otherwise expressly provided in the instruction letter:

i. all taxes due and payable by the Concessionaire for and in respect of the Chittoor to Mallavaram Project Highway;

ii. concession fee;

iii. all payments relating to construction of the Chittoor to Mallavaram Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

iv. operation and maintenance expenses;

v. operation and maintenance expenses and other costs and expenses incurred by NHAI in accordance with the provisions of the Chittoor to Mallavaram Concession Agreement, and certified by NHAI as due and payable to it;

vi. monthly proportionate provision of debt service payment due in an accounting year;

vii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the escrow agreement and subject to the provisions of the Chittoor to Mallavaram Concession Agreement, in the case of termination, the amounts standing to the credit of the escrow account shall be appropriated in the following order:

i. all taxes due and payable by the Concessionaire for and in respect of the Chittoor to Mallavaram Project Highway;

ii. payment due to the lenders;

iii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire;

iv. retention and payments relating to the liability for defects and deficiencies;

v. incurred or accrued operation and maintenance expenses;

vi. any other payments required to be made under the Chittoor to Mallavaram Concession Agreement; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Change of Scope

NHAI may, notwithstanding anything to the contrary contained in the Chittoor to Mallavaram Concession Agreement, require the Concessionaire to make alterations/ modifications in the scope of the Chittoor to Mallavaram Project as contemplated by the Chittoor to Mallavaram Concession Agreement. If the cumulative costs relating to all the change of scope orders exceed 5% of the concession fee in any continuous period of 3 years immediately preceding the date of such change of scope order or if such cumulative costs exceed 25% of the concession fee at any time during the Chittoor to Mallavaram Concession Period, NHAI may award any works or services, to any person on the basis of open competitive bidding and the Concessionaire shall be entitled to take part in such competitive bidding with a right to match the first-ranked bid in terms of the selection criteria, either by itself where such work requires tolling, operation and maintenance, or through another company where such work requires construction on any part of the Project Highway, subject to payment of 2% (two per cent) of the bid amount to the Authority, and thereupon securing the award of such works or services. For the avoidance of doubt, it is agreed that the Concessionaire shall be entitled to exercise such option only if the Concessionaire has participated in the bidding process either individually or as a consortium or JV with another company and fulfils the eligibility criteria to undertake such work without compromising with its overall liability. All such changes shall be made by NHAI by an order issued in accordance with the procedure set forth in the Chittoor to Mallavaram Concession Agreement.

Termination of the Chittoor to Mallavaram Concession Agreement

Termination by either party

Either Party may in its discretion terminate the Chittoor to Mallavaram Concession Agreement by giving a termination notice to the other party if a force majeure event subsists for a period of 120 days or more within a continuous period of 365 days. Before issuing such termination notice, the party intending to issue the termination notice shall inform the other party of such intention and grant 15 days' time to make a representation and may after the expiry of such 15 days period, whether or not it is in receipt of such representation, in its sole discretion issue the termination notice.

Termination by the NHAI

In the event of any of the defaults specified below have occurred, and if the Concessionaire has failed to cure default within the period provided for the same in the Chittoor to Mallavaram Concession Agreement, then NHAI shall be entitled to issue a notice of its intention to terminate the Chittoor to Mallavaram Concession Agreement, with a copy to the lenders. The following events shall constitute an event of default by the Concessionaire (a "**Concessionaire Default**") unless they have occurred as a result of any breach of the Chittoor to Mallavaram Concession Agreement by NHAI or due to force majeure:

i. the performance security has been encashed and appropriated in accordance with the Chittoor to Mallavaram Concession Agreement and the Concessionaire has failed to replenish or provide fresh performance security within a cure period of 15 days;

ii. subsequent to the replenishment or furnishing of fresh performance security in accordance with the Chittoor to Mallavaram Concession Agreement, the Concessionaire fails to cure, within a cure period of 60 days, the

Concessionaire Default for which whole or part of the performance security was appropriated;

iii. the Concessionaire abandons or manifests intention to abandon the operation and maintenance of the Chittoor to Mallavaram Project Highway without the prior written consent of NHAI;

iv. the Concessionaire fails to roll over, renew and furnish new bank guarantee performance security subject to and in accordance with terms of the Chittoor to Mallavaram Concession Agreement, at least three months prior to expiry of subsisting bank guarantee;

v. the Concessionaire is in breach of the Maintenance Requirements or the Safety Requirements, as the case may be;

vi the Concessionaire has failed to make any payment to NHAI within the period specified in the Chittoor to Mallavaram Concession Agreement;

vii. upon occurrence of a financial default, the lenders' representative has by notice required NHAI to undertake suspension or termination, as the case may be, in accordance with the substitution agreement and the Concessionaire fails to cure the default within the specified cure period;

viii. a breach of any of the project agreements by the Concessionaire causes a material adverse effect;

ix. the Concessionaire creates any encumbrance in breach of the Chittoor to Mallavaram Concession Agreement;

x. the Concessionaire repudiates the Chittoor to Mallavaram Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the Chittoor to Mallavaram Concession Agreement;

xi. a change in ownership occurs in breach of the provisions of the Chittoor to Mallavaram Concession Agreement;

xii. there is a transfer, pursuant to law either of (i) the rights and/or obligations of the Concessionaire under any of the project agreements, or of (ii) all or part of the assets or undertaking of the Concessionaire, and such transfer causes a material adverse effect;

xiii. an execution levied on any of the assets of the Concessionaire has caused a material adverse effect;

xiv. the Concessionaire is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for the Concessionaire or for the whole or material part of its assets that has a material bearing on the Chittoor to Mallavaram Project;

xv. the Concessionaire has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of NHAI, a material adverse effect;

xvi. a resolution for winding up of the Concessionaire is passed or any petition for winding up of the Concessionaire is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof or the Concessionaire is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of the Concessionaire are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of the Concessionaire under the Chittoor to Mallavaram Concession Agreement and the project agreements; and provided that:

a. the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the Chittoor to Mallavaram Concession Agreement and the project agreements;

b. the amalgamated or reconstructed entity has the financial standing to perform its obligations under the Chittoor to Mallavaram Concession Agreement and the project agreements and has a credit worthiness at least as good as that of the Concessionaire as at Appointed Date; and

c. each of the project agreements remains in full force and effect;

xvii. any representation or warranty of the Concessionaire herein contained which is, as of the date of Chittoor to Mallavaram Concession Agreement, found to be materially false, incorrect or misleading;

xviii. the Concessionaire submits to NHAI any statement, notice or other document, in written or electronic form, which has a material effect on NHAI's rights, obligations or interests and which is false in material particulars;

xix. the Concessionaire has failed to fulfil any obligation, for which failure termination has been specified in the Chittoor to Mallavaram Concession Agreement;

xx. the Concessionaire commits a default in complying with any other provision of the Chittoor to Mallavaram Concession Agreement if such default causes a material adverse effect on NHAI;

xxi. an escrow default occurs and the Concessionaire fails to cure the default within a cure period of 15 days;

Termination by Concessionaire

If any of the defaults specified below shall have occurred, and NHAI fails to cure such default within a cure period of 90 days or such longer period as has been expressly provided in the Chittoor to Mallavaram Concession Agreement, NHAI shall be deemed to be in default of the Chittoor to Mallavaram Concession Agreement, unless the default has occurred as a result of any breach of the Chittoor to Mallavaram Concession Agreement by the Concessionaire or due to force majeure:

i. NHAI commits a material default in complying with any of the provisions of the Chittoor to Mallavaram Concession Agreement and such default has a material adverse effect on the Concessionaire; or

ii. NHAI repudiates the Chittoor to Mallavaram Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the Chittoor to Mallavaram Concession Agreement; or

iii. the State commits a material default in complying with the provisions of the State Support Agreement if such default has a Material Adverse Effect on the Concessionaire and the breach continues for a period of 90 (ninety) days from the date of notice given in this behalf by the Concessionaire to the Authority.

Termination Payments

The termination payment pursuant to the Chittoor to Mallavaram Concession Agreement becomes due and payable to the Concessionaire by NHAI within 15 days of the Concessionaire furnishing to NHAI an NOC issued by the lenders/ lenders' representative recording/ effecting release/ vacation/ discharge of the charge on Chittoor to Mallavaram Project receivables (if any) created by Concessionaire for securing repayment of the debt. If NHAI fails to disburse the full termination payment within 15 days, NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid.

Upon termination of the Chittoor to Mallavaram Concession Agreement by the NHAI on account of occurrence of a Concessionaire Default, the NHAI shall pay the Concessionaire by way of termination payment 70% of the Unexpired Cash Flow.

Upon termination of the Chittoor to Mallavaram Concession Agreement by the Concessionaire on account of occurrence of an NHAI Default, the Concessionaire shall be entitled to receive from NHAI by way of termination payment a sum equal to 105% of the Unexpired Cash Flow.

For details in relation to the technical clarifications received from NHAI in relation to the Concession Agreements, please refer to Annexure 1 of the Chittoor to Mallavaram Concession Agreement.

6. ***Concession Agreement between NSPPL ("Concessionaire") and NHAI in respect of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project dated March 12, 2025***

The Concessionaire has entered into a concession agreement for tolling, operation, maintenance and transfer of TN/AP – Border to Nalagampalli to AP/Karnataka Border Project (as defined below) on toll, operate and transfer (TOT) basis (the "TN/AP – Border to Nalagampalli to AP/Karnataka Border **Concession Agreement**"), for a period of 20 years from the the Appointed Date (i.e., the date on which all Conditions Precedent have been satisfied) or such date on which the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement is terminated by a termination notice ("TN/AP – Border to Nalagampalli to AP/Karnataka Border **Concession Period**").

Certain Definitions

"TN/AP – Border to Nalagampalli to AP/Karnataka Border **Project**" means the operation and maintenance of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project Highway in accordance with the provisions of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement and includes all works, services and equipment relating to or in respect of the scope of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project as set forth in the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement;

"TN/AP – Border to Nalagampalli to AP/Karnataka Border **Project Assets**" means all physical and other assets relating to and forming part of the Site including (a) rights over the Site in the form of licence, Right of Way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre- stones, toll plazas, electrical systems, communication systems, rest areas, relief centers, maintenance depots and administrative

offices; (d) all rights of the Concessionaire under the project agreements; security deposits; insurance proceeds; and (e) Applicable Permits and authorisations relating to or in respect of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project Highway, but does not include Additional Facilities; and

"TN/AP – Border to Nalagampalli to AP/Karnataka Border **Project Highway**" means the Site comprising the existing road comprising:

Stretch	State	Start (Km)	End (Km)	Length
TN/AP – Border to Nalagampalli to AP/Karnataka Border	Andhra Pradesh	134+890	219+687	84.797

and all TN/AP – Border to Nalagampalli to AP/Karnataka Border Project Assets."

Grant of Concession

Subject to and in accordance with the terms and conditions set forth in the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, NHAI has granted to the Concessionaire, and the Concessionaire has accepted the concession for a period of 20 years, including the exclusive right, license and authority during the subsistence of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Agreement to demand, collect and appropriate Fee, operate, manage and maintain the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project Highway. Notwithstanding anything to the contrary in the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, the parties have expressly agreed that the Concession Period shall not be reduced by more than 5 (five) years, or shall not be increased by more than 10 (ten) years on any account or for any reason whatsoever.

Subject to and in accordance with the terms and conditions set forth in the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, the Concessionaire is entitled to undertake the following in accordance with the terms of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, applicable laws and applicable permits:

i. Right of Way, access and license to the Site for the purpose of and to the extent conferred by the provisions of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement;

ii. manage, operate and maintain the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project Highway and regulate the use thereof by third parties in accordance with the terms of TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement;

iii. demand, collect and appropriate the fees from vehicles and persons liable for payment of fees for using the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project Highway or any part thereof and refuse entry of any vehicle to the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project Highway if the fee due is not paid;

iv. perform and fulfill all of the Concessionaire's obligations under and in accordance with the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement;

v. bear and pay all costs, expenses and charges in connection with or incidental to the performance of the obligations of the Concessionaire under the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement; and

vi. neither assign, transfer or sublet or create any lien or encumbrance on the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, or the concession granted thereby, or on the whole or any part of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project Highway nor transfer, lease or part possession thereof, save and except as expressly permitted by the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement.

Fees

The Concessionaire is entitled to, during the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Period, levy, collect and appropriate fees from users ("**User Fee**") of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project Highway pursuant to and in accordance with the provisions in the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement and the Fee Rules and to appropriate the same. In accordance with the terms of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, the Concessionaire shall not collect any fees in relation to exempted vehicles. The fees collected by Concessionaire shall be deposited in the escrow account and appropriated in accordance with the relevant provisions of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement.

Sub Rule 6(6) of the above-mentioned Fee Rules states,

"(a) The fee shall be collected by the Central Government or the executing Authority as the case may be and for a specified period in accordance with the terms of agreement entered by the Concessionaire.
(b) The fee as notified as per Narasannapeta to Ranasthalam Concession Agreement shall be leviable till the end of the concession period and after the Concession Agreement is over, the fee shall be collected by the Central Government executing authority at a reduced rate of 40% of the fee on the date of transfer of such section of National Highways, bridge, tunnel or bypass, as the case may be, to be revised annually in accordance with these rules:

Provided that after the recovery of capital cost through user fee realised, in respect of a public funded project, the fee leviable would be reduced to 40% of the user fee for such section of National Highways, bridge, tunnel or bypass as the case may be, to be revised annually in accordance with these rules." In respect of the above, NHAI has clarified that Rule 6 of the Fee Rules provides that the user fee to be notified by Government as per the format of Schedule M of Concession Agreement shall be leviable till the end of the concession period. Hence, the rate of User Fee rate shall only be reduced after the concession period is over."

Concession Fees

As consideration for the grant of the Concession, the Concessionaire is required to pay a concession fee to NHAI equivalent to ₹ 12,618.00 million, within 120 days of the date of execution of the concession agreement or any extended date as agreed by NHAI prior to the Appointed Date as a Condition Precedent. The Concessionaire agrees that payment of the concession fee constitutes essential condition of the Concession Agreement. Further as communicated by the authority by way of a letter dated 13.02.25, any amount raised from the proceeds of the Issue in excess of the Base Concession Fee (being the aggregate of Concession Fees payable to NHAI in terms of the Additional Concession Agreements) shall be paid to the Authority. For further details, see the section titled "Use of Proceeds – Details of Utilisation of Issue Proceeds - Infusion of debt and/or equity into NSPPL" on page 355. For the purposes of stamp duty payment, concession agreements are generally considered to be agreements which are not lease deeds and stamp duty of ₹ 100.00 is typically paid for such concession agreements. However, stamp duty authorities of certain states in India have issued notices to some concessionaires alleging inadequate stamp duty on the concession agreements executed between the concessionaires and the NHAI. The stamp authorities allege that since concession agreements relate to the letting of tolls to the concessionaires in the form of leases, or as development agreements, such agreements were required to be stamped as lease agreements or development agreements, as applicable. The stamp duty for a lease agreement or a development agreement ranges between 1.0% and 11.0% of the annual rent or premium payable or the market value of the property. Furthermore, stamp duty authorities may impose penalties for payment of inadequate stamp duty, which could extend up to ten (10) times the amount of the stamp duty payable. Accordingly, concession agreements that have not been stamped as such could be considered to be inadequately stamped. The High Courts of Allahabad and Maharashtra have also held that a concession agreement ought to be stamped as a lease agreement and have upheld the imposition of a higher stamp duty on such agreements.

While we have paid stamp duty of ₹ 100.00 on each of our Concession Agreements in accordance with usual practice, if any demand for payment of a higher stamp duty or penalty is imposed, it would increase the costs of the Toll Roads.

In respect of above, NHAI has clarified that:

(i) As on the date of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, GST is not applicable on Concession Fee. However, if it becomes applicable at a later stage, this shall be considered as change in law.

(ii) There is no requirement of stamp duty in case of Concession Agreements since Fee Rules provided for levy and collection of user fee and not toll tax. In case, in future any such demand arises, it shall be treated as change in law.

Escrow Account

The provisions in relation to the escrow account in the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement are only applicable if the obligations of the Concessionaire under the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement are financed by the Lenders.

The Concessionaire shall, prior to the Appointed Date, open and establish the escrow account with the escrow bank and all funds constituting the financing package related to the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project shall be credited to such escrow account. During the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Period all fees and any other revenues including the proceeds of any rentals, deposits, capital receipts or insurance claims from or in respect of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project Highway shall be deposited therein. In addition, all payments by NHAI pursuant to the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, including, if any, in relation to the change of scope in the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project shall be deposited by NHAI in the escrow account.

Withdrawals from Escrow Account

The Concessionaire shall, at the time of the opening of the escrow account, give irrevocable instructions by way of an escrow agreement substantially in form set forth in the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement to the escrow bank instructing, *inter alia*, that the deposits into the escrow account shall subject to the provisions of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, be appropriated in the following order every month and if not due in a month then appropriated proportionately in such month and retained in the escrow account and paid out therefrom in the month when due unless otherwise expressly provided in the instruction letter:

i. all taxes due and payable by the Concessionaire for and in respect of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project Highway;

ii. concession fee;

iii. all payments relating to construction of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

iv. operation and maintenance expenses;

v. operation and maintenance expenses and other costs and expenses incurred by NHAI in accordance with the provisions of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, and certified by NHAI as due and payable to it;

vi. monthly proportionate provision of debt service payment due in an accounting year;

vii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the escrow agreement and subject to the provisions of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, in the case of termination, the amounts standing to the credit of the escrow account shall be appropriated in the following order:

i. all taxes due and payable by the Concessionaire for and in respect of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project Highway;

ii. payment due to the lenders;

iii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire;

iv. retention and payments relating to the liability for defects and deficiencies;

v. incurred or accrued operation and maintenance expenses;

vi. any other payments required to be made under the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Change of Scope

NHAI may, notwithstanding anything to the contrary contained in the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, require the Concessionaire to make alterations/ modifications in the scope of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project as contemplated by the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement. If the cumulative costs relating to all the change of scope orders exceed 5% of the concession fee in any continuous period of 3 years immediately preceding the date of such change of scope order or if such cumulative costs exceed 25% of the concession fee at any time during the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Period, NHAI may award any works or services, to any person on the basis of open competitive bidding and the Concessionaire shall be entitled to take part in such competitive bidding with a right to match the first-ranked bid in terms of the selection criteria, either by itself where such work requires tolling, operation and maintenance, or through another company where such work requires construction on any part of the Project Highway, subject to payment of 2% (two per cent) of the bid amount to the Authority, and thereupon securing the award of such works or services. For the avoidance of doubt, it is agreed that the Concessionaire shall be entitled to exercise such option only if the Concessionaire has participated in the bidding process either individually or as a consortium or JV with another company and fulfils the eligibility criteria to undertake such work without compromising with its overall liability. All such

changes shall be made by NHAI by an order issued in accordance with the procedure set forth in the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement.

Termination of the** TN/AP – Border to Nalagampalli to AP/Karnataka Border **Concession Agreement

Termination by either party

Either Party may in its discretion terminate the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement by giving a termination notice to the other party if a force majeure event subsists for a period of 120 days or more within a continuous period of 365 days. Before issuing such termination notice, the party intending to issue the termination notice shall inform the other party of such intention and grant 15 days' time to make a representation and may after the expiry of such 15 days period, whether or not it is in receipt of such representation, in its sole discretion issue the termination notice.

Termination by the NHAI

In the event of any of the defaults specified below have occurred, and if the Concessionaire has failed to cure default within the period provided for the same in the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, then NHAI shall be entitled to issue a notice of its intention to terminate the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, with a copy to the lenders. The following events shall constitute an event of default by the Concessionaire (a "**Concessionaire Default**") unless they have occurred as a result of any breach of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement by NHAI or due to force majeure:

i. the performance security has been encashed and appropriated in accordance with the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement and the Concessionaire has failed to replenish or provide fresh performance security within a cure period of 15 days;

ii. subsequent to the replenishment or furnishing of fresh performance security in accordance with the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, the Concessionaire fails to cure, within a cure period of 60 days, the Concessionaire Default for which whole or part of the performance security was appropriated;

iii. the Concessionaire abandons or manifests intention to abandon the operation and maintenance of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project Highway without the prior written consent of NHAI;

iv. the Concessionaire fails to roll over, renew and furnish new bank guarantee performance security subject to and in accordance with terms of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, at least three months prior to expiry of subsisting bank guarantee;

v. the Concessionaire is in breach of the Maintenance Requirements or the Safety Requirements, as the case may be;

vi the Concessionaire has failed to make any payment to NHAI within the period specified in the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement;

vii. upon occurrence of a financial default, the lenders' representative has by notice required NHAI to undertake suspension or termination, as the case may be, in accordance with the substitution agreement and the Concessionaire fails to cure the default within the specified cure period;

viii. a breach of any of the project agreements by the Concessionaire causes a material adverse effect;

ix. the Concessionaire creates any encumbrance in breach of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement;

x. the Concessionaire repudiates the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement;

xi. a change in ownership occurs in breach of the provisions of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement;

xii. there is a transfer, pursuant to law either of (i) the rights and/or obligations of the Concessionaire under any of the project agreements, or of (ii) all or part of the assets or undertaking of the Concessionaire, and such transfer causes a material adverse effect;

xiii. an execution levied on any of the assets of the Concessionaire has caused a material adverse effect;

xiv. the Concessionaire is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for the Concessionaire

or for the whole or material part of its assets that has a material bearing on the TN/AP – Border to Nalagampalli to AP/Karnataka Border Project;

xv. the Concessionaire has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of NHAI, a material adverse effect;

xvi. a resolution for winding up of the Concessionaire is passed or any petition for winding up of the Concessionaire is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof or the Concessionaire is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of the Concessionaire are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of the Concessionaire under the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement and the project agreements; and provided that:

a. the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement and the project agreements;

b. the amalgamated or reconstructed entity has the financial standing to perform its obligations under the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement and the project agreements and has a credit worthiness at least as good as that of the Concessionaire as at Appointed Date; and

c. each of the project agreements remains in full force and effect;

xvii. any representation or warranty of the Concessionaire herein contained which is, as of the date of TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, found to be materially false, incorrect or misleading;

xviii. the Concessionaire submits to NHAI any statement, notice or other document, in written or electronic form, which has a material effect on NHAI's rights, obligations or interests and which is false in material particulars;

xix. the Concessionaire has failed to fulfil any obligation, for which failure termination has been specified in the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement;

xx. the Concessionaire commits a default in complying with any other provision of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement if such default causes a material adverse effect on NHAI;

xxi. an escrow default occurs and the Concessionaire fails to cure the default within a cure period of 15 days;

Termination by Concessionaire

If any of the defaults specified below shall have occurred, and NHAI fails to cure such default within a cure period of 90 days or such longer period as has been expressly provided in the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, NHAI shall be deemed to be in default of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement, unless the default has occurred as a result of any breach of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement by the Concessionaire or due to force majeure:

i. NHAI commits a material default in complying with any of the provisions of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement and such default has a material adverse effect on the Concessionaire; or

ii. NHAI repudiatkelaes the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement; or

iii. the State commits a material default in complying with the provisions of the State Support Agreement if such default has a Material Adverse Effect on the Concessionaire and the breach continues for a period of 90 (ninety) days from the date of notice given in this behalf by the Concessionaire to the Authority.

Termination Payments

The termination payment pursuant to the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement becomes due and payable to the Concessionaire by NHAI within 15 days of the Concessionaire furnishing to NHAI an NOC issued by the lenders/ lenders' representative recording/ effecting release/ vacation/ discharge of the charge on TN/AP – Border to Nalagampalli to AP/Karnataka Border Project receivables (if any) created by Concessionaire for securing

repayment of the debt. If NHAI fails to disburse the full termination payment within 15 days, NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid.

Upon termination of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement by the NHAI on account of occurrence of a Concessionaire Default, the NHAI shall pay the Concessionaire by way of termination payment 70% of the Unexpired Cash Flow.

Upon termination of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement by the Concessionaire on account of occurrence of an NHAI Default, the Concessionaire shall be entitled to receive from NHAI by way of termination payment a sum equal to 105% of the Unexpired Cash Flow.

For details in relation to the technical clarifications received from NHAI in relation to the Concession Agreements, please refer to Annexure 1 of the TN/AP – Border to Nalagampalli to AP/Karnataka Border Concession Agreement.

7. ***Concession Agreement between NSPPL ("Concessionaire") and NHAI in respect of the Bareilly – Sitapur Project dated March 12, 2025***

The Concessionaire has entered into a concession agreement for tolling, operation, maintenance and transfer of Bareilly – Sitapur Project Highway (as defined below) on toll, operate and transfer (TOT) basis (the "**Bareilly – Sitapur Concession Agreement**"), for a period of 20 years from the the Appointed Date (i.e., the date on which all Conditions Precedent have been satisfied) or such date on which the Bareilly – Sitapur Concession Agreement is terminated by a termination notice ("**Bareilly – Sitapur Concession Period**").

Certain Definitions

"**Bareilly – Sitapur Project**" means the operation and maintenance of the Bareilly – Sitapur Project Highway in accordance with the provisions of the Bareilly – Sitapur Concession Agreement and includes all works, services and equipment relating to or in respect of the scope of the Bareilly – Sitapur Project as set forth in the Bareilly – Sitapur Concession Agreement;

"**Bareilly – Sitapur Project Assets**" means all physical and other assets relating to and forming part of the Site including (a) rights over the Site in the form of licence, Right of Way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre- stones, toll plazas, electrical systems, communication systems, rest areas, relief centers, maintenance depots and administrative offices; (d) all rights of the Concessionaire under the project agreements; security deposits; insurance proceeds; and (e) Applicable Permits and authorisations relating to or in respect of the Bareilly – Sitapur Project Highway, but does not include Additional Facilities; and "**Bareilly – Sitapur Project Highway**" means the Site comprising the existing road comprising:

Stretch	State	Start (Km)	End (Km)	Length
Bareilly – Sitapur	Uttar Pradesh	262+000	419+590	157.590

and all Bareilly – Sitapur Project Assets."

Grant of Concession

Subject to and in accordance with the terms and conditions set forth in the Bareilly – Sitapur Concession Agreement, NHAI has granted to the Concessionaire, and the Concessionaire has accepted the concession for a period of 20 years, including the exclusive right, license and authority during the subsistence of the Bareilly – Sitapur Agreement to demand, collect and appropriate Fee, operate, manage and maintain the Bareilly – Sitapur Project Highway. Notwithstanding anything to the contrary in the Bareilly – Sitapur Concession Agreement, the parties have expressly agreed that the Concession Period shall not be reduced by more than 5 (five) years, or shall not be increased by more than 10 (ten) years on any account or for any reason whatsoever.

Subject to and in accordance with the terms and conditions set forth in the Bareilly – Sitapur Concession Agreement, the Concessionaire is entitled to undertake the following in accordance with the terms of the Bareilly – Sitapur Concession Agreement, applicable laws and applicable permits:

i. Right of Way, access and license to the Site for the purpose of and to the extent conferred by the provisions of the Bareilly – Sitapur Concession Agreement;

ii. manage, operate and maintain the Bareilly – Sitapur Project Highway and regulate the use thereof by third parties in accordance with the terms of Bareilly – Sitapur Concession Agreement;

iii. demand, collect and appropriate the fees from vehicles and persons liable for payment of fees for using the Bareilly – Sitapur Project Highway or any part thereof and refuse entry of any vehicle to the Bareilly – Sitapur Project

Highway if the fee due is not paid;

iv. perform and fulfill all of the Concessionaire's obligations under and in accordance with the Bareilly – Sitapur Concession Agreement;

v. bear and pay all costs, expenses and charges in connection with or incidental to the performance of the obligations of the Concessionaire under the Bareilly – Sitapur Concession Agreement; and

vi. neither assign, transfer or sublet or create any lien or encumbrance on the Bareilly – Sitapur Concession Agreement, or the concession granted thereby, or on the whole or any part of the Bareilly – Sitapur Project Highway nor transfer, lease or part possession thereof, save and except as expressly permitted by the Bareilly – Sitapur Concession Agreement.

Fees

The Concessionaire is entitled to, during the Bareilly – Sitapur Concession Period, levy, collect and appropriate fees from users ("**User Fee**") of the Bareilly – Sitapur Project Highway pursuant to and in accordance with the provisions in the Bareilly – Sitapur Concession Agreement and the Fee Rules and to appropriate the same. In accordance with the terms of the Bareilly – Sitapur Concession Agreement, the Concessionaire shall not collect any fees in relation to exempted vehicles. The fees collected by Concessionaire shall be deposited in the escrow account and appropriated in accordance with the relevant provisions of the Bareilly – Sitapur Concession Agreement.

Sub Rule 6(6) of the above-mentioned Fee Rules states,

"(a) The fee shall be collected by the Central Government or the executing Authority as the case may be and for a specified period in accordance with the terms of agreement entered by the Concessionaire.
(b) The fee as notified as per Bareilly – Sitapur Concession Agreement shall be leviable till the end of the concession period and after the Concession Agreement is over, the fee shall be collected by the Central Government executing authority at a reduced rate of 40% of the fee on the date of transfer of such section of National Highways, bridge, tunnel or bypass, as the case may be, to be revised annually in accordance with these rules:

Provided that after the recovery of capital cost through user fee realised, in respect of a public funded project, the fee leviable would be reduced to 40% of the user fee for such section of National Highways, bridge, tunnel or bypass as the case may be, to be revised annually in accordance with these rules." In respect of the above, NHAI has clarified that Rule 6 of the Fee Rules provides that the user fee to be notified by Government as per the format of Schedule M of Concession Agreement shall be leviable till the end of the concession period. Hence, the rate of User Fee rate shall only be reduced after the concession period is over."

Concession Fees

As consideration for the grant of the Concession, the Concessionaire is required to pay a concession fee to NHAI equivalent to ₹ 14,591.00 million, within 120 days of the date of execution of the concession agreement or any extended date as agreed by NHAI prior to the Appointed Date as a Condition Precedent. The Concessionaire agrees that payment of the concession fee constitutes essential condition of the Concession Agreement. Further as communicated by the authority by way of a letter dated 13.02.25, any amount raised from the proceeds of the Issue in excess of the Base Concession Fee (being the aggregate of Concession Fees payable to NHAI in terms of the Additional Concession Agreements) shall be paid to the Authority. For further details, see the section titled "Use of Proceeds – Details of Utilisation of Issue Proceeds - Infusion of debt and/or equity into NSPPL" on page 355. For the purposes of stamp duty payment, concession agreements are generally considered to be agreements which are not lease deeds and stamp duty of ₹ 100.00 is typically paid for such concession agreements. However, stamp duty authorities of certain states in India have issued notices to some concessionaires alleging inadequate stamp duty on the concession agreements executed between the concessionaires and the NHAI. The stamp authorities allege that since concession agreements relate to the letting of tolls to the concessionaires in the form of leases, or as development agreements, such agreements were required to be stamped as lease agreements or development agreements, as applicable. The stamp duty for a lease agreement or a development agreement ranges between 1.0% and 11.0% of the annual rent or premium payable or the market value of the property. Furthermore, stamp duty authorities may impose penalties for payment of inadequate stamp duty, which could extend up to ten (10) times the amount of the stamp duty payable. Accordingly, concession agreements that have not been stamped as such could be considered to be inadequately stamped. The High Courts of Allahabad and Maharashtra have also held that a concession agreement ought to be stamped as a lease agreement and have upheld the imposition of a higher stamp duty on such agreements.

While we have paid stamp duty of ₹ 100.00 on each of our Concession Agreements in accordance with usual practice, if any demand for payment of a higher stamp duty or penalty is imposed, it would increase the costs of the Toll Roads.

In respect of above, NHAI has clarified that:

(i) As on the date of the Bareilly – Sitapur Concession Agreement, GST is not applicable on Concession Fee. However, if

it becomes applicable at a later stage, this shall be considered as change in law.

(ii) There is no requirement of stamp duty in case of Concession Agreements since Fee Rules provided for levy and collection of user fee and not toll tax. In case, in future any such demand arises, it shall be treated as change in law.

Escrow Account

The provisions in relation to the escrow account in the Bareilly – Sitapur Concession Agreement are only applicable if the obligations of the Concessionaire under the Bareilly – Sitapur Concession Agreement are financed by the Lenders.

The Concessionaire shall, prior to the Appointed Date, open and establish the escrow account with the escrow bank and all funds constituting the financing package related to the Bareilly – Sitapur Project shall be credited to such escrow account. During the Bareilly – Sitapur Concession Period all fees and any other revenues including the proceeds of any rentals, deposits, capital receipts or insurance claims from or in respect of the Bareilly – Sitapur Project Highway shall be deposited therein. In addition, all payments by NHAI pursuant to the Bareilly – Sitapur Concession Agreement, including, if any, in relation to the change of scope in the Bareilly – Sitapur Project shall be deposited by NHAI in the escrow account.

Withdrawals from Escrow Account

The Concessionaire shall, at the time of the opening of the escrow account, give irrevocable instructions by way of an escrow agreement substantially in form set forth in the Bareilly – Sitapur Concession Agreement to the escrow bank instructing, *inter alia*, that the deposits into the escrow account shall subject to the provisions of the Bareilly – Sitapur Concession Agreement, be appropriated in the following order every month and if not due in a month then appropriated proportionately in such month and retained in the escrow account and paid out therefrom in the month when due unless otherwise expressly provided in the instruction letter:

i. all taxes due and payable by the Concessionaire for and in respect of the Bareilly – Sitapur Project Highway;

ii. concession fee;

iii. all payments relating to construction of the Bareilly – Sitapur Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

iv. operation and maintenance expenses;

v. operation and maintenance expenses and other costs and expenses incurred by NHAI in accordance with the provisions of the Bareilly – Sitapur Concession Agreement, and certified by NHAI as due and payable to it;

vi. monthly proportionate provision of debt service payment due in an accounting year;

vii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the escrow agreement and subject to the provisions of the Bareilly – Sitapur Concession Agreement, in the case of termination, the amounts standing to the credit of the escrow account shall be appropriated in the following order:

i. all taxes due and payable by the Concessionaire for and in respect of the Bareilly – Sitapur Project Highway;

ii. payment due to the lenders;

iii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire;

iv. retention and payments relating to the liability for defects and deficiencies;

v. incurred or accrued operation and maintenance expenses;

vi. any other payments required to be made under the Bareilly – Sitapur Concession Agreement; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Change of Scope

NHAI may, notwithstanding anything to the contrary contained in the Bareilly – Sitapur Concession Agreement, require the Concessionaire to make alterations/ modifications in the scope of the Bareilly – Sitapur Project as contemplated by the Bareilly – Sitapur Concession Agreement. If the cumulative costs relating to all the change of scope orders exceed 5% of the concession fee in any continuous period of 3 years immediately preceding the date of such change of scope order or if such cumulative costs exceed 25% of the concession fee at any time during the Bareilly – Sitapur Concession Period, NHAI may award any works or services, to any person on the basis of open competitive bidding and the Concessionaire shall be entitled to take part in such competitive bidding with a right to match the first-ranked bid in terms of the selection criteria, either by itself where such work requires tolling, operation and maintenance, or through another company where such work requires construction on any part of the Project Highway, subject to payment of 2% (two per cent) of the bid amount to the Authority, and thereupon securing the award of such works or services. For the avoidance of doubt, it is agreed that the Concessionaire shall be entitled to exercise such option only if the Concessionaire has participated in the bidding process either individually or as a consortium or JV with another company and fulfils the eligibility criteria to undertake such work without compromising with its overall liability. All such changes shall be made by NHAI by an order issued in accordance with the procedure set forth in the Bareilly – Sitapur Concession Agreement.

Termination of the Bareilly – Sitapur Concession Agreement

Termination by either party

Either Party may in its discretion terminate the Bareilly – Sitapur Concession Agreement by giving a termination notice to the other party if a force majeure event subsists for a period of 120 days or more within a continuous period of 365 days. Before issuing such termination notice, the party intending to issue the termination notice shall inform the other party of such intention and grant 15 days' time to make a representation and may after the expiry of such 15 days period, whether or not it is in receipt of such representation, in its sole discretion issue the termination notice.

Termination by the NHAI

In the event of any of the defaults specified below have occurred, and if the Concessionaire has failed to cure default within the period provided for the same in the Bareilly – Sitapur Concession Agreement, then NHAI shall be entitled to issue a notice of its intention to terminate the Bareilly – Sitapur Concession Agreement, with a copy to the lenders. The following events shall constitute an event of default by the Concessionaire (a "**Concessionaire Default**") unless they have occurred as a result of any breach of the Bareilly – Sitapur Concession Agreement by NHAI or due to force majeure:

i. the performance security has been encashed and appropriated in accordance with the Bareilly – Sitapur Concession Agreement and the Concessionaire has failed to replenish or provide fresh performance security within a cure period of 15 days;

ii. subsequent to the replenishment or furnishing of fresh performance security in accordance with the Bareilly – Sitapur Concession Agreement, the Concessionaire fails to cure, within a cure period of 60 days, the Concessionaire Default for which whole or part of the performance security was appropriated;

iii. the Concessionaire abandons or manifests intention to abandon the operation and maintenance of the Bareilly – Sitapur Project Highway without the prior written consent of NHAI;

iv. the Concessionaire fails to roll over, renew and furnish new bank guarantee performance security subject to and in accordance with terms of the Bareilly – Sitapur Concession Agreement, at least three months prior to expiry of subsisting bank guarantee;

v. the Concessionaire is in breach of the Maintenance Requirements or the Safety Requirements, as the case may be;

vi the Concessionaire has failed to make any payment to NHAI within the period specified in the Bareilly – Sitapur Concession Agreement;

vii. upon occurrence of a financial default, the lenders' representative has by notice required NHAI to undertake suspension or termination, as the case may be, in accordance with the substitution agreement and the Concessionaire fails to cure the default within the specified cure period;

viii. a breach of any of the project agreements by the Concessionaire causes a material adverse effect;

ix. the Concessionaire creates any encumbrance in breach of the Bareilly – Sitapur Concession Agreement;

x. the Concessionaire repudiates the Bareilly – Sitapur Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the Bareilly – Sitapur Concession Agreement;

xi. a change in ownership occurs in breach of the provisions of the Bareilly – Sitapur Concession Agreement;

xii. there is a transfer, pursuant to law either of (i) the rights and/or obligations of the Concessionaire under any of the project agreements, or of (ii) all or part of the assets or undertaking of the Concessionaire, and such transfer causes a material adverse effect;

xiii. an execution levied on any of the assets of the Concessionaire has caused a material adverse effect;

xiv. the Concessionaire is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for the Concessionaire or for the whole or material part of its assets that has a material bearing on the Bareilly – Sitapur Project;

xv. the Concessionaire has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of NHAI, a material adverse effect;

xvi. a resolution for winding up of the Concessionaire is passed or any petition for winding up of the Concessionaire is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof or the Concessionaire is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of the Concessionaire are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of the Concessionaire under the Bareilly – Sitapur Concession Agreement and the project agreements; and provided that:

    a. the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the Bareilly – Sitapur Concession Agreement and the project agreements;

    b. the amalgamated or reconstructed entity has the financial standing to perform its obligations under the Bareilly – Sitapur Concession Agreement and the project agreements and has a credit worthiness at least as good as that of the Concessionaire as at Appointed Date; and

    c. each of the project agreements remains in full force and effect;

xvii. any representation or warranty of the Concessionaire herein contained which is, as of the date of Bareilly – Sitapur Concession Agreement, found to be materially false, incorrect or misleading;

xviii. the Concessionaire submits to NHAI any statement, notice or other document, in written or electronic form, which has a material effect on NHAI's rights, obligations or interests and which is false in material particulars;

xix. the Concessionaire has failed to fulfil any obligation, for which failure termination has been specified in the Bareilly – Sitapur Concession Agreement;

xx. the Concessionaire commits a default in complying with any other provision of the Bareilly – Sitapur Concession Agreement if such default causes a material adverse effect on NHAI;

xxi. an escrow default occurs and the Concessionaire fails to cure the default within a cure period of 15 days;

Termination by Concessionaire

If any of the defaults specified below shall have occurred, and NHAI fails to cure such default within a cure period of 90 days or such longer period as has been expressly provided in the Bareilly – Sitapur Concession Agreement, NHAI shall be deemed to be in default of the Bareilly – Sitapur Concession Agreement, unless the default has occurred as a result of any breach of the Bareilly – Sitapur Concession Agreement by the Concessionaire or due to force majeure:

i. NHAI commits a material default in complying with any of the provisions of the Bareilly – Sitapur Concession Agreement and such default has a material adverse effect on the Concessionaire; or

ii. NHAI repudiates the Bareilly – Sitapur Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the Bareilly – Sitapur Concession Agreement; or

iii. the State commits a material default in complying with the provisions of the State Support Agreement if such default has a Material Adverse Effect on the Concessionaire and the breach continues for a period of 90 (ninety) days from the date of notice given in this behalf by the Concessionaire to the Authority.

Termination Payments

The termination payment pursuant to the Bareilly – Sitapur Concession Agreement becomes due and payable to the Concessionaire by NHAI within 15 days of the Concessionaire furnishing to NHAI an NOC issued by the lenders/ lenders' representative recording/ effecting release/ vacation/ discharge of the charge on Bareilly – Sitapur Project receivables (if any) created by Concessionaire for securing repayment of the debt. If NHAI fails to disburse the full termination payment within 15 days, NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid.

Upon termination of the Bareilly – Sitapur Concession Agreement by the NHAI on account of occurrence of a Concessionaire Default, the NHAI shall pay the Concessionaire by way of termination payment 70% of the Unexpired Cash Flow.

Upon termination of the Bareilly – Sitapur Concession Agreement by the Concessionaire on account of occurrence of an NHAI Default, the Concessionaire shall be entitled to receive from NHAI by way of termination payment a sum equal to 105% of the Unexpired Cash Flow.

For details in relation to the technical clarifications received from NHAI in relation to the Concession Agreements, please refer to Annexure 1 of the Bareilly – Sitapur Concession Agreement.

8. ***Concession Agreement between NSPPL ("Concessionaire") and NHAI in respect of the Muzaffarnagar-Haridwar Project dated March 12, 2025***

The Concessionaire has entered into a concession agreement for tolling, operation, maintenance and transfer of Muzaffarnagar-Haridwar Project Highway (as defined below) on toll, operate and transfer (TOT) basis (the "**Muzaffarnagar-Haridwar Concession Agreement**"), for a period of 20 years from the the Appointed Date (i.e., the date on which all Conditions Precedent have been satisfied) or such date on which the Muzaffarnagar-Haridwar Concession Agreement is terminated by a termination notice ("**Muzaffarnagar-Haridwar Concession Period**").

Certain Definitions

"**Muzaffarnagar-Haridwar Project**" means the operation and maintenance of the Muzaffarnagar-Haridwar Project Highway in accordance with the provisions of the Muzaffarnagar-Haridwar Concession Agreement and includes all works, services and equipment relating to or in respect of the scope of the Muzaffarnagar-Haridwar Project as set forth in the Muzaffarnagar-Haridwar Concession Agreement;

"**Muzaffarnagar-Haridwar Project Assets**" means all physical and other assets relating to and forming part of the Site including (a) rights over the Site in the form of licence, Right of Way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre- stones, toll plazas, electrical systems, communication systems, rest areas, relief centers, maintenance depots and administrative offices; (d) all rights of the Concessionaire under the project agreements; security deposits; insurance proceeds; and (e) Applicable Permits and authorisations relating to or in respect of the Muzaffarnagar-Haridwar Project Highway, but does not include Additional Facilities; and

"**Muzaffarnagar-Haridwar Project Highway**" means the Site comprising the existing road comprising:

Stretch	State	Start (Km)	End (Km)	Length
Muzaffarnagar-Haridwar Section	Uttar Pradesh & Uttarakhand	130+560	209+120	78.56

and all Muzaffarnagar-Haridwar Project Assets."

Grant of Concession

Subject to and in accordance with the terms and conditions set forth in the Muzaffarnagar-Haridwar Concession Agreement, NHAI has granted to the Concessionaire, and the Concessionaire has accepted the concession for a period of 20 years, including the exclusive right, license and authority during the subsistence of the Muzaffarnagar-Haridwar Agreement to demand, collect and appropriate Fee, operate, manage and maintain the Muzaffarnagar-Haridwar Project Highway. Notwithstanding anything to the contrary in the Muzaffarnagar-Haridwar Concession Agreement, the parties have expressly agreed that the Concession Period shall not be reduced by more than 5 (five) years, or shall not be increased by more than 10 (ten) years on any account or for any reason whatsoever.

Subject to and in accordance with the terms and conditions set forth in the Muzaffarnagar-Haridwar Concession Agreement, the Concessionaire is entitled to undertake the following in accordance with the terms of the Muzaffarnagar-Haridwar Concession Agreement, applicable laws and applicable permits:

i. Right of Way, access and license to the Site for the purpose of and to the extent conferred by the provisions of the Muzaffarnagar-Haridwar Concession Agreement;

ii. manage, operate and maintain the Muzaffarnagar-Haridwar Project Highway and regulate the use thereof by third parties in accordance with the terms of Muzaffarnagar-Haridwar Concession Agreement;

iii. demand, collect and appropriate the fees from vehicles and persons liable for payment of fees for using the Muzaffarnagar-Haridwar Project Highway or any part thereof and refuse entry of any vehicle to the Muzaffarnagar-Haridwar Project Highway if the fee due is not paid;

iv. perform and fulfill all of the Concessionaire's obligations under and in accordance with the Muzaffarnagar-Haridwar Concession Agreement;

v. bear and pay all costs, expenses and charges in connection with or incidental to the performance of the obligations of the Concessionaire under the Muzaffarnagar-Haridwar Concession Agreement; and

vi. neither assign, transfer or sublet or create any lien or encumbrance on the Muzaffarnagar-Haridwar Concession Agreement, or the concession granted thereby, or on the whole or any part of the Muzaffarnagar-Haridwar Project Highway nor transfer, lease or part possession thereof, save and except as expressly permitted by the Muzaffarnagar-Haridwar Concession Agreement.

Fees

The Concessionaire is entitled to, during the Muzaffarnagar-Haridwar Concession Period, levy, collect and appropriate fees from users ("**User Fee**") of the Muzaffarnagar-Haridwar Project Highway pursuant to and in accordance with the provisions in the Muzaffarnagar-Haridwar Concession Agreement and the Fee Rules and to appropriate the same. In accordance with the terms of the Muzaffarnagar-Haridwar Concession Agreement, the Concessionaire shall not collect any fees in relation to exempted vehicles. The fees collected by Concessionaire shall be deposited in the escrow account and appropriated in accordance with the relevant provisions of the Muzaffarnagar-Haridwar Concession Agreement.

Sub Rule 6(6) of the above-mentioned Fee Rules states,

"(a) The fee shall be collected by the Central Government or the executing Authority as the case may be and for a specified period in accordance with the terms of agreement entered by the Concessionaire.
(b) The fee as notified as per Muzaffarnagar-Haridwar Concession Agreement shall be leviable till the end of the concession period and after the Concession Agreement is over, the fee shall be collected by the Central Government executing authority at a reduced rate of 40% of the fee on the date of transfer of such section of National Highways, bridge, tunnel or bypass, as the case may be, to be revised annually in accordance with these rules:

Provided that after the recovery of capital cost through user fee realised, in respect of a public funded project, the fee leviable would be reduced to 40% of the user fee for such section of National Highways, bridge, tunnel or bypass as the case may be, to be revised annually in accordance with these rules." In respect of the above, NHAI has clarified that Rule 6 of the Fee Rules provides that the user fee to be notified by Government as per the format of Schedule M of Concession Agreement shall be leviable till the end of the concession period. Hence, the rate of User Fee rate shall only be reduced after the concession period is over."

Concession Fees

As consideration for the grant of the Concession, the Concessionaire is required to pay a concession fee to NHAI equivalent to ₹ 16,522.00 million, within 120 days of the date of execution of the concession agreement or any extended date as agreed by NHAI prior to the Appointed Date as a Condition Precedent. The Concessionaire agrees that payment of the concession fee constitutes essential condition of the Concession Agreement. Further as communicated by the authority by way of a letter dated 13.02.25, any amount raised from the proceeds of the Issue in excess of the Base Concession Fee (being the aggregate of Concession Fees payable to NHAI in terms of the Additional Concession Agreements) shall be paid to the Authority. For further details, see the section titled "Use of Proceeds – Details of Utilisation of Issue Proceeds - Infusion of debt and/or equity into NSPPL" on page 355. For the purposes of stamp duty payment, concession agreements are generally considered to be agreements which are not lease deeds and stamp duty of ₹ 100.00 is typically paid for such concession agreements. However, stamp duty authorities of certain states in India have issued notices to some concessionaires alleging inadequate stamp duty on the concession agreements executed between the concessionaires and the NHAI. The stamp authorities allege that since concession agreements relate to the letting of tolls to the concessionaires in the form of leases, or as development agreements, such agreements were required to be stamped as lease agreements or development agreements, as applicable. The stamp duty for a lease agreement or a development agreement ranges between 1.0% and 11.0% of the annual rent or premium payable or the market value of the property. Furthermore, stamp duty authorities may impose penalties for payment of inadequate stamp duty, which could extend up to ten (10) times the amount of the stamp duty payable. Accordingly, concession agreements that have not been stamped as such could be considered to be inadequately stamped. The High Courts of Allahabad and Maharashtra have also held that a concession agreement ought to be stamped as a lease agreement and have upheld the imposition of a higher stamp duty on such agreements.

While we have paid stamp duty of ₹ 100.00 on each of our Concession Agreements in accordance with usual practice, if any demand for payment of a higher stamp duty or penalty is imposed, it would increase the costs of the Toll Roads.

In respect of above, NHAI has clarified that:

(i) As on the date of the Muzaffarnagar-Haridwar Concession Agreement, GST is not applicable on Concession Fee. However, if it becomes applicable at a later stage, this shall be considered as change in law.

(ii) There is no requirement of stamp duty in case of Concession Agreements since Fee Rules provided for levy and collection of user fee and not toll tax. In case, in future any such demand arises, it shall be treated as change in law.

Escrow Account

The provisions in relation to the escrow account in the Muzaffarnagar-Haridwar Concession Agreement are only applicable if the obligations of the Concessionaire under the Muzaffarnagar-Haridwar Concession Agreement are financed by the Lenders.

The Concessionaire shall, prior to the Appointed Date, open and establish the escrow account with the escrow bank and all funds constituting the financing package related to the Muzaffarnagar-Haridwar Project shall be credited to such escrow account. During the Muzaffarnagar-Haridwar Concession Period all fees and any other revenues including the proceeds of any rentals, deposits, capital receipts or insurance claims from or in respect of the Muzaffarnagar-Haridwar Project Highway shall be deposited therein. In addition, all payments by NHAI pursuant to the Muzaffarnagar-Haridwar Concession Agreement, including, if any, in relation to the change of scope in the Muzaffarnagar-Haridwar Project shall be deposited by NHAI in the escrow account.

Withdrawals from Escrow Account

The Concessionaire shall, at the time of the opening of the escrow account, give irrevocable instructions by way of an escrow agreement substantially in form set forth in the Muzaffarnagar-Haridwar Concession Agreement to the escrow bank instructing, *inter alia*, that the deposits into the escrow account shall subject to the provisions of the Muzaffarnagar-Haridwar Concession Agreement, be appropriated in the following order every month and if not due in a month then appropriated proportionately in such month and retained in the escrow account and paid out therefrom in the month when due unless otherwise expressly provided in the instruction letter:

i. all taxes due and payable by the Concessionaire for and in respect of the Muzaffarnagar-Haridwar Project Highway;

ii. concession fee;

iii. all payments relating to construction of the Muzaffarnagar-Haridwar Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

iv. operation and maintenance expenses;

v. operation and maintenance expenses and other costs and expenses incurred by NHAI in accordance with the provisions of the Muzaffarnagar-Haridwar Concession Agreement, and certified by NHAI as due and payable to it;

vi. monthly proportionate provision of debt service payment due in an accounting year;

vii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the escrow agreement and subject to the provisions of the Muzaffarnagar-Haridwar Concession Agreement, in the case of termination, the amounts standing to the credit of the escrow account shall be appropriated in the following order:

i. all taxes due and payable by the Concessionaire for and in respect of the Muzaffarnagar-Haridwar Project Highway;

ii. payment due to the lenders;

iii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire;

iv. retention and payments relating to the liability for defects and deficiencies;

v. incurred or accrued operation and maintenance expenses;

vi. any other payments required to be made under the Muzaffarnagar-Haridwar Concession Agreement; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Change of Scope

NHAI may, notwithstanding anything to the contrary contained in the Muzaffarnagar-Haridwar Concession Agreement, require the Concessionaire to make alterations/ modifications in the scope of the Muzaffarnagar-Haridwar Project as contemplated by the Muzaffarnagar-Haridwar Concession Agreement. If the cumulative costs relating to all the change of scope orders exceed 5% of the concession fee in any continuous period of 3 years immediately preceding the date of such change of scope order or if such cumulative costs exceed 25% of the concession fee at any time during the Muzaffarnagar-Haridwar Concession Period, NHAI may award any works or services, to any person on the basis of open competitive bidding and the Concessionaire shall be entitled to take part in such competitive bidding with a right to match the first-ranked bid in terms of the selection criteria, either by itself where such work requires tolling, operation and maintenance, or through another company where such work requires construction on any part of the Project Highway, subject to payment of 2% (two per cent) of the bid amount to the Authority, and thereupon securing the award of such works or services. For the avoidance of doubt, it is agreed that the Concessionaire shall be entitled to exercise such option only if the Concessionaire has participated in the bidding process either individually or as a consortium or JV with another company and fulfils the eligibility criteria to undertake such work without compromising with its overall liability. All such changes shall be made by NHAI by an order issued in accordance with the procedure set forth in the Muzaffarnagar-Haridwar Concession Agreement.

Termination of the Muzaffarnagar-Haridwar Concession Agreement

Termination by either party

Either Party may in its discretion terminate the Muzaffarnagar-Haridwar Concession Agreement by giving a termination notice to the other party if a force majeure event subsists for a period of 120 days or more within a continuous period of 365 days. Before issuing such termination notice, the party intending to issue the termination notice shall inform the other party of such intention and grant 15 days' time to make a representation and may after the expiry of such 15 days period, whether or not it is in receipt of such representation, in its sole discretion issue the termination notice.

Termination by the NHAI

In the event of any of the defaults specified below have occurred, and if the Concessionaire has failed to cure default within the period provided for the same in the Muzaffarnagar-Haridwar Concession Agreement, then NHAI shall be entitled to issue a notice of its intention to terminate the Muzaffarnagar-Haridwar Concession Agreement, with a copy to the lenders. The following events shall constitute an event of default by the Concessionaire (a "**Concessionaire Default**") unless they have occurred as a result of any breach of the Muzaffarnagar-Haridwar Concession Agreement by NHAI or due to force majeure:

i. the performance security has been encashed and appropriated in accordance with the Muzaffarnagar-Haridwar Concession Agreement and the Concessionaire has failed to replenish or provide fresh performance security within a cure period of 15 days;

ii. subsequent to the replenishment or furnishing of fresh performance security in accordance with the Muzaffarnagar-Haridwar Concession Agreement, the Concessionaire fails to cure, within a cure period of 60 days, the Concessionaire Default for which whole or part of the performance security was appropriated;

iii. the Concessionaire abandons or manifests intention to abandon the operation and maintenance of the Muzaffarnagar-Haridwar Project Highway without the prior written consent of NHAI;

iv. the Concessionaire fails to roll over, renew and furnish new bank guarantee performance security subject to and in accordance with terms of the Muzaffarnagar-Haridwar Concession Agreement, at least three months prior to expiry of subsisting bank guarantee;

v. the Concessionaire is in breach of the Maintenance Requirements or the Safety Requirements, as the case may be;

vi the Concessionaire has failed to make any payment to NHAI within the period specified in the Muzaffarnagar-Haridwar Concession Agreement;

vii. upon occurrence of a financial default, the lenders' representative has by notice required NHAI to undertake suspension or termination, as the case may be, in accordance with the substitution agreement and the Concessionaire fails to cure the default within the specified cure period;

viii. a breach of any of the project agreements by the Concessionaire causes a material adverse effect;

ix. the Concessionaire creates any encumbrance in breach of the Muzaffarnagar-Haridwar Concession Agreement;

x. the Concessionaire repudiates the Muzaffarnagar-Haridwar Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the Muzaffarnagar-Haridwar Concession Agreement;

xi. a change in ownership occurs in breach of the provisions of the Muzaffarnagar-Haridwar Concession Agreement;

xii. there is a transfer, pursuant to law either of (i) the rights and/or obligations of the Concessionaire under any of the project agreements, or of (ii) all or part of the assets or undertaking of the Concessionaire, and such transfer causes a material adverse effect;

xiii. an execution levied on any of the assets of the Concessionaire has caused a material adverse effect;

xiv. the Concessionaire is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for the Concessionaire or for the whole or material part of its assets that has a material bearing on the Muzaffarnagar-Haridwar Project;

xv. the Concessionaire has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of NHAI, a material adverse effect;

xvi. a resolution for winding up of the Concessionaire is passed or any petition for winding up of the Concessionaire is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof or the Concessionaire is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of the Concessionaire are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of the Concessionaire under the Muzaffarnagar-Haridwar Concession Agreement and the project agreements; and provided that:

    a. the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the Muzaffarnagar-Haridwar Concession Agreement and the project agreements;

    b. the amalgamated or reconstructed entity has the financial standing to perform its obligations under the Muzaffarnagar-Haridwar Concession Agreement and the project agreements and has a credit worthiness at least as good as that of the Concessionaire as at Appointed Date; and

    c. each of the project agreements remains in full force and effect;

xvii. any representation or warranty of the Concessionaire herein contained which is, as of the date of Muzaffarnagar-Haridwar Concession Agreement, found to be materially false, incorrect or misleading;

xviii. the Concessionaire submits to NHAI any statement, notice or other document, in written or electronic form, which has a material effect on NHAI's rights, obligations or interests and which is false in material particulars;

xix. the Concessionaire has failed to fulfil any obligation, for which failure termination has been specified in the Muzaffarnagar-Haridwar Concession Agreement;

xx. the Concessionaire commits a default in complying with any other provision of the Muzaffarnagar-Haridwar Concession Agreement if such default causes a material adverse effect on NHAI;

xxi. an escrow default occurs and the Concessionaire fails to cure the default within a cure period of 15 days;

Termination by Concessionaire

If any of the defaults specified below shall have occurred, and NHAI fails to cure such default within a cure period of 90 days or such longer period as has been expressly provided in the Muzaffarnagar-Haridwar Concession Agreement, NHAI shall be deemed to be in default of the Muzaffarnagar-Haridwar Concession Agreement, unless the default has occurred as a result of any breach of the Muzaffarnagar-Haridwar Concession Agreement by the Concessionaire or due to force majeure:

i. NHAI commits a material default in complying with any of the provisions of the Muzaffarnagar-Haridwar Concession Agreement and such default has a material adverse effect on the Concessionaire; or

ii. NHAI repudiates the Muzaffarnagar-Haridwar Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the Muzaffarnagar-Haridwar Concession Agreement; or

iii. the State commits a material default in complying with the provisions of the State Support Agreement if such default has a Material Adverse Effect on the Concessionaire and the breach continues for a period of 90 (ninety) days from the date of notice given in this behalf by the Concessionaire to the Authority.

Termination Payments

The termination payment pursuant to the Muzaffarnagar-Haridwar Concession Agreement becomes due and payable to the Concessionaire by NHAI within 15 days of the Concessionaire furnishing to NHAI an NOC issued by the lenders/ lenders' representative recording/ effecting release/ vacation/ discharge of the charge on Muzaffarnagar-Haridwar Project receivables (if any) created by Concessionaire for securing repayment of the debt. If NHAI fails to disburse the full termination payment within 15 days, NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid.

Upon termination of the Muzaffarnagar-Haridwar Concession Agreement by the NHAI on account of occurrence of a Concessionaire Default, the NHAI shall pay the Concessionaire by way of termination payment 70% of the Unexpired Cash Flow.

Upon termination of the Muzaffarnagar-Haridwar Concession Agreement by the Concessionaire on account of occurrence of an NHAI Default, the Concessionaire shall be entitled to receive from NHAI by way of termination payment a sum equal to 105% of the Unexpired Cash Flow.

For details in relation to the technical clarifications received from NHAI in relation to the Concession Agreements, please refer to Annexure 1 of the Muzaffarnagar-Haridwar Concession Agreement.

9. ***Concession Agreement between NSPPL ("Concessionaire") and NHAI in respect of the Raipur to Simga Project dated March 12, 2025***

The Concessionaire has entered into a concession agreement for tolling, operation, maintenance and transfer of Raipur to Simga Project Highway (as defined below) on toll, operate and transfer (TOT) basis (the "**Raipur to Simga Concession Agreement**"), for a period of 20 years from the the Appointed Date (i.e., the date on which all Conditions Precedent have been satisfied) or such date on which the Raipur to Simga Concession Agreement is terminated by a termination notice ("**Raipur to Simga Concession Period**").

Certain Definitions

"**Raipur to Simga Project**" means the operation and maintenance of the Raipur to Simga Project Highway in accordance with the provisions of the Raipur to Simga Concession Agreement and includes all works, services and equipment relating to or in respect of the scope of the Raipur to Simga Project as set forth in the Raipur to Simga Concession Agreement;

"**Raipur to Simga Project Assets**" means all physical and other assets relating to and forming part of the Site including (a) rights over the Site in the form of licence, Right of Way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre- stones, toll plazas, electrical systems, communication systems, rest areas, relief centers, maintenance depots and administrative offices; (d) all rights of the Concessionaire under the project agreements; security deposits; insurance proceeds; and (e) Applicable Permits and authorisations relating to or in respect of the Raipur to Simga Project Highway, but does not include Additional Facilities; and

"**Raipur to Simga Project Highway**" means the Site comprising the existing road comprising:

Stretch	State	Start (Km)	End (Km)	Length
Raipur to Simga	Chhattisgarh	0+000	48+580	48+580

and all Raipur to Simga Project Assets."

Grant of Concession

Subject to and in accordance with the terms and conditions set forth in the Raipur to Simga Concession Agreement, NHAI has granted to the Concessionaire, and the Concessionaire has accepted the concession for a period of 20 years, including the exclusive right, license and authority during the subsistence of the Raipur to Simga Agreement to demand, collect and appropriate Fee, operate, manage and maintain the Raipur to Simga Project Highway. Notwithstanding anything to the contrary in the Raipur to Simga Concession Agreement, the parties have expressly agreed that the Concession Period shall not be reduced by more than 5 (five) years, or shall not be increased by more than 10 (ten) years on any account or for any reason whatsoever.

Subject to and in accordance with the terms and conditions set forth in the Raipur to Simga Concession Agreement, the Concessionaire is entitled to undertake the following in accordance with the terms of the Raipur to Simga Concession Agreement, applicable laws and applicable permits:

i. Right of Way, access and license to the Site for the purpose of and to the extent conferred by the provisions of the Raipur to Simga Concession Agreement;

ii. manage, operate and maintain the Raipur to Simga Project Highway and regulate the use thereof by third parties in accordance with the terms of Raipur to Simga Concession Agreement;

iii. demand, collect and appropriate the fees from vehicles and persons liable for payment of fees for using the Raipur to Simga Project Highway or any part thereof and refuse entry of any vehicle to the Raipur to Simga Project Highway if the fee due is not paid;

iv. perform and fulfill all of the Concessionaire's obligations under and in accordance with the Raipur to Simga Concession Agreement;

v. bear and pay all costs, expenses and charges in connection with or incidental to the performance of the obligations of the Concessionaire under the Raipur to Simga Concession Agreement; and

vi. neither assign, transfer or sublet or create any lien or encumbrance on the Raipur to Simga Concession Agreement, or the concession granted thereby, or on the whole or any part of the Raipur to Simga Project Highway nor transfer, lease or part possession thereof, save and except as expressly permitted by the Raipur to Simga Concession Agreement.

Fees

The Concessionaire is entitled to, during the Raipur to Simga Concession Period, levy, collect and appropriate fees from users ("**User Fee**") of the Raipur to Simga Project Highway pursuant to and in accordance with the provisions in the Raipur to Simga Concession Agreement and the Fee Rules and to appropriate the same. In accordance with the terms of the Raipur to Simga Concession Agreement, the Concessionaire shall not collect any fees in relation to exempted vehicles. The fees collected by Concessionaire shall be deposited in the escrow account and appropriated in accordance with the relevant provisions of the Raipur to Simga Concession Agreement.

Sub Rule 6(6) of the above-mentioned Fee Rules states,

"(a) The fee shall be collected by the Central Government or the executing Authority as the case may be and for a specified period in accordance with the terms of agreement entered by the Concessionaire.
(b) The fee as notified as per Raipur to SimgaConcession Agreement shall be leviable till the end of the concession period and after the Concession Agreement is over, the fee shall be collected by the Central Government executing authority at a reduced rate of 40% of the fee on the date of transfer of such section of National Highways, bridge, tunnel or bypass, as the case may be, to be revised annually in accordance with these rules:

Provided that after the recovery of capital cost through user fee realised, in respect of a public funded project, the fee leviable would be reduced to 40% of the user fee for such section of National Highways, bridge, tunnel or bypass as the case may be, to be revised annually in accordance with these rules." In respect of the above, NHAI has clarified that Rule 6 of the Fee Rules provides that the user fee to be notified by Government as per the format of Schedule M of Concession Agreement shall be leviable till the end of the concession period. Hence, the rate of User Fee rate shall only be reduced after the concession period is over."

Concession Fees

As consideration for the grant of the Concession, the Concessionaire is required to pay a concession fee to NHAI equivalent to ₹ 13,040.00 million, within 120 days of the date of execution of the concession agreement or any extended date as agreed by NHAI prior to the Appointed Date as a Condition Precedent. The Concessionaire agrees that payment of the concession fee constitutes essential condition of the Concession Agreement. Further as communicated by the authority by way of a letter dated 13.02.25, any amount raised from the proceeds of the Issue in excess of the Base Concession Fee (being the aggregate of Concession Fees payable to NHAI in terms of the Additional Concession Agreements) shall be paid to the Authority. For further details, see the section titled "Use of Proceeds – Details of Utilisation of Issue Proceeds - Infusion of debt and/or equity into NSPPL" on page 355. For the purposes of stamp duty payment, concession agreements are generally considered to be agreements which are not lease deeds and stamp duty of ₹ 100.00 is typically paid for such concession agreements. However, stamp duty authorities of certain states in India have issued notices to some concessionaires alleging inadequate stamp duty on the concession agreements executed between the concessionaires and the NHAI. The stamp authorities allege that since concession agreements relate to the letting of tolls to the concessionaires in the form of leases, or as development agreements, such agreements were required to be stamped as lease agreements or

development agreements, as applicable. The stamp duty for a lease agreement or a development agreement ranges between 1.0% and 11.0% of the annual rent or premium payable or the market value of the property. Furthermore, stamp duty authorities may impose penalties for payment of inadequate stamp duty, which could extend up to ten (10) times the amount of the stamp duty payable. Accordingly, concession agreements that have not been stamped as such could be considered to be inadequately stamped. The High Courts of Allahabad and Maharashtra have also held that a concession agreement ought to be stamped as a lease agreement and have upheld the imposition of a higher stamp duty on such agreements.

While we have paid stamp duty of ₹ 100.00 on each of our Concession Agreements in accordance with usual practice, if any demand for payment of a higher stamp duty or penalty is imposed, it would increase the costs of the Toll Roads.

In respect of above, NHAI has clarified that:

(i) As on the date of the Raipur to Simga Concession Agreement, GST is not applicable on Concession Fee. However, if it becomes applicable at a later stage, this shall be considered as change in law.

(ii) There is no requirement of stamp duty in case of Concession Agreements since Fee Rules provided for levy and collection of user fee and not toll tax. In case, in future any such demand arises, it shall be treated as change in law.

Escrow Account

The provisions in relation to the escrow account in the Raipur to Simga Concession Agreement are only applicable if the obligations of the Concessionaire under the Raipur to Simga Concession Agreement are financed by the Lenders.

The Concessionaire shall, prior to the Appointed Date, open and establish the escrow account with the escrow bank and all funds constituting the financing package related to the Raipur to Simga Project shall be credited to such escrow account. During the Raipur to Simga Concession Period all fees and any other revenues including the proceeds of any rentals, deposits, capital receipts or insurance claims from or in respect of the Raipur to Simga Project Highway shall be deposited therein. In addition, all payments by NHAI pursuant to the Raipur to Simga Concession Agreement, including, if any, in relation to the change of scope in the Raipur to Simga Project shall be deposited by NHAI in the escrow account.

Withdrawals from Escrow Account

The Concessionaire shall, at the time of the opening of the escrow account, give irrevocable instructions by way of an escrow agreement substantially in form set forth in the Raipur to Simga Concession Agreement to the escrow bank instructing, *inter alia*, that the deposits into the escrow account shall subject to the provisions of the Raipur to Simga Concession Agreement, be appropriated in the following order every month and if not due in a month then appropriated proportionately in such month and retained in the escrow account and paid out therefrom in the month when due unless otherwise expressly provided in the instruction letter:

i. all taxes due and payable by the Concessionaire for and in respect of the Raipur to Simga Project Highway;

ii. concession fee;

iii. all payments relating to construction of the Raipur to Simga Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

iv. operation and maintenance expenses;

v. operation and maintenance expenses and other costs and expenses incurred by NHAI in accordance with the provisions of the Raipur to Simga Concession Agreement, and certified by NHAI as due and payable to it;

vi. monthly proportionate provision of debt service payment due in an accounting year;

vii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the escrow agreement and subject to the provisions of the Raipur to Simga Concession Agreement, in the case of termination, the amounts standing to the credit of the escrow account shall be appropriated in the following order:

i. all taxes due and payable by the Concessionaire for and in respect of the Raipur to Simga Project Highway;

ii. payment due to the lenders;

iii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire;

iv. retention and payments relating to the liability for defects and deficiencies;

v. incurred or accrued operation and maintenance expenses;

vi. any other payments required to be made under the Raipur to Simga Concession Agreement; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Change of Scope

NHAI may, notwithstanding anything to the contrary contained in the Raipur to Simga Concession Agreement, require the Concessionaire to make alterations/ modifications in the scope of the Raipur to Simga Project as contemplated by the Raipur to Simga Concession Agreement. If the cumulative costs relating to all the change of scope orders exceed 5% of the concession fee in any continuous period of 3 years immediately preceding the date of such change of scope order or if such cumulative costs exceed 25% of the concession fee at any time during the Raipur to Simga Concession Period, NHAI may award any works or services, to any person on the basis of open competitive bidding and the Concessionaire shall be entitled to take part in such competitive bidding with a right to match the first-ranked bid in terms of the selection criteria, either by itself where such work requires tolling, operation and maintenance, or through another company where such work requires construction on any part of the Project Highway, subject to payment of 2% (two per cent) of the bid amount to the Authority, and thereupon securing the award of such works or services. For the avoidance of doubt, it is agreed that the Concessionaire shall be entitled to exercise such option only if the Concessionaire has participated in the bidding process either individually or as a consortium or JV with another company and fulfils the eligibility criteria to undertake such work without compromising with its overall liability. All such changes shall be made by NHAI by an order issued in accordance with the procedure set forth in the Raipur to Simga Concession Agreement.

Termination of the Raipur to Simga Concession Agreement

Termination by either party

Either Party may in its discretion terminate the Raipur to Simga Concession Agreement by giving a termination notice to the other party if a force majeure event subsists for a period of 120 days or more within a continuous period of 365 days. Before issuing such termination notice, the party intending to issue the termination notice shall inform the other party of such intention and grant 15 days' time to make a representation and may after the expiry of such 15 days period, whether or not it is in receipt of such representation, in its sole discretion issue the termination notice.

Termination by the NHAI

In the event of any of the defaults specified below have occurred, and if the Concessionaire has failed to cure default within the period provided for the same in the Raipur to Simga Concession Agreement, then NHAI shall be entitled to issue a notice of its intention to terminate the Raipur to Simga Concession Agreement, with a copy to the lenders. The following events shall constitute an event of default by the Concessionaire (a "**Concessionaire Default**") unless they have occurred as a result of any breach of the Raipur to Simga Concession Agreement by NHAI or due to force majeure:

i. the performance security has been encashed and appropriated in accordance with the Raipur to Simga Concession Agreement and the Concessionaire has failed to replenish or provide fresh performance security within a cure period of 15 days;

ii. subsequent to the replenishment or furnishing of fresh performance security in accordance with the Raipur to Simga Concession Agreement, the Concessionaire fails to cure, within a cure period of 60 days, the Concessionaire Default for which whole or part of the performance security was appropriated;

iii. the Concessionaire abandons or manifests intention to abandon the operation and maintenance of the Raipur to Simga Project Highway without the prior written consent of NHAI;

iv. the Concessionaire fails to roll over, renew and furnish new bank guarantee performance security subject to and in accordance with terms of the Raipur to Simga Concession Agreement, at least three months prior to expiry of subsisting bank guarantee;

v. the Concessionaire is in breach of the Maintenance Requirements or the Safety Requirements, as the case may be;

vi the Concessionaire has failed to make any payment to NHAI within the period specified in the Raipur to Simga Concession Agreement;

vii. upon occurrence of a financial default, the lenders' representative has by notice required NHAI to undertake suspension or termination, as the case may be, in accordance with the substitution agreement and the Concessionaire fails to cure the default within the specified cure period;

viii. a breach of any of the project agreements by the Concessionaire causes a material adverse effect;

ix. the Concessionaire creates any encumbrance in breach of the Raipur to Simga Concession Agreement;

x. the Concessionaire repudiates the Raipur to Simga Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the Raipur to Simga Concession Agreement;

xi. a change in ownership occurs in breach of the provisions of the Raipur to Simga Concession Agreement;

xii. there is a transfer, pursuant to law either of (i) the rights and/or obligations of the Concessionaire under any of the project agreements, or of (ii) all or part of the assets or undertaking of the Concessionaire, and such transfer causes a material adverse effect;

xiii. an execution levied on any of the assets of the Concessionaire has caused a material adverse effect;

xiv. the Concessionaire is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for the Concessionaire or for the whole or material part of its assets that has a material bearing on the Raipur to Simga Project;

xv. the Concessionaire has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of NHAI, a material adverse effect;

xvi. a resolution for winding up of the Concessionaire is passed or any petition for winding up of the Concessionaire is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof or the Concessionaire is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of the Concessionaire are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of the Concessionaire under the Raipur to Simga Concession Agreement and the project agreements; and provided that:

    a. the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the Raipur to Simga Concession Agreement and the project agreements;

    b. the amalgamated or reconstructed entity has the financial standing to perform its obligations under the Raipur to Simga Concession Agreement and the project agreements and has a credit worthiness at least as good as that of the Concessionaire as at Appointed Date; and

    c. each of the project agreements remains in full force and effect;

xvii. any representation or warranty of the Concessionaire herein contained which is, as of the date of Raipur to Simga Concession Agreement, found to be materially false, incorrect or misleading;

xviii. the Concessionaire submits to NHAI any statement, notice or other document, in written or electronic form, which has a material effect on NHAI's rights, obligations or interests and which is false in material particulars;

xix. the Concessionaire has failed to fulfil any obligation, for which failure termination has been specified in the Raipur to Simga Concession Agreement;

xx. the Concessionaire commits a default in complying with any other provision of the Raipur to Simga Concession Agreement if such default causes a material adverse effect on NHAI;

xxi. an escrow default occurs and the Concessionaire fails to cure the default within a cure period of 15 days;

Termination by Concessionaire

If any of the defaults specified below shall have occurred, and NHAI fails to cure such default within a cure period of 90 days or such longer period as has been expressly provided in the Raipur to Simga Concession Agreement, NHAI shall be deemed to be in default of the Raipur to Simga Concession Agreement, unless the default has occurred as a result of any breach of the Raipur to Simga Concession Agreement by the Concessionaire or due to force majeure:

i. NHAI commits a material default in complying with any of the provisions of the Raipur to Simga Concession

Agreement and such default has a material adverse effect on the Concessionaire; or

ii. NHAI repudiates the Raipur to Simga Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the Raipur to Simga Concession Agreement; or

iii. the State commits a material default in complying with the provisions of the State Support Agreement if such default has a Material Adverse Effect on the Concessionaire and the breach continues for a period of 90 (ninety) days from the date of notice given in this behalf by the Concessionaire to the Authority.

Termination Payments

The termination payment pursuant to the Raipur to Simga Concession Agreement becomes due and payable to the Concessionaire by NHAI within 15 days of the Concessionaire furnishing to NHAI an NOC issued by the lenders/ lenders' representative recording/ effecting release/ vacation/ discharge of the charge on Raipur to Simga Project receivables (if any) created by Concessionaire for securing repayment of the debt. If NHAI fails to disburse the full termination payment within 15 days, NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid.

Upon termination of the Raipur to Simga Concession Agreement by the NHAI on account of occurrence of a Concessionaire Default, the NHAI shall pay the Concessionaire by way of termination payment 70% of the Unexpired Cash Flow.

Upon termination of the Raipur to Simga Concession Agreement by the Concessionaire on account of occurrence of an NHAI Default, the Concessionaire shall be entitled to receive from NHAI by way of termination payment a sum equal to 105% of the Unexpired Cash Flow.

For details in relation to the technical clarifications received from NHAI in relation to the Concession Agreements, please refer to Annexure 1 of the Raipur to Simga Concession Agreement.

10. ***Concession Agreement between NSPPL ("Concessionaire") and NHAI in respect of the Simga to Bilaspur Project dated March 12, 2025***

The Concessionaire has entered into a concession agreement for tolling, operation, maintenance and transfer of Simga to Bilaspur Project Highway (as defined below) on toll, operate and transfer (TOT) basis (the "**Simga to Bilaspur Concession Agreement**"), for a period of 20 years from the the Appointed Date (i.e., the date on which all Conditions Precedent have been satisfied) or such date on which the Simga to Bilaspur Concession Agreement is terminated by a termination notice ("**Simga to Bilaspur Concession Period**").

Certain Definitions

"**Simga to Bilaspur Project**" means the operation and maintenance of the Simga to Bilaspur Project Highway in accordance with the provisions of the Simga to Bilaspur Concession Agreement and includes all works, services and equipment relating to or in respect of the scope of the Simga to Bilaspur Project as set forth in the Simga to Bilaspur Concession Agreement;

"**Simga to Bilaspur Project Assets**" means all physical and other assets relating to and forming part of the Site including (a) rights over the Site in the form of licence, Right of Way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre- stones, toll plazas, electrical systems, communication systems, rest areas, relief centers, maintenance depots and administrative offices; (d) all rights of the Concessionaire under the project agreements; security deposits; insurance proceeds; and (e) Applicable Permits and authorisations relating to or in respect of the Simga to Bilaspur Project Highway, but does not include Additional Facilities; and

"**Simga to Bilaspur Project Highway**" means the Site comprising the existing road comprising:

Stretch	State	Start (Km)	End (Km)	Length
Simga to Bilaspur	Chhattisgarh	48+580	126+525	77.945

and all Simga to Bilaspur Project Assets."

Grant of Concession

Subject to and in accordance with the terms and conditions set forth in the Simga to Bilaspur Concession Agreement, NHAI has granted to the Concessionaire, and the Concessionaire has accepted the concession for a period of 20 years, including the exclusive right, license and authority during the subsistence of the Simga to Bilaspur Agreement to demand, collect and appropriate Fee, operate, manage and maintain the Simga to Bilaspur Project Highway. Notwithstanding anything to

the contrary in the Simga to Bilaspur Concession Agreement, the parties have expressly agreed that the Concession Period shall not be reduced by more than 5 (five) years, or shall not be increased by more than 10 (ten) years on any account or for any reason whatsoever.

Subject to and in accordance with the terms and conditions set forth in the Simga to Bilaspur Concession Agreement, the Concessionaire is entitled to undertake the following in accordance with the terms of the Simga to Bilaspur Concession Agreement, applicable laws and applicable permits:

i. Right of Way, access and license to the Site for the purpose of and to the extent conferred by the provisions of the Simga to Bilaspur Concession Agreement;

ii. manage, operate and maintain the Simga to Bilaspur Project Highway and regulate the use thereof by third parties in accordance with the terms of Simga to Bilaspur Concession Agreement;

iii. demand, collect and appropriate the fees from vehicles and persons liable for payment of fees for using the Simga to Bilaspur Project Highway or any part thereof and refuse entry of any vehicle to the Simga to Bilaspur Project Highway if the fee due is not paid;

iv. perform and fulfill all of the Concessionaire's obligations under and in accordance with the Simga to Bilaspur Concession Agreement;

v. bear and pay all costs, expenses and charges in connection with or incidental to the performance of the obligations of the Concessionaire under the Simga to Bilaspur Concession Agreement; and

vi. neither assign, transfer or sublet or create any lien or encumbrance on the Simga to Bilaspur Concession Agreement, or the concession granted thereby, or on the whole or any part of the Simga to Bilaspur Project Highway nor transfer, lease or part possession thereof, save and except as expressly permitted by the Simga to Bilaspur Concession Agreement.

Fees

The Concessionaire is entitled to, during the Simga to Bilaspur Concession Period, levy, collect and appropriate fees from users ("**User Fee**") of the Simga to Bilaspur Project Highway pursuant to and in accordance with the provisions in the Simga to Bilaspur Concession Agreement and the Fee Rules and to appropriate the same. In accordance with the terms of the Simga to Bilaspur Concession Agreement, the Concessionaire shall not collect any fees in relation to exempted vehicles. The fees collected by Concessionaire shall be deposited in the escrow account and appropriated in accordance with the relevant provisions of the Simga to Bilaspur Concession Agreement.

Sub Rule 6(6) of the above-mentioned Fee Rules states,

"(a) The fee shall be collected by the Central Government or the executing Authority as the case may be and for a specified period in accordance with the terms of agreement entered by the Concessionaire.
(b) The fee as notified as per Simga to Bilaspur Concession Agreement shall be leviable till the end of the concession period and after the Concession Agreement is over, the fee shall be collected by the Central Government executing authority at a reduced rate of 40% of the fee on the date of transfer of such section of National Highways, bridge, tunnel or bypass, as the case may be, to be revised annually in accordance with these rules:

Provided that after the recovery of capital cost through user fee realised, in respect of a public funded project, the fee leviable would be reduced to 40% of the user fee for such section of National Highways, bridge, tunnel or bypass as the case may be, to be revised annually in accordance with these rules." In respect of the above, NHAI has clarified that Rule 6 of the Fee Rules provides that the user fee to be notified by Government as per the format of Schedule M of Concession Agreement shall be leviable till the end of the concession period. Hence, the rate of User Fee rate shall only be reduced after the concession period is over."

Concession Fees

As consideration for the grant of the Concession, the Concessionaire is required to pay a concession fee to NHAI equivalent to ₹ 13,071.00 million, within 120 days of the date of execution of the concession agreement or any extended date as agreed by NHAI prior to the Appointed Date as a Condition Precedent. The Concessionaire agrees that payment of the concession fee constitutes essential condition of the Concession Agreement. Further as communicated by the authority by way of a letter dated 13.02.25, any amount raised from the proceeds of the Issue in excess of the Base Concession Fee (being the aggregate of Concession Fees payable to NHAI in terms of the Additional Concession Agreements) shall be paid to the Authority. For further details, see the section titled "Use of Proceeds – Details of Utilisation of Issue Proceeds - Infusion of debt and/or equity into NSPPL" on page 355. For the purposes of stamp duty payment, concession agreements are generally considered to be agreements which are not lease deeds and stamp duty of ₹ 100.00 is typically paid for such concession agreements. However, stamp duty authorities of certain states in India have issued notices to some

concessionaires alleging inadequate stamp duty on the concession agreements executed between the concessionaires and the NHAI. The stamp authorities allege that since concession agreements relate to the letting of tolls to the concessionaires in the form of leases, or as development agreements, such agreements were required to be stamped as lease agreements or development agreements, as applicable. The stamp duty for a lease agreement or a development agreement ranges between 1.0% and 11.0% of the annual rent or premium payable or the market value of the property. Furthermore, stamp duty authorities may impose penalties for payment of inadequate stamp duty, which could extend up to ten (10) times the amount of the stamp duty payable. Accordingly, concession agreements that have not been stamped as such could be considered to be inadequately stamped. The High Courts of Allahabad and Maharashtra have also held that a concession agreement ought to be stamped as a lease agreement and have upheld the imposition of a higher stamp duty on such agreements.

While we have paid stamp duty of ₹ 100.00 on each of our Concession Agreements in accordance with usual practice, if any demand for payment of a higher stamp duty or penalty is imposed, it would increase the costs of the Toll Roads.

In respect of above, NHAI has clarified that:

(i) As on the date of the Simga to Bilaspur Concession Agreement, GST is not applicable on Concession Fee. However, if it becomes applicable at a later stage, this shall be considered as change in law.

(ii) There is no requirement of stamp duty in case of Concession Agreements since Fee Rules provided for levy and collection of user fee and not toll tax. In case, in future any such demand arises, it shall be treated as change in law.

Escrow Account

The provisions in relation to the escrow account in the Simga to Bilaspur Concession Agreement are only applicable if the obligations of the Concessionaire under the Simga to Bilaspur Concession Agreement are financed by the Lenders.

The Concessionaire shall, prior to the Appointed Date, open and establish the escrow account with the escrow bank and all funds constituting the financing package related to the Simga to Bilaspur Project shall be credited to such escrow account. During the Simga to Bilaspur Concession Period all fees and any other revenues including the proceeds of any rentals, deposits, capital receipts or insurance claims from or in respect of the Simga to Bilaspur Project Highway shall be deposited therein. In addition, all payments by NHAI pursuant to the Simga to Bilaspur Concession Agreement, including, if any, in relation to the change of scope in the Simga to Bilaspur Project shall be deposited by NHAI in the escrow account.

Withdrawals from Escrow Account

The Concessionaire shall, at the time of the opening of the escrow account, give irrevocable instructions by way of an escrow agreement substantially in form set forth in the Simga to Bilaspur Concession Agreement to the escrow bank instructing, *inter alia*, that the deposits into the escrow account shall subject to the provisions of the Simga to Bilaspur Concession Agreement, be appropriated in the following order every month and if not due in a month then appropriated proportionately in such month and retained in the escrow account and paid out therefrom in the month when due unless otherwise expressly provided in the instruction letter:

i. all taxes due and payable by the Concessionaire for and in respect of the Simga to Bilaspur Project Highway;

ii. concession fee;

iii. all payments relating to construction of the Simga to Bilaspur Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

iv. operation and maintenance expenses;

v. operation and maintenance expenses and other costs and expenses incurred by NHAI in accordance with the provisions of the Simga to Bilaspur Concession Agreement, and certified by NHAI as due and payable to it;

vi. monthly proportionate provision of debt service payment due in an accounting year;

vii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the escrow agreement and subject to the provisions of the Simga to Bilaspur Concession Agreement, in the case of termination, the amounts standing to the credit of the escrow account shall be appropriated in the following order:

i. all taxes due and payable by the Concessionaire for and in respect of the Simga to Bilaspur Project Highway;

ii. payment due to the lenders;

iii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire;

iv. retention and payments relating to the liability for defects and deficiencies;

v. incurred or accrued operation and maintenance expenses;

vi. any other payments required to be made under the Simga to Bilaspur Concession Agreement; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Change of Scope

NHAI may, notwithstanding anything to the contrary contained in the Simga to Bilaspur Concession Agreement, require the Concessionaire to make alterations/ modifications in the scope of the Simga to Bilaspur Project as contemplated by the Simga to Bilaspur Concession Agreement. If the cumulative costs relating to all the change of scope orders exceed 5% of the concession fee in any continuous period of 3 years immediately preceding the date of such change of scope order or if such cumulative costs exceed 25% of the concession fee at any time during the Simga to Bilaspur Concession Period, NHAI may award any works or services, to any person on the basis of open competitive bidding and the Concessionaire shall be entitled to take part in such competitive bidding with a right to match the first-ranked bid in terms of the selection criteria, either by itself where such work requires tolling, operation and maintenance, or through another company where such work requires construction on any part of the Project Highway, subject to payment of 2% (two per cent) of the bid amount to the Authority, and thereupon securing the award of such works or services. For the avoidance of doubt, it is agreed that the Concessionaire shall be entitled to exercise such option only if the Concessionaire has participated in the bidding process either individually or as a consortium or JV with another company and fulfils the eligibility criteria to undertake such work without compromising with its overall liability. All such changes shall be made by NHAI by an order issued in accordance with the procedure set forth in the Simga to Bilaspur Concession Agreement.

Termination of the Simga to Bilaspur Concession Agreement

Termination by either party

Either Party may in its discretion terminate the Simga to Bilaspur Concession Agreement by giving a termination notice to the other party if a force majeure event subsists for a period of 120 days or more within a continuous period of 365 days. Before issuing such termination notice, the party intending to issue the termination notice shall inform the other party of such intention and grant 15 days' time to make a representation and may after the expiry of such 15 days period, whether or not it is in receipt of such representation, in its sole discretion issue the termination notice.

Termination by the NHAI

In the event of any of the defaults specified below have occurred, and if the Concessionaire has failed to cure default within the period provided for the same in the Simga to Bilaspur Concession Agreement, then NHAI shall be entitled to issue a notice of its intention to terminate the Simga to Bilaspur Concession Agreement, with a copy to the lenders. The following events shall constitute an event of default by the Concessionaire (a "**Concessionaire Default**") unless they have occurred as a result of any breach of the Simga to Bilaspur Concession Agreement by NHAI or due to force majeure:

i. the performance security has been encashed and appropriated in accordance with the Simga to Bilaspur Concession Agreement and the Concessionaire has failed to replenish or provide fresh performance security within a cure period of 15 days;

ii. subsequent to the replenishment or furnishing of fresh performance security in accordance with the Simga to Bilaspur Concession Agreement, the Concessionaire fails to cure, within a cure period of 60 days, the Concessionaire Default for which whole or part of the performance security was appropriated;

iii. the Concessionaire abandons or manifests intention to abandon the operation and maintenance of the Simga to Bilaspur Project Highway without the prior written consent of NHAI;

iv. the Concessionaire fails to roll over, renew and furnish new bank guarantee performance security subject to and in accordance with terms of the Simga to Bilaspur Concession Agreement, at least three months prior to expiry of subsisting bank guarantee;

v. the Concessionaire is in breach of the Maintenance Requirements or the Safety Requirements, as the case may be;

vi the Concessionaire has failed to make any payment to NHAI within the period specified in the Simga to Bilaspur Concession Agreement;

vii. upon occurrence of a financial default, the lenders' representative has by notice required NHAI to undertake suspension or termination, as the case may be, in accordance with the substitution agreement and the Concessionaire fails to cure the default within the specified cure period;

viii. a breach of any of the project agreements by the Concessionaire causes a material adverse effect;

ix. the Concessionaire creates any encumbrance in breach of the Simga to Bilaspur Concession Agreement;

x. the Concessionaire repudiates the Simga to Bilaspur Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the Simga to Bilaspur Concession Agreement;

xi. a change in ownership occurs in breach of the provisions of the Simga to Bilaspur Concession Agreement;

xii. there is a transfer, pursuant to law either of (i) the rights and/or obligations of the Concessionaire under any of the project agreements, or of (ii) all or part of the assets or undertaking of the Concessionaire, and such transfer causes a material adverse effect;

xiii. an execution levied on any of the assets of the Concessionaire has caused a material adverse effect;

xiv. the Concessionaire is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for the Concessionaire or for the whole or material part of its assets that has a material bearing on the Simga to Bilaspur Project;

xv. the Concessionaire has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of NHAI, a material adverse effect;

xvi. a resolution for winding up of the Concessionaire is passed or any petition for winding up of the Concessionaire is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof or the Concessionaire is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of the Concessionaire are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of the Concessionaire under the Simga to Bilaspur Concession Agreement and the project agreements; and provided that:

    a. the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the Simga to Bilaspur Concession Agreement and the project agreements;

    b. the amalgamated or reconstructed entity has the financial standing to perform its obligations under the Simga to Bilaspur Concession Agreement and the project agreements and has a credit worthiness at least as good as that of the Concessionaire as at Appointed Date; and

    c. each of the project agreements remains in full force and effect;

xvii. any representation or warranty of the Concessionaire herein contained which is, as of the date of Simga to Bilaspur Concession Agreement, found to be materially false, incorrect or misleading;

xviii. the Concessionaire submits to NHAI any statement, notice or other document, in written or electronic form, which has a material effect on NHAI's rights, obligations or interests and which is false in material particulars;

xix. the Concessionaire has failed to fulfil any obligation, for which failure termination has been specified in the Simga to Bilaspur Concession Agreement;

xx. the Concessionaire commits a default in complying with any other provision of the Simga to Bilaspur Concession Agreement if such default causes a material adverse effect on NHAI;

xxi. an escrow default occurs and the Concessionaire fails to cure the default within a cure period of 15 days;

Termination by Concessionaire

If any of the defaults specified below shall have occurred, and NHAI fails to cure such default within a cure period of 90 days or such longer period as has been expressly provided in the Simga to Bilaspur Concession Agreement, NHAI shall be deemed to be in default of the Simga to Bilaspur Concession Agreement, unless the default has occurred as a result of any

breach of the Simga to Bilaspur Concession Agreement by the Concessionaire or due to force majeure:

i. NHAI commits a material default in complying with any of the provisions of the Simga to Bilaspur Concession Agreement and such default has a material adverse effect on the Concessionaire; or

ii. NHAI repudiates the Simga to Bilaspur Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the Simga to Bilaspur Concession Agreement; or

iii. the State commits a material default in complying with the provisions of the State Support Agreement if such default has a Material Adverse Effect on the Concessionaire and the breach continues for a period of 90 (ninety) days from the date of notice given in this behalf by the Concessionaire to the Authority.

Termination Payments

The termination payment pursuant to the Simga to Bilaspur Concession Agreement becomes due and payable to the Concessionaire by NHAI within 15 days of the Concessionaire furnishing to NHAI an NOC issued by the lenders/ lenders' representative recording/ effecting release/ vacation/ discharge of the charge on Simga to Bilaspur Project receivables (if any) created by Concessionaire for securing repayment of the debt. If NHAI fails to disburse the full termination payment within 15 days, NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid.

Upon termination of the Simga to Bilaspur Concession Agreement by the NHAI on account of occurrence of a Concessionaire Default, the NHAI shall pay the Concessionaire by way of termination payment 70% of the Unexpired Cash Flow.

Upon termination of the Simga to Bilaspur Concession Agreement by the Concessionaire on account of occurrence of an NHAI Default, the Concessionaire shall be entitled to receive from NHAI by way of termination payment a sum equal to 105% of the Unexpired Cash Flow.

For details in relation to the technical clarifications received from NHAI in relation to the Concession Agreements, please refer to Annexure 1 of the Raipur to Simga to Bilaspur Agreement.

11. ***Concession Agreement between NSPPL ("Concessionaire") and NHAI in respect of the Gandhidham (Kandla) to Mundra Port Project dated March 12, 2025***

The Concessionaire has entered into a concession agreement for tolling, operation, maintenance and transfer of Gandhidham (Kandla) to Mundra Port Project Highway (as defined below) on toll, operate and transfer (TOT) basis (the "**Gandhidham (Kandla) to Mundra Port Concession Agreement**"), for a period of 20 years from the the Appointed Date (i.e., the date on which all Conditions Precedent have been satisfied) or such date on which the Gandhidham (Kandla) to Mundra Port Concession Agreement is terminated by a termination notice ("**Gandhidham (Kandla) to Mundra Port Concession Period**").

Certain Definitions

"**Gandhidham (Kandla) to Mundra Port Project**" means the operation and maintenance of the Gandhidham (Kandla) to Mundra Port Project Highway in accordance with the provisions of the Gandhidham (Kandla) to Mundra Port Concession Agreement and includes all works, services and equipment relating to or in respect of the scope of the Gandhidham (Kandla) to Mundra Port Project as set forth in the Gandhidham (Kandla) to Mundra Port Concession Agreement;

"**Gandhidham (Kandla) to Mundra Port Project Assets**" means all physical and other assets relating to and forming part of the Site including (a) rights over the Site in the form of licence, Right of Way or otherwise; (b) tangible assets such as civil works and equipment including foundations, embankments, pavements, road surface, interchanges, bridges, culverts, road overbridges, drainage works, traffic signals, sign boards, kilometre- stones, toll plazas, electrical systems, communication systems, rest areas, relief centers, maintenance depots and administrative offices; (d) all rights of the Concessionaire under the project agreements; security deposits; insurance proceeds; and (e) Applicable Permits and authorisations relating to or in respect of the Gandhidham (Kandla) to Mundra Port Project Highway, but does not include Additional Facilities; and

"**Gandhidham (Kandla) to Mundra Port Project Highway**" means the Site comprising the existing road comprising:

Stretch	State	Start (Km)	End (Km)	Length
Gandhidham (Kandla) to Mundra Port section of NH-41	Gujarat	0+000	71+400	71+400

and all Gandhidham (Kandla) to Mundra Port Project Assets."

Grant of Concession

Subject to and in accordance with the terms and conditions set forth in the Gandhidham (Kandla) to Mundra Port Concession Agreement, NHAI has granted to the Concessionaire, and the Concessionaire has accepted the concession for a period of 20 years, including the exclusive right, license and authority during the subsistence of the Gandhidham (Kandla) to Mundra Port Agreement to demand, collect and appropriate Fee, operate, manage and maintain the Gandhidham (Kandla) to Mundra Port Project Highway. Notwithstanding anything to the contrary in the Gandhidham (Kandla) to Mundra Port Concession Agreement, the parties have expressly agreed that the Concession Period shall not be reduced by more than 5 (five) years, or shall not be increased by more than 10 (ten) years on any account or for any reason whatsoever.

Subject to and in accordance with the terms and conditions set forth in the Gandhidham (Kandla) to Mundra Port Concession Agreement, the Concessionaire is entitled to undertake the following in accordance with the terms of the Gandhidham (Kandla) to Mundra Port Concession Agreement, applicable laws and applicable permits:

i. Right of Way, access and license to the Site for the purpose of and to the extent conferred by the provisions of the Gandhidham (Kandla) to Mundra Port Concession Agreement;

ii. manage, operate and maintain the Gandhidham (Kandla) to Mundra Port Project Highway and regulate the use thereof by third parties in accordance with the terms of Gandhidham (Kandla) to Mundra Port Concession Agreement;

iii. demand, collect and appropriate the fees from vehicles and persons liable for payment of fees for using the Gandhidham (Kandla) to Mundra Port Project Highway or any part thereof and refuse entry of any vehicle to the Gandhidham (Kandla) to Mundra Port Project Highway if the fee due is not paid;

iv. perform and fulfill all of the Concessionaire's obligations under and in accordance with the Gandhidham (Kandla) to Mundra Port Concession Agreement;

v. bear and pay all costs, expenses and charges in connection with or incidental to the performance of the obligations of the Concessionaire under the Gandhidham (Kandla) to Mundra Port Concession Agreement; and

vi. neither assign, transfer or sublet or create any lien or encumbrance on the Gandhidham (Kandla) to Mundra Port Concession Agreement, or the concession granted thereby, or on the whole or any part of the Gandhidham (Kandla) to Mundra Port Project Highway nor transfer, lease or part possession thereof, save and except as expressly permitted by the Gandhidham (Kandla) to Mundra Port Concession Agreement.

Fees

The Concessionaire is entitled to, during the Gandhidham (Kandla) to Mundra Port Concession Period, levy, collect and appropriate fees from users ("**User Fee**") of the Gandhidham (Kandla) to Mundra Port Project Highway pursuant to and in accordance with the provisions in the Gandhidham (Kandla) to Mundra Port Concession Agreement and the Fee Rules and to appropriate the same. In accordance with the terms of the Gandhidham (Kandla) to Mundra Port Concession Agreement, the Concessionaire shall not collect any fees in relation to exempted vehicles. The fees collected by Concessionaire shall be deposited in the escrow account and appropriated in accordance with the relevant provisions of the Gandhidham (Kandla) to Mundra Port Concession Agreement.

Sub Rule 6(6) of the above-mentioned Fee Rules states,

"(a) The fee shall be collected by the Central Government or the executing Authority as the case may be and for a specified period in accordance with the terms of agreement entered by the Concessionaire.
(b) The fee as notified as per Gandhidham (Kandla) to Mundra Port Concession Agreement shall be leviable till the end of the concession period and after the Concession Agreement is over, the fee shall be collected by the Central Government executing authority at a reduced rate of 40% of the fee on the date of transfer of such section of National Highways, bridge, tunnel or bypass, as the case may be, to be revised annually in accordance with these rules:

Provided that after the recovery of capital cost through user fee realised, in respect of a public funded project, the fee leviable would be reduced to 40% of the user fee for such section of National Highways, bridge, tunnel or bypass as the case may be, to be revised annually in accordance with these rules." In respect of the above, NHAI has clarified that Rule 6 of the Fee Rules provides that the user fee to be notified by Government as per the format of Schedule M of Concession Agreement shall be leviable till the end of the concession period. Hence, the rate of User Fee rate shall only be reduced after the concession period is over."

Concession Fees

As consideration for the grant of the Concession, the Concessionaire is required to pay a concession fee to NHAI equivalent to ₹ 27,176.00 million, within 120 days of the date of execution of the concession agreement or any extended date as agreed by NHAI prior to the Appointed Date as a Condition Precedent. The Concessionaire agrees that payment of the concession fee constitutes essential condition of the Concession Agreement. Further as communicated by the authority by way of a letter dated 13.02.25, any amount raised from the proceeds of the Issue in excess of the Base Concession Fee (being the aggregate of Concession Fees payable to NHAI in terms of the Additional Concession Agreements) shall be paid to the Authority. For further details, see the section titled "Use of Proceeds – Details of Utilisation of Issue Proceeds - Infusion of debt and/or equity into NSPPL" on page 355. For the purposes of stamp duty payment, concession agreements are generally considered to be agreements which are not lease deeds and stamp duty of ₹ 100.00 is typically paid for such concession agreements. However, stamp duty authorities of certain states in India have issued notices to some concessionaires alleging inadequate stamp duty on the concession agreements executed between the concessionaires and the NHAI. The stamp authorities allege that since concession agreements relate to the letting of tolls to the concessionaires in the form of leases, or as development agreements, such agreements were required to be stamped as lease agreements or development agreements, as applicable. The stamp duty for a lease agreement or a development agreement ranges between 1.0% and 11.0% of the annual rent or premium payable or the market value of the property. Furthermore, stamp duty authorities may impose penalties for payment of inadequate stamp duty, which could extend up to ten (10) times the amount of the stamp duty payable. Accordingly, concession agreements that have not been stamped as such could be considered to be inadequately stamped. The High Courts of Allahabad and Maharashtra have also held that a concession agreement ought to be stamped as a lease agreement and have upheld the imposition of a higher stamp duty on such agreements.

While we have paid stamp duty of ₹ 100.00 on each of our Concession Agreements in accordance with usual practice, if any demand for payment of a higher stamp duty or penalty is imposed, it would increase the costs of the Toll Roads.

In respect of above, NHAI has clarified that:

(i) As on the date of the Gandhidham (Kandla) to Mundra Port Concession Agreement, GST is not applicable on Concession Fee. However, if it becomes applicable at a later stage, this shall be considered as change in law.

(ii) There is no requirement of stamp duty in case of Concession Agreements since Fee Rules provided for levy and collection of user fee and not toll tax. In case, in future any such demand arises, it shall be treated as change in law.

Escrow Account

The provisions in relation to the escrow account in the Gandhidham (Kandla) to Mundra Port Concession Agreement are only applicable if the obligations of the Concessionaire under the Gandhidham (Kandla) to Mundra Port Concession Agreement are financed by the Lenders.

The Concessionaire shall, prior to the Appointed Date, open and establish the escrow account with the escrow bank and all funds constituting the financing package related to the Gandhidham (Kandla) to Mundra Port Project shall be credited to such escrow account. During the Gandhidham (Kandla) to Mundra Port Concession Period all fees and any other revenues including the proceeds of any rentals, deposits, capital receipts or insurance claims from or in respect of the Gandhidham (Kandla) to Mundra Port Project Highway shall be deposited therein. In addition, all payments by NHAI pursuant to the Gandhidham (Kandla) to Mundra Port Concession Agreement, including, if any, in relation to the change of scope in the Gandhidham (Kandla) to Mundra Port Project shall be deposited by NHAI in the escrow account.

Withdrawals from Escrow Account

The Concessionaire shall, at the time of the opening of the escrow account, give irrevocable instructions by way of an escrow agreement substantially in form set forth in the Gandhidham (Kandla) to Mundra Port Concession Agreement to the escrow bank instructing, *inter alia*, that the deposits into the escrow account shall subject to the provisions of the Gandhidham (Kandla) to Mundra Port Concession Agreement, be appropriated in the following order every month and if not due in a month then appropriated proportionately in such month and retained in the escrow account and paid out therefrom in the month when due unless otherwise expressly provided in the instruction letter:

i. all taxes due and payable by the Concessionaire for and in respect of the Gandhidham (Kandla) to Mundra Port Project Highway;

ii. concession fee;

iii. all payments relating to construction of the Gandhidham (Kandla) to Mundra Port Project Highway, subject to and in accordance with the conditions, if any, set forth in the financing agreements;

iv. operation and maintenance expenses;

v. operation and maintenance expenses and other costs and expenses incurred by NHAI in accordance with the provisions of the Gandhidham (Kandla) to Mundra Port Concession Agreement, and certified by NHAI as due and

payable to it;

vi. monthly proportionate provision of debt service payment due in an accounting year;

vii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Withdrawals upon Termination

Notwithstanding anything to the contrary contained in the escrow agreement and subject to the provisions of the Gandhidham (Kandla) to Mundra Port Concession Agreement, in the case of termination, the amounts standing to the credit of the escrow account shall be appropriated in the following order:

i. all taxes due and payable by the Concessionaire for and in respect of the Gandhidham (Kandla) to Mundra Port Project Highway;

ii. payment due to the lenders;

iii. all payments and damages certified by NHAI as due and payable to it by the Concessionaire;

iv. retention and payments relating to the liability for defects and deficiencies;

v. incurred or accrued operation and maintenance expenses;

vi. any other payments required to be made under the Gandhidham (Kandla) to Mundra Port Concession Agreement; and

vii. balance, if any, in accordance with the instructions of the Concessionaire.

Change of Scope

NHAI may, notwithstanding anything to the contrary contained in the Gandhidham (Kandla) to Mundra Port Concession Agreement, require the Concessionaire to make alterations/ modifications in the scope of the Gandhidham (Kandla) to Mundra Port Project as contemplated by the Gandhidham (Kandla) to Mundra Port Concession Agreement. If the cumulative costs relating to all the change of scope orders exceed 5% of the concession fee in any continuous period of 3 years immediately preceding the date of such change of scope order or if such cumulative costs exceed 25% of the concession fee at any time during the Gandhidham (Kandla) to Mundra Port Concession Period, NHAI may award any works or services, to any person on the basis of open competitive bidding and the Concessionaire shall be entitled to take part in such competitive bidding with a right to match the first-ranked bid in terms of the selection criteria, either by itself where such work requires tolling, operation and maintenance, or through another company where such work requires construction on any part of the Project Highway, subject to payment of 2% (two per cent) of the bid amount to the Authority, and thereupon securing the award of such works or services. For the avoidance of doubt, it is agreed that the Concessionaire shall be entitled to exercise such option only if the Concessionaire has participated in the bidding process either individually or as a consortium or JV with another company and fulfils the eligibility criteria to undertake such work without compromising with its overall liability. All such changes shall be made by NHAI by an order issued in accordance with the procedure set forth in the Gandhidham (Kandla) to Mundra Port Concession Agreement.

Termination of the Gandhidham (Kandla) to Mundra Port Concession Agreement

Termination by either party

Either Party may in its discretion terminate the Gandhidham (Kandla) to Mundra Port Concession Agreement by giving a termination notice to the other party if a force majeure event subsists for a period of 120 days or more within a continuous period of 365 days. Before issuing such termination notice, the party intending to issue the termination notice shall inform the other party of such intention and grant 15 days' time to make a representation and may after the expiry of such 15 days period, whether or not it is in receipt of such representation, in its sole discretion issue the termination notice.

Termination by the NHAI

In the event of any of the defaults specified below have occurred, and if the Concessionaire has failed to cure default within the period provided for the same in the Gandhidham (Kandla) to Mundra Port Concession Agreement, then NHAI shall be entitled to issue a notice of its intention to terminate the Gandhidham (Kandla) to Mundra Port Concession Agreement, with a copy to the lenders. The following events shall constitute an event of default by the Concessionaire (a "**Concessionaire Default**") unless they have occurred as a result of any breach of the Gandhidham (Kandla) to Mundra Port Concession Agreement by NHAI or due to force majeure:

i. the performance security has been encashed and appropriated in accordance with the Gandhidham (Kandla) to Mundra Port Concession Agreement and the Concessionaire has failed to replenish or provide fresh performance security within a cure period of 15 days;

ii. subsequent to the replenishment or furnishing of fresh performance security in accordance with the Gandhidham (Kandla) to Mundra Port Concession Agreement, the Concessionaire fails to cure, within a cure period of 60 days, the Concessionaire Default for which whole or part of the performance security was appropriated;

iii. the Concessionaire abandons or manifests intention to abandon the operation and maintenance of the Gandhidham (Kandla) to Mundra Port Project Highway without the prior written consent of NHAI;

iv. the Concessionaire fails to roll over, renew and furnish new bank guarantee performance security subject to and in accordance with terms of the Gandhidham (Kandla) to Mundra Port Concession Agreement, at least three months prior to expiry of subsisting bank guarantee;

v. the Concessionaire is in breach of the Maintenance Requirements or the Safety Requirements, as the case may be;

vi the Concessionaire has failed to make any payment to NHAI within the period specified in the Gandhidham (Kandla) to Mundra Port Concession Agreement;

vii. upon occurrence of a financial default, the lenders' representative has by notice required NHAI to undertake suspension or termination, as the case may be, in accordance with the substitution agreement and the Concessionaire fails to cure the default within the specified cure period;

viii. a breach of any of the project agreements by the Concessionaire causes a material adverse effect;

ix. the Concessionaire creates any encumbrance in breach of the Gandhidham (Kandla) to Mundra Port Concession Agreement;

x. the Concessionaire repudiates the Gandhidham (Kandla) to Mundra Port Concession Agreement or otherwise takes any action or evidences or conveys an intention not to be bound by the Gandhidham (Kandla) to Mundra Port Concession Agreement;

xi. a change in ownership occurs in breach of the provisions of the Gandhidham (Kandla) to Mundra Port Concession Agreement;

xii. there is a transfer, pursuant to law either of (i) the rights and/or obligations of the Concessionaire under any of the project agreements, or of (ii) all or part of the assets or undertaking of the Concessionaire, and such transfer causes a material adverse effect;

xiii. an execution levied on any of the assets of the Concessionaire has caused a material adverse effect;

xiv. the Concessionaire is adjudged bankrupt or insolvent, or if a trustee or receiver is appointed for the Concessionaire or for the whole or material part of its assets that has a material bearing on the Gandhidham (Kandla) to Mundra Port Project;

xv. the Concessionaire has been, or is in the process of being liquidated, dissolved, wound-up, amalgamated or reconstituted in a manner that would cause, in the reasonable opinion of NHAI, a material adverse effect;

xvi. a resolution for winding up of the Concessionaire is passed or any petition for winding up of the Concessionaire is admitted by a court of competent jurisdiction and a provisional liquidator or receiver is appointed and such order has not been set aside within 90 days of the date thereof or the Concessionaire is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of the Concessionaire are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of the Concessionaire under the Gandhidham (Kandla) to Mundra Port Concession Agreement and the project agreements; and provided that:

    a. the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under the Gandhidham (Kandla) to Mundra Port Concession Agreement and the project agreements;

    b. the amalgamated or reconstructed entity has the financial standing to perform its obligations under the Gandhidham (Kandla) to Mundra Port Concession Agreement and the project agreements and has a credit worthiness at least as good as that of the Concessionaire as at Appointed Date; and

c. each of the project agreements remains in full force and effect;

xvii. any representation or warranty of the Concessionaire herein contained which is, as of the date of Gandhidham (Kandla) to Mundra Port Concession Agreement, found to be materially false, incorrect or misleading;

xviii. the Concessionaire submits to NHAI any statement, notice or other document, in written or electronic form, which has a material effect on NHAI's rights, obligations or interests and which is false in material particulars;

xix. the Concessionaire has failed to fulfil any obligation, for which failure termination has been specified in the Gandhidham (Kandla) to Mundra Port Concession Agreement;

xx. the Concessionaire commits a default in complying with any other provision of the Gandhidham (Kandla) to Mundra Port Concession Agreement if such default causes a material adverse effect on NHAI;

xxi. an escrow default occurs and the Concessionaire fails to cure the default within a cure period of 15 days;

Termination by Concessionaire

If any of the defaults specified below shall have occurred, and NHAI fails to cure such default within a cure period of 90 days or such longer period as has been expressly provided in the Gandhidham (Kandla) to Mundra Port Concession Agreement, NHAI shall be deemed to be in default of the Gandhidham (Kandla) to Mundra Port Concession Agreement, unless the default has occurred as a result of any breach of the Gandhidham (Kandla) to Mundra Port Concession Agreement by the Concessionaire or due to force majeure:

iv. NHAI commits a material default in complying with any of the provisions of the Gandhidham (Kandla) to Mundra Port Concession Agreement and such default has a material adverse effect on the Concessionaire; or

v. NHAI repudiates the Gandhidham (Kandla) to Mundra Port Concession Agreement or otherwise takes any action that amounts to or manifests an irrevocable intention not to be bound by the Gandhidham (Kandla) to Mundra Port Concession Agreement; or

vi. the State commits a material default in complying with the provisions of the State Support Agreement if such default has a Material Adverse Effect on the Concessionaire and the breach continues for a period of 90 (ninety) days from the date of notice given in this behalf by the Concessionaire to the Authority.

Termination Payments

The termination payment pursuant to the Gandhidham (Kandla) to Mundra Port Concession Agreement becomes due and payable to the Concessionaire by NHAI within 15 days of the Concessionaire furnishing to NHAI an NOC issued by the lenders/ lenders' representative recording/ effecting release/ vacation/ discharge of the charge on Gandhidham (Kandla) to Mundra Port Project receivables (if any) created by Concessionaire for securing repayment of the debt. If NHAI fails to disburse the full termination payment within 15 days, NHAI shall pay interest at a rate equal to 3% above the bank rate on the amount of termination payment remaining unpaid.

Upon termination of the Gandhidham (Kandla) to Mundra Port Concession Agreement by the NHAI on account of occurrence of a Concessionaire Default, the NHAI shall pay the Concessionaire by way of termination payment 70% of the Unexpired Cash Flow.

Upon termination of the Gandhidham (Kandla) to Mundra Port Concession Agreement by the Concessionaire on account of occurrence of an NHAI Default, the Concessionaire shall be entitled to receive from NHAI by way of termination payment a sum equal to 105% of the Unexpired Cash Flow.

For details in relation to the technical clarifications received from NHAI in relation to the Concession Agreements, please refer to Annexure 1 of the Gandhidham (Kandla) to Mundra Port Agreement.

Unitholding of the Sponsor, Sponsor Group, Investment Manager, Project Manager and Trustee

The Sponsor and the Sponsor Group hold 203,072,000 units (15.48 %) Units as on December 31, 2024, as disclosed above. The Trustee, Project Manager and the Investment Manager do not hold any Units and shall not acquire any Units in this Issue.

Unitholding of the directors of the Investment Manager

As on the date of this Placement Document, none of the directors of the Investment Manager hold any Units or propose to hold any Units.

Sponsor and Sponsor Group

In accordance with Regulation 12(3), read with Regulation 12(3A) of the InvIT Regulations, the Sponsor and Sponsor Group, were required to at all times hold not less than 15% of total outstanding Units for a period of three years from the date of listing pursuant to the initial offering of the Units.

Further, in accordance with the InvIT Regulations, the Sponsor and the Sponsor Group are required to hold certain number of Units, from the beginning of 4th year after the date of listing pursuant to the initial offer as follows:

From the beginning of 4th year after the date of listing pursuant to the initial offer and till the end of 5th year from the date of listing pursuant to the initial offer	5% of total Units or ₹ 500 crores, whichever is lower*
From the beginning of 6th year after the date of listing pursuant to the initial offer and till the end of 10th year from the date of listing pursuant to the initial offer	3% of total Units or ₹ 500 crores, whichever is lower*

From the beginning of 11th year after the date of listing pursuant to the initial offer and till the end of 20th year from the date of listing pursuant to the initial offer	2% of total Units or ₹ 500 crores, whichever is lower*
After completion of the 20th year from the date of listing pursuant to the initial offer	1% of total Units or ₹ 500 crores, whichever is lower*

* *Provided that the maximum value of Units to be held by the Sponsor and Sponsor Group for compliance with the above shall not exceed ₹500 crores or such other value as may be decided by SEBI from time to time wherein such valuation shall be based on the latest available net asset value of the Trust*

USE OF PROCEEDS

The gross proceeds from the Issue will be up to ₹ 50,534.81 million ("**Gross Proceeds**") and the proceeds of this Issue net of Issue related and other expenses to be borne by the Trust ("**Net Proceeds**") are proposed to be ₹ 49,924.81 million.

The Proceeds of the Issue are set forth in the following table:

(In ₹ million)

Particulars	Amount
Gross Proceeds*	Up to 50,534.81
Less*: Estimated Issue related and other expenses to be borne by the Trust	610.00
Net Proceeds	49,924.81

** Assuming full subscription and Allotment of Units. The size of the Issue shall be subject to finalisation of Allotment in the Issue*

Purpose of the Issue

1.1. Subject to compliance with applicable laws and regulations, the Net Proceeds are proposed to be:

(a). utilised (to the extent required) by the Trust for:

(i). creation and maintenance of major maintenance reserve for the Target Toll Assets, if required;

(ii). creation and maintenance of debt service reserve account at Trust level, if required; and

(iii). fees payable to lenders, if any.

(b). Infused as debt or equity, or both into NSPPL by the Trust. NSPPL proposes to utilize the said infusion of Net Proceeds for, amongst others:

(i). part or full payment of Base Concession Fee;

(ii). part or full payment of Additional Concession Fee;

(iii). initial improvement cost of the Target Toll Assets;

(iv). major maintenance cost of the Target Toll Assets, if any;

(v). creation and maintenance of major maintenance reserve for the Target Toll Assets, if any; and

(vi). part payment for creation and maintenance of debt service reserve account, if any.

(c). General corporate purposes.

(Collectively, referred to hereinafter as "**Objects**").

2. Requirements of Funds

2.1. The Net Proceeds are proposed to be used in accordance with the details provided below.

2.1.1. ***Utilisation of the Net Proceeds by the Trust***

The Trust may utilize a portion of Net Proceeds for the purposes set out below:

(In ₹ million)

Sr. No.	Particulars	Amount (up to)
(a).	Creation and maintenance of major maintenance reserve for the Target Toll Assets, if required	Nil
(b).	Infusion of debt or equity or both into NSPPL	49,773.49

Sr. No.	Particulars	Amount (up to)
(c).	Creation and maintenance of debt service reserve account at Trust level, if required	Nil
(d).	Fees payable to lenders, if any	124.00

2.1.2. ***Utilisation of the Net Proceeds by NSPPL infused as debt or equity, or both into NSPPL by the Trust***

(In ₹ million)

Sr. No.	Particulars	Amount (up to)
(a).	Part or full payment of Base Concession Fee	48,799.03
(b).	Part or full payment of Additional Concession Fee	974.45
(c).	Initial improvement cost of the Target Toll Assets	Nil
(d).	Major maintenance cost of the Target Toll Assets, if any	Nil
(e).	Creation and maintenance of major maintenance reserve for the Target Toll Assets, if any	Nil
(f).	Part payment for creation and maintenance of debt service reserve account, if any	Nil
	Total	49,773.49

We believe that the infusion of the funds into NSPPL by the Trust, in order to meet its obligations under the NSPPL Concession Agreements, will enable NSPPL to acquire the necessary rights under the NSPPL Concession Agreements. Accordingly, we believe that the proposed infusion of funds will be beneficial to the Trust and to Unitholders.

2.1.3. ***Utilisation of the Net Proceeds for General Corporate Purposes***

(In ₹ million)

Allocation Sr. No.	Particulars	Amount (up to)
	General Corporate Purpose	27.32

2.2. ***Miscellaneous***

(a). The fund requirements mentioned above, and the proposed deployment are based on the estimates of the Investment Manager and have not been appraised by any bank, financial institution or any other external agency. The fund requirements may vary due to factors beyond the Investment Manager's control, such as market conditions and competitive environment. Consequently, the fund requirements are subject to revisions in the future at the discretion of the Investment Manager. In the event of any shortfall of funds for the activities proposed to be financed out of the Issue Proceeds as stated above, the Investment Manager may re-allocate the Issue Proceeds to the activities where such shortfall has arisen, subject to compliance with applicable law.

3. Further Details Regarding Objects

3.1. ***Summary Details Regarding Concession Fee and Additional Concession Fee***

(a). The Target Toll Roads have been valued at a base value of ₹ 176,405 million by Ernst & Young Merchant Banking Service LLP, the independent valuer appointed by the Investment Manager on behalf of the Trust. The Unitholders have approved the Base Concession Fee for the Target Toll Roads by way of a resolution passed at the meeting held on March 10, 2025. It may be noted that the base valuation for the Target Toll Roads is for the purpose of establishing a price discovery mechanism for the Target Toll Roads and that the final amounts paid as concession fees to the Sponsor under the NSPPL Concession Agreements for the Target Toll Roads may be higher than the base valuation.

(b). The Base Concession Fee and the Additional Concession Fee for the Target Toll Roads shall be paid through a combination of the proceeds of the Issue and debt financing to be obtained by the Trust / NSPPL. The base valuation range for the Target Toll Roads, has been accepted by NHAI, subject to payment of additional amounts to be raised pursuant to the Issue. The actual amount to be invested into NSPPL by way of equity or equity like infusion or debt, if any, may be decided by the IM Board, in their discretion.

(c). ***Additional Concession Fee***

In terms of the R4 Concession Agreements read with the letter dated February 13, 2025, from the Authority, any Net Proceeds that are in excess of the Base Concession Fee shall be paid to the Authority. The Base Concession Fee has been calculated on the Base Price of ₹ 131.94. If the Issue Price is higher than the Base Price, then the entire differential amount is required to be paid to the Authority, as Additional Concession Fee. The Trust shall utilize up to ₹ 974.45 million for infusion of debt and/ or equity into NSPPL or both, to facilitate payment of an Additional Concession Fee to the Authority.

3.2 Fees payable to lenders, if any

The concession fee for the Target Toll Roads shall be paid through a combination of the proceeds of the Issue and debt financing to be obtained by the Trust and/or the NSPPL. The Trust proposes to avail debt financing with certain lenders for availing loans amounting to approximately ₹ 1,05,000 million ("**Trust Loan 4**") and has obtained letters from certain lenders in relation to the same. The Net Proceeds may be utilised by the Trust for payment of fees to the lenders in relation to the proposed financing.

3.3 Creation and maintenance of major maintenance reserve for the Target Toll Assets, if any and for creation and maintenance of debt service reserve account, if any

The Trust, either directly or through NSPPL may utilise a portion of the Net Proceeds for creation and maintenance of major maintenance reserve for the Target Toll Assets, if any and for creation and maintenance of debt service reserve account, if any. Further, NSPPL may also utilise the proceeds for initial improvement cost of the Target Toll Assets and major maintenance cost of the Target Toll Assets, if any.

3.2. *General Corporate Purposes*

3.2.1. In terms of the InvIT Regulations, the Investment Manager shall, at its discretion, deploy the balance Net Proceeds aggregating to ₹ 27.32 million towards general expenses for the operation of the Trust, subject to such utilization not exceeding 10% of the Gross Proceeds, in compliance with the InvIT Regulations. The general corporate purposes for which the Trust proposes to utilize Net Proceeds include meeting exigencies, creation and maintenance of debt service reserve and expenses incurred by the Trust in the ordinary course of business. In addition, the Trust may utilize the Net Proceeds towards other expenditure (in the ordinary course of business) considered expedient and as approved by the Investment Manager or the Trustee, as the case may be, subject to compliance with applicable law.

3.3. **Issue Expenses**

The total expenses of this Issue are estimated to be approximately ₹ 610.00 million. The Issue expenses consist of fee and commissions payable to the Lead Managers, fee payable to legal counsels, fee payable to Escrow Bank and Registrar to the Issue, printing and stationery expenses, and all other incidental and miscellaneous expenses for listing the Units on the Stock Exchanges. In accordance with the InvIT Regulations, the Investment Manager, at its discretion, may deploy any unutilized proceeds from the Issue expenses, if any, towards the objects as stated hereinabove. In case of any shortfall in meeting Issue Expenses, the same shall be met from distributions received by the Trust and/ or other sources available to the Trust. Further, in case of any surplus left over after usage towards these objectives, surplus would be utilized for General Corporate Purposes.

3.4. Miscellaneous

In case of a shortfall in Net Proceeds, the Investment Manager may, in compliance with the InvIT Regulations, have the flexibility to meet such shortfall including, by utilising the Trust's internal accruals or availing facilities from lenders. The Investment Manager will have flexibility in utilizing the proceeds earmarked for general purposes. The Investment Manager, in accordance with the investment objectives of the Trust, policies of its board of directors and the InvIT Regulations, will have flexibility in utilising any surplus amounts.

FINANCIAL INDEBTEDNESS AND DEFERRED PAYMENTS

As of December 31, 2024, except as stated below, the Trust or the Project SPVs does not have any outstanding or sanctioned fund-based facilities.

The details of indebtedness of Trust (on consolidated basis) as at December 31, 2024 and the post- Issue principal amount outstanding, are provided below:

Category of borrowing	Principal Amount outstanding as on December 31, 2024 (in Rs million)	Post- Issue Principal Amount outstanding (in Rs million)
Trust		
Particulars		
Non-convertible debentures*	14,868.02	24,867.95
Indian rupee loan from banks**	106,256.31	96,695.38
Total Borrowings	121,124.33	1,21,563.33

**While the non-convertible debentures was issued for Rs. 15,000.00 million, the amount has been adjusted as per Ind AS. Further, on January 30, 2025, the Trust has raised ₹ 9,999.93 million through zero coupon bond and utilised the same for partial repayment of Trust loan 1.*

***The concession fee for the Target Toll Roads shall be paid through a combination of the proceeds of the Issue and debt financing to be obtained by the Trust and/or the NSPPL. The Trust proposes to avail debt financing with certain lenders for availing loans amounting to approximately of upto ₹ 1,05,000 million ("**Trust Loan 4**") and has obtained letters from certain lenders in relation to the same. The terms and conditions of such debt financing remain subject to the finalisation of definitive documents.*

Additionally, the concession fee for the Target Toll Roads shall be paid through a combination of the proceeds of the Issue and debt financing to be obtained by the Trust and/or the NSPPL. The Trust proposes to avail debt financing with certain lenders for availing loans amounting to approximately ₹ 1,05,000 million ("**Trust Loan 4**") and has obtained letters from certain lenders in relation to the same. The terms and conditions of such debt financing remain subject to the finalisation of definitive documents.

Status of lender consents

The Trust has availed debt from certain third-party lenders and consents from the respective lenders are required in connection with the Issue. As on the date of this Placement Document, the Project SPVs have obtained the required consents from such lenders for the purposes of this Issue. For further details, please see the section titled *"Risk Factors"* on page 43.

Borrowings of the Trust

The Trust has entered into a loan agreement dated September 29, 2021, with certain lenders for availing loans amounting to approximately ₹ 20,000.00 million ("**Trust Loan 1**"). The principal terms of the Trust Loans availed by the Trust are as follows:

Parameter	Description
Borrower	National Highways Infra Trust (Trust)
Sponsor	National Highways Authority of India
Project Manager	National Highways Invit Project Managers Private Limited
Investment Manager	National Highways Infra Investment Managers Private Limited
Project SPV	NWPPL
Lenders	State Bank of India, Axis Bank Limited and Bank of Maharashtra

(g) the undertaking from Investment Manager; (h) the undertaking from the Project SPV; (i) the negative lien undertaking from the Project SPV; (j) any assignment/novation deed; (k) the WC Product Schedule; and

Parameter	Description
	(l) any other document Facility Agreement and/or mutually designated as such by the Facility Agent and the Trust.
Transaction Documents	collectively, the Project Documents, the Trust Documents and the Finance Documents
Voluntary Prepayment	a) The Trust shall be entitled to prepay the outstandings with respect to the Facilities, in full or in part, at any time during the term of the Facilities, subject to prior written notice of at least 30 (Thirty) days being provided to the Lenders. Prepayment premium at the rate of 0.5% (zero point five percent) shall be payable on such voluntary prepayment. b) If the increase in the spread in accordance with the terms of the Facility Agreement is not acceptable to the Trust, the Trust shall be entitled to prepay the outstanding Facilities without any prepayment premium provided the Trust has issued an irrevocable notice (within 30 (thirty days from the date on which the Spread was increased) to prepay the loan within 180 (One Hundred and Eighty) days commencing from the date on which the spread was increased. c) No prepayment premium will be payable if prepayment is made out of the cash accruals of the Project SPV, provided the Trust has issued an irrevocable notice (of at least 15 (fifteen) days prior to the date of such prepayment) to prepay the loans. d) The Trust may prepay the outstandings in full or in part, without being required to pay any prepayment premium, if the same is being made at the instance of the Lenders. e) The Trust may prepay the outstandings in full or in part, without being required to pay any prepayment premium, if the same is being made from any internal accruals of the Trust or from the funds of the Unit Holders, provided the Trust has issued an irrevocable notice (of at least 30 (thirty) days from the date of such prepayment) to prepay the loans. f) If any Lender does not consent to the sharing of the Security with the lenders of any Permitted Indebtedness (except for the Facilities) that may be availed by the Borrower in compliance with the terms of this Agreement and the Permitted Indebtedness Conditions, then the Borrower may prepay the Loans of such Lender in full, without being required to pay any Prepayment Premium provided the Borrower has issued an irrevocable notice (of at least 30 (thirty) days prior to the date of such prepayment) to prepay such Loans. Any amounts prepaid in the manner above (other than pursuant to (b) and (c) above shall be paid to all the Lenders on a pro rata basis, except that if any particular Lender entitled to a prepayment specifically notifies the Trust waiving such right of prepayment ("**Waiving Lender**"), then the Trust shall not be required to make any prepayment to such Lender and the Trust will be required to prepay only such amounts to the other Lenders, which would have been payable to them had the Waiving Lender not waived its right of prepayment otherwise provided under the terms of this Agreement. Any amounts pursuant to above shall be paid to the relevant Lenders shall be applied in inverse order of maturity.
Mandatory Prepayment	The Trust shall be required to mandatorily prepay the outstanding Facilities (in full or part, as the context may require), without being required to pay any prepayment premium , immediately upon receipt of the following amounts received by and on behalf of the Project SPV, and/or the Trust, and in any case no later than within 15 (fifteen) days from the occurrence of the events set out below, including in accordance with the Trust escrow agreement: (a) any insurance proceeds received by the Project SPV pursuant to the insurance contracts, and if such insurance proceeds are of an amount which is in excess of INR 1,00,00,000 (Indian Rupees One Crore only) (and as certified by an independent practicing chartered accountant) and which are not utilized towards the repair, renovation, restoration or reinstatement of the affected Project assets; (b) any proceeds from the disposal of any assets of the Project SPV (such disposal being subject to the terms of the Finance Documents or upon the Trust obtaining the prior written consent from the Lenders), if such proceeds, whether in aggregate in the Financial Year or individually, are in an amount which is in excess of INR 1,00,00,000 (Indian Rupees One Crore only) and which are not utilized for replacement of such assets of the Project SPV pursuant to which they were received; (c) amounts in the nature of liquidated damages or penalties received by the Project SPV under any Project Documents after adjusting for the additional interest payable to the Lenders, liquidated damages required to be paid under any Project Documents to the extent that such amounts are not applied for meeting any performance rectification arising on account of non-performance by various contractors under the Project Documents;

Parameter	Description
	(d) the proceeds resulting from an arbitral award or judicial order in connection with any of the Project Documents and the Trust Documents; (e) any proceeds in connection with a breach of warranty or guarantee under any Project Document to the extent not applied to repair or defect that is the subject of such warranty; (f) any proceeds resulting from the expiration, termination or revocation of any authorisation under the Project Documents or from any termination payments received from the Sponsor under the Project Documents; (g) any proceeds from nationalisation, compulsory acquisition, expropriation, seizure or other similar events with respect to any part of the Projects or the Project assets, unless the Lenders approve that such proceeds shall be utilised towards the reinstatement of such part of the Projects. Any amounts prepaid in the manner above (other than pursuant to (i) above shall be paid to all the Lenders on a pro rata basis, except that if any particular Lender entitled to a prepayment specifically notifies the Trust waiving such right of prepayment ("**Waiving Lender**"),then the Trust shall not be required to make any prepayment to such Lender and the Trust will be required to prepay only such amounts to the other Lenders, which would have been payable to them had the Waiving Lender not waived its right of prepayment otherwise provided under the terms of this Agreement. Any amounts pursuant to above shall be applied in the inverse order of maturity
Restricted Payment	The following have been identified as restricted payments in the Facility Agreement: (a) the authorisation, declaration or payment of any distributions including dividends, interest, pass through income to a Unit Holder or any other form of cash flows on share capital, shareholder units, inter-corporate deposits, quasi equity availed from the Sponsor, Unit Holders, associate companies and/or any strategic investors; and (b) capital reduction, all of which may, in any event, be made on a quarterly basis on an RPC Compliance Date, in accordance with and subject to the provisions of the Facility Agreement and the Trust escrow agreement, as the case may be. Provided however that any payment in relation to the Project SPV Facilities, or payment of any fees payable to the Investment Manager and/or the Security Trustee shall be permitted and not fall within the definition of Restricted Payments. The above-mentioned restricted payments shall be permitted on a quarterly basis subject to compliance with certain restricted payment conditions which include the following: (a) the Trust has paid the interest and/or repayment instalments and/or other charges due and payable under the Finance Documents; (b) the Trust has demonstrated the availability of liquidity equivalent for major maintenance funding requirements for all Projects being operated by the Project SPV, either in the form of earmarked cash or availability on credit facilities for the said amounts as mandated in cash flow waterfall mechanism set out in the Project SPV escrow agreement; (c) all reserves, including the DSRA Amount and the major maintenance reserve (in accordance with the Base Case Business Plan) as required on the immediately succeeding due date, are maintained and replenished in accordance with the Finance Documents and the Trust escrow agreement, to the satisfaction of the Lenders; (d) no Event of Default has occurred and is continuing or will be caused due to the making of the relevant Restricted Payment. (e) no Material Adverse Effect in respect of the Project SPV has occurred or continuing or will be cause due to making of the relevant Restricted Payment; (f) no breach of Financial Covenants has occurred or is continuing or will be caused due to making of the relevant Restricted Payment; (g) the relevant Restricted Payment is permitted by Law; and (h) the cash sweep pursuant to the occurrence of any Cash Sweep Trigger Event has been completed in accordance with the Finance Documents prior to the payment of the relevant Restricted Payment.

Parameter	Description
	Any payment in relation to the Project SPV Facilities, or payment of any fees payable to the Investment Manager and/or the Security Trustee shall be permitted and not fall within the definition of Restricted Payments
Events of Default	The occurrence of, inter alia, any one of the following events shall constitute an event of default: (a) Any default by the Trust in the payment of the principal amounts on any due date, subject to a cure period of 3 days in case such default is due to a technical issue (b) Breach or default by the Obligors in the performance or observance of material terms and covenants of the Finance Documents, subject to a cure period of 30 days. (c) Occurrence of any material event or circumstance that is prejudicial to or materially imperils or materially depreciates or jeopardizes the Security created or to be created in favour of the Lenders, subject to a cure period of 30 days. (d) Any breach or default in the performance and/or observation of a financial covenant for 2 consecutive years. (e) Upon downgrade of rating below AA-, by any credit rating agency, where such downgrade if capable of being cured is not cured within a period of 180 (one hundred and eighty) days. (f) The Trust fails to obtain the final initial credit rating in relation to the Facilities and the proposed exposure within 6 months from the first drawdown date. (g) Any material misrepresentation, warranty or statement made by any Obligor in connection with any Finance Document to which it is party or in any other document delivered by or on behalf or if under or in connection with any Finance Document, is or proves to have been substantially incorrect, untrue or misleading when made or deemed to be made, subject to a cure period of 30 days. (h) Any execution or distress being enforced or levied against whole or substantial part of the Trust's assets and any order obtained in relation thereto is not discharged, vacated or stayed within 30 days from the date of such enforcement or levy. (i) Abandonment of material activities being carried out by the Project SPV or abandonment of the Projects which materially impacts the obligation of the Trust under the Finance Documents. (j) Change in material activities being carried out by the Project SPV or a seizure of, or a change in, the Projects which materially impact the obligation of the Trust under the Finance Documents. (k) Occurrence of any event or circumstance which has or is likely to have a Material Adverse Effect, subject to a cure period of 30 days.
Consequences of Event of Default	On and at any time after the occurrence of an Event of Default, the Lenders will be entitled to one or all of, including but not limited to, the following rights: (a) declare all or any part of the outstandings to be immediately due and payable; (b) cancel the commitments (in part or in full) and accelerate all or a part of the payment obligations of the Trust under the Facility Agreement; (c) exercise their right to reset the spread, in addition to the right available to reset the spread on the relevant reset date under the terms of the Facility Agreement; (d) sue for creditor's process and/or exercise all or any rights (including the right to substitute/terminate assigned in their favour or the rights available to secured creditors or their agents and trustees under the Securitisation Act) in accordance with the Finance Documents, including any enforcement of any Security towards repayment of the outstanding; (e) exercise any or all of its rights, remedies, powers or discretions under the Finance Documents, the inter-creditor agreement, Law or equity (including pursuant to any guidelines which may be stipulated by the RBI from time to time); (f) subject to laws (including the InvIT Regulations), convert the outstanding outstandings into Units of the Trust. The Trust shall facilitate the Lenders (including by way of obtaining the requisite consent of the unit holders); (g) appoint 1 (one) Nominee Director on the board of directors of the Project SPV (subject to Laws and the terms of the Concession Agreements) or appoint a nominee on the board of

Parameter	Description
	directors of the Trust (subject to Laws) to protect the interests of the Lenders, till the event of default is cured, on the terms and conditions as more particularly set out under the Facility Agreement. (h) instruct the Trust to enforce the security interest created over the Project SPV secured assets in case of any default in the Project SPV Facilities.
Conditions Subsequent	The Trust shall fulfil certain conditions including but not limited to the following: a) Execution of the share pledge agreement and the power of attorney in relation thereto within 90 (ninety) days from the first drawdown date. b) Execution of the corporate guarantee and the substitution agreements, within 90 (ninety) days from the first drawdown date. c) Execution of the escrow agreement by NHAI within 90 (ninety) days from the first drawdown date. d) To obtain the final initial credit rating within 30 (ninety) days from the first drawdown date. e) Provide a certified true copy of the no-objection certificate/permission of the assessing officer granted to the Trust under Section 281(1) of the Income Tax Act, 1961, immediately upon receipt thereof. f) Evidence of the major maintenance reserve having been created as per the Base Case Business Plan and the Finance Documents.
End Use Certificate	The Trust shall furnish an end use certificate from the statutory auditor to the Facility Agent confirming that the proceeds have been utilised solely in accordance with the Purpose, no later than 30 (thirty) days from the respective drawdown.
Unconditional Cancellability Clause	The Lenders will have the absolute and the unconditional right to cancel the undrawn, unavailed and the unused commitments under the Facilities, in whole or in part, at any time during the Availability Period, without giving any prior notice to the Trust, for any reason whatsoever, including but not limited to, on the occurrence of: (a) in case of deterioration in the creditworthiness of the loan accounts of the Trust in any manner whatsoever; (b) in case the Facilities are not utilized by the Trust (in part or in full) within the Availability Period; and (c) in case of any non-compliance of any terms and conditions of the Finance Documents.
Governing Law and Jurisdiction	The Finance Documents shall be governed by the laws of India. Courts of Delhi shall have exclusive jurisdiction.

Note: On February 26, 2025 IDBI Bank Limited has taken over the loan of Bank of Maharashtra through assignment and Novation agreement.

Transaction Documents	Collectively, means the Finance Documents, the Trust Documents and the Project Documents.
Events of Default	The occurrence of, inter alia, any one of the following events shall constitute an event of default: (a) **Non-Payment** - Any default by the Trust in the payment of the principal amount of any Loan, Interest or the Additional Interest on any due date. Provided if the payment defaults mentioned above, by the Borrower are due to technical issues and the Borrower is able to cure the said payment defaults within a period 3 (three) days from the date of such payment default then it shall not amount to an Event of Default. (b) **No Breach of Finance Documents** - The Obligors are in breach or default in the performance or observance of material terms and covenants of the Finance Documents (other than those expressly specified as an event of default under this Clause 10 (Events of Default) or elsewhere in the Finance Documents), to which they are a party, and where such breach or default if capable of being remedied has not been remedied within a period of 30 (thirty) days from the occurrence of such default and/or breach. (c) **Security** - The occurrence of any material event or circumstance that is prejudicial to or materially imperils or materially depreciates or jeopardizes the Security created or to be created in favour of the Lenders and if such event if capable of being remedied is not remedied within 30 (thirty) days from lite occurrence of such event.

Parameter	Description
	(d) **Financial Covenants** - Any breach or default in the performance and/or observation of a Financial Covenant as specified in Clause 9.2 (Financial Covenants) for 2 (two) consecutive Financial Years. (e) **Credit Rating** – - Any downgrade in the Borrower's credit rating to below AA- by any Credit Rating Agency, where such downgrade if capable of being cured is not cured within a period of 240 (two hundred and forty) days. - The Borrower fails to obtain the Final Initial Credit Rating in relation to the Facilities and the proposed exposure within 6 (six) months from the first Drawdown Date. (f) **Misrepresentation** - Any material representation, warranty or statement made by any Obligor in connection with any Finance Document to which it is a party, or in any other document delivered by or on behalf of it under or in connection with any Finance Document, is or proves to have been substantially incorrect, untrue or misleading when made or deemed to be made, and where any non -deliberate misrepresentation or statement if capable of being remedied has not been remedied within 30 (thirty) days of such misrepresentation/statement being made. (g) **Judgment, creditor's process** - Any execution or distress being enforced or levied against whole or substantial part of the Borrower's assets and any order obtained in relation thereto is not discharged, vacated or stayed within 30 (thirty) days from the date of such enforcement or levy. (h) **Cessation of Business** – - Abandonment of any material activities being carried out by the Project SPV, or an Abandonment of the Projects which materially impact the obligation of the Borrower under the Finance Documents. - Change in the material activities being carried out by the Project SPV or a seizure of, or a change in, the Projects which materially impact the obligation of the Borrower under the Finance Documents. (i) **Material adverse Effect** - Notwithstanding any other event in Clause 10.1 (Event of Default), the Lenders determine the occurrence of any event or circumstance which has or is likely to have a Material Adverse Effect and if such Material Adverse Effect if capable of being remedied is not remedied within a period of 30 (thirty) days from the date of such determination. (j) **Cross Default** – - Any default by the Borrower, under any finance document (except for the Finance Documents) entered into by the Borrower in relation any Financial Indebtedness availed by the Borrower from Lender, and where such event if capable of being remedied is not remedied within a period of 30 (thirty) days from the date of occurrence of such event. - The occurrence of an event of default or otherwise described as an event of default of any associate, Subsidiary, and/or sister concern, of the Borrower (including a default in the payment cither of principal, or interest or any other money due or payable on any of its Financial Indebtedness (whether by scheduled maturity, required prepayment, acceleration, demand or otherwise}) under any loan agreement entered into by the associate. Subsidiary, and/or sister concern, of the Borrower with any of the Lenders in relation to any of their Financial Indebtedness, and where such event if capable of being remedied is not remedied within a period of 30 (thirty') days from the date of occurrence of such event. - The occurrence of an event of default or otherwise described as an event of default of any associate, Subsidiary, and/or sister concern, of the Borrower (including a default in die payment cither of principal, or interest or any other money due or payable on any of its Financial Indebtedness (whether by scheduled maturity, required prepayment, acceleration, demand or otherwise)) under any loan agreement entered into by the associate, Subsidiary, and/or sister concern, of the Borrower with any of the bank and/or financial institution (other than the Lenders) in relation to any of their Financial Indebtedness, and where such event if capable of being remedied is not remedied within a period of 30 (thirty) days from the date of occurrence of such event.
Consequences of Event of Default	On and at any time alter the occurrence of an Event of Default which has not been waived by the Secured Parties or is not cured within the cure period provided herein, the Lenders may severally exercise one or all of the following rights:

Parameter	Description
	(a) declare all or any part of the Secured Obligations to be immediately due and payable; (b) cancel the commitments (in part or in full) and accelerate all or a part of the payment obligations of the Trust under the Facility Agreement; (c) exercise their right to reset the spread, in addition to the right available to reset the spread on the relevant reset date under the terms of the Facility Agreement; (d) sue for creditor's process and/or exercise all or any rights (including the right to substitute/terminate assigned in their favour or the rights available to secured creditors or their agents and trustees under the Securitization Act) in accordance with the Finance Documents, including any enforcement of any Security towards repayment of the Secured Obligations; e) exercise any or all of its rights, remedies, powers or discretions under the Finance Documents, the inter-creditor agreement, Law or equity (including pursuant to any guidelines which may be stipulated by the RBI from time to time); (f) subject to laws (including the InvIT Regulations), convert the outstanding outstandings into Units of the Trust. The Trust shall facilitate the Lenders (including by way of obtaining the requisite consent of the unit holders) in the conversion of the outstanding secured obligation into its units; (g) after the provisioning for Taxes and other governmental levies, the Lenders shall have the first ranking pari passu right to appropriate the profits of the Borrower towards the repayment of the Secured Obligations; (h) take all such actions as may be provided in the Restructuring Circulars. The Borrower shall, if required and subject to mutual discussions between the Borrower and the Lenders, execute necessary agreement with the Lenders for giving effect to the terms and conditions subject to which the debt restructuring may be considered by the Lenders. A restructuring undertaken by the Lenders may include inter alia alteration of the terms of the Facilities, including modification in relation to the repayment period/repayable amount/the amount of instalments/rate of interest/rollover of credit facilities/sanction of additional credit facilities/enhancement of existing credit limits and compromise settlements where lime for payment of settlement amount exceed 3 (three) months; (i) instruct the Borrower to appoint 1 (one) Nominee Director on the board of directors of the Project SPV (subject to Laws and the terms of the Concession Agreements) or appoint a nominee on the board of directors of the Borrower (if any and subject to Laws) to protect the interests of the Lenders, till the Event of Default is cured; and; (j) instruct the Borrower to enforce the Security Interest created over the Project SPV Secured Assets; (k) instruct the Borrower to demand payment/repayment from the Project SPV of all outstanding amounts which are accrued or due by the Project SPV under the InvIT to SPV Loan Documents. Upon a failure by the Project SPV to make such payment/repayment under an InvIT to SPV Loan Agreement within 15 (fifteen) days from the occurrence of an Event of Default, the Lenders shall have the right to instruct the Borrower to immediately accelerate such InvIT to SPV Loan in respect of which the Project SPV has failed to make such payment/repayment (i.e. to declare that all outstanding amounts under the InvIT to SPV loan are immediately due and payable) and the Borrower shall immediately comply with such instructions. If the Project SPV fails to immediately make payments of all amounts demanded by the Borrower pursuant to such acceleration, then it shall result in an event of default (howsoever described) under the relevant InvIT to SPV Loan Document and the Borrower (acting on the instructions of the Lenders) shall immediately declare a financial Default (as defined under the Concession Agreement) in respect of the InvIT to SPV Loans and the Borrower (acting on the instructions of the Lenders) shall initiate necessary actions Lu terminate the relevant Concession Agreement(s), and immediately take all other relevant actions (and exercise all rights that it has as a lender under the InvIT to SPV loan Documents including the rights of substitution as per the terms of the Substitution Agreement) as instructed by the Lender in that regard thereafter;
End Use Certificate	(a) The Borrower unconditionally agrees, undertakes and acknowledges that the Borrower shall utilise the Facilities exclusively for the purpose mentioned in Clause 2.2 (Purpose) of this Agreement. Any deviation in the utilisation of the Facilities by the Borrower, in accordance with the relevant purpose for which a said Facility is lent, will be dealt with in accordance with the Master Circular- Loans and Advances Statutory and Other Restrictions issued by die RBI dated 1 July 2015, as may be amended, replaced or supplemented from time to time and the provisions of the Finance Documents. (b) The Borrower shall furnish an end use certificate from the statutory auditor, 10 the Lenders confirming that the proceeds of each Loan have been utilised solely in accordance with Clause

Parameter	Description
	2,2 (Purpose) of this Agreement, no later than 180 (one hundred eighty) days from the respective Drawdown.
Increased Costs	The Borrower will pay the Lenders, within 15 (fifteen) days of a demand made by the Lenders, unless required to be paid immediately by the Laws, any increased costs arising due to the implementation or imposition of any new reserve requirements or other measures by Government Agencies, including any change in capital adequacy norms, save and except for any change which is not otherwise factored in the revised Applicable Interest Rate, revised pursuant to agreement.
Governing Law and Jurisdiction	The Finance Documents shall be governed by the laws of India. Courts of Delhi shall have exclusive jurisdiction.

(n) **Financial Covenants** - Any breach or default in the performance and/or observation of a Financial Covenant as specified in Clause 9.2 (Financial Covenants) for 2 (two) consecutive Financial Years.

Parameter	Description
	(o) **Credit Rating** – - Any downgrade in the Borrower's credit rating to below AA- by any Credit Rating Agency, where such downgrade if capable of being cured is not cured within a period of 240 (two hundred and forty) days. - The Borrower fails to obtain the Final Initial Credit Rating in relation to the Facilities and the proposed exposure within 6 (six) months from the first Drawdown Date. (p) **Misrepresentation** - Any material representation, warranty or statement made by any Obligor in connection with any Finance Document to which it is a party, or in any other document delivered by or on behalf of it under or in connection with any Finance Document, is or proves to have been substantially incorrect, untrue or misleading when made or deemed to be made, and where any non -deliberate misrepresentation or statement if capable of being remedied has not been remedied within 30 (thirty) days of such misrepresentation/statement being made. (q) **Judgment, creditor's process** - Any execution or distress being enforced or levied against whole or substantial part of the Borrower's assets and any order obtained in relation thereto is not discharged, vacated or stayed within 30 (thirty) days from the date of such enforcement or levy. (r) **Cessation of Business** – - Abandonment of any material activities being carried out by the Project SPV, or an Abandonment of the Projects which materially impact the obligation of the Borrower under the Finance Documents. - Change in the material activities being carried out by the Project SPV or a seizure of, or a change in, the Projects which materially impact the obligation of the Borrower under the Finance Documents. (s) **Material adverse Effect** - Notwithstanding any other event in Clause 10.1 (Event of Default), the Lenders determine the occurrence of any event or circumstance which has or is likely to have a Material Adverse Effect and if such Material Adverse Effect if capable of being remedied is not remedied within a period of 30 (thirty) days from the date of such determination. (t) **Cross Default** – - Any default by the Borrower, under any finance document (except for the Finance Documents) entered into by the Borrower in relation any Financial Indebtedness availed by the Borrower from Lender, and where such event if capable of being remedied is not remedied within a period of 30 (thirty) days from the date of occurrence of such event. - The occurrence of an event of default or otherwise described as an event of default of any associate, Subsidiary, and/or sister concern, of the Borrower (including a default in the payment cither of principal, or interest or any other money due or payable on any of its Financial Indebtedness (whether by scheduled maturity, required prepayment, acceleration, demand or otherwise}) under any loan agreement entered into by the associate. Subsidiary, and/or sister concern, of the Borrower with any of the Lenders in relation to any of their Financial Indebtedness, and where such event if capable of being remedied is not remedied within a period of 30 (thirty') days from the date of occurrence of such event. The occurrence of an event of default or otherwise described as an event of default of any associate, Subsidiary, and/or sister concern, of the Borrower (including a default in die payment cither of principal, or interest or any other money due or payable on any of its Financial Indebtedness (whether by scheduled maturity, required prepayment, acceleration, demand or otherwise)) under any loan agreement entered into by the associate, Subsidiary, and/or sister concern, of the Borrower with any of the bank and/or financial institution (other than the Lenders) in relation to any of their Financial Indebtedness, and where such event if capable of being remedied is not remedied within a period of 30 (thirty) days from the date of occurrence of such event.
Consequences of Event of Default	On and at any time alter the occurrence of an Event of Default which has not been waived by the Secured Parties or is not cured within the cure period provided herein, the Lenders may severally exercise one or all of the following rights: (a) declare all or any part of the Secured Obligations to be immediately due and payable; (b) cancel the commitments (in part or in full) and accelerate all or a part of the payment obligations of the Trust under the Facility Agreement;

Parameter	Description
	(c) exercise their right to reset the spread, in addition to the right available to reset the spread on the relevant reset date under the terms of the Facility Agreement; (d) sue for creditor's process and/or exercise all or any rights (including the right to substitute/terminate assigned in their favour or the rights available to secured creditors or their agents and trustees under the Securitization Act) in accordance with the Finance Documents, including any enforcement of any Security towards repayment of the Secured Obligations; e) exercise any or all of its rights, remedies, powers or discretions under the Finance Documents, the inter-creditor agreement, Law or equity (including pursuant to any guidelines which may be stipulated by the RBI from time to time); (f) subject to laws (including the InvIT Regulations), convert the outstanding outstandings into Units of the Trust. The Trust shall facilitate the Lenders (including by way of obtaining the requisite consent of the unit holders) in the conversion of the outstanding secured obligation into its units; (g) after the provisioning for Taxes and other governmental levies, the Lenders shall have the first ranking pari passu right to appropriate the profits of the Borrower towards the repayment of the Secured Obligations; (h) take all such actions as may be provided in the Restructuring Circulars. The Borrower shall, if required and subject to mutual discussions between the Borrower and the Lenders, execute necessary agreement with the Lenders for giving effect to the terms and conditions subject to which the debt restructuring may be considered by the Lenders. A restructuring undertaken by the Lenders may include inter alia alteration of the terms of the Facilities, including modification in relation to the repayment period/repayable amount/the amount of instalments/rate of interest/rollover of credit facilities/sanction of additional credit facilities/enhancement of existing credit limits and compromise settlements where lime for payment of settlement amount exceed 3 (three) months; (i) instruct the Borrower to appoint 1 (one) Nominee Director on the board of directors of the Project SPV (subject to Laws and the terms of the Concession Agreements) or appoint a nominee on the board of directors of the Borrower (if any and subject to Laws) to protect the interests of the Lenders, till the Event of Default is cured; and; (j) instruct the Borrower to enforce the Security Interest created over the Project SPV Secured Assets; (k) instruct the Borrower to demand payment/repayment from the Project SPV of all outstanding amounts which are accrued or due by the Project SPV under the InvIT to SPV Loan Documents. Upon a failure by the Project SPV to make such payment/repayment under an InvIT to SPV Loan Agreement within 15 (fifteen) days from the occurrence of an Event of Default, the Lenders shall have the right to instruct the Borrower to immediately accelerate such InvIT to SPV Loan in respect of which the Project SPV has failed to make such payment/repayment (i.e. to declare that all outstanding amounts under the InvIT to SPV loan are immediately due and payable) and the Borrower shall immediately comply with such instructions. If the Project SPV fails to immediately make payments of all amounts demanded by the Borrower pursuant to such acceleration, then it shall result in an event of default (howsoever described) under the relevant InvIT to SPV Loan Document and the Borrower (acting on the instructions of the Lenders) shall immediately declare a financial Default (as defined under the Concession Agreement) in respect of the InvIT to SPV Loans and the Borrower (acting on the instructions of the Lenders) shall initiate necessary actions Lu terminate the relevant Concession Agreement(s), and immediately take all other relevant actions (and exercise all rights that it has as a lender under the InvIT to SPV loan Documents including the rights of substitution as per the terms of the Substitution Agreement) as instructed by the Lender in that regard thereafter;
End Use Certificate	(c) The Borrower unconditionally agrees, undertakes and acknowledges that the Borrower shall utilise the Facilities exclusively for the purpose mentioned in Clause 2.2 (Purpose) of this Agreement. Any deviation in the utilisation of the Facilities by the Borrower, in accordance with the relevant purpose for which a said Facility is lent, will be dealt with in accordance with the Master Circular- Loans and Advances Statutory and Other Restrictions issued by die RBI dated 1 July 2015, as may be amended, replaced or supplemented from time to time and the provisions of the Finance Documents. The Borrower shall furnish an end use certificate from the statutory auditor, the Lenders confirming that the proceeds of each Loan have been utilised solely in accordance with Clause 2,2 (Purpose) of this Agreement, no later than 180 (one hundred eighty) days from the respective Drawdown.
Increased Costs	The Borrower will pay the Lenders, within 15 (fifteen) days of a demand made by the Lenders, unless required to be paid immediately by the Laws, any increased costs arising due to the implementation or imposition of any new reserve requirements or other measures by Government

Parameter	Description
	Agencies, including any change in capital adequacy norms, save and except for any change which is not otherwise factored in the revised Applicable Interest Rate, revised pursuant to agreement.
Governing Law and Jurisdiction	The Finance Documents shall be governed by the laws of India. Courts of Delhi shall have exclusive jurisdiction.

Additionally, the Trust has issued secured, rated, listed, redeemable non-convertible debentures aggregating to an amount of upto Rs. 9,999.90 million ("**NCDs**"). The Debenture Trust Deed was signed on January 30, 2025. The funds raised through this NCD was utilized to reduce the first round of debt raised from State Bank of India, Axis Bank Limited and Bank of Maharashtra i.e. **"Trust Loan 1".**

The principal terms of the NCDs issued by the Trust are as follows:

Parameter	Description
Security Name	0% NHIT STRPP A 2034 0% NHIT STRPP B 2035
Issuer	National Highways Infra Trust
Debenture Trustee	SBICAP Trustee Company Limited
Registrar to the Issue	KFin Technologies Limited.
Type and nature of instrument	Secured, Rated, Listed, Redeemable, Non-cumulative, Taxable, Non-Convertible debentures
Mode of Issue	Private Issue
Issue	Private Placement of Secured, rated, listed, redeemable non-convertible debentures of face value of ₹ 200,000/- each, (comprising of 2 (two) separately transferable and redeemable principal parts ("STRPP") namely 1 STRPP A 2034 of face value of ₹ 100,000/- each, 1 STRPP B 2035 of face value of ₹ 100,000/- each), for an amount of up to ₹20,500,000,000 (face value) including green shoe option such that the total issue size comprising of Series1 Debentures and Series II Debentures does not exceed Rs. 25,000,000,000 (face value)
Total Issue Size	Aggregate Issue Size not exceeding Rs. 25,000,000,000 (face value) comprising of base issue size for Series 1 Debentures of Rs. 14,000,000,000 (face value) with a green shoe option of Rs. 6,500,000,000 (face value) and base issue size for Series 2 Debentures of Rs. 7,000,000,000 (face value) with a green shoe option of Rs. 3,700,000,000 (face value).
In multiples of	1 (one) NCD of face value of Rs. 2,00,000/- each comprising 1 STRPP A 2034 of face value Rs. 1,00,000/- each and 1 STRPP B 2035 of face value Rs. 1,00,000/- each and multiples of 1 NCD thereafter
Stock Exchange/s proposed for listing of the NCDs	BSE Limited and National Stock Exchange of India Limited.
Security	The Secured Obligations, subject to any obligations under applicable statutory and/or regulatory requirements shall be secured by: (a) a first ranking *pari* passu Security Interest over the Issuer's immovable assets (if any), both present and future. The Issuer does not own any immoveable property at the present time. In the event, the Issuer acquires any immovable property in future, the Issuer shall mortgage said property within 180 (one hundred eighty) days from the date of acquisition of such immovable assets. The Debenture Trustee shall be authorised to do all acts, deeds, and enter into necessary documents, agreement, amendments and/or modifications, as may be required to give effect the same, including carrying out the due diligence as may be required by Debenture Trustee; (b) a first ranking *pari passu* Security Interest over the Hypothecated Assets (including Receivables), both present and future, including DSRA; and (c) Negative Lien Undertaking to be executed as a Conditions Subsequent within 45 (forty-five) days from the Pay-In Date ("**Negative Lien Undertaking**"); (d) a first ranking *pari passu* Security Interest by way of pledge over the pledged securities[3] and shares of entities that may be acquired by the Issuer, in the future, which pledge shall be created within 45 days of such acquisition.

[3] "**Pledged Securities**" mean the 100% (one hundred percent) of the equity shares of the Project SPV as held by the Borrower and 100% (one hundred percent) of the bonds, non-convertible debentures issued by the Project SPV, from time to time, and held by the Borrower.

Parameter	Description
	The security interest/ security documents stipulated above shall be collectively referred to as the "**Security**". **Security Creation Timelines** (a) The Security shall be created prior to making the listing application for the NCDs with the Stock Exchange(s). (b) Unless otherwise agreed to by the Debenture Trustee, in the event the above stipulated Security is not created and/or perfected within the timelines as mentioned above or any extended timeline as may be approved by the Debenture Trustee in writing, the NCDs shall carry additional interest, at the rate of 2.0% (two percent) per annum, if any, on the NCDs, computed from the date falling after the expiry of the time period provided above, till creation and perfection of the relevant Security and/or till the execution of the relevant Security Documents. **Ranking** The Security created or to be created to secure the NCDs shall be first ranking *pari passu* security interest *inter se* the existing lenders, the Debenture Trustee (acting on behalf of the Debenture Holders) and the additional lenders by way of pledge over shares of Project SPV 1, Project SPV 2 and entities that may be acquired by the Issuer, in the future, which pledge shall be created within 45 days of such acquisition. The Issuer is permitted to provide and/or share any Security with the additional lenders for the purpose of securing the Additional Debt, provided that the availing of the Additional Debt is in compliance with the Additional Debt conditions and a 15 (fifteen) calendar days' prior written intimation is provided to the Debenture Trustee.
Coupon, Interest rate, Interest payment date, Interest type and redemption premium/discount	Zero Coupon The NCDs will be redeemed at par i.e. face value. The redemption amount is as follows: 1 STRPP A 2034 – Rs. 1,00,000/- 1 STRPP B 2035 – Rs. 1,00,000/-
Tenor	STRPP A 2034 - 9 years from the Deemed Date of Allotment STRPP B 2035 - 10 years from the Deemed Date of Allotment
Default Coupon Rate	Zero Coupon
Maturity Date	STRPP A 2034 – 30th January 2034 STRPP B 2035 – 30th January 2035

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FACTORS BY THE DIRECTORS OF THE INVESTMENT MANAGER AFFECTING THE FINANCIAL CONDITION, RESULTS OF OPERATIONS AND CASH FLOWS

Due to the nature of the Project SPVs and the Target Toll Roads, there is limited financial information available in respect of us which can be presented in this Placement Document. The following discussion of our financial condition and results of operations should be read in conjunction with our audited consolidated financial information as on March 31, 2022, audited consolidated financial information as on March 31, 2023, audited consolidated financial information as on March 31, 2024 and audited interim financial statements of the Trust for the six months period ended September 30, 2024, prepared in accordance with Ind AS, enclosed as Annexure A. No separate financial information, including actual revenue data for the Target Toll Roads, are currently available, which could be used to clearly assess financial information, including revenue and expenses, in respect of each of the Target Toll Roads. Accordingly, in lieu of financial statements of the Trust, the Target Toll Roads and/or Project SPVs, the revenue data that NHAI has historically collected through toll collection and maintenance contracts has been included in the section entitled "Asset Revenue Information" on page 471.

Furthermore, this limited historical revenue data available in respect of the Target Toll Roads may not reflect their operation in the future and are not indicative of our expected future financial condition, results of operations or cash flows. Investors are cautioned that the lack of financial information in this Placement Document may make it difficult to assess our financial position or future prospects or results of operations.

The following discussion is intended to convey management's perspective on our expected financial condition and results of operations.

This discussion contains forward-looking statements and reflects our current views with respect to future events and financial performance that involve risks and uncertainties. Actual results may differ materially from those discussed in or implied by any of the forward-looking statements as a result of various factors, including those listed under "Risk Factors" and "Forward- Looking Statements".

Overview

We are a registered infrastructure investment trust under the InvIT Regulations. We currently have a right to toll, operate and maintain a portfolio of fifteen Existing Toll Roads (*defined below*) in the Indian states of Gujarat, Rajasthan, Telangana, Karnataka, Maharashtra, Uttar Pradesh, Madhya Pradesh, Assam, and West Bengal and intend to toll, operate and maintain a portfolio of eleven Target Toll Roads (*defined below*) in the Indian states of Andhra Pradesh, Gujarat, Uttar Pradesh, Uttarakhand and Chhattisgarh under the Toll Operate Transfer ("**TOT**") model conceived by NHAI. These Toll Roads (*defined below*) are operated and maintained pursuant to concessions granted by the NHAI. The Existing Toll Roads comprise fifteen stretches spanning a total length of approximately 1523.70 kms and the Target Toll Roads comprise eleven stretches spanning a total length of approximately 818.83 kms.

Our Sponsor is NHAI, an autonomous authority of the GoI under the MoRTH constituted on June 15, 1989 by NHAI Act. NHAI was operationalised in February 1995 with the appointment of a full-time Chairman and other members of the board. The functioning of NHAI is governed by the NHAI Act and the rules, and regulations framed thereunder.

The Project SPVs have entered into 26 independent Concession Agreements with the NHAI for concessions of each of the Toll Roads. We have satisfied all conditions precedent and commenced our concessions on December 16, 2021 for R1 Toll Roads, October 29, 2022 for R2 Toll Roads and on April 01, 2024 for R3 Toll Roads in accordance with the terms of the Initial Concession Agreements for the Existing Toll Roads and expect to satisfy all conditions precedent and commence our concessions for the Target Toll Roads in accordance with the terms of the R4 Concession Agreements for the Target Toll Roads. For further details, please see the section entitled "*Summary of the Concession Agreements*", "*Management's Discussion and Analysis of Factors by the Directors of the Investment Manager Affecting the Financial Condition, Results of Operations and Cash Flows*" and "*Use of Proceeds*" on pages 293, 380 and 354, respectively.

The Concession Agreements provide the Project SPVs the right to collect tolls for a period of 20 years or 30 years (as applicable under the relevant Concession Agreement) from users of each Toll Road, with certain overlay activities and the construction work which may include any other improvement work, such as construction, renovation, refurbishing, augmentation, upgradation, etc., of any road, structure, etc., in respect of certain of the Toll Roads (the "**Initial Improvement Works**") to be completed by the Project SPVs within 12 to 18 months from the Appointed Date (as defined in the section entitled "*Summary of the Concession Agreements*"). Responsibility for the supervision of the operations and maintenance of the Toll Roads also vests with us. In return, the Project SPVs is required to pay the concession fee to the NHAI prior to the commencement of the concession, as set out in the respective Concession Agreements. For further information on the provisions of the Concession Agreements, see "*Summary of the Concession Agreements" on page* 294.

NWPPL and NEPPL has a right to toll, operate and maintain the following toll road assets (the "**Existing Toll Roads**").

- Palanpur/Khemana Abu Road Project ("**Asset 1**"): Abu Road section of NH 27 with a total length of 45.00 kms, connecting the states of Gujarat and Rajasthan;
- Abu Road – Swaroopganj Project ("**Asset 2**"): Swaroopganj section of NH 27 with a total length of 31.00 kms, in

the state of Rajasthan;

- Maharashtra/ Karnataka Border (Kagal) – Belgaum Project ("**Asset 3**"): Belgaum – Kagal section of NH 48 with a total length of 77.7 kms, connecting the states of Karnataka and Maharashtra;

- Chittorgarh – Kota & Chittorgarh Bypass Project ("**Asset 4**"): Chittorgarh – Kota section of NH 27 with a total length of 160.5 kms, in the state of Rajasthan;

- Kothakota Bypass – Kurnool Project ("**Asset 5**"): Kothakota bypass – Kurnool section of NH 44 with a total length of 74.6 kms, connecting the states of Telangana to Andhra Pradesh;

- Agra Bypass Project ("**Asset 6**"): Agra Bypass section with a total length of 32.80 kms, connecting NH19 (old NH2) to NH44 (old NH7) in Uttar Pradesh;

- Borkhedi - Kelapur Project ("**Asset 7**"): Borkhedi-Kelapur-Maharashtra/Telangana border section of NH44 (old NH7) with a total length of 138.15 kms, in the state of Maharashtra;

- Shivpuri – Jhansi Project ("**Asset 8**"): Jhansi-Shivpuri section of NH 27 with a total length of 75.30 kms, connecting the districts of Jhansi in the state of Uttar Pradesh and Shivpuri in the state of Madhya Pradesh;

- Chichra - Kharagpur Project ("**Asset 9**"): Chichra - Kharagpur section of NH 49 with a total length of 56.12 kms, in the state of West Bengal;

- Rewa –Lakhnadon Project ("**Asset 10**"): Rewa – Katni – Jabalpur – Lakhnadon section of NH 30 and NH 34 with a total length of 306.34 kms, in the state of Madhya Pradesh;

- Kachugaon - Kaljhar Project ("**Asset 11**"): Kachugaon - Rakhaldubi Bus Junction – Kaljhar section of NH 27 with a total length of 114.17 kms, in the state of Assam;

- Kaljhar – Patacharkuchi Project ("**Asset 12**"): Kaljhar – Patacharkuchi section of NH 27 with a total length of 27.30 kms, in the state of Assam;

- Lakhnadon – Mahagaon (Mohgaon) – Khawasa ("**Asset 13**"): Lakhnadon – Mahagaon (Mohgaon) – Khawasa section of NH 44 with a total length of 107.35 kms, in the state of Madhya Pradesh;

- Orai – Barah Project ("**Asset 14**"): Orai – Barah section of NH 27 with a total length of 62.90 kms, in the state of Uttar Pradesh; and

- Chitradurga Bypass – Hubli Project/ Karnataka Project ("**Asset 15**"): Chitradurga Bypass - Chitradurga - Davanagere - Haveri – Hubli section of NH 48 with a total length of 214.47 kms, in the state of Karnataka.

From the Appointed Date, NSPPL will have the right to toll, operate and maintain the following toll road assets (the "**Target Toll Roads**"):

- Narasannapeta to Ranasthalam Project ("**Asset 16")** Narasannapeta to Ranasthalam section of NH-16 with a total length of Km 53.799 in the state of Andhra Pradesh;

- Ranasthalam to Hanumanthavaka Project ("**Asset 17**") Ranasthalam to Anandapuram section of NH 16 and Four lane with paved shoulders from Anandapuram to Hanumanthavaka (Visakhapatnam) Section of NH 16 with a total length of Km 66.544 in the State of Andhra Pradesh;

- Anandapuram – Pendurthi – Anakapalle Project ("**Asset 18**") Anandapuram-Pendurthi-Anakapalle of NH-16 with a total length of 48.605Km in the state of Andhra Pradesh;

- Gundugolanu-Devarapalli-Kovvuru Project ("**Asset 19**") Gundugolanu-Devarapalli-Kovvuru section of NH-16 with a total length of KM 69.884 in the state of Andhra Pradesh;

- Chittoor to Mallavaram Project ("**Asset 20**") six Lane with paved shoulder from Chittoor to Mallavaram section of NH-140 with a total length of 61.128Km in the state of Andhra Pradesh;

- TN/AP – Border to Nalagampalli to AP/Karnataka Border Project ("**Asset 21**") TN/AP – Border to Nalagampalli to AP/Karnataka Border Section of NH 4 with a total length of 84.797Km in the State of Andhra Pradesh;

- Bareilly – Sitapur Project ("**Asset 22**") Bareilly - Sitapur Section of NH-30 (Old NH-24) with a total length of 157.590 Km in the State of Uttar Pradesh;

- Muzaffarnagar – Haridwar Project ("**Asset 23**") Muzaffarnagar to Haridwar section of Old NH 58 (New NH-334) with a total length of Km78.560 in the State of Uttar Pradesh & Uttarakhand;

- Raipur to Simga Project ("**Asset 24**") Raipur to Simga Section of NH-30 (Old NH 200) with a total length of Km 48.445580 in the State of Chhattisgarh;

- Simga to Bilaspur Project ("**Asset 25**") Simga to Bilaspur Section of NH-130 (Old NH-200) & NH-49 with a total length of Km 77.945 in the State of Chhattisgarh; and

- Gandhidham (Kandla) to Mundra Port Project ("**Asset 26**") Gandhidham (Kandla) to Mundra Port section of NH-41 with a total length of Km 71.400 in the State of Gujarat.

The following map depicts locations of the Toll Roads:

Note:

(1) This map is for illustrative purposes only, is not to scale and is subject to change at any time.

SEBI Exemptions

For the purposes of the Issue, the Investment Manager requested SEBI for certain exemptions by way of letter dated February 13, 2025 to allow for the relaxation of strict application of financial disclosure rules per the InvIT Regulations for the Sponsor and the NSPPL ("**SEBI Exemption Request**"). The SEBI Exemption Request was made on the basis that the Sponsor is incorporated under the NHAI Act and no historical consolidated financials are available for presentation in this Placement Document. Further, considering that the project SPVs are typically held directly by the Authority and are not held as, or through, separate special purpose vehicles ("**SPVs**") or business units, NHAI typically operates these roads through third party contracts for collection of revenue and maintenance, and the profit and loss and the balance sheets are prepared only at the consolidated NHAI level. Upon transfer to the SPV(s) owned by the Trust, the respective concession agreements become applicable to them. SEBI accepted the request and granted an exemption through its letter dated March 7, 2025 read with email dated March 12, 2025.

Accordingly, only the following information is presented in this Placement Document:

- Audited and published standalone financial statements of NHAI for each of the financial years ended March 31, 2021, March 31, 2022 and March 31, 2023.

- Unaudited financial results of NHAI for the financial year ended March 31, 2024 and for each of the quarters ended June 30, 2024 and September 30, 2024 (as disclosed to the Stock Exchanges in accordance with Regulations 52(8) and 54(2) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015), prior to filing of the placement document, as applicable.

- Revenue details of R4 Assets for the previous three years and for the stub period i.e. for the preceding three complete financial years and until the completed month before the proposed Issue.

- Revenue data of the SPV as has been historically collected through toll collection and maintenance contracts and/or as included in the financial statements of the Trust, as may be available, for the financial years ended March 31, 2024, March 31, 2023 and March 31, 2022 and for the nine month period from April 1, 2024 to December 31, 2024 and for each of the month from January 1, 2025 until the last completed month before the Proposed Institutional Placement.

The absence of meaningful historical operating data or financial statements may make it difficult for investors to evaluate our ability to operate, manage and maintain the Toll Roads and assess our financial position or future prospects or results of operations.

Consolidated

1. **Basis of Preparation**

The Consolidated financial statements comprises of the Consolidated Balance Sheet, Consolidated Statement of Profit and Loss, Consolidated Cash Flow Statement, Consolidated Statement of Changes in Equity and Consolidated explanatory notes thereon of National Highways Infra Trust, for the six months ended 30 September 2024 ("**Interim Consolidated Financial Information**"). The Interim financial Information has been prepared in accordance with recognition and measurement principles laid down in Indian Accounting Standard 34 - Interim Financial Reporting (Ind AS 34), as prescribed in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other accounting principles generally accepted in India, to the extent not inconsistent with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended, the additional disclosures as required in Chapter 4 of SEBI Master Circular No. SEBI/HO/DDHS- PoD 2/P/C1R/2024/44 dated May 15, 2024 as amended including any guidelines and circulars issued thereunder ("**SEBI Circulars/InvIT Regulations**").

The Consolidated financial statements were authorised for issue in accordance with resolution passed by the board of directors of the Investment Manager on December 19, 2024.

The audit of these Interim Financials for the six months ended September 30, 2024 of NHIT has been carried out by the Statutory Auditors of NHIT.

The limited review consolidated financial information of the trust for the nine month period ended December 31, 2024, is included in this Placement Document.

New amendments adopted during the period

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 dated 31 March 2023 to amend the following Ind AS:

Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors

Ind AS 1, Presentation of Financial Statements

Ind AS 12, Income Taxes

The amendments are applicable for annual periods beginning on or after the April 1, 2023, however, these do not have material impact on the financial statements of the Group.

(a) **Material accounting policies and key sources of estimation uncertainties and critical judgements**

A Material accounting policies

The accounting policies adopted in preparation of these financial statements are consistent with those followed in preparation of the Group's latest Annual Consolidated Financial Statements.

B Key sources of estimation uncertainties and critical judgements

The preparation of the consolidated financial statements requires use of certain critical accounting estimates and judgements. It also requires the management to exercise judgement in the process of applying the Group's accounting policies. The areas where judgements and estimates are significant to the financial statements or areas involving a higher degree of judgement or complexity are the same as those applied to the Group's latest Annual Consolidated Financial

Statements.

Significant Factors Affecting Our Results of Operations

We expect our results of operations, financial condition and liquidity to be influenced by the following events, facts, developments and market characteristics.

The terms of the Concession Agreements and traffic volumes

Toll fees are typically pre-determined with the relevant government entity and cannot be modified to reflect prevailing circumstances, other than annual adjustments to account for inflation as specified in the Concession Agreements. Accordingly, our profitability is largely a function of how effectively we manage costs during the concession period. Significant costs during the concession period include operating and maintenance expenses such as periodic maintenance which is required to be performed as specified in the Concession Agreement. Periodic maintenance involves the repair of wear and tear of the roads and highways, including overlaying the surface of the roads and highways, if required. For further details on the maintenance requirements for each of our projects, see the section entitled "*Our Business"* in this Placement Document. Our inability to effectively manage such operating and maintenance expenses during the concession period may have a material adverse effect on our profitability, financial condition and results of operations.

We are substantially dependent on the accuracy of the traffic volume forecasts for the respective Toll Road projects. Projects undertaken on a TOT basis involve Concession Agreements that are long-term in nature, usually between 20 to 30 years. The agreed consideration for the toll road projects is based on, amongst other factors, forecasts of traffic volumes and expected revenues over the concession period. Any material shortfall between the actual traffic volume and the forecast traffic volume for a project could have a material adverse effect on our cash flows, results of operations and financial condition.

Our projects involve agreements that are long-term in nature. All long-term projects have inherent risks associated with them and involve variables that may not necessarily be within our control. Accordingly, we may be exposed to a variety of operation and maintenance and other risks, including unanticipated cost increases and overruns, inability to negotiate satisfactory arrangements with third parties, and disagreements with third parties. In addition, the long-term nature of our contracts may expose us to increased risk of unforeseen business and industry changes and developments which could have a material adverse effect on their business, financial condition and results of operations.

Toll revenues

The operation of toll roads principally involves collection of tolls and maintenance. Revenues from the Toll Roads will substantially comprise receipts collected at toll plazas from vehicles passing through the Toll Roads. Toll revenues generated by each of the Toll Roads will be subject to a number of factors, including traffic volume by vehicle categories, weight of the vehicle, applicable toll rates and distance travelled. The volume can vary with the location of the asset and the period of operation, as well as seasonal effects. Meanwhile, toll rates are ultimately determined by the Indian government in accordance with certain national laws and regulations. We anticipate a continuing increase in toll rates for the Toll Roads given the annual inflation-linked adjustment.

Operation and maintenance costs

We will be responsible for the operation and maintenance of the Toll Roads upon commencement of the respective concession. Pursuant to each of the Concession Agreements, we will be required to ensure that the relevant Toll Road conforms to the maintenance requirements set forth in the Concession Agreements. For each Toll Road, we will be required to prepare an annual program of preventive, urgent and other scheduled maintenance to comply with the standards and requirements set out in the Concession Agreements.

Local state economies

We expect our financial results from the Toll Road to be dependent upon growth in the local state economies in which they are operated, namely Rajasthan, Gujarat, Telangana, Assam, Madhya Pradesh, Maharashtra, Uttar Pradesh, West Bengal and Karnataka. We expect trends in the economic development and population growth of each of these states to have a direct impact on the traffic utilizing the Toll Road.

Access to and cost of financing

Our ability to obtain financing, as well as the cost of such financing, affects our business. Our ability to access such additional financing is subject to a variety of factors, including interest rates and other funding costs and market conditions. Any lack of access or higher costs in relation to additional financing that may be required by us could negatively impact our results of operations.

Arrangement with respect to future assets

We plan to make significant investments in toll road assets so as to expand our portfolio over the next several years. The Sponsor may, from time to time, consider transferring additional road assets to the Trust.

The process of identification of Future Assets, offer of Future Assets to Trust and completion of transfer of Future Assets to the Trust including valuation mechanism may be refined and/or modified in line with the internal policies of NHAI. Furthermore, the success of our portfolio expansion is limited by the availability of, and competition for, suitable projects, by our financial resources, including our available cash and borrowing capacity, by our ability to integrate such acquired projects into our business and by other factors, some of which may be beyond our control. For more details, please see the section entitled "*Risk Factors—The Sponsor is under no obligation to provide the Trust with access to future assets, and the Trust may be unable to bid effectively for them"* in this Placement Document.

Competition

We operate in a competitive environment. The competition for toll road and other infrastructure projects varies depending on the size, nature and complexity of the project and on the geographical region in which the project is to be executed. Some of our competitors have greater financial resources, economies of scale and operating efficiencies than we do. There can be no assurance that we can effectively compete with its competitors in the future, and this failure to compete effectively may have a material adverse effect on our financial condition and results of operations.

Exchange rate fluctuations

Financial information disclosed in this Placement Document and the Asset Revenue Information will be presented in Rupees, and our functional currency is Rupees. However, while we generate revenue in Rupees, we may purchase our equipment in both Rupees and foreign currency, including U.S. dollars. Additionally, if we incur external borrowings in currencies other than Rupees, we will be exposed to foreign currency exchange risk and, depending on the cross-currency issues of these foreign currencies and the Rupee, our combined financial statements may include distorted figures of expenses and, consequentially, profits or loss. Accordingly, our results of operations will be impacted by the strength of the U.S. dollar and other currencies as measured against the Rupee due to translational effect. To the extent that the Rupee strengthens or weakens against the U.S. dollar, or other currencies in which we interact, our combined results of operations will be affected.

Results of Operations

The following table sets forth certain information with respect to our results of operations based on the Audited Financial Information:

National Highways Infra Trust

Unaudited Consolidated Interim Statement of Profit & Loss for the period ended December 31, 2024

Particulars	**For the period ended**
	December 31, 2024 *(₹ in lakh)*
Income	
Revenue from operations	1,71,683.43
Interest Income	1,707.91

Liquidity and Capital Resources

Pursuant to the Concession Agreements, we are required to pay certain concession fees and make certain improvement works to each of the Toll Road relating to overlay activities and construction of additional toll lanes, among other things. We expect to finance our operations for the next 12 months primarily from cash flow from the operation of the Toll Roads and debt financing. We may also from time to time seek additional sources of funding, which may include debt or equity financings, depending on our financing needs and market conditions.

Qualitative Disclosures About Market Risk

Market risk is the risk of loss arising from adverse changes in market rates and prices, such as foreign currency exchange rates and commodity prices. We do not hold or issue financial instruments for trading purposes and does not enter into derivative transactions that would be considered speculative positions. We intend to minimize our exposure to currency risk by minimizing our non-Rupee borrowings.

Interest Rate Risk

As the infrastructure development and construction business is capital intensive, we are exposed to interest rate risk. Our borrowings are exposed to market risk relating to changes in interest rates upon any refinancing or additional financing. The debt financing provided by the Trust to the NWPPL and NEPPL are classified as senior debt under the Concession Agreements. This exposure to debt by NWPPL and NEPPL could further lead to an increase in interest expense and could have an adverse effect on the results of operations and financial condition. Although from time to time, we may exercise any rights available to us under these financing arrangements to terminate the existing debt financing arrangement on the respective reset dates and enter into new financing arrangements, there can be no assurance that we will be able to do so on commercially reasonable terms, that our counterparties will perform their obligations, or that these agreements, if entered into, will protect us adequately against interest rate risks.

Foreign currency exchange rate risk

Our foreign exchange risk primarily arises from movements of the Rupee against the U.S. dollar. Approximately 100% of our capital expenditures are denominated in Rupees. In addition, 100% of our borrowings are denominated in Rupees. Accordingly, our operating and financial results would be negatively affected when the Rupee depreciates against the U.S. dollar and interest rates in U.S. dollar increase. In addition, we may in the future enter into financing arrangements for foreign currency borrowings. We cannot assure you that we will be able to effectively mitigate the adverse impact of currency fluctuations and increases in international interest rates on our results of operation.

Liquidity Risk

We may not have sufficient cash flows to meet our operation and maintenance expense requirements and our financing obligations when they come due. We manage liquidity risks by forecasting projected cash flows. Management closely monitors our future and contingent obligations and set up required cash reserves as necessary in accordance with internal requirement.

Significant developments since December 31, 2024

Except as disclosed above and elsewhere in this Placement Document, to our knowledge no material developments other than the following have taken place since December 31, 2024 being the last date of financial statements as disclosed in this Placement Document which adversely affect or are likely to affect the revenue or profitability of the Trust, or the value of its assets, or its ability to pay its liabilities within next 12 months.

The Trust has obtained approval to avail credit facilities by various banks, financial institutions and/or other lenders, amounting to up to Rs. 105,000.00 million. These facilities include rupee term loan facilities, and working capital facilities. The approval for these facilities was granted in the board meeting held on February 12, 2025.

The IM board has approved a private placement of 37,85,37,900 Units by way of an institutional placement, for cash at an Issue Price of ₹ 133.50 per Unit aggregating up to ₹ 50,53,48,09,650 million by the Trust. This Issue constitutes at least 19.54 % of the total outstanding Units on a post-Issue basis including the Preferential Issue.

DISTRIBUTION

Statements contained in this section entitled "Distribution" that are not historical facts are forward-looking statements. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those that may be projected. Under no circumstances should the inclusion of such information herein be regarded as a representation, warranty or prediction with respect to the accuracy of the underlying assumptions by the Trust, the Trustee, the Sponsor, the Investment Manager, the Lead Managers or any other person. Bidders are cautioned not to place undue reliance on these forward-looking statements that are stated only as at the date of this Placement Document. For details, please see the section entitled "Forward-Looking Statements" on page 25. For details on the risks relating to distribution, please see the section entitled "Risk Factors" on page 43.

A. **Preamble**

The Distribution Policy (the "**Policy**") aims to outline the process and procedure for distribution in relation to the Trust.

B. The net distributable cash flows of the Trust (the "**Distributable Income**") shall be based on the cash flows generated from the underlying operations undertaken by the Project SPVs (being NHIT Western Projects Private Limited and NHIT Eastern Projects Private Limited and NHIT Southern Projects Private Limited and other SPVs incorporated/ acquired from time to time by the Trust) held by the Trust.

C. Distributions may be made from the monies received by the Trust, in accordance with the provisions of the InvIT documents and applicable law.

D. In terms of the InvIT Regulations, the Project SPVs shall distribute not less than 90% of the net distributable cash flows to the Trust in the proportion of its holding in the Project SPV, subject to applicable provisions of the Companies Act, 2013 or Limited Liability Partnership Act, 2008, each as amended.

E. In the event any infrastructure assets are sold by the Trust or any Project SPVs or if the equity shares or interest in any Project SPVs is sold by the Trust, then in accordance with the InvIT Regulations:

- if the Trust proposes to re-invest the sales proceeds into any other infrastructure asset, it shall not be required to distribute any sales proceeds to the Unitholders or the Trust; and
- if the Trust proposes not to invest the sales proceeds into any other infrastructure asset within a period of one year, it shall be required to distribute the same in accordance with the InvIT Regulations.

F. The Trust shall distribute at least 90% of the Distributable Income to its unitholders ("**Unitholders**"). Such distribution shall be declared and made such that the time period between any two declarations of distribution shall not exceed one year. In accordance with the InvIT Regulations, distributions by the Trust shall be made within 5 working days from the record date. The distribution, when made, shall be made in Indian Rupees.

G. All distributions to the Unitholders shall be made in compliance with the InvIT Regulations, Income-tax Act, 1961 ("**IT Act**") and other applicable laws.

H. The Distributable Income and the net distributable cash flows of any Project SPVs shall be calculated in accordance with the InvIT Regulations and circulars issued thereunder, as amended from time to time. The indicative method of calculating net distributable cash flows for the Project SPVs and the Trust is provided below:

I. ***Computation of net distributable cash flows at any HoldCo and/or SPV level: -***

Particulars
Cash flow from operating activities as per Cash Flow Statement of HoldCo/ SPV
(+) Cash Flows received from SPV's which represent distributions of NDCF computed as per relevant framework
(+) Treasury income/ income from investing activities (interest income received from FD, tax refund, any other income in the nature of interest, profit on sale of Mutual funds, investments, assets etc., dividend income etc., excluding any Ind AS adjustments. Further clarified that these amounts will be considered on a cash receipt basis)
(+) Proceeds from sale of infrastructure investments, infrastructure assets or shares of SPVs or Investment Entity adjusted for the following • Applicable capital gains and other taxes • Related debts settled or due to be settled from sale proceeds

• Directly attributable transaction costs • Proceeds reinvested or planned to be reinvested as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations
(+) Proceeds from sale of infrastructure investments, infrastructure assets or sale of shares of SPVs or Investment Entity not distributed pursuant to an earlier plan to re-invest as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations, if such proceeds are not intended to be invested subsequently
(-) Finance cost on Borrowings, excluding amortisation of any transaction costs as per Profit and Loss Account and any shareholder debt/ loan from Trust
(-) Debt repayment (to include principal repayments as per scheduled EMI's except if refinanced through new debt including overdraft facilities and to exclude any debt repayments/ debt refinanced through new debt, in any form or equity raise as well as repayment of any shareholder debt/ loan from Trust)
(-) any reserve required to be created under the terms of, or pursuant to the obligations arising in accordance with, any: (i). loan agreement entered with banks / financial institution from whom the Trust or any of its SPVs/ HoldCos have availed debt, or (ii). Terms and conditions, covenants or any other stipulations applicable to debt securities issued by the Trust or any of its SPVs/ HoldCos, or (iii). Terms and conditions, covenants or any other stipulations applicable to external commercial borrowings availed by the Trust or any of its SPVs/ HoldCos, (iv). Agreement pursuant to which the SPV/ HoldCo operates or owns the infrastructure asset, or generates revenue or cashflows from such asset (such as, concession agreement, transmission services agreement, power purchase agreement, lease agreement, and any other agreement of a like nature, by whatever name called); or (v). statutory, judicial, regulatory, or governmental stipulations; or –
(-) any capital expenditure on existing assets owned / leased by the SPV or Holdco, to the extent not funded by debt / equity or from reserves created in the earlier years
NDCF for HoldCo/SPV's

II. ***Computation of net distributable cash flows at the consolidated Trust level***

Particulars
Cashflows from operating activities of the Trust
(+) Cash flows received from SPV's/ Investment entities which represent distributions of NDCF computed as per relevant framework
(+) Treasury income/ income from investing activities of the Trust (interest income received from FD, any investment entities as defined in Regulation 18(5), tax refund, any other income in the nature of interest, profit on sale of Mutual funds, investments, assets etc., dividend income etc., excluding any Ind AS adjustments. Further clarified that these amounts will be considered on a cash receipt basis)
(+) Proceeds from sale of infrastructure investments, infrastructure assets or shares of SPVs/ Holdcos or Investment Entity adjusted for the following • Applicable capital gains and other taxes • Related debts settled or due to be settled from sale proceeds • Directly attributable transaction costs
Proceeds reinvested or planned to be reinvested as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations
(+) Proceeds from sale of infrastructure investments, infrastructure assets or sale of shares of SPVs/ Hold cos or Investment Entity not distributed pursuant to an earlier plan to re-invest as per Regulation 18(7) of InvIT Regulations or any other relevant provisions of the InvIT Regulations, if such proceeds are not intended to be invested subsequently
(-) Finance cost on Borrowings, excluding amortisation of any transaction costs as per Profit and Loss account of the Trust
(-) Debt repayment at Trust level (to include principal repayments as per scheduled EMI's except if refinanced through new debt including overdraft facilities and to exclude any debt repayments/ debt refinanced through new debt in any form or funds raised through issuance of units)
(-) any reserve required to be created under the terms of, or pursuant to the obligations arising in accordance with, any: (i). loan agreement entered with financial institution, or (ii). Terms and conditions, covenants or any other stipulations applicable to debt securities issued by the Trust or any of its SPVs/ HoldCos, or (iii). Terms and

conditions, covenants or any other stipulations applicable to external commercial borrowings availed by the Trust or any of its SPVs/ HoldCos, or (iv). Agreement pursuant to which the Trust operates or owns the infrastructure asset, or generates revenue or cashflows from such asset (such as, concession agreement, transmission services agreement, power purchase agreement, lease agreement, and any other agreement of a like nature, by whatever name called); or (v). statutory, judicial, regulatory, or governmental stipulations; or
(-) any capital expenditure on existing assets owned/ leased by the InvIT, to the extent not funded by debt/ equity or from contractual reserves created in the earlier years
NDCF at Trust level

III. While computation of the NDCF, the Trust shall additionally comply with the notes and the rules as specified by the SEBI in accordance with the InvIT Regulations and circulars issued thereunder, as amended from time to time.

In terms of the InvIT Regulations, if the distribution is not made within timelines as specified in the InvIT Regulations, then the Investment Manager shall be liable to pay interest to the Unitholders at the rate of 15% per annum or such other rate as may be specified under applicable law, whichever is lower, until the distribution is made. Such interest shall not be recovered in the form of fees or any other form payable to the Investment Manager by the Trust. For risks in relation to distribution, please see the section entitled "*Risk Factors*" on page 43.

I. For the purposes of the IT Act, any income distributed by the Trust to the Unitholders shall be deemed to be of the same nature and in the same proportion in the hands of the Unitholder as it had been received by, or accrued to, the Trust. Accordingly, the Trust may follow either the receipt approach or the accrual approach subject to the provisions of the IT Act and applicable accounting standard, however the same shall be followed since the beginning and on a consistent basis.

J. In terms of the InvIT Regulations, if the distribution is made within 5 working days from the record date, the Investment Manager shall be liable to pay interest to the Unitholders at the rate of 15% per annum or such other rate as may be specified under applicable law, until the distribution is made. Such interest shall not be recovered in the form of fees or any other form payable to the Investment Manager by the Trust.

K. Notwithstanding the above, this Policy will stand amended to the extent of any change in applicable law, including any amendment to the InvIT Regulations, without any action from the Investment Manager or approval of the Unitholders of the Trust.

L. ***In-specie Distribution***: Subject to the approval of the Unitholders, in accordance with the Trust Deed and provisions of applicable law, the Trustee, in consultation with the Investment Manager, may at any time during the life of the InvIT make in-specie distributions of the assets of the Trust on such terms and conditions and in such manner that is in accordance with the Trust Deed, the Investment Management Agreement, the Project Implementation and Management Agreement and other documents for the purpose of the Trust (including the offer documents) and applicable law.

Distributions made by the Trust

The table below provides the Distributions made by the Trust, in accordance with the Distribution Policy in the last three financial years and for the period from April 1, 2024 to the date of this Placement Document.

S. No.	Financial Year/Period ended	Distribution made per Unit	Nature of Distribution
1.	Fiscal 2022*	Rs 0.79**	Refer** note below
2.	Fiscal 2023	Rs 6.3714***	Refer*** note below
3.	Fiscal 2024	Rs 6.603****	Refer**** note below
4.	For the period from April 1, 2024 to December 31, 2024	Rs 5.624*****	Refer***** note below
5.	For the period from January 1, 2025 to February 28, 2025	1.652******	Refer****** note below

* *from the date of listing of the Trust on the Stock Exchanges, i.e. November 10, 2021.*

** *The distribution of Rs. 0.79 per unit comprises of Rs. 0.71 per unit as interest pass through, Rs. 0.08 per unit as other income on surplus funds at Trust.*

*** *The distribution of Rs. 6.3714 per unit comprises of Rs. 6.3108 per unit as interest pass through, Rs. 0.0606 per unit as other income on surplus funds at Trust.*

**** *The distribution of Rs. 6.603 per unit comprises of Rs. 6.502 per unit as interest pass through, Rs. 0.101 per unit as other income on surplus funds at Trust.*

***** *The distribution of Rs. 5.624 per unit comprises of Rs. 5.588 per unit as interest pass through, Rs. 0.036 per unit as other income on surplus funds at Trust.*

****** *The distribution of Rs. 1.652 per unit comprises of Rs. 1.644 per unit as interest pass through, Rs. 0.008 per unit as other income on surplus funds at Trust.*

RELATED PARTY TRANSACTIONS

In terms of Regulation 2(1)(zv) of the SEBI InvIT Regulations, related party shall be as defined as under the Companies Act, 2013 or under the applicable accounting standards and shall also include: (i) Parties to the InvIT; and (ii) promoters, directors, members and partners of the Parties to the InvIT. Further, related parties also include such persons and entities as defined in terms of the applicable accounting standards, being Ind AS 24 on "Related Party Disclosures" in relation to related party transactions (collectively, "**Related Parties**").

For further details in relation to the related party transactions for the six month period ended September 30, 2024 and Financial Years ended March 31, 2024, 2023 and 2022 as per Ind AS 24 read with the SEBI InvIT Regulations, see 'Audited Financial Information' enclosed as Annexure A. The Parties to the InvIT, may, from time to time, enter into related party transactions, in accordance with applicable law.

Present and On-going Related Party Transactions

A number of present and on-going transactions with certain related parties have been, or will be, entered into in relation to the Trust. The Trustee and the Investment Manager confirm that the following related party transactions have been, or shall be, entered into, on an arm's length basis in accordance with the relevant accounting standards, in the best interest of the Unitholders, consistent with:

A. Concession Agreement

Please see the section entitled "*Summary of the Concession Agreements*" on page 294 for a description of the terms of the Concession Agreements.

B. Amended and Restated Project Implementation and Management Agreement

Please see the section entitled "*Parties to the Trust –Key Terms of the Amended and Restated Project Implementation and Management Agreement*" on page 96 for a description of the terms of the Amended and Restated Project Implementation and Management Agreement.

C. Transitional Support Agreement

The Sponsor, Project Manager and the Project SPV have entered into a transitional support agreement dated March 13, 2025, for the purpose of the Sponsor providing the transitional support to (i) the Project Manager in respect of its obligations under the Project Implementation and Management Agreement, and (ii) the Target Toll Roads in respect of its O&M obligations and tolling obligations (as provided under the R4 Concession Agreements). The terms and conditions of the transitional support agreement shall, in respect of each R4 Concession Agreement and the Project Implementation and Management Agreement, be effective and binding on the Parties (i) for a period of 6 (six) months for all Target Toll Roads except Gandhidham (Kandla) to Mundra Port Project, for which the period will be of 12 months, commencing from the appointed date of the respective Concession Agreements, unless terminated earlier by mutual consent. As per the transitional support agreement, the Sponsor's fee for the services provided under the transitional support agreement shall be such amount as may be mutually agreed amongst Sponsor, Project Manager and the Project SPV.

D. Trust Deed

Please see the section entitled "*Parties to the Trust – Key terms of the Trust Deed*" on page 76 for a description of the terms of the Trust Deed.

E. Investment Management Agreement

Please see the section entitled "*Parties to the Trust – Key terms of the Investment Management Agreement*" on page 87 for a description of the terms of the Investment Management Agreement.

	Ms. Aashima Agarwal (CS)	Reimbursement of expenses	0.05

REGULATIONS AND POLICIES

The following description is a summary of certain sector specific laws currently in force in India, which are applicable to the operations of the Trust and the Project SPVs. The information detailed in this section has been obtained from statutes, regulations, sector-specific policies and publications available in the public domain. The description below may not be exhaustive, and is only intended to provide general information and is neither designed as, nor intended to substitute, professional legal advice. The information in this section is based on the current provisions of applicable law that are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions in India. For information regarding regulatory approvals obtained by the Project SPVs, please see the section titled "Regulatory Approvals" on page 407.

Laws Relating to the Business and Operations of the Trust and the Project SPVs

The regulatory framework in India in the highways sector, implemented on a public-private partnership ("**PPP**") basis, mainly derives its source from the primary legislations of National Highways Authority of India Act, 1988 (the "**NHAI Act**") and the National Highways Act, 1956 (the "**NH Act**") enacted by the Indian parliament, each as amended or supplemented.

The National Highways Act, 1956

The policy of the MoRTH, in implementing the NH Act, is to vest the MoRTH with the power to declare a national highway and for acquisition of land for this purpose. The GoI, by notification, can declare the intention to acquire any land for a 'public purpose' as envisaged by the law and such land can be used for the purposes of building, maintenance and operation of the declared national highways throughout the country. The NH Act prescribes the procedure for such land acquisition. The procedure includes, *inter alia*, a declaration of an intention to acquire, entering and inspecting such land, hearing of objections, a declaration of the acquisition and the power to take possession. The NH Act also provides for payment of compensation to owners and any other person whose right of enjoyment or ownership in the land has been affected. The NH Act vests MoRTH with the power to appoint a competent authority for the effective implementation of the NH Act and its policies. The said appointed authority retains the right and power to (a) survey, make any inspection, valuation or enquiry; (b) take levels; (c) dig or bore into sub-soil; (d) set out boundaries and intended lines of work; € mark such levels, boundaries and lines placing marks and cutting trenches; or (f) do such other acts or things as may be laid down by rules made in this behalf by that government. All the notified national highways shall vest in the name of the Union and for the purposes, shall include all lands appurtenant thereto and all the bridges, culverts, tunnels and other enlisted constructions under the said NH Act. The Central Government shall assume the responsibility of maintaining and construction of national highways in proper condition in accordance to the law. The Central Government also retains the right to levy fee over the services and benefits rendered in relation to the use of such national highways.

The GoI is responsible for the development and maintenance of national highways. However, it may direct that such functions may also be exercised by the government of a state in which the highway is located or by any officer or authority subordinate to the GoI or to the state government. Further, the GoI has the power to enter into an agreement with any person for the development and maintenance of a part or whole of the highway. Such person would have the right to collect and retain fees at such rates as may be notified by the GoI and will also have the powers to regulate and control the traffic, for proper management of the highway, in accordance with the provisions of the Motor Vehicles Act, 1988, as amended. The GoI also has the power to make rules for carrying out the purposes of the NH Act.

The National Highways (Amendment) Act, 2017, entails the competent authority to issue reports to the Central Government in respect of any land (either acquired or proposed to be acquired) which is, either under incorrect revenue record or which is not required due to change in geometry or alignment of the construction, to issue order for the de-notification of such land from the acquisition for development and maintenance of the national highway. In pursuance of the foregoing amendment to the statute, the National Highways Rules, 1957, have been amended to ensure the exercise of the power under the NH Act. These rules provide for periodic regulatory compliance and reporting standards to be followed by the competent authority in reporting to the Central Government.

The National Highways Authority of India Act, 1988

The NHAI Act was enacted in pursuance of the powers of the Central Government for appointing a competent authority under the NH Act and provides for the constitution of an authority for the development, maintenance and management of national highways and for matters connected therewith or incidental thereto. In accordance with the NHAI Act, the GoI carries out development and maintenance of the national highways through NHAI. Subject to the provisions of the NHAI Act, the NHAI has the power to enter into and perform any contract necessary for the discharge of its functions. The NHAI has the power to acquire any land to discharge its functions, and such acquired land will be deemed to be land needed for a 'public purpose'. The NHAI Act prescribes a limit in relation to the value of the contracts that may be entered into by NHAI. However, the NHAI may enter into contracts exceeding the specified value, on obtaining prior approval of the GoI. The NHAI Act provides that the contracts for acquisition, sale, or lease of immovable property on behalf of the NHAI cannot exceed a term of 30 years unless previously approved by the GoI. NHAI's objective is to ensure that all contract awards and procurements conform to the best industry practices with regard to transparency of process, adoption of bid

criteria to ensure healthy competition in award of contracts. In accordance with the NHAI Act, the NHAI shall consist of a full time chairman, not more than six full time members and not more than six part time members who are being appointed by the Central Government. Additionally, various project implementation units headed by project director have been set at various sites to oversee timely completion of the projects.

In view of the challenging task of construction, development, and management of national highways being undertaken by NHAI, the Committee on Public Undertakings selected the subject "National Highways Authority of India (NHAI)" for comprehensive examination and report. The National Highways Authority of India (Amendment) Act, 2013, received the assent of the President of India on September 10, 2013, and aimed at increasing the institutional capacity of NHAI to help execute the powers delegated to it. National Highways Development Project ("**NHDP**") was launched in 1998 with the objective of developing roads of international standards which facilitate smooth flow of traffic. The NHDP envisages creation of roads with enhanced safety features, better riding surface, grade separator and other salient features.

As per the NHAI Works Manual, 2006, NHAI's mandate is the time and cost bound implementation of the NHDP. The sources of finance available to the NHAI include fund assistance from external funding agencies like the International Bank of Reconstruction and Development and the Asian Development Bank. NHAI's role encompasses involving the private sector in provision, maintenance, and operation of the national highways.

Financing of the NHDP

The GoI, under the Central Road and Infrastructure Fund Act, 2000 created a fund which is required to be utilized for the development and maintenance of national highways (the "**Central Road Fund**"). Section 18 of the NHAI Act also provides for the creation of a separate NHAI Fund. Any capital grant or aid received, loan taken, borrowing made, or any other sum received by the NHAI is credited to the NHAI Fund. Certain sources for financing of the NHDP are through dedicated accruals under the Central Road Fund by levy of cess on fuel as well as involving the private sector and encouraging public private partnerships. The NHDP is also financed through long-term external loans from the International Bank of Reconstruction and Development, the Asian Development Bank and the Japan Bank for International Cooperation as well as through tolling of roads for different projects undertaken by the NHAI.

Private Participation in NHDP

In an effort to attract private sector participation in the NHDP, the NHAI has issued model concession agreements ("**MCAs**") which have been formulated by Planning Commission of India or NITI Aayog and other departments of Central Government where a private entity, being the concessionaire, is, through an international competitive bidding process, awarded a concession (in form of a license) to build, own, operate and collect toll on a highway for a specified period of time. The concession to develop highway projects is given by the NHAI or other governmental authorities under various models of PPP like:

(i) Build, Operate, Transfer (BOT)/ Design, Build, Finance, Operate and Transfer (DBFOT) – In this model, the entire designing, financing and construction is undertaken by the concessionaire at its own cost. The concessionaire is entitled to collect toll or receive annuity payments from the NHAI, as the case may be, during the concession period after the construction of the highway project. The bid for the project may either be selected basis the lowest grant wanted by the private developer from the NHAI or the highest premium the private developer is willing to pay to NHAI, in the form of additional concession fee. The concessionaire at the end of the concession period transfers the highway project to the NHAI (free of charge and clear of all encumbrances). The concessionaire's investment in the highway project is recovered directly through user fees collected by way of tolls. Under the BOT model, the projects which are generally not viable based on toll revenue alone, the NHAI or the relevant governmental authority provides concessionaire with a capital grant upto certain percentage of the project cost to increase the viability of projects and the quantum of such grant is determined on a case to case basis. For certain projects with high traffic volumes, concessionaire also offers a negative grant (i.e., premium) to the NHAI.

(ii) Hybrid Annuity Model (HAM) – In this model, the NHAI or the relevant governmental authority invests 40% (forty percent) of the construction cost of the project in (five) equal instalments and the balance amount is infused by the private developer. The private developer recovers his investment in the form of annuity payments received by it over a period of 15 (fifteen) years. Additionally, there is no revenue risk for the private developer under HAM model because the toll is collected by the NHAI or relevant governmental authorities unlike the BOT model where the private developer collects it.

(iii) Toll, Operate and Transfer (TOT) – In this model, the road projects which are in operational phase are awarded by the NHAI or relevant governmental authorities to the concessionaire. The NHAI passes on the toll collection rights and operation and maintenance obligations to the concessionaire against payment of upfront concession fees quoted by the concessionaire as a part of the bidding process.

The bidding for the projects takes place in two stages as per the process provided below:

1. in the qualification (RFQ) stage, the NHAI selects certain applicants on the basis of technical and financial expertise, prior experience in implementing similar projects and previous track record; and

2. in the proposal (RFP) stage, the NHAI invites financial bids from the applicants qualified at the RFQ stage on the basis of which the concession is awarded to the successful bidder by the NHAI for implementation of the project.

Exit Policy

The CCEA in May 2015 approved a comprehensive exit policy framework with the objective to mobilize funds in the market. In pursuance thereto, NHAI, vide Circular No. NHAI/1103/CGM(FA)/4/2015 dated June 9, 2015 permitted divestment of 100% equity by concessionaires/developers after two years of completion of construction to facilitate unlocking of funds for new infrastructure projects. The equity divested is required to be invested by promoters in their new projects. This comprehensive exit policy framework is expected to harmonize certain conditions across all concessions signed prior to 2009 with the policy framework for post 2009 contracts which permit divestment of equity up to 100%, two years after completion of construction. In line with the spirit of quoted circular, the NHAI issued another circular dated September 9, 2015 followed by the circular dated November 19, 2015, on the same subject, allowing the promoter to use the proceeds from the sale of divested equity of the concessionaire in one or more of the following:

(i) to reinvest in incomplete NHAI projects;

(ii) To reinvest any other highway projects;

(iii) any other power sector projects; or

(iv) to retire their debt to financial institutions in any other infrastructure projects.

Relaxation in the 'change in ownership' clause in Hybrid Annuity Model (HAM) projects

The MoRTH, *vide* circular dated November 10, 2020 and November 27, 2020, read along with the NHAI circular dated December 31, 2020, amended the MCAs in respect of project implemented under the HAM model, and permitted the selected bidder/consortium members, for the new as well as subsisting national highways project under the HAM-model, to dilute their equity six months after COD is achieved for the respective project.

Rationalized Compensation

The CCEA in November 2015 approved a policy for rationalized compensation to concessionaires for languishing national highway projects in BOT mode for delays that are not attributable to the concessionaires. Under the policy, the NHAI is authorized to allow an extension of the concession period for BOT (Toll) projects while the tenure for the operations period as envisaged originally in the concession agreement may remain unchanged which would result in a corresponding increase in concession period. The NHAI has also been authorised to pay compensatory annuities to the concessionaire corresponding to the actual period of delay that is not attributable to the concessionaire upon successful completion of the project.

One Time Fund Infusion Scheme

The CCEA in October 2015 gave its approval to the NHAI for a one-time infusion of funds with the purpose of reviving and physically completing stalled projects in the advanced stages of completion. As per the policy, the amount of funds required in each case shall be approved by NHAI on a case to case basis.

Bidder Information

MoRTH has developed the Bidder Information Management System ("**BIMS**") to streamline the process of pre-qualification of bidders for EPC mode of contracts for all national highway works, with enhanced transparency and objectivity. BIMS works as a data base of bidder information that covers basic details, civil works experience, cash accruals and network, and annual turnover so that bidders' pre-qualification can be assessed based on evaluation parameters like threshold capacity and bid capacity from already stored data and the technical evaluation can be carried out in a faster manner.

Land Acquisition

While land is acquired for national highway projects under the NH Act, the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (the "**Land Acquisition Act**") must also be complied with. MoRTH has issued comprehensive guidelines on land acquisition for national highways taking into account the applicability of the Land Acquisition Act.

Arbitral Awards

CCEA on August 31, 2016 approved various measures to revive the construction sector. An office memorandum dated September 5, 2016 was issued by the National Institute for Transforming India with certain proposals. On November 20, 2019, the CCEA approved certain proposals in relation to the arbitrations by or against government entities, for the effective implementation of the CCEA's decision on August 31, 2016 on its initiatives to revive the construction sector. Initially, the CCEA had approved the proposal that government agencies will be required to pay 75% of the arbitral award to the

concessionaire against a bank guarantee, in cases where the award already announced is challenged. However, pursuant to a press release dated November 20, 2019, the CCEA approved, inter-alia, that where a government entity has challenged an arbitral award, resultant of which the amount of the arbitral award has not been paid, 75% of such award will be paid by the government entity to the contractor or the concessionaire against a bank guarantee only for the said 75% and not for its interest component. In relation to interest payable to the government entity, if a subsequent court order required the refund of 75% of the amount, the payment of such amounts will be required to be made as per the court orders.

Applicable Rules

As per the NH Act and the NHAI Act, the Central Government is empowered to make rules in order to further the objects of NH Act and NHAI Act. In exercise of such power, the Central Government has framed certain rules which are as follows:

- The National Highways Rules, 1957, as amended;
- National Highways Authority of India (Budget, Accounts Audit, Investment of Funds and Powers to enter Premises) Rules, 1990, as amended;
- The National Highways (Manner of Depositing the Amount by the Central Government with Competent Authority for Acquisition of Land) Rules, 1998;
- The National Highways Tribunal (Procedure for Appointment as Presiding Officer of the Tribunal) Rules, 2003, as amended;
- The Central Road Fund (State Roads) Rules, 2007;
- The National Highways Tribunal (Procedure) Rules 2003;
- National Highways Authority of India (The Term of Office and Other Conditions of Service of Members) Rules, 2003, as amended;
- The National Highways Tribunal (Financial and Administrative Powers) Rules, 2004;
- The National Highways Tribunal (Procedure for Investigation of Misbehaviour or Incapacity of Presiding Officer) Rules, 2003;
- The National Highways Fee (Determination of Rates and Collection) Rules, 2008, as amended;
- The Highway Administration Rules, 2004;
- The National Highways (Collection of Fees by any person for the use of Section of National Highways/Permanent Bridges/Temporary bridge on National Highways) Rules, 1997;
- The National Highways (Fee for the use of National Highways and Permanent Bridge public Funded Project) Rules, 1997; and
- The National Highways (Rate of Fee) Rules, 1997.
- Construction Workers (Regulation of Employment and Conditions of Services) Act, 1996 and Central Rule, 1998
- C.E.A. (Measures Relating to Safety and Electric Supply) Regulations, 2010
- Central Electronical Authority (Measures Relating to Safety and Electric Supply) Regulations, 2020
- Indian Electricity Rules, 1956

Other legislations relevant to the road sector

In addition to the above, there are also certain other legislations that are relevant to the road sector which include the Road Transport Corporation Act, 1950, Central Road and Infrastructure Act, 2000, etc.

Environmental Compliances and Regulations

Infrastructure projects must also ensure compliance with environmental legislations such as the Water (Prevention and Control of Pollution) Act, 1974 ("**Water Pollution Act**"), the Air (Prevention and Control of Pollution) Act, 1981 ("**Air Pollution Act**") and the Environment Protection Act, 1986 ("**Environment Act**", together with the Water Pollution Act and the Air Pollution Act, the "**Environment Protection Acts**"). The Water Pollution Act aims to prevent and control water pollution. This legislation provides for the constitution of a central pollution control board ("**Central Pollution Control Board**" or "**CPCB**") at the Central level and state pollution control boards ("**State Pollution Control Boards**"

or "**SPCBs**", together with the Central Pollution Control Board, the "**PCBs**") at the State levels. The functions of the CPCB includes, among other things, coordination of activities of the SPCBs, collecting data relating to water pollution and the measures devised for the prevention and control of water pollution and prescription of standards for streams or wells. The SPCBs are responsible for, among other things, the planning for programmes for prevention and control of pollution of streams and wells, collecting and disseminating information relating to water pollution and its prevention and control, inspection of sewage or trade effluents, works and plants for their treatment and to review the specifications and data relating to plants set up for treatment and purification of water, laying down or annulling the effluent standards for trade effluents and for the quality of the receiving waters, and laying down standards for treatment of trade effluents to be discharged. These authorities issue consent to establish and consent to operate which are to be required to be renewed periodically. These authorities also have the power of search, seizure and investigation if the authorities are aware of or suspect violation of such regulations. This legislation prohibits any person from establishing any industry, operation or process or any treatment and disposal system, which is likely to discharge trade effluent into a stream, well or sewer, or bring into use any new or altered outlet for discharge of sewage, or begin to make any new discharge of sewage without taking prior consent of the SPCBs.

In context of the environmental compliances and regulations, the National Green Tribunal Act, 2010 (the "**NGT Act**") is an important legislation which provides for the establishment of a National Green Tribunal ("**NGT**") for the effective and expeditious disposal of cases relating to environmental protection and conservation of forests and other natural resources including enforcement of any legal right relating to environment and giving relief and compensation for damages to persons and property and for matters connected therewith or incidental thereto. In accordance with the Forest (Conservation) Act, 1980, state governments are not permitted to make any order directing the use of forest land for a non-forest purpose, or assignment of any forest land through lease or otherwise to any private person or corporation without the approval of the GoI. The Ministry of Environment, Forest and Climate Change ("**MoEF**") mandates the Environment Impact Assessment ("**EIA**") must be conducted for specified projects. In the process, the MoEF receives proposals or the setting up of projects and assesses their impact on the environment before granting clearances to the projects. The EIA Notification S.O. 1533, issued on September 14, 2006 (the "**EIA Notification**") and amended from time to time, under the provisions of the Environment Protection Act, prescribes that new construction of specified projects require prior environmental clearance from the MoEF. The environment clearance must be obtained from MoEF according to the procedure specified in the EIA Notification. No construction work or preparation of land by the project management except for securing the land, relating to the setting up of a specified project can be undertaken until such clearance is obtained. Under the EIA Notification, the environmental clearance process for new projects consists of four stages – screening, scoping, public consultation and appraisal. After completion of public consultation, the applicant is required to make appropriate changes in the draft 'EIA Report' and the 'Environment Management Plan.' The final EIA Report has to be submitted to the concerned regulatory authority for appraisal. The regulatory authority is required to give its decision within 105 days of the receipt of the final EIA Report. The EIA Guidance Manual for Highways, 2010 explains the four stages of the environmental clearance process and the contents of the EIA Report required to be submitted by highway projects.

Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016

The Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, impose an obligation and duty on the owners and operators of any facility or industry with a capability to create hazardous materials to safely dispose of such material in transport and other means of collecting and storing. Each occupier and operator of any facility generating hazardous waste is required to obtain an approval from the relevant state pollution control board for collecting, storing and treating the hazardous waste.

Green Highways (Plantation, Transplantation, Beautification and Maintenance) Policy, 2015

In September 2015, MoRTH has launched Green Highways (Plantation, Transplantation, Beautification and Maintenance) Policy, 2015, which will require road developers to earmark 1% of a project's total cost for planting of trees and shrubs along the national highways. Under this policy, the maintenance of such plantations will be outsourced through a bidding process to plantation agencies. MoRTH/NHAI will appoint the authorized agency for empanelment of such plantation agencies.

Public Liability Insurance Act, 1991

The Public Liability Insurance Act, 1991 (the "**Public Liability Act**"), imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substances. A list of 'hazardous substances' covered by the legislation has been enumerated by the GoI by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. The rules made under the Public Liability Act mandate that the employer has to contribute towards the Environment Relief Fund, a sum equal to the premium paid on the insurance policies. This amount is payable to the insurer.

Other applicable law

The Motor Vehicles Act, 1988

The development, maintenance and management as well as control of the National Highways are regulated by the NH Act and the NHAI Act. Under the Motor Vehicles Act, 1988, some powers have been delegated to the Transport Department

of the State Governments. Section 138 of the Motor Vehicles Act, 1988 further empowers the State Governments to make rules for the control of traffic, including for the purpose of the removal and the safe custody of vehicles including their loads which have broken down or which have been left standing or have been abandoned on roads; the installation and use of weighing devices; the maintenance and management of wayside amenities complexes; the exemption from all or any of the provisions of relating to fire brigade vehicles, ambulances and other special classes or descriptions of vehicle, subject to such conditions as may be prescribed; the maintenance and management of parking places and stands and the fee, if any, which may be charged for their use; prohibiting the taking hold of or mounting of a motor vehicle in motion; prohibiting the use of foot-paths or pavements by motor vehicles, generally, the prevention of danger, injury or annoyance to the public or any person, or of danger or injury to property or of obstruction to traffic. The Motor Vehicles (Amendment) Act, 2019 is targeted towards bringing changes in the transport sector to encourage safer driving practices among Indian motor vehicle drivers. The draft for the amendment was put forward in the lower house of the Parliament, with a proposal to impose strict fines on the violators of traffic rules. The Act proposes to create a National Road Safety Board to be created by the Central Government through a notification. The Board will advise the Central and State governments on all aspects of road safety and traffic management.

Indian Trusts Act, 1882

The Indian Trusts Act, 1882 ("**Trusts Act**") governs all private trusts in India. The Trusts Act sets out the purpose for which private trusts can be established, the manner in which they may be created, executed and extinguished. The person creating a trust under the Trusts Act is the author of such trust, the person to whom the author grants the power and authority to regulate the trust is the trustee and the persons for whose benefit such trust has been created are the beneficiaries of such trust. The Trust Act sets out the rights, duties, liabilities and powers of the trustees and the beneficiaries *vis-a-vis* the trust. The Trust has been settled in accordance with the provisions of the Trusts Act.

Control of National Highways (Land and Traffic) Act, 2002

The Control of National Highways (Land and Traffic) Act, 2002 (the "**Control of NH Act**") provides for control of land within national highways, right of way and traffic moving on national highways and also for removal of unauthorised occupation thereon.

In accordance with the provisions of the Control of NH Act, the Central Government has established Highway Administrations. Under the Control of NH Act, all land that forms part of a highway which vests in the Central Government, or that which does not already vest in the Central Government but has been acquired for the purpose of highways shall be deemed to be the property of the Central Government. The Control of NH Act prohibits any person from occupying any highway land or discharging any material through on such land without the permission of the Highway Administration or any officer authorised by such administration. The Control of NH Act permits the grant of lease and license for use of highway land for temporary use.

Indian Tolls Act, 1851

In accordance with the Indian Tolls Act, 1851 (the "**Tolls Act**"), the state governments have been vested with the power to levy tolls at such rates as they deem fit, to be levied upon any road or bridge, made or repaired at the expense of the Central or any state government. The tolls levied under the Tolls Act, are deemed to be 'public revenue' and the collection of tolls can be placed under any person the State governments' deem fit. Such persons are enjoined with the same responsibilities as if they were employed in the collection of land revenue. Further, all police officers are bound to assist the toll collectors when required in the implementation of the Tolls Act. The Tolls Act further gives power for recovery of toll and exempts certain category of people from payment of toll.

National Highways Fee (Determination of Rates and Collection) Rules, 2008

The National Highways Fee (Determination of Rates and Collection) Rules, 2008 (the "**NH Fee Rules**"), regulates the collection of fee for the use of national highways. In accordance with the NH Fee Rules, the GoI may, by a notification, levy fee for use of any section of a national highway, permanent bridge, bypass or tunnel forming part of a national highway, as the case may be. However, the GoI may, by notification, exempt any section of a national highway, permanent bridge, bypass or tunnel constructed through a public funded project from levy of such fee. The NH Fee Rules supersede the National Highways (Temporary Bridges) Rules, 1964, the National Highways (Collection of Fees by any Person for the Use of Section of National Highways/ Permanent Bridge/ Temporary Bridge on National Highways) Rules, 1997, the National Highways (Fees for the use of National Highways Section and Permanent Bridges Public Funded Project) Rules, 1997 and the National Highways (Rate of Fees) Rules, 1997 other than in respect of things done or omitted to be done under such rules prior to supersession. The NH Fee Rules do not apply to agreements and contracts executed or bids invited prior to the publication of such rules i.e. prior to December 5, 2008. The collection of fee in case of a public funded project shall commence within 45 days from the date of completion of the project. The NH Fee Rules further provide for the base rate of fee applicable for the use of a section of the national highway for different categories of vehicles and the fees collected by the executing authority shall be remitted to the GoI. However, the GoI may, by notification, allow any or all of the executing authorities to appropriate the whole, or part of such fees for purposes as may be specified.

FASTag lanes on fee plazas is an initiative of the GoI in which there is an exclusive lane in the fee plaza for movement of vehicles fitted with FASTag. The FASTag is a device which is fitted on the front windscreen of vehicles to indicate online

toll payment. The amended NH Fee Rules impose a penalty equivalent to two times the fee applicable if a vehicle not fitted with FASTag enters the exclusive FASTag lane. However, in case a user is unable to pay, due to malfunctioning electronic toll collection infrastructure, the user will be permitted to pass the fee plaza without payment. The NH Fee rules were also amended to provide that the driver or owner of a mechanical vehicle which is loaded in excess of permissible load specified for its category, (i) shall be liable to pay fee at such rate which is applicable for the next higher category of mechanical vehicles, and (ii) Payment of such fee shall not entitle the driver or owner, to use the national highway until the excess load has been remove from such mechanical vehicle. However, in case no weighbridge has been installed at the toll plaza, no fee for overloading shall be levied.

The National Highways Rules, 1957 (the "NH Rules")

The NH Rules provide that in situations where the estimate cost of the execution of any original work on a national highway exceeds ₹ 1,000,000, a detailed estimated of the cost is to be forwarded to the GoI. An application for allotment of funds for meeting expenditure on an original work on a national highway must also be made to the GoI. The executing agency of the highway is required to furnish monthly progress reports and a completion report on the conclusion of the work. The NH Rules also give the consulting engineer of the GoI the right to inspect the work while it is in progress or after completion. Provisions under the Constitution of India and other legislations in relation to collection of toll Entry 59, List II of Schedule VII read with Article 246 of the Constitution of India vests state governments with the power to levy tolls. Further, in accordance with the Tolls Act, state governments have been vested with the power to levy tolls at such rates as they deem fit.

National Monetisation Pipeline (NMP)

NITI Aayog has developed the pipeline, in consultation with infrastructure line ministries, based on the mandate for 'Asset Monetisation' for roads and highways, amongst others, under Union Budget 2021-22. The framework for monetisation of core asset monetisation has three key imperatives: (i) monetization of 'rights' not 'ownership' i.e. assets will be handed back to the government at the end of transaction life; (ii) brownfield de-risked assets and stable revenue streams; and (iii) structured partnerships under defined contractual frameworks with strict performance standards. This shall include selection of de-risked and brownfield assets with stable revenue generation profile with the overall transaction structured around revenue rights. The primary ownership of the assets under these structures shall be with the government.

Foreign Investment Regulations

Foreign investment in Indian securities is governed by the provisions of the FEMA, read with the applicable FEMA Rules, the FEMA (Mode of payment and Reporting of Non-Debt Instruments) Regulations, 2019 and the consolidated FDI Policy issued by the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government. Foreign investment is permitted (except in the prohibited sectors) either through the automatic route or the approval route, depending upon the sector in which foreign investment is sought to be made. Under the FEMA Rules and the current consolidated FDI Policy, effective from October 15, 2020, an infrastructure investment trust registered and regulated by the SEBI under the InvIT Regulations, being an 'investment vehicle', is permitted to receive foreign investment from a person resident outside India (subject to Press Note 3 (2020 series)), including an FPI or an NRI subject to the terms and conditions specified in the FEMA Rules.

Downstream investment by an infrastructure investment trust shall be regarded as indirect foreign investment if neither the sponsor nor the investment manager of such an infrastructure investment trust is Indian 'owned and controlled' as defined in FEMA Rules.

Downstream investment by an 'investment vehicle' shall have to conform to the sectoral caps and conditions/restrictions, if any, as applicable to the company in which the downstream investment is made as per the FDI Policy. Foreign investment of up to 100% through the automatic route is permitted in the infrastructure sector in India. An infrastructure investment trust that receives foreign investment shall be required to make such report and in such format to the RBI or to the SEBI as may be prescribed by them from time to time.

The payment for the units of an infrastructure investment trust acquired by a person resident or registered/ incorporated outside India shall be made by an inward remittance from abroad through banking channels or by way of swap of shares of an SPV, or out of funds held in a Non-resident External ("**NRE**") or Foreign Currency Non-resident Bank ("**FCNR(B)"**) account maintained in accordance with the Foreign Exchange Management (Deposit) Regulations, 2016.

Further, any person who is a non-resident and holds units of an infrastructure investment trust in accordance with the FEMA Rules may pledge such units (i) in favour of a bank in India to secure the credit facilities being extended to the Indian company for bona fide purposes; (ii) in favour of an overseas bank to secure the credit facilities being extended to the person, or a person resident outside India who is the promoter of the Indian company or the overseas group company of the Indian company; (iii) in favour of a Non-Banking Financial Company registered with the RBI to secure credit facilities being extended to the Indian company for bona fide purposes; and (iv) subject to the authorized dealer bank satisfying itself of the compliance of the conditions stipulated by the RBI in this regard.

Other Laws and Regulations

In addition to the aforementioned, the other laws and regulations that may be applicable to the Trust and the Project SPVs include the following:

- *Factories Act, 1948*[*]
- *The Contract Labour (Regulation and Abolition) Act, 1970*[*]
- *The Child Labour (Prohibition and Regulation) Act, 1986*
- *The Employees' Compensation Act, 1923*[**]
- *The Employees' State Insurance Act, 1948*[**]
- *The Employee's Provident Fund and Miscellaneous Provisions Act, 1952*[**]
- *The Equal Remuneration Act, 1976*[***]
- *The Maternity Benefit Act, 1961*[**]
- *The Minimum Wages Act, 1948*[***]
- *The Payment of Gratuity Act, 1972*[**]
- *The Payment of Bonus Act, 1965*[***]
- *The Payment of Wages Act, 1936*[***]
- *The Sexual Harassment of Women at Workplace (Prevention, Prohibition, and Redressal) Act, 2013*
- *Industrial Disputes Act, 1917*
- *Shops and Commercial Establishments Acts, where applicable*

[*] *The Occupational Safety, Health and Working Conditions Code, 2020 (enacted by the Parliament of India and assented to by the President of India on September 28, 2020) will come into force on such date as may be notified in the official gazette by the Central Government and different dates may be appointed for different provisions of the Occupational Safety, Health and Working Conditions Code, 2020. Once effective, it will subsume, inter alia, the Factories Act, 1948 and the Contract Labour (Regulation and Abolition) Act, 1970.*

[**] *The Code on Social Security, 2020 (enacted by the Parliament of India and assented to by the President of India on September 28, 2020) has been notified to the extent of Section 142 of the Code and will come into force in its entirety on such date as may be notified in the official gazette by the Central Government and different date may be appointed for different provisions of the Code on Social Security, 2020. Once effective, it will subsume, inter alia, the Employees' Compensation Act, 1923, the Employees' State Insurance Act, 1948, the Employee's Provident Fund and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961 and the Payment of Gratuity Act, 1972.*

[***] *The Code on Wages, 2019 (enacted by the parliament of India and assented to by the President of India on August 8, 2019) was notified in the official gazette by the Central Government on September 28, 2020 to the extent of the rules governing the constitution and functions of the central advisory board under the Code on Wages once notified and effective in its entirety, it will subsume the Equal Remuneration Act, 1976, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Payment of Wages Act, 1936.*

In addition to the above, compliance with the provisions of various tax-related legislations, intellectual-property related legislations and other applicable law for our day-to-day operations is also required.

REGULATORY APPROVALS

Other than as stated in this section, the Trust have obtained necessary consents, licenses, permissions, registrations and approvals from various governmental, statutory and regulatory authorities, required for the registration as an infrastructure investment trust and for carrying out its present business, as applicable.

In view of the approvals listed below, the Trust can undertake the Issue as well as its current business, as applicable, and no further major approvals from any governmental or regulatory authority are required to undertake the Issue or to continue its business, as applicable. Unless otherwise stated, these approvals are all valid as on date of this Placement Document.

For details of approvals relating to existing assets of the Trust (other than Target Toll Roads), please see the section entitled "*Regulatory Approvals*" on page 317 of the R3 Placement Document available at Project-Leap-Placement-Document_15.03.2024.pdf (nhit.co.in).

I. Approvals in relation to the Issue

1. In-principle approval from the NSE dated March 17, 2025; and

2. In-principle approval from the BSE dated March 17, 2025.

II. Approvals in respect of the Target Toll Roads

The Sponsor, by way of its letter dated March 12, 2025 has confirmed that it had obtained all the necessary approvals and clearances required for the Target Toll Roads as on the date of the letter.

III. Material Approvals applied for but not yet received

As on the date of the Placement Document, there are no material approvals required to be obtained by National Highways Infra Trust, for which applications have been made, but approvals have not been received.

IV. Material Approvals for which applications are yet to be made

As on the date of the Placement Document, there are no material approvals required to be obtained by National Highways Infra Trust, for which applications are yet to be made.

V. Material Approvals which have expired and renewal yet to be applied for

As on the date of the Placement Document, there are no material approvals required to be obtained by National Highways Infra Trust, for which applications are yet to be made.

Except as stated in this section, there are no material litigations and actions by regulatory authorities, in each case against the Trust, the Project SPVs, the Sponsor, the Sponsor Group, the Investment Manager, the Project Manager and the Trustee as on the date of this Placement Document. Further, since (i) the Sponsor is a body corporate whose capital is funded by the Central Government and members are appointed and executive decisions taken by the President of India (acting through the Department of Personnel and Training and MoRTH), and (ii) the President of India is the Promoter of the Investment Manager, persons or entities that may be classified as "associates" of the Sponsor and Investment Manager in terms of Regulation 2(1)(b)(ii) and Regulation 2(1)(b)(iii) of the InvIT Regulations, it has not been identified as 'associates' of the Sponsor and the Investment Manager. Additionally, since the Project Manager is a is a wholly-owned subsidiary of the Sponsor, it has not been identified as 'associates' of the Sponsor and the Investment Manager.

For the purpose of this section, details of all regulatory actions and criminal matters involving the Trust, the Project SPVs, the Sponsor, the Investment Manager, the Project Manager, and the Trustee, that are currently pending, have been disclosed. Further, any matter involving an amount equivalent to, or more than, the amount as disclosed below, in respect of the Trust, the Sponsor, the Investment Manager, the Project Manager and each of their Associates, and the Trustee has been disclosed.

In respect of the Sponsor, the Sponsor Group, all outstanding civil matters which involve an amount exceeding ₹ 5,000 million, have been considered material. All cases where the amount is not ascertainable, but considered material, have been disclosed.

For the Investment Manager, all outstanding civil matters which involve an amount exceeding ₹ 10 million, have been considered material. However, the Investment Manager does not have any outstanding litigation.

For the Project Manager, all outstanding civil matters which involve an amount exceeding ₹ 1 million, have been considered material. However, the Project Manager does not have any outstanding litigation.

For NEPPL, all outstanding civil matters which involve an amount exceeding ₹ 500 million or 5 per cent of the total revenue of NEPPL, as per the latest audited financial statements, whichever is higher have been considered material. However, NEPPL does not have any outstanding litigation.

For NWPPL, all outstanding civil matters which involve an amount exceeding ₹ 500 million or 5 per cent of the total revenue of NWPPL as per its latest annual audited financial statements of the Company, whichever is higher, have been considered material. However, NWPPL does not have any outstanding litigation.

For NSPPL, all outstanding civil matters which involve an amount which is or exceeds 1% of the net-worth of the Trust, as per the latest audited financial statements, have been considered material. However, NSPPL does not have any outstanding litigation.

For the Trustee, all outstanding cases involving the Trustee have been disclosed.

Further, all pending cases, where the amount is not ascertainable but considered material by the Trust, the Sponsor, the Investment Manager, the Project Manager or any of their Associates and the Trustee as on the date of this Placement Document have been disclosed. Also, in cases where outcome of one litigation impacts one or more other litigations, which individually are below materiality threshold, but collective above, such cases have also been disclosed.

I. Litigation involving the Trust

There are no pending criminal, regulatory or other material litigations involving the Trust as on the date of this Placement Document.

II. Litigation involving Associates of the Trust

As on the date of this Placement Document, the Trust does not have any Associate.

III. Litigations involving the Project SPVs

Other than what is disclosed below, there are no pending criminal, regulatory or other material litigations involving the Project SPVs as on the date of this Placement Document.

Regulatory matters

1. NWPPL received a notice dated June 12, 2023 from the Deputy Registrar of Stamps, Government of Karnataka ("**GOK**") under article 32(A)(i) of the Karnataka Stamp Act, 1957, informing NHIPPL to pay the deficit stamp duty amounting to Rs. 699.00 million on the license agreement entered into between NHIPL with NHAI ("**Concession Agreement**"). Pursuant to receipt of such notice NHIPPL vide letter dated July 4, 2023, sought additional information to ascertain the basis of seeking additional stamp duty on the Concession Agreement. Subsequently, NHIPPL vide letter date July 4, 2023, informed NHAI of receipt of such letter from GOK. NHAI with several letters informed GOK

that the Concession Agreement was adequately stamped and requested them to withdraw all claims. Pursuant to these clarifications GOK reiterated that the NHIPPL was liable to pay the deficit stamp duty amount of Rs. 699.00 million. Further, NHIPPL has with letter dated March 5, 2024 clarified that they are not liable to pay the deficit stamp duty as GOK's reasoning is contrary to the law. The matter is currently pending.

2. A demand notice for alleged deficit stamp duty has been issued by the Department of Stamps and Registration, Office of Deputy Commissioner of Stamps & District Registrar Belagavi, State of Karnataka dated 28.11.2024 to NEPPL. The notice alleges that the stamp duty paid by NEPPL on the Concession Agreement dated 07.03.2024 executed with National Highways Authority of India (**NHAI**) for toll collection, operation, management, and maintenance of the project highway Chitradurga Bypass stretching from Km 0+000 to Km 20+700 km, (ii) Chitradurga-Davanagere from Km 208+000 to Km 260+000, (iii) Davanagere- Haveri from Km 260+000 to 338+923, and (iv) Haveri-Hubli from Km 340+000 to Km 403+000 of NH 48 in the State of Karnataka is insufficient. The department has demanded an additional stamp duty amounting to ₹99,35,32,740. The demand is primarily based on the ground as per article 30(A)(iv) of Karnataka Stamp Act, 1957 which states that if the period of license is more than 10 years and not exceeding 20 years the stamp duty has to be paid at the rate of 2% for every one hundred rupees or part thereof on the total amount or value of the average annual rent, premium, fine and money advance. NEPPL recently submitted a response to the department, asserting, among other points, that the concerned authority must provide a reasonable opportunity to be heard to the affected party before taking any action. A response thereof is currently awaited.

IV. Litigations involving the Associates of the Project SPVs

Please see the section entitled " – *Litigations involving the Associates of the Sponsor*" below.

V. Litigations involving the Sponsor and the Sponsor Group

Criminal matters

There are no pending criminal litigations involving the Sponsor or the Sponsor Group as on the date of this Placement Document.

Regulatory matters

1. An application was filed by Amresh Singh against Union of India and others including NHAI before the National Green Tribunal **("Tribunal")** alleging the rampant dumping of soil by NHAI contractors directly in the river Chenab and Tawi without prior environmental clearance. After considering all the documents placed on record, while referring the report of Monitoring Committee, the Tribunal was not satisfied with the actions taken by NHAI, and accepted the recommendations of the Monitoring Committee and directed the J&K Pollution Control Board to take appropriate actions in consultation with CPCB against the names mentioned in the report of the Monitoring Committee. The Bench also directed NHAI to take strict actions against the non-compliant contractors and sub-contractors at the HQ level. The matter is currently pending.

2. An application was filed before the National Green Tribunal Principal Bench, New Delhi regarding the Ghazipur Dump Site and the environmental problems that are caused due to the unsegregated, un-recycled large mountain of dump. The Sponsor was not a party to these proceedings till 2017 and East Delhi Municipal Corporation **("EDMC")** had been exploring the implementation of a project to undertake the removal and processing of the municipal solid waste dumped at the site. In view of the same, the EDMC held discussions with the Sponsor for use of solid waste for construction of embankments in the expansion of NH-24 or other National Highway projects undertaken by the Sponsor. In view of our role, we were impleaded in the case in 2017. The matter is currently pending.

Other material litigation

Considering the business and purpose of the Sponsor, it is imperative for the Sponsor to have an effective mechanism for the acquisition of land for building roads. Taking this need of the Sponsor into account, the parliament has enacted the NH Act,.a special enactment which oven-ides the Land Acquisition Act. 1894 in cases where the land is acquired for the purposes of building National Highways. The Parliament has enacted the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013, which is applicable to land acquisitions under NH Act with effect from January 1, 2015 (i.e. one year from the date of commencement of the Act, subject to notification by Central Government). The process of acquiring land is a very cumbersome process and it leads to a large number of disputes. At present there are approximately 72,000.

VI. Litigations involving the Associates of the Sponsor

As on the date of this Placement Document, other than as disclosed below, there are no pending criminal or material litigations or regulatory actions involving the Associates of the Sponsor.

VII. Litigations involving the Project Manager

There are no pending criminal, regulatory or other material litigations involving the Project Manager as on the date of this Placement Document.

VIII. Litigations involving the Associates of the Project Manager

Please see the section entitled " – *Litigations involving the Associates of the Sponsor*" above.

IX. Litigations involving the Investment Manager

There are no pending criminal, regulatory or other material litigations involving the Investment Manager as on the date of this Placement Document.

X. Litigations involving the Associates of the Investment Manager

As the President of India is the Promoter of the Investment Manager, persons or entities that may be classified as 'associates' of the Investment Manager in terms of Regulation 2(1)(b)(ii) and Regulation 2(1)(b)(iii) of the InvIT Regulations, have not been identified as 'associates' of the Investment Manager. Consequently, information or disclosures required to be included with respect to such persons or entities pursuant to the InvIT Regulations has not been included in this Placement Document.

XI. Litigations involving the Trustee

1. SBICAP Trustee Company Limited (the "**Plaintiff**") had filed a suit before the City Civil Court, Bangalore against the Trustee and others (the "**Defendants**") requiring sale of pledged shares for a particular price by SREI Fund/Investors, for whom the Trustee was acting as the share pledge trustee. The Plaintiff was acting for a consortium of lenders and has residual interest. The aggregate claim amount is ₹1,550.30 million. The Trustee had filed an application seeking its removal from the suit and deletion of its name from the array of parties. Further, the Plaintiff had filed an interlocutory application before the City Civil Court, Bangalore ("Interlocutory Application") seeking recovery of complete residual dues received by the Defendants 2& 3 while selling the pledged shares, and which was dismissed. The Plaintiff has filed a writ petition before High Court of Karnataka challenging the dismissal of the Interlocutory Application, and the Trustee has not been impleaded as a party to such writ petition. The matter is currently pending.

2. In the matter of FCRL ESOP Trust of Future Corporate Resources Limited ("**FCRL**"), SEBI Adjudicating Officer has passed an order dated the February 3, 2021, on the ground of insider trading against seven employees of FCRL and FCRL Employees Trust of which the Trustee is a trustee. FCRL along with FCRL Employee Welfare Trust has been jointly and severally directed to disgorge an amount of ₹27.56 million. The Trustee has submitted that the Trustee as a trustee has acted on the instructions of the committee and not liable for insider trading and has not gained or received any amount. The Trustee and FCRL Employee Welfare Trust are separate. All the said persons have filed an appeal before SAT against the said SEBI Order dated the February 3, 2021. On April 19, 2023, SAT has reserved its order and directed certain of the parties to submit their written submissions. Such written submissions have been filed. The matter is currently pending.

3. Pursuant to receipt of information against Trustees Association of India and three of its members, *i.e.*, the Trustee, Axis Trustee Services Limited, and SBI CAP Trustee Company Limited (collectively, the "**Respondents**") for alleged contravention of Sections 3(3) and 4 of the Competition Act, 2002, *i.e.*, for entering into anti-competitive agreements and formation of cartel, the Competition Commission of India (the "**CCI**") passed an order dated December 23, 2021 under Section 26(1) of the Competition Act, 2002 directing the Director General to investigate the conduct of the Respondents and its office bearers for *prima facie* violating Section 3(1) read with Section 3(3) of the Competition Act, 2002.

   In response to the above order, the Respondents filed writ petitions before the High Court of Bombay challenging the jurisdiction of the CCI to decide the matter as SEBI is the sectoral regulator regulating the Respondents. The High Court of Bombay has directed CCI to decide on the jurisdictional issue. The Trustee had filed an application before the CCI for the same, and has subsequently filed additional written submissions before the CCI. The matter is currently pending.

4. R. K. Mohata Family Trust has filed a commercial suit before the High Court of Bombay against the Trustee praying for a meeting of the debenture holders of Reliance Home Finance Limited ("**RHFL**") to be held and also for damages worth ₹10.55 million from the Trustee. Pursuant to an order dated March 31, 2022 read with the orders dated April 6, 2022 and May 10, 2022 from the High Court of Bombay, the Trustee has convened a meeting of the debenture holders of RHFL and the results of the voting on matters taken up at such meeting have been placed before the High Court of Bombay. The matter is currently pending.

   Further, pursuant to a special leave petition filed by Authum Investments & Infrastructure Limited **("AIIL")** before the Supreme Court of India, the Supreme Court of India had allowed the resolution plan submitted by AIIL and had directed AIIL to make the necessary payments within the prescribed period. AIIL has complied with such direction of the Supreme Court of India.

   Subsequent to the above, a petition of contempt has been filed by Praduman Tandon and others against the order of the Supreme Court of India alleging that that the resolution plan and the distribution mechanism was not known. The matter is currently pending.

5. A suit was instituted before the Supreme Court of Mauritius (the "**Court**") in 2014 against Dynamic India Fund III ("**DIF III**"), International Financial Services Limited ("**IFS**"), ICICI Venture Funds Management Company Limited ("**ICICI Venture**"), ICICI Bank Limited ("**ICICI Bank**") and the Trustee (collectively, the "**Defendants**"), by certain investors of DIF III claiming damages to the tune of $103.69 million for the loss of their investments in DIF III.

   The Defendants have raised various preliminary objections to the suit, including on the jurisdiction of the Court to decide on disputes involving non-residents of Mauritius. By way of an order dated June 9, 2020, the Court stayed the proceedings against ICICI Venture and ICICI Bank on the grounds that the allegations made against these entities did not take place in Mauritius and therefore, the Court lacked jurisdiction to adjudicate on such matters. Subsequently, the plaintiffs informed that the Court of their decision not to appeal against such order. Thereafter, by way of an order dated June 3, 2022, the Court deleted ICICI Venture and ICICI Bank from the array of parties involved in the suit, thereby allowing the suit to continue against DIF III, IFS and the Trustee. The plaintiffs have filed an appeal against the order dated June 3, 2022. ICICI Venture, the investment manager of DIF III, is handling and taking care of the matter on behalf of the Trustee, who was acting as a trustee to DIF III. The matter is currently pending.

6. In the matter involving Karvy Data Management Services Limited **("KDMSL")**, Pawan Kapoor and Amri Resorts Private Limited (in their capacities as debenture holders) filed a writ petition before the High Court of Delhi against the Trustee and others alleging certain non-compliances including inaction against KDMSL for defaults in payment of interest and principal. The High Court of Delhi has directed the Ministry of Corporate Affairs, Government of India to investigate the complaint and such investigation is ongoing. The matter is currently pending.

7. Kamalakar B. P has filed declaratory civil suit before the Court of Civil Judge (Senior Division), Thane, pursuant to which the Trustee has received a notice dated July 28, 2023. The Plaintiff has sought for (i) declaration of deed of mortgage by a defendant to another in favour of the Trustee as void, illegal, invalid, non-est, not binding on the Plaintiff; (ii) permanent injunction from entering into the suit property, sale in auction and/ or agreeing to sell the suit property in auction; and (iii) temporary injunction from the sale of the suit property. Written statements and affidavit in reply have been filed before the court. The matter is currently pending.

8. CBM Constructions LLP, a holder of debentures issued by Three C Green Developers Private Limited, has filed a suit dated August 23, 2023 before the Senior Civil Judge cum RC, South East, Saket, New Delhi, praying for, inter alia, the Trustee to transfer pledged shares of certain defendants. The Trustee has complied with such prayer and filed an application for the deletion of its name from the array of parties. The matter is currently pending.

9. DSP Asset Managers Private Limited has filed a company application dated January 16, 2024 before the Mumbai Bench of the National Company Law Tribunal praying for condonation of delay in filing claims against Infrastructure Leasing & Financial Services Limited. The Trustee is acting as the debenture trustee in relation to certain debentures

issued by IL&FS Transportations Networks Limited, a subsidiary of Infrastructure Leasing & Financial Services, and the Plaintiff has alleged that the Trustee has delayed in filing their claim with Grant Thornton (Bharat) LLP for admission. The Trustee is in the process of filing its written statement in response to the application. The matter is currently pending.

10. In the case of Spenta Suncity Private Limited, Monivedda Consultant LLP, one of the stakeholder has filed civil appeal and contempt petition against the Trustee and its Managing Director for alleged violations of order dated December 16, 2022 passed by the Supreme Court of India to make further allotment of debentures and create further liabilities on the assets. At the hearing held on March 11, 2024, the Trustee has filed counter replies in both civil appeal and contempt petition before Supreme Court of India. At the hearing held on May 13, 2024, the Trustee has been directed to file affidavit/undertaking confirming that it is not carrying out any constructions nor it has authorised anyone to carry out constructions including Spenta Suncity Private Limited. The required Affidavit/Undertaking was filed by the Trustee and the matter is currently pending.

11. A summary suit has been filed before City Civil Court at Dindoshi (Borivali Division), Goregaon, Mumbai by Francis Cassian Mendis against Heida Aloysious Gomes and nine others include the Trusteechallenging the conveyance deed dated May 18, 1981 all all other conveyances executed thereafter and mortgage dated September 9, 2021 created in favour of the Trustee by Spenta Suncity Private Limied and a permanent order and injunction restraining the defendants from carrying out any constructions/development activity on the disputed property. The matter is currently pending and has now been listed on April 22, 2025.

12. In the matter of Balaji Enterprises versus Essel Lucknow Raibareli Toll Road Limited and other, before the Court of District and Sessions Judge, Rohini Commercial Court, North West Delhi, the Trustee has received Summons from the Court of District & Sessions Judge, Rohini Commercial Court, North West Delhi on July 11, 2024 for the alleged unpaid amount of Rs. 80,35,732, towards construction contracts executed by it. The matter is currently pending and the next date of hearing is scheduled on August 21, 2025.

13. In the matter of Spanhaus Traders LLP versus JLS Realty, Spenta Suncity Private Limited, Trustee and Rajat Jhunjhunwala before Bombay High Court, the Trustee has been made a respondent. The matter pertains to a loan allegedly advanced by Spanhaus Traders LLP to JLS Realty Private Limited. Spanhaus Traders LLP is that the sale of the disputed land by JLS Realty Private Limited was carried out fraudulently, illegally, and with the intent to defeat and frustrate the claims of Spanhaus Traders LLP . Spanhaus Traders LLP has sought that the deed of conveyance dated September 8, 2021 executed by JLS in favour of Spenta and other documents executed in relation to the transaction by Spenta in favour of the Trustee be declared invalid, illegal, non-est, void and not binding on Spanhaus Traders LLP and ordered to be cancelled and the respondents be be directed to make payment of sum of Rs. 118,16,80,355 along with interest . The matter is currently pending.

14. In the matter of Pawan Kappor versus State of Delhi NCT and others, a criminal revision petition has been filed before Session & District Court Tis Hazari, New Delhi. The criminal revision petition filed by Pawan Kapoor and debenture holders of Karvy Data Management Services Limited for reinstating the investigation in the issuer company which was rejected by the CMM, Tis Hazari Court, New Delhi alleging that there has been breach of trust by Trustee as a Debenture Trustee, lleged collusion between the Trustee and the issuer company and that the Trustee has not taken any action against the issuer company after the default in payment of dues to debenture holders. The matter is currently pending.

15. In the matter of Narayanamma versus Thammaiah before City Civil and Sessions Judge, Bangalore, the Trustee has been impleaded as a respondent in summons. The matter is currently pending and the next date of hearing is April 16, 2025.

16. In the matter of Sulochana versus India Cement Limited and other before the Principal District Court, Ariyalur, Chennai, the Trustee has been impleaded as a respondent. The matter is currently pending and the next date of hearing is April 7, 2025.

17. In the matter of Madhu Prasad versus Punniyama and others before Principal Subordinate Court, Krishnagiri, Tamilnadu, the Trustee has been made a party to the suit which pertains to partition of properties and the Trustee has released the charge on the disputed properties and executed a release deed and accordingly filed its reply in the matter. The matter is currently pending and the next date of hearing is March 25, 2025.

SECURITIES MARKET OF INDIA

The information in this section has been extracted from documents available on the website of SEBI and the Stock Exchange and has not been prepared or independently verified by the Parties to the InvIT or any of their respective affiliates or advisors.

The Indian Securities Market

India has a long history of organized securities trading. In 1875, the first stock exchange was established in Mumbai. BSE and NSE together hold a dominant position among the stock exchanges in terms of the number of listed companies, market capitalisation and trading activity.

Stock Exchange Regulation

Indian stock exchanges are regulated primarily by SEBI, as well as by the Government acting through the Ministry of Finance, Capital Markets Division, under the SCRA and the SCRR. SEBI, in exercise of its powers under the SCRA and the SEBI Act, notified Securities Contract (Regulation) (Stock Exchanges and clearing Corporations) Regulations, 2018 (the "**SCR (SECC) Regulations**"), which regulate *inter alia* the recognition, ownership and internal governance of stock exchanges and clearing corporations in India together with providing for minimum capitalisation requirements for stock exchanges. The SCRA, the SCRR and the SCR (SECC) Regulations along with various rules, bye-laws and regulations of the respective stock exchanges, regulate the recognition of stock exchanges, the qualifications for membership thereof and the manner, in which contracts are entered into, settled and enforced between members of the stock exchanges.

The SEBI Act empowers SEBI to regulate the Indian securities markets, including stock exchanges and intermediaries in the capital markets, promote and monitor self-regulatory organisations and prohibit fraudulent and unfair trade practices. Regulations concerning minimum disclosure requirements by public companies, rules and regulations concerning investor protection, insider trading, substantial acquisitions of shares and takeover of companies, buy-backs of securities, employee stock option schemes, stockbrokers, merchant bankers, underwriters, mutual funds, foreign institutional investors, credit rating agencies and other capital market participants have been notified by the relevant regulatory authority.

Listing and Delisting of Securities

The InvIT Regulations provide for listing and delisting of units of InvITs on and from the stock exchanges.

BSE

Established in 1875, it is the oldest stock exchange in India. In 1956, it became the first stock exchange in India to obtain permanent recognition from the Government under the SCRA. It has evolved over the years into its present status as one of the premier stock exchanges of India. Pursuant to the BSE (Corporatization and Demutualization) Scheme 2005 of SEBI, with effect from August 19, 2005, BSE was incorporated as a company under the Companies Act, 1956. The equity shares of BSE were listed on NSE on February 3, 2017.

NSE

NSE was established by financial institutions and banks to provide nationwide online, satellite-linked, screen-based trading facilities with market-makers and electronic clearing and settlement for securities including government securities, debentures, public sector bonds and units. It has evolved over the years into its present status as one of the premier stock exchanges of India. NSE was recognised as a stock exchange under the SCRA in April 1993 and commenced operations in the wholesale debt market segment in June 1994. The capital market (equities) segment commenced operations in November 1994 and operations in the derivatives segment commenced in June 2000.

Internet-based Securities Trading and Services

Internet trading takes place through order routing systems, which route client orders to exchange trading systems for execution. Stockbrokers interested in providing this service are required to apply for permission to the relevant stock exchange and also have to comply with certain minimum conditions stipulated by SEBI. NSE became the first exchange to grant approval to its members for providing internet-based trading services. Internet trading is possible on both the "equities" as well as the "derivatives" segments of NSE.

Trading Hours

Trading on both NSE and BSE occurs from Monday to Friday, between 9:15 a.m. and 3:30 p.m. 1ST (excluding the 15 minutes pre-open session from 9:00 a.m. to 9:15 a.m. that has been introduced recently). BSE and NSE are closed on public holidays. The recognised stock exchanges have been permitted to set their own trading hours (in the cash and derivatives segments) subject to the condition that (i) the trading hours are between 9.00 a.m. and 5.00 p.m and (ii) the stock exchange has in place a risk management system and infrastructure commensurate to the trading hours.

Trading Procedure

This totally automated screen based trading in securities was put into practice nationwide. This has enhanced transparency in dealings and has assisted considerably in smoothening settlement cycles and improving efficiency in back-office work. In the year 2004, BSE introduced its new generation trading platform, BOLT Plus.

NSE has introduced a fully automated trading system called National Exchange for Automated Trading ("**NEAT**"), which operates on strict time/price priority besides enabling efficient trade. NEAT has provided depth in the market by enabling large number of members all over India to trade simultaneously, narrowing the spreads.

Depositories

The Depositories Act provides a legal framework for the establishment of depositories to record ownership details and effect transfer in book-entry form. Further, SEBI framed regulations in relation to the registration of such depositories, the registration of participants as well as the rights and obligations of the depositories, participants, companies and beneficial owners. The depository system has significantly improved the operation of the Indian securities markets.

SELLING AND TRANSFER RESTRICTIONS

The distribution of this Placement Document and the offer, sale or delivery of the Units is restricted by law in certain jurisdictions. Persons who may come into possession of this Placement Document are advised to consult with their own legal advisors as to what restrictions may be applicable to them and to observe such restrictions. This Placement Document may not be used for the purpose of an offer or invitation in any circumstances. Due to the following restrictions, investors are advised to consult legal counsel prior to purchasing or subscribing to the Units or making any resale, pledge or transfer of the Units.

Republic of India

This Placement Document may not be distributed directly or indirectly in India or to residents of India and any Units may not be offered or sold directly or indirectly in India to, or for the account or benefit of, any resident of India except as permitted by applicable Indian laws and regulations.

The Units may not be offered or sold, directly or indirectly, and this Placement Document, any offering materials and any advertisements in connection with the offering of the Units may be distributed or published in or from any country or jurisdiction except under circumstances that will result in compliance with any applicable rules and regulations of any such country or jurisdiction. The Issue will be made in compliance with the applicable SEBI InvIT Regulations.

Australia

This Placement Document:

1. does not constitute a product disclosure document or prospectus under Chapter 6D.2 of the Corporations Act, 2001 (Cth) ("**Australian Corporations Act**");

2. has not been, and will not be, lodged with the Australian Securities and Investments Commission ("**ASIC**"), as a disclosure document for the purposes of the Corporations Act and does not purport to include the information required of a disclosure document under Chapter 6D of the Australian Corporations Act;

3. does not constitute or involve a recommendation to acquire, an offer or invitation for issue or sale, an offer or invitation to arrange the issue or sale, or an issue or sale, of interests to a "retail client" (as defined in section 761G of Australian Corporations Act and applicable regulations) in Australia; and

4. may only be provided in Australia to select investors who are able to demonstrate that they fall within one or more of the categories of investors, or Exempt Investors, available under section 708 of the Australian Corporations Act.

The Units may not be directly or indirectly offered for subscription or purchased or sold, and no invitations to subscribe for or buy the Units may be issued, and no draft or definitive Placement Document, advertisement or other offering material relating to any Units may be distributed in Australia, except where disclosure to investors is not required under Chapter 6D of the Australian Corporations Act or is otherwise in compliance with all applicable Australian laws and regulations. By submitting an application for the Units, you represent and warrant to us that you are an Exempt Investor.

As any offer of Units under this Placement Document will be made without disclosure in Australia under Chapter 6D.2 of the Australian Corporations Act, the offer of those securities for resale in Australia within 12 months may, under section 707 of the Australian Corporations Act, require disclosure to investors under Chapter 6D.2 if none of the exemptions in section 708 applies to that resale. By applying for the Units you undertake to the Trust, the Investment Manager and the Lead Managers that you will not, for a period of 12 months from the date of issue of the Units, offer, transfer, assign or otherwise alienate those securities to any person in Australia except in circumstances where disclosure to such person is not required under Chapter 6D.2 of the Australian Corporations Act or where a compliant disclosure document is prepared and lodged with ASIC.

British Virgin Islands

The Units are not being, and may not be offered to the public or to any person in the British Virgin Islands for purchase or subscription by or on the behalf. The Units may be offered to companies incorporated under the BVI Business Companies Act, 2004 (British Virgin Islands) (each a "**BVI Company**"), but only where the offer will be made to, and received by, the relevant BVI Company entirely outside of the British Virgin Islands.

This Placement Document has not been, and will not be, registered with the Financial Services Commission of the British Virgin Islands. No registered prospectus has been or will be prepared in respect of the Units for the purposes of the Securities and Investment Business Act, 2010 or the Public Issuers Code of the British Virgin Islands.

Canada

Units may be sold in Canada only to purchasers purchasing, or deemed to be purchasing, as principal that are both accredited investors, as defined in National Instrument 45-106 *Prospectus Exemptions* or subsection 73.3(1) of the

Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 *Registration Requirements, Exemptions and Ongoing Registrant Obligations*. Any resale of the Units must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable Canadian securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this Placement Document (including any amendment hereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser's province or territory for particulars of these rights or consult with a legal advisor.

Under Canadian securities laws, National Instrument 33-105 *Underwriting Conflicts* ("**NI 33-105**") provides disclosure requirements with respect to potential conflicts of interest between an issuer and underwriters, dealers or placement agents, as the case may be. To the extent any conflict of interest between us and any of the underwriters (or any other placement agent acting in connection with this offering) may exist in respect of this offering, the applicable parties to this offering are relying on the exemption from these disclosure requirements provided to them by section 3A.3 of NI 33-105 (Exemption based on U.S. disclosure).

Upon receipt of this Placement Document, each Canadian purchaser is hereby deemed to confirm that it has expressly requested that all documents evidencing or relating in any way to the sale of the Units described herein (including, for the avoidance of doubt, any purchase confirmation or any notice) be drawn up in the English language only.

Cayman Islands

No offer or invitation to subscribe for Units may be made to the public in the Cayman Islands to subscribe for any of the Units but an invitation or offer may be made to sophisticated persons (as defined in the Cayman Islands Securities Investment Business Law (the "**SIBL**"), high net worth persons (as defined in the SIBL) or otherwise in accordance with the SIBL.

Hong Kong

Each Lead Manager has represented, warranted and agreed that:

(i) it has not offered or sold and will not offer or sell in Hong Kong, by means of any document, any Units other than (a) to "professional investors" as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong (the "**SFO**") and any rules made under the SFO; or (b) in other circumstances which do not result in the document being a "prospectus" as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong (the "**CWUMPO**") or which do not constitute an offer to the public within the meaning of the CWUMPO; and

(ii) it has not issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere any advertisement, invitation or document relating to the Units, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong), other than with respect to Units which are or are intended to be disposed of only to persons outside Hong Kong or only to "professional investors" as defined in the SFO and any rules made under the SFO.

Indonesia

The Units have not been, and will not be, registered with the Indonesia Financial Service Authority (Otoritas Jasa Keuangan or OJK) in Indonesia, and therefore, the Units may not be offered and/or sold within the territory of Indonesia or to Indonesian citizens or entities, wherever domiciled, or to Indonesian residents, in a manner which constitutes a public offering under Law No. 8 of 1995 on Capital Markets and the implementing regulations or private placement under OJK Regulation No. 30/POJK.04/2019 on the Privately Issued Debt-Linked Securities and/or Sukuk.

Japan

The Units offered hereby have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Law. No. 25 of 1948 as amended) (the "**FIEA**"). Accordingly, no Units have, directly or indirectly, been offered or sold, and may not, directly or indirectly, be offered or sold in Japan including for the benefit of any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organised under the laws of Japan) or to others for re-offering or re-sale, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and other relevant laws and regulations of Japan.

Kuwait

This Placement Document is not for general circulation to the public in Kuwait. The Units have not been licensed for offering in Kuwait by the Kuwait Capital Markets Authority or any other relevant Kuwaiti government agency. The

offering of the Units in Kuwait on the basis a private placement or public offering is, therefore, restricted in accordance with Law No. 7 of 2010 and the bylaws thereto (as amended). No private or public offering of the Units is being made in Kuwait, and no agreement relating to the sale of the Units will be concluded in Kuwait. No marketing or solicitation or inducement activities are being used to offer or market the Units in Kuwait.

Malaysia

No prospectus or other offering material or document in connection with the offer and sale of the Units has been or will be registered with the Securities Commission of Malaysia ("**Commission**") for the Commission's approval pursuant to the Capital Markets and Services Act 2007. Accordingly, this Placement Document, and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Units may not be circulated or distributed, nor may the Units be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Malaysia other than (i) a closed end fund approved by the Commission; (ii) a holder of a Capital Markets Services Licence; (iii) a person who acquires the Units, as principal, if the offer is on terms that the Units may only be acquired at a consideration of not less than RM250,000 (or its equivalent in foreign currencies) for each transaction; (iv) an individual whose total net personal assets or total net joint assets with his or her spouse exceeds RM3 million (or its equivalent in foreign currencies), excluding the value of the primary residence of the individual; (v) an individual who has a gross annual income exceeding RM300,000 (or its equivalent in foreign currencies) per annum in the preceding twelve months; (vi) an individual who, jointly with his or her spouse, has a gross annual income of RM400,000 (or its equivalent in foreign currencies), per annum in the preceding twelve months; (vii) a corporation with total net assets exceeding RM10 million (or its equivalent in a foreign currencies) based on the last audited accounts; (viii) a partnership with total net assets exceeding RM10 million (or its equivalent in foreign currencies); (ix) a bank licensee or insurance licensee as defined in the Labuan Financial Services and Securities Act 2010; (x) an Islamic bank licensee or takaful licensee as defined in the Labuan Financial Services and Securities Act 2010; and (xi) any other person as may be specified by the Commission; provided that, in the each of the preceding categories (i) to (xi), the distribution of the Units is made by a holder of a Capital Markets Services Licence who carries on the business of dealing in securities. The distribution in Malaysia of this Placement Document is subject to Malaysian laws. This Placement Document does not constitute and may not be used for the purpose of public offering or an issue, offer for subscription or purchase, invitation to subscribe for or purchase any securities requiring the registration of a prospectus with the Commission under the Capital Markets and Services Act 2007.

Mauritius

The Units may not be offered or sold, directly or indirectly, to the public in Mauritius. Neither this Placement Document nor any offering material or information contained herein relating to the offer of the Units may be released or issued to the public in Mauritius or used in connection with any such offer. This Placement Document does not constitute an offer to sell the Units to the public in Mauritius and is not a prospectus as defined under the Companies Act 2001.

New Zealand

This Placement Document is not a prospectus. It has not been prepared or registered in accordance with the Securities Act 1978 of New Zealand (the "**New Zealand Securities Act**"). This Placement Document is being distributed in New Zealand only to persons whose principal business is the investment of money or who, in the course of and for the purposes of their business, habitually invest money, within the meaning of section 3(2)(a)(ii) of the New Zealand Securities Act ("**Habitual Investors**"). By accepting this Placement Document, each investor represents and warrants that if they receive this Placement Document in New Zealand, they are a Habitual Investor and they will not disclose this Placement Document to any person who is not also a Habitual Investor.

Singapore

This Placement Document has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this Placement Document and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the Units may not be circulated or distributed, nor may the Units be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to any person in Singapore other than (i) to an institutional investor (as defined in Section 4A of the Securities and Futures Act 2001 of Singapore as modified and amended from time to time (the "**SFA**")) pursuant to Section 274 of the SFA, (ii) to a relevant person (as defined in Section 275(2) of the SFA) pursuant to Section 275(1) of the SFA, or any person pursuant to Section 275(1A) of the SFA, and in accordance with the conditions specified in Section 275 of the SFA, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

*Singapore SFA Product Classification: In connection with Section 309B of the SFA and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the "**CMP Regulations 2018**"), the Trust has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA) that the Units are: 'prescribed capital markets products' (as defined in the CMP Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).*

South Korea

We are not making any representation with respect to the eligibility of any recipients of this document to acquire the Units therein under the laws of Korea, including, but without limitation, the Foreign Exchange Transaction Law and Regulations thereunder. The Units have not been and will not be registered under the Financial Investment Services and Capital Markets Act of Korea (the "**FSCMA**"). Accordingly, the Units may not be offered, sold or delivered, or offered or sold to any person for re-offering or resale, directly or indirectly, in Korea or to, or for the account or benefit of, any resident of Korea (as such term is defined under the Foreign Exchange Transaction Law of Korea and its Enforcement Decree), for a period of one year from the date of issuance of the Units, except (i) where relevant requirements are satisfied, the Units may be offered, sold or delivered to or for the account or benefit of a Korean resident which falls within certain categories of qualified professional investors as specified in the FSCMA, its Enforcement Decree and the Regulation on Securities Issuance and Disclosure promulgated thereunder, or (ii) as otherwise permitted under applicable Korean laws and regulations.

Furthermore, the Units may not be re-sold to Korea residents unless the purchaser of the Units complies with all applicable regulatory requirements (including, but not limited to, governmental approval requirements under the Foreign Exchange Transaction Law and its subordinate decrees and regulations) in connection with purchase of the Units.

Taiwan

The Units have not and will not be registered with the Financial Supervisory Commission of Taiwan pursuant to relevant securities laws and regulations and may not be sold, issued or offered within Taiwan through a public offering or in circumstances which constitutes an offer within the meaning of the Securities and Exchange Act of Taiwan that requires a registration or approval of the Financial Supervisory Commission of Taiwan. No person or entity in Taiwan has been authorized to offer, sell, give advice regarding or otherwise intermediate the offering and sale of the Units in Taiwan.

United States of America

Each purchaser acknowledges and represents that:

i. it understands and agrees that the Units have not been and will not be registered under the Securities Act or with any securities regulatory authority of any state, territory or other jurisdiction of the United States and may not be offered, resold, pledged or otherwise transferred, except (1) in an offshore transaction complying with Rule 903 or Rule 904 of Regulation S, (2) pursuant to an exemption from the registration requirements of the Securities Act, or (3) pursuant to an effective registration statement under the Securities Act and (4) in accordance with all applicable securities laws of any state, territory or other jurisdiction of the United States;

ii. it understands that in the event Units are held in certificated form, such certificated Units will bear a legend substantially to the following effect:

"THE SECURITY EVIDENCED HEREBY HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "**SECURITIES ACT**"), ANY STATE SECURITIES LAWS IN THE UNITED STATES OR THE SECURITIES LAWS OF ANY OTHER JURISDICTION AND MAY NOT BE OFFERED, SOLD, PLEDGED OR OTHERWISE TRANSFERRED, EXCEPT: (A) IN AN OFFSHORE TRANSACTION IN ACCORDANCE WITH RULE 903 OR RULE 904 OF REGULATION S UNDER THE SECURITIES ACT; (B) PURSUANT TO AN EXEMPTION FROM THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT; OR (C) PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER THE SECURITIES ACT, IN EACH CASE IN ACCORDANCE WITH ANY APPLICABLE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES. NO REPRESENTATION CAN BE MADE AS TO THE AVAILABILITY OF THE EXEMPTION PROVIDED UNDER THE SECURITIES ACT FOR RESALES OF THIS SECURITY."

iii. any resale made other than in compliance with the above stated restrictions shall not be recognised by the Trust;

iv. it agrees that it will give to each person to whom it transfers Units notice of any restrictions on transfer of such Units; and

v. it acknowledges that the Trust, the Investment Manager, the Sponsor and the Lead Managers and others will rely upon the truth and accuracy of the foregoing acknowledgements, representations and agreements and agrees that, if any of such acknowledgements, representations or agreements deemed to have been made by virtue of its purchase of Units are no longer accurate, it will promptly notify the Trust, the Investment Manager, the Sponsor and the Lead Managers, and if it is acquiring any Units as a fiduciary or agent for one or more accounts, it represents that it has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of each such account.

Other Jurisdictions

The distribution of Placement Document and the offer and sale of the Units may be restricted by law in certain jurisdictions. Persons into whose possession this Placement Document comes are required to inform themselves about, and to observe, any such restrictions to the extent applicable.

RIGHTS OF UNITHOLDERS

The rights and interests of Unitholders are included in this Placement Document and the InvIT Regulations. Under the Trust Deed and the Investment Management Agreement, these rights and interests are safeguarded by the Trustee and the Investment Manager, respectively. Any rights and interests of Unitholders as specified in this Placement Document would be deemed to be amended to the extent of any amendment to the InvIT Regulations.

Beneficial Interest

Each Unit represents an undivided beneficial interest in the Trust. A Unitholder has no equitable or proprietary interest in the InvIT Assets and is not entitled to transfer of the InvIT Assets (or any part thereof) or any interest in the InvIT Assets (or any part thereof) of the Trust. A Unitholder's right is limited to the right to require due administration of the Trust in accordance with the provisions of the Trust Deed and the Investment Management Agreement.

Ranking

No Unitholder of the Trust shall enjoy superior voting or any other rights over another Unitholder. Further, the Units shall not have multiple classes, except for any subordinate Units that may be issued only to the Sponsor and its Associates, where such subordinate units carry only inferior voting or any other rights compared to other Units in the future in accordance with Regulation 4(2)(h) of the InvIT Regulations.

Redressal of grievances

The Investment Manager shall ensure adequate and timely redressal of all Unitholders' grievances pertaining to the activities of the Trust, and the Trustee shall periodically review the status of Unitholders' complaints and their redressal undertaken by the Investment Manager. The Stakeholders' Relationship Committee of the Investment Manager shall monitor the status of complaints and their redressal, and maintain records of grievances and actions taken for the same. For details, please see the section entitled "*Corporate Governance*" on page 101 .

Distribution

The Unitholders shall have the right to receive distribution in accordance with the InvIT Regulations, the Distribution Policy and in the manner provided in this Placement Document. For details, please see the section entitled "*Distribution*" on page 395.

Nominee Directors

Unitholder(s), holding not less than 10% of the total outstanding Units, either individually or collectively, shall be entitled to nominate one director on the board of directors of the Investment Manager. In this regard, we shall undertake the relevant actions in due course in accordance with the SEBI Circular dated September 11, 2023 entitled "SEBI/HO/DDHS-PoD-2/P/CIR/2023/153" and the InvIT Regulations. We have also adopted the Policy on Unitholder Nominee Directors on December 14, 2023, and such policy has been uploaded on the website of the Trust.

Meeting of Unitholders

Meetings of Unitholders will be conducted in accordance with the InvIT Regulations.

Passing of resolutions

1. With respect to any matter requiring approval of the Unitholders:

   (i). a resolution shall be considered as passed when the votes cast by Unitholders, so entitled and voting, in favour of the resolution exceed a certain percentage as specified in the InvIT Regulations, of votes cast against;

   (ii). the voting may be done by postal ballot or electronic mode;

   (iii). a notice of not less than 21 (twenty one) days shall be provided to the Unitholders;

   (iv). voting by any person who is a related party in such transaction, as well as associates of such person(s) shall not be considered on the specific issue; and

   (v). the Investment Manager shall be responsible for all the activities pertaining to conducting of meeting of the Unitholder, subject to oversight by the Trustee.

   However, for issues pertaining to the Investment Manager, including a change in Investment Manager, removal of Investment Manager or change in control of Investment Manager; the Trustee shall convene and handle all activities pertaining to conduct of the meetings. Additionally, for issues pertaining to the Trustee, including change in Trustee, the Trustee shall not be involved in any manner in the conduct of the meeting.

2. For the Trust:

   (i). an annual meeting of all Unitholders shall be held not less than once a year within 120 days from the end of each financial year and the time between two meetings shall not exceed 15 months;

   (ii). with respect to the annual meeting of Unitholders,

      (a). any information that is required to be disclosed to the Unitholders and any issue that, in the ordinary course of business, may require approval of the Unitholders may be taken up in the meeting including:

         - latest annual accounts and performance of the Trust;
         - approval of auditors and fee of such auditors, as may be required;
         - latest valuation reports;
         - appointment of valuer, as may be required; and
         - any other issue;

      (b). for any issue taken up in such meetings which require approval from the Unitholders other than as specified in Regulation 22(6) of the InvIT Regulations and paragraph 4 below, votes cast in favour of the resolution shall be more than the votes cast against the resolution.

3. In case of the following, approval from the Unitholders shall be required where the votes cast in favour of the resolution more than fifty per cent of the total votes cast for the resolution:

   (i). any approval from the Unitholders required in terms of Regulation 18 (*Investment conditions and dividend policy)*, Regulation 19 (*Related Party Transactions*) and Regulation 21 *(Valuation of assets*) of the InvIT Regulations;

   (ii). any borrowings, in excess of the limits specified under Regulation 20(3)(a) of the InvIT Regulations;

   (iii). any transaction, other than any borrowing, the value of which is equal to or greater than 25% (twenty five per cent) of the InvIT Assets;

   (iv). increasing period for compliance with investment conditions to one year in accordance with Regulation 18(5)(c) of the InvIT Regulations;

   (v). any issue, in the ordinary course of business, which in the opinion of the Sponsors or the Trustee or the Investment Manager, is material and requires approval of the Unitholders, if any;

   (vi). any issue of units after initial public offer by an InvIT], in whatever form, other than any issue of units which may be considered by the Board under sub-regulation (5)

   (vii). increasing period for compliance with investment conditions to one year in accordance with clause (c) of sub-regulation (5) of regulation 18.

   (viii). Any de-classification of the status of sponsor.

   (ix). any issue for which SEBI or the stock exchanges requires approval;

4. In case of the following, approval from the Unitholders shall be required where the votes cast in favour of the resolution shall be at least sixty per cent of total votes cast for the resolution:

   (i). any change in Investment Manager including removal of the Investment Manager or change in control of the Investment Manager;

   (ii). the Trustee and Investment Manager proposing to seek delisting of units of the Trust under clause (e) of sub-regulation (1) of regulation 17 of the InvIT Regulations;

   (iii). any issue, not in the ordinary course of business, which in the opinion of the Sponsors or Investment Manager or Trustee requires approval of the Unitholders;

   (iv). any material change in investment strategy or any change in the management fees of the Trust;

   (v). any issue for which SEBI or the designated stock exchanges require approval;

   (vi). any issue taken up on request of the Unitholders including:

(a). removal of the Investment Manager and appointment of another investment manager to the Trust;

(b). removal of the Auditors and appointment of another auditors to the Trust;

(c). removal of the Valuer and appointment of another valuer to the Trust;

(d). any issue which the Unitholders have sufficient reason to believe that is detrimental to the interest of the Unitholders;

(e). change in the Trustee, if Unitholders have sufficient reason to believe that acts of the Trustee are detrimental to the interest of Unitholders; and

(f). delisting of the Trust, if the Unitholders have sufficient reason to believe that such delisting would act in the interest of the Unitholders.

(vii). Any introduction of unit-based employee benefit scheme after an initial offer;

(viii). Any unit based employee benefit scheme proposed at the time of initial offer;

With respect to the rights of the Unitholders under clause 4(vi) above:

(i). not less than 25% of the Unitholders by value, other than any party related to the transactions and its associates, shall apply, in writing, to the Trustee for the purpose;

(ii). on receipt of such application, the Trustee shall require, with the Investment Manager to place the issue for voting in the manner as specified in the InvIT Regulations;

(iii). with respect to clause 4(iv)(e) above, not less than 60% of the Unitholders by value shall apply, in writing, to the Trustee for the purpose.

5. In case of the following, approval from 75% of Unitholders by value shall be required:

(i) In case of any borrowing by the Trust in terms of limit specified in clause (b) of sub-regulation 3 of Regulation 20 of the InvIT Regulations;

(ii) In case that any person other than the Sponsor, its related parties and its associates, acquires Units of the Trust, which taken together with Units held by such person and by persons acting in concert with such persons in the Trust, exceeds 25% of the value of the outstanding Units of the Trust (value of Units held by parties related to the transaction shall not be considered for this specific purpose);

Provided that if the required approval is not received, the person acquiring the Units shall provide an exit option to the dissenting Unitholders to the extent and in the manner as may be specified by SEBI;

(iii) Prior to any change in Sponsor or inducted sponsor or change in control of Sponsor or inducted sponsor or conversion to Self-Sponsored Investment Manager (value of Units held by parties related to the transaction shall not be considered for this specific purpose).

If the required approval is not received:

a. in case of change in Sponsor or inducted sponsor, the proposed inducted sponsor shall provide the dissenting Unitholders an option to exit by buying their units in the manner specified by SEBI;

b. in case of change in control of the Sponsor or inducted sponsor, the said Sponsor or inducted sponsor shall provide the dissenting Unitholders an option to exit by buying their Units in the manner specified by SEBI; and

c. in case of conversion to Self-Sponsored Investment Manager, the Investment Manager shall provide the dissenting unit holders an option to exit by buying their units in the manner specified by the Board

Information rights

The Investment Manager, on behalf of the Trust, shall also submit such information to the Stock Exchange and Unitholders, on a periodical basis as may be required under the InvIT Regulations and the Listing Agreement entered into with the Stock Exchange. The Investment Manager (on behalf of the Trust) shall disclose to the Stock Exchange, Unitholders and SEBI, all such information and in such manner as specified under the InvIT Regulations and such other requirements as may be specified by SEBI. The Investment Manager, on behalf of the Trust, shall also provide disclosures or reports specific to the sector or sub-sector in which the Trust has invested or proposes to invest, in the manner as may be specified by SEBI.

Dispute Resolution

All claims, differences or disputes between the Unitholders and the Investment Manager arising out of or in relation to the activities of the Investment Manager in the securities market shall be submitted to a resolution mechanism that includes mediation and/or conciliation and/or arbitration, in accordance with the procedure specified by SEBI pursuant to the Master Circular for Online Resolution of Disputes in the Indian Securities Market dated December 28, 2023 issued by the SEBI and bearing reference number SEBI/HO/OIAE/OIAE_IAD-3/P/CIR/2023/195, as amended.

No loss or damage or expenses incurred by the investment manager or officers of investment manager, including those in relation to resolution of claims or disputes of investors, shall be met out of the trust property.

The Investment Manager shall redress investor grievances within the timelines specified under the InvIT Regulations in the manner as specified by SEBI.

Buy-back, Listing and Delisting of Units

Any buy-back, listing or delisting of Units, shall be in accordance with the Trust Deed and the InvIT Regulations.

Indicative Issue Timeline

Event	Indicative Date
Bid/ Issue Opening Date	Tuesday, March 18, 2025
Bidders were required to submit completed Application Forms	Bid/ Issue Period
Bid/ Issue Closing Date	Wednesday, March 19, 2025
Dispatch of CANs to successful Bidders	On or about Monday, March 24, 2025
Closing Date	On or about Monday, March 24, 2025
Designated Date	On or about Monday, March 24, 2025
Initiation of refunds, if any, in excess of the amount which was required to be paid by such Bidder pursuant to the Units Allocated to such Bidder	On or about Monday, March 24, 2025
Listing Date	On or about Wednesday, March 26, 2025

The above timetable is indicative and does not constitute any obligation or liability on the Trust, the Investment Manager, the Trustee or the Lead Managers.

While the Investment Manager shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Units on the Stock Exchanges are completed within 2 Working Days from the date of Allotment, the timetable may change due to various factors, such as, any delay in receiving the final listing and trading approvals from the Stock Exchanges. The commencement of trading of the Units will be entirely at the discretion of the Stock Exchanges and in accordance with applicable law.

ISSUE PROCEDURE

The following is a summary intended to present a general outline of the procedure relating to the application, payment of Application Amount, Allocation and Allotment of the Units. The procedure followed in the Issue may differ from the one mentioned below and investors are assumed to have apprised themselves of the same from the Investment Manager or the Lead Managers. Investors are advised to inform themselves of any restrictions or limitations that may be applicable to them and are required to consult their respective advisors in this regard. Investors that apply in the Issue will be required to confirm, and will be deemed to have represented to us, the Trustee, the Investment Manager, the Lead Managers and their respective directors, officers, agents, advisors, affiliates and representatives, that they are eligible under all applicable law, rules, regulations and guidelines to bid for, acquire and hold the Units in the Issue. For further details please see the section entitled "Selling and Transfer Restrictions" on page 432 . The Trust, the Investment Manager, the Trustee, the Lead Managers and their respective directors, officers, agents, advisors, affiliates and representatives accept no responsibility or liability for advising any investor on whether such investor is eligible to bid for, acquire or hold the Units in the Issue. The Trustee or the Investment Manager are acting on behalf of the Trust.

The Trust, the Investment Manager, and their respective directors, officers, agents, advisors, affiliates and representatives are not liable for any amendment or modification or change to applicable laws or regulations, which may occur after the date of this Placement Document. Investors are advised to make their independent investigations and satisfy themselves that they are Eligible Investors and are eligible to apply in the Issue. Eligible Investors are advised to ensure that any single Bid from them does not exceed the investment limits or maximum number of Units that can be held by them under applicable law or regulation or as specified in this Placement Document. Further, Eligible Investors shall be solely responsible for compliance with applicable securities laws, including the SEBI (Prohibition of Insider Trading) Regulations, 2015 and the UPSI Policy, other applicable law and dealing in securities of the Trust.

Authority for the Issue

THE PRELIMINARY PLACEMENT DOCUMENT AND THIS PLACEMENT DOCUMENT RELATE TO AN ISSUE BEING MADE ONLY TO ELIGIBLE INVESTORS AND NO ISSUE IS BEING MADE TO THE PUBLIC OR TO ANY OTHER CLASS OF INVESTORS.

This Placement Document has not been, and will not be, filed as a prospectus with SEBI and, no Units will be offered in India or overseas to the public or any members of the public or any other class of investors, other than Eligible Investors.

The Issue is being made to Eligible Investors in reliance upon the SEBI Institutional Placement Guidelines and the InvIT Regulations, through the mechanism of institutional placement. The Trust is eligible to undertake the Issue under the SEBI Institutional Placement Guidelines and the InvIT Regulations.

The Preliminary Placement Document and this Placement Document are private documents provided only to select Eligible Investors. Please note that if you do not receive a serially numbered copy of the Preliminary Placement Document addressed to you, you may not rely on the Preliminary Placement Document or this Placement Document uploaded or to be uploaded, as applicable, on the website of the Stock Exchanges or the Trust, with a disclaimer to the effect that it is in connection with an institutional placement and that no offer is being made to the public or to any other category of investors, for making an application to subscribe to Units pursuant to the Issue.

The Issue was authorized and approved by the Board of Directors of the Investment Manager on February 5, 2025 and approved by the Unitholders on March 10, 2025.

Units being Allotted pursuant to the Issue shall not be sold for a period of one year from the date of Allotment, except on a recognized stock exchange.

The Units offered in the Issue have not been, and will not be, registered under the U.S. Securities Act or any other applicable law of the United States and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Units are only being offered and sold outside the United States in an "offshore transaction" as defined in and in compliance with Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales occur. For further information, please see the section entitled "*Selling and Transfer Restrictions*" on page 432.

The Units have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The Investment Manager has filed a copy of the Preliminary Placement Document and the Placement Document with each of the Stock Exchanges. The Trust has received in-principle approval dated March 17, 2025 from each of the Stock Exchanges under the SEBI Institutional Placement Guidelines.

After the Allotment of Units pursuant to the Issue, the Investment Manager shall make applications to the Stock Exchanges for the listing approvals. Subsequently, after the credit of Units to the beneficiary accounts of the Allottees, the Investment Manager shall make applications to the Stock Exchanges for the final trading approvals.

Disclaimer of the Stock Exchanges

Stock Exchanges do not in any manner:

1. warrant, certify or endorse the correctness or completeness of the contents of this Placement Document;

2. warrant that the Units issued pursuant to the Issue will be listed or will continue to be listed on the Stock Exchanges; or

3. take any responsibility for the financial or other soundness of National Highways Infra Trust, its management or any scheme or project of National Highways Infra Trust.

It should not for any reason be deemed or construed to mean that this Placement Document has been cleared or approved by the Stock Exchanges. Every person who desires to apply for or otherwise acquire any Units may do so pursuant to an independent inquiry, investigation and analysis and shall not have any claim against the Stock Exchanges whatsoever by reason of any loss which may be suffered by such person consequent to or in connection with such subscription/acquisition whether by reason of anything stated or omitted to be stated herein or for any other reason whatsoever.

Issue Procedure

1. On the Issue Opening Date, the Lead Managers had electronically circulated serially numbered copies of the Preliminary Placement Document and the serially numbered Application Form, to Eligible Investors and the Application Form wasspecifically addressed to each such Eligible Investor. The Lead Managers has maintained a record of the Eligible Investors to whom a serially numbered Preliminary Placement Document and Application Form had been dispatched. The Lead Managers have made and will make the requisite filings with SEBI within the stipulated time periods as required under the SEBI Institutional Placement Guidelines. The list of Eligible Investors to whom the serially numbered copies of the Preliminary Placement Document and the Application Form have been circulated has been determined by the Investment Manager in consultation with the Lead Managers.

2. **Unless a serially numbered Preliminary Placement Document along with the serially numbered Application Form, which included the details of the bank account where the Application Amount was to be deposited, is addressed to a particular Eligible Investor, no invitation to make an offer to subscribe shall be deemed to have been made to such Eligible Investor.** Even if such documentation were to come into the possession of any person other than the intended recipient, no offer or invitation to offer shall be deemed to have been made to such person and any application that does not comply with this requirement shall be treated as invalid.

3. Eligible Investors were required to submit the Application Form, including any revisions thereof along with the Application Amount and a copy of the PAN card or PAN allotment letter, during the Issue Period to the Lead Managers.

4. Bidders were required to indicate the following in the Application Form:

    - full official name of the Bidder to whom Units were to be Allotted, complete address, phone number, PAN, e-mail address and bank account details;

    - number of Units Bid for;

    - category to which they belong to, as indicated in the Application Form;

    - price at which they are agreeable to subscribe for the Units (which shall not be less than the Floor Price) and the aggregate Application Amount for the number of Units Bid for;

    - details of the depository account to which the Units should be credited;

    - it has agreed to certain other representations set forth in the Application Form and the Preliminary Placement Document;

- Eligible FPIs are required to indicate their SEBI FPI registration number in the Application Form; and

- a representation that they are outside the United States and acquiring the Units in an "offshore transaction" as defined in and in compliance with Regulation S and the applicable laws of the jurisdiction where those offers and sales occur and they have agreed to certain other representations set forth in the section entitled "*Notice to Investors*" on page 1, and certain other representations made in the Application Form.

5. Each Bidder was required to make the entire payment of the Application Amount for the Units Bid for, along with the Application Form, only through electronic transfer to the Escrow Account within the Issue Period as specified in the Application Form sent to the respective Bidders. Please note that any payment of Application Amount for the Units was to be made from the bank accounts of the relevant Bidders and the Investment Manager had to keep a record of the bank account from where such payment has been received. Application Amount payable on Units to be held by joint holders was to be paid from the bank account of the person whose name appeared first in the Application Form. Pending Allotment, the Trustee and the Investment Manager were to ensure that the Application Amount received for subscription of the Units is kept in a separate bank account in the name of Trust and shall only be utilized for adjustment against allotment of Units or refund of money to the Bidders till the time such Units are listed. Notwithstanding the above, in the event, among others, a Bidder is not Allocated Units in the Issue, or a Bidder withdraws the Bid prior to the Issue Closing Date or the number of Units Allocated to the Bidder is lower than the number of Units applied for through the Application Form and towards which Application Amount has been paid by such Bidder, or the Application Amount is in excess of the amount equivalent to the product of the Units that have been Allocated to the Bidder and the Issue Price, the excess Application Amount were to be and will be refunded to the same bank account from which it was remitted, in the form and manner set out in the section entitled "- *Refunds*" below.

6. Once a duly completed Application Form was submitted by a Bidder and the Application Amount wass transferred to the Escrow Account, such Application Form constitutes an irrevocable offer and the Bid cannot be withdrawn or revised downwards after the Issue Closing Date. In case of an upward revision before the Issue Closing Date, an additional amount was to be required to be deposited towards the Application Amount in the Escrow Account along with the submission of such revised Bid. The Issue Closing Date was be notified to the Stock Exchanges and the Eligible Investors shall be deemed to have been given notice of such date after receipt of the Application Form.

7. The Bids to be made by asset management companies or custodians of Mutual Funds shall specifically state the names of the concerned schemes for which the Bids were made. In case of a Mutual Fund, a separate Bid were to be made in respect of each scheme of the Mutual Fund registered with SEBI.

8. Each FPI was required to submit a separate Application Form.

9. Upon receipt of the duly completed Application Form and the Application Amount in the Escrow Account, after the Issue Closing Date, the Investment Manager shall, in consultation with the Lead Managers, determined the final terms, including the Issue Price of the Units to be issued pursuant to the Issue and Allocation and the successful Bidders to whom such Units have been Allocated. Upon such determination, the Lead Managers, on behalf of the Trust, have sent send serially numbered CANs to the successful Bidders who have been Allocated Units in the Issue. The dispatch of a CAN, and this Placement Document to a successful Bidder is be deemed to be a valid, binding and irrevocable contract for successful Bidders to subscribe to the Units Allocated to such Bidders at an aggregate price equal to the product of the Issue Price and Units Allocated to such Bidders. The CAN contains details such as the number of Units Allocated to the successful Bidders, Issue Price and the aggregate amount received towards the Units Allocated. Please note that the Allocation is at the absolute discretion of the Investment Manager in consultation with the Lead Managers.

10. Upon determination of the Issue Price and the issue of CAN and before Allotment of Units to successful Bidders, the Lead Managers, have, on behalf of the Trust, sent a serially numbered Placement Document to each successful Bidder that has been Allocated Units.

11. Upon dispatch of the serially numbered Placement Document, the Investment Manager shall Allot Units as per the details in the CANs sent to successful Bidders. The Investment Manager will inform the Stock Exchanges of the details of the Allotment.

12. After passing the resolution for Allotment and prior to the credit of Units into the beneficiary account of the successful Bidders maintained by the depository participant, the Investment Manager shall apply to the Stock Exchanges for listing approvals in respect of the Units Allotted pursuant to the Issue.

13. After receipt of the listing approvals from the Stock Exchanges, the Investment Manager shall ensure credit of the Units Allotted pursuant to the Issue into the beneficiary accounts of the respective Allottees.

14. The Investment Manager will then apply for the final trading approvals from the Stock Exchanges.

15. The Units that would have been credited to the beneficiary account with the Depository Participant of the successful Bidders shall be eligible for trading on the Stock Exchanges only upon the receipt of final trading and listing approvals from the Stock Exchanges.

16. As per applicable law, the Stock Exchanges will notify the final listing and trading approvals, which are ordinarily available on their websites, and the Investment Manager may communicate the receipt of the listing and trading approvals to the Allottees. The Investment Manager, the Trust, shall not be responsible for any delay or non-receipt of the communication of the final trading and listing permissions from the Stock Exchanges or any loss arising from such delay or non-receipt. Investors are advised to apprise themselves of the status of the receipt of the permissions from the Stock Exchanges.

Institutional Investors

Only Eligible Investors are eligible to invest in the Units pursuant to the Issue. Currently, Eligible Investors, being '*institutional investors*', are eligible to participate in the Issue. Regulation 2(1)(ya) of the InvIT Regulations and the SEBI Institutional Placement Guidelines define '*institutional investors*' to mean:

- a qualified institutional buyer; or
- family trust or systematically important NBFCs registered with Reserve Bank of India or intermediaries registered with the SEBI, all with net-worth of more than five hundred crore rupees, as per their last audited financial statements.

Further, Regulation 2(1)(ss) of the SEBI ICDR Regulations define '*qualified institutional buyer*' to mean

- a mutual fund, venture capital fund, alternative investment fund and foreign venture capital investor registered with the SEBI;
- a foreign portfolio investor other than individuals, corporate bodies and family offices;
- a public financial institution;
- a scheduled commercial bank;
- a multilateral and bilateral development financial institution;
- a state industrial development corporation;
- an insurance company registered with the Insurance Regulatory and Development Authority of India;
- a provident fund with minimum corpus of ₹25 crore;
- a pension fund with minimum corpus of ₹25 crore registered with the Pension Fund Regulatory and Development Authority established under sub-section (1) of section 3 of the Pension Fund Regulatory and Development Authority Act, 2013;
- National Investment Fund set up by resolution no. F. No. 2/3/2005-DDII dated November 23, 2005 of the Government of India published in the Gazette of India;
- insurance funds set up and managed by army, navy or air force of the Union of India;
- insurance funds set up and managed by the Department of Posts, India; and
- systemically important non-banking financial companies.

Eligible FPIs are permitted to participate in the Issue in accordance with the FEMA Rules read with applicable provisions of the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 and other applicable foreign exchange laws and such other terms and conditions as may be prescribed by the SEBI from time to time.

Restriction on Allotment

Pursuant to paragraph 7.11.2 of the SEBI Institutional Placement Guidelines, allotment in the Issue shall not be made, either directly or indirectly, to an institutional investor who is our Sponsor or Investment Manager, or is a person related to or a related party or associate (as defined under the InvIT Regulations) of any of the Sponsor or the Investment Manager, provided that allotment of units can be made to the Sponsor for un-subscribed portion in the Issue subject to following conditions:

a. at least ninety percent of the Issue Size has been subscribed;

b. objects of the Issue is acquisition of assets from the Sponsor;

c. units allotted to Sponsor shall be locked in as per paragraph 7.6 of Chapter 7 of the SEBI Institutional Placement Guidelines;

d. unitholders approval shall be taken for unsubscribed portion being allotted to Sponsor.

No Allotment shall be made pursuant to Bids submitted by Eligible Investors such that the Bid or subscription to the Units by the investor would result in acquisition of Units which, taken together with Units already held by such investor and any person acting in concert with such investor in the Trust, would exceed 25% of the value of the post Issue outstanding units of the Trust.

The Trustee, or the Valuer or an employee of the Valuer involved in the valuation of the Project SPVs or the assets proposed to be acquired out of the proceeds of the Issue are not permitted to invest in the Units.

Affiliates or associates of the Lead Managers, who are Eligible Investors, may participate in the Issue in compliance with applicable laws.

Bid Process

Application Form

Eligible Investors were required to only use the serially numbered Application Forms (which were addressed to them) supplied by the Lead Managers electronically for the purpose of making a Bid (including revision of a Bid) in terms of the Preliminary Placement Document.

By making a Bid (including any revision thereof) for Units through Application Forms and pursuant to the terms of this Placement Document, the Eligible Investors will be deemed to have made the following representations, warranties, acknowledgements, and undertakings given or made under the sections entitled "*Notice to Investors* and "*Selling and Transfer Restrictions*" on pages 1 and 430, respectively:

- The Eligible Investor confirmed that it is an Institutional Investor and is not prohibited under paragraph 7.11.2 of the SEBI Institutional Placement Guidelines from participating in the Issue, has a valid and existing registration under the applicable law in India (to the extent applicable) and is eligible to participate in the Issue;

- The Eligible Investor acknowledged that it had no right to withdraw or revise its Bid after the Issue Closing Date;

- The Eligible Investor confirmed that if Units are Allotted through the Issue, it shall not, for a period of one year from Allotment, sell such Units otherwise than on the Stock Exchanges;

- The Eligible Investor confirmed that it was eligible to Bid and hold Units so Allotted together with any Units already held by it prior to the Issue. The Eligible Investor further confirms that its holding of the Units, does not and shall not, exceed the level permissible as per any applicable law applicable to the Eligible Investor;

- The Eligible Investor agreed that although the Application Amount is required to be paid by it along with the Application Form within the Issue Period, the Investment Manager (on behalf of the Trust) reserves the right to Allocate and Allot Units pursuant to the Issue on a discretionary basis in consultation with the Lead Managers. The Eligible Investor further acknowledged and agreed that the payment of Application Amount does not guarantee Allocation and/or Allotment of Units Bid for in full or in part;

- The Eligible Investor confirmed that the Bid submitted by it or its subscription to the Units would not result in acquisition of Units which taken together with Units already held by it and any person acting in concert with it in the Trust exceeding 25% of the value of the outstanding units of the Trust;

- The Eligible Investor confirmed that it is outside the United States, and is acquiring the Units in an "offshore transaction" as defined in and in compliance with Regulation S and the applicable laws of the jurisdiction where those offers and sales occur, and is not our affiliate or a person acting on behalf of such an affiliate;

- The Eligible Investor acknowledged that no Allocation shall be made to it if the price at which it has Bid for in the Issue is lower than the Floor Price; and

- The Eligible Investor confirmed that it shall not undertake any trade in the Units credited to its beneficiary account maintained with the Depository Participant until such time that the final listing and trading approvals for the Units are issued by the Stock Exchanges.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the Department for Promotion of Industry and Internal Trade, Government of India, investments where the beneficial owner of the Units is situated in or is a citizen of a country which shares land border with India, can only be made through the Government approval route, as prescribed in the FDI Policy.

ELIGIBLE INSTITUTIONAL INVESTORS WERE REQUIRED TO PROVIDE THEIR NAME, E-MAIL ID, BENEFICIARY ACCOUNT DETAILS, PAN, NATIONALITY, DEPOSITORY PARTICIPANT'S NAME, COMPLETE ADDRESS, DEPOSITORY PARTICIPANT IDENTIFICATION NUMBER AND BENEFICIARY ACCOUNT NUMBER IN THE APPLICATION FORM. ELIGIBLE INVESTORS ENSUREDTHAT THE NAME GIVEN IN THE APPLICATION FORM WAS EXACTLY THE SAME AS THE NAME IN WHICH THEIR BENEFICIARY ACCOUNT IS HELD.

THE ELIGIBLE INVESTORS WHO HAD SUMBITTED A BID, ALONG WITH THE APPLICATION FORM, MAY ALSO HAVE TO SUBMIT REQUISITE DOCUMENT(S) TO EVIDENCE THEIR STATUS AS AN "INSTITUTIONAL INVESTOR" AS SET OUT ABOVE.

THE ELIGIBLE INVESTORS WHO HAD SUBMITTED A BID AND/OR WERE ALLOTTED UNITS IN THE ISSUE, MAY ALSO HAVE TO SUBMIT REQUISITE DOCUMENT(S) TO FULFILL THE KNOW YOUR CUSTOMER (KYC) NORMS, INCLUDING AFTER ISSUE CLOSURE.

Demographic details such as address and bank account will be obtained from the Depositories as per the Depository Participant account details provided in the Application Form.

The submission of an Application Form and payment of the Application Amount pursuant to the Application Form by a Bidder shall be deemed a valid, binding and irrevocable offer for such Bidder to pay the entire Issue Price for the Units that may be Allotted to such Bidder and shall become a binding contract on a successful Bidder upon issuance of the CAN and this Placement Document (when dispatched) by the Investment Manager in favour of the successful Bidder.

Submission of Application Form

All Application Forms were to be duly completed with information including the number of Units applied for along with payment and a copy of the PAN card or PAN allotment letter. Additionally, the Application Form will include details of the relevant Escrow Account into which the Application Amounts will have to be deposited. The Application Amount would be deposited in the Escrow Account as was specified in the Application Form and the Application Form was to be submitted to the Lead Managers either through electronic form or through physical delivery at any of the following addresses:

The Lead Managers, the Trustee and the Investment Manager shall not be required to provide any written acknowledgement of the receipt of the Application Form and the Application Amount.

All Bidders submitting a Bid in the Issue were to pay the entire Application Amount during the Issue Period.

Payment of Application Amount

The Investment Manager had opened the Escrow Account with the Escrow Agent, in terms of the Escrow Agreement. Bidders were required to deposit the entire Application Amount payable for the Units applied for through the Application Form submitted by it in accordance with the applicable laws.

Payments were to be made only through electronic fund transfer.

Payments through cheque, demand draft or cash shall be rejected.

If the payment was not made favouring the Escrow Account within the Issue Period stipulated in the Application Form, the Bid was liable to be rejected.

Permanent Account Number or PAN

Each Bidder had to mention its PAN allotted under the Income Tax Act, 1961 in the Application Form. Applications without this information were considered incomplete and were liable to be rejected, except from Bidders who are not required to hold a PAN under applicable law. The GIR number instead of the PAN was not to be submitted by the Bidders as the Application Form was liable to be rejected.

Bank Account Details

Each Bidder had to mention the details of the bank account from which the payment of Application Amount has been made along with confirmation that such payment has been made from such account.

Pricing and Allocation

Build-up of the Book

The Eligible Investors were to submit their Bids (including any revision thereof) through the Application Forms within the Issue Period to the Lead Managers. Such Bids cannot be withdrawn or revised after the Issue Closing Date. The book shall be maintained by the Lead Managers.

Price Determination and Allocation

The Investment Manager, in consultation with the Lead Managers, has determined the Issue Price, which is at or above the Floor Price.

After finalisation of the Issue Price, the Investment Manager has updated the Preliminary Placement Document with the Issue Price details and has filed this Placement Document with the Stock Exchanges.

Method of Allocation

The Investment Manager has determined the Allocation in consultation with the Lead Managers on a discretionary basis in accordance with the allocation methodology approved by the board of Directors of the Investment Manager ("**Allocation Methodology**") and in compliance with InvIT Regulations and SEBI Institutional Placement Guidelines.

The Allocation Methodology which has been followed by the Investment Manager and the Lead Managers is provided below:

1. Allotment of the number of Units to the existing unitholders of the Trust who have bid in the Issue at or above the Issue Price (the "**Existing Unitholders**"), which is lower of:

    a. the respective number of bids made by each of the Existing Unitholders; and

    b. such number of Units that would result in the post- Issue unitholding (*including the change in unitholding pursuant to the [proposed Preferential Issue]*) of the Existing Unitholders not getting diluted below their respective unitholding as of March 17, 2025.

    If number of Units available for allocation is less than the number of Units proposed to be allocated to all Existing Unitholders as per this Paragraph 1, then discretion shall be used by the Investment Manager to allocate/ allot units to the Existing Unitholders.

2. If the number of Units offered in the Issue exceeds the number of Units allocated as per Paragraph 1 above, the Allotment of such remaining Units to the successful bidders has been undertaken in accordance with the parameters set out below:

    Step 1 – Tiering the Eligible Investors

    a. Tier 1 – Sovereign wealth funds, pension funds, provident funds and insurance companies/ funds;

    b. Tier 2 – Infrastructure sector focussed Government institutions, infrastructure sector focused funds \ (including, their respective affiliates holding at least one investment in the infrastructure sector) or AIFs (including, their respective affiliates holding at least one investment in the infrastructure sector), mutual funds and scheduled commercial banks; and

    c. Tier 3 – other Eligible Investors.

    Step 2 – Allocation approach within each Tier as specified above:

    a. Within each tier, allocation has been ascertained basis following:

        - Bid quantum;
        - openness to participate in future rounds; and
        - Eligible Investor repute (AUM, long term capital commitment, early expression of interest etc.)

    b. In case of a tie, discretion has been used by the Investment Manager

    c. The Investment Manager will give priority in Allocation of Units based on tiers i.e. Tier 1 will be given priority first among all three tiers while Tier 3 would have lower priority in determining the Allocation Methodology. Further, Allocation of Units shall be subject to compliance with InvIT Regulations and applicable laws.

Bids received from the Bidders at or above the Issue Price have been grouped together to determine the total demand. The Allocation to all such Bidders has been made at the Issue Price.

THE DECISION OF THE INVESTMENT MANAGER IN CONSULTATION WITH THE LEAD MANAGERS IN RESPECT OF ALLOCATION IS FINAL AND BINDING ON ALL ELIGIBLE INVESTORS. ELIGIBLE INVESTORS MAY NOTE THAT ALLOCATION OF UNITS IS AT THE SOLE AND ABSOLUTE DISCRETION OF THE INVESTMENT MANAGER IN CONSULTATION WITH THE LEAD MANAGERS AND ELIGIBLE INVESTORS MAY NOT HAVE RECEIVE ANY ALLOCATION EVEN IF THEY HAVE SUBMITTED VALID APPLICATION FORMS AND PAID THE ENTIRE APPLICATION AMOUNT AT OR ABOVE THE ISSUE PRICE. NEITHER THE INVESTMENT MANAGER NOR THE LEAD MANAGERS WERE OBLIGED TO ASSIGN ANY REASON FOR ANY NON-ALLOCATION.

CAN

Based on receipt of the Application Forms and Application Amount, the Investment Manager, in consultation with the Lead Managers, in its sole and absolute discretion, have decided the successful Bidders to whom the serially numbered CAN has been be dispatched, pursuant to which the details of the Units Allocated to them, the Issue Price and the total amount received towards Units Allocated to them has been notified to such successful Bidders.

The successful Bidders have also been sent a serially numbered Placement Document either in electronic form or by physical delivery.

The dispatch of the serially numbered CAN and the Placement Document , to the Eligible Investors shall be deemed to be a valid, binding and irrevocable contract for the Eligible Investors to subscribe to the Units Allocated to such successful Bidders at an aggregate price equivalent to the product of the Issue Price and Units Allocated to such successful Bidders. Subsequently, Board of Directors or the Allotment Committee will approve the Allotment of the Units to the Allottees.

Eligible Investors are advised to instruct their Depository Participant to accept the Units that may be Allotted to them pursuant to the Issue.

By submitting the Application Form, the Eligible Investors would have deemed to have made the representations and warranties as specified in the section entitled "*Notice to Investors*" on page 1 and further that such Eligible Investors shall not undertake any trade on the Units credited to its Depository Participant account pursuant to the Issue until such time as the final listing and trading approval is issued by the Stock Exchanges.

Designated Date and Allotment of Units

The Investment Manager, at its sole discretion, reserves the right to cancel the Issue at any time up to Allotment without assigning any reason whatsoever.

Following the Allotment, the Investment Manager shall apply to the Stock Exchanges for listing approvals and post receipt of the listing approvals from the Stock Exchanges, the Investment Manager shall credit the Units into the beneficiary accounts of the successful Bidders. Following the credit of the Units into the successful Bidders' beneficiary accounts, the Investment Manager will apply for final listing and trading approvals from the Stock Exchanges.

The pre and post- Issue Unitholding pattern of the Trust has been filed by the Investment Manager with the Stock Exchanges and the Investment Manager will also file an allotment report with the SEBI providing details of the Allottees and the Allotment made.

After finalization of the Issue Price, the Investment Manager has updated the Preliminary Placement Document with the Issue details and file the same with the Stock Exchanges as the Placement Document.

Refunds

In the event that the Units are not Allocated to a Bidder for any reason, or the number of Units Allocated to a successful Bidder is lower than the number of Units applied for through the Application Form and towards which Application Amount has been paid by such Bidder, or the Application Amount paid by a successful Bidder is in excess of the amount equivalent to the product of the Units that have been Allocated to such Bidder and the Issue Price, or a Bidder withdraws the Application Form prior to the Issue Closing Date, or the Issue is cancelled prior to Allocation, the excess Application Amount paid by such Bidder will be refunded to the same bank account from which the Application Amount was remitted, in the form and manner set out in the Refund Intimation Letter. The Refund Amount will be transferred to the relevant Bidders within two Working Days from the date of issuance of the CAN.

Post Allotment, the Investment Manager shall make an application for listing of the units to the stock exchange(s) and the Units shall be listed within two working days from the date of Allotment.

If the Units are failed to be listed within the specified time, the monies received shall be refunded through verifiable means within four working days from the date of the allotment, and if any such money is not repaid within such time after the issuer becomes liable to repay it, the Trust and the Investment Manager and its director or partner who is an officer in default shall, on and from the expiry of the fourth working day, be jointly and severally liable to repay that money with interest at the rate of 15% per annum.

Allotment pursuant to the Unitholders' resolution shall be completed within a period of 365 days from the date of passing of the unitholder resolution.

Other Instructions

Right to Reject Applications

The Investment Manager, in consultation with the Lead Managers, may reject Bids, in part or in full, without assigning any reason whatsoever. The decision of the Investment Manager in consultation with the Lead Managers in relation to the rejection of Bids shall be final and binding. In the event the Bid is rejected, the Application Amount paid by the Bidder shall be refunded to the same bank account from which the Application Amount was remitted by such Bidder. For details see – "*Bid Process*" and – "*Refund*" above.

Units in Dematerialized form with NSDL or CDSL

The Allotment of the Units in the Issue shall be only in dematerialized form (i.e., not in physical certificates but be fungible and be represented by the statement issued through the electronic mode).

An Eligible Investor applying for Units to be issued pursuant to the Issue must have at least one beneficiary account with a Depository Participant of either NSDL or CDSL prior to making the Bid. Units Allotted to an Eligible Investor will be credited in electronic form directly to the specified beneficiary account (with the Depository Participant) of the Eligible Investor.

Units in electronic form can be traded only on the stock exchanges having electronic connectivity with NSDL and CDSL. The Stock Exchanges have electronic connectivity with NSDL and CDSL.

The trading of the Units to be issued pursuant to the Issue would be in dematerialized form only for all Eligible Investors in the demat segment of the respective Stock Exchanges.

The Investment Manager and the Lead Managers will not be responsible or liable for the delay in the credit of Units to be issued pursuant to the Issue due to errors in the Application Form or otherwise on the part of the Eligible Investor.

Release of Funds to Trust

The Escrow Agent shall not release the monies lying to the credit of the Escrow Account to Trust until the receipt of final trading and listing approvals of the Stock Exchanges for Units offered in the Issue and the receipt of the relevant instructions.

TAXATION

STATEMENT OF POSSIBLE TAX BENEFITS AVAILABLE TO THE TRUST AND ITS UNITHOLDERS UNDER THE APPLICABLE LAWS IN INDIA

Sub: Statement of possible tax benefits available to National Highways Infra Trust and its Unitholders

Dear Sirs,

We refer to the proposed institutional placement of the units of the National Highways Infra Trust ("the Trust"). With reference to the captioned subject, given below is a statement and the Annexure herewith, of the applicable sections of the Income-tax Act, 1961, as amended ("Income Tax Act") relating to possible tax benefits available to the Trust and its Unitholders. These benefits are typically dependent on Trust or its unitholders fulfilling the conditions prescribed under the relevant provisions of the Income Tax Act.

The benefits discussed in the enclosed Annexure are not exhaustive but illustrative. The information contained in the Annexure is only intended to provide general information to the investors and hence is neither designed nor intended to be a substitute for professional tax advice. In view of the individual tax consequences and the changing tax laws, it is advisable to consult a tax consultant with respect to the specific tax implications arising out of the participation in the issue.

Our confirmation is based on the information, explanations and representations obtained from the Investment Manager and on the basis of our understanding of the business activities and operations of the Trust.

We do not express an opinion or provide any assurance as to whether:
- Trust or its Unitholders will continue to obtain these benefits in future.
- The conditions prescribed for availing the benefits, where applicable have been/would be met with.
- The revenue authorities/courts will concur with the views expressed herein.

Limitations

Our views expressed in the statement and as enclosed in the Annexure are based on the facts and assumptions indicated above. No assurance is given that the revenue authorities/ courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to change from time to time. We do not assume responsibility to update the views consequent to such changes.

We have not considered the impact of the Finance Bill 2025 and the New Direct Tax Code 2025, as the bills are still pending approval from the parliament to become law.

We hereby give our consent to include this statement and the Annexure attached herewith, regarding possible tax benefits available to the Trust and to its Unitholders in the preliminary placement document and placement document in connection with the further offering of the units of the Trust which is intended to be filed with Securities and Exchange Board of India, relevant stock exchanges and any regulatory authority, as may be required under applicable law.

The Annexure has been prepared solely in connection with the institutional placement of Units of the Trust under the prescribed regulations.

Reliance on the Annexure is on the express understanding that we do not assume responsibility towards the investors who may or may not invest in the private placement relying on the Annexure.

ANNEXURE TO STATEMENT OF POSSIBLE TAX BENEFITS AVAILABLE TO THE TRUST AND ITS UNITHOLDERS UNDER THE APPLICABLE LAWS IN INDIA

The information provided below sets out the possible tax benefits available to the Unitholders in a summary manner only and is not a complete analysis or listing of all potential tax consequences of purchase, ownership and disposal of equity shares or units, under the tax laws presently in force in India. It is not exhaustive or comprehensive analysis and is not intended to be a substitute for professional tax advice.

The Income-tax Act, 1961 as amended ("**Act**") has set-out a special regime for taxation of income arising to the Trust and its unitholders under Chapter XII FA of the Act.

We have summarised below relevant income-tax provisions as applicable to the Trust and its unitholders, under the Act. The income tax provisions listed below are available to the Trust and its unitholders subject to compliance with the applicable provisions and/or the conditions laid out in the Act and the regulations as prescribed under the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, made under the Securities and Exchange Board of India Act, 1992 (15 of 1992) ('InvIT Regulations').

Tax provisions applicable to the Trust

1. Definition of business trust under the Act

A 'business trust' is defined under section 2(13A) of the Act to mean a trust registered as an infrastructure investment trust (InvIT) under the SEBI InvIT Regulations or a real estate investment trust (REIT) under the SEBI REIT Regulations.

2. Taxability of the Trust

2.1.1. Income received from the Special Purpose Vehicle(s) ('SPVs')

a. Interest

Interest received or receivable by the Trust from the Project SPVs (being domestic companies) shall be exempt from tax, subject to satisfaction of conditions given in section 10(23FC) of the Act.

In this regard, please note that as per the explanation to section 10(23FC) of the Act, the expression "special purpose vehicle" means an Indian company in which the business trust holds controlling interest and any specific percentage of shareholding or interest, as may be required by the regulations under which such trust is granted registration.

As per provisions of section 14A of the Act, any expenditure incurred in relation to earning the exempt income as provided above, whether accrued, arisen or received or not, should not be tax deductible. In case the tax authorities are not satisfied by the disallowance considered by the Trust, the quantum of disallowance shall be computed in accordance with the provisions of section 14A read with Rule 8D of the Rules.

As per section 193(ix) and section 194A(3)(xi) of the Act, any income by way of interest received/receivable by the Trust from SPV is not subject to withholding of taxes.

b. Dividend (other than dividend in the nature of the buy-back proceeds from Project SPVs)

Dividend received or receivable by the Trust from the Project SPVs (being domestic companies) shall be exempt from tax, subject to satisfaction of conditions given in section 10(23FC) of the Act.

In this regard, please note that as per the explanation to section 10(23FC) of the Act, the expression "special purpose vehicle" means an Indian company in which the business trust holds controlling interest and any specific percentage of shareholding or interest, as may be required by the regulations under which such trust is granted registration.

As per provisions of section 14A of the Act, any expenditure incurred in relation to earning the exempt income as provided above, whether accrued, arisen or received or not, should not be tax deductible. In case the tax authorities are not satisfied by the disallowance considered by the Trust, the quantum of disallowance shall be computed in accordance with the provisions of section 14A read with Rule 8D of the Rules.

Further, second proviso to section 194 of the Act provides that no TDS is required to be deducted by a SPV in respect of dividend paid to the Trust.

c. Dividend in the nature of the buy-back proceeds from Project SPVs

As per amendments made *vide* Finance (No. 2) Act, 2024, proceeds from buy-back of shares shall be taxable as deemed dividend in the hands of shareholders as per provisions of newly inserted clause (f) under section 2(22) of the Act.

Further, with respect to shares bought back which are deemed as dividend under section 2(22)(f) of the Act, no deduction should be allowed while computing the dividend income as per second proviso to section 57 of the Act.

Additionally, as per proviso to section 46A of the Act, sales consideration in respect of shares bought back shall be considered as Nil for the purposes of computation of capital gains. Accordingly, cost of acquisition of such shares should be regarded as capital loss in the hands of shareholders in the year of such buy back.

It must be noted that such loss shall be considered as short-term capital loss where shares are held for a period of 24 months or less, and where shares are held for a period of more than 24 months, such losses shall be classified as long-term capital loss.

Section 70 read with section 74 of the Act allows short-term capital loss arising during a financial year to be set off against income, if any, from capital gains (short-term or long-term), arising in the same financial year. However, long-term capital loss arising during a financial year is allowed to be set-off only against long-term capital gains. Balance loss, if any, is allowed to be carried forward and set-off against income from capital gains, arising during subsequent eight assessment years, as follows: (i) balance short-term capital loss can be carried forward and set-off against capital gains (short-term or long-term); and (ii) balance long-term capital loss can be carried forward and set-off only against long-term capital gains.

Further, as per Section 71 of the Act, short term/ long term capital loss for the year cannot be set-off against income under any other head other than capital gains for the same year.

In absence of any clarity by the CBDT with respect to treatment of such deemed dividend in case of Trust, taxability of such deemed dividend in the hands of Trust should be in a similar manner, as in the case of normal dividend as discussed in Point 'b' above. Trust will incur a capital loss (to the extent of cost of acquisition of shares) in the year of buy back which will be eligible for carry forward and set off against future capital gains in accordance with provisions of section 70 read with section 74 of the Act, as discussed above.

2.1.2. Income other than the income distributed by the SPVs

a. Income by way of dividend/ interest/ any other income (such as treasury income)

Dividend/interest income received by the Trust from listed securities, liquid funds, etc. or treasury income etc. shall be subject to tax at the maximum marginal rate in force ('MMR') as per section 115UA of the Act. MMR is defined under the provisions of the Act to mean the rate of income-tax (including surcharge on income-tax, if any) applicable in relation to the highest slab of income as per the relevant Finance Act as increased by cess.

As per first proviso to section 57 of the Act, no deduction shall be allowable against dividend income other than deduction on account of interest expense and such interest expense shall not exceed 20% of the gross dividend income included in the total income for that year, without deduction under section 57 of the Act.

b. Income by way of capital gains

In terms of section 115UA(2) of the Act, the total taxable income of the Trust shall be chargeable to tax at MMR except for income arising on transfer of short-term capital assets and long-term capital assets[4] under section 111A and section 112 of the Act.

As per the provisions of section 111A of the Act, any income arising from transfer of short-term capital asset being an equity share in a company or a unit of an equity-oriented fund or a unit of a business trust,

[4] As per section 2(42A), a short-term capital asset means: (i) for unlisted shares – period of holding is less than or equal to 24 months; (ii) for unlisted bonds/debentures - always deemed to be short-term capital asset; (iii) Immovable property being land and/or building - period of holding is less than or equal to 24 months; (iv) listed equity shares or debentures or units of an equity-oriented fund or units of business trust– period of holding less than or equal to 12 months. As per section 2(29A), a capital asset which is not a short-term capital asset is regarded as a long-term capital asset.

transacted through a recognized stock exchange and subject to STT, should be taxable at a rate of 20%[++5]. However, the condition of subject to STT is not applicable if the transaction is undertaken on a recognized stock exchange located in any International Financial Services Centre ('IFSC') and where the consideration for such transaction is received or receivable in foreign currency.

Short-term capital gains arising from transfer of short-term capital asset other than the shares and securities covered under section 111A of the Act, will be taxed at MMR.

As per the provisions of section 112 of the Act, gains arising on the transfer of long-term capital assets shall be chargeable to tax in the hands of the Trust at the rate of 12.5%[++].

Section 48 of the Act prescribes the mode of computation of capital gains and provides for deduction of cost of acquisition/ improvement and expenses incurred in connection with the transfer of a capital asset, from the sale consideration to arrive at the amount of capital gains. In respect of long-term capital gains taxable under section 112 of the Act, section 48 of the Act provided for substitution of cost of acquisition/improvement with indexed cost of acquisition/improvement, which adjusts the cost of acquisition/improvement by a cost inflation index as prescribed from time to time. However, such adjustment of cost of acquisition/improvement by a cost inflation index has been removed *vide* Finance (No. 2) Act, 2024.

Further, as per provisions of section 112A of the Act, capital gains exceeding one lakh and twenty five thousand rupees arising on the transfer of long term capital asset, being an equity share in a company or a unit of an equity oriented fund or a unit of a business trust, transacted through a recognized stock exchange and subject to STT, shall be chargeable to tax in the hands of the business trust at the rate of 12.50% (plus applicable surcharge and cess) without applying the benefit under the first proviso to section 48 of the Act. Since specific carve out has not been provided under the provisions of section 115UA of the Act for section 112A of the Act, long term capital gains on account of sale of aforesaid equity share in a company or a unit of an equity oriented fund or a unit of a business trust, which are taxable @ 12.50% under section 112A (subject to certain conditions) of the Act may be taxable at MMR in the hands of business trust.

As per section 50CA of the Act, where the consideration on transfer of unquoted shares of a company, is less than the fair market value of such share determined in such manner as may be prescribed, the value so determined shall for the purpose of section 48 of the Act, be deemed to the full value of consideration.

Section 70 read with section 74 of the Act allows short-term capital loss arising during a financial year to be set off against income, if any, from capital gains (short-term or long-term), arising in the same financial year. However, long-term capital loss arising during a financial year is allowed to be set-off only against long-term capital gains. Balance loss, if any, is allowed to be carried forward and set-off against income from capital gains, arising during subsequent eight assessment years, as follows: (i) balance short-term capital loss can be carried forward and set-off against capital gains (short-term or long-term); and (ii) balance long-term capital loss can be carried forward and set-off only against long-term capital gains.

Further, as per Section 71 of the Act, short term/ long term capital loss for the year cannot be set-off against income under any other head other than capital gains for the same year.

Taxability of unitholders

2.1. Income by way of interest and dividend (including upstreaming of dividend in the nature of the buy-back proceeds from Project SPVs)

a. As per the provisions of section 115UA(1) of the Act, the income distributed by the Trust is taxable in the hands of the unitholders in the same manner and in the same proportion as the underlying income received by or accrued to the Trust.

b. As per the provisions of section 10(23FD), any income referred to in section 115UA(1) of the Act and distributed by the Trust shall not be included in the total income of the unitholders, except for the following income:

- Interest income from SPV (referred to in section 10(23FC)(a));
- Dividend Income from SPV [referred to in section 10(23FC)(b)], i.e., if the SPV has opted for concessional tax regime under section 115BAA;

[5] *excluding applicable surcharge and cess*

The above income would be taxable in the hands of the unitholders under section 115UA(3) of the Act at the rates applicable to the respective unitholders.

c. As per section 115A(1)(iiac) of the Act read with section 194LBA of the Act, income in the nature of interest referred to in section 10(23FC)(a) shall be taxable at the rate of 5%++ in the hands of a non-resident unitholders. Such interest would be taxable in the hands of resident unitholders at the applicable tax rates.

d. Taxability of dividend income distributed by the Trust to unitholders is dependent on the taxation regime adopted by the SPV(s), which distributes the dividend to the Trust. If the SPV(s) has not opted for a concessional corporate tax rate under section 115BAA of the Act ('Qualifying SPV'), dividend distributed by such Qualifying SPV ('Qualified Dividend') and distributed by the Trust is exempt in the hands of the unitholders. Any dividend other than Qualified Dividend distributed by the Trust ('Unqualified Dividend') is taxable in the hands of the unitholders. Such Unqualified Dividend shall be taxable in the hands of non-resident unitholders at the rate of 20%++ as per section 115A of the Act and shall be taxable in the hands of resident unitholders at the applicable tax rates.

e. Further, where the dividend, interest, or any other income received by the Trust is chargeable to tax in the hands of the Trust, such income shall be exempt in the hands of the unitholders on distribution by the Trust under section 10(23FD) of the Act. Further, any expenditure incurred for earning such exempt income shall not be deductible in the hands of the unitholders under the provisions of section 14A of the Act.

f. Deductions from income in the hands of unitholders

A domestic company is allowed deduction of dividend income received by it from another domestic company or the Trust subject to certain conditions. Therefore, if the unitholder is a domestic company, it should be able to claim the deduction under section 80M where the prescribed conditions mentioned under section 80M have been complied with.

Further, as per proviso to section 57 of the Act, no deduction shall be allowable against the dividend income other than deduction on account of interest expense and such interest expense shall not exceed 20% of the gross dividend income for that year, without deduction under section 57 of the Act. Furthermore, where dividend income is in the nature of the shares bought back, no expense shall be allowed as deduction against such dividend income.

2.2. Distribution of specified sum

a. The Finance Act, 2023 has amended section 56(2) of the Act to add a new clause (xii) which provides the taxability of any specified sum received by unitholders from the Trust in respect of units held by him at any time during the year.

b. Computation of "specified sum" shall be the result of 'A-B-C' where:

'A' = Cumulative distribution made by trust till date excluding the amount distributed in the nature of dividend, interest or rental income or any amount taxed/taxable in the hands of InvIT
'B' = Issue price of such units
'C' = Amount charged to tax under this provision in earlier years

Specified sum shall be deemed to be zero if 'A-B-C' results in negative value.

2.3. Other income (income other than interest or dividend income or income chargeable to tax under section 56(2)(xii) of the Act) received from Trust

a. Other income (income other than interest or dividend income or income chargeable to tax under section 56(2)(xii) of the Act) such as treasury income earned by Trust and distributed to unitholder shall be exempt in hands of unitholders as the same shall be taxable in the hands of Trust. Further, there shall be no withholding on distribution of such other income by the Trust to the unitholders.

2.4. Income by way of capital gains

2.4.1. For resident unitholder

a. For the purpose of computation of capital gains on sale of units of Trust, consideration received on sale of units of Trust shall be reduced by cost of acquisition of such units and expenditure incurred wholly and exclusively in connection with such sale.

b. As per the amendments made by Finance Act, 2023, the amount of distribution to the extent not chargeable to tax u/s 56(2)(xii) of the Act and not covered u/s 10(23FC), 10(23FCA) or 115UA(2) of the Act, shall be reduced from the cost of units, for the purpose of computation of capital gains.

c. Investors are advised to consult their tax advisor for computation of capital gains including cost of acquisition of units as per Indian tax laws in each case.

d. Where the gains arising on the transfer of units of the Trust by the unitholder are included in the business income of an assessee assessable under the head 'Profits and Gains from Business or Profession' and on which STT has been charged, such STT shall be a deductible expense from business income as per the provisions of section 36(1)(xv) of the Act. The characterization of gains/ losses, arising from sale of units, as capital gains or business income would depend on the nature of holding in the hands of the unitholder and various other factors.

e. Where the gains on transfer of the units of the Trust are characterized as capital gains, and if such units are long-term capital assets and such transaction is chargeable to STT, income arising on transfer of units of the Trust (over and above INR 0.125 million) will be taxable at a tax rate of 12.50%$^{++}$ subject to conditions as per section 112A. However, the condition of transaction being chargeable to STT is not required if the transaction is undertaken on a recognised stock exchange located in IFSC and where the consideration for such transaction is received or receivable in foreign currency. Further, in case of long-term capital gain on transfer of units of the Trust, which are not subject to STT, shall be taxable in the hands of the unitholders at the tax rate of 12.50%$^{++}$ under section 112 of the Act.

f. Short-term capital gains arising on transfer of the units of the Trust will be chargeable to tax at the rate of 20%$^{++}$ as per the provisions of section 111A of the Act, provided such transaction is subject to STT. The condition of STT is not required to be followed if the transaction is undertaken on a recognised stock exchange located in IFSC and where the consideration for such transaction is received or receivable in foreign currency.

g. In case of a unitholder being an individual or HUF, where the total taxable income as reduced by short-term capital gains is below the basic exemption limit, the short-term capital gains will be reduced to the extent of the shortfall and only the balance short-term capital gains will be subjected to such tax in accordance with the proviso to sub-section (1) of section 111A of the Act. Short-term capital gains on transfer of units of the business trust, not transacted through a recognized stock exchange and not subject to STT shall be taxable at the applicable rate of tax for respective unitholders.

h. In case of a unitholder being a resident individual or HUF, where the total taxable income as reduced by long-term capital gains taxable is below the basic exemption limit, such long-term capital gains will be reduced to the extent of the shortfall and only the balance long-term capital gains will be subjected to such tax in accordance with the proviso to sub-section (1) of section 112 and proviso to sub-section (2) of section 112A of the Act.

i. In case of determining the period of holding for units allotted pursuant to exchange of shares of special purpose vehicle, as per clause (hc) of explanation 1 to section 2(42A), the period of holding for the units shall include the period for which the shares were held by the promoter in the SPV

j. In case of unitholder, being a domestic company that are liable to pay MAT under provisions of section 115JB of the Act, the gains arising, if any, on sale of units of the Trust are to be included as part of book profits for the purposes of computing MAT lability. MAT paid by such companies should be available as credit for set off against future tax liability, provided such companies do not opt to be governed by the concessional tax rate under section 115BAA of the Act.

k. In case of unitholders, other than companies, that are liable to Alternate Minimum Tax (AMT) under provisions of Section 115JC of the Act, the gains arising, if any, on sale of units of Trust are to be included as part of adjusted total income for the purpose of computing AMT liability. AMT paid by such unitholders should be available as credit for set-off against future tax liability, provided they do not opt to be governed by the concessional tax rates u/s 115BAC or 115BAD of the Act.

2.4.2. <u>For non-resident unitholder (other than Foreign Portfolio Investors ('FPIs'):</u>

a. For the purpose of computation of capital gains on sale of units of Trust, consideration received on sale of units of Trust shall be reduced by cost of acquisition of such units and expenditure incurred wholly and exclusively in connection with such sale.

b. As per the amendments made by Finance Act, 2023, the amount of distribution to the extent not chargeable to tax u/s 56(2)(xii) of the Act and not covered u/s 10(23FC), 10(23FCA) or 115UA(2) of the Act, shall be reduced from the cost of units, for the purpose of computation of capital gains.

c. Investors are advised to consult their tax advisor for computation of capital gains including cost of acquisition of units as per Indian tax laws in each case.

d. Where the gains arising on the transfer of shares of the unitholder are included in the business income of an assessee assessable under the head 'Profits and Gains from Business or Profession' and on which STT has been charged, such STT shall be a deductible expense from business income as per the provisions of section 36(1)(xv) of the Act. Such business income should not be taxable in India unless the non-resident has a taxable presence in India.

e. Where the gains on transfer of the units are characterized as capital gains, if such units are long-term capital assets and such transaction is chargeable to STT, income arising on transfer of units of the Trust (over and above INR 0.125 million) will be taxable at a tax rate of 12.50%++ subject to conditions as per Section 112A. However, the condition of STT is not required to be followed if the transaction is undertaken on a recognised stock exchange located in IFSC and where the consideration for such transaction is received or receivable in foreign currency. Further, in case of long-term capital gain on transfer of units of the Trust, which are not subject to STT, shall be taxable in the hands of the unitholders at the tax rate of 12.50%++ under section 112 of the Act.

f. Short-term capital gains arising on transfer of the units of the Trust will be chargeable to tax at the rate of 20%++ as per the provisions of section 111A of the Act if such transaction is chargeable to STT. However, the condition of STT is not required to be followed if the transaction is undertaken on a recognised stock exchange located in IFSC and where the consideration for such transaction is received or receivable in foreign currency.

g. Short-term capital gains on transfer of units of the business trust, not transacted through a recognized stock exchange and not subject to STT shall be taxable at the applicable rate of tax for respective unitholders.

h. As per section 47 of the Act read with Notification no. 16/2020, any capital gain arising on transfer of capital asset being unit of a business trust listed on a recognised stock exchange located in any IFSC where the consideration is received or receivable in foreign currency, would not be regarded as a transfer and therefore, would not be subject to any capital gain tax implications.

i. In case of unitholders, other than companies, that are liable to AMT under provisions of Section 115JC of the Act, the gains arising, if any, on sale of units of Trust are to be included as part of adjusted total income for the purpose of computing AMT liability. AMT paid by such unitholders should be available as credit for set-off against future tax liability, provided they do not opt to be governed by the concessional tax rates u/s 115BAC or 115BAD of the Act.

j. As per explanation 4 to section 115JB(2), the provisions of section 115JB shall not be applicable to a foreign company if the foreign company is a resident of a country having DTAA with India and such foreign company does not have a permanent establishment within the definition of the term in the relevant DTAA, or the foreign company is a resident of a country which does not have a DTAA with India and such foreign company is not required to seek registration under the legislation covering companies in India.

2.4.3. <u>For non-resident unitholders who are FPIs:</u>

a. As per section 2(14) of the Act, any securities held by an FPI, which were invested in accordance with the regulations made under the Securities and Exchange Board of India Act, 1992 shall be deemed to be capital assets. Hence the income from the transfer of such securities shall be deemed to be treated as capital gains.

b. If units of the Trust are long-term capital assets and such transaction is chargeable to STT, income arising on their transfer (over and above INR 0.125 million) will be taxable at a tax rate of 12.50%$^{++}$ subject to conditions as per section 112A read with section 115AD. Further, in case of long-term capital gain on transfer of units of the Trust, which are not subject to STT, shall be taxable in the hands of the unitholders at the tax rate of 10%$^{++}$, as per section 115AD.

c. Short-term capital gains arising on transfer of the units of the Trust will be chargeable to tax at the rate of 20%$^{++}$ as per the provisions of section 111A of the Act read with section 115AD, if such transaction is

chargeable to STT. Short-term capital gains on transfer of units of the Trust, not transacted through a recognized stock exchange and not subject to STT shall be taxable at 30%[++] under section 115AD of the Act. The condition of payment of STT is not required to be followed if the transaction is undertaken on a recognised stock exchange located in IFSC and where the consideration for such transaction is received or receivable in foreign currency.

d. Investors are advised to consult their tax advisor for computation of capital gains including cost of acquisition of units as per Indian tax laws in each case.

e. As per the Explanation 4 to section 115JB, provisions of Minimum Alternate Tax shall not be applicable to any foreign company if:

- Such foreign company is a resident of country with which India has a DTAA and such foreign company does not have a permanent establishment in India; or

- Such foreign company is a resident of country with which India does not have a DTAA and such foreign company is not required to seek registration under any law for the time being in force relating to companies.

Accordingly, provisions of MAT shall not apply to FPIs/ FIIs in case the above conditions hold true.

2.4.4. For unitholders who are notified Sovereign Wealth Fund and notified Pension Funds:

a. As per section 10(23FE) of the Act, any income by way of dividend, interest, any sum referred to in section 56(2)(xii), or long-term capital gain arising from investment made in units of the Trust on or after 1 April 2020 and before 31 March 2030 and held for at least three years shall be exempt for notified Sovereign Wealth Fund, wholly owned subsidiary of Abu Dhabi Investment Authority (ADIA) and notified Pension Funds, subject to satisfaction of stipulated conditions.

b. Investors are advised to consult their tax advisor for computation of capital gains including cost of acquisition of units as per Indian tax laws in each case.

c. In this regard, please note that there as per provisions of the Act, no exemption is being provided from withholding of taxes on above mentioned income accruing to the specified persons as defined under section 10(23FE) of the Act.

2.4.5. Special tax benefits/ provisions applicable to Alternative Investment Fund (Category I and II)

a. Under section 10(23FBA) of the Act, any income of an investment fund other than the income chargeable under the head "Profits and gains of business or profession" is exempt from income tax.

b. Further, income of the investment fund chargeable under the head 'Profits and gains of business or profession' is taxable as follows (section 115UB(4) of the Act)

- at the rate or rates as specified in the Finance Act of the relevant year, where such fund is a company or a firm; or
- at maximum marginal rate in any other case

c. The losses incurred by AIF shall be treated in accordance with the provisions of section 115UB(2) and 115UB(2A) of the Act.

2.4.6. For unitholders who are mutual funds:

a. Under section 10(23D) of the Act, any income earned by a Mutual Fund registered under the Securities and Exchange Board of India Act, 1992, or a Mutual Fund set up by a public sector bank or a public financial institution, or a Mutual Fund authorised by the Reserve Bank of India would be exempt from income-tax, subject to such conditions as the Central Government may by notification in the Official Gazette specify in this behalf.

b. In light with the provisions of section 196 of the Act, no deduction of tax shall be made on any sum payable to a Mutual Fund specified under clause (23D) of section 10. Accordingly, the Trust is not required to withhold tax on any sum payable to Mutual Fund set up under section 10(23D) of the Act.

2.4.7. For Venture Capital Companies/Funds:

For VCF/VCC registered prior to 21 May 2012:

a. Under Section 10(23FB) of the Act, any income of Venture Capital Company to whom the certificate of registration is granted before 21/05/2012 under SEBI (Venture Capital Funds) Regulations, 1996 or as a subcategory I Alternative Investment Fund as is regulated under SEBI (Alternative Investment Funds Regulations) under the SEBI Act, 1992, would be exempt from income tax, subject to conditions specified therein.

b. As per Section 115U of the Act, any income derived by a person from his investment in Venture Capital Company/Venture Capital Fund would be taxable in the hands of the person making an investment in the same manner as if it were the income accruing or arising to or received by such person had the investments been made directly in the venture capital undertaking.

For VCF/VCC registered post 21 May 2012:

c. VCF/VCC registered post 21 May 2012 shall be classified as a Category 1 Alternate Investment Fund which shall be governed by the SEBI (AIF) Regulations 2012 or as referred to in sub-regulation (2) of regulation 18of the International Financial Services Centres Authority (Fund Management) Regulations, 2022 made under the International Financial Services Centres Authority Act, 2019. For such funds benefit of section 10(23FB) and section 115U shall not be applicable and shall be governed by section 115UB read with section 10(23FBA) and 10(23FBB) which states that business income earned by such fund shall be taxable in the hands of the Fund and exempt in the hands of the unit holders, and other income earned viz. capital gains, income from other sources shall be exempt in the hands of the fund and taxable in the hands of unit holder.

2.4.8. Benefits under Double taxation avoidance agreement (DTAA)

a. As per section 2(30) of the Act, non-resident is defined to mean a person who is not a "resident". A non-resident unit holder should be subject to taxation in India only if:

- it is regarded a tax resident of India; or
- being a non-resident in India, it derives: (a) if any income is received / deemed to be received in India; or (b) if any income has accrued or arisen / deemed to have accrued or arisen in India in terms of the provisions of the Act.

b. Section 6 of the Act provides that a foreign company should be treated as a tax resident in India if its place of effective management (POEM) is in India in that year. POEM has been defined to mean a place where key managerial and commercial decisions that are necessary for the conduct of the business of an entity as a whole are, in substance made.

c. Under the provisions of section 90(2) of the Act, a non-resident will be governed by the provisions of the DTAA between India and the country of tax residence of the non-resident and the provisions of the Act apply to the extent they are more beneficial to the assessee.

d. However, the non-resident investor will have to furnish a certificate of his being a tax resident in a country outside India and a suitable declaration stating that such non-resident does not have a fixed base/ permanent establishment in India, to obtain the benefit of the applicable DTAA and such other document as may be prescribed as per the provision of section 90(4) of Act. Further, as per Notification No. 3/2022 dated 16th July 2022, Form 10F is required to be furnished electronically for submitting information as required under Rule 21AB, where tax residence certificate does not contain all the prescribed requisite information.

e. As per the provisions of section 90(2) of the Act, the provisions of the Act would prevail over the provisions of the DTAA to the extent they are more beneficial to the non-resident.

2.4.9. Treatment of loss:

a. Section 70 read with section 74 of the Act allows short-term capital loss arising during a financial year to be set off against income, if any, from capital gains (short-term or long-term), arising in the same financial year. However, long-term capital loss arising during a financial year is allowed to be set-off only against long-term capital gains. Balance loss, if any, is allowed to be carried forward and set-off against income from capital gains, arising during subsequent eight assessment years, as follows: (i) balance short-term capital loss can be carried forward and set-off against capital gains (short-term or long-term); and (ii) balance long-term capital loss can be carried forward and set-off only against long-term capital gains.

b. Further, as per Section 71 of the Act, short term/ long term capital loss for the year cannot be set-off against income under any other head other than capital gains for the same year.

2.5. Tax deduction at source by the Trust

a. Section 194LBA – Certain income from units of the Trust: As per section 194LBA of the Act, taxes shall be required to be deducted at source at the time of payment/ credit (whichever is earlier) from following income distributions by the Trust to its unitholders:

Class of unitholders	Nature of income	Applicable tax rates
• Resident unitholders*	Interest income - Section 194LBA(1)	10%
	Unqualified Dividend income - Section 194LBA(1)	10%
	Qualified Dividend income - Section 194LBA(2A)	Not subject to withholding tax
	Specified sum – Section 56(2)(xii)	Not subject to withholding tax
• Non-resident unitholders*#^	Interest income – Section 194LBA(2)	5%++
	Unqualified Dividend income^ - Section 194LBA(2)	10%++
	Qualified Dividend income – Section 194LBA(2A)	Not subject to withholding tax
	Specified sum – Section 56(2)(xii)	Tax rates as may be applicable++
• Category I & II Alternative Investment Funds • Mutual Funds	Any distribution	Not subject to withholding tax

**The unitholders may provide NIL/Lower withholding certificate issues under section 197 of the Act with respect to income as specified u/s 194LBA of the Act.*

^ If the Act provides withholding tax rate for any specific category of non-resident unitholders, then the same needs to be considered.

 # Non-resident unitholders may seek to avail any beneficial provisions under applicable DTAA that India may have entered into with its country of residence. Rate of TDS for FPI/FII may be governed in accordance with section 196D of the Act.

b. Applicability of other provisions:

No income tax is deductible at source from income in the nature of capital gains arising to a resident unitholder under the provisions of the Act.

However, as per the provisions of Section 195 read with section 90 of the Act, any income on transfer of units of the Trust by non-residents may be subject to withholding of tax at the rate under the domestic tax laws or under the DTAA, whichever is more beneficial to the Assessee (other than FPIs/ FIIs who are subject to provisions of section 196D(2) of the Act)

Further, section 196D of the Act provide that in case of a payee, being FPIs/ FIIs of country with which India has entered into DTAA, tax shall be deducted at the rate of 20% or the DTAA rates (for the incomes referred in section 115AD(1), other than capital gains and interest income subject to TDS u/s 194LD of the Act), whichever is lower, subject to the FPI/ FII furnishing a Tax Residency Certificate (referred to in Section 90(4) of the Act) and a suitable declaration for not having a fixed base/ permanent establishment in India, to the payer.

Further, as per sub-section (2) of section 196D of the Act, no tax is to be deducted from any income, in the nature of capital gains arising to a FPI or FII from the transfer of units, subject to the FPI/ FII furnishing a Tax Residency Certificate (referred to in Section 90(4) of the Act) and a suitable declaration for not having a fixed base/ permanent establishment in India, to the payer.

Buyer and seller of unlisted shares/securities also need to check the applicability of TDS u/s 194Q of the Act read with provision of Tax Collection at Source (TCS) u/s 206C(1H) of the Act. As per the clarification issued by CBDT, the transaction in shares not taken place through recognized stock exchange/ recognised clearing corporations may also fall under the ambit of section 194Q/206C(1H) of the Act since CBDT has clarified that the said provisions of section 194Q/206C(1H) of the Act are not applicable to transactions in

securities and commodities transacted through recognised stock exchanges/ recognised clearing corporations, including those located in International Financial Service Centre.

c. Provisions of section 206AA of the Act

As per section 206AA of the Act, where a tax payer does not possess a Permanent Account Number ('PAN'), taxes have to be withheld on payment of income to the tax payer (where chargeable to tax) at higher of the following:

- at the rate specified in the Act; or
- at the rate or rates in force; or
- at the rate of twenty per cent

The Finance Act, 2016 amended the aforementioned provision to provide an exemption to non-residents, subject to compliance of such conditions as may be prescribed by the CBDT. In furtherance of the amended provision, the CBDT issued a notification prescribing the rules (Rule 37BC of the Rules) for relaxation from withholding of tax at higher rates in the absence of PAN in the case of non-resident deductee and laid down the information and alternative documents required to claim such relaxation.

d. Provisions of section 206AB of the Act

Finance Act 2021 has inserted section 206AB which *inter alia* stipulates that where tax is required to be withheld by a person on payment or credit to a *specified person*[6], the tax shall be deducted at the higher of the following rates:

- at twice the rate specified in the relevant provision of the Act; or
- at twice the rate or rates in force; or
- at the rate of five per cent.

If the provisions of section 206AA is applicable to a specified person, in addition to the provision of section 206AB, the tax shall be deducted at higher of the two rates provided in section 206AB and in section 206AA.

e. Applicability of other provisions:

Section 94(7) of the Act (commonly known as dividend stripping)

Vide Finance Act, 2022, applicability of section 94(7) of the Act (commonly known as dividend stripping) has been extended to the units of Trust as well (that with effect from Financial Year 2022-23) which provides that where:

a) any person buys or acquires any securities or unit within a period of three months prior to the record date[7];
b) such person sells or transfers such securities within three months after such record date or such units within a period of nine months after such record date;
c) the dividend or income on such securities or unit received or receivable by such person is exempt

then, the loss, if any, arising from the sale and purchase of securities and units, to the extent of dividend or income received or receivable on such securities or unit, shall be ignored for computing income chargeable to tax.

Section 94(8) of the Act (commonly known as bonus stripping)

Vide Finance Act, 2022, applicability of section 94(8) of the Act (commonly known as bonus stripping) has been extended to the units of Trust as well (that with effect from Financial Year 2022-23) which provides that where:

---

[6] *As per the provisions of section 206AB of the Act, 'Specified person' means a person who:*

(i) has not furnished the return of income for the previous year immediately preceding the previous year in which the tax is required to be deducted, for which time-limit of furnishing the return of income u/s 139(1) has expired; and

(ii) the aggregate of tax deducted at source and tax collected at source is INR 50,000 or more in the said previous year

[7] *Record date means a date fixed to entitles the holder of such securities or units to receive dividend, income, or additional securities or unit without consideration, as the case may be*

a) any person buys or acquires any units within a period of three months prior to the record date;
b) such person is allotted additional units without any payment on the basis of holding of such units on such record date;
c) such person sells or transfers all or any of the units within a period of nine months after the record date, while continuing to hold all or any of the additional units referred above

then, the loss, if any, arising from the sale and purchase of all or any of the units shall be ignored for computing income chargeable to tax and notwithstanding anything contained in any other provision of the Act, the amount of loss so ignored shall be deemed to be the cost of purchase or acquisition of such additional units referred above as are held on the date of such sale or transfer.

f. Transaction not regarded as transfer under section 47(xvii) of the Act:

According to section 47(xvii) of the Act, any transfer of a capital asset, being share of a special purpose vehicle to a business trust in exchange of units allotted by that trust to the transferor shall not be regarded as transfer and accordingly not be liable to capital gains tax.

Further, as per section 49(2AC) of the Act, the cost of units of Trust allotted to the transferor in exchange of shares in SPV shall be deemed to be the cost of acquisition of shares in SPV.

Furthermore, as per clause (hc) of Explanation 1 to section 2(42A) of the Act, for ascertaining the period of holding of such units, the period of holding of shares in SPV shall also be included.

Any notional gain or loss arising on transfer of shares of SPV to business trust in exchange of units allotted by the trust as referred under section 47(xvii) are to be excluded while calculating book profits for the purpose of MAT under section 115JB. Similarly, any notional gain or loss arising upon change in carrying amount of the units held by Unitholder are to be excluded in calculating book profits for the levy of MAT under section 115JB (clause (iie)/(fc) to explanation 1 to section 115JB).

Further, actual gain or loss on disposal of units held by the Unitholder as referred to in section 47 (xvii) are considered for the purpose of normal provisions of the Act and MAT under section 115JB by taking into account the cost of the shares exchanged with units referred to in the said clause or the carrying amount of the shares at the time of exchange where such shares are carried at a value other than the cost through statement of profit and loss, as the case may be (clause (iif)/(k) to explanation 1 to section 115JB).

However, if the Unitholder opts for concessional tax regime under section 115BAA / 115BAB then provisions of MAT under section 115JB shall not be applicable for the Unitholder and it shall forego its entire MAT credit available, if any, at the time of exercising concessional tax-regime.

3. General tax rates and provisions

3.1. The characterization of gains/ losses, arising from sale / transfer of units, as capital gains or business income would depend on the nature of holding in the hands of the unit holder and various other factors.

3.2. Where the gains arising on the transfer of the units of the Trust are included in the business income of an assessee assessable under the head "Profits and Gains from Business or Profession" and on which securities transaction tax has been charged, such securities transaction tax shall be a deductible expense from business income as per the provisions of section 36(1)(xv) of the Act. However, securities transaction tax is not eligible to be deducted as cost on transfer of the units of the Trust in case where the gains arising from such transfer is assessable under the head "Capital Gains".

3.3. The income-tax rates specified in this note are as applicable for the financial year 2024-25 (relevant to assessment year 2025-26), and are exclusive of surcharge and cess, if any. Rate of surcharge and cess are provided below:

Surcharge:

Domestic companies (other than companies who have opted for concessional tax regime under section 115BAA and 115BAB of the Act):

a) If the total income does not exceed INR 10 million – Nil
b) If the total income exceeds INR 10 million but does not exceed INR 100 million - 7 %
c) If the total income exceeds INR 100 million - 12 %

Domestic companies (for companies who have opted for concessional tax regime under section 115BAA and 115BAB of the Act):

a) At the rate of 10% on total income

Foreign companies:

a) If the total income does not exceed INR 10 million - Nil
b) If the total income exceeds INR 10 million but does not exceed INR 100 million – 2%
c) If the total income exceeds INR 100 million – 5%

Firms:

a) If the total income does not exceed INR 10 million - Nil
b) If the total income exceeds INR 10 million – 12%

For individuals, HUF, AOP and BOI (including non-resident) who have not opted for the New Regime:

a) If the total income does not exceed INR 5 million – Nil
b) If the total income exceeds INR 5 million but does not exceed INR 10 million – 10%
c) If the total income exceeds INR 10 million but does not exceed INR 20 million – 15%
d) If the total income (excluding dividend income or income under the provision of section 111A, section 112 and section 112A of the Act) exceeds INR 20 million but does not exceed INR 50 million – 25%
e) If the total income (excluding dividend income or income under the provision of section 111A, section 112 and section 112A of the Act) exceeds INR 50 million – 37%
f) If total income is above 20 million (including dividend income or income under the provision of section 111A, section 112 and section 112A of the Act) but is not covered under (d) and (e) above – 15%

However, the applicable surcharge does not exceed 15% in case of dividend income or income under the provision of section 111A and section 112A of the Act included in such total income.

Also, in case of an association of persons consisting of only companies as its members, the rate of surcharge on the amount of Income-tax shall not exceed 15%.

The above surcharge is subject to marginal tax benefit as per the Act.

As per the Finance (No. 2) Act, 2024, in case of the Individual/HUF/AOP (other than co-operative)/ BOI/ Artificial Juridical Person (‘AJP’) taxable under the New Regime prescribed under the Act, the surcharge on the amount of income-tax shall not exceed 25% where taxable income exceeds INR 20 million.

As per the Finance (No. 2) Act, 2024, in the case of an AOP being a non-resident, and consisting of only companies as its members, surcharge shall be calculated at the rate of 10%, where the aggregate income exceeds INR 5 million but does not exceed INR 10 million; at the rate of 15%, where the aggregate income exceeds INR 10 million.

Health and education cess:

In all cases, health and education cess will be levied at the rate of 4% of income-tax and surcharge.

4. Disclaimer

4.1. The stated benefits will be available only to the sole/ first named holder in case the units are held by joint holders.

4.2. Please note that the TDS rates mentioned in the given document may be subject to any concessions introduced/ allowed by the Government under any policy, press release, etc. Also, the same may also be subject to lower/ nil withholding tax certificates which may be furnished by the unit holders.

4.3. In respect of non-residents, the tax rates and the consequent taxation mentioned above shall be further subject to any benefits available under the applicable DTAA, if any, between India and the country in which the non-resident has fiscal domicile. Further, it is pertinent to meet the terms and condition viz. Principal purpose test, beneficial ownership test etc. as enacted in DTAAs entered into by India with various countries based on Multilateral Convention to implement tax treaty related measures to prevent Base Erosion and Profit Shifting (‘MLI’).

4.4. The tax implications/ benefits stated in this document are subject to General Anti Avoidance Rules (GAAR) provisions under the Act. GAAR may be invoked by the Indian income-tax authorities in case arrangements are found to be impermissible avoidance arrangements. Further, in case GAAR provisions are invoked, the onus to prove that the main purpose of an arrangement was not to obtain any tax benefit is on the taxpayer. Also, any resident or non-resident may approach the Authority for Advance Rulings to determine whether an arrangement can be regarded as an impermissible avoidance arrangement.

4.5. This statement is intended only to provide general information to the investors and is neither designed nor intended to be substituted for professional tax advice. In view of the individual nature of tax consequences, each investor is advised to consult his/her own tax advisor with respect to specific tax consequences of his/her participation in the scheme.

4.6. No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes. We shall not be liable to any claims, liabilities or expenses relating to this assignment, except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith or intentional misconduct. We will not be liable to any other person in respect of this statement.

4.7. This statement of possible direct tax benefits enumerated above is as per the Act as amended by the Finance (No. 2) Act, 2024 applicable for financial year ending 31 March 2025 relevant to the assessment year 2025-26. The above statement of possible Direct-tax Benefits sets out the possible tax benefits available to the Trust and its unitholders under the current tax laws presently in force in India. Several of these benefits available are dependent on the Trust or its unitholders fulfilling the conditions prescribed under the relevant tax laws.

4.8. Please note that the tax rates provided in this statement are excluding applicable surcharge and cess. As per the Finance (No. 2) Act, 2024, rates given in sub-section (1A) of section 115BAC of the Act ('New Tax Regime') are the default rates applicable to all individual/ HUF/ AOP (other than co-operative)/ BOI/ AJP. Accordingly, tax rates and surcharge prevailing as per New Tax Regime will be considered for the purpose of withholding.

4.9. The information provided above sets out the possible tax benefits available to the unit holders in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of equity shares and units, under the current tax laws presently in force in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax advisor with respect to the tax implications arising on account of any investment in equity shares or units (including tax implications on account of any distributions by/ receipts from the Trust), particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation impacting the benefits, which an investor can avail.

4.10. This statement does not discuss any tax consequences in the country outside India of an investment in the units of trust. The unit holders / investors in the country outside India are advised to consult their own professional advisors regarding possible Income tax consequences that apply to them.

4.11. The statement is prepared on the basis of information available with the Trust and there is no assurance that:

- the Trust or its unitholders will continue to obtain these benefits in future;
- the conditions prescribed for availing the benefits have been/ would be met with; and
- the revenue authorities/courts will concur with the view expressed herein.

The above views are based on the provisions of law that exist on this day and its interpretation, which are subject to change from time to time.

LEGAL MATTERS

Each of Cyril Amarchand Mangaldas, J. Sagar Associates and Linklaters Singapore Pte. Ltd do not make, or purport to make, any statement in this Placement Document and is not aware of any statement in this Placement Document which purports to be based on a statement made by any of them, and it makes no representation, express or implied, regarding, and to the extent permitted by law takes no responsibility for, any statement in or omission from this Placement Document.

INDEPENDENT ACCOUNTANTS

The Audited Financial Information have been prepared in accordance with the Ind AS and in accordance with the accounting principles generally accepted in India. The Audited Financial Information included in this Placement Document have been audited by A.R. & Co., Chartered Accountants (Firm Registration No. 002744C), the statutory auditors of the Trust, as stated in their audit reports dated May 23, 2022, May 22, 2023, May 27, 2024 and December 19, 2024, included in this Placement Document

Further, the limited review consolidated financial information of the trust for the nine month period ended December 31, 2024, prepared in accordance with Ind AS have been subject to limited review by A.R. & Co., Chartered Accountants (Firm Registration No. 002744C), the statutory auditors of the Trust, as stated in their limited review report dated February 12, 2025, included in this Placement Document.

INDEPENDENT AUDITOR'S REPORT

To the Unit Holders of National Highways Infra Trust

Report on the Audit of the Consolidated Financial Statements

OPINION

We have audited the accompanying consolidated financial statements of National Highways Infra Trust (hereinafter referred to as "the InvIT" or "the Trust") and its two subsidiary (hereinafter referred to as "National Highways Infra Projects Private Limited" or "NHIPPL" and NHIT Eastern Projects Private Limited or "NEPPL") (the Trust and its subsidiary together referred to as "the Group"), which comprising of the consolidated Balance Sheet as at 31 March 2024, the consolidated Statement of Profit and Loss (including Other Comprehensive Income), the consolidated Statement of Changes in Unitholder's Equity and the consolidated Statement of Cash Flows for the year then ended, the consolidated Statement of Net Assets at fair value as at 31 March 2024, the consolidated Statement of Total Returns at fair value, the Statement of Net Distributable Cash Flows of the Trust and its subsidiaries for the year then ended and notes to the consolidated financial statements including a summary of material accounting policy and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of our report on financial statements of subsidiary and on the other financial information of the subsidiary, the aforesaid consolidated financial statements give the information required by the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 as amended from time to time including any guidelines and circulars issued thereunder (together referred to as the "SEBI InvIT Regulations") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, to the extent not inconsistent with SEBI InvIT Regulations, of the consolidated state of affairs of the Group as at 31 March 2024, its consolidated profit including other comprehensive income, its consolidated cash flows, its consolidated statement of changes in Unitholders' equity for the year ended 31 March 2024, its consolidated net assets at fair value

as at 31 March 2024, its consolidated total returns at fair value of the Group and the net distributable cash flows of the Trust and its subsidiaries for the year ended 31 March 2024.

BASIS FOR OPINION

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SAs") issued by the Institute of Chartered Accountants of India. Our responsibilities under those Standards are further described in the auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the SEBI InvIT Regulations, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

EMPHASIS OF MATTER

a) We draw the attention to Note No. 54 to the financial statements regarding Initial Improvement Works. The group has recognized provision for initial improvement works on 1st December 2023 amounting to Rs. 1,11,993.43 lakhs with corresponding impact in Statement of Profit and Loss amounting to Rs. 1124.63 Lakhs and Rs. 2396.83 Lakhs on account of amortization of initial improvement work and unwinding of interest on provision of initial improvement respectively.

b) We draw attention to Note 20 of the financial statements which describes that Major Maintenance Provision (MMR) is made based on the first cycle of overlay expected to occur in five to seven years and not based on the total Major Maintenance Cost estimated to be incurred over entire concession period. The discounting rate used for arriving at the present value for MMR provisions is government bond rate of 30 years for projects acquired in first phase and 20 years for projects acquired in second phase.

c) We draw the attention to Note No. 10 to the financial statements regarding Capital Advance paid to National Highway Authority of India (NHAI). The appointed date for these acquisitions is with effect from 1st April 2024, therefore the amount paid to NHAI has been classified as capital advance.

Our opinion is not modified in respect of these matters.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended 31 March 2024. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1.	**Assessment of Impairment of Intangible Assets in form of Toll Collection Rights** The Group operates toll assets which is constructed on Toll, Operate and Transfer (TOT) basis. The carrying value of the toll collection rights as at March 31, 2024 is Rs. 1088670.84 Lakhs. In accordance with its accounting policy and requirements under Ind AS 36 "Impairment of Assets", the Management has performed an impairment assessment by comparing the carrying value of the toll collection rights to their recoverable amount. For impairment testing, value in use has been determined by forecasting and discounting future cash flows. Further, the value in use is highly sensitive to changes in critical variable used for forecasting the future cash flows including traffic projections and discounting rates. The determination of the recoverable amount of the toll collection right involves significant estimates and judgments and accordingly, the evaluation of impairment of toll collection rights has been determined as a key audit matter. (Refer Note No. 2.1 (d) & Note 2.1 (r) of accounting policy relating to Intangible Assets and Note No. 44 of Consolidated Financial Statements for the year ended 31.03.2024)	Our Audit Procedures included the following :- • Verified the appropriateness of the Group's accounting policy on impairment of Intangible Assets and Valuation Methodology applied in determining the recoverable amount. • Checked the Impairment Sheet provided by the Management. • Obtained the Management Representation on the assumptions around the key drivers of the revenue projections, future cash flow, discount rates / weighted average cost of capital that were used by them. • Tested the arithmetical accuracy of the Impairment sheet.
2.	**Assessment of Impairment of Goodwill on Consolidation** Goodwill on consolidation is tested for impairment as per Ind AS 36 on an annual basis by the Group using enterprise value of respective subsidiary company to which the goodwill relates to. Enterprise value calculation involves use of future cashflow projections, discounted to	Our Audit Procedures included the following :- • Verified the appropriateness of the Group's accounting policy on impairment of Goodwill and Valuation Methodology applied in determining the enterprise value.

A.R. & Co. New Delhi Chartered Accountants

	present value, terminal value and other variables. These use of management projections and estimates results in inherent risk of error with respect to the valuation of Goodwill and accuracy of impairment loss, if any. Goodwill amounting to Rs. 10,144.46 Lakhs as on March 31, 2024 (March 31, 2023: 10,144.46 Lakhs) arising out of business combination as per Ind AS 103 has been tested for impairment by the management. (Refer Note No. 2(c) & Note No-2.1 (r) for accounting policy relating to Goodwill on Consolidation, Note No. 44 of Consolidated Financial Statements for the year ended 31.03.2024) Therefore, Impairment of Goodwill has been considered as a Key Audit Matter.	• Checked the Impairment Sheet provided by the Management. • Obtained the Management Representation on the assumptions around the key drivers of the revenue projections, future cash flow, discount rates / weighted average cost of capital that were used by them. • Tested the arithmetical accuracy of the Impairment sheet.
3.	**Provisioning of Major Maintenance/Periodic Maintenance/resurfacing expenses (Refer Note No. 20 and 53 of the Consolidated Financial Statements)** As per Concession Agreement, the Group is obligated to perform regular maintenance along with periodic maintenance of road assets during the entire concession period. The Periodic maintenance includes resurface of pavements, repairs of structures and other equipment and maintenance of service roads. The Group has estimated the provision required towards major maintenance in accordance with Ind AS 37 "Provisions, Contingent Liabilities and Contingent Assets". The Provision made by the Group over the Concession involves detailed Calculation and Judgement and accordingly, the major maintenance expense is considered to be the Key audit Matter.	Our Audit Procedures included the following :- • Understood the Group's Process associated with the estimation of resurfacing obligation. • Verified the requirement under Concession agreement and Group's accounting policy. • Tested the assumption used in determining the major maintenance provision. • Tested the arithmetical accuracy and also verified the disclosure in the Consolidated Financial Statements.
4.	**Computation and disclosures as prescribed in the SEBI InvIT regulations relating to Consolidated Statement of Net Assets at Fair Value and Consolidated Total Returns at Fair Value** As per SEBI InvIT regulations, the Trust is required to disclose statement of net assets	Our Audit Procedures included the following :- • Obtained the understanding of the requirements of SEBI InvIT regulations for disclosures relating to

	at fair value and statement of total returns at fair value. The fair value is determined by forecasting and discounting future cash flows from the operations of the investee entities which involves management estimates and judgements. These estimates and judgements include discounting rates, Tax rates and inflation rates which are considered for computing the fair value. There is an inherent risk in the computation of fair value due to the use of estimates and judgements mentioned above. Therefore, computation and disclosures of Consolidated statement of net assets at fair value and Consolidated statement of total returns at fair value is considered as a Key Audit Matter. Refer Note-2.1(r) Significant Accounting Assumptions – Fair Value and Disclosures and Statement of net assets at fair value and Statement of total returns at fair value in the Consolidated financial statements.	Consolidated Statement of Net Assets at Fair Value and Consolidated Statement of Total Returns at Fair Value. • Assessed the Valuation Report issued by the Independent Valuer engaged by the management. Also assessed the appropriateness of the Trust's valuation methodology applied in determining the fair values. • Obtained Management representation in this respect. • Tested the arithmetical accuracy of computation in the statement of net assets and total returns at fair value. • Ensured that disclosures is in compliance with SEBI InvIT regulations relating to the statement of net assets at fair value and the statement of total returns at fair value.

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Board of Directors of the Investment Manager is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Report of Investment Manager including annexures to Investment Manager's Report and other information as required to be given by SEBI InvIT Regulations, but does not include the consolidated financial statements and our report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether

the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE BOARD OF DIRECTORS OF INVESTMENT MANAGER FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Board of Directors of Investment Manager is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated Balance Sheet as at 31 March 2024, consolidated statement of Profit & Loss including other comprehensive income, consolidated cash flows and consolidated statement of changes in Unitholder's equity for the year ended 31 March 2024, the consolidated net assets at fair value as at 31 March 2024, the consolidated total returns at fair value of the Group and the net distributable cash flows of the Trust and its subsidiary for the year ended 31 March 2024 in accordance with the requirements of the SEBI InvIT Regulations, Indian Accounting Standards as defined in Rule 2(1) (a) of Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, to the extent not inconsistent with SEBI InvIT Regulations. The respective Board of Directors of the subsidiary company included in the Group are responsible for maintenance of adequate accounting records for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls for ensuring the accuracy and completeness of accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud and error, which have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of Investment Manager, as aforesaid.

In preparing the consolidated financial statements, the Board of Directors of Investment Manager and respective Board of Directors of the company included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors of the Investment Manager and the respective Board of Directors of the subsidiary company included in the Group are also responsible for overseeing the financial reporting process of the Group.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

B. R. & Co. New Delhi Chartered Accountants

Our objectives are to obtain reasonable assurance whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Investment Manager.
- Conclude on the appropriateness of the Board of Directors of Investment Manager use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Based on our audit and as required by SEBI InvIT Regulations, we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

b) the consolidated Balance Sheet, the consolidated Statement of Profit and Loss, the consolidated Statement of Cash Flows, the consolidated Statement of Changes in Unitholders' Equity, the consolidated Statement of Net Assets at fair value, the consolidated Statement of Total Returns at fair value and the Statement of Net Distributable Cash Flows of the Trust and its subsidiary dealt with by this Report are in agreement with the books of account.

c) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards as defined in Rule 2(1)(a) of Companies (Indian Accounting Standards) Rules, 2015, as amended, to the extent not incon with SEBI InvIT regulations.

d) There were no amounts which were required to be transferred to the Investor Protection and Education Fund by the Trust.

NATIONAL HIGHWAYS INFRA TRUST

Notes to Consolidated Financial Statements for the year ended March 31, 2024

1. GROUP INFORMATION AND NATURE OF OPERATIONS

The consolidated financial statements comprise financial statements of National Highways Infra Trust ("the Trust" or "InvIT") and its subsidiaries (Project SPV – National Highways Infra Projects Private Limited (NHIPPL) & NHIT Eastern Projects Private Limited (NEPPL)) (collectively, the Group).

The Trust is an irrevocable trust registered under the provisions of the Indian Trusts Act, 1882 on October 19, 2020. It is registered under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014 on October 28, 2020 having registration number IN/InvIT/20-21/0014.

The Trust was setup by National Highways Authority of India ("NHAI" or the "Sponsor"), an Infrastructure Development Trust in India. The Trustee to the Trust is IDBI Trusteeship Services Limited (the "Trustee") and Investment Manager for the Trust is National Highways Infra Investment Managers Private Limited ("Investment Manager").

The Trust has been formed to invest in infrastructure assets primarily being in the road sector in India. The Trust's road projects are implemented and held through special purpose vehicles ("Project SPVs"/ "Subsidiaries"). The units of the Trust were listed in Bombay Stock Exchange and National Stock Exchange on November 10, 2021.

During FY 21-22, the Trust acquired 100% equity control in National Highway Infra Projects Private Limited (the "Project SPV") from the Sponsor with effect from November 03, 2021. The Project SPV (NHIPPL) has entered into five concession agreements with National Highway Authority of India ("NHAI") on March 30, 2021 for Tolling, Management, Maintenance and Transfer of five toll road projects for a period of 30 years from the Appointed Date. The Appointed Date has commenced on 16.12.2021.

In previous financial year, Project SPV (NHIPPL) entered into three new concession agreements with National Highway Authority of India ("NHAI") on September 26, 2022 for Tolling, Management, Maintenance and Transfer of three toll road projects for a period of 20 years from the Appointed Date. The Appointed Date has commenced on 29.10.2022.

During Current financial year, the Trust has invested in the equity share capital of the NHIT Eastern Projects Private Limited (Project SPV - NEPPL) & holding 100% equity share capital.

The Project SPV (NEPPL)has entered into seven concession agreements with National Highway Authority of India ("NHAI") for Tolling, Management, Maintenance and Transfer of seven toll road projects for a period of 20 years from the Appointed Date. The Appointed Date has commenced on 01.04.2024.

The registered office of the Trust is G-5 & 6, Sector-10, Dwarka, Delhi - 110075.

The consolidated financial statements were authorised for issue in accordance with resolution passed by board of directors of the Investment Manager 27th May,

2. MATERIAL ACCOUNTING POLICIES

a) Basis of Preparation

The Consolidated Financial Statements of the Group comprising of the Consolidated Balance Sheet as at March 31, 2024, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flows, the Consolidated Statement of Changes in Unitholders' Equity for the year then ended, the Consolidated statement of Net Assets at fair value as at March 31, 2024, the Consolidated statement of Total return at fair value, and the Consolidated statement of Net Distributable Cash Flows (NDCFs) for the year then ended and a summary of material accounting policies and other explanatory notes have been prepared in accordance with the Indian Accounting Standard as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS"), and other accounting principles generally accepted in India to the extent not inconsistent with the InvIT Regulations.

The Consolidated Financial Statements of the Group for the Year ended March 31, 2024 has been prepared in accordance with Indian Accounting Standard, as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) ("Ind AS") and other accounting principles generally accepted in India to the extent not inconsistent with the Securities Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 ("InvIT regulations") (as amended) including SEBI Master Circular SEBI/HO/DDHS-PoD-2/P/CIR/2023/115 dated July 06, 2023 herein after referred to as "SEBI Master Circular". Refer note 16 on presentation of "Unit capital" as "Equity" instead of compound financial instruments under Indian Accounting Standard (Ind AS) 32- Financial Instruments: Presentation). The Group has applied the accounting policies during the periods presented.

The Consolidated Financial Statements are presented in India Rupees which is also the functional currency of the Group, and all values are rounded to the nearest lakhs, unless otherwise indicated.

Impact of the initial application of new and amended IND ASs that are effective for current year:

In the current year, the Group has applied the below amendments to Ind ASs that are effective for an annual period that begins on or after April 1, 2023.

(a) The Group has adopted the amendments to Ind AS 1 – "Presentation of Financial Statements" for the first time in the current year. The amendments change the requirements in Ind AS 1 with regard to disclosure of accounting policies. The amendments replace all instances of the term 'significant accounting policies' with 'material accounting policy information'. Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general-purpose financial statements make on the basis of those financial statements.

(b) The Group has adopted the amendments to Ind AS 8 – "Accounting Policies, Changes in Accounting Estimates and Errors" for the first time in the current year. The amendment replace the definition of a change in accounting estimates with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". The definition of a change in accounting estimates was

b) Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the Trust and it's Project SPVs' (NHIPPL - from date of acquisition i.e. November 3, 2021 & Project SPV - NEPPL - from date of incorporation i.e. April 19, 2023).

Group consolidates entities which it owns or controls. Control exists when the Trust has power over the entity, is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. Power is demonstrated through existing rights that give the ability to direct relevant activities, those which significantly affect the entity's returns. Subsidiaries are consolidated from the date on which control is transferred to the Group until the date control ceases.

Consolidated Financial Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. The Group combines the financial statements of the Trust and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated.

c) Business Combination/ Goodwill on Acquisition

The Group acquires operational toll road SPV from the Sponsor. The key activity for these SPVs is toll collection and the maintenance of the toll roads.

Based on evaluation vis-a-vis the guidance on definition of business under Ind AS 103 and also keeping in view the relevant guidance on similar fact patterns available under accounting standards applicable in other jurisdictions, the management has classified the acquisition of toll road SPVs as business combinations.

Business combinations are accounted for using the acquisition method. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition related costs are recognised in the statement of profit and loss as incurred.

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the condition for recognition are recognised at their fair values at the acquisition date.

Goodwill is initially measured at cost which is not amortised, however, it is tested for impairment annually. In the event of cessation of operations of a subsidiary, the unimpaired goodwill is written off fully.

Any impairment loss for goodwill is recognised in the consolidated statement of profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods. Where goodwill has been allocated to a cash generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in th of the [illegible] in determining the gain or loss on disposal.

National Highways Infra Trust New Delhi

A R & Co. New Delhi

Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

2.1 Summary of Material Accounting Policies

a. Current versus non-current classification

Based on the time involved between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Trust has identified twelve months as its operating cycle for determining current and non-current classification of assets and liabilities in the balance sheet.

b. Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The specific recognition criteria described below must also be met before revenue is recognised:

Toll Revenue - Toll Revenue from users of toll roads held by subsidiary company is recognised in respect of toll revenue accrued for respective toll road projects. Revenue from electronic toll collection is recognised on accrual basis.

Interest income - Interest income is recognised using the effective interest method.

Dividends - Dividend income is recognised when the Group's right to receive the payment is established.

Claims with National Highways Authority of India ('NHAI') and other government authorities are accounted as and when the money is received from the respective authorities, in cases of monetary compensations.

Other items - Other items of income are recognised as and when the right to receive the income arises.

c. Property, plant and equipment

Property, plant and equipment are stated at historical cost, as applicable, less accumulated depreciation and cumulative impairment losses, if any.

Historical cost includes purchase price, borrowing costs and any cost directly attributable to bringing the assets to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that the future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably. Cost includes expenditure that is directly attributable to qualifying assets and includes borrowing costs capitalised in

National Highways Infra Trust New Delhi
A.F. & Co. New Delhi Chartered Accountants

accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant, and equipment when completed and ready for intended use.

Depreciation on Plant and Equipment is provided using straight-line method based on estimated useful life. The estimated useful life of all the property, plant and equipment is ascertained by the management using the best estimate on the basis of technical evaluation, which is depreciated based on useful life as prescribed in Schedule II of the Companies Act, 2013. Depreciation on additions/ deductions is calculated pro-rata from/ to the month of additions/ deductions.

The residual values, useful lives and methods of depreciation of Property, plant and equipment are reviewed at each period end and adjusted prospectively, if appropriate.

The Group has estimated the following useful lives for its tangible fixed assets:

Category of Assets	Estimated useful life (in years)
Temporary Structure	3
Computer	3
Office Equipment's	5
Furniture & Fixtures	10
Plant and Machinery	5-20

The estimated residual value of the PPE has been taken as 5% as prescribed in Schedule II to the Companies Act, 2013. Fixed Assets amounting upto INR 5,000 are recognised in Statement of Profit and Loss in entirety in the year of purchase.

d. Intangible assets

Intangible assets are stated at original cost net of tax/duty credits availed, if any, less accumulated amortisation, and cumulative impairment, if any.

Intangible Assets are stated at historical cost, as applicable, less accumulated amortisation and cumulative impairment losses, if any.

The useful lives of intangible assets are assessed as either finite or indefinite.

Rights under Service Concession Arrangements – Toll Collection Rights

The Group has acquired rights for Tolling, Operation, Maintenance and Transfer of five toll road projects for a period of 30 years basis Toll Concession agreements with NHAI, group further acquired rights during the Previous F.Y. 2022-23 for Tolling, Operation, Maintenance and Transfer of three additional toll road projects for a period of 20 years w.e.f. 29.10.2022 basis Toll Concession agreements with NHAI, and the same have been recognised as Intangible Assets in the financial statements. Further, the group has acquired seven concession agreements with National Highway Authority of India ("NHAI") for Tolling, Management, Maintenance and Transfer of seven toll road projects for a period of 20 years from the Appointed Date. The Appointed Date has commenced on 01.04.2024 and therefore the revenue and expenses of these projects shall be recognised from next financial year.

National Highways Infra Trust New Delhi
New Delhi Chartered Accountants

Extension of concession period by the Authority in compensation for claims made by the Group are capitalised as part of Toll Collection Rights on acceptance of the claim. Where the Group has a contractual right to an extension in the concession period as per the concession agreement, the same is capitalized when the right to extension in the concession period is established at the estimated amount of eligible claims.

Amortisation of Intangible Assets

Toll Collection Rights are amortized basis a Consumption based model (using Passenger Car Unit (PCU) projections) over the tenure of the Concession Agreement. The projected traffic is based on independent traffic volume projections: amortisation is revised in case of any material change in expected pattern of economic benefits.

Other intangible assets - Software purchased is amortized over a period of three to six years on straight line basis from the month in which the addition is made. The estimated useful life is reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

e. **Employee benefits**
Employee benefits include provident fund, gratuity, compensated absences, and medical benefits.

i. **Short term employee benefits**
Employee benefits such as salaries, short term compensated absences, expected cost of bonus, ex-gratia and performance linked rewards falling due wholly within twelve months of rendering the service are classified as short-term employee benefits and are expensed in the period in which the employee renders the related service.

ii. **Post-Employment Benefits**
Defined contribution plan: A defined contribution plan is a post-employment plan under which an entity pays fixed contributions and will have no legal or constructive obligations to pay further amounts. The Group contributes to provident fund and employees deposit linked insurance scheme, and have no further obligations beyond making its contributions. The Group's contribution to the above funds are charged to the Consolidated Statement of Profit and Loss.

Defined benefit plan: The Group has an un-funded benefit plan for post-employment benefits in the form of Gratuity. The value of obligation under the plan is determined by the group based on best estimate of the present value of the estimated future cash flows towards the gratuity obligation. Defined benefit costs comprising current service cost, past service cost and gains or losses on settlements are recognised in the Consolidated Statement of Profit and Loss as employee benefits expense. Gains or losses on the curtailment or settlement of any defined benefit plan are recognised when the curtailment or settlement occurs.

iii. **Termination benefits**
Termination benefits such as compensation under employee separation schemes (wherever applicable) are recognised as expense in the Consolidated Statement of Profit and Loss. Liability for the same is recognised at the earlier of when the group can no[t] the offer of termination benefit.

iv. **Other long-term employee benefits**

The present value of the obligation under long term employee benefit plans such as compensated absences is determined and is recognised in a similar manner as in the case of defined benefit plans.

Long term employee benefit costs comprising current service cost and gains or losses on curtailments and settlements, re-measurements are recognised in the Consolidated Statement of Profit and Loss as employee benefit expenses. Interest cost implicit in long term employee benefit cost is recognised in the Consolidated Statement of Profit and Loss under finance cost.

f. Leases

The Group assesses whether a contract contains a lease, at inception of a contract.

At the date of commencement of the lease, the Group recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases, which are accounted for as under.

Short-term leases and leases of low-value assets

Short term leases are leases with a term of twelve months or less. For short-term and low value leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

g. Borrowing costs

Borrowing costs include interest calculated using the effective interest method, amortization of ancillary costs and other costs the Trust incurs in connection with the borrowing of funds.

Borrowing costs are expensed in the period in which they are incurred.

h. Financial Instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. However, transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss ("FVTPL") are recognized immediately in the Statement of Profit and Loss.

If the Group determines that the fair value at initial recognition differs from the transaction price, the Group accounts for that instrument at that date as follows:

- at the measurement basis mentioned above if that fair value is evidenced by a quoted price in an active market for an identical asset or liability (i.e. a Level 1 input) or based on a valuation technique that uses only data from observable markets. The Trust recognises the

National Highways Infra Trust New Delhi

A R & Co Chartered Accountants New Delhi

difference between the fair value at initial recognition and the transaction price as a gain or loss.

- in all other cases, at the measurement basis mentioned above, adjusted to defer the difference between the fair value at initial recognition and the transaction price. After initial recognition, the Group recognises that deferred difference as a gain or loss only to the extent that it arises from a change in a factor (including time) that market participants would take into account when pricing the asset or liability.

Subsequent measurement of financial assets and financial liabilities is described below.

Financial Assets

All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

1. **Classification of Financial Assets**

Financial Assets that meet the following conditions are subsequently measured at amortised cost (unless the same are designated as fair value through profit or loss (FVTPL)):

- The asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- The contractual terms of instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding..

Financial Assets at FVTPL is a residual category for debt instruments and all changes are recognized in profit or loss.

2. **Amortized cost and effective interest method**

Income is recognized on an effective interest method as per Ind AS 109 for financial assets other than those financial assets classified as at FVTPL. Interest income is recognized in the Statement of Profit and Loss and is included in the "Other income" line item.

3. **Impairment of financial assets (Expected credit loss model)**

An impairment loss on financial asset is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Impairment loss, if any, are recognised in Statement of Profit or Loss for the period.

4. **De-recognition of financial assets**

The Group derecognize a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all th[illegible]s of e asset to another party.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in profit or loss if such gain or loss would have otherwise been recognized in the Statement of Profit or Loss on disposal of that financial asset.

b) Financial Liabilities

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Loans and borrowings are subsequently measured at amortized costs using Effective Interest Rate method.

Financial liabilities at fair value through profit or loss (FVTPL) are subsequently measured at fair value.

De-recognition of financial liabilities

Financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of the new liability. The difference in the respective carried amount is recognized in the Statement of Profit and Loss

Financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

c) Classification as debt or equity

Debt and equity instruments issued by Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

i. Fair Value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group considers the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial Statements is determined on such a basis and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 "Inventory" or value in S 36 "Impairment of Assets".

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that entity can access at measurement date

- Level 2 inputs other than quoted prices included in Level 1, that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and

- Level 3 inputs for the asset or liability that are not based on observable market data (unobservable inputs).

j. Cash and Cash Equivalents

Cash and cash equivalents in the Consolidated Balance Sheet comprise cash at banks and on hand, overnight mutual fund investments and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the Consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

k. Impairment of Non- Financial Assets

The carrying values of assets / cash generating units at each reporting date are reviewed for impairment if any indication of impairment exists. If any indication exists, the Group estimates the asset's recoverable amount, use.

If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognized for such excess amount. The impairment loss is recognized as an expense in the Consolidated Statement of Profit and Loss.

The recoverable amount is the higher of the fair value less costs of disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the asset for which the estimated future cash flows have not been adjusted.

When there is indication that an impairment loss recognized for an asset (other than a revalued asset) in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognized in the Consolidated Statement of Profit and Loss.

l. Taxes on income

Current income tax

The income tax expense or credit for the year is the tax payable on current year's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities

attributable to temporary differences and to unused tax losses. The current income tax charge is calculated based on tax laws enacted or substantively enacted at the end of the reporting period.

Deferred tax

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However deferred income tax is not accounted if it arises from the initial recognition of an asset or liability that at the time of the transaction affects neither the accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates and laws that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset/liability is realized or settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

m. Provisions, Contingent Liabilities, Contingent Assets and Capital Commitments

Contingent Liabilities
Contingent liabilities are disclosed in notes in case of a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation or a present obligation arising from past events, when no reliable estimate is possible

Contingent Assets
Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity.

Contingent assets are recognized when the realisation of income is virtually certain, in which case the related asset is not a contingent asset and its recognition is appropriate.

Contingent assets are reviewed at each reporting date. A contingent asset is disclosed where an inflow of economic benefits is probable.

Provisions
Provisions are recognised when the Trust has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

n. Consolidated Statement of Cash Flows

Consolidated Statement of Cash Flows is prepared segregating the cash flows into operating, investing and financing activities.

Cash flow from operating activities is reported using indirect method adjusting the net profit for the effects of:

- changes during the period in operating receivables and payables, tra[illegible]n-cash nature;

- non-cash items such as depreciation, provisions, deferred taxes, unrealised foreign currency gains and losses;
- all other items for which the cash effects are investing or financing cash flows.

Cash and cash equivalents (including bank balances) shown in the Consolidated Statement of Cash Flows exclude items which are not available for general use as at the date of Consolidated Balance Sheet.

o. Distribution to unit holders

The Group recognises a liability to make cash distributions to unit holders when the distribution is authorised and a legal obligation has been created. As per the SEBI InvIT Regulations, a distribution is authorised when it is approved by the Board of Directors of the Investment Manager. A corresponding amount is recognised directly in other equity.

p. Earnings per Unit (EPU)

Basic EPU are calculated by dividing the profit for the period attributable to unitholders by the weighted average number of units outstanding during the period.

Diluted EPU are calculated by dividing the profit/(loss) attributable to unitholders by the weighted average number of units outstanding during the period plus the weighted average number of units that would be issued on conversion of all the dilutive potential units into unit capital.

q. Recent Pronouncements

As on 31st March 2024, there are no new standards or amendment to the existing standards applicable to the Group which has been notified by Ministry of Corporate Affairs.

National Highways Infra Trust

A.R. & Co. New Delhi Chartered Accountants

r. **Significant accounting judgements, estimates and assumptions**

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements.

Applicability of service concession arrangement accounting to toll roads concessionaire arrangements

The Group has determined that Appendix D to Ind AS 115 "Revenue from Contracts with Customers" relating to 'Service Concession Arrangements' is applicable to the SPVs which provides an accounting by the operators of public to private service concession arrangements. The SPVs have entered into concession arrangement with National Highway Authority of India (NHAI) (the "Authority") as per which the individual SPVs would participate in Toll Operate Transfer (TOT) of the toll roads infrastructure. After the end of the Concession arrangement, the SPVs have to transfer the infrastructure i.e. toll roads constructed to the Authority.

Accordingly, the SPVs have recognized the intangible assets as per the accounting policy mentioned in Note (d) Intangible Assets.

Future revenue projections for the balance concession period

The future revenue projections are based on the assumptions made by the Group's management regarding future traffic growth and inflation factor for assessing user toll fee as supported by the studies from the third-party independent consultant for individual project done at reasonable intervals.

The Group uses the future revenue projections for the following purposes:

- **Amortisation of Rights under Service Concession Arrangements (SCA) i.e. Intangible Assets-Toll Road Carriageway:**

  Toll Collection Rights are amortized on the basis of Consumption based model (using Passenger Car Unit (PCU) projections) over the tenure of the Concession Agreement. The projected traffic is based on independent traffic volume projections : amortisation is revised in case of any material change in expected pattern of economic benefits.

Classification of unit holders Funds

The Unit Capital has been presented as "Equity" in accordance with the InvIT R
ound financial instrument. Refer note 16 on presentation of "Unit ca

instead of compound financial instruments under Indian Accounting Standard (Ind AS) 32- Financial Instruments: Presentation).

Fair value measurements

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. The Trust engages third party valuers, where required, to perform the valuation. Information about the valuation techniques and inputs used in determining the fair value of investments are disclosed in the notes to Standalone Financial Statements.

Fair valuation and disclosures

SEBI Master Circular issued under the SEBI InvIT Regulations requires disclosures relating to net assets at fair value and total returns at fair value. In estimating the fair value of investments in subsidiaries (which constitute substantial portion of the net assets), the Group engages independent qualified external valuers to perform the valuation. The Investment Manager works closely with the valuers to establish the appropriate valuation techniques and inputs to the model. The valuation report and findings are discussed at the meeting of the Board of Directors on yearly basis to understand the changes in the fair value of the subsidiaries. The inputs to the valuation models are taken from observable markets, where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as weighted average cost of capital, tax rates, inflation rates etc. Changes in assumptions about these factors could affect the fair value.

Useful lives of property, plant, and equipment

Management of the Group reviews the useful lives of property, plant and equipment at each reporting date to ensure that the useful lives represent the expected utility of the assets to the Group.

Obligations relating to employee benefits

The employee benefit obligation depends on several factors that are determined on an actuarial basis using several assumptions. The assumptions used in determining the net cost/ (income) discount rate, inflation and mortality assumptions. Any changes in these assumptions pon the carrying amount of employee benefit obligations.

National Highways India Trust New Delhi

A.R. & Co. Chartered Accountants New Delhi

Impairment of intangible assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The recoverable amounts for the intangible assets are based on value in use of the underlying projects. The value in use calculation is based on a DCF model. The cash flows are derived from forecasts over the remaining SCA period of the projects.

Major Maintenance Expenses / Resurfacing Expenses

As per industry practice, the Project SPV (NHIPPL) is required to carry out resurfacing of the roads under the Concession. For this purpose, a regular maintenance along with periodic maintenances is required to be performed. Normally, periodic maintenance includes resurface of pavements, repairs of structures and other equipment and maintenance of service roads. The maintenance cost / bituminous overlay may vary based on the actual usage during maintenance period. Accordingly, on the grounds of matching cost concept and based on technical estimates, a provision for major maintenance expenses is reviewed and is provided for in the accounts annually.

The provisions for MMR as per industry practice has been made based on the first cycle of of overlay expected to occur in five to seven years and not based on the total MMR cost over entire concession period. The discounting rate used for arriving at the present value for MMR provisions is government bond rate of 30 years for projects acquired in first phase and 20 years for projects acquired in second phase.

Expected Credit Loss on financial assets

As per Ind AS 109, Financial Assets that are measured at amortised cost are required to compute the Expected Credit Loss (ECL). As at the reporting period, Investment manager of the Group credit risk of the financial assets and concluded that no provision for ECL is required.

5 Goodwill

(All amounts in ₹ lakh unless otherwise stated)

PARTICULARS	As at March 31, 2024	As at March 31, 2023
Gross Carrying Amount		
Balance at the beginning of the year	10,144.46	10,144.46
Additions	-	-
Less: Disposals	-	-
Less: Impairment	-	-
Balance at the closing of the year	**10,144.46**	**10,144.46**

The carrying amount relates to goodwill arising on acquisition of Project SPV (NHIPPL) by the Trust and has been tested for impairment against the respective cash generating unit (CGU). The calculation uses cash flow forecast based on financial models which cover remaining future periods of respective concession periods of toll assets.

Based on a review of the future discounted cash flows of the intangible assets (Toll Collection Rights) held by the subsidiary (NHIPPL), the recoverable amount is higher than the carrying amount of the assets, and accordingly no impairment loss has been recognised in the statement of profit and loss for the year ended March 31, 2024.

* 58,57,95,400 units issued at Rs. 124.14 per unit during current financial year (13,12,05,200 unit issued at Rs 109 per unit in previous financial year).

In current year the Trust offered an issue of 58,57,95,400 units of National Highways Infra Trust ("NHIT"), for cash at a price of 124.14 per unit (the "issue price"), aggregating to Rs 7,27,206.41 lakhs through Institutional and preferential placement in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014 including the rules, circulars and guidelines issued thereunder.

In previous year the Trust offered an issue of 13,12,05,200 units of National Highways Infra Trust ("NHIT"), for cash at a price of 109.00 per unit (the "issue price"), aggregating to Rs 1,43,013.67 lakhs through Institutional and preferential placement in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014 including the rules, circulars and guidelines issued thereunder

Issue expenses of Rs. 1,717.16 lakhs (March 31, 2023: Rs 852.17 lakhs) incurred in connection with issue of units have been reduced from the Unitholders capital in accordance with Ind AS 32 Financial Instruments: Presentation

Rights/ preferences and restrictions attached to Unit Capital

Subject to the provisions of the InvIT Regulations, the indenture of funds, and applicable rules, regulations and guidelines, the rights of the unit holders include:

a) The beneficial interest of each unitholder shall be equal and limited to the proportion of the number of the units held by that unitholder to the total number of units.

b) Right to receive income or distributions with respect to the units held

c) Right to attend the annual general meeting and other meetings of unit holders of the Trust

d) Right to vote upon any matters/resolutions proposed in relation to the Trust.

e) Right to receive periodic information having a bearing on the operation or performance of the Trust in accordance with the InvIT Regulations

f) Right to apply to the Trust to take up certain issues at meetings for unit holders approval.

g) Right to receive additional information, if any, in accordance with InvIT documents filed with Placement Memorandum.

In accordance with the InvIT Regulations, no unit holders shall enjoy superior voting or any other rights over any other unit holders, and there shall not be multiple classes of units. There shall be only one denomination of units. Not withstanding the above, subordinate units may be issued only to the Sponsor and its Associates, where such subordinate units shall carry only inferior voting or any other rights compare to the other units.

Under the provisions of the InvIT Regulations, not less than 90% of the net distributable cash flows of the Trust is required to be distributed to the unitholders, and in accordance with such statutory obligation the Trust has formulated a distribution policy to declare and distribute the distributable cash flows to its unitholders atleast once every financial year as approved by the Board of Directors of the Investment Manager. The distributions made by Trust to its unitholders are based on the Net Distributable Cash Flows (NDCF) of the Trust under the InvIT Regulations. The distribution in proportion to the number of units held by the unitholders. The Trust declares and pays in distributions in indian rupees.

Limitation to the Liability of the unit holders

The liability of each unit holders towards the payment of any amount (that may arise in relation to the Trust including any taxes, duties, fines, levies, liabilities, costs or expenses) shall be limited only to the extent of the capital contribution of such unit holders and after such capital contribution shall have been paid in full by the unit holders, the unit holders shall not be obligated to make any further payments

The unit holders shall not have any personal liability or obligation with respect to the Trust

Classification of Unit Holders' Funds

Under the provisions of the InvIT Regulations, NHIT is required to distribute to Unitholders not less than ninety percent of the net distributable cash flows of NHITfor each financial year. Accordingly, a portion of the unitholders' funds contains a contractual obligation of the Trust to pay to its Unitholders cash distributions. The Unitholders' funds could therefore have been classified as compound financial instrument which contain both equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with SEBI Circulars (No. CIR/IMD/DF/114/2016 dated 20-Oct-2016 and No. CIR/IMD/DF/127/2016 dated 29-Nov-2016) issued under the InvIT Regulations, the unitholders' funds have been classified as equity in order to comply with the mandatory requirements of Section H of Annexure A to the SEBI Circular dated 20-Oct-2016 dealing with the minimum disclosures for key financial statements. In line with the above, the distribution payable to unit holders is recognised as liability when the same is approved by the Investment Manager.

Details of Unitholders Holding More Than 5% Units In The Trust

Name of Unitholders	As at March 31, 2024		As at March 31, 2023	
	No of Units	%	No of Units	%
Ontario Limited	32,80,50,150	25.00%	18,16,01,300	25.00%
CPP Investment Board Private Holdings Inc.	32,80,50,150	25.00%	18,16,01,300	25.00%
SBI Balanced Advantage Trust	6,31,60,260	4.81%	6,31,60,260	8.69%

National Highways Infra Trust New Delhi

A.R. & Co. Chartered Accountants New Delhi

Nature of Security for Non Convertible debentures:
The debenture holders are secured by :

a) a first ranking pari passu Security Interest over the Trust's immovable assets (if any), both present and future. The Trust does not own any immovable property at the present time. In the event, the Trust acquires any immovable property in future, the Trust shall mortgage said property within 180 (one hundred eighty) days from the date of acquisition of such immovable assets. The Debenture Trustee shall be authorised to do all acts, deeds, and enter into necessary documents, agreement, amendments and/or modifications, as may be required to give effect the same, including carrying out the due diligence as may be required by Debenture Trustee;
b) a first ranking pari passu Security Interest over the Hypothecated Assets (including Receivables), both present and future; and
c) Negative Lien Undertaking
d) corporate guarantee executed by the Project SPV (NHIPPL) in favour of the Debenture Trustee for guaranteeing the due repayment of the secured obligations in accordance with the terms of the Debenture Trust Deed.

The non convertible debenture holders of the Trust acting through debenture trustee have also been provided with a corporate guarantee from Project SPV (NHIPPL) to guarantee the repayment of amount raised from non convertible debenture holders by the Trust. The funds have been raised at Trust level from debentureholders, have been lent to Project SPV (NHIPPL) for payment of concession fee by NHIPPL to NHAI. Accordingly, corporate guarantee amounting upto the secured obligations via Corporate Guarantee Deed dated 21.10.2022 is valid till all outstanding principal and accrued interest payable by the Trust are satisfied to the non convertible debenture holders of the Trust

There have been no breaches in financial covenants with respect to the borrowings from either senior lenders or debenture holders

Provision for Infrastructure Upgrade	(Refer Note 54)	20,642.34	-
Total		**35,923.32**	**6,318.81**

a) Nature of provisions for major maintenance

The company is required to operate and maintain the project tollway during the entire concession period and hand over the project back to NHAI as per the maintenance standards prescribed in concession agreements. For this purpose, a regular maintenance along with periodic maintenance is required to be performed. Normally, periodic maintenance includes resurface of pavements, repairs of structures and other equipment and maintenance of service roads. As per industry practice, the periodic maintenance is expected to occur once in five to seven years. The provisions for MMR as per industry practice has been made based on the first cycle of of overlay expected to occur in five to seven years and not based on the total MMR cost over entire concession period. The discounting rate used for arriving at the present value for MMR provisions is government bond rate of 30 years for projects acquired in first phase and 20 years for projects acquired in second phase. The maintenance cost / bituminous overlay may vary based on the actual usage during maintenance period. Accordingly, on the grounds of matching cost concept and based on technical estimates, a provision for major maintenance expense is reviewed and is provided for in the financial statements in each reporting period. Considering that the expense to be incurred is depended on various factors including the usage, wear and tear of the toll road, bituminous overlay, etc., it is not possible to estimate the exact timing and the quantum of the cashflow.

38 Earning per Unit

(All amounts in ₹ lakh unless otherwise stated)

Particulars	For the year ended March 31, 2024	For the year ended March 31, 2023
Basic and diluted EPU		
Net Profit/ loss available for unitholders (in ₹ lakh)	29,419.70	25,689.57
Weighted average number of units for EPU computation	75,36,14,275.96	65,66,68,737.53
EPU- Basic and diluted	**3.90**	**3.91**

Basic EPU amounts are calculated by dividing the profit for the period/ year attributable to Unit holders by the weighted average number of units outstanding during the period/ year. Diluted EPU amounts are calculated by dividing the profit/(loss) attributable to unit holders by the weighted average number of units outstanding during the period/ year plus the weighted average number of units that would be issued on conversion of all the dilutive potential units into unit capital.

39 Disclosure pursuant to Ind As 19 " Employee benefits'

i) Defined contribution plan

The group has provident fund which is the defined contribution plan. The group is required to contribute a specified percentage of payroll costs to the recognised provident fund to fund the benefits. The only obligation of the group with respect to these plans is to make the specified contributions.

An amount of Rs. 65.87 lakhs (March 31,2023 : Rs 15.27 lakhs being contribution made to recognised provident fund is is recognised as expense and included under Employee benefits expense (refer Note 32) in the Statement of Profit and Loss.

(ii) Defined benefit plans:

A Disclosure of gratuity

a) Features of its defined benefit plans:

The group has a unfunded defined benefit gratuity plan The gratuity plan is governed by the Payment of Gratuity Act, 1972 (' the Gratuity Act') Under the Act, employee who has completed five years of service is entitled to specific benefit.The level of benefits provided depends on the member's length of service and salary at retirement age. Every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn salary) for each completed year of service as per the provision of the Act

The key features are as under

Plan Features

i	Benefit offered	15/ 26 × salary × duration of service
ii	Salary Definition	Basic salary including dearness allowance (if any)
iii	Benefit ceiling	Benefit ceiling of Rs. 20,00,000 was applied
iv	Vesting conditions	5 years of continuous service (not applicable in case of death /disability)
v	Benefit eligibility	Upon death or resignation / withdrawal or retirement
vi	Retirement age	60 Years (or) end of concession period. whichever is earlier

The amounts recognised in Balance Sheet are as follows : (All amounts in ₹ lakh unless otherwise stated)

Particulars	As at 31 March 2024		As at 31 March 2023	
	Current	Non-current	Current	Non-current
Gratuity	0.07	25.31	0.01	4.41
Leave encashment	2.01	33.39	0.55	6.96

Fair value of plan assets as at the end of the period funded	-	-
Unfunded net liability recognized in balance sheet	**25.39**	**4.42**

National Highways Infra Trust New Delhi

A.R. & Co. New Delhi Chartered Accountants

(iv) **Breakup of actuarial (gain)/loss:**

(All amounts in ₹ lakh unless otherwise stated)

Description	As at 31 March 2024	As at 31 March 2023
Actuarial (gain) loss from change in demographic assumption	-	-
Actuarial (gain) loss from change in financial assumption	-	-
Actuarial (gain) loss from experience adjustment	(0.13)	
Total actuarial (gain)/loss	**(0.13)**	-

(v) **Actuarial assumptions**

Description	As at 31 March 2024	As at 31 March 2023
Discount rate	7.38%	7.38%
Rate of increase in compensation levels	7.00%	7.00%
Retirement age (years)	60	60

Notes:

1) The discount rate is based on the prevailing market yield of Indian Government bonds as at the balance sheet date for the estimated terms of obligations.

2) The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors.

(vi) **Expected expense for the next annual reporting period**

(All amounts in ₹ lakh unless otherwise stated)

Description	As at 31 March 2024	As at 31 March 2023
Service cost	32.14	12.16
Interest cost	1.83	0.33
Actuarial loss/(gain)	-	-
Expected Expense for the next annual reporting period	**33.97**	**12.49**

(vii) **Sensitivity analysis for gratuity liability**

(All amounts in ₹ lakh unless otherwise stated)

Description	As at 31 March 2024	As at 31 March 2023
Impact of change in discount rate		
Present value of obligation at the end of the year	25.39	4.42
- Impact due to increase of 0.5 %	(1.74)	(0.33)
- Impact due to decrease of 0.5 %	1.91	0.37
Impact of change in salary increase		
Present value of obligation at the end of the year	25.39	4.42
- Impact due to increase of 0.5 %	1.91	0.36
- Impact due to decrease of 0.5 %	(1.75)	(0.33)

The above sensitivity analysis is based on a change an assumption while holding all other assumptions constant. In practice, this is unlikely to occur and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied which was applied while calculating the defined benefit obligation liability recognized in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to previous year.

(viii) **Maturity profile of defined benefit obligation**

(All amounts in ₹ lakh unless otherwise stated)

Description	As at 31 March 2024	As at 31 March 2023
Within next 12 months	0.07	0.01
Between 1-5 years	3.28	0.11
5 to 6 years	0.58	0.23
Beyond 6 years	21.44	4.07

B **Leave encashment**

Amount recognized in the statement of profit and loss is as under:

(All amounts in ₹ lakh unless otherwise stated)

Description	As at 31 March 2024	As at 31 March 2023
Current service cost	29.88	7.51
Interest cost	0.55	-
Actuarial loss/(gain) recognized during the year	0.91	-
Amount recognized in the statement of profit and loss	**31.34**	**7.51**

41 Disclosure as per Ind AS 115, "Revenue from contracts with customers"

A Disaggregation of revenue

Revenue recognised mainly comprises of revenue from toll collections, claims with NHAI, contract revenue. Set out below is the disaggregation of the Group's revenue from contracts with customers:

(All amounts in ₹ lakh unless otherwise stated)

Description	For the year ended March 31, 2024	For the year ended March 31, 2023
Operating revenue		
(a) Toll income (User Fee) from Highways	94,390.77	68,708.93
(b) Interest on delay in Toll Remittance	-	8.27
Total revenue	**94,390.77**	**68,717.20**

The table below presents disaggregated revenues from contracts with customers based on nature, amount and timing:

S.No.	Types of Products by Nature	Types of Services by Timing	For the year ended March 31, 2024	For the year ended March 31, 2023
1	Services	At the point in time	94,390.77	68,717.20

B Assets and liabilities related to contracts with customers

The following table provides information about receivables, contract assets and contract liabilities from contract with customers:

Description	As At March 31, 2024	As At March 31, 2023
	Current	Current
Contract assets		
Trade receivables:		
- Receivables under service concession arrangements	385.20	350.87
Total	**385.20**	350.87

C. Performance Obligation

Income from toll collection

The performance obligation in service of toll collection is recorded as per rates notified by NHAI and approved by management and payment is generally due at the time of providing service.

Contract revenue

The performance obligation under service concession agreements ('SCA') is due on completion of work as per terms of SCA.

D. Disclosure as per Appendix - C & D of Ind AS 115 - " Service Concession Arrangements"

All the below service concession arrangement have been accounted under intangible asset model

Till year ended March 31, 2024

Name of Concessionaire	Start of Concession period under concession agreement (Appointed Date)	End of Concession period under concession agreement	Period of Concession since the appointed date (in days)

42 Capital Management

For the purpose of the Group's capital management, capital includes issued unit capital and all other reserves attributable to the unit holders of the Group.

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise unit holder value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may adjust the dividend payment / income distribution to unit holders (subject to the provisions of SEBI InvIT Regulations which require distribution of at least 90%of the net distributable cash flows of the Group to unit holders), return capital to unit holders or issue new units. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group's policy is to keep the gearing ratio optimum.

(All amounts in ₹ lakh unless otherwise stated)

Particulars	As at March 31, 2024	As at March 31, 2023
Net Debt Components:		
Long Term Borrowings (Non-Current portion)	11,63,394.94	2,92,158.33
Current Maturities of Long-Term Borrowings	10,054.00	2,000.00
Trade Payables	4,754.99	4,008.40
Other financial liabilities	7,305.43	5,284.95
Less: Cash and Cash Equivalents	(46,400.78)	(21,124.08)
Less: Other Financial Assets comprising DSRA FDs	(10,687.46)	(9,670.84)
Net Debt (i)	**11,28,421.12**	**2,72,656.76**
Capital Components:		
Unit Capital	14,67,093.47	7,41,604.32
Initial Settlement Amount	0.10	0.10
Other Equity	(27,541.44)	(2,469.86)
Total Capital (ii)	**14,39,552.13**	**7,39,134.56**
Capital and Debt [(iii) = (i) + (ii)]	**25,67,973.25**	**10,11,791.32**
Gearing Ratio (i)/(iii)	**43.94%**	**26.95%**

Financial Covenants:

In order to achieve this overall objective, the Board of Directors of Investment Manager, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the lenders to call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current year. No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2024 and March 31, 2023.

43 Financial Risk Management Objectives and Policies

The Group is in the process of formulation of its risk management policies with an objective of identification and analysis of risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies shall be reviewed regularly to reflect changes in market conditions and the Group's activities.

The Board of Directors of Investment Manager has overall responsibility for the establishment and oversight of the Group's risk management framework.

In performing its operating, investing and financing activities, the Group is exposed to the Credit risk, Liquidity risk and Market risk.

Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk. Financial instruments affected by market risk include loans and borrowings, Receivable and Payables and Investments measured at FVTPL.

The sensitivity analyses in the following sections relate to the position as at March 31, 2024 and March 31, 2023.

The sensitivity analyses have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt are all constant.

The following assumptions have been made in calculating the sensitivity analyses:

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2024 & March 31, 2023.

National Highways Infra Trust New Delhi

B.K. & Co. Chartered Accountants New Delhi

Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group transacts business primarily in Indian Rupees only, and hence, the sensitivity of profit and loss of the Group to a possible change in foreign exchange rates is non-existent as on 31st March, 2024 and 31st March, 2023.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Exposure to risk of changes in market interest rates generally relates primarily to long-term debt obligations with floating interest rates.

The following table provides a break-up of the group fixed and floating rate borrowings:

(All amounts in ₹ lakh unless otherwise stated)

Particulars	As at March 31, 2024	As at March 31, 2023
Floating Rate Borrowings	10,26,927.70	1,45,987.43

Sensitivity analysis based on average outstanding Debt:

(All amounts in ₹ lakh unless otherwise stated)

Particulars	As at March 31, 2024	As at March 31, 2023
Increase or decrease in interest rate by 25 basis points	2,567.32	364.97

Price Risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk).

Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. With respect to credit risk arising from other financial assets of the Group, which comprise Balances with banks, Trade Receivables, Loans and Advances and Investments. The Group's exposure to credit risk arises from default of the counterparty, with maximum exposure equal to the carrying amount of these instrument.

The carrying value of financial assets represents the maximum credit risk. The maximum exposure to credit risk was Rs. 57,481.35 Lakh and Rs. 31,154.04 Lakh as at March 31, 2024 and March 31, 2023 respectively, being the total carrying value of Trade receivables, Investments, Balances with bank, bank deposits and other financial assets.

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial assets.

The Group is exposed to liquidity risk due to bank borrowings and trade and other payables.

The Group measures risk by forecasting cash flows

The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due without incurring unacceptable losses or risking damage to the Group's reputation. The Group ensures that it has sufficient funds to meet expected operational expenses, servicing of financial obligations.

In addition, processes and policies related to such risk are overseen by senior management. Management monitors the Group's net liquidity position through rolling forecast on the basis of expected cash flows.

44 Disclosure pursuant to IND AS 36 "Impairment of Assets"

Based on impairment testing done which involves review of the future discounted cash flows of the subsidiary, the recoverable amount is higher than the carrying amount of the investment made in the subsidiary and accordingly, no provision for impairment is required to be recognised in the books as on the reporting date. In case of goodwill based on impairment testing recoverable amount is higher then the carrying value as on the reporting date, hence no provision for impairment is required to be recognised in the books as on reporting date.

45 Financial Instrument by Category

(All amounts in ₹ lakh unless otherwise stated)

Defaults and breaches

There are no defaults during the year with respect to repayment of principal and payment of interest and no breaches of the terms and conditions of the borrowings.

There are no breaches during the year which permitted lender to demand accelerated payment.

National Highways Infra Trust New Delhi

A.R. & Co. Chartered Accountants New Delhi

46 Fair Values of Assets and Liabilities

The carrying amount of all financial assets and liabilities appearing in the financial statements is reasonable approximation of fair values. Fair value of the financial assets and liabilities is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Group is required to present the Statement of total assets at fair value and Statement of total returns at fair value as per SEBI Circular No. CIR/IMD/DF/114/2016 dated October 20, 2016 as a part of these financial statements - Refer Statement of Net assets at fair value and Statement of Total Returns at fair value

Fair Value Hierarchy

The Group uses the following hierarchy for fair value measurement of the Group's financial assets and liabilities:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Fair value of financial assets and financial liabilities that are not measured at fair value (but fair value disclosures are required)

(All amounts in ₹ lakh unless otherwise stated)

Particulars	Carrying Value		Fair Value	
	As at 31st March,	As at 31st March, 2023	As at 31st March, 2024	As at 31st March, 2023
Financial Assets at Amortized Cost:				
Trade Receivables	385.20	350.87	385.20	350.87
Cash and Cash Equivalents	46,400.78	21,124.08	46,400.78	21,124.08
Bank Balances Other than Cash & Cash Equivalents	512.98	-	512.98	-
Loans & Advances	-	-	-	-
Other Financial Assets	10,182.40	9,679.09	10,182.40	9,679.09
Total	**57,481.35**	**31,154.04**	**57,481.35**	**31,154.04**
Financial Liabilities at Amortized Cost:				
Borrowings*	11,73,448.94	2,94,158.33	11,73,448.94	2,94,158.33
Trade Payables	4,754.99	4,008.40	4,754.99	4,008.40
Other Financial Liabilities	7,305.43	5,284.95	7,305.43	5,284.95
Total	**11,85,509.36**	**3,03,451.67**	**11,85,509.36**	**3,03,451.67**

The carrying value of financial assets and other financial liabilities measured at amortised cost are considered to be same as their fair values largely due to their short term nature.

*The carrying value ** ... ovimates the fair value as the instruments are at prevailing market rate

47 **Statement of Contingent Liabilities/Contingent Assets**

(All amounts in ₹ lakh unless otherwise stated)

Particulars	As at March 31, 2024	As at March 31, 2023
Contingent Liabilities		
Stamp Duty on Concession agreement on Belgaum Kagal Project (refer note (a) below)	6,990.00	-
Corporate Guarantee issued in favour of Senior Lenders & Debenture Trsutee of the Trust (refer note (c))	4,37,700.00	3,50,000.00
Contingent Assets		
Stamp Duty on Concession agreement on Belgaum Kagal Project (refer note (b) below)	6,990.00	-

a) Stamp Duty on Concession agreement on Belgaum Kagal Project - The group has received notice from Office of Deputy Registrar of Stamps, Government of Karnataka. As per this notice additional stamp duty of Rs 69.90 crore has been imposed on the group for the concession agreement entered into for Belgaum-Kagal road.

Stamp legislation in certain states (including Karnataka) also specifies that copy of the main document in respect of any property, or any business within the state also needs to be stamped with original amount of stamp duty, if the original document has not been stamped with full amount of the stamp duty applicable for place of business.

As regards to the applicability of stamp duty on Concession Agreement, it may please be noted that there is no specific entry in respect of the concession agreement. Such agreements are stamped under the residuary category of the agreements and a nominal amount was paid on such agreements. We are given to understand that the Karnataka State Govt. has given instructions to procure copies of licence /Agreement of toll collecting agencies in respect of roads passing through state of Karnataka. We have further been issued a notice for recovery of shortfall in stamp duty.

Various judicial pronouncements by various high courts have divergent views and the issue is debatable and there is no clarity on the same.

The group is contesting this imposition of deficit stamp duty on concession agreement notice with Government of Karnataka. We are also in receipt of copies of letters sent by NHAI to the Karnataka State Govt clarifying the issue. The group is in the process of filing injuction with the Dharwad bench of Karnataka High Court.

b) Contingent Assets

Stamp Duty on Concession agreement on Belgaum Kagal Project- In the event of the stamp duty becoming payable, it shall be reimbursed by NHAI as confirmed by them vide letter No. NHAI/F&A/InVIT/2021-22/CLFN_GST&SD(E-106870) dated 28.09.2021. Since no provision has been recognised in the books with respect to stamp duty, the reimbursement has not been recognised as an asset considering the guidance in Ind AS 37.

c) Corporate Guarantees

31st March 2024 Rs 4,37,700.00 Lakh
31st March 2023 Rs 3,50,000.00 Lakh

The Project SPV company (NHIPPL) has issued Corporate Guarantees amounting to Rs. 2,000 Crore or secured obligations on 14.03.2022 and Rs 877 Crore or secured obligations on 08.01.2024 in favour of Senior Lenders, Rs. 1,500 Crore or secured obligations on 21.10.2022 in favour of Debenture Trustee of the Trust for the benefit of NCD holder.

The group during previous year has carried out a fair valuation of Corporate Guarntees referred above from an independent external valuer. Basis such valuation report and management estimate, fair value of corporate gurantee is estimated to be Nil.

48 **Financial Information of Investment Manager**

The summary financials of Investment Manager are not disclosed alongwith these financials as its networth is not materially eroded.

49 The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post-employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. However, the date on which the Code will come into effect has not been notified. The Group will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective.

50 **Withholding Tax liability for interest accrued but not due on non convertible debentures**

The Trust has issued publicly listed non convertible debentures ("NCDs") with interest payable on semi-annual basis. Interest on these NCDs was due for payment on 25 April 2024 and for the purpose of payment of interest, record date was 10 April 2024 and debenture-holders existing as on 10 April 2024 are entitled to the coupon interest. Trust has recorded liability of interest accrued till 31st March 2024 and there is no credit in favour of any payee at the time of creating such provision as entitled payee will be identifiable as on record date i.e., on 10 April 2024.

As on the year end March 2024, there is uncertainty with respect to the ultimate recipient of interest income, and such uncertainty would only become clear on the record date i.e., 10 April 2024 when the obligation of payment of interest by NHIT arises and therefore Trust has not withheld any taxes at the time of creating these provisions.

51 Distribution made

(All amounts in ₹ lakh unless otherwise stated)

Particulars	For the year ended March 31, 2024^	For the year ended March 31, 2023
Interest	42,240.46	29,985.39
Return of capital	-	-
Dividend	-	-
Other income of the Trust	602.92	240.39
Total	**42,843.38**	**30,225.78**

^The distribution relates to the distributions during the financial year along with the distribution related to the last quarter of FY 2022-23 and does not include the distribution relating to the period February 01, 2024 to March 31, 2024 which will be paid after March 31, 2024. The distributions by the Trust to its unit holders are based on the Net Distributable Cash Flows of the Trust under the SEBI InvIT Regulations.

52 Details of Project Management Fees and Investment Management Fees

Details of fees paid to project manager and investment manager as required pursuant to SEBI Circular No. CIR/MD/DF/127/2016, dated 29th November 2016 are as under

Project Management Fees:

The project manager National Highways InVIT Project Managers Private Limited ('NHIPMPL') for NHIPPL (R1 & R2 assets) and is entitled to fixed fees based on the Project Implementation and Management Agreement (PIMA) signed by both the parties dated 30th March 2021 as amended on 6th March 2024. NHIPMPL is also Project Manager for NEPPL (R3 Assets) w.e.f 1st April 2024 as per deed of adherence signed on 7th March 2024.

Investment Management Fees:

i) The Investment Manager's fee as per agreement dated 21st October 2020 will initially be Rs. 1,100 Lakh (Rupees Eleven Hundred Lakhs) per annum.
ii) The Investment Management Agreement is revised and the fee with effect from 1st April 2023 has been agreed at Rs 1,800 Lakhs (Rupees Eighteen hundred lakhs) for the Financial Year 2023-24.
iii) The management fee set out in paragraph (ii) above shall be subject to escalation on an annual basis at the rate of 10% of the management fee for the previous year.
iv) Any applicable taxes, cess or charges, as the case may be, shall be in addition to the management fee and shall be payable by National Highways Infra Trust (NHIT) to the Investment Manager (NHIIMPL).
Payment of frequency: Payment of management fee shall be made by National Highways Infra Trust (NHIT) to the Investment Manager (NHIIMPL) in advance on a quarterly basis at the beginning of each quarter of a financial year.

53 Provision for Major Maintenance

The group has a contractual obligation to maintain the performance standards of the Project Highways in respect of riding quality and allied measures as per the performance parameters stipulated under the respective Concession Agreements. Cost of such obligation is measured at the best estimate of the expenditure required to settle the obligation at the balance sheet date and recognised over the period at the end of which the overlay is estimated to be carried out using Discounted Cash Flows method with the discount rate taken as the risk-free interest rate i.e. the discounting rate used for arriving at the present value for MMR provisions is government bond rate of 30 years for projects acquired in first phase and 20 years for projects acquired in second phase. The group has recognised finance cost on major maintenance provision for the year ended March 31, 2024 amounting to Rs. 470.79 Lakhs (P.Y. Rs. 24.95 lakhs). The provision for Major Maintenance Obligation as at March 31, 2024 has been recognised in the financial statements at Rs 8,444.05 Lakhs (P.Y. Rs. 6,307.44 Lakhs).

54 Initial Improvement Works

As per the concession agreement between NHIPPL and NHAI, the concessionaire is obligated to undertake initial improvement works as specified in Schedule B including certain improvement works required initially and then to extend required repairs maintenance, regular upkeep of the Project Highway. These obligations will require outflow of economic resources and will be fulfilled over the period of time. Therefore, a provision shall be recognised and measured as per Ind AS 37 for contractual obligations toward the Fair Value of future upgrade services and correspondingly the group shall capitalize the present value of provision for upgrade services to the intangible asset at the time of acquisition.

At the time of acquisition of SPV there was uncertainty with respect to the cost estimates for the initial improvement work to be done and the group was in discussion with NHAI for de-scoping of certain work. Further, as per Ind as 38, an intangible asset can be recognised if, and only, if the cost of the asset can be measured reliably.

Since the cost for initial improvement work was not ascertainable until 1st Dec 2023 (under Ind AS 38) because of discussion around de-scoping of various works, no reliable estimates could be made for the Fair Value of the said scope. This was further substantiated with the technical note prepared by the technical department basis their discussion and meetings with NHAI and various vendors. Considering that the management has now ascertained the costs based on contracts awarded and the sign off received from the PMC, (estimated as required under Ind AS 38) has now , based on discussions with its technical consultants, capitalised the initial improvement works amounting to Rs. 1,21,227.32 Lakhs (Undiscounted Value) on 1st Dec 2023.

Further the group has also recognised provision for initial improvement works as per Ind AS 37 amounting to Rs. 1,11,993.43 Lakhs (Present Value) on 1st December 2023 with corresponding impact in Statement of Profit and Loss amounting to Rs. 1124.63 Lakhs and Rs. [illegible] Lakhs on account of amortization of initial improvement work and unwinding of interest on provision of initial improvement respectively.

Actual initial improvement work done up to March 2024 is Rs. 14,346.87 Lakhs.

55 Statement of Commitments

(All amounts in ₹ lakh unless otherwise stated)

Particulars	As at March 31, 2024	As at March 31, 2023
Estimated amount of contracts remaining to be executed on capital account and not provided for	49,698.13	-
Total	49,698.13	-

56 Segment Reporting

The activities of the Group mainly include investing in infrastructure assets primarily in the SPVs operating in the road sector to generate cash flows for distribution to unit holders. Based on the guiding principles given in Ind AS - 108 "Operating Segments", this activity falls within a single operating segment. Further, the entire operations of the Group are only in India and hence, disclosure of secondary/ geographical segment information does not arise. Accordingly, requirement of providing disclosures under Ind AS 108 does not arise.

57 Salient aspects of the Tolling Concession Arrangement

The Project SPV (NHIPPL) has entered into five concession agreements with National Highway Authority of India ("NHAI") on March 30, 2021 for Tolling, Management, Maintenance and Transfer of five toll road projects for a period of 30 years from the Appointed Date. The Appointed Date has commenced on 16.12.2021. The toll roads covered under the concession agreement as follows:

- Palanpur/ Khemana – Abu Road Project (from km 601+000 to km 646+000) of NH-27, connecting the states of Gujrat and Rajasthan
- Abu Road- Swaroopganj Project (from km 646+000 to km 677+000) of NH-27 , in the state of Rajasthan
- Maharashtra Karnataka Border (Kagal) – Belgaum Project (from km 646+000 to km 677+000) of NH-48, connecting the states of Karnataka and Maharashtra
- Chittorgarh- Kota & Chittorgarh Project (from km 891+929 to km 1052+429) of NH-27 , in the state of Rajasthan
- Kothakota Bypass- Kurnool Highway Project (from km 135+469 to km 211+000) of NH-44 , connecting the states of Telangana and Andhra Pradesh

In previous financial year, Project SPV (NHIPPL) entered into three new concession agreements with National Highway Authority of India ("NHAI") on September 26, 2022 for Tolling, Management, Maintenance and Transfer of three toll road projects for a period of 20 years from the Appointed Date. The Appointed Date has commenced on 29.10.2022. The toll roads covered under the concession agreement as follows.

- Agra bypass Section (from km 0.000 to km 32.800) of NH-19 in the state of Uttar Pradesh
- Borkhedi-Wadner-Deodhari-Kelapur Section (from km 36.600 to km 175.000) of NH-44 in the state of Maharashtra
- Shivpuri – Jhansi Section (from km 1305.087 to km 1380.387) of NH-27 in the states of Madhya Pradesh and Uttar Pradesh

The project SPV (NHIPPL) is required to operate and maintain the Project/ Project Facilities in accordance with the provision of the Agreement, Applicable Laws and Applicable permits.

The Project SPV (NEPPL)has entered into seven concession agreements with National Highway Authority of India ("NHAI") for Tolling, Management, Maintenance and Transfer of seven toll road projects for a period of 20 years from the Appointed Date. The Appointed Date has commenced on 01.04.2024 and therefore the revenue and expenses of these seven road projects shall be recognised from next financial year. The toll roads covered under the concession agreement are as follows.

-Chichra – Kharagpur Project : Chichra – Kharagpur section of NH 49 with a total length of 56.12 kms, in the state of West Bengal;
-Rewa –Lakhnadon Project : Rewa – Katni – Jabalpur – Lakhnadon section of NH 30 and NH 34 with a total length of 306.34 kms, in the state of Madhya Pradesh.
-Kachugaon – Kaljhar Project : Kachugaon – Rakhaldubi Bus Junction – Kaljhar section of NH 27 with a total length of 114.17 kms, in the state of Assam

-Kaljhar – Patacharkuchi Project : Kaljhar – Patacharkuchi section of NH 27 with a total length of 27.30 kms, in the state of Assam;
-Lakhnadon – Mahagaon (Mohgaon) – Khawasa : Lakhnadon – Mahagaon (Mohgaon) – Khawasa section of NH 44 with a total length of 107.35 kms, in the state of Madhya Pradesh;
-Orai – Barah Project : Orai – Barah section of NH 27 with a total length of 62.90 kms, in the state of Uttar Pradesh; and
-Chitradurga Bypass – Hubli Project/ Karnataka Project : Chitradurga Bypass – Chitradurga – Davanagere – Haveri – Hubli section of NH 48 with a total length of 214.47 kms, in the state of Karnataka

The Group acquired rights for Tolling, Management and Maintenance of the seven toll roads under the concession agreement signed with NHAI for consideration of INR 15,69,988.18 Lakhs , and the same have been recognized in current year financial statements as Capital Advance to NHAI as appointed date for the project is w.e.f. 01.04.2024

The Group is required to operate and maintain the Project/ Project Facilities in accordance with the provision of the Concession Agreement, Applicable Laws and Applicable permits.

62 Key sources of estimation

The preparation of Consolidated financial statements in conformity with Ind AS requires the Group to makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates include allowance for doubtful loans /other receivables, fair value measurement etc. Difference, if any, between the actual results and estimates is recognised in the period in which the results are known.

63 Disclosure pursuant to Ind AS 23 "Borrowing Costs"

Borrowing cost capitalised during the year Rs. Nil [March 31 , 2023 : Rs. Nil]

64 Default and breaches

There are no defaults during the year with respect to repayment of principal and payment of interest and no breaches of the terms and conditions of the borrowings. There are no breaches during the year which permitted lender to demand accelerated payment.

National Highways Infra Trust New Delhi

A R & Co. Chartered Accountants New Delhi

INDEPENDENT AUDITORS' REPORT

To,
The Unit Holders of National Highways Infra Trust

Opinion

We have audited the condensed consolidated interim financial statements of National Highways Infra Trust ("the 'Trust') "), which comprise the condensed consolidated interim balance sheet as at 30th September 2024, the condensed consolidated interim statement of profit and loss (including other comprehensive income) for year to-date period then ended, and the condensed consolidated interim statement of cash flows for the year-to-date period then ended, the condensed Statement of Net Assets at fair value for the year-to-date period then ended, the condensed Statement of Total Returns at fair value and the condensed Statement of Net Distributable Cash Flows ("NDCFs") for the year-to-date period then ended and notes to the condensed consolidated interim financial statements, including a summary of the significant accounting policies ("the condensed consolidated interim financial statements") and other explanatory information, as required by Indian Accounting Standard 34, "Interim Financial Reporting" ("Ind AS 34") and other accounting principles generally accepted in India.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid condensed consolidated interim financial statements give the information required by the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 as amended from time to time including any guidelines and circulars issued thereunder (together referred to as the "SEBI InvIT Regulations") in the manner so required and give a true and fair view in conformity with Ind AS 34 and other accounting principles generally accepted in India, to the extent not inconsistent with SEBI InvIT Regulations, of the state of affairs of the Trust, as at 30th September 2024, Profit and other comprehensive income for the year-to-date period then ended , its cash flows for the year-to-date-period ended on that date, its statement of changes in Unitholder's equity for the year-to-date period then ended, its net assets at fair value as at 30th September, 2024, its total returns at fair value and the net distributable cash flows of the Trust for the year-to-date period then ended..

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing ("SAs") issued by the Institute of Chartered Accountants of India. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Condensed Consolidated Interim Financial Statements section of our report. We are independent of the Trust in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the condensed consolidated interim financial statements under the provisions of the of the SEBI InvIT Regulations, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

RESPONSIBILITIES OF THE BOARD OF DIRECTORS OF INVESTMENT MANAGER FOR THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

The Board of Directors of National Highways Infra Investment Managers Private Limited (Investment Manager) is are responsible for the preparation of these condensed consolidated interim financial statements that give a true and fair view of the state of affairs, profit and other comprehensive income , cash flows and the movement of the Unitholder's equity for the year-to-date period then ended, the net assets at fair value as at 30 September 2024, the total returns at fair value and the net distributable cash flows of the Trust in accordance with the requirements of the SEBI InvIT Regulations, Indian Accounting Standards as defined in Rule 2(1)(a) of Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, to the extent not inconsistent with SEBI InvIT Regulations.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the SEBI Invit Regulations for safeguarding of the assets of the Trust and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the condensed consolidated interim financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the condensed consolidated interim financial statements, the Board of Directors of Investment Manager are responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Trust or to cease operations, or has no realistic alternative but to do so.

The Board of Directors of Investment Manager are also responsible for overseeing the Trust's financial reporting process.

Auditor's Responsibilities for the Audit of the Condensed Consolidated Interim Financial Statements

Our objectives are to obtain reasonable assurance about whether the condensed consolidated interim financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these condensed consolidated interim financial statements.

A. R. & Co.
Chartered Accountant

A-403, Gayatri Apartments
Plot No-27, Sector-10, Dwarka,
New Delhi-110075
Cell No.9810195084, 9810444051
E-mail: ar_co1981@yahoo.co.in
pawankgoel1@gmail.com

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the condensed consolidated interim financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Trust's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the condensed consolidated interim financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Trust to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the condensed consolidated interim financial statements, including the disclosures, and whether the condensed consolidated interim financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

Attention is drawn to the fact that the figures for the year-to-date-period ended on 30 September 2023 as reported in these condensed interim consolidated financial statements, were subject to a limited review by us.

Our opinion is not modified in respect of this matter.

Statement of Net Distributable Cash Flows for the Half Year ended September 30, 2024

Additional disclosures as required by SEBI Master Circular No.SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated May 15, 2024

a) Statement of Net Distributable Cash Flows (NDCF) at Trust Level (NHIT)

(All amounts are in ₹ lakh unless otherwise stated)

S.No.	Particulars	Amount
1	**Cashflows from operating activities of the Trust**	(1,769.83)
2	(+) Cash flows received from SPV's / Investment entities which represent distributions of NDCF computed as per relevant framework (Refer Notes Below)	1,06,788.73
3	(+) Treasury income / income from investing activities of the Trust (interest income received from FD, any investment entities as defined in Regulation 18(5), tax refund, any other income in the nature of interest, profit on sale of Mutual funds, investments, assets etc., dividend income etc., excluding any Ind AS adjustments)	951.51
4	(+) Proceeds from sale of infrastructure / real estate investments, infrastructure / real estate assets or shares of SPVs/Holdcos or Investment Entity adjusted for the following	-
	• Applicable capital gains and other taxes	-
	• Related debts settled or due to be settled from sale proceeds	-
	• Directly attributable transaction costs	-
	• Proceeds reinvested or planned to be reinvested as per Regulation 18(16)(d) of REIT Regulations or Regulation 18(7) of InvIT Regulations or any other relevant provisions of the REIT/InvIT Regulations	-
5	(+) Proceeds from sale of infrastructure / real estate investments, infrastructure / real estate assets or sale of shares of SPVs/ Hold cos or Investment Entity not distributed pursuant to an earlier plan to re-invest as per Regulation 18(16)(d) of REIT Regulations or Regulation 18(7) of InvIT Regulations or any other relevant provisions of the REIT/InvIT Regulations, if such proceeds are not intended to be invested subsequently	-
6	(-) Finance cost on Borrowings, excluding amortisation of any transaction costs, recognized in Profit and Loss account of the Trust	(48,009.47)
7	(-) Debt repayment at Trust level (to include principal repayments as per scheduled EMI's except if refinanced through new debt including overdraft facilities and to exclude any debt repayments / debt refinanced through new debt in any form or equity raise)	(5,021.82)
8	(-) any reserve required to be created under the terms of, or pursuant to the obligations arising in accordance with, any: (i). loan agreement entered with lenders, or (ii). agreement pursuant to which the Trust operates or owns the infrastructure or real estate asset, or generates revenue or cashflows from such asset (such as, concession agreement, transmission services agreement, power purchase agreement, lease agreement, and any other agreement of a like nature, by whatever name called); or (iii). statutory, judicial, regulatory, or governmental stipulations; or (iv). such mandatory terms or conditions, which if breached (or not complied with) would result in the Trust losing the right to own or operate the relevant infrastructure asset or real estate asset	(5,233.03)
9	(-) any capital expenditure to the extent not funded by debt / equity or from reserves created in the earlier years	-
10	**NDCF at Trust level as on 30th September 2024**	**47,706.09**
	NDCF Distributed in June 2024 Quarter	**23,685.22**
	Balance NDCF for September 2024	**24,020.87**

Notes:

1 In accordance with the SEBI circular no. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated May 15, 2024, the framework for computation of Net Distributable cash flows ("NDCF") is revised with effect from April 01, 2024. Accordingly, NDCF for the period April 01, 2024, to September 30, 2024, has been calculated and presented in accordance with the revised framework. NDCF for the periods on or before March 31, 2024, has been calculated and presented as per the earlier framework and has been disclosed/reproduced in Annexure 1 to the consolidated financial information.

2 This NDCF includes cash flows received from SPV after 30th September 2024 but before the date of the Board Meeting of the InvIT i.e. 12th November 2024. Rs. 149.15 Crores received from NWPPL and Rs. 101.03 Crores received from NEPPL.

3 Under the provisions of the InvIT Regulations, the Trust is required to distribute to Unitholders not less than 90% of the Net Distributable Cash Flows of the Trust for each financial year. Accordingly, a portion of the Unit Capital contains a contractual obligation of the Trust to pay to its unitholders as cash distributions. Hence, the Unit Capital is a compound financial instrument which contains both equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with SEBI Circulars issued under the InvIT Regulations, the Unit Capital has been presented as "Equity" in order to comply with the requirements of Section H of Chapter 3 to the SEBI Master Circular No. SEBI/HO/DDHS-PoD-2/P/CIR/2024/44 dated May 15, 2024 dealing with the minimum disclosures for key financial information/statements. Consistent with Unit Capital being classified as equity, the distributions to Unitholders is also presented in Statement of Changes in Unitholders' Equity when the distributions are approved by the Board of Directors of Investment Manager.

SEBI Registration Number :- IN/InvIT/20-21/0014
Notes to the Interim Consolidated Financial Statements for the Half Year ended September 30, 2024

1 TRUST INFORMATION AND NATURE OF OPERATIONS

National Highways Infra Trust ("Trust" or "InvIT") is an irrevocable trust registered under the provisions of the Indian Trusts Act, 1882 on 19th October 2020. It is registered under the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014 on 28th October 2020 having registration number IN/InvIT/20-21/0014.

The Trust was setup by National Highways Authority of India ("NHAI" or the "Sponsor"). The Trustee to the Trust is IDBI Trusteeship Services Limited (the "Trustee") and Investment Manager for the Trust is National Highways Infra Investment Managers Private Limited ("Investment Manager").

The Trust has been formed to invest in infrastructure assets primarily being in the road sector in India. The Trust's road projects are implemented and held through special purpose vehicles ("Project SPVs"/ "Subsidiaries"). The units of the Trust were listed in Bombay Stock Exchange and National Stock Exchange on 10th November 2021.

During the FY 2021-2022, the Trust acquired 100% equity control in NHIT Western Projects Private Limited (Formerly known as National Highway Infra Projects Private Limited) (the "Project SPV") from the Sponsor with effect from 3rd November 2021. During the FY 2020-2021, the project SPV entered into five Concession Agreements for 30 years with the Sponsor (National Highways Authority of India - NHAI) on Toll, Operate and Transfer ('TOT') basis and in FY 2022-2023, further signed 3 new Concession Agreements for 20 years with National Highways Authority of India for Toll, Operate and Transfer ('TOT') basis. Further, the trust incorporated the SPV - II NHIT Eastern Projects Private Limited (NEPPL) on 19-04-2023. NEPPL entered into seven concession agreements with National Highway Authority of India ("NHAI") for Tolling, Management, Maintenance and Transfer of seven toll road projects for a period of 20 years from the appointed date which is 01.04.2024.

The registered office of the Investment Manager is G-5 & 6, Sector-10, Dwarka, New Delhi - 110075.

2 Basis of Preparation

The Consolidated financial statements comprises of the Consolidated Balance Sheet, Consolidated Statement of Profit and Loss, Consolidated Cash Flow Statement, Consolidated Statement of Changes in Equity and Consolidated explanatory notes thereon of National Highways Infra Trust, for the Half Year ended 30 September 2024 ("Interim Financial Information"). The Interim financial Information has been prepared in accordance with recognition and measurement principles laid down in Indian Accounting Standard 34- Interim Financial Reporting (Ind AS 34), as presribed in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015 (as amended) and other accounting principles generally accepted in India, to the extent not inconsistent with the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014, as amended, the additional disclosures as required in Chapter 4 of SEBI Master Circular No. SEBI/HO/DDHS-PoD 2/P/CIR/2024/44 dated 15 May 2024 as amended including any guidelines and circulars issued thereunder ("SEBI Circulars/InvIT Regulations")

The financial information do not contain any false or misleading statement or figures and do not omit any material fact which makes the statements or the figures contained therein misleading.

The Consolidated financial statements were authorised for issue in accordance with resolution passed by the board of directors of the Investment Manager on 19.12.2024.

The audit of the Consolidated Financial statements for the Half Year ended September 30, 2024 of NHIT has been carried out by the Statutory Auditors of NHIT.

2.1 Material accounting policies and key sources of estimation uncertainities and critical judgements

A Material accounting policies

The accounting policies adopted in preparation of these financial statements are consistent with those followed in preparation of the Group's latest Annual Consolidated Financial Statements.

B Key sources of estimation uncertainities and critical judgements

The preparation of the consolidated financial statements requires use of certain critical accounting estimates and judgements. It also requires the management to exercise judgement in the process of applying the Group's accounting policies. The areas where judgements and estimates are significant to the financial statements or areas involving a higher degree of judgement or complexity are the same as those applied to the Group's latest Annual Consolidated Financial Statements.

Balance at period/year end	**1,31,22,00,600**	**14,66,947.80**	**1,31,22,00,600**	**14,67,093.46**

* 58,57,95,400 units issued at Rs. 124.14 per unit during previous financial year.
In previous year the Trust offered an issue of 58,57,95,400 units of National Highways Infra Trust ("NHIT"), for cash at a price of 124.14 per unit (the "issue price"), aggregating to Rs 7,27,206.41 lakhs through Institutional and preferential placement in accordance with the Securities and Exchange Board of India (Infrastructure Investment Trust) Regulations, 2014 including the rules, circulars and guidelines issued thereunder.

Issue expenses of Rs. 145.66 lakhs (March 31, 2024: Rs 1,717.27 lakhs) incurred in connection with issue of units have been reduced from the Unitholders capital in accordance with Ind AS 32 Financial Instruments: Presentation

Rights/ preferences and restrictions attached to Unit Capital

Subject to the provisions of the InvIT Regulations, the indenture of funds, and applicable rules, regulations and guidelines, the rights of the unit holders include:

a) The beneficial interest of each unitholder shall be equal and limited to the proportion of the number of the units held by that unitholder to the total number of units.

b) Right to receive income or distributions with respect to the units held.

c) Right to attend the annual general meeting and other meetings of unit holders of the Trust.

d) Right to vote upon any matters/resolutions proposed in relation to the Trust.

e) Right to receive periodic information having a bearing on the operation or performance of the Trust in accordance with the InvIT Regulations.

f) Right to apply to the Trust to take up certain issues at meetings for unit holders approval.

g) Right to receive additional information, if any, in accordance with InvIT documents filed with Placement Memorandum.

In accordance with the InvIT Regulations, no unit holders shall enjoy superior voting or any other rights over any other unit holders, and there shall not be multiple classes of units. There shall be only one denomination of units. Not withstanding the above, subordinate units may be issued only to the Sponsor and its Associates, where such subordinate units shall carry only inferior voting or any other rights compare to the other units.

Under the provisions of the InvIT Regulations, not less than 90% of the net distributable cash flows of the Trust is required to be distributed to the unitholders, and in accordance with such statutory obligation the Trust has formulated a distribution policy to declare and distribute the distributable cash flows to its unitholders atleast once every financial year as approved by the Board of Directors of the Investment Manager. The distributions made by Trust to its unitholders are based on the Net Distributable Cash Flows (NDCF) of the Trust under the InvIT Regulations. The distribution in proportion to the number of units held by the unitholders. The Trust declares and pays in distributions in indian rupees.

Limitation to the Liability of the unit holders

The liability of each unit holders towards the payment of any amount (that may arise in relation to the Trust including any taxes, duties, fines, levies, liabilities, costs or expenses) shall be limited only to the extent of the capital contribution of such unit holders and after such capital contribution shall have been paid in full by the unit holders, the unit holders shall not be obligated to make any further payments.

The unit holders shall not have any personal liability or obligation with respect to the Trust.

NATIONAL HIGHWAYS INFRA TRUST
SEBI Registration Number :- IN/InvIT/20-21/0014
Notes to the Interim Consolidated Financial Statements for the Half Year ended September 30, 2024

Classification of Unit Holders' Funds

Under the provisions of the InvIT Regulations, NHIT is required to distribute to Unitholders not less than ninety percent of the net distributable cash flows of NHIT for each financial year. Accordingly, a portion of the unitholders' funds contains a contractual obligation of the Trust to pay to its Unitholders cash distributions. The Unitholders' funds could therefore have been classified as compound financial instrument which contain both equity and liability components in accordance with Ind AS 32 - Financial Instruments: Presentation. However, in accordance with SEBI Circulars (No. CIR/IMD/DF/114/2016 dated 20-Oct-2016 and No. CIR/IMD/DF/127/2016 dated 29-Nov-2016) issued under the InvIT Regulations, the unitholders' funds have been classified as equity in order to comply with the mandatory requirements of Section H of Annexure A to the SEBI Circular dated 20-Oct-2016 dealing with the minimum disclosures for key financial statements. In line with the above, the distribution payable to unit holders is recognised as liability when the same is approved by the Investment Manager.

Details of Unitholders Holding More Than 5% Units In The Trust

Name of Unitholders	As at September 30, 2024		As at March 31, 2024	
	No of Units	%	No of Units	%
Ontario Limited	32,80,50,150	25.00%	32,80,50,150	25.00%
CPP Investment Board Private Holdings Inc.	32,80,50,150	25.00%	32,80,50,150	25.00%

During the previous year ended 31st March 2024, the Trust has obtained the sanction of Rs. 877 Crores from the Axis bank for initial improvement works of Round 2 Assets and has obtained sanction of Rs. 9,000 Crores from banks and financial institution for acquistion of Round 3 Assets and has taken a disbursement of Rs. 8,658 Crore during the previous year.

Loan from Banks include loan received from IDBI Bank which is Promoter of IDBI Trusteeship Services Limited (ITSL) - Trustee of the Trust, therefore the transactions with IDBI Bank are disclosed in Related Party Transaction.

Note:- Other terms and conditions of Term Loans

i) Interest rate	Benchmark Rate plus spread applicable on each reset date for facility agreement.
ii) Terms of repayment	Repayable in unstructured quarterly instalments with last repayment date upto March 31, 2041 & March 31, 2042 for facility agreement of R1 & R2 Assets respectively. Repayable in unstructured quarterly instalments with last repayment date upto March 31, 2042 for facility agreement of R3 Asset.

Security for Term Loans :

The loan is secured by,

- first pari passu charge on all immovable assets (if any), movable assets and receivables of the Trust including but not limited to,
(i) the interest and principal repayments on the loans advanced by the Trust to Project SPVs
(ii) dividends to be paid by Project SPVs to the Trust
- first pari passu Security Interest on Trust Escrow account and all sub-accounts thereunder, including DSRA.
- pledge of 100% equity shares of Project SPVs' (NWPPL & NEPPL) in dematerialized form held by the Trust
- assignment of loans advanced by the Trust to Project SPVs (NWPPL & NEPPL) and securities created by the Trust including the assignment of rights of substitution, termination and invocation of provision of Escrow agreement in case of default.
- negative lien on immovable assets (including current assets and cash flows) of the Project SPVs (NWPPL & NEPPL) subject to sale of obsolete items or cars/ ambulances, old toll equipment etc., under normal business practice, subject to maximum cumulative value of INR 5 Crore in any financial year for R1 projects / INR 2 Crore per project in any financial year for R2 & R3.

The senior lenders of the Trust have also been provided with a corporate guarantee from Project SPV (NWPPL) to guarantee upto the secured obligations of the Trust. The funds have been raised at Trust level from unitholders and domestic lenders, and the same have been lent to Project SPV (NWPPL) for payment of concession fee by NWPPL to NHAI. The cashflows viz., toll collections are lying in NWPPL. Accordingly, corporate guarantee amounting upto the secured obligations of the Trust via Corporate Guarantee Deed dated 14.03.2022 and 08.01.2024, valid across the tenure of the loan of the Trust i.e. up to 31.03.2041 and 31.03.2042 respectively, which was provided by the Project SPV (NWPPL) to the senior lenders of the Trust has been released post March 31, 2024.

Nature of Security for Non Convertible debentures:

The debenture holders are secured by :

a) a first ranking pari passu Security Interest over the Trust's immovable assets (if any), both present and future. The Trust does not own any immovable property at the present time. In the event, the Trust acquires any immovable property in future, the Trust shall mortgage said property within 180 (one hundred eighty) days from the date of acquisition of such immovable assets. The Debenture Trustee shall be authorised to do all acts, deeds, and enter into necessary documents, agreement, amendments and/or modifications, as may be required to give effect the same, including carrying out the due diligence as may be required by Debenture Trustee;
b) a first ranking pari passu Security Interest over the Hypothecated Assets (including Receivables), both present and future; and
c) Negative Lien Undertaking

The non convertible debenture holders of the Trust acting through debenture trustee have also been provided with a corporate guarantee from Project SPV (NWPPL) to guarantee the repayment of amount raised from non convertible debenture holders by the Trust. The funds have been raised at Trust level from debentureholders, have been lent to Project SPV (NWPPL) for payment of concession fee by NWPPL to NHAI. The corporate guarantee amounting to INR 1500 crores or the secured obligations as on the date of invocation via corporate guarantee deed executed on 21.10.2022 valid across the tenure of the debentures of NHIT i.e till all outstanding principal and accrued interest thereon by the Trust are satisfied by the company to the debenture holders of NHIT. Following approval from the SBI Trustee for the waiver and cancellation of these corporate guarantees, an application was submitted to the stock exchange on September 27, 2024, seeking approval for the waiver and cancellation. The corporate guarantees were officially waived and cancelled, as approved by both BSE and NSE on October 11, 2024.

There have been no breaches in financial covenants with respect to the borrowings from either senior lenders or debenture holders.

Provision for Infrastructure Upgrade	(Refer Note 54)	29,522.83	20,642.34
Total		**55,941.53**	**35,923.32**

a) Nature of provisions for major maintenance

The company is required to operate and maintain the project tollway during the entire concession period and hand over the project back to NHAI as per the maintenance standards prescribed in concession agreements. For this purpose, a regular maintenance along with periodic maintenance is required to be performed. Normally, periodic maintenance includes resurface of pavements, repairs of structures and other equipment and maintenance of service roads. As per industry practice, the periodic maintenance is expected to occur once in five to seven years. The provisions for MMR as per industry practice has been made based on the first cycle of of overlay expected to occur in five to seven years and not based on the total MMR cost over entire concession period. The discounting rate used for arriving at the present value for MMR provisions is government bond rate of 30 years for projects acquired in first phase and 20 years for projects acquired in second phase. The maintenance cost / bituminous overlay may vary based on the actual usage during maintenance period. Accordingly, on the grounds of matching cost concept and based on technical estimates, a provision for major maintenance expense is reviewed and is provided for in the financial statements in each reporting period. Considering that the expense to be incurred is depended on various factors including the usage, wear and tear of the toll road, bituminous overlay, etc., it is not possible to estimate the exact timing and the quantum of the cashflow.

43 Disclosure as per Ind AS 115, "Revenue from contracts with customers"

A Disaggregation of revenue

Revenue recognised mainly comprises of revenue from toll collections, claims with NHAI, contract revenue. Set out below is the disaggregation of the Group's revenue from contracts with customers:

(All amounts in ₹ lakh unless otherwise stated)

Description	For the Half Year ended September 30, 2024	For the Half Year ended September 30, 2023	For the year ended March 31, 2024
Operating revenue			
(a) Toll income (User Fee) from Highways	1,12,944.76	46,557.22	94,390.77
(b) Interest on delay in Toll Remittance	88.26	-	-
Total revenue	**1,13,033.02**	**46,557.22**	**94,390.77**

The table below presents disaggregated revenues from contracts with customers based on nature, amount and timing:

S.No.	Types of Products by Nature	Types of Services by Timing	For the Half Year ended September 30, 2024	For the Half Year ended September 30, 2023	For the year ended March 31, 2024
1	Services	At the point in time	1,13,033.02	46,557.22	94,390.77

B Assets and liabilities related to contracts with customers

The following table provides information about receivables, contract assets and contract liabilities from contract with customers:

Description	As At September 30, 2024	As At March 31, 2024
	Current	Current
Contract assets		
Trade receivables:		
- Receivables under service concession arrangements	4,696.79	385.20
Total	**4,696.79**	**385.20**

C. Performance Obligation

Income from toll collection

The performance obligation in service of toll collection is recorded as per rates notified by NHAI and approved by management and payment is generally due at the time of providing service.

Contract revenue

The performance obligation under service concession agreements ('SCA') is due on completion of work as per terms of SCA.

D. Disclosure as per Appendix - C & D of Ind AS 115 - " Service Concession Arrangements"

All the below service concession arrangement have been accounted under intangible asset model

Till Half Year ended September 30, 2024

Name of Concessionaire	Start of Concession period under concession agreement (Appointed Date)	End of Concession period under concession agreement	Period of Concession since the appointed date (in days)
NHIT Western Projects Private Limited	16.12.2021	15.12.2051	1020
NHIT Western Projects Private Limited	29.10.2022	28.10.2042	703
NHIT Eastern Projects Private Limited	01.04.2024	31.03.2044	183

The above TOT projects shall have following rights / obligations in accordance with the Concession Agreement entered into with the respective Government Authorities

a. Right to use the Specified Assets

b. Obligations to provide or rights to except provision of services

c. Obligations to deliver or rights to receive at the end of concession

44 Disclosure pursuant to IND AS 36 "Impairment of Assets"

Based on impairment testing done which involves review of the future discounted cash flows of the subsidiary, the recoverable amount is higher than the carrying amount of the investment made in the subsidiary and accordingly, no provision for impairment is required to be recognised in the books as on the reporting date. In case of goodwill based on impairment testing recoverable amount is higher then the carrying value as on the reporting date, hence no provision for impairment is required to be recognised in the books as on reporting date.

45 Financial Instrument by Category

(All amounts in ₹ lakh unless otherwise stated)

Particulars	As at 30th September 2024			As at 31st March, 2024		
	Amortized Cost	At FTVPL	At FVOCI	Amortized Cost	At FTVPL	At FVOCI
Assets:						
Trade Receivables	4,696.79	-	-	385.20	-	-
Cash and Cash Equivalents	48,657.44	-	-	46,400.78	-	-
Bank Balances Other than Cash & Cash Equivalents	535.78	-	-	512.98	-	-
Other Financial Assets	30,717.08	-	-	10,182.40	-	-
Total	**84,607.09**	**-**	**-**	**57,481.35**	**-**	**-**
Liabilities:						
Borrowings	12,09,905.68	-	-	11,73,448.94	-	-
Trade Payables	6,328.29	-	-	4,754.99	-	-
Other Financial Liabilities	7,061.35	-	-	7,305.43	-	-
Total	**12,23,295.32**	**-**	**-**	**11,85,509.36**	**-**	**-**

Defaults and breaches

There are no defaults during the period/year with respect to repayment of principal and payment of interest and no breaches of the terms and conditions of the borrowings.

There are no breaches during the period/year which permitted lender to demand accelerated payment.

46 Fair Values of Assets and Liabilities

The carrying amount of all financial assets and liabilities appearing in the financial statements is reasonable approximation of fair values. Fair value of the financial assets and liabilities is the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Group is required to present the Statement of total assets at fair value and Statement of total returns at fair value as per SEBI Circular No. CIR/IMD/DF/114/2016 dated October 20, 2016 as a part of these financial statements - Refer Statement of Net assets at fair value and Statement of Total Returns at fair value

Fair Value Hierarchy

The Group uses the following hierarchy for fair value measurement of the Group's financial assets and liabilities:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Fair value of financial assets and financial liabilities that are not measured at fair value (but fair value disclosures are required)

(All amounts in ₹ lakh unless otherwise stated)

Particulars	Carrying Value		Fair Value	
	As at 30th September 2024	As at 31st March, 2024	As at 30th September 2024	As at 31st March, 2024
Financial Assets at Amortized Cost:				
Trade Receivables	4,696.79	385.20	4,696.79	385.20
Cash and Cash Equivalents	48,657.44	46,400.78	48,657.44	46,400.78
Bank Balances Other than Cash & Cash Equivalents	535.78	512.98	535.78	512.98
Other Financial Assets	30,717.08	10,182.40	30,717.08	10,182.40
Total	**84,607.09**	**57,481.36**	**84,607.09**	**57,481.36**
Financial Liabilities at Amortized Cost:				
Borrowings*	12,09,905.68	11,73,448.94	12,09,905.68	11,73,448.94
Trade Payables	6,328.29	4,754.99	6,328.29	4,754.99
Other Financial Liabilities	7,061.35	7,305.43	7,061.35	7,305.43
Total	**12,23,295.32**	**11,85,509.36**	**12,23,295.32**	**11,85,509.36**

The carrying value of financial assets and other financial liabilities measured at amortised cost are considered to be same as their fair values largely due to their short term nature.

*The carrying value of borrowings approximates the fair value as the instruments are at prevailing market rate

47 Leases

(a) Company as lessee

The Group has taken office premises on lease. These leases typically run for 9 years that include extension and termination options and variable lease payments.

Information about the leases for which the Company is a lessee is presented below:

Depreciation of right-of-use assets	11.77	-
Interest on lease liabilities	7.45	-
Variable lease payments not included in the measurement of lease liabilities	-	-
Expenses relating to leases of short-term leases	118.82	-
Total	**138.05**	**-**

48 Statement of Contingent Liabilities/Contingent Assets

(All amounts in ₹ lakh unless otherwise stated)

Particulars	As at September 30, 2024	As at March 31, 2024
Contingent Liabilities		
Stamp Duty on Concession agreement on Belgaum Kagal Project (refer note (a) below)	6,990.00	6,990.00
Damages levied by Authority (NHAI) (refer note (d) below)	1,213.86	-
Corporate Guarantee issued in favour of Senior Lenders & Debenture Trsutee of the Trust (refer note (c))	-	4,37,700.00
Contingent Assets		
Stamp Duty on Concession agreement on Belgaum Kagal Project (refer note (b) below)	6,990.00	6,990.00

Note : a) Stamp Duty on Concession agreement on Belgaum Kagal Project - The Group has received notice from Office of Deputy Registrar of Stamps, Government of Karnataka. As per this notice additional stamp duty of Rs 69.90 crore has been imposed on the company for the concession agreement entered into for Belgaum-Kagal road.

Stamp legislation in certain states (including Karnataka) also specifies that copy of the main document in respect of any property, or any business within the state also needs to be stamped with original amount of stamp duty, if the original document has not been stamped with full amount of the stamp duty applicable for place of business .

As regards to the applicability of stamp duty on Concession Agreement, it may please be noted that there is no specific entry in respect of the concession agreement. Such agreements are stamped under the residuary category of the agreements and a nominal amount was paid on such agreements. We are given to understand that the Karnataka State Govt. has given instructions to procure copies of licence /Agreement of toll collecting agencies in respect of roads passing through state of Karnataka. We have further been issued a notice for recovery of shortfall in stamp duty.

Various judicial pronouncements by various high courts have divergent views and the issue is debatable and there is no clarity on the same.

The Group is contesting this imposition of deficit stamp duty on concession agreement notice with Government of Karnataka. We are also in receipt of copies of letters sent by NHAI to the Karnataka State Govt clarifying the issue. The Group is in the process of filing injuction with the Dharwad bench of Karnataka High Court.

b) Contingent Assets

Stamp Duty on Concession agreement on Belgaum Kagal Project- In the event of the stamp duty becoming payable, it shall be reimbursed by NHAI as confirmed by them vide letter No. NHAI/F&A/InVIT/2021-22/CLFN_GST&SD(E-106870) dated 28.09.2021. Since no provision has been recognised in the books with respect to stamp duty, the reimbursement has not been recognised as an asset considering the guidance in Ind AS 37.

c) Corporate Guarantees

30th September 2024	Nil
31st March 2024	Rs 4,37,700.00 Lakh

The Project SPV Company (NWPPL) issued corporate guarantees amounting Rs. 1500 crore on October 21, 2022, to secure obligations in favor of the Debenture Trustee for the benefit of NCD holders. Following approval from the SBI Trustee for the waiver and cancellation of these corporate guarantees, an application was submitted to the stock exchange on September 27, 2024, seeking approval for the waiver and cancellation. The corporate guarantees were officially waived and cancelled, as approved by both BSE and NSE on October 11, 2024. Additionally, the corporate guarantees provided to the banks were released after March 31, 2024.

(d) Damages levied by Authority

Damages has been levied by NHAI for not carrying out items mandated in Schedule B of Concession agreement vide letter no. 21021/InvIT/2024/ABP/3196 dated 25/11/2024.

The same has been contested by the group and request for withdrawal of damages has been submitted to NHAI vide letter no. NHIPPL/OPS/SITE/PIU/AB/24-25/163 dated 27/11/2024. In light of the above same has been disclosed as Contingent liability in Financial statements.

49 Financial Information of Investment Manager

The summary financials of Investment Manager are not disclosed alongwith these financials as its networth is not materially eroded.

50 The Code on Social Security. 2020 ('Code') relating to employee benefits during employment and post-employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of lndia. However, the date on which the Code will come into effect has not been notified The Group will assess the impact of the Code when it comes into effect and will record any related impact in the period the Code becomes effective.

52 Details of Project Management Fees and Investment Management Fees

Details of fees paid to project manager and investment manager as required pursuant to SEBI Circular No. CIR/MD/DF/127/2016, dated 29th November 2016 are as under:

Project Management Fees:

The project manager National Highways InVIT Project Managers Private Limited ('NHIPMPL') for NWPPL (R1 & R2 assets) and is entitled to fixed fees based on the Project Implementation and Management Agreement (PIMA) signed by both the parties dated 30th March 2021 as amended on 6th March 2024. NHIPMPL is also Project Manager for NEPPL (R3 assets) w.e.f 1st April 2024 as per deed of adherence signed on 7th March 2024. PM fee for NWPPL is Rs. 53.10 Lakhs per month including GST and for NEPPL is Rs. 64.90 Lakhs per month including GST w.e.f. 01.04.2024.

Investment Management Fees:

i) The Investment Management Agreement is revised and the fee with effect from 1st April 2023 has been agreed at Rs 1,800 Lakhs (Rupees Eighteen hundred lakhs) for the Financial Year 2023-24.
ii) The management fee set out in paragraph (i) above shall be subject to escalation on an annual basis at the rate of 10% of the management fee for the previous year.
iii) The Investment Management Agreement is revised and the fee with effect from 1st April 2024 has been agreed at Rs 1,980 Lakhs (Rupees Nineteen hundred and Eighty Lakhs) for the Financial Year 2024-25
iv) Any applicable taxes, cess or charges, as the case may be, shall be in addition to the management fee and shall be payable by National Highways Infra Trust (NHIT) to the Investment Manager (NHIIMPL).
Frequency of Payment: Payment of management fee shall be made by National Highways Infra Trust (NHIT) to the Investment Manager (NHIIMPL) in advance on a quarterly basis at the beginning of each quarter of a financial year.

53 Provision for Major Maintenance

The group has a contractual obligation to maintain the performance standards of the Project Highways in respect of riding quality and allied measures as per the performance parameters stipulated under the respective Concession Agreements. Cost of such obligation is measured at the best estimate of the expenditure required to settle the obligation at the balance sheet date and recognised over the period at the end of which the overlay is estimated to be carried out using Discounted Cash Flows method with the discount rate taken as the risk-free interest rate i.e. the discounting rate used for arriving at the present value for MMR provisions is government bond rate of 30 years for projects acquired in first phase and 20 years for projects acquired in second phase. The group has recognised finance cost on major maintenance provision for the period ended September 30, 2024 amounting to Rs 763.90 Lakhs (PY Rs 470.79 lakhs). The provision for Major Maintenance Obligation as at September 30, 2024 has been recognised in the financial statements at Rs. 10,330.53 Lakhs (P.Y. Rs. 8,444.05 lakhs).

54 Initial Improvement Works

As per the concession agreement between SPVs' and NHAI, the concessionaire is obligated to undertake initial improvement works as specified in Schedule B including certain improvement works required initially and then to extend required repairs maintenance, regular upkeep of the Project Highway. These obligations will require outflow of economic resources and will be fulfilled over the period of time. Therefore, a provision shall be recognised and measured as per Ind AS 37 for contractual obligations toward the Fair Value of future upgrade services and correspondingly the group has capitalized the present value of provision for upgrade services to the intangible asset at the time of acquisition.

Based on the concession agreement, capitalised the initial improvement works amounting to Rs. 34,207.88 lakhs (undiscounted value) on appointed date ie. 01-04-2024.

Further the group has recognised in the statement of Profit & Loss amounting Rs. 2173.94 Lakhs and Rs. 2476.69 Lakhs on account of amortization of initial improvement work and unwinding of interest on provision of initial improvement respectively.

Actual initial improvement work done during the period ended September 2024 is Rs. 33,037.84 Lakhs.

55 Statement of Commitments

(All amounts in ₹ lakh unless otherwise stated)

Particulars	For the half year ended September 30, 2024	For the year ended March 31, 2024
Estimated amount of contracts remaining to be executed on capital account and not provided for	35,666.82	49,698.13
Total	35,666.82	49,698.13

NATIONAL HIGWAYS INFRA TRUST
SEBI Registration Number :- IN/InvIT/20-21/0014
Notes to the Interim Consolidated Financial Statements for the Half Year ended September 30, 2024

56 Segment Reporting

The activities of the Group mainly include investing in infrastructure assets primarily in the SPVs operating in the road sector to generate cash flows for distribution to unit holders. Based on the guiding principles given in Ind AS - 108 "Operating Segments", this activity falls within a single operating segment. Further, the entire operations of the Group are only in India and hence, disclosure of secondary/ geographical segment information does not arise. Accordingly, requirement of providing disclosures under Ind AS 108 does not arise.

57 Material Developments

The name of one of the SPV has been changed from National Highways Infra Projects Private Limited to NHIT Western Projects Private Limited w.e.f. 13th May 2024.

58 The Board of Directors of the Investment Manager has declared distribution for quarter ended September 2024 of Rs.1.829 per unit which comprises of Rs. 1.806 per unit as interest and Rs. 0.023 per unit as other income on surplus funds at the Trust level in their meeting held on 12th November, 2024.

The Board of Directors of the Investment Manager has declared distribution for quarter ended June 2024 of Rs.1.805 per unit which comprises of Rs. 1.792 per unit as interest and Rs. 0.013 per unit as other income on surplus funds at the Trust level in their meeting held on 12th August, 2024.

59 Key sources of estimation

The preparation of Consolidated financial statements in conformity with Ind AS requires the Group to makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates include allowance for doubtful loans /other receivables, fair value measurement etc. Difference, if any, between the actual results and estimates is recognised in the period in which the results are known.

60 Disclosure pursuant to Ind AS 23 "Borrowing Costs"

Borrowing cost capitalised during the Half Year ended September 30, 2024 : Rs. Nil [March 31 , 2024 : Rs. Nil].

61 Default and breaches

There are no defaults during the period/year with respect to repayment of principal and payment of interest and no breaches of the terms and conditions of the borrowings. There are no breaches during the period/year which permitted lender to demand accelerated payment.

62 Comparatives figures have been reclassified/regrouped wherever necessary to confirm to the current period classification.

INDEPENDENT AUDITOR'S REPORT

To the Unit Holders of National Highways Infra Trust

Report on the Audit of the Consolidated Financial Statements

OPINION

We have audited the accompanying consolidated financial statements of National Highways Infra Trust ("the InvIT" or "the Trust") and its one subsidiary (hereinafter referred to as "National Highways Infra Projects Private Limited" or "NHIPPL") (the Trust and its subsidiary together referred to as "the Group"), which comprising of the consolidated Balance Sheet as at 31 March 2022, the consolidated Statement of Profit and Loss (including Other Comprehensive Income), the consolidated Statement of Changes in Unitholder's Equity and the consolidated Statement of Cash Flows for the year then ended, the consolidated Statement of Net Assets at fair value as at 31 March 2022, the consolidated Statement of Total Returns at fair value, the Statement of Net Distributable Cash Flows of the Trust and its subsidiary for the year then ended and notes to the consolidated financial statements including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report of other auditor on separate financial statements and on the other financial information of the subsidiary, the aforesaid consolidated financial statements give the information required by the Securities and Exchange Board of India (Infrastructure Investment Trusts) Regulations, 2014 as amended from time to time including any guidelines and circulars issued thereunder (together referred to as the "SEBI InvIT Regulations") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards as defined in Rule 2(1)(a) of the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, to the extent not inconsistent with SEBI InvIT Regulations, of the consolidated state of affairs of the Group as at 31 March 2022, its consolidated profit including other comprehensive income, its consolidated cash flows, its consolidated statement of changes in Unitholders' equity for the year ended 31 March 2022, its consolidated net assets

A. R. & CO. FRN 002744 C CHARTERED ACCOUNTANTS

at fair value as at 31 March 2022, its consolidated total returns at fair value of the Group and the net distributable cash flows of the Trust and its subsidiary for the year ended 31 March 2022.

BASIS FOR OPINION

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SAs") issued by the Institute of Chartered Accountants of India. Our responsibilities under those Standards are further described in the auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the SEBI InvIT Regulations, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended 31 March 2022. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1.	**Assessment of Impairment of Intangible Assets** The Group operates toll assets which is constructed on Toll, Operate and Transfer (TOT) basis. In accordance with its accounting policy and requirements under Ind AS 36 "Impairment of Assets", the Management is required to perform an impairment assessment by comparing the carrying value of the toll collection rights to their recoverable amount. For impairment testing, value in use has to be determined by forecasting and discounting future cash flows. Further, the value in use is highly sensitive to changes in critical variable used for forecasting the future cash flows including traffic	Our Audit Procedures included the following :- • Verifying the appropriateness of the Group's accounting policy on impairment of Intangible Assets. • Study of latest DCF Valuation • Assessing the assumptions around the key drivers of the revenue projections, future cash

A. R. & CO. FRN 002744 C CHARTERED ACCOUNTANTS

	projections and discounting rates. The determination of the recoverable amount of the toll collection right involves significant estimates and judgments and accordingly, the evaluation of impairment of toll collection rights has been determined as a key audit matter.	flow, discount rates / weighted average cost of capital that were used by the management
2.	**Computation and disclosures as prescribed in the SEBI InvIT regulations relating to Consolidated Statement of Net Assets at Fair Value and Consolidated Total Returns at Fair Value** As per SEBI InvIT regulations, the Trust is required to disclose statement of net assets at fair value and statement of total returns at fair value. The fair value is determined by forecasting and discounting future cash flows from the operations of the investee entities which involves management estimates and judgements. These estimates and judgements include discounting rates, Tax rates and inflation rates which are considered for computing the fair value. There is an inherent risk in the computation of fair value due to the use of estimates and judgements mentioned above. Therefore, computation and disclosures of Consolidated statement of net assets at fair value and Consolidated statement of total returns at fair value is considered as a Key Audit Matter. Refer statement of net assets at fair value and Statement of total returns at fair value in the Consolidated financial statements.	Our Audit Procedures included the following :- • Obtained the understanding of the requirements of SEBI InvIT regulations for disclosures relating to Consolidated Statement of Net Assets at Fair Value and Consolidated Statement of Total Returns at Fair Value. • Obtained Management representation in this respect as Management has considered fair value equal to the book value of Net Assets • Tested the arithmetical accuracy of computation in the statement of net assets and total returns at fair value. • Ensured that disclosures is in compliance with SEBI InvIT regulations relating to the statement of net assets at fair value and the statement of total returns at fair value.

A. R. & CO. FRN 002744 C CHARTERED ACCOUNTANTS

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The Board of Directors of the Investment Manager is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Report of Investment Manager including annexures to Investment Manager's Report and other information as required to be given by SEBI InvIT Regulations, but does not include the consolidated financial statements and our report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE BOARD OF DIRECTORS OF INVESTMENT MANAGER FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Board of Directors of Investment Manager is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated Balance Sheet as at 31 March 2022, consolidated statement of Profit & Loss including other comprehensive income, consolidated cash flows and consolidated statement of changes in Unitholder's equity for the year ended 31 March 2022, the consolidated net assets at fair value as at 31 March 2022, the consolidated total returns at fair value of the Group and the net distributable cash flows of the Trust and its subsidiary for the year ended 31 March 2022 in accordance with the requirements of the SEBI InvIT Regulations, Indian Accounting Standards as defined in Rule 2(1) (a) of Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, to the extent not inconsistent with SEBI InvIT Regulations. The respective Board of Directors of the subsidiary company included in the Group are responsible for maintenance of adequate accounting records for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls for ensuring the accuracy and completeness of accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud and error, which have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of Investment

Manager, as aforesaid.

In preparing the consolidated financial statements, the Board of Directors of Investment Manager and respective Board of Directors of the company included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors of the Investment Manager and the respective Board of Directors of the subsidiary company included in the Group are also responsible for overseeing the financial reporting process of the Group.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Investment Manager.
- Conclude on the appropriateness of the Board of Directors of Investment Manager use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are

A. R. & CO. FRN 002744 C CHARTERED ACCOUNTANTS

inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditor, such other auditor remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTERS

We did not audit the financial statements of the subsidiary, whose financial statements reflect total assets of Rs. 7,35,774.44 Lakhs as at 31 March 2022, total revenues of Rs. 13,981.33 Lakhs, losses after taxes including other comprehensive income (net) of Rs. 11,355.90 Lakhs and net cash outflows amounting to Rs. 12,802.25 Lakhs for the period from 01 April 2021 to 31 March 2022, as considered in the consolidated financial statements. These financial statements and other financial information have been audited by other auditor, which financial statements, other financial information and auditor's reports have been furnished to us by the Management of Investment Manager and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of that subsidiary is based solely on the report of the other auditor.

Our opinion on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matters with respect to our reliance on the work done by and the report of the other auditor.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Based on our audit and as required by SEBI InvIT Regulations, we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

b) the consolidated Balance Sheet, the consolidated Statement of Profit and Loss, the consolidated Statement of Cash Flows, the consolidated Statement of Changes in Unitholders' Equity, the consolidated Statement of Net Assets at fair value, the consolidated Statement of Total Returns at fair value and the Statement of Net Distributable Cash Flows of the Trust and its subsidiary dealt with by this Report are in agreement with the books of account.

c) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards as defined in Rule 2(1)(a) of Companies (Indian Accounting Standards) Rules, 2015, as amended, to the extent not inconsistent with SEBI InvIT regulations.

4. Goodwill arising on Consolidation

(All amounts in ₹ lakh unless otherwise stated)

PARTICULARS	AS AT 31st March, 2022	AS AT 31st March, 2021
Gross Carrying Amount		
Balance as at March 31, 2020	-	-
Additions	-	-
Less: Disposals	-	-
Less: Impairment	-	-
Balance as at March 31, 2021	-	-
Additions*	10,144.46	-
Less: Disposals	-	-
Less: Impairment	-	-
Balance as at March 31, 2022	10,144.46	-

The carrying amount relates to goodwill arising on acquisition of Project SPV company (NHIPPL) by the Trust and has been tested for impairment against the respective cash generating unit (CGU). The calculation uses cash flow forecast based on approved financial budgets/strategic forecast which cover future periods of 30 years.

Based on a review of the future discounted cash flows of the intangible assets (Toll Collection Rights) held by the subsidiary (NHIPPL), the recoverable amount is higher than the carrying amount of the assets, and accordingly no impairment loss has been recognised in the statement of profit and loss for the year ended March 31, 2022.

	NO. OF UNITS	AMOUNT	NO. OF UNITS	AMOUNT
Unit Capital	59,52,00,000	6,01,152.00	-	-

Rights/ preferences and restrictions attached to Unit Capital

Subject to the provisions of the InvIT Regulations, the indenture of funds, and applicable rules, regulations and guidelines, the rights of the unit holders include:

a) The beneficial interest of each unitholder shall be equal and limited to the proportion of the numbers of the units held by that unitholder to the total number of the units.
b) Right to receive income or distributions with respect to the units held.
c) Right to attend the annual general meeting and other meetings of the unit holders of the Trust.
d) Right to vote upon any matters/resolutions proposed in relation to the Trust.
e) Right to receive periodic information having a bearing on the operation or performance of the Trust in accordance with the InvIT Regulations; and
f) Right to apply to the Trust to take up certain issues at meetings for unit holders approval.
g) Right to receive additional information, if any, in accordance with InvIT documents filed with Placement Memorandum.
h) The non-sponsor unit holders ("Eligible Persons") of the Trust are entitled to representation on the Board of Directors of the Investment Manager through appointment of up to two (2) directors ("Non-Sponsor Directors"), provided that no Eligible Person shall have the right to nominate more than one Director at a time for appointment on the Board of Directors.

In accordance with the InvIT Regulations, no unit holders shall enjoy superior voting or any other rights over any other unit holders, and there shall not be multiple classes of units. There shall be only one denomination of units. Not withstanding the above, subordinate units may be issued only to the Sponsor and its Associates, where such subordinate units shall carry only inferior voting or any other rights compare to the other units.

Under the provisions of the InvIT Regulations, not less than ninety percent of the net distributable cash flows of the Trust is required to be distributed to the unitholders, and in accordance with such statutory obligation the Trust has formulated a distribution policy to declare and distribute the distributable cash flows to its unitholders once every quarter of a financial year as approved by the Board of Directors of the Investment Manager. The distributions made by Trust to its unitholders are based on the Net Distributable Cash Flows (NDCF) of the Trust under the InvIT Regulations and represent repayment of proportionate capital and share of profit.

Limitation to the Liability of the unit holders
